Required Disclosures

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

For information on the ways in which UBS manages conflicts and maintains independence of its UBS Global Research product; historical performance information; certain additional disclosures concerning UBS Global Research recommendations; and terms and conditions for certain third party data used in research report, please visit https://www.ubs.com/disclosures. Unless otherwise indicated, information and data in this report are based on company disclosures including but not limited to annual, interim, quarterly reports and other company announcements. The figures contained in performance charts refer to the past; past performance is not a reliable indicator of future results. Additional information will be made available upon request. UBS Securities Co. Limited is licensed to conduct securities investment consultancy businesses by the China Securities Regulatory Commission. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 06 July 2023 10:44 PM GMT. UBS has designated certain UBS Global Research department members as Derivatives Research Analysts where those department members publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient upon which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For the latest responses, please see the Quantitative Research Review Addendum at the back of this report, where applicable. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research team on the email above.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that with respect to each security or issuer that the analyst covered in this report: (1) all of the views expressed accurately reflect his or her personal views about those securities or issuers and were prepared in an independent manner, including with respect to UBS, and (2) no part of his or her compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Global Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	54%	22%
Neutral	FSR is between -6% and 6% of the MRA.	36%	21%
Sell	FSR is > 6% below the MRA.	10%	18%
Short-Term Rating	**Definition**	**Coverage[3]**	**IB Services[4]**
Buy	Stock price expected to rise within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%
Sell	Stock price expected to fall within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%

Source: UBS. Rating allocations are as of 31 March 2023.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.
3:Percentage of companies under coverage globally within the Short-Term rating category.
4:Percentage of companies within the Short-Term rating category for which investment banking (IB) services were provided within the past 12 months.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

KEY DEFINITIONS: Forecast Stock Return (FSR) is defined as expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is defined as the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged as UR by the analyst, indicating that the stock's price target and/or rating are subject to possible change in the near term, usually in response to an event that may affect the investment case or valuation. **Short-Term Ratings** reflect the expected near-term (up to three months) performance of the stock and do not reflect any change in the fundamental view or investment case. **Equity Price Targets** have an investment horizon of 12 months.

EXCEPTIONS AND SPECIAL CASES: UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record, discount; **Neutral:** Neutral on factors such as structure, management, performance record, discount; **Sell:** Negative on factors such as structure, management, performance record, discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Committee (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed to be very high or low risk may be subject to higher or lower bands as they relate to the rating. When such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by any non-US affiliate of UBS Securities LLC are not registered/ qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to the FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. The name of each affiliate and analyst employed by that affiliate contributing to this report, if any, follows.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions expressed in this document may change without notice and are only current as of the date of publication. Different areas, groups, and personnel within UBS may produce and distribute separate research products independently of each other. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. **Credit Suisse Global CIO Office Research** is produced by Credit Suisse Wealth Management. **Credit Suisse Securities Research** is produced by Credit Suisse operating under its Securities Research function within the Investment Banking Division. Research methodologies and rating systems of each separate research organization may differ, for example, in terms of investment recommendations, investment horizon, model assumptions, and valuation methods. As a consequence, except for certain economic forecasts (for which UBS CIO and UBS Global Research may collaborate), investment recommendations, ratings, price targets, and valuations provided by each of the separate research organizations may be different, or inconsistent. You should refer to each relevant research product for the details as to their methodologies and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy the document.

UBS Global Research is provided to our clients through UBS Neo, and in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each a system) as an approved means for distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties via e-mail or alternative electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss your access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or has made use of data provided by UBS Evidence Lab and you would like to access that data please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending upon various factors such as a client's individual preferences as to the frequency and manner of receiving communications, a client's risk profile and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term, etc.), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab and legal and regulatory constraints.

When you receive UBS Global Research through a system, your access and/or use of such UBS Global Research is subject to this UBS Global Research Disclaimer and to the UBS Neo Platform Use Agreement (the "Neo Terms") together with any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and cookie notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or by any other means, you agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and that you shall not extract data from any research or estimates provided to you via UBS Global Research or otherwise, without the prior written consent of UBS.

In certain circumstances (including for example, if you are an academic or a member of the media) you may receive UBS Global Research otherwise than in the capacity of a client of UBS and you understand and agree that (i) the UBS Global Research is provided to you for information purposes only; (ii) for the purposes of receiving it you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) the UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is a general communication and is educational in nature; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. The recipient should carefully read this document in its entirety and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "The Characteristics and Risks of Standardized Options." You may read the document at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks associated with these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies calling for multiple purchases and sales of options, such as spreads and straddles. Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions.

Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the Information.

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes:

(i) valuation or accounting purposes;

(ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or

(iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS Global Research manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. All material information in relation to published research reports, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history etc. as required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by UBS Global Research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms under English law or, if not carried out by UBS in the UK the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months UBS may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

United Kingdom: This material is distributed by UBS AG, London Branch to persons who are eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority and subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. **Europe:** Except as otherwise specified herein, these materials are distributed by UBS Europe SE, a subsidiary of UBS AG, to persons who are eligible counterparties or professional clients (as detailed in the Bundesanstalt fur Finanzdienstleistungsaufsicht (BaFin) Rules and according to MIFID) and are only available to such persons. The information does not apply to, and should not be relied upon by, retail clients. UBS Europe SE is authorised by the European Central Bank (ECB) and regulated by the BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE. In all cases it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for the purpose of offering, marketing and sale by any means of any capital market instruments and services in the Republic of Turkey. Therefore, this document may not be considered as an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, according to article 15 (d) (ii) of the Decree No. 32, there is no restriction on the purchase or sale of the securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce regulated by the Polish Financial Supervision Authority. Where an analyst of UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce. **Russia:** Prepared and distributed by UBS Bank (OOO). Should not be construed as an individual Investment Recommendation for the purpose of the Russian Law - Federal Law #39-FZ ON THE SECURITIES MARKET Articles 6.1-6.2.**Switzerland:** Distributed by UBS AG to persons who are institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** The information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties, as classified under the DFSA rulebook. No other person should act upon this material/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS Investment Bank is not licensed to provide banking services in the UAE by the Central Bank of the UAE, nor is it licensed by the UAE Securities and Commodities Authority. **Israel:** This Material is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer that is supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or in distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as such term is defined under the Israeli Advisory Law). Nothing in this Material should be considered as investment advice under the Israeli Advisory Law. This Material is being issued only to and/or is directed only at persons who are Eligible Clients within the meaning of the Israeli Advisory Law, and this Material must not be furnished to, relied on or acted upon by any other persons. **United States:** Distributed to US persons by either UBS Securities LLC or by UBS Financial Services Inc., subsidiaries of UBS AG; or by a group, subsidiary or affiliate of UBS AG that is not registered as a US broker-dealer (a **'non-US affiliate'**) to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this report must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG that is registered to conduct business in Canada or is otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this Material is prepared by UBS Brasil Corretora de Câmbio, Títulos e Valores Mobiliários S.A. (UBS Brasil CCTVM) to persons who are eligible investors residing in Brazil, which are considered to be Professional Investors (Investidores Profissionais), as designated by the applicable regulation, mainly the CVM Resolution No. 30 from the 11th of May 2021 (determines the duty to verify the suitability of products, services and transactions with regards to the client's profile). UBS Brasil CCTVM is a subsidiary of UBS BB Servicos de Assessoria Financeira e Participacoes S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB – Banco de Investimentos S.A.), of which UBS AG is the majority owner and which provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. **Hong Kong:** Distributed by UBS Securities Asia Limited. Please contact local licensed persons of UBS Securities Asia Limited in respect of any matters arising from, or in connection with, the analysis or document **Singapore:** Distributed by UBS Securities Pte. Ltd. [Co. Reg. No.: 198500648C] or UBS AG, Singapore Branch. Please contact UBS Securities Pte. Ltd., an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110); or UBS AG, Singapore Branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or document. The recipients of this document represent and warrant that they are accredited and institutional investors as defined in the Securities and Futures Act (Cap. 289). **Japan:** Distributed by UBS Securities Japan Co., Ltd. to professional investors (except as otherwise permitted). Where this report has been prepared by UBS Securities Japan Co., Ltd., UBS Securities Japan Co., Ltd. is the author, publisher and distributor of the report. Distributed by UBS AG, Tokyo Branch to Professional Investors (except as otherwise permitted) in relation to foreign exchange and other banking businesses when relevant. **Australia:** Clients of UBS AG: Distributed by UBS AG (ABN 47 088 129 613 and holder of Australian Financial Services License No. 231087). Clients of UBS Securities Australia Ltd: Distributed by UBS Securities Australia Ltd (ABN 62 008 586 481 and holder of Australian Financial Services License No. 231098). This document contains general information and/or general advice only and does not constitute personal financial product advice. As such, the Information in this document has been prepared without taking into account any investor's objectives, financial situation or needs, and investors should, before acting on the Information, consider the appropriateness of the Information, having regard to their objectives, financial situation and needs. If the Information contained in this document relates to the acquisition, or potential acquisition of a particular financial product by a 'Retail' client as defined by section 761G of the Corporations Act 2001 where a Product Disclosure Statement

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

would be required, the retail client should obtain and consider the Product Disclosure Statement relating to the product before making any decision about whether to acquire the product. **New Zealand:** Distributed by UBS New Zealand Ltd. UBS New Zealand Ltd is not a registered bank in New Zealand. You are being provided with this publication or material because you have indicated to UBS that you are a "wholesale client" within the meaning of section 5C of the Financial Advisers Act 2008 of New Zealand (Permitted Client). This publication or material is not intended for clients who are not Permitted Clients (non-permitted Clients). If you are a non-permitted Client you must not rely on this publication or material. If despite this warning you nevertheless rely on this publication or material, you hereby (i) acknowledge that you may not rely on the content of this publication or material and that any recommendations or opinions in such this publication or material are not made or provided to you, and (ii) to the maximum extent permitted by law (a) indemnify UBS and its associates or related entities (and their respective Directors, officers, agents and Advisors) (each a 'Relevant Person') for any loss, damage, liability or claim any of them may incur or suffer as a result of, or in connection with, your unauthorised reliance on this publication or material and (b) waive any rights or remedies you may have against any Relevant Person for (or in respect of) any loss, damage, liability or claim you may incur or suffer as a result of, or in connection with, your unauthorised reliance on this publication or material. **Korea:** Distributed in Korea by UBS Securities Pte. Ltd., Seoul Branch. This report may have been edited or contributed to from time to time by affiliates of UBS Securities Pte. Ltd., Seoul Branch. Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies and styles approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or Sustainable Investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio consisting primarily of sustainable investments may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ. Companies may not necessarily meet high performance standards on all aspects of ESG or sustainable investing issues; there is also no guarantee that any company will meet expectations in connection with corporate responsibility, sustainability, and/or impact performance.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosures_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Bahrain: UBS is a Swiss bank not licensed, supervised or regulated in Bahrain by the Central Bank of Bahrain to undertake banking or investment business activities in Bahrain. Therefore, prospects/clients do not have any protection under local banking and investment services laws and regulations. **Brazil**: This report is only intended for Brazilian residents who are directly purchasing or selling securities in the Brazil capital market through a local authorized institution. **Canada**: The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. Under no circumstances is the information contained herein to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada or, alternatively, pursuant to a dealer registration exemption. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon these materials, the information contained herein or the merits of the securities described herein and any representation to the contrary is an offence. In Canada, this publication is distributed by UBS Investment Management Canada Inc. **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Czech Republic**: UBS is not a licensed bank in the Czech Republic and thus is not allowed to provide regulated banking or investment services in the Czech Republic. This communication and/or material is distributed for marketing purposes and constitutes a "Commercial Message" under the laws of Czech Republic in relation to banking and/or investment services. Please notify UBS if you do not wish to receive any further correspondence. **Denmark**: This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annae Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed without the consent of UBS. None of the Material has been registered or filed under the prevailing laws and with any financial or regulatory authority in your jurisdiction. The Material may not have been approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. In Israel, UBS Switzerland AG is registered as Foreign Dealer in cooperation with UBS Wealth Management Israel Ltd., a wholly owned UBS subsidiary. UBS Wealth Management Israel Ltd. is an Investment Marketing licensee which engages in Investment Marketing and is regulated by the Israel Securities Authority. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. No action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Nigeria**: The investment products mentioned in this material are not being offered or sold by UBS to the public in Nigeria and they have not been submitted for approval nor registered with the Securities and Exchange Commission of Nigeria. If you are interested in products of this nature, please let us know. The investment products mentioned in this material are not being directed to, and are not being made available for subscription by any persons within Nigeria other than the selected investors to whom the offer materials have been addressed as a private sale or domestic concern within the exemption and meaning of Section 69(2) of the Investments and Securities Act, 2007 (ISA). This material has been provided to you at your specific unsolicited request and for your information only. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: UBS Switzerland AG is not licensed to conduct banking and financial activities in Portugal nor is UBS Switzerland AG supervised by the portuguese regulators (Bank of Portugal "Banco de Portugal" and Portuguese Securities Exchange Commission "Comissão do Mercado de Valores Mobiliários"). **Qatar**: UBS Qatar LLC is authorized by the Qatar Financial Centre Regulatory Authority, with QFC no. 01169, and has its registered office at 14th Floor, Burj Alfardan Tower, Building 157, Street No. 301, Area No. 69, Al Majdami, Lusail, Qatar. UBS

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

Qatar LLC neither offers any brokerage services nor executes any order with, for or on behalf of its clients. A client order will have to be placed with, and executed by, UBS Switzerland AG in Switzerland or an affiliate of UBS Switzerland AG, that is domiciled outside Qatar. It is in the sole discretion of UBS Switzerland AG in Switzerland or its affiliate to accept or reject an order and UBS Qatar LLC does not have authority to provide a confirmation in this respect. UBS Qatar LLC may however communicate payment orders and investment instructions to UBS Switzerland AG in Switzerland for receipt, acceptance and execution. UBS Qatar LLC is not authorized to act for and on behalf of UBS Switzerland AG or an affiliate of UBS Switzerland AG. This document and any attachments hereto are intended for eligible counterparties and business customers only. **Russia**: This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia**: UBS Saudi Arabia is authorised and regulated by the Capital Market Authority to conduct securities business under licence number 08113-37. **Singapore**: Clients of UBS AG Singapore branch are asked to please contact UBS AG Singapore branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or report. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved or endorsed by any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Sweden**: This publication is not intended to constitute a public offer under Swedish law. It is distributed only for information purposes to clients of UBS Europe SE, Sweden Bankfilial, with place of business at Regeringsgatan 38, 11153 Stockholm, Sweden, registered with the Swedish Companies Registration Office under Reg. No 516406-1011. UBS Europe SE, Sweden Bankfilial is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Swedish supervisory authority (Finansinspektionen), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Taiwan**: This material is provided by UBS AG, Taipei Branch in accordance with laws of Taiwan, in agreement with or at the request of clients/prospects. **Thailand**: This communication and any offering material, term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication were done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Turkey**: The information in this document is not provided for the purpose of offering, marketing or sale of any capital market instrument or service in the Republic of Turkey. Therefore, this document may not be considered as an offer made, or to be made, to residents of the Republic of Turkey in the Republic of Turkey. UBS Switzerland AG is not licensed by the Turkish Capital Market Board (the CMB) under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instrument/service may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the CMB. However, according to article 15 (d) (ii) of the Decree No. 32 residents of the Republic of Turkey are allowed to purchase or sell the financial instruments traded in financial markets outside of the Republic of Turkey. Further to this, pursuant to article 9 of the Communiqué on Principles Regarding Investment Services, Activities and Ancillary Services No. III-37.1, investment services provided abroad to residents of the Republic of Turkey based on their own initiative are not restricted. **United Arab Emirates (UAE)**: UBS is not a financial institution licensed in the UAE by the Central Bank of the UAE nor by the Emirates' Securities and Commodities Authority and does not undertake banking activities in the UAE. UBS AG Dubai Branch is licensed by the DFSA in the DIFC. This document is provided for your information only and does not constitute financial advice. **United Kingdom**: This document is issued by UBS Wealth Management, a division of UBS AG which is authorised and regulated by the Financial Market Supervisory Authority in Switzerland. In the United Kingdom, UBS AG is authorised by the Prudential Regulation Authority and is subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. Details about the extent of regulation by the Prudential Regulation Authority are available from us on request. A member of the London Stock Exchange. This publication is distributed to retail clients of UBS Wealth Management. **Ukraine**: UBS is not registered and licensed as a bank/financial institution under Ukrainian legislation and does not provide banking and other financial services in Ukraine. UBS has not made, and will not make, any offer of the mentioned products to the public in Ukraine. No action has been taken to authorize an offer of the mentioned products to the public in Ukraine and the distribution of this document shall not constitute financial services for the purposes of the Law of Ukraine "On Financial Services and State Regulation of Financial Services Markets" dated 12 July 2001. Any offer of the mentioned products shall not constitute an investment advice, public offer, circulation, transfer, safekeeping, holding or custody of securities in the territory of Ukraine. Accordingly, nothing in this document or any other document, information or communication related to the mentioned products shall be interpreted as containing an offer, a public offer or invitation to offer or to a public offer, or solicitation of securities in the territory of Ukraine or investment advice under Ukrainian law. Electronic communication must not be considered as an offer to enter into an electronic agreement or other electronic instrument within the meaning of the Law of Ukraine "On Electronic Commerce" dated 3 September 2015. This document is strictly for private use by its holder and may not be passed on to third parties or otherwise publicly distributed. **USA**: Distributed to US persons by UBS Financial Services Inc. or UBS Securities LLC, subsidiaries of UBS AG. UBS Switzerland AG, UBS Europe SE, UBS Bank, S.A., UBS Brasil Administradora de Valores Mobiliários Ltda., UBS Asesores México, S.A. de C.V., UBS SuMi TRUST Wealth Management Co., Ltd., UBS Wealth Management Israel Ltd. and UBS Menkul Degerler AS are affiliates of UBS AG. **UBS Financial Services Inc. accepts responsibility for the content of a report prepared by a non-US affiliate when it distributes reports to US persons. All transactions by a US person in the securities mentioned in this report should be effected through a US-registered broker dealer affiliated with UBS, and not through a non-US affiliate. The contents of this report have not been and will not be approved by any securities or investment authority in the United States or elsewhere. Power & Utilities

June 29, 2023

The Guggenheim Daily Transmission: EXC/IL, MD, PCG, CNP, ETR, NEE/ED, DTE, ERCOT, Talen, Nuclear, CEG

SAVE THE DATE: Our 2nd Annual Guggenheim Georgia Field Trip: Southern Company (SO), Racing Porsches & GA Commissioner Meetings, will take place July 11 & 12 in Atlanta...

For details on our Guggenheim-hosted client Utility events including our SRE NDR, LNT NDR, PNW NDR, AWK NDR, ED NDR, CMS NDR, SO NDR, POR NDR, CEG NDR, PEG NDR, and other events, scroll down...

EXC/IL – ComEd files rebuttal testimony in MYP

MD – PSC Chair Stanek to depart

PCG – PG&E applies for $7B in federal loan funding for wildfire mitigation and undergrounding

CNP – CNP announces MN gas innovation investments in MN

ETR – ETR receives timeline for PFD in ETR TX rate case on unsettled issues

NEE/ED – MVP received order authorizing construction activities on MVP after receiving key permits

DTE – DTE promotes Joi Harris to COO of DTE Energy

ERCOT – ISO Staff file technical update on reliability standard work

Talen – Talen publishes updated presentation

Nuclear – Microsoft reportedly exploring SMR PPAs

CEG – Constellation inks nuclear power agreement with Microsoft

EXC/IL – ComEd files rebuttal testimony in MYP

- ComEd has filed voluminous rebuttal testimony in its ongoing inaugural MYP in IL
- Overview of filings and exhibit details available HERE
- "I disagree with Mr. McNally that the Rate Plan makes ComEd less risky than the proxy companies, particularly those with traditional ratemaking paradigms. As discussed in further detail below, nearly all of the comparator companies have many similar alternative regulatory mechanisms and cost recovery protections as ComEd, though not necessarily in a similarly bundled package as the Rate Plan." – Witness on ROE
- ROE testimony HERE
- More HERE

Guggenheim takeaway: *Heads up on the voluminous filings, which we continue to parse – our most immediate point of interest in the case of ComEd was the pushback regarding ROE and the ICC Staff's draconian decision to recommend the continuation of the FRP formula – ComEd's rebuttal has a lengthy pushback on why this was an erroneous move. As a reminder ComEd's bid-ask on equity layer was less of a concern vs. some peers (tighter spread) – we continue to dig on the capital rebuttals.*

MD – PSC Chair Stanek to depart

- Jason M. Stanek, chairman of the PSC, announced he will depart the commission June 30th

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

- More HERE

Guggenheim takeaway: *Interesting data point flagged for your awareness. The MD PSC continues to undergo significant reshaping under Governor Wes Moore- this will be his third seat following earlier departures in 1H23.*

PCG – PG&E applies for $7B in federal loan funding for wildfire mitigation and undergrounding

- PG&E applied for a federal funding on wildfire mitigation and undergrounding.
- The federal loan program would help offset customer costs on the order of $20M per $1B of approved funding.
- The total application is for $7B.

Guggenheim takeaway: *FYI. The federal funding could materially accelerate PG&E undergrounding efforts. While the 10 year undergrounding plan is still in the works, the current GRC cycle includes a ramp up in undergrounding and the company is still targeting a 10,000 deployment over time (i.e., ~$20B+ at current unit cost rates).*

CNP – CNP announces MN gas innovation investments in MN

- CNP announced clean gas and efficiency projects in MN under the MN Natural Gas Innovation Act (NGIA).
- The projects include alternative gases such as renewable natural gas and green hydrogen, as well as pioneering technologies such as a networked geothermal district energy system and end-use carbon capture.
- Under NGIA, at least 50% of an innovation plan's total investments must be dedicated to procurement or distribution of certain alternative gases.
- The total proposed budget for all projects is about $106 million over five years.
- More here.

Guggenheim takeaway: *FYI. The NGIA in MN will allow some critical innovation pilots that can inform future investments.*

ETR – ETR receives timeline for PFD in ETR TX rate case on unsettled issues

- PUCT noted that the exceptions to the PFD on the unsettled issues in the ETR TX rate case are due July 12, 2023 and the PFD will be on the August 3, 2023 PUCT open meeting calendar.
- PUCT Staff previously filed letters of support for ETR's unopposed settlement in the Texas rate case.
- The settlement approves a $54M revenue increase vs. a $131M request, premised on a 9.57% ROE (vs. 9.8% prior authorized and 10.8% requested) and 51.21% Equity Ratio (no change).
- The settlement also approves the full test year rate base to be used and useful and the parties are requesting interim rates as the proceeding still has certain EV issues outstanding (no major earnings impact).
- Docket: 53719.

Guggenheim takeaway: *FYI. Remaining issues are not earnings impactful. The impact of the settlement is constructive and is proposed to be effective December 2022, and we note that a 10bp sensitivity vs. embedded expectations on ROE would result in only $0.01 deviation in EPS. More thoughts in our note* HERE.

NEE/ED – MVP received order authorizing construction activities on MVP after receiving key permits

- MVP received FERC approval to commence construction activities on MVP that were halted at 90%+ after court appeals invalidated certain land and river crossings.
- After Congress passed a debt ceiling deal which expedited approval of new permits and removed the appeals option, MVP received all necessary permits including US Army Corps of Engineers.
- The project developer still anticipates a 2023 year end completion.
- FERC Docket: CP16-10. / CP21-57

Guggenheim takeaway: *FERC approval is the last piece needed for MVP completion. Both ED and NEE have taken major write downs on the MVP project (i.e., not in financial*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

guidance) and would not include any upsides in near term plans. Longer term, the prospect of MVP completion could enable a strategic process (ED specifically mentioned and executed an exit from gas midstream over the past 2 years). At nominal cost the value of MVP is ~1-2% of market cap.

DTE – DTE promotes Joi Harris to COO of DTE Energy

- DTE announced that Joi Harris would be promoted to COO of DTE Energy.
- Harris has served most recently as President and Chief Operating Officer of DTE Gas Company since October 2021.

Guggenheim takeaway: *FYI.*

ERCOT ─ ISO Staff file technical update on reliability standard work

- "In this next phase of the reliability standard study, ERCOT proposes to model the initial 48 scenarios outlined in the attachment and, after reviewing the results, model all or a portion of the remaining 42 scenarios identified. ERCOT can also model further scenarios or parameter sensitivities identified by the Commission following the review of results. The portfolio scenarios are designed to simulate frequency, duration, and magnitude outcomes across a range of Resource mixes. These parameters were developed as a starting point based on initial modeling results and industry standards." - letter
- More HERE

Guggenheim takeaway: *We continue to monitor the process around the establishment of the reliability standard, as it will form a key underpinning to some of the forthcoming market mechanisms (e.g., PCM). As a reminder ERCOT was unique among RTOs/ISOs for not having a standard.*

Talen ─ Talen publishes updated presentation

- The 6/28 presentation provides significant timely detail on the enterprise, including its BTM (data center) work
- More HERE

Guggenheim takeaway: *IPP/power data points for your awareness as Talen inches closer to an exchange listing. We will continue to monitor this situation.*

Nuclear ─ Microsoft reportedly exploring SMR PPAs

- Microsoft is in 'intensive discussions with several reactor vendors' and could potentially 'need 30-50' reactors to support data center load, according to executive remarks at a recent conference
- The comments came from Todd Noe, the company's director of nuclear technologies, at an advanced reactor conference, per Platts

Guggenheim takeaway: *The lack of big tech involvement in either advanced nuclear or existing nuclear remains somewhat perplexing in our view given the immediate interest in decarbonization and the attractive technical characteristics of nuclear gen (e.g., Talen's BTM). The potential for corporate involvement in FOAK commercialization (e.g., CFPP subscriptions) remains a point of intense interest for us.*

CEG ─ Constellation inks nuclear power agreement with Microsoft

- The IPP inked an agreement with the software company to provide up to 35% nuclear power alongside renewables supplies to fully decarbonize a VA datacenter
- "Constellation (NASDAQ: CEG) today announced an agreement with Microsoft to significantly reduce the carbon footprint of one of Microsoft's data centers in Boydton, Virginia. Under the agreement, the facility will receive up to 35 percent in environmental attributes from nuclear power, complementing the company's new wind and solar purchases. This agreement puts Microsoft very close to its goal of operating the data center on 100 percent carbon-free electricity around the clock, further proof that hourly, regional matching of clean energy to demand is both practical and feasible today with suitable infrastructure and energy innovation." - release
- More HERE

Guggenheim takeaway: *These are exactly the kind of contracts we have been on the lookout for in the nuclear space (as noted above on the SMR data point), with vociferous*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

data center growth feeding a need from tech companies for consistent clean power – we remain on the lookout for additional data points like these in the coming quarters.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

Equity Research | Corporate Access

Sempra (SRE)

Jeffrey Martin, *President & Chief Executive Officer*
Trevor Mihalik, *Chief Financial Officer*
Kevin Sagara, *Group President*
Allen Nye, *Chief Executive Officer, Oncor*
Justin Bird, *Chief Executive Officer, Sempra Infrastructure*
Faisel Khan, *Chief Financial Officer, Sempra Infrastructure*

Date & Location
June 28 – June 30, 2023
New York

Meeting Format
NDR - 1:1 Meetings & Group Lunch

Company Information
Market Cap: $46.6bn
Sempra (SRE) is an energy-service holding company that engages in the development and operation of energy infrastructure and provision of electric and gas services. It operates through the following segments: San Diego Gas and Electric Company (SDG&E), Southern California Gas Company (SoCalGas), Sempra Texas Utilities, Sempra Mexico, and Sempra LNG. The SDG&E segment offers electric and natural gas services. The SoCalGas segment owns and operates a natural gas distribution, transmission, and storage systems. The Sempra Texas Utilities segment comprises the equity method investments in Oncor Holdings and Sharyland Holdings. The Sempra Mexico segment includes the operating companies of IENova. The Sempra LNG segment develops natural gas storage and related pipeline facilities. The company was founded on October 11, 1996, and is headquartered in San Diego, CA. (Source: FactSet)

SAVE THE DATE
2nd Annual Guggenheim Georgia Field Trip: Southern Company (SO)/Georgia Power C-Suites, Porsche Racing & GA Commissioner Meetings

What does Southern Company & Georgia Power C-Suite meetings, Georgia Commissioner meetings and racing Porsches on race tracks have in common? Almost nothing! But we are combining all of them for an action-packed 2 days in GA. Please join the Guggenheim Utilities Research Team in Atlanta, GA on July 11 and 12.

Dates and Location

July 11 & 12, 2023 — Atlanta, Georgia

Schedule

Tuesday, July 11th

We advise flying in the morning of Tuesday, July 11. Recommended flights to follow.

~1:00 PM | Georgia PSC Meetings
Tricia Pridemore, PSC Chair, *Commissioner*
Tim Echols, Vice-Chairman, *Commissioner*
Fitz Johnson, *Commissioner*
Lauren "Bubba" McDonald, *Commissioner*
Jason Shaw, *Commissioner*

~6:00 PM | Client Dinner with Southern Company (SO) C-Suite
Chris Womack, *President & Chief Executive Officer (Incoming)*
Dan Tucker, *Chief Financial Officer*
Scott Gammill, *VP of Investor Relations & Treasurer*
Among others

Wednesday, July 12th

8:30 AM | Porsche Racing Experience
Experience the thrill of the drive at the Porsche Experience Center. Attendees will drive vehicles from the full Porsche model range with driving coaches by their side in a race-controlled atmosphere. See: https://www.porschedriving.com/atlanta

1:00 PM | Lunch with Southern Company (SO) and Georgia Power C-Suite
Kim Greene, *Chair, President & Chief Executive Officer (Georgia Power)*
Dan Tucker, *Chief Financial Officer (SO)*
Aaron Abramovitz, *Chief Financial Officer (Georgia Power)*
Among others

Company Information

Market Cap: $73.3bn

Southern Co (SO) is a holding company, which engages in the generation and sale of electricity. It operates through the following segments: Traditional Electric Operating Companies, Southern Power and Southern Company Gas. The Traditional Electric Operating Companies segment refers to vertically integrated utilities that own generation, transmission and distribution facilities, and supplies electric services in the states of Alabama, Georgia, and Mississippi. The Southern Power segment constructs, acquires, owns, and manages generation assets such as renewable energy projects and sells electricity in the wholesale market. The Southern Company Gas segment distributes natural gas through natural gas distribution facilities in the states of Illinois, Georgia, Virginia, and Tennessee. The company was founded on November 9, 1945, and is headquartered in Atlanta, GA. (Source: FactSet)

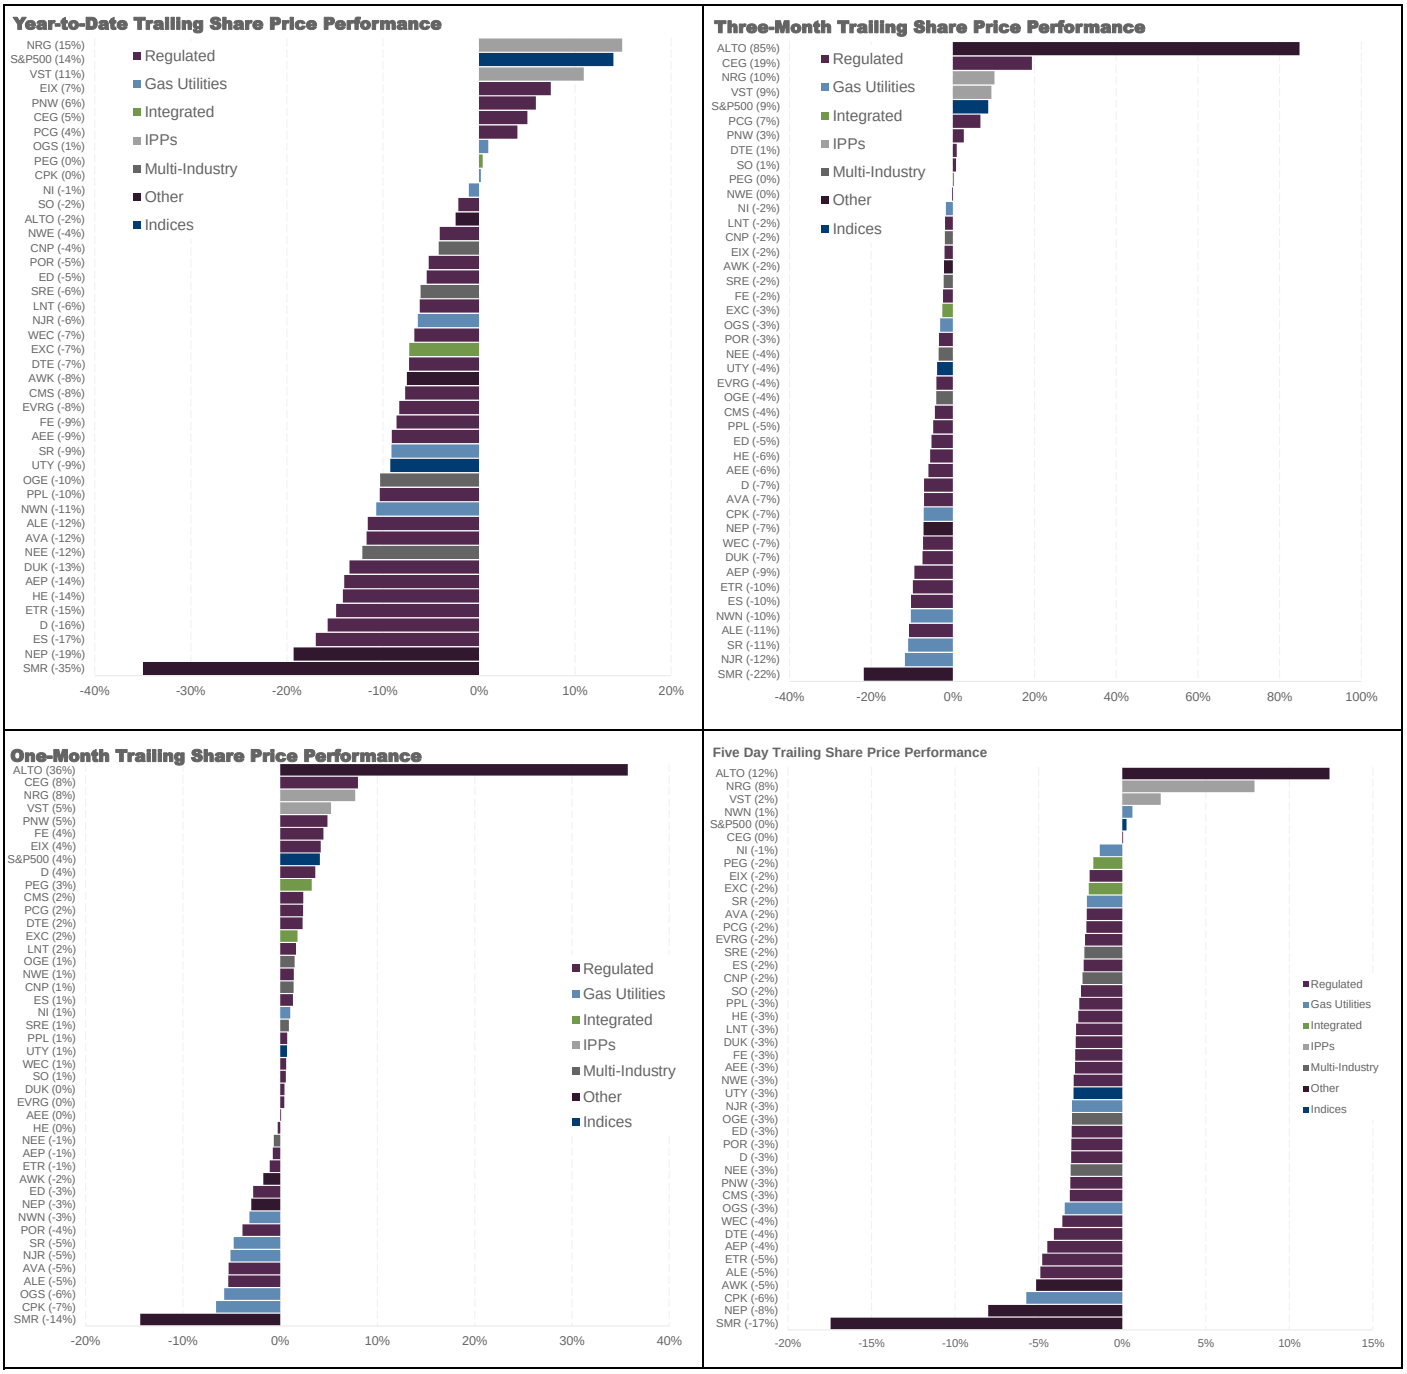
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

OTHER DISCLOSURES

This research is for our clients and prospective clients only. Other than disclosures relating to Guggenheim Securities and its affiliates, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the research analyst's judgement. Guggenheim Securities conducts a full-service, integrated investment banking and brokerage business, and one or more of its affiliates conducts an investment management business. Guggenheim Securities is a member of SIPC (http://www.sipc.org). Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and our employees trading for our own account that reflect opinions that are contrary to the opinions expressed in this research. Guggenheim Securities or certain of its affiliates conducts an investment management business, trades for its own account, and conducts an investment business, and may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

We and our affiliates, officers, directors, and employees, excluding equity and credit analysts, will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research. We and our affiliates also may sell to or buy from customers

Alert

June 28, 2023

Energy: Electric Utilities

Midweek Thoughts — EXC, NWE, SRE, AVA, CNP, SRE, ETR, AEP, XEL

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, ComEd files rebuttal testimony in the IL electric MYRP; NWE files an electric rate case with SD PUC; the comment period closes on the EPA-proposed rule strengthening Mercury and Air Toxic Standards for generators; SRE requests FERC authorization to increase construction efficiency at Port Arthur; AVA kicks off the 2023 natural gas IRP process; the TX governor signs several energy-related bills that were awaiting action; EIX signs a 15-year PPA for a 126 MW battery storage facility; and the AK governor appoints a new commissioner to the RCA.

Industry News and News from Companies in Our Coverage

EXC — ComEd files rebuttal testimony in IL electric MYRP: ComEd's rebuttal testimony includes a $1,550M revenue request over 2024-2027 (Docket: 23-0055). This compares to Staff's recommendation for a $1,039M revenue increase and EXC's initial request for a $1,501M revenue increase. EXC requests a phase-in of new rates by deferring 35% of the 2024 base rate increase, or $343M, for later recovery.

- **ROE:** ComEd argues that Staff's recommended 8.9% ROE using 580 bps over the 2022 U.S. Treasury Bond yield of 3.114% is no longer applicable since that option existed only under the IL Energy Infrastructure Modernization Act, which expired at the end of 2022, and the provisions of the CEJA require that the ROE be determined under current commission law. Staff calculated ROE midpoints of 9.23% and 10.87% in its analysis using the traditional DCF and CAPM methods, respectively.
- **Equity Layer:** ComEd maintained its request for an equity ratio of 50.50% equity in RY1 with annual step-ups to 50.74%, 50.96%, and 51.12% for RY2, 3, and 4, respectively. This compares to Staff's recommendation for a flat 50%. ComEd argues that Staff analyzes the capital structure on a backward-looking basis, which does not reflect current economic conditions.
- **What's next?** A proposed order is due on October 23, and December 20 is the ICC's deadline to issue a decision. We expect the rate case to be fully litigated given that it is the first MYRP filed since the passage of the CEJA, which changed the rate-making structure in IL from the annual formula rate plans.

Figure 1 - EXC IL MYRP Rebuttal Testimony vs. Staff Testimony

Summary ($M)	2023	2024	2025	2026	2027	Total
EXC						
Revenue Requirement	3,037.5	4,017.8	4,196.5	4,385.1	4,587.3	
Revenue Increase		980.2	178.8	188.6	202.2	**$1,549.8**
Deferred 2024 Revenue to be phased in later						343.1
Other (unreconciled)						(1.9)
Total Revenue Requirement per EXC revised testimony						1,891.0
Staff						
Revenue Requirement	3,046.0	3,694.6	3,821.3	3,972.2	4,084.8	
Revenue Increase		648.6	126.7	150.9	112.6	**$1,038.8**

Source: Regulatory filings, KeyBanc Capital Markets Inc.

NWE — NWE files an electric rate case with SD PUC: NWE filed an electric rate case (Docket: EL23-016) seeking a $31M revenue increase, premised on a 10.7% ROE, 50.5% equity, and a $787M rate base. The request includes the recovery of $267M of capital investment since 2014, including the $86M Bob Glanzer Generation Station. NWE also seeks to adjust the rate base to include plant additions placed in service before the completion of the rate case, including $7.2M for the planned Chamberlain Junction transmission project. The filing includes changes in depreciation rates and deferred tax assets. NWE's last rate filing in SD was in 2015, when it received a $41M revenue increase, premised on a 7.24% overall return. That compares to NWE's 7.54% ask in the rate case. Based on recent SD rate cases, a PUC decision is expected in the first half of 2024.

NWE — Comment period closes on EPA-proposed rule strengthening Mercury and Air Toxic Standards for generators: The comment period closed last Friday on the new proposed rules regarding strengthening MATS rules for coal- and oil-fired electric generating units. Colstrip is the only facility impacted by the proposed rule, requiring significant capital investments to comply with the new standards or to close the plant.

- NWE filed comments requesting the EPA either withdraw the rule, create a subcategory that exempts facilities with wet scrubber technology until the next risk and technology review, or create a retirement subcategory that exempts facilities as long they opt in to a retirement date before 2036. Talen also provided comments, including an analysis that determined the new rules would require $350M of incremental capital and $15M of annual operating costs.
- Colstrip is a base-load resource to supplement variable renewable resources in the supply-constrained West. In its latest IRP filing (read more here), NWE modeled and evaluated scenarios for the closure of Colstrip in 2025, 2030, 2035, and 2042. The 2025 and 2030 closure scenarios highlight extreme market risk. If the Colstrip owners were required to invest in the necessary equipment, the higher costs would result in higher rates or redirection of capital from other planned projects, reducing regional reliability. NWE currently owns 222 MW in Unit 4 and will acquire a 111 MW ownership stake in Colstrip Units 3 and 4 in 2026.
- As background, the EPA recently proposed the first update to the 2012 Mercury and Air Toxic Standard (MATS) rule for power plants, recommending tightening the standard for non-mercury metal hazardous air pollutant emissions by 67% and reducing the filterable particulate matter emission standard to 0.01 lb/MMBtu from 0.03 lb/MMBtu. The EPA also proposed that plants that burn lignite must cut mercury emissions by 70% to align with limits for other coal-fired power plants. According to the EPA's analysis, ~4,800 MW of coal-fired capacity would need to install pollution control equipment to meet the proposed standards, and 500 MW would retire in 2028. The EPA hopes to implement final rules by March 2024.

SRE — SRE requests FERC authorization to increase construction efficiency at Port Arthur: SRE requested authorization to increase the peak workforce to 6,000/day and implement a 24/7 construction schedule at the Port Arthur LNG facility, vs. a 3,000/day workforce and a daily construction schedule from 7:00 AM to 10:00 PM. The adjustments would allow SRE to maximize construction efficiency and improve the chances of meeting the construction deadline. SRE has until June 2028 to complete the project after FERC issued a 50-month extension to build the Port Arthur LNG facility and associated natural gas pipelines. Once complete, Port Arthur will consist of two LNG trains, storage, and related infrastructure. SRE requested a FERC decision on the workforce and schedule requests by February 16, 2024.

AVA — AVA kicks off the 2023 natural gas IRP process: AVA filed a presentation of its 2023 natural gas IRP, which will be discussed tomorrow, June 29, during a special public meeting with the OR PUC. The presentation highlights the Company's preferred resource strategy to meet the expected 0.9% average annual growth through 2045. AVA's OR resource options include a combination of RNG, wastewater treatment plants, EE, community climate investments, and conventional natural gas to meet forecasted demand. AVA could add synthetic methane in the 2030s. As a reminder, AVA filed the IRP with the ID, OR, and WA utility commissions. AVA's filing includes strategies to comply with OR's Climate Protection Program and WA's Climate Commitment Act while meeting forecasted system energy demand. Across the portfolio strategies, AVA will rely heavily on procuring natural gas and energy efficiency. AVA is required to file a natural gas IRP with the OPUC, WUTC, and IPUC every two years.

CNP, SRE, ETR, AEP, XEL — TX governor passes several energy-related bills, closing out the legislative session: Governor Abbott signed four bills into law: SB 1015, HB 2555, SB 1094, and HB 4885. The 2023 session focused on grid security, and the outcomes of these bills will likely shape utility rate filings in the state, including CNP's upcoming Houston Electric filing. We highlight the bills below:

- **SB 1015:** The bill relates to periodic non-fuel rate adjustments petitioned by a utility based on capital investments made. The bill proposes permitting up to two annual rate adjustments vs. one currently. The bill is effective immediately.
- **HB 2555:** The bill allows T&D utilities to file for PUC preapproval of resilience programs that are a minimum of three years. The utilities can propose a system resilience plan to harden electrical T&D facilities, and underground distribution lines, install lightning and flood mitigation measures, implement cybersecurity measures, and implement vegetation management and wildfire mitigation and response. Utilities are able to seek a rider or be eligible to defer the cost as a regulatory asset. The bill is effective immediately.
- **SB 1094:** The bill allows electric utilities to apply for preapproval of power purchase agreements exceeding three years. The bill is effective September 1.
- **HB 4885:** The bill updates the Texas emissions-reduction plan to provide funding for hydrogen infrastructure, vehicles, and equipment to accelerate the transition to cleaner transportation options. The bill is effective September 1.

EIX — EIX signs 15-year PPA for 126 MW battery storage facility: EIX signed a 15-year PPA with Leeward Renewable for the 126 MW Antelope Valley battery storage project. Construction is expected to start in the middle of 2023 and be completed by early 2024. The project was one of the six approved SCE proposed lithium-ion battery storage contracts with a total capacity of ~625 MW/2,500 MWh. SCE submitted these projects in response to the CPUC's order for load-serving entities to procure at least 11.5 GW of clean energy resources between 2023 and 2026. SCE has secured ~2.4 GW of its required 4 GW of clean energy resources.

Sophie Karp
(917) 368-2361 / sophie.karp@key.com

AVA — AK governor appoints new commissioner to the RCA; RCA reelects chair: Alaska Governor Mike Dunleavy appointed John Espindola to the Regulatory Commission of AK. Mr. Espindola replaces former Commissioner Dan Sullivan and will serve through March 1, 2025. Mr. Espindola began serving immediately but is subject to Senate confirmation, which will likely be taken up during the 2024 legislative session. The RCA also reelected Keith Kluber to a second one-year term as the RCA chair. Chair Kluber's term extends through March 2027, but a commissioner may not serve more than three consecutive terms as chair. The RCA is a five-person, governor-appointed commission. We are watching AVA's AEL&P electric rate case for a $3.2M revenue increase. Interim rates were enacted in September, and an RCA decision is expected in 4Q23.

PCG – PG&E prepares public for wildfire season mitigation response including PSPS

ED – Intervenor files late statement of opposition to residential rate increases in CECONY Steam rate case

LNT – IUB rolls 200MW solar and 75MW BESS advanced ratemaking into Duane Arnold rehearing

Talen – Talen shares list to OTC Pink Market

FE – Order denying rehearing in Maryland case

- On June 5th, the OPC filed a motion for rehearing of Commission Order 90615.
- "As the Commission noted in Order No. 90615, OPC simply seems unwilling to accept the fact that the proper investigations into that misconduct were conducted by the relevant federal authorities, including the U.S. Department of Justice, SEC and FERC and the State of Ohio, entities with actual subpoena power over FirstEnergy and FESC." – filing linked in docket below.
- Docket 9667

Guggenheim takeaway: *We note that in Order No. 90615, the Commission concluded that the record does not justify extending this investigation to entities outside of Maryland.*

AEP – KPSC orders response to allegations filed against Kentucky Power

- "The Commission explained that it "is concerned about the future of Kentucky Power as a utility and about the customers it serves in Eastern Kentucky." – linked KPSC order
- The KPSC ordered that Kentucky Power shall submit to the Commission, within 30 days of service of its Order, a written response to the allegations contained in the Order.
- This case was initiated on September 15, 2021, under KRS 278.250, which authorizes the Commission to investigate the condition of any jurisdictional utility, and KRS 278.260, which authorizes the Commission to investigate the rates or service of a jurisdictional utility on the Commission's own motion.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

- Docket 2021-00370

Guggenheim takeaway: *We highlight that in the final Order in case 2023-00145, the Commission denied Kentucky Power's request to defer $11.5m into a regulatory asset, finding, among other things, that Kentucky Power did not provide sufficient evidence to meet its burden that the costs were prudently incurred.*

VST – DOJ antitrust division examining Energy Harbor deal

- PJM received a Civil Investigative Demand regarding operating details within PJM
- "Pursuant to Amended and Restated Operating Agreement of PJM Interconnection, L.L.C. (Operating Agreement), section 18.17.2(a), PJM Interconnection, L.L.C. (PJM) is hereby notifying Members that on June 20, 2023, PJM received a Civil Investigative Demand (CID) from the United States Department of Justice - Antitrust Division. The CID requires PJM to produce documents and answer interrogatories in connection with Vistra Corp.'s proposed acquisition of Energy Harbor Corp. A copy of that CID is available for viewing with link below." - PJM
- More HERE
- CID text HERE

Guggenheim takeaway: *Interesting legal data point for your awareness – we continue to dig further as to whether this is merely a data gathering exercise by the DOJ or something indicative of more back and forth to come.*

AEE/EXC/IL – Local media highlights suite of cases across IL amid bill pressure concerns

- 12.8% of state utility customers were behind on bills as of April, with an average balance of ~$250
- More HERE

Guggenheim takeaway: *Minor media FYI as the cases continue to generate news stories in the state.*

EVRG – Additional motions to intervene filed in Kansas cases

- Walmart [NYSE:WMT] on Friday became the latest party to file a petition to intervene
- More HERE

Guggenheim takeaway: *Flagged for your awareness as the case process continues to get off the ground ahead of more momentum in August. As a reminder, we see this case as a key gating item for understanding EVRG's LT earnings power and how investors may view Kansas with regard to EVRG's overall premium/discount. We remain of the view that this is one of the more vetted capital plans in the space at this point, with the existing 2018 case's capital parameters (e.g., prior 9.3% ROE) already a muted floor in our view.*

ERCOT – TX Supreme Court determines ERCOT is a government entity

- The decision strengthens the ISO's immunity to lawsuits, including several tied to the events in 2021
- "ERCOT's governmental nature is demonstrated most prominently by the level of control and authority the state exercises over it and its accountability to the state," - Chief Justice Nathan L. Hecht.
- More HERE

Guggenheim takeaway: *This has been a noisy issue back and forth in the courts for some time, and while not a direct financial data point, it nonetheless resolves an unanswered tertiary question in the market.*

PCG – PG&E prepares public for wildfire season mitigation response including PSPS

- PG&E notified customers of inspections and flyovers for electric infrastructure in certain high risk areas ahead of wildfire season and noted PSPS could be implemented during high risk events.
- More in media here.

Guggenheim takeaway: *Datapoint on the active preparations for wildfire season and PG&E's goal of optimizing layers of wildfire protection.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

ED — Intervenor files late statement of opposition to residential rate increases in CECONY Steam rate case

- Utilisave (utility auditing firm, private) filed a letter in opposition to uncapped rate increases for residential customers.
- NYPSC previously approved a request by stakeholders to delay evidentiary hearings in lieu of settlement talks.
- CECONY Steam previously filed an updated rate case testimony reflecting a $140.5M revenue increase (up from $136.7M originally).
- The update includes new data and requests on capex and O&M related to infrastructure, as well as sales forecasting updates.
- The original request was based on a 10.0% ROE (vs. 9.3% currently authorized, with earned returns well below the allowed levels), 50% equity ratio vs 48% currently allowed and $1.8B in rate base.
- CECONY also noted that nearly half of the request is related to property taxes.
- Docket: 22-S-0659

Guggenheim takeaway:*FYI. Settlement in progress and the rate suspension is only extended for a short period (~May 2023). While there are no datapoints on settlement, given the small system size and customer count there is more opportunity to settle in our view. An earned ROE reset to existing levels could represent up to a $0.10 EPS step up.*

LNT — IUB rolls 200MW solar and 75MW BESS advanced ratemaking into Duane Arnold rehearing

- The move comes after the court remanded the issue back to the IUB, which will hold a scheduling conference 7/10
- “On June 20, 2023, in Polk County District Court Case No. CVCV065011, the matter regarding the 200-megawatt (MW) solar project and 75-megawatt battery energy storage system (BESS) was remanded to the Board. The Board will consider the additional 200-MW solar facilities and the 75-MW BESS in conjunction with the Duane Arnold I and Duane Arnold II rehearing.” - filing
- More HERE

Guggenheim takeaway: *Scheduling heads up on the heels of last week’s court decision, with the prospects for advanced ratemaking now resurrected for the entirety of the 2022 RPU. As a reminder, at AGA last month the team indicated that in their view the policy is cut and dry, with the issues on this RPU not indicative of issues with prior processes (e.g., wind) or the team’s future interest in pursuing the option. The backdrop was also framed through a new IUB-old IUB lens, with management noting that it remains confident on the use of the pathway - supported by a focus ongoing dialogue - (e.g., if the IUB wants more information during an RPU, then inform IPL earlier in the process). Stay tuned for more in the coming weeks.*

Talen — Talen shares list to OTC Pink Market

- “Talen Energy Corporation ("Talen") (OTC-PINK: TLNE) today announced that its shares of common stock (the "Shares"), began trading on the OTC Pink Market under the symbol TLNE effective at the opening of trading on Friday, June 23, 2023. Existing shareholders of Talen will now find the Shares quoted on the OTC Pink Market without any further action needed. While the Shares currently trade on the OTC Pink Market, Talen is actively working towards an OTCQX listing to further improve investor access and liquidity.” - release
- More HERE

Guggenheim takeaway: *An incremental step towards what we expect may be a listing on a broader exchange later this year. We are paying attention to valuation datapoints that reflect other IPPs in our coverage.*

1:00 PM | Lunch with Southern Company (SO) and Georgia Power C-Suite
Kim Greene, *Chair, President & Chief Executive Officer (Georgia Power)*
Dan Tucker, *Chief Financial Officer (SO)*
Aaron Abramovitz, *Chief Financial Officer (Georgia Power)*
Among others

Company Information

Market Cap: $73.3bn

Southern Co (SO) is a holding company, which engages in the generation and sale of electricity. It operates through the following segments: Traditional Electric Operating Companies, Southern Power and Southern Company Gas. The Traditional Electric Operating Companies segment refers to vertically integrated utilities that own generation, transmission and distribution facilities, and supplies electric services in the states of Alabama, Georgia, and Mississippi. The Southern Power segment constructs, acquires, owns, and manages generation assets such as renewable energy projects and sells electricity in the wholesale market. The Southern Company Gas segment distributes natural gas through natural gas distribution facilities in the states of Illinois, Georgia, Virginia, and Tennessee. The company was founded on November 9, 1945, and is headquartered in Atlanta, GA. (Source: FactSet)

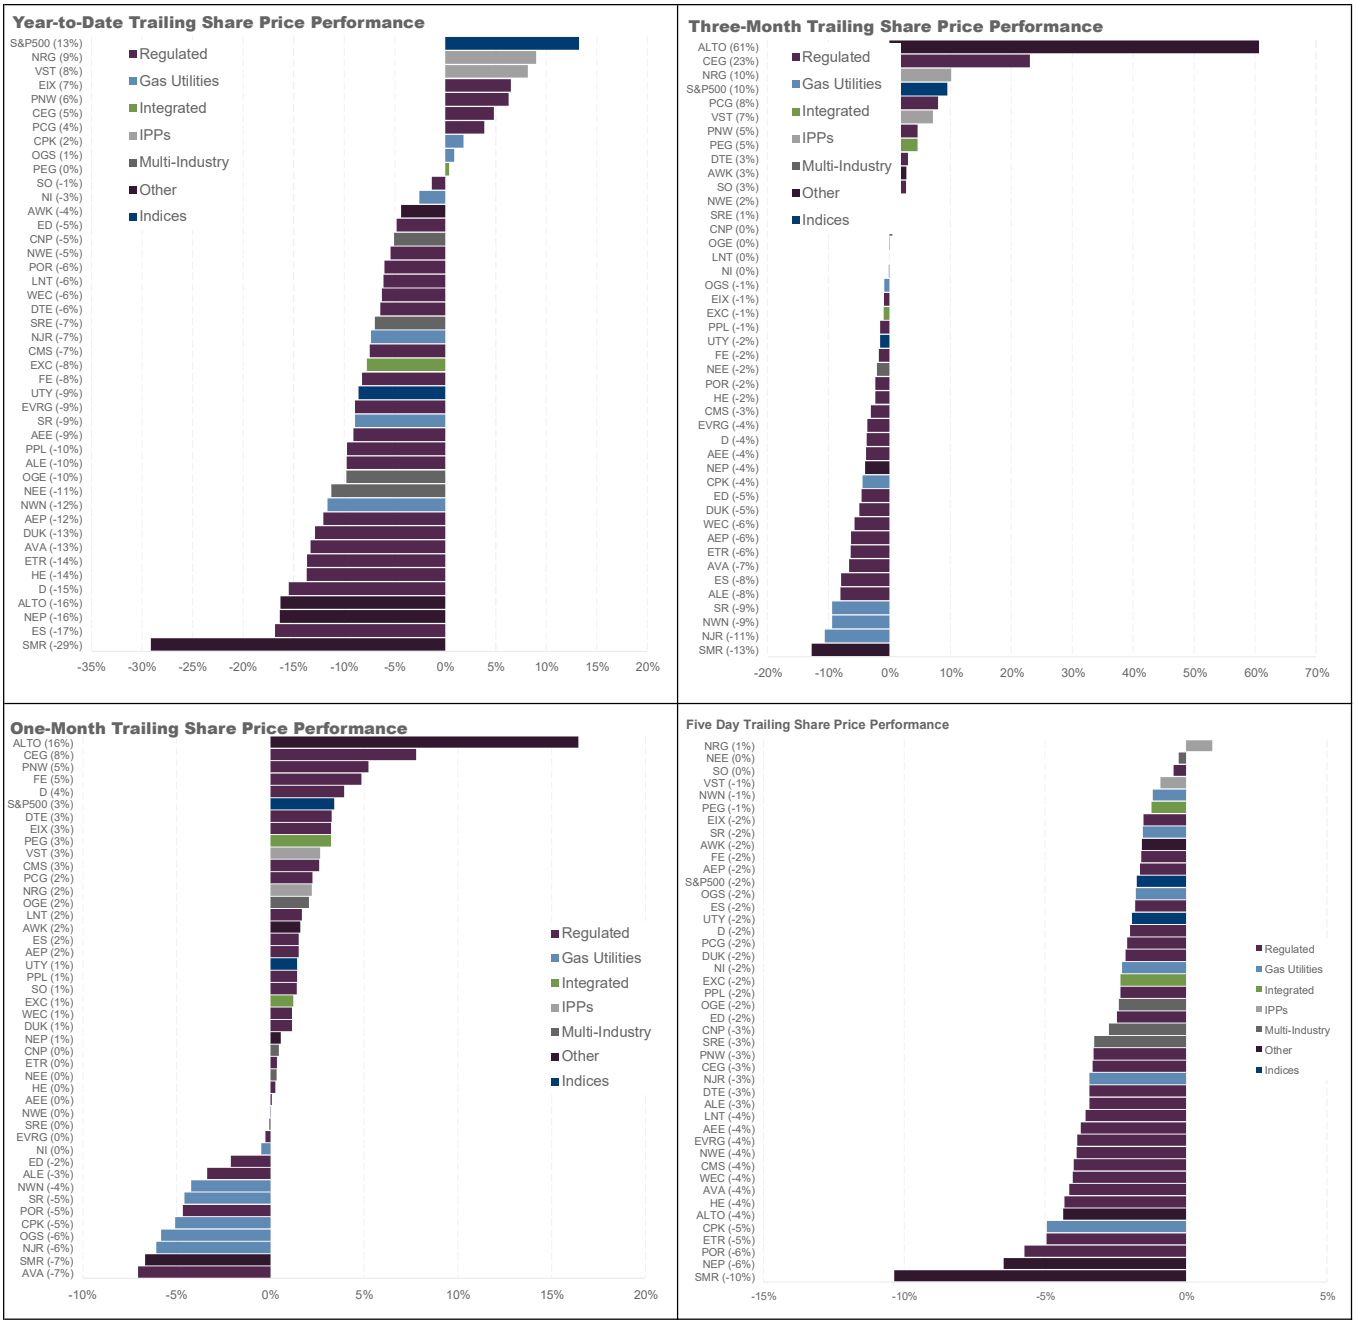
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

RATINGS DISTRIBUTIONS FOR GUGGENHEIM SECURITIES:

Alert

June 26, 2023

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: CMS, EXC, EIX, FE, WEC, XEL, PNW, DUK, SO, CNP, ETR, SRE, AEP, ES, FERC, NERC, MISO

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, we are tracking proceedings in CMS's MI gas rate cases, EXC's ComEd electric rate case, Track 4 of SCE's GRC, FE's MD electric rate case, WEC's MI gas rate case, and XEL's MN electric rate case. In other news, Staff files testimony in BG&E's MD electric and gas rate cases; the ACC votes to adopt a settlement in PNW's 2019 rate case appeal; DUK Piedmont files a make-whole gas rate case; GA Staff files testimony in GP's VCM 28 proceedings; FERC and NERC issue status update on the joint inquiry into the bulk-power system operations during the 2022 WS Elliott; FERC issues an updated Energy Infrastructure Report; NERC hosts 2023 State of Reliability webinar; MISO hosts board of director meetings; Houston customers face outages; ERCOT issues weather watch during extreme weather; MD PSC denies a request for rehearing of order, ending the investigation into the impact on ratepayers from OH HB6-related scandal; the KY PSC issues show cause to KY Power; the NC governor signs protection of critical infrastructure bill into law; and the NH governor reappoints a commissioner to the PUC.

Regulatory Calendar

CMS — Briefs in CMS's MI gas rate case are due on June 26: The Staff recommended a $91M revenue increase, premised on a 9.7% ROE, 50.5% equity, and a $10.2B rate base. This compares to CMS's filing requesting a $212M revenue increase, premised on a 10.25% ROE, 51.5% equity, and a $10.3B rate base. The lower cost of gas sold and ROE drove most of the difference between the Staff's recommendation and CMS's request. CMS is seeking new rates to become effective on October 1.

EXC — Rebuttal testimony in ComEd's IL multiyear electric rate case is due on June 27: Staff recommended a $1,039M revenue increase, premised on a flat 50% equity ratio through the multiyear rate period and an 8.9% ROE. The 8.9% is derived using the FRP formula (580 bps plus the 2022 U.S. Treasury bond yield of 3.11%). ComEd requested a $1,499M revenue increase over 2024-2027, based on a 10.5% ROE and 50.58% equity in RY1 (Docket: 23-0055), increasing marginally to 10.65% in RY4. EXC's equity ratio also includes annual step-ups to 50.81%, 51.03%, and 51.19% for RY2, 3, and 4, respectively. The main drivers for the lower revenue requirement recommended by Staff compared to EXC's request can be attributed to the lower ROE, equity ratio, projected plant additions, and adjustments to O&M regarding the pension asset funding cost. A proposed order is due on October 23, and December 20 is the ICC's deadline to issue a decision.

EIX — Opening briefs in Track 4 of SCE's GRC are due on June 30: SCE is requesting authorization of a revenue requirement of $8.6B for 2024, an increase of $972M over the 2023 estimated revenue requirement of $7.7B for the 2023 attrition year. Track 4 proceedings are intended to provide a bridge-year funding mechanism for 2024 between the Company's three-year 2021 GRC and the upcoming four-year 2025 GRC cycle. A significant portion of Track 4 proposed revenue requirement is in relation to projects previously approved by the CPUC. A PD is expected in 4Q23.

FE — Rebuttal testimony in FE's MD electric rate case is due on June 30: The MD PSC Staff recommended a net $19M revenue increase, premised on a 9.5% ROE and 53.53% equity. This compares to Potomac Edison Co.'s request for a net $46M revenue increase, premised on a 10.6% ROE and 53.53% equity. The net amounts exclude the recovery of $4.8M of revenue collected through the electric distribution investment surcharge (EDIS). FE seeks to extend the EDIS program for another four years, with which Staff concurred, although it proposed maintaining the 70/30 split to determine the allocation factor (FE proposed a 50/50 split) and use Staff's proposed ROE. The delta between Staff and FE's recommended revenue increases can largely be attributed to the lower ROE, lower depreciation expenses, and reduced incentive compensation expenses. Among other intervenors, the MD OPC recommended a net $14M revenue increase, using a 9.0% ROE and a 45% equity layer. Notably, FE's filing was a single-year rate plan after recent legislation allowed MYRP filings. An MD PSC final decision is expected in 4Q23.

WEC — Intervenor testimony in MI Gas Utilities' natural gas rate case is due on June 30: WEC's subsidiary seeks an $18M revenue increase, premised on a 10.4% ROE and 40.48% equity. The main drivers of the rate increase are to recover labor and material costs, interest expenses, and higher O&M expenses. WEC also seeks to continue its demand response pilot program and changes to its main replacement program rider and surcharges. A MI Commission decision is expected by January 3, 2024.

XEL — A MN PUC final order in XEL's MN electric rate case is due on June 30: The MN PUC is expected to issue a final order after holding deliberations on XEL's rate case at the beginning of the month. The PUC's deliberations resulted in a proposed $306M revenue increase over three years and a 9.25% ROE. Read more about the deliberations here.

Recent Developments for Companies Under Our Coverage

From our midweek: XEL reaches a settlement in the CO electric rate case; SO's Nicor Gas announces that it expects a $38M pre-tax charge due to the disallowance of QIP investments; AGR and PNM extend the merger agreement until year-end; the TX ALJ issues a PFD in the outstanding items in ETR TX rate case; ERCOT issues a voluntary conservation notice as TX faces a heat wave; the MD PSC approves FE's early termination of PPA for the 205 MW Warrior Run coal plant; AEE MO PSC announces plans to add 550 MW of solar projects; the Rochester City Council votes to approve funding to conduct a study on municipalizing the local utility, RGE; and EXC receives ~$30M in federal funding from the Department of Commerce for grid enhancements.

EXC — Staff files testimony in BG&E's MD electric and gas rate cases: MD PSC Staff recommended three-year electric and gas revenue increases of $193M and $232, respectively. The increases are premised on a 9.45% ROE and 52% equity. This compares to BG&E's multiyear electric and gas plans in MD (Docket: C-9692), seeking a cumulative net $314M electric and a $290M gas rate increase over 2024-2026. BG&E's requests are premised on a 10.4% ROE and 52% equity. The delta can largely be attributed to the lower ROE. EXC proposes smoothing the rates over three years by accelerating the amortization of ADIT benefits. The request includes a performance incentive mechanism with four performance metrics related to the state's policy goals. An MD PSC decision is expected by year-end, with new rates becoming effective in early 2024.

Figure 1 - BG&E Electric and Gas Rate Cases

	Electric				Gas			
Staff ($M); ROE: 9.45%; Equity Layer 52%	**2024**	**2025**	**2026**	**Total**	**2024**	**2025**	**2026**	**Total**
Rev Increase (unmitigated rate increase with adj.)	39.1	76.1	78.0	193.2	121.7	67.1	43.4	232.2
Rate Base	4,764.2	5,037.5	5,250.6		3,229.6	3,538.3	3,873.5	
BGE ($M); ROE: 10.4%; Equity Layer 52%	**2024**	**2025**	**2026**	**Total**	**2024**	**2025**	**2026**	**Total**

Source: Regulatory filings, KeyBanc Capital Markets Inc.

PNW — ACC votes to adopt settlement in 2019 rate case appeal: The ACC voted 4-1 in favor of adopting the settlement between PNW and the Legal Division Staff of the ACC in the 2019 rate case appeal. The approval allows PNW to recover $216M for Selective Catalytic Reduction investments at the Four Corners Power Plant and to increase PNW's authorized ROE to 8.9% ROE, from 8.7%. Per the settlement, PNW would also be allowed recovery of lost revenues since December 2021. On a pro forma basis, the approval authorizes PNW to increase revenues by ~$38M, while PNW will be able to recover ~$60M of lost revenues over the next four years, or $0.26 and $0.42 ($0.14/year), respectively. Following a disappointing order in the last rate case, PNW filed the appeal with the AZ Court of Appeals regarding the SCR disallowance and 20 bps ROE reduction (read more here). New rates go into effect on July 1.

DUK — DUK Piedmont files make-whole gas rate case: DUK Piedmont requested a $13.6M revenue increase to earn the 9.3% authorized ROE. DUK is also requesting a $0.76M increase in the annual cost of gas revenues. The make-whole rate case is allowed under the Rate Stabilization Act, which allows gas utilities to adjust rates regularly based on gas prices and other factors. The Commission approved a previously reached multi-party settlement for a revenue decrease of $1.7M premised on a 9.3% ROE and 52.2% equity layer. The settlement included a $2.9M revenue adjustment for the cost of gas demand. The utility has been operating under SC's Rate Stabilization Act since 2005.

SO — Staff files testimony in GP's VCM 28: Staff expects total Vogtle project costs to be in the range of $21.25B-$21.55B, slightly above GP's $21.0B estimate. The staff assumes a July-August 2023 COD for Unit 3 and a 2Q24 COD for Unit 4. SO recently delayed Unit 3 until July 2023 due to a degraded hydrogen seal that was identified during start-up testing. Staff noted that it's unlikely that Unit 4 will achieve COD by year-end 2023, and 1Q24 is a reasonable estimate. GP's VCM 28 pertains to the July-December 2022 period. GP has presented $461M in capex for review only. The Commission will wait until Vogtle Units 3 and 4 are complete before determining the reasonableness and prudence of the cost overruns and their attribution to ratepayers. SO entered an agreement as part of the VCM 24 Order that it would not seek approval of costs exceeding the $7.3B previously deemed reasonable by the Commission until the prudence review is complete. In VCM 28, GP's cost forecast is ~$10.2B, slightly up from the $10B estimate in VCM 27. The remaining capex to complete the project is ~$0.8B, including GP's share of project contingency.

FE — MD PSC denies request for rehearing of order ending, the investigation into the impact on Potomac Edison ratepayers from the OH HB6-related scandal: The MD PSC issued an order denying the Office of People's Counsel's request for a rehearing. The OPC filed the request after the MD PSC found insufficient evidence that Potomac Edison customers were harmed by the OH scandal and, as a result, closed the investigation. The PSC also did not believe it was the proper authority to conduct the investigation

that the MD Office of People's Counsel sought. The PSC conducted the investigation following a petition filed by the OPC. The PSC noted that any impact on Potomac Edison's ratepayers will be addressed in a rate case proceeding (Docket: 9695), where intervenors, including the OPC, can request discovery into the effects of the OH scandal on Potomac Edison ratepayers.

AEP — KY PSC issues show cause to KY Power: The KY PSC ordered KY Power to show cause why it should not be subject to civil penalties and remedies for failure to provide adequate service. KY Power will have 30 days to file a response to the allegations, including how it should address the allegation that it is failing to comply with its statutory obligations, how it proposes to render adequate service, and the time frame to correct its failures. The show cause is in response to KY Power's extraordinary purchased power costs from PJM during Winter Storm Elliott. KY Power sought to defer ~$11.5M in non-fuel adjustment clause (non-FAC) eligible purchased power costs, which the PSC denied. The PSC will establish a procedural schedule once KY Power files its written response.

CNP, SRE, ETR — Houston customers face outages, and ERCOT issues weather watches for the week: Nearly 375K customers faced outages from strong storms that moved through the Houston area last Wednesday evening. ~325K CNP customers and ~50K ETR customers were without power at the peak. The utilities are working to repair damages and restore power with ~43K customers still without power on Friday afternoon. The storms occurred during a heat wave and required ERCOT to issue a Weather Watch. Currently, ERCOT forecasts that demand will reach 83,852 MW on June 26 and 84,519 MW on June 28, which would both set all-time peak demand records. The current record is 80,148 MW, set on July 202, 2022. In the 2023 summer seasonal assessment of resource adequacy, ERCOT projected that sufficient capacity would be available to serve the forecasted peak load for the upcoming summer season. ERCOT assumed a base summer peak load demand of 82,739 MW. The grid operator has ~97,000 MW of resource capacity, providing a 23% planning reserve margin.

DUK — NC governor signs protection of critical infrastructure bill into law: Governor Cooper signed SB 58 into law to protect critical infrastructure by imposing harsher penalties on any individual found guilty of damaging critical utility infrastructure. The new penalties include up to six years in prison and $0.25M in fines. At the same time, any individual injured by the damage to the facility would be eligible to seek retribution against the criminal. The bill also increases penalties for damage to telephone, broadband, broadcast, or cable telecommunications wires. Recent attacks on the power grid in various U.S. states have brought new urgency to the issue of grid security and resilience. The law takes effect on December 1, 2023.

ES — NH governor reappoints commissioner to the PUC: NH Governor Chris Sununu reappointed Carleton Simpson to serve a full term through June 2029. He awaits confirmation by New Hampshire's Executive Council. Mr. Simpson was first appointed to the PUC in November 2021. Commissioner Simpson is joined by Chair Goldner and Commissioner Chattopadhyay, each serving terms until 2025 and 2027, respectively.

FERC and NERC issue status update on the joint inquiry into the bulk-power system operations during the 2022 WS Elliott: FERC, the North American Electric Reliability Corporation (NERC), and NERC's Regional Entities' early observations were that freezing issues, mechanical/electrical issues, and fuel issues were the major causes of the generating unit outages during the storm. The parties reinforced prior recommendations made to prepare generating units for cold weather, including freeze protection measures, pre-operational warming prior to cold weather, and securing adequate winterization supplies and equipment. FERC, NERC, and NERC's Regional Entities opened the joint inquiry in December 2022. The parties are working with other federal agencies, states, and utilities to identify additional issues and recommend solutions. At the peak, ~1.7M customers were without power, with many utilities, RTOs, and ISOs declaring emergency energy alerts and requesting voluntary conservation. DUK, ETR, and the TVA implemented rolling power outages. FERC and NERC conducted a similar review after the 2021 winter storm. NERC recently issued a Cold Weather Preparation alert to prepare the grid before the 2023/2024 winter season.

FERC issues updated Energy Infrastructure Report: According to the report, natural gas capacity increased by ~4,470 MW in the first four months, up from 551 MW during the same period last year. Solar capacity increased by 3,409 MW, up from 3,064 MW in 2022 or +10% y/y. Wind added 1,967 MW during the first four months, down from 5,161 MW last year. Supply chain issues and inflation have hampered the development of wind projects. Longer term, FERC expects ~114 GW of total high probability capacity coming online between May 2023-April 2026, partially offset by ~44 GW of power plant retirements. Solar (~78 GW) makes up ~68% of the high-probability additions, with wind expected to add ~20 GW. The total estimated installed capacity additions over the next three years are ~318 GW. To support the additional renewable generation, ~2,350 miles of high-voltage transmission have a high probability of coming online by September 2025.

MISO focuses on transmission and interconnection during board meetings: MISO held a board of directors meeting, which focused on addressing delays in transmission construction and interconnecting new generation. MISO currently has 1,650 projects totaling 281 GW of generation in the interconnection queue and an additional 269 projects totaling 42 GW that received interconnection agreements but are awaiting construction. Delays for projects with interconnection agreements typically average two years and can largely be attributed to supply chain issues (40%) and regulatory delays (20%). MISO needs to reduce the delays to meet its decarbonization goals. MISO expects wind (34%), solar (24%), and gas (14%) to make up most of its resources by 2042. The operator is considering MISO Future 1 Tranche 2 long-range transmission planning projects to support the transition, building on the $10.3B in projects approved in MISO's Future 1 Tranche 1.

NERC focuses on grid outages in the 2023 State of Reliability Report: During a webinar, NERC called out generator outages during extreme weather as the biggest risk to the electric grid. Conventional generation experienced the highest rate of forced outages in 2022. The outage rate for conventional resources increased to 8.5%, compared to a 7.4% forced outage rate over the previous five years. Specifically, the risks of generator outages surpassed the risk from transmission outages in the past two years. Transmission reliability continues to improve for the fifth year in a row, as utilities continue to invest in grid hardening and reliability efforts. Physical and cybersecurity attacks on the grid also remain a significant risk.

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC (“KBCMI”), and KeyBank National Association (“KeyBank N.A.”), are marketed.

KeyBanc Capital Markets Inc. (“KBCMI”) does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst’s compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. Traction in Europe

We had Exelon CEO Calvin Butler and CFO Jeanne Jones on the road in Europe last week. We see European investors mostly getting introduced to the story and the name post the spin of the merchant generation business in February 2022. We believe Exelon's profile as an electric T&D and gas distribution networks company fits with most European investors ESG parameters. This could lead to increased sponsorship for the stock, given pre-spin, the merchant generation assets put Exelon on a restricted list for investment for most European based investors.

Increased Confidence in a Below Average Risk, Above Average Growth Story

From the meetings, our confidence in our Buy rating increased, with lower relative risks to the EXC story. Exelon does not have large project risk, with no project above 1% of the current five year $31.3Bln capital plan from '23-'26, and only one project around $300mln. Most transmission EXC will build is intrastate and smaller scale, and is being done at the request of the regulator. Further, there is $0.5-$2Bln of upside from potential larger scale transmission projects around congestion in Maryland, data centers in Chicago metro, and offshore wind in NJ. The balance sheet remains solid, with an FFO/debt cushion of 75-100bps over the 12% downgrade threshold. This could move to 150 - 200bps if repairs tax is included as a deduction prior to the corporate AMT. Guidance should come no later than the end of 1Q 2024 on that matter, however the IRS has already indicated that companies will not be penalized if they do not pay the tax in 2024 (for 2023), and pay back tax in 2025 given the lack of clarity from the IRS so far. Distribution and lower scale transmission projects are easier to site, permit and construct that larger scale interstate transmission. Management gave us confidence in their ability to control costs below normal rates of inflation and we also have confidence in movement toward constructive outcomes in the current rate cases in Illinois and Maryland which we wrote about Staff Position in ComEd Appears Reasonable and Staff Testimony Filed in BG&E Rate Case, and as a result in management's ability to deliver the 6-8% long term EPS growth range in through 2026.

Upcoming Catalysts

Next catalysts for the stock are rebuttal testimony for BGE 7/31, hearings 8/30-9/8, and an order by 12/14. For ComEd rebuttal testimony 6/27, hearings 8/21, a proposed order on 10/23, and a final order by 12/20.

Valuation:

We maintain our price target of $46 premised on the methodology below.

Forecast returns

Forecast price appreciation	+15.4%
Forecast dividend yield	3.7%
Forecast stock return	+19.1%
Market return assumption	9.7%
Forecast excess return	+9.4%

Company Description

Exelon owns six regulated utility subsidiaries: Atlantic City Electric, BGE, ComEd, Delmarva Power, PECO and the Pepco Subsidiaries, which deliver electricity and natural gas to about 10m customers in Delaware, Washington DC, Illinois, Maryland, New Jersey, and Pennsylvania.

Valuation Method and Risk Statement

Our valuation methodology for the group is price to earnings based. The adjustments applied fall into 5 categories. These are as follows: 1) Group Valuation Bias: Flowing from our valuation work comparing Baa corporate yields to group dividend yields and RU price to earnings ratios to those for the S&P 500, we incorporate a positive or negative adjustment to our group multiple representing the gap we calculate to the nearest 5%; 2) Growth Adjustment: We adjust our valuations based on the growth quartile each utility occupies. First quartile receives a 5% premium, second quartile a 2% premium, third quartile a 2% discount and fourth quartile a 5% discount; 3) Regulatory Adjustment: Our valuation adjustments for regulation are based on our proprietary Regulatory Rankings. First quartile jurisdictions receive 5%, second quartile 2%, third quartile -2% and fourth quartile -5%; 5) Multi Utility Diversified Valuation: For multi utilities (those with more than 15% diversified or foreign earnings), we perform a sum-of-parts analysis applying business/region appropriate valuations to those diversified businesses; 6) One-off Adjustments: In special situations, we value risk on an issue specific basis. Common areas where we apply such an adjustment include: ESG advantage, large project construction risk, legal risk, and announced M&A completion risk.

We maintain our price target of $46 premised on a 6% premium to the group multiple or 16.4x our $2.77/share earnings forecast for 2025. Our 6% net premium is derived from a 5% premium for the overall regulated utility group, premised upon the current undervaluation versus the Baa corporate bond, a 3% discount for a 3rd quartile regulatory ranking overall, a 2% premium for 2nd quartile earnings growth, a 5% premium for energy transition, and 3% discount for lower pricing power.

Specific risks for Exelon include regulatory risks at the utilities, weather, and interest rates.

Quantitative Research Review

UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

Exelon Corp

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next year? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	3
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next year? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	3
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	3
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	3
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	3
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?

Required Disclosures

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

For information on the ways in which UBS manages conflicts and maintains independence of its UBS Global Research product; historical performance information; certain additional disclosures concerning UBS Global Research recommendations; and terms and conditions for certain third party data used in research report, please visit https://www.ubs.com/disclosures. Unless otherwise indicated, information and data in this report are based on company disclosures including but not limited to annual, interim, quarterly reports and other company announcements. The figures contained in performance charts refer to the past; past performance is not a reliable indicator of future results. Additional information will be made available upon request. UBS Securities Co. Limited is licensed to conduct securities investment consultancy businesses by the China Securities Regulatory Commission. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 26 June 2023 06:13 AM GMT. UBS has designated certain UBS Global Research department members as Derivatives Research Analysts where those department members publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient upon which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For the latest responses, please see the Quantitative Research Review Addendum at the back of this report, where applicable. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research team on the email above.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that with respect to each security or issuer that the analyst covered in this report: (1) all of the views expressed accurately reflect his or her personal views about those securities or issuers and were prepared in an independent manner, including with respect to UBS, and (2) no part of his or her compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Global Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	54%	22%
Neutral	FSR is between -6% and 6% of the MRA.	36%	21%
Sell	FSR is > 6% below the MRA.	10%	18%
Short-Term Rating	**Definition**	**Coverage[3]**	**IB Services[4]**
Buy	Stock price expected to rise within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%
Sell	Stock price expected to fall within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%

Source: UBS. Rating allocations are as of 31 March 2023.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.
3:Percentage of companies under coverage globally within the Short-Term rating category.
4:Percentage of companies within the Short-Term rating category for which investment banking (IB) services were provided within the past 12 months.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

KEY DEFINITIONS: Forecast Stock Return (FSR) is defined as expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is defined as the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged as UR by the analyst, indicating that the stock's price target and/or rating are subject to possible change in the near term, usually in response to an event that may affect the investment case or valuation. **Short-Term Ratings** reflect the expected near-term (up to three months) performance of the stock and do not reflect any change in the fundamental view or investment case. **Equity Price Targets** have an investment horizon of 12 months.

EXCEPTIONS AND SPECIAL CASES: UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record, discount; **Neutral:** Neutral on factors such as structure, management, performance record, discount; **Sell:** Negative on factors such as structure, management, performance record, discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Committee (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed to be very high or low risk may be subject to higher or lower bands as they relate to the rating. When such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by any non-US affiliate of UBS Securities LLC are not registered/ qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to the FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. UBS Global Research Disclaimer

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions expressed in this document may change without notice and are only current as of the date of publication. Different areas, groups, and personnel within UBS may produce and distribute separate research products independently of each other. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. **Credit Suisse Global CIO Office Research** is produced by Credit Suisse Wealth Management. **Credit Suisse Securities Research** is produced by Credit Suisse operating under its Securities Research function within the Investment Banking Division. Research methodologies and rating systems of each separate research organization may differ, for example, in terms of investment recommendations, investment horizon, model assumptions, and valuation methods. As a consequence, except for certain economic forecasts (for which UBS CIO and UBS Global Research may collaborate), investment recommendations, ratings, price targets, and valuations provided by each of the separate research organizations may be different, or inconsistent. You should refer to each relevant research product for the details as to their methodologies and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy the document.

UBS Global Research is provided to our clients through UBS Neo, and in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each a system) as an approved means for distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties via e-mail or alternative electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss your access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or has made use of data provided by UBS Evidence Lab and you would like to access that data please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending upon various factors such as a client's individual preferences as to the frequency and manner of receiving communications, a client's risk profile and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term, etc.), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab and legal and regulatory constraints.

When you receive UBS Global Research through a system, your access and/or use of such UBS Global Research is subject to this UBS Global Research Disclaimer and to the UBS Neo Platform Use Agreement (the "Neo Terms") together with any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and cookie notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or by any other means, you agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and that you shall not extract data from any research or estimates provided to you via UBS Global Research or otherwise, without the prior written consent of UBS.

In certain circumstances (including for example, if you are an academic or a member of the media) you may receive UBS Global Research otherwise than in the capacity of a client of UBS and you understand and agree that (i) the UBS Global Research is provided to you for information purposes only; (ii) for the purposes of receiving it you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) the UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is a general communication and is educational in nature; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. The recipient should carefully read this document in its entirety and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "The Characteristics and Risks of Standardized Options." You may read the document at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks associated with these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies calling for multiple purchases and sales of options, such as spreads and straddles. Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions.

Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the Information.

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes:

(i) valuation or accounting purposes;

(ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or

(iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS Global Research manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. All material information in relation to published research reports, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history etc. as required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by UBS Global Research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms under English law or, if not carried out by UBS in the UK the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months UBS may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies and styles approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or Sustainable Investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio consisting primarily of sustainable investments may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ. Companies may not necessarily meet high performance standards on all aspects of ESG or sustainable investing issues; there is also no guarantee that any company will meet expectations in connection with corporate responsibility, sustainability, and/or impact performance.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosures_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Bahrain: UBS is a Swiss bank not licensed, supervised or regulated in Bahrain by the Central Bank of Bahrain to undertake banking or investment business activities in Bahrain. Therefore, prospects/clients do not have any protection under local banking and investment services laws and regulations. **Brazil**: This report is only intended for Brazilian residents who are directly purchasing or selling securities in the Brazil capital market through a local authorized institution. **Canada**: The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. Under no circumstances is the information contained herein to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada or, alternatively, pursuant to a dealer registration exemption. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon these materials, the information contained herein or the merits of the securities described herein and any representation to the contrary is an offence. In Canada, this publication is distributed by UBS Investment Management Canada Inc. **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Czech Republic**: UBS is not a licensed bank in the Czech Republic and thus is not allowed to provide regulated banking or investment services in the Czech Republic. This communication and/or material is distributed for marketing purposes and constitutes a "Commercial Message" under the laws of Czech Republic in relation to banking and/or investment services. Please notify UBS if you do not wish to receive any further correspondence. **Denmark**: This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annae Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. UBS Europe SE, Denmark Branch, filial af UBS Europe SE is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Danish Financial Supervisory Authority (Finanstilsynet), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Egypt**: Securities or other investment products are not being offered or sold by UBS to the public in Egypt and they have not been and will not be registered with the Egyptian Financial Regulatory Authority (FRA). **France**: This publication is not intended to constitute a public offer under French law, it does not constitute a personal recommendation as it is distributed only for information purposes to clients of UBS (France) S.A., French "société anonyme" with share capital of € 132.975.556, at 69 boulevard Haussmann F-75008 Paris, registered with the "Registre du Commerce et des Sociétés" of Paris under N° B 421 255 670. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed without the consent of UBS. None of the Material has been registered or filed under the prevailing laws and with any financial or regulatory authority in your jurisdiction. The Material may not have been approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. In Israel, UBS Switzerland AG is registered as Foreign Dealer in cooperation with UBS Wealth Management Israel Ltd., a wholly owned UBS subsidiary. UBS Wealth Management Israel Ltd. is an Investment Marketing licensee which engages in Investment Marketing and is regulated by the Israel Securities Authority. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. No action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. Americas Utilities

High near-term regulatory focus, but see decarbonization driven earnings growth as key for Utilities; Buy SO, NEE

Goldman Sachs & Co. LLC

In our recent conversations, there has been heightened focus among utilities investors on the regulatory environment given the challenging backdrop for the US consumer. We have highlighted constructive regulatory outcomes as key to driving investment and earnings growth for Utilities going forward, particularly in the near-term given the challenging operating environment. That said, as we look forward, we believe that as the macro environment improves, tax credit incentives post IRA have a more meaningful impact, and the federal/state level support for decarbonization continues, Utilities are positioned to drive transformational investment and earnings growth (6% 5-year CAGR) through four key verticals including clean technology, nuclear, grid reliability, and LNG.

In this report, we highlight (1) where we see idiosyncratic stock opportunities with minimal near-term regulatory risk, in our view, including Buy rated NextEra Energy (NEE) for renewables growth and Buy rated Southern Company (SO) for exposure to nuclear capacity adds. Conversely, we see more near-term regulatory risk around Sell rated EXC, (2) key upcoming regulatory events for stocks across our coverage, and (3) jurisdictions that have been topical in our discussions.

Key Takeaways

Stocks with minimal near-term regulatory risk where we are constructive. We highlight Buy rated NextEra (NEE) and Buy rated Southern Company (SO) as two stocks with minimal upcoming regulatory activity where we see idiosyncratic value creation opportunities. We also note that while SRE (Buy) is currently in general rate cases at SDG&E and SoCalGas, proposed decisions are currently scheduled for May 2024, limiting near term risk.

- **Buy NEE.** NextEra reached a settlement with the commission on a multi-year rate plan at Florida Power & Light (FPL) in late 2021, securing electric rate increases through 2025. With limited uncertainty around rates over the next several years, we believe this allows for investor focus on the renewables build out at NEER, where we assume the top end of the company's 2023-2026 development range. In addition to the constructive outlook at FPL, the robust renewables growth opportunity drives our NEE estimates 4% above FactSet

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. For Reg AC certification and other important disclosures, see the Disclosure Appendix, or go to www.gs.com/research/hedge.html. Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

consensus on average in 2023-2027 and drives above average earnings growth with a 5-year CAGR of 9% versus our coverage at 6% on average. We see 22% total return to our 12-month, $90 price target.

- **Buy SO.** Southern's largest utility, Georgia Power, reached a constructive settlement agreement with the Georgia PSC in December 2022 on a multi year electric base rate increase covering 2023-2025. With minimal near term rate case risk at SO, investors are focused on final execution around the Vogtle project, as well as the prudency review, which will commence around fuel load at Unit 4 between July and October. In addition to a positive view on nuclear exposure, we see a positive catalyst to remove the project risk overhang on the stock as Vogtle comes into service, where we expect Unit 3 to come online in July and Unit 4 in early 2024. We assume a 2x premium to our baseline utility multiple in our valuation for SO, which is broadly in line with the premium the stock traded at pre-Vogtle, accounting for attractive regulatory exposure, above average earnings growth at 7% vs. our coverage at 6% on average, and balance sheet strength.

Stocks with high levels of regulatory activity for remainder of 2023. Across our coverage, **EXC** (Sell), **XEL** (Buy), **AEP** (Buy), and **DUK** (Neutral) have busy regulatory calendars through the end of the year. EXC expects decisions at ComEd and BGE in 2023, XEL expects decisions at PSCo, SPS NM, and NSPW in 2023, AEP expects final orders at PSO and APCo this year, and DUK expects final decisions at DEP NC, Duke Energy Kentucky, and Duke Energy Ohio in 2023. **We note rate case risk is a driver of our more negative view on EXC**, in addition to less exposure to key verticals that we believe will drive outsized utility investment and earnings growth going forward.

Jurisdictions top of mind in conversations. In our investor conversations recently, many investors have been screening for where regulatory risk could be skewed to the downside and where there is most uncertainty from a political perspective. States including Virginia, Connecticut, Florida, and California have been topical.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

- **Virginia** has been in focus with the shift from a triennial to biennial review and the rate reduction for Dominion as part of broader utility legislation. In addition, there is continued uncertainty related to vacancies on the Virginia State Corporation Commission (SCC), where only 1 of the 3 commissioners are currently in place per Regulatory Research Associates (RRA). This issue may be exacerbated by the expected demanding regulatory schedule in 2H23 in Virginia. **We note D is the most exposed to VA, at about 60% of 2022 rate base, followed by AEP at about 19% of 2022 rate base.**
- **Florida** has come up in conversations as a place where investors have asked if risk is skewed to the downside given how constructive the environment has been historically and the current noise around FPL campaign finance violation allegations as reported by NPR as well as the Florida Supreme Court's review of FPL's recent rate case outcome. We note that the uncertainty created by them has caused some concern for Florida as a jurisdiction as whole. **NEE is most exposed to Florida, followed by DUK with 23% of rate base exposed.**

Exhibit 3: We highlight party representation for governors and commissioners and upcoming ending to commissioners' terms across jurisdictions with names under our coverage

Commission details by state - colors represent party majority (red - Rep, blue - Dem, white - Ind/Other)

						Selection Method	Term of office (number of years)	
Jurisdiction	Commission Name	Governor	Number of Commissioners	% Rep / % Dem / % Ind / % Other & N/A As Of 6/2023	Term ending '23/'24	Commissioners	Commissioners	Chairperson
Alabama	Alabama Public Service Commission	Kay Ivey (R)	3 of 3	100% / 0% / 0% / 0%	1 (R)	Elected	4	4

Source: Company filings, Data compiled by Goldman Sachs Global Investment Research

Focus events by stock

- **American Electric Power (AEP, Buy):** Due to its wide range of regulatory jurisdictions, AEP has several key events upcoming. The item that has garnered the most attention from investors in our conversations is the fuel securitization request in West Virginia. AEP has requested $641mn of total securitization between APCo and Wheeling Power, and staff recommendation is to disallow $202mn of recovery. The hearing to determine the recovery of this fuel is scheduled for the first week of September. AEP has also filed a rate case at Kentucky Power, as it plans to renew its focus on this segment following the terminated sale. Kentucky Power currently has an allowed RoE of 9.3%, which is mostly in-line with recently awarded RoEs in the state. In addition, AEP will have a meeting at the end of June in Louisiana to discuss renewable projects in that jurisdiction, and noted that the result of that meeting could also impact its renewable ownership in Arkansas.
- **Duke Energy (DUK, Neutral):** DUK is currently in two major rate cases in North Carolina, at both its Duke Energy Carolinas (DEC) and Duke Energy Progress (DEP) segments. DUK is requesting a new multi-year cost recovery mechanism, which will recover capital spending from the prior year without having to go in for a rate case, as well as O&M and D&A related to that spend. The company has noted that because this is a new mechanism the rate case will likely go the distance, with rates requested by October 2023 at DEP and January 2024 for DEC. DUK also plans to file an updated Integrated Resource Plan (IRP) at NC and SC later this year.
- **Consolidated Edison (ED, Sell):** ED is in the midst of the rate case process at CECONY electric and gas as well as steam. The CECONY electric/gas rate case has

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

seen a joint proposal filed with ROE/equity layer at 9.25%/48% currently proposed vs. 10%/50% originally proposed. While uncertainty remains around the steam rate case, we note that it represents a small piece of ED's business. A decision on the electric/gas rate case is expected on July 24, 2023, while a decision on the steam rate case is expected on October 31, 2023.

- **Exelon Corporation (EXC, Sell):** EXC has ongoing rate cases in almost all of its subsidiaries, with ComEd and BGE, representing 55% of 2022 rate base, expecting decisions this year:
  - **ComEd**: Earlier this year, ComEd filed a four-year multi-year plan (MYP) requesting an ROE of 10.5% with a 5 bps increase YoY from 2024 to 2027. The company received a testimony from the Illinois Commerce Commission (ICC) staff which proposed a revenue increase of ~$1 bn and ROE of 8.91% calculated using the old formula rate plan at the end of May. The subsidiary expects to file a rebuttal by June 27 with the subsequent hearing slated to be held in August and a final decision expected by 4Q23.
  - **BGE:** The subsidiary is in a 3-year MYP rate case currently requesting an ROE of 10.4% for its gas and electric distribution segments. A decision is expected by the end of the year.
- **Southern Company (SO, Buy):** SO concluded its Georgia Power rate case late last December, largely removing any regulatory concerns at its largest segment. The largest item on the agenda for SO is the prudency filing for Vogtle spend it will be making upon fuel load at Unit 4, which could be in July-October based on the company's timeline. This filing will require SO to prove that the company acted in a prudent and reasonable manner during the construction of Vogtle. If successful, SO will maintain the full $7.3 bn of Vogtle spend that will go into rate base. There is potential for upside, with several investors asking our view on the possibility of the commission allowing SO to put more than $7.3bn into rate base, but we do not embed any view on this in our numbers.
- **Xcel Energy (XEL, Buy):** At NSPM, Xcel recently concluded the Minnesota rate case and received a final decision on the South Dakota rate case. The company also expects to get a decision on a Request for Proposal (RFP) for Sherco Solar 3 (250 MW self-build) and Apple River (100 MW PPA) in the summer. In addition, we highlight other key events across subsidiaries:
  - **NSPW:** In April 2023, NSPW filed an electric/natural gas rate case, requesting a rate increase of $40 mn and $9 mn for electric and natural gas respectively and a 10.25% ROE. A decision on this case is expected in 4Q23.
  - **PSCo:** PSCo filed an electric rate case in November 2022 requesting a rate increase of ~$253 mn, 10.25% ROE and equity ratio of 55.7%. On June 21, the company filed a settlement with hearings expected in July, a CPUC decision expected in 3Q23, and rates effective in September 2023. In addition, the company expects a CPUC decision in Fall 2023 on outstanding RFPs.
  - **SPS:** SPS New Mexico filed a settlement on its electric rate case, which included a rate increase of $33 mn, based on a forward test year, an ROE of

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

9.5% and a 54.7% equity ratio. A final decision and implementation of rates is expected in 4Q23. Also, investors should look out for an approval application on generation RFPs later in 2023.

- **Public Service Enterprise Group (PEG, Neutral):** We expect PEG to file a distribution rate case by the end of 2023 as the company seeks to recover expenses related to pension and higher interest rates. However, the increased rates will not likely be implemented until mid to late 2024 at the earliest. PEG has also recently filed for GSMP III as well as a Clean Energy Future energy efficiency (CEF-EE) extension. The CEF-EE extension is expected to kick in on October 1, 2023, adding nine months to the current CEF-EE program (until June 30, 2024) which authorization expires on September 30, 2023.

- **Dominion Energy (D, Neutral):** DEV filed to effectively reduce rates by ~$351 mn as it relates to three legacy riders as part of the larger regulatory changes that took effect in April. A decision is expected in June as the rate reduction becomes law on July 1, per RRA. In addition, the company is also requesting approval to securitize $1.275 bn in deferred fuel costs which will only be filed after July 1 as that is the date when the enabling statute becomes effective. A final order is expected in 4Q23 on securitization. In Wyoming, D filed a natural gas rate case requesting a $2 mn revenue increase and an ROE of 10.3% with decision expected by 4Q23. And finally, DESC filed a gas rate case requesting ~$19.5 mn revenue increase of and ROE of 10.38%, decision expected by 4Q23.

- **NextEra Energy (NEE, Buy):** NEE's largest segment, Florida Power and Light (FPL), settled a rate case that locks in a best-in-class RoE and favorable rate increases through 2025. While FPL has settled the most common regulatory issues a utility faces, there has been noise around campaign finance allegations, as reported by NPR, which have created uncertainty as investors have asked what the ramifications could be if it proves to be an issue. In addition, the Florida Supreme Court is reviewing the aforementioned rate case settlement.

- **Sempra (SRE, Buy)**: SRE has ongoing rate cases at both of its California utilities, San Diego Gas & Electric (SDG&E) and SoCalGas. Both utilities expect a decision in mid 2024, with retroactive rates going into effect from the beginning of that year. SRE's Texas based utility Oncor recently settled a rate case, but has requested the commission reconsider certain rate base and expense adjustments, with the commission required to comment on these by mid July.

Valuation & Key Risks

Exhibit 9: Price Target Methodologies and Key Risks across our coverage

Price Target Methodologies and Key Risks					
Ticker	Methodology	Rating	Price Target (12 mo.)	6/22/2023 Price	Key Risks
AEP	SOTP	Buy	$98	$85.10	**Key downside risks:** lower than expected ownership of renewable RFPs, financing needs if any potential announced asset sales fall through; failure to make progress on closing the ROE gap at the VIU utilities
DUK	P/E (15.5x 2025 EPS)	Neutral	$99	$90.90	**Key upside/downside risks:** rate case outcomes; cost management; poor load growth or weather
ED	P/E (16x 2025 EPS)	Sell	$88	$92.12	**Key upside risks:** favorable rate case outcomes, premium valuation persisting, superior execution
EXC	P/E (15x 2025 EOS)	Sell	$39	$40.54	**Key upside risks**: favorable rate case outcomes, cost control and ability to smooth earnings, the shift in the business mix towards regulated growth driving multiple rerating, and incremental capex opportunities
SO	P/E (18x 2025 EPS)	Buy	$80	$71.30	**Key downside risks**: execution risk around Vogtle, balance sheet strength, slower than anticipated rate base/earnings growth
XEL	P/E (19x 2025 EPS)	Buy	$75	$62.76	**Key downside risks:** negative rate case outcomes, slower than expected renewable transition, failure to close gap between earned vs authorized ROE, and cost management
PEG	SOTP	Neutral	$64	$62.11	**Key upside/downside risks:** uncertainty around pension expense lift out and implementation around a long term solution, outcome in its upcoming 2023 distribution rate case, power price volatility, upside to capital spending plans.
D	SOTP	Neutral	$55	$53.00	**Key upside/downside risks:** outcome of the business review, regulatory outlook, and project execution
NEE	SOTP	Buy	$90	$75.13	**Key downside risks:** regulatory landscape turning more negative, risk around the goals laid out in NEER's renewable development plan, Florida population growth slowing leading to slower than expected load growth and customer growth at FPL, and cost management.
SRE	SOTP	Buy	$178	$146.52	**Key downside risks:** delays with the LNG projects, Texas customer growth slowing or the regulatory environment becoming less favorable in Texas, and unfavorable rate case outcomes at the California utilities or challenging regulatory constructs

Disclosure Appendix

Reg AC

We, Carly Davenport, John Miller, Jaskaran Jaiya and Shuaib Joomun, hereby certify that all of the views expressed in this report accurately reflect our personal views about the subject company or companies and its or their securities. We also certify that no part of our compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Unless otherwise stated, the individuals listed on the cover page of this report are analysts in Goldman Sachs' Global Investment Research division.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our coverage universe) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

The rating(s) for American Electric Power, Consolidated Edison Inc., Dominion Energy Inc., Duke Energy Corp., Exelon Corp., NextEra Energy Inc., Public Service Enterprise Group, Sempra Energy, Southern Co. and Xcel Energy Inc. is/are relative to the other companies in its/their coverage universe: American Electric Power, Consolidated Edison Inc., Dominion Energy Inc., Duke Energy Corp., Exelon Corp., NextEra Energy Inc., Public Service Enterprise Group, Sempra Energy, Southern Co., Xcel Energy Inc.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with subject company, public appearances and trading securities held by the analysts.

Distribution of ratings: See the distribution of ratings disclosure above. **Price chart:** See the price chart, with changes of ratings and price targets in prior periods, above, or, if electronic format or if with respect to multiple companies which are the subject of this report, on the Goldman Sachs website at https://www.gs.com/research/hedge.html.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at https://www.gs.com/worldwide/brazil/area/gir/index.html. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 951-A, Rational House, Appasaheb Marathe Marg, Prabhadevi, Mumbai 400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, The Investment Trusts Association, Japan, and Japan Investment Advisers Association. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction lists, which are selected from Buy rated stocks on the respective region's Investment lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) have been suspended pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company. **Not Available or Not Applicable (NA).** The information is not available for display or is not applicable. **Not Meaningful (NM).** The information is not meaningful and is therefore excluded.

Global product; distributing entities

(Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: GSI, authorised by the PRA and regulated by the FCA and the PRA, disseminates research in the following jurisdictions within the European Economic Area: the Grand Duchy of Luxembourg, Italy, the Kingdom of Belgium, the Kingdom of Denmark, the Kingdom of Norway, the Republic of Finland and the Republic of Ireland; GSI - Succursale de Paris (Paris branch) which is authorised by the French Autorité de contrôle prudentiel et de resolution ("ACPR") and regulated by the Autorité de contrôle prudentiel et de resolution and the Autorité des marches financiers ("AMF") disseminates research in France; GSI - Sucursal en España (Madrid branch) authorized in Spain by the Comisión Nacional del Mercado de Valores disseminates research in the Kingdom of Spain; GSI - Sweden Bankfilial (Stockholm branch) is authorized by the SFSA as a "third country branch" in accordance with Chapter 4, Section 4 of the Swedish Securities and Market Act (Sw. lag (2007:528) om värdepappersmarknaden) disseminates research in the Kingdom of Sweden; Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research in the Federal Republic of Germany and those jurisdictions within the European Economic Area where GSI is not authorised to disseminate research and additionally, GSBE, Copenhagen Branch filial af GSBE, Tyskland, supervised by the Danish Financial Authority disseminates research in the Kingdom of Denmark; GSBE - Sucursal en España (Madrid branch) subject (to a limited extent) to local supervision by the Bank of Spain disseminates research in the Kingdom of Spain; GSBE - Succursale Italia (Milan branch) to the relevant applicable extent, subject to local supervision by the Bank of Italy (Banca d'Italia) and the Italian Companies and Exchange Commission (Commissione Nazionale per le Società e la Borsa "Consob") disseminates research in Italy; GSBE - Succursale de Paris (Paris branch), supervised by the AMF and by the ACPR disseminates research in France; and GSBE - Sweden Bankfilial (Stockholm branch), to a limited extent, subject to local supervision by the Swedish Financial Supervisory Authority (Finansinpektionen) disseminates research in the Kingdom of Sweden.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.fiadocumentation.org/fia/regulatory-disclosures_1/fia-uniform-futures-and-options-on-futures-risk-disclosures-booklet-pdf-version-2018. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.

Watt's on Tap & Catalyst of the Week

Catalyst to Watch This Week: Louisiana PSC Special Session on 6/29 to Discuss AEP's Renewables Proposal

On Thursday, June 29th the Louisiana Public Service Commission will hold a special meeting to evaluate the PPA comparison to the owned renewables option AEP has put forth at its SWEPCO subsidiary. The LPSC could decide to move forward with either the AEP owned renewables plan or the PPA options or portions of both. AEP has proposed 999 MWs of renewable generation spread across two wind farms and one solar project for a total investment of $2.2bn. Texas has already rejected their portion of the SWEPCO proposal, but Arkansas has accepted it. If Louisiana accepts the self-owned option, AEP should have enough support to move forward. As a reminder, the LPSC deferred a ruling on the SWEPCO proposal several weeks ago and requested that the company present Purchase Power Agreement (PPA) options for the commission to review alongside AEP's proposal.

Watt's on Tap

The Analyst Conviction Index (ACI)

The ACI = (# of buy ratings - # of sell ratings)/Total # of ratings. We show the sorted ACIs for our regulated utility, power, and water coverage stocks in (Figure 10) below. The graph also shows absolute number of buy, hold, and sell ratings by company. We also track the change in the ACI over the last 12 weeks (Figure 11) to try to gauge where the sell-side consensus view is shifting.

Valuation Method and Risk Statement

Our valuation methodology for the group is price to earnings based.

North American utilities: We identify the following risk factors for the sector overall: rising interest rates; regulatory and policy risks; operational risks; construction risks; cybersecurity risk to the transmission grid and/or customer data, and extreme weather events.

IPPs: We identify the following risks for the sector: Demand for new renewable installations has historically been volatile around changes in state and federal policy, and we expect this volatility to continue. In addition, margins for product manufacturers can be impacted by swings in raw materials pricing and the overall level of energy prices.

Environmental Services: We identify the following risks for the sector: Housing remains a key driver of incremental municipal solid waste volume growth, and a slowdown in new housing starts could put downward pressure on sales growth. In addition, pricing tends to follow GDP growth, and a slowdown in economic growth could lower ability to raise pricing driving potential contraction in margins. For more industrial-exposed names, swings in commodity prices can impact the overall level of waste-generating activity, contributing to earnings volatility.

Required Disclosures

This report has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates are referred to herein as UBS.

For information on the ways in which UBS manages conflicts and maintains independence of its research product; historical performance information; certain additional disclosures concerning UBS research recommendations; and terms and conditions for certain third party data used in research report, please visit https://www.ubs.com/disclosures. The figures contained in performance charts refer to the past; past performance is not a reliable indicator of future results. Additional information will be made available upon request. UBS Securities Co. Limited is licensed to conduct securities investment consultancy businesses by the China Securities Regulatory Commission. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 23 June 2023 12:36 PM GMT. UBS has designated certain Research department members as Derivatives Research Analysts where those department members publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient upon which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For the latest responses, please see the Quantitative Research Review Addendum at the back of this report, where applicable. For previous responses please make reference to (i) previous UBS research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research team on the email above.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that with respect to each security or issuer that the analyst covered in this report: (1) all of the views expressed accurately reflect his or her personal views about those securities or issuers and were prepared in an independent manner, including with respect to UBS, and (2) no part of his or her compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Investment Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	54%	22%
Neutral	FSR is between -6% and 6% of the MRA.	36%	21%
Sell	FSR is > 6% below the MRA.	10%	18%
Short-Term Rating	**Definition**	**Coverage[3]**	**IB Services[4]**
Buy	Stock price expected to rise within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%
Sell	Stock price expected to fall within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%

Source: UBS. Rating allocations are as of 31 March 2023.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.
3:Percentage of companies under coverage globally within the Short-Term rating category.
4:Percentage of companies within the Short-Term rating category for which investment banking (IB) services were provided within the past 12 months.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

KEY DEFINITIONS: Forecast Stock Return (FSR) is defined as expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is defined as the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged as UR by the analyst, indicating that the stock's price target and/or rating are subject to possible change in the near term, usually in response to an event that may affect the investment case or valuation. **Short-Term Ratings** reflect the expected near-term (up to three months) performance of the stock and do not reflect any change in the fundamental view or investment case. **Equity Price Targets** have an investment horizon of 12 months.

EXCEPTIONS AND SPECIAL CASES: UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record, discount; **Neutral:** Neutral on factors such as structure, management, performance record, discount; **Sell:** Negative on factors such as structure, management, performance record, discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Committee (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed to be very high or low risk may be subject to higher or lower bands as they relate to the rating. When such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by any non-US affiliate of UBS Securities LLC are not registered/ qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to the FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. The name of each affiliate and analyst employed by that affiliate contributing to this report, if any, follows.

UBS Securities LLC: Gregg Orrill, Jon Windham, CFA, Ross Fowler, CFA, William Appicelli, CFA, William Grippin, CFA.

The Disclaimer relevant to Global Wealth Management clients follows the Global Disclaimer.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions expressed in this document may change without notice and are only current as of the date of publication. Different areas, groups, and personnel within UBS may produce and distribute separate research products independently of each other. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. **Credit Suisse Global CIO Office Research** is produced by Credit Suisse Wealth Management. **Credit Suisse Securities Research** is produced by Credit Suisse operating under its Securities Research function within the Investment Banking Division. Research methodologies and rating systems of each separate research organization may differ, for example, in terms of investment recommendations, investment horizon, model assumptions, and valuation methods. As a consequence, except for certain economic forecasts (for which UBS CIO and UBS Global Research may collaborate), investment recommendations, ratings, price targets, and valuations provided by each of the separate research organizations may be different, or inconsistent. You should refer to each relevant research product for the details as to their methodologies and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy the document.

UBS Global Research is provided to our clients through UBS Neo, and in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each a system) as an approved means for distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties via e-mail or alternative electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss your access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or has made use of data provided by UBS Evidence Lab and you would like to access that data please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending upon various factors such as a client's individual preferences as to the frequency and manner of receiving communications, a client's risk profile and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term, etc.), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab and legal and regulatory constraints.

When you receive UBS Global Research through a system, your access and/or use of such UBS Global Research is subject to this UBS Global Research Disclaimer and to the UBS Neo Platform Use Agreement (the "Neo Terms") together with any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and cookie notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or by any other means, you agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and that you shall not extract data from any research or estimates provided to you via UBS Global Research or otherwise, without the prior written consent of UBS.

In certain circumstances (including for example, if you are an academic or a member of the media) you may receive UBS Global Research otherwise than in the capacity of a client of UBS and you understand and agree that (i) the UBS Global Research is provided to you for information purposes only; (ii) for the purposes of receiving it you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) the UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is a general communication and is educational in nature; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. The recipient should carefully read this document in its entirety and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "The Characteristics and Risks of Standardized Options." You may read the document at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks associated with these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies calling for multiple purchases and sales of options, such as spreads and straddles. Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions.

Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the Information.

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes:

(i) valuation or accounting purposes;

(ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or

(iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS Global Research manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. All material information in relation to published research reports, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history etc. as required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by UBS Global Research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms under English law or, if not carried out by UBS in the UK the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months UBS may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

United Kingdom: This material is distributed by UBS AG, London Branch to persons who are eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority and subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. **Europe:** Except as otherwise specified herein, these materials are distributed by UBS Europe SE, a subsidiary of UBS AG, to persons who are eligible counterparties or professional clients (as detailed in the Bundesanstalt fur Finanzdienstleistungsaufsicht (BaFin) Rules and according to MIFID) and are only available to such persons. The information does not apply to, and should not be relied upon by, retail clients. UBS Europe SE is authorised by the European Central Bank (ECB) and regulated by the BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE. Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies and styles approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or Sustainable Investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio consisting primarily of sustainable investments may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ. Companies may not necessarily meet high performance standards on all aspects of ESG or sustainable investing issues; there is also no guarantee that any company will meet expectations in connection with corporate responsibility, sustainability, and/or impact performance.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosures_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Bahrain: UBS is a Swiss bank not licensed, supervised or regulated in Bahrain by the Central Bank of Bahrain to undertake banking or investment business activities in Bahrain. Therefore, prospects/clients do not have any protection under local banking and investment services laws and regulations. **Brazil**: This report is only intended for Brazilian residents who are directly purchasing or selling securities in the Brazil capital market through a local authorized institution. **Canada**: The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. Under no circumstances is the information contained herein to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada or, alternatively, pursuant to a dealer registration exemption. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon these materials, the information contained herein or the merits of the securities described herein and any representation to the contrary is an offence. In Canada, this publication is distributed by UBS Investment Management Canada Inc. **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Czech Republic**: UBS is not a licensed bank in the Czech Republic and thus is not allowed to provide regulated banking or investment services in the Czech Republic. This communication and/or material is distributed for marketing purposes and constitutes a "Commercial Message" under the laws of Czech Republic in relation to banking and/or investment services. Please notify UBS if you do not wish to receive any further correspondence. **Denmark**: This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annae Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. UBS Europe SE, Denmark Branch, filial af UBS Europe SE is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Danish Financial Supervisory Authority (Finanstilsynet), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Egypt**: Securities or other investment products are not being offered or sold by UBS to the public in Egypt and they have not been and will not be registered with the Egyptian Financial Regulatory Authority (FRA). **France**: This publication is not intended to constitute a public offer under French law, it does not constitute a personal recommendation as it is distributed only for information purposes to clients of UBS (France) S.A., French "société anonyme" with share capital of € 132.975.556, at 69 boulevard Haussmann F-75008 Paris, registered with the "Registre du Commerce et des Sociétés" of Paris under N° B 421 255 670. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed without the consent of UBS. None of the Material has been registered or filed under the prevailing laws and with any financial or regulatory authority in your jurisdiction. The Material may not have been approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. In Israel, UBS Switzerland AG is registered as Foreign Dealer in cooperation with UBS Wealth Management Israel Ltd., a wholly owned UBS subsidiary. UBS Wealth Management Israel Ltd. is an Investment Marketing licensee which engages in Investment Marketing and is regulated by the Israel Securities Authority. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. No action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Nigeria**: The investment products mentioned in this material are not being offered or sold by UBS to the public in Nigeria and they have not been submitted for approval nor registered with the Securities and Exchange Commission of Nigeria. If you are interested in products of this nature, please let us know. The investment products mentioned in this material are not being directed to, and are not being made available for subscription by any persons within Nigeria other than the selected investors to whom the offer materials have been addressed as a private sale or domestic concern within the exemption and meaning of Section 69(2) of the Investments and Securities Act, 2007 (ISA). This material has been provided to you at your specific unsolicited request and for your information only. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: UBS Switzerland AG is not licensed to conduct banking and financial activities in Portugal nor is UBS Switzerland AG supervised by the portuguese regulators (Bank of Portugal "Banco de Portugal" and Portuguese Securities Exchange Commission "Comissão do Mercado de Valores Mobiliários"). **Qatar**: UBS Qatar LLC is authorized by the Qatar Financial Centre Regulatory Authority, with QFC no. 01169, and has its registered office at 14th Floor, Burj Alfardan Tower, Building 157, Street No. 301, Area No. 69, Al Majdami, Lusail, Qatar. UBS

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

Qatar LLC neither offers any brokerage services nor executes any order with, for or on behalf of its clients. A client order will have to be placed with, and executed by, UBS Switzerland AG in Switzerland or an affiliate of UBS Switzerland AG, that is domiciled outside Qatar. It is in the sole discretion of UBS Switzerland AG in Switzerland or its affiliate to accept or reject an order and UBS Qatar LLC does not have authority to provide a confirmation in this respect. UBS Qatar LLC may however communicate payment orders and investment instructions to UBS Switzerland AG in Switzerland for receipt, acceptance and execution. UBS Qatar LLC is not authorized to act for and on behalf of UBS Switzerland AG or an affiliate of UBS Switzerland AG. This document and any attachments hereto are intended for eligible counterparties and business customers only. **Russia**: This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia**: UBS Saudi Arabia is authorised and regulated by the Capital Market Authority to conduct securities business under licence number 08113-37. **Singapore**: Clients of UBS AG Singapore branch are asked to please contact UBS AG Singapore branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or report. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved or endorsed by any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Sweden**: This publication is not intended to constitute a public offer under Swedish law. It is distributed only for information purposes to clients of UBS Europe SE, Sweden Bankfilial, with place of business at Regeringsgatan 38, 11153 Stockholm, Sweden, registered with the Swedish Companies Registration Office under Reg. No 516406-1011. UBS Europe SE, Sweden Bankfilial is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Swedish supervisory authority (Finansinspektionen), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Taiwan**: This material is provided by UBS AG, Taipei Branch in accordance with laws of Taiwan, in agreement with or at the request of clients/prospects. **Thailand**: This communication and any offering material, term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication were done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Turkey**: The information in this document is not provided for the purpose of offering, marketing or sale of any capital market instrument or service in the Republic of Turkey. Therefore, this document may not be considered as an offer made, or to be made, to residents of the Republic of Turkey in the Republic of Turkey. UBS Switzerland AG is not licensed by the Turkish Capital Market Board (the CMB) under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instrument/service may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the CMB. However, according to article 15 (d) (ii) of the Decree No. 32 residents of the Republic of Turkey are allowed to purchase or sell the financial instruments traded in financial markets outside of the Republic of Turkey. Further to this, pursuant to article 9 of the Communiqué on Principles Regarding Investment Services, Activities and Ancillary Services No. III-37.1, investment services provided abroad to residents of the Republic of Turkey based on their own initiative are not restricted. **United Arab Emirates (UAE)**: UBS is not a financial institution licensed in the UAE by the Central Bank of the UAE nor by the Emirates' Securities and Commodities Authority and does not undertake banking activities in the UAE. UBS AG Dubai Branch is licensed by the DFSA in the DIFC. This document is provided for your information only and does not constitute financial advice. **United Kingdom**: This document is issued by UBS Wealth Management, a division of UBS AG which is authorised and regulated by the Financial Market Supervisory Authority in Switzerland. In the United Kingdom, UBS AG is authorised by the Prudential Regulation Authority and is subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. Details about the extent of regulation by the Prudential Regulation Authority are available from us on request. A member of the London Stock Exchange. This publication is distributed to retail clients of UBS Wealth Management. **Ukraine**: UBS is not registered and licensed as a bank/financial institution under Ukrainian legislation and does not provide banking and other financial services in Ukraine. UBS has not made, and will not make, any offer of the mentioned products to the public in Ukraine. No action has been taken to authorize an offer of the mentioned products to the public in Ukraine and the distribution of this document shall not constitute financial services for the purposes of the Law of Ukraine "On Financial Services and State Regulation of Financial Services Markets" dated 12 July 2001. Any offer of the mentioned products shall not constitute an investment advice, public offer, circulation, transfer, safekeeping, holding or custody of securities in the territory of Ukraine. Accordingly, nothing in this document or any other document, information or communication related to the mentioned products shall be interpreted as containing an offer, a public offer or invitation to offer or to a public offer, or solicitation of securities in the territory of Ukraine or investment advice under Ukrainian law. Electronic communication must not be considered as an offer to enter into an electronic agreement or other electronic instrument within the meaning of the Law of Ukraine "On Electronic Commerce" dated 3 September 2015. This document is strictly for private use by its holder and may not be passed on to third parties or otherwise publicly distributed. **USA**: Distributed to US persons by UBS Financial Services Inc. or UBS Securities LLC, subsidiaries of UBS AG. UBS Switzerland AG, UBS Europe SE, UBS Bank, S.A., UBS Brasil Administradora de Valores Mobiliários Ltda., UBS Asesores México, S.A. de C.V., UBS SuMi TRUST Wealth Management Co., Ltd., UBS Wealth Management Israel Ltd. and UBS Menkul Degerler AS are affiliates of UBS AG. **UBS Financial Services Inc. accepts responsibility for the content of a report prepared by a non-US affiliate when it distributes reports to US persons. All transactions by a US person in the securities mentioned in this report should be effected through a US-registered broker dealer affiliated with UBS, and not through a non-US affiliate. The contents of this report have not been and will not be approved by any securities or investment authority in the United States or elsewhere. UBS Financial Services Inc. is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule") and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule.**

Energy: Electric Utilities

Midweek Thoughts — XEL, SO, AGR, ETR, CNP, SRE, FE, AEE, EXC

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, XEL reaches a settlement in the CO electric rate case; SO's Nicor Gas announces that it expects a $38M pre-tax charge due to the disallowance of QIP investments; AGR and PNM extend the merger agreement until year-end; the TX ALJ issues a PFD in the outstanding items in ETR TX rate case; ERCOT issues a voluntary conservation notice as TX faces a heat wave; the MD PSC approves FE's early termination of PPA for the 205 MW Warrior Run coal plant; AEE MO PSC announces plans to add 550 MW of solar projects; the Rochester City Council votes to approve funding to conduct a study on municipalizing the local utility, RGE; and EXC receives ~$30M in federal funding from the Department of Commerce for grid enhancements.

ICYMI

AGR, CEG — On Tuesday, we upgraded AGR to Sector Weight and downgraded to CEG to Sector Weight. You can read our full notes here and here.

Industry News and News from Companies in Our Coverage

XEL — XEL reaches a settlement in the CO electric rate case: XEL, Staff, and others reach a settlement for a revenue increase of $95M, premised on a 9.3% ROE, 55.69% equity, and a 2022 historical test year. The settlement includes an alternative revenue increase of $47M if the PUC accepts depreciation expense deferrals associated with certain coal-generating assets. The parties also agreed to the early termination of the revenue decoupling pilot and no earnings-sharing mechanism. The settlement compares to XEL's initial request for a $312M revenue increase (net $262M, $50M currently recovered through riders), premised on 10.25% ROE, 55.7% equity, and a 2023 forecast test year. In direct testimony, Staff recommended a $46M revenue increase ($31M net), on a 9.02% ROE, 55.69% equity, and a historical test year. Only one party opposed the settlement. Hearings to discuss the settlement are set to begin in July 2023, followed by a PUC decision in 3Q23. The Company is requesting rates to become effective September 7, 2023.

SO — Nicor Gas expects a $38M pre-tax charge due to the disallowance of QIP investments: SO announced that it expects Nicor Gas to record a $38M pre-tax charge after the IL ICC issued an order disallowing ~$32M of the $415M 2019 QIP plant additions. The $38M pre-tax charge includes the capital investment disallowance and the related return on investment, which we estimate would result in a ~$0.03 EPS headwind if finalized. SO filed the 2019 QIP reconciliation (Docket: 20-0330) with the IL ICC in March 2020. SO also has active dockets for the 2020 and 2021 QIP annual reconciliations. SO seeks to recover $360M and $355M in those dockets, respectively. The Company intends to file for a rehearing with the ICC and appeal to the Illinois Appellate Court if necessary.

AGR — AGR and PNM extend merger agreement until December 31: AGR and PNM entered into a third amendment to the merger agreement to extend the end date until December 31, 2023. The agreement was set to expire on July 20. The merger is currently pending a court decision on whether the PRC exceeded its jurisdictional authority in denying the approval for the merger in late 2021. The NM Supreme Court previously (read more here) issued a decision denying a joint motion filed by AGR, PNM, and the NM PRC to dismiss the pending appeal of the PRC's denial of the proposed merger and remand the case to the PRC. The court has scheduled oral arguments in the case for September 12.

ETR — ALJ issues PD in ETR TX rate case on outstanding issues: The ALJ addressed outstanding Issue Numbers 68 and 69, related to transportation electrification and charging infrastructure, respectively**.** The ALJ deferred to the PUCT to determine if it is appropriate for ETR to own EV charging infrastructure. If the PUCT determines it's appropriate, the ALJ recommends that the PUCT approve the Transportation Electrification and Charging Infrastructure (TECI) rider and deny the Transportation Electrification and Charging Demand Adjustment (TECDA) rider. ETR previously filed a settlement in the TX electric GRC that resolved all issues except Issue Numbers 68 and 69. The settlement agreed to a $54M net revenue increase ($252M base rate increase offset by $198M of riders), premised on a 9.57% ROE and 51.21% equity. The PUCT has a jurisdictional deadline to issue a decision by July 20 (open meetings are scheduled for June 29 and July 20). New rates will be retroactive to December 3, 2022.

CNP, SRE — ERCOT issues voluntary conservation notice during the heat wave: ERCOT asked TX residents to voluntarily reduce electricity use on Tuesday, June 20, between 4:00 PM and 8:00 PM CDT, due to record forecasted demand from the heat wave. Actual load demand exceeded 79 GW on Tuesday, resulting in power prices reaching ~$5,000/MWh. Temperatures are expected to remain

elevated today with a forecast for 80,458 MW, which would top the prior record of 80,148 MW set last summer. Currently, ERCOT forecasts that demand will reach 82,080 MW on June 26 and 83,555 MW on June 28. In the 2023 summer seasonal assessment of resource adequacy, ERCOT projected that sufficient capacity would be available to serve the forecasted peak load for the upcoming summer season. ERCOT assumed a base summer peak load demand of 82,739 MW. The grid operator has ~97,000 MW of resource capacity, providing a 23% planning reserve margin. ERCOT has experienced 5,000 MW of outages during the past three summers.

FE — MD PSC approves FE's decision for early termination of the PPA for the 205 MW Warrior Run coal plant: The MD PSC approved FE's Potomac Edison's application (Docket No. 8797) to buy out the remainder of its PPA contract with AES for the 205 MW Warrior Run coal plant for $357M after FE and AES agreed to the termination. FE entered the 30-year contract with AES in 2000 under PURPA requirements to purchase 180 MW of offtake capacity. FE estimates that the early termination of the contract will save customers ~$80M over the next seven years by eliminating the fluctuating charges based on wholesale energy prices and capacity.

AEE — AEE MO PSC announces plans to add 550 MW of solar projects: AEE MO announced plans to add 550 MW of solar between 2024-2026. The Company will build the 50 MW Vandalia Renewable Energy Center and the 50 MW Bowling Green Renewable Energy Center. AEE will acquire the 300 MW Split Rail Solar Facility and the 150 MW Cass County Solar plant from Invenergy and Savion, respectively. As part of its latest IRP, AEE will add 2.8 GW of wind and solar by 2030. An updated MO IRP filing is expected in 2H23, which could result in further decarbonization investments.

AGR — Rochester City Council votes to approve funding to conduct a study on municipalizing RGE: The Rochester City Council voted unanimously to allocate $0.5M to a feasibility study to explore the possibility of cutting ties with AGR's RGE and forming a municipal utility. Rochester Mayor Malik Evans and the Rochester City Council previously filed a letter with the NY PSC requesting NYS to fund the study. Customers have complained of higher bills, and the PSC is investigating RGE concerning the mismanagement of its billing systems and protocols. Municipalization studies and efforts aside, there have been very few instances of utilities being taken over by local municipalities. Last week, RG&E reached a constructive settlement in the pending electric and gas rate cases. The settlement awaits NY PSC approval.

EXC — EXC receives ~$30M in federal infrastructure grants: EXC's ComEd and BGE were each awarded ~$15M through the Middle Mile Grant by the DoC's National Telecommunications and Information Administration. ComEd will use the funding to enhance grid reliability and resilience while helping to increase broadband connectivity across areas in Chicago. BGE's grant will go toward a $31M project to underground 70 route miles of underground middle-mile fiber infrastructure. The $1B Middle-Mile Grant Program seeks to fund the construction, improvement, or acquisition of middle-mile fiber infrastructure; $930M has been awarded so far.

What Happened?

Yesterday, intervenor testimony in the BG&E multi-year rate case was filed. The Staff recommends a cumulative electric rate increase over '24-'26 of $193.2mm or 61.7% of the $313mm request by BG&E. In the gas case, the cumulative rate increase recommended is $232.2mm or 80.2% of the $289.3mm request. The ROE recommendation is 9.45% for both segments vs. last authorized ROE of 9.50% for electric and 9.65% for gas. The recommendation for equity ratio is 52.0%, in-line with the current authorized level. The rate base recommendation for the gas segment is $3.23/$3.54/$3.87 bn for '24-26 vs. company ask of $3.22/$3.53/$3.87 bn. For the electric rate case, Staff came in at $4.76/$5.04/$5.25 bn vs. ask of $4.85/$5.23/$5.59 bn. EXC is also seeking a total of $76.5mm for revenue shortfall from '21/'22 and Staff recommends recovery of $68.1mm. Additionally, the Office of Consumer Counsel is recommending a cumulative rate increase for both electric and gas of $293.3mm vs. the total BG&E ask of $602.4mm.

What's Our View?

We believe investors should view the Staff position as a reasonable starting point. The ROE recommendation is modestly below the last authorized, but we believe there should be an opportunity to maintain the current authorized level, particularly if a settlement can be reached. The gas revenue recommendation is quite strong at 80% of ask and the overall increase between the two segments being at 70.6% of the request is a constructive data point. Notably, this is the second time through with the multi-year rate plan in Maryland, and the Staff recommending 89% of the true-up ask is a positive sign that the overall framework appears to be working. The BG&E rate case in Maryland (18% of total rate base) and the ComEd rate case in Illinois (37% of total rate base) are important drivers to EXC achieving its 6-8% EPS growth target through 2026. Both cases now have reasonably supportive Staff positions filed as they work towards resolution by year-end.

What's Next?

Rebuttal testimony in the BG&E case is due 7/31. Hearings are scheduled for 8/30-9/8. A Maryland Public Service Commission order is expected by 12/14. In the ComEd case, rebuttal testimony is due 6/27, with evidentiary hearings on 8/21. A proposed order from an administrative law judge is due 10/23 and a final order from the Illinois Commerce Commission is expected by 12/20.

Valuation:

We maintain our Buy rating and $45 price target.

Forecast excess return	+4.4%

Company Description

Exelon owns six regulated utility subsidiaries: Atlantic City Electric, BGE, ComEd, Delmarva Power, PECO and the Pepco Subsidiaries, which deliver electricity and natural gas to about 10m customers in Delaware, Washington DC, Illinois, Maryland, New Jersey, and Pennsylvania.

Valuation Method and Risk Statement

Our valuation methodology for the group is price-to-earnings based. The adjustments applied fall into 5 categories. These are as follows: 1) Group Valuation Bias: Flowing from our valuation work comparing Baa corporate yields to group dividend yields and RU price to earnings ratios to those for the S&P 500, we incorporate a positive or negative adjustment to our group multiple representing the gap we calculate to the nearest 5%; 2) Growth Adjustment: We adjust our valuations based on the growth quartile each utility occupies. First quartile receives a 5% premium, second quartile a 2% premium, third quartile a 2% discount and fourth quartile a 5% discount; 3) Regulatory Adjustment: Our valuation adjustments for regulation are based on our proprietary Regulatory Rankings. First quartile jurisdictions receive 5%, second quartile 2%, third quartile -2% and fourth quartile -5%; 4) Multi Utility Diversified Valuation: For multi utilities (those with more than 15% diversified or foreign earnings), we perform a sum-of-the-parts analysis applying business/region appropriate valuations to those diversified businesses; 5) One-off Adjustments: In special situations, we value risk on an issue-specific basis. Common areas where we apply such an adjustment include: ESG advantage, large project construction risk, legal risk, and announced M&A completion risk.

We maintain our price target of $45 premised on a 6% premium to the group multiple or 16.3x our $2.77/share earnings forecast for 2025. Our 6% net premium is derived from a 5% premium for the overall regulated utility group, premised upon the current undervaluation versus the Baa corporate bond, a 3% discount for a 3rd quartile regulatory ranking overall, a 2% premium for 2nd quartile earnings growth, a 5% premium for energy transition, and 3% discount for lower pricing power.

Specific risks for Exelon include regulatory risks at the utilities, weather, and interest rates.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

Quantitative Research Review

UBS publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

Exelon Corp

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next year? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	3
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next year? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	3
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	3
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	3
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	3
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?

KEY DEFINITIONS: Forecast Stock Return (FSR) is defined as expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is defined as the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged as UR by the analyst, indicating that the stock's price target and/or rating are subject to possible change in the near term, usually in response to an event that may affect the investment case or valuation. **Short-Term Ratings** reflect the expected near-term (up to three months) performance of the stock and do not reflect any change in the fundamental view or investment case. **Equity Price Targets** have an investment horizon of 12 months.

EXCEPTIONS AND SPECIAL CASES: UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record, discount; **Neutral:** Neutral on factors such as structure, management, performance record, discount; **Sell:** Negative on factors such as structure, management, performance record, discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Committee (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed to be very high or low risk may be subject to higher or lower bands as they relate to the rating. When such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

The Disclaimer relevant to Global Wealth Management clients follows the Global Disclaimer.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions expressed in this document may change without notice and are only current as of the date of publication. Different areas, groups, and personnel within UBS may produce and distribute separate research products independently of each other. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. **Credit Suisse Global CIO Office Research** is produced by Credit Suisse Wealth Management. **Credit Suisse Securities Research** is produced by Credit Suisse operating under its Securities Research function within the Investment Banking Division. Research methodologies and rating systems of each separate research organization may differ, for example, in terms of investment recommendations, investment horizon, model assumptions, and valuation methods. As a consequence, except for certain economic forecasts (for which UBS CIO and UBS Global Research may collaborate), investment recommendations, ratings, price targets, and valuations provided by each of the separate research organizations may be different, or inconsistent. You should refer to each relevant research product for the details as to their methodologies and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy the document.

UBS Global Research is provided to our clients through UBS Neo, and in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each a system) as an approved means for distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties via e-mail or alternative electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss your access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or has made use of data provided by UBS Evidence Lab and you would like to access that data please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending upon various factors such as a client's individual preferences as to the frequency and manner of receiving communications, a client's risk profile and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term, etc.), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab and legal and regulatory constraints.

When you receive UBS Global Research through a system, your access and/or use of such UBS Global Research is subject to this UBS Global Research Disclaimer and to the UBS Neo Platform Use Agreement (the "Neo Terms") together with any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and cookie notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or by any other means, you agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and that you shall not extract data from any research or estimates provided to you via UBS Global Research or otherwise, without the prior written consent of UBS.

In certain circumstances (including for example, if you are an academic or a member of the media) you may receive UBS Global Research otherwise than in the capacity of a client of UBS and you understand and agree that (i) the UBS Global Research is provided to you for information purposes only; (ii) for the purposes of receiving it you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) the UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is a general communication and is educational in nature; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. The recipient should carefully read this document in its entirety and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "The Characteristics and Risks of Standardized Options." You may read the document at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks associated with these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies calling for multiple purchases and sales of options, such as spreads and straddles. Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions.

Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the Information.

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes:

(i) valuation or accounting purposes;

(ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or

(iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS Global Research manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. All material information in relation to published research reports, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history etc. as required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by UBS Global Research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms under English law or, if not carried out by UBS in the UK the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months UBS may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

United Kingdom: This material is distributed by UBS AG, London Branch to persons who are eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority and subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. **Europe:** Except as otherwise specified herein, these materials are distributed by UBS Europe SE, a subsidiary of UBS AG, to persons who are eligible counterparties or professional clients (as detailed in the Bundesanstalt fur Finanzdienstleistungsaufsicht (BaFin) Rules and according to MIFID) and are only available to such persons. The information does not apply to, and should not be relied upon by, retail clients. UBS Europe SE is authorised by the European Central Bank (ECB) and regulated by the BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE. In all cases it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for the purpose of offering, marketing and sale by any means of any capital market instruments and services in the Republic of Turkey. Therefore, this document may not be considered as an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, according to article 15 (d) (ii) of the Decree No. 32, there is no restriction on the purchase or sale of the securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce regulated by the Polish Financial Supervision Authority. Where an analyst of UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce. **Russia:** Prepared and distributed by UBS Bank (OOO). Should not be construed as an individual Investment Recommendation for the purpose of the Russian Law - Federal Law #39-FZ ON THE SECURITIES MARKET Articles 6.1-6.2.**Switzerland:** Distributed by UBS AG to persons who are institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** The information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties, as classified under the DFSA rulebook. No other person should act upon this material/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS Investment Bank is not licensed to provide banking services in the UAE by the Central Bank of the UAE, nor is it licensed by the UAE Securities and Commodities Authority. **Israel:** This Material is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer that is supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or in distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as such term is defined under the Israeli Advisory Law). Nothing in this Material should be considered as investment advice under the Israeli Advisory Law. This Material is being issued only to and/or is directed only at persons who are Eligible Clients within the meaning of the Israeli Advisory Law, and this Material must not be furnished to, relied on or acted upon by any other persons. **United States:** Distributed to US persons by either UBS Securities LLC or by UBS Financial Services Inc., subsidiaries of UBS AG; or by a group, subsidiary or affiliate of UBS AG that is not registered as a US broker-dealer (a **'non-US affiliate'**) to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this report must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG that is registered to conduct business in Canada or is otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this Material is prepared by UBS Brasil Corretora de Câmbio, Títulos e Valores Mobiliários S.A. (UBS Brasil CCTVM) to persons who are eligible investors residing in Brazil, which are considered to be Professional Investors (Investidores Profissionais), as designated by the applicable regulation, mainly the CVM Resolution No. 30 from the 11th of May 2021 (determines the duty to verify the suitability of products, services and transactions with regards to the client's profile). UBS Brasil CCTVM is a subsidiary of UBS BB Servicos de Assessoria Financeira e Participacoes S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB – Banco de Investimentos S.A.), of which UBS AG is the majority owner and which provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. **Hong Kong:** Distributed by UBS Securities Asia Limited. Please contact local licensed persons of UBS Securities Asia Limited in respect of any matters arising from, or in connection with, the analysis or document **Singapore:** Distributed by UBS Securities Pte. Ltd. [Co. Reg. No.: 198500648C] or UBS AG, Singapore Branch. Please contact UBS Securities Pte. Ltd., an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110); or UBS AG, Singapore Branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or document. The recipients of this document represent and warrant that they are accredited and institutional investors as defined in the Securities and Futures Act (Cap. 289). **Japan:** Distributed by UBS Securities Japan Co., Ltd. to professional investors (except as otherwise permitted). Where this report has been prepared by UBS Securities Japan Co., Ltd., UBS Securities Japan Co., Ltd. is the author, publisher and distributor of the report. Distributed by UBS AG, Tokyo Branch to Professional Investors (except as otherwise permitted) in relation to foreign exchange and other banking businesses when relevant. **Australia:** Clients of UBS AG: Distributed by UBS AG (ABN 47 088 129 613 and holder of Australian Financial Services License No. 231087). Clients of UBS Securities Australia Ltd: Distributed by UBS Securities Australia Ltd (ABN 62 008 586 481 and holder of Australian Financial Services License No. 231098). This document contains general information and/or general advice only and does not constitute personal financial product advice. As such, the Information in this document has been prepared without taking into account any investor's objectives, financial situation or needs, and investors should, before acting on the Information, consider the appropriateness of the Information, having regard to their objectives, financial situation and needs. If the Information contained in this document relates to the acquisition, or potential acquisition of a particular financial product by a 'Retail' client as defined by section 761G of the Corporations Act 2001 where a Product Disclosure Statement

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

would be required, the retail client should obtain and consider the Product Disclosure Statement relating to the product before making any decision about whether to acquire the product. **New Zealand:** Distributed by UBS New Zealand Ltd. UBS New Zealand Ltd is not a registered bank in New Zealand. You are being provided with this publication or material because you have indicated to UBS that you are a "wholesale client" within the meaning of section 5C of the Financial Advisers Act 2008 of New Zealand (Permitted Client). This publication or material is not intended for clients who are not Permitted Clients (non-permitted Clients). If you are a non-permitted Client you must not rely on this publication or material. If despite this warning you nevertheless rely on this publication or material, you hereby (i) acknowledge that you may not rely on the content of this publication or material and that any recommendations or opinions in such this publication or material are not made or provided to you, and (ii) to the maximum extent permitted by law (a) indemnify UBS and its associates or related entities (and their respective Directors, officers, agents and Advisors) (each a 'Relevant Person') for any loss, damage, liability or claim any of them may incur or suffer as a result of, or in connection with, your unauthorised reliance on this publication or material and (b) waive any rights or remedies you may have against any Relevant Person for (or in respect of) any loss, damage, liability or claim you may incur or suffer as a result of, or in connection with, your unauthorised reliance on this publication or material. **Korea:** Distributed in Korea by UBS Securities Pte. Ltd., Seoul Branch. This report may have been edited or contributed to from time to time by affiliates of UBS Securities Pte. Ltd., Seoul Branch. You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies and styles approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or Sustainable Investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio consisting primarily of sustainable investments may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ. Companies may not necessarily meet high performance standards on all aspects of ESG or sustainable investing issues; there is also no guarantee that any company will meet expectations in connection with corporate responsibility, sustainability, and/or impact performance.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosures_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Bahrain: UBS is a Swiss bank not licensed, supervised or regulated in Bahrain by the Central Bank of Bahrain to undertake banking or investment business activities in Bahrain. Therefore, prospects/clients do not have any protection under local banking and investment services laws and regulations. **Brazil**: This report is only intended for Brazilian residents who are directly purchasing or selling securities in the Brazil capital market through a local authorized institution. **Canada**: The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. Under no circumstances is the information contained herein to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada or, alternatively, pursuant to a dealer registration exemption. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon these materials, the information contained herein or the merits of the securities described herein and any representation to the contrary is an offence. In Canada, this publication is distributed by UBS Investment Management Canada Inc. **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Czech Republic**: UBS is not a licensed bank in the Czech Republic and thus is not allowed to provide regulated banking or investment services in the Czech Republic. This communication and/or material is distributed for marketing purposes and constitutes a "Commercial Message" under the laws of Czech Republic in relation to banking and/or investment services. Please notify UBS if you do not wish to receive any further correspondence. **Denmark**: This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annae Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed without the consent of UBS. None of the Material has been registered or filed under the prevailing laws and with any financial or regulatory authority in your jurisdiction. The Material may not have been approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. In Israel, UBS Switzerland AG is registered as Foreign Dealer in cooperation with UBS Wealth Management Israel Ltd., a wholly owned UBS subsidiary. UBS Wealth Management Israel Ltd. is an Investment Marketing licensee which engages in Investment Marketing and is regulated by the Israel Securities Authority. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. No action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Nigeria**: The investment products mentioned in this material are not being offered or sold by UBS to the public in Nigeria and they have not been submitted for approval nor registered with the Securities and Exchange Commission of Nigeria. If you are interested in products of this nature, please let us know. The investment products mentioned in this material are not being directed to, and are not being made available for subscription by any persons within Nigeria other than the selected investors to whom the offer materials have been addressed as a private sale or domestic concern within the exemption and meaning of Section 69(2) of the Investments and Securities Act, 2007 (ISA). This material has been provided to you at your specific unsolicited request and for your information only. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: UBS Switzerland AG is not licensed to conduct banking and financial activities in Portugal nor is UBS Switzerland AG supervised by the portuguese regulators (Bank of Portugal "Banco de Portugal" and Portuguese Securities Exchange Commission "Comissão do Mercado de Valores Mobiliários"). **Qatar**: UBS Qatar LLC is authorized by the Qatar Financial Centre Regulatory Authority, with QFC no. 01169, and has its registered office at 14th Floor, Burj Alfardan Tower, Building 157, Street No. 301, Area No. 69, Al Majdami, Lusail, Qatar. UBS

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

Qatar LLC neither offers any brokerage services nor executes any order with, for or on behalf of its clients. A client order will have to be placed with, and executed by, UBS Switzerland AG in Switzerland or an affiliate of UBS Switzerland AG, that is domiciled outside Qatar. It is in the sole discretion of UBS Switzerland AG in Switzerland or its affiliate to accept or reject an order and UBS Qatar LLC does not have authority to provide a confirmation in this respect. UBS Qatar LLC may however communicate payment orders and investment instructions to UBS Switzerland AG in Switzerland for receipt, acceptance and execution. UBS Qatar LLC is not authorized to act for and on behalf of UBS Switzerland AG or an affiliate of UBS Switzerland AG. This document and any attachments hereto are intended for eligible counterparties and business customers only. **Russia**: This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia**: UBS Saudi Arabia is authorised and regulated by the Capital Market Authority to conduct securities business under licence number 08113-37. **Singapore**: Clients of UBS AG Singapore branch are asked to please contact UBS AG Singapore branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or report. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved or endorsed by any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Sweden**: This publication is not intended to constitute a public offer under Swedish law. It is distributed only for information purposes to clients of UBS Europe SE, Sweden Bankfilial, with place of business at Regeringsgatan 38, 11153 Stockholm, Sweden, registered with the Swedish Companies Registration Office under Reg. No 516406-1011. UBS Europe SE, Sweden Bankfilial is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Swedish supervisory authority (Finansinspektionen), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Taiwan**: This material is provided by UBS AG, Taipei Branch in accordance with laws of Taiwan, in agreement with or at the request of clients/prospects. **Thailand**: This communication and any offering material, term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication were done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Turkey**: The information in this document is not provided for the purpose of offering, marketing or sale of any capital market instrument or service in the Republic of Turkey. Therefore, this document may not be considered as an offer made, or to be made, to residents of the Republic of Turkey in the Republic of Turkey. UBS Switzerland AG is not licensed by the Turkish Capital Market Board (the CMB) under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instrument/service may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the CMB. However, according to article 15 (d) (ii) of the Decree No. 32 residents of the Republic of Turkey are allowed to purchase or sell the financial instruments traded in financial markets outside of the Republic of Turkey. Further to this, pursuant to article 9 of the Communiqué on Principles Regarding Investment Services, Activities and Ancillary Services No. III-37.1, investment services provided abroad to residents of the Republic of Turkey based on their own initiative are not restricted. **United Arab Emirates (UAE)**: UBS is not a financial institution licensed in the UAE by the Central Bank of the UAE nor by the Emirates' Securities and Commodities Authority and does not undertake banking activities in the UAE. The Guggenheim Daily Transmission: NI, SO, EXC, ETR, PEG, US EPA/ALTO, DUK

SAVE THE DATE: Our 2nd Annual Guggenheim Georgia Field Trip: Southern Company (SO), Racing Porsches & GA Commissioner Meetings, will take place July 11 & 12 in Atlanta...

For details on our Guggenheim-hosted client Utility events including our ES NDR, SMR NDR, SRE NDR, LNT NDR, PNW NDR, AWK NDR, ED NDR, CMS NDR, SO NDR, POR NDR, CEG NDR, PEG NDR, and other events, scroll down...

NI: Healthy Multiple for NIPSCO 19.9% Sale in Line with Consensus Expectations; Questions Remain Around Equity Needs & Blackstone Equity Contributions (see our note HERE)

SO – Illinois regulators decide on partial disallowance for Nicor Gas' 2019 QIP capex investment

EXC – Intervenor testimony filed in BGE MYP case

ETR – ETR MS storm recovery continues

PEG – PSEG CEO Ralph Larossa speaks with media on EV adoption and last mile delivery infrastructure

US EPA/ALTO – Media reports on EPA proposal for biofuels and ethanol blending

SO – Georgia PSC special election could be approaching soon

DUK – Environmental group speaks out against fuel recovery rate hike

SO – Illinois regulators decide on partial disallowance for Nicor Gas' 2019 QIP capex investment

- The Illinois Commerce Commission (ICC) completed its review of Nicor Gas' 2019 Qualifying Infrastructure Plant (QIP) investment under the utility's QIP rider and decided to disallow $32m of the $415m of requested 2019 capital, or roughly ~8% of the total. Nicor Gas defends these investments in infrastructure as prudently incurred and intends to request rehearing by the Illinois Commission and, if necessary, appeal to the Illinois Appellate Court.
- The utility will record a pre-tax charge in 2Q23 of ~$38m (~$28m after tax) associated with the disallowance of capital investments. Nicor Gas said that it is analyzing the ICC's order and estimates a range of possible outcomes of ~$38m–$44m in disallowances.
- Nicor Gas' capital expenditures related to qualifying projects under the Investing in Illinois program totaled $389m/$408m/$437m/$62 million in 2020/2021/2022/1Q23, respectively.
- The proceedings to review Nicor Gas' QIP investments for 2020-2022 are pending before the Illinois Commission, including Nicor Gas' testimony demonstrating that these additional investments in infrastructure are reasonable and prudently incurred, however no schedule has been established at this time for other parties to file testimony in those proceedings.
- Company 8-K HERE

Guggenheim takeaway: *Although the ongoing EPS impact is much less than a penny for SO, investors will no doubt be watching this matter develop with an eye towards WEC's PGL subsidiary's QIP program as the utility continues to navigate through its current rate case in Illinois.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

EXC – Intervenor testimony filed in BGE MYP case

- Staff, OPC, Sierra Club, Amtrak, and multiple other organizations and corporations have filed direct testimony in BGE's ongoing MYP case
- "My recommended ROE is 9.45 percent for BGE's electric and gas operations. This recommendation is based on my calculated ROEs from my DCF, and CAPM models, which are presented in Table 1 below. This result would lower BGE's current ROE from gas operations from 9.65 percent, resulting in a decrease of 20 basis points, and would decrease BGE's electric ROE by 5 basis points. My recommended ROE is 9.45 percent, because this figure is within the range of my ROE results and recognizes the Commission's precedent for applying gradualism to ROE determinations" – direct testimony of Drew M. McAuliffe
- "Staff recommends that BGE be authorized to implement revised electric delivery service rates that produce

  an increase in annual revenues of approximately $39.1 million in 2024, $76.1 million in 2025, and $78.0 million in 2026." – filing
- More HERE

Guggenheim takeaway: *Heads up on the voluminous filings, which we continue to parse – initial impressions point to manageable metrics in our view (e.g., vs. prior authorized 9.5% ROE), however we continue to evaluate Staff's proposed adjustments to the capital spend (for example in Testimony of Jamie A. Smith) and other intervenors' filings.*

ETR – ETR MS storm recovery continues

- ETR MS continues storm recovery from about 138,000 outages at the peak.
- About 13,000 customers were still out as of yesterday, and ETR anticipates restoring power to all those who can receive it by tonight.
- The restoration efforts have caused some concern from MPSC regulators as customers have voiced their complaints in restoration delays.
- MPSC commissioner Brent Bailey voiced his concern and disappointment with ETR MS response in media covered here.

Guggenheim takeaway: *FYI. Customer complaints are expected for a storm restoration process and ETR has generally been timely and prudent in restoration. MPSC voicing concerns is a datapoint on public feedback for ETR, but also supports the need for resiliency which ETR has pushed up in the capex stack.*

PEG – PSEG CEO Ralph Larossa speaks with media on EV adoption and last mile delivery infrastructure

- PSEG CEO Ralph Larossa spoke with CNBC live yesterday on EV adoption inflection points, needs for last mile reliability and other energy matters in NJ.
- Ralph reiterated many points made to investors during the current year on the need to address resiliency, manage customer wallet share and stay ahead of emerging consumer trends.
- Media covered here.

Guggenheim takeaway: *FYI.*

US EPA / ALTO – Media reports on EPA proposal for biofuels and ethanol blending

- Reuters reports the EPA proposed rules on biofuel will be flat for ethanol.
- The U.S. Environmental Protection Agency is reported to be looking at biofuel blending volumes of 20.94 billion gallons in 2023, 21.54 billion gallons in 2024 and 22.33 billion gallons in 2025 (per media source)
- The update proposal is slightly above the prior contemplated volumes of 20.82 billion in 2023, 21.87 billion in 2024, and 22.68 billion in 2025.
- Within the blending mandates, ethanol has been stepped down from 15.25 billion gallons to 15.00 through 2025 with a small exception for 2023.
- EPA is expected to announce the final rule on Wednesday (per media).
- More here.

Guggenheim takeaway*: FYI. The potential EPA outcome is slight below the prior anticipated ethanol levels, which could pressure some fuel ethanol producers, including ALTO, but we note that the majority of margin contribution for the company is based on*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

high grade ethanol and other corn based products. On the margin the tempered blending mandates could help keep the ethanol market from oversupply.

SO – Georgia PSC special election could be approaching soon

- Georgia voters had been scheduled to vote on two of the five Georgia Public Service Commission (PSC) seats in November 2022, however the election was delayed pending a Voting Rights Act lawsuit which alleged that the 'at-large' voting system used to elect PSC members was unlawfully diluting the Black vote in Georgia.
- Following a June 8th U.S. Supreme Court decision on a case with similar facts in Alabama, the possibility is being raised that a decision may not be far off which would then trigger a Georgia PSC special election to occur.
- The case is currently at the 11th District Court of Appeals, which last held a hearing on the case in December 2022. The case was stayed, pending the Supreme Court's decision on 'Allen v. Milligan'. With that case now decided, Georgia's case is able to proceed.
- District 2 and 3 seats are up for re-election. In District 2, incumbent Tim Echols (R) is running against Patty Durand (D). In District 3, incumbent Fitz Johnson (R) is running against Shelia Edwards (D).
- More HERE

Guggenheim takeaway: *FYI. As a reminder (and also ahead of the Vogtle prudency review), please join us for our 2nd Annual Guggenheim Georgia Field Trip: Southern Company (SO), Racing Porsches & GA Commissioner Meetings, which will take place July 11 & 12 in Atlanta.*

DUK – Environmental group speaks out against fuel recovery rate hike

- CleanAIRE NC, an environmental advocacy group, conducted a media interview to discuss the environmental group's opposition to Duke Energy Carolina's proposed revenue increase related to fuel recovery.
- More HERE

Guggenheim takeaway: *Minor FYI, and an expected part of the process.*

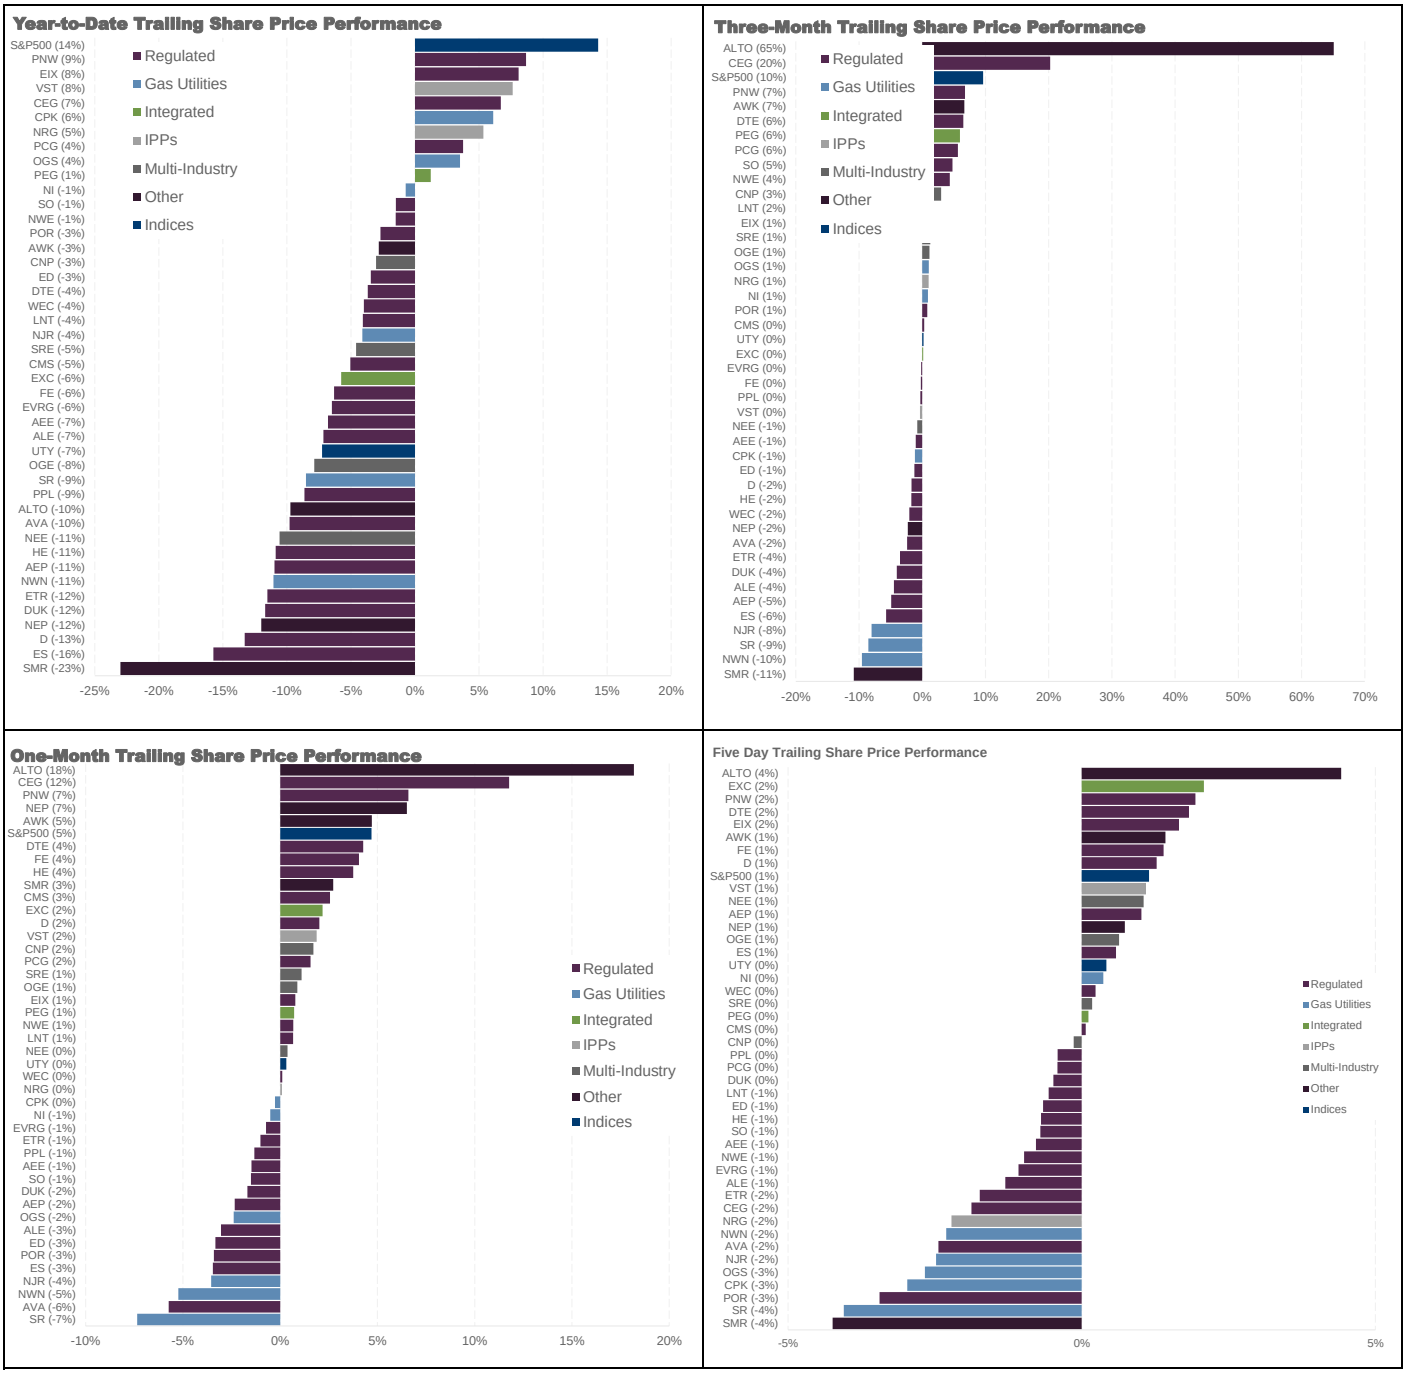
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

RATINGS DISTRIBUTIONS FOR GUGGENHEIM SECURITIES:

OTHER DISCLOSURES

This research is for our clients and prospective clients only. Other than disclosures relating to Guggenheim Securities and its affiliates, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the research analyst's judgement. Guggenheim Securities conducts a full-service, integrated investment banking and brokerage business, and one or more of its affiliates conducts an investment management business. Guggenheim Securities is a member of SIPC (http://www.sipc.org). Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and our employees trading for our own account that reflect opinions that are contrary to the opinions expressed in this research. Guggenheim Securities or certain of its affiliates conducts an investment management business, trades for its own account, and conducts an investment business, and may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

We and our affiliates, officers, directors, and employees, excluding equity and credit analysts, will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research. We and our affiliates also may sell to or buy from customers

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

on a principal basis the securities described herein. We and our affiliates also do business with, or that relates to, companies covered in Guggenheim Securities' research, and may have a position in the debt of the company or companies discussed herein.

This research is not an offer to sell or the solicitation of an offer to buy any security. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

This communication does not constitute an offer of Shares to the public in the United Kingdom. No prospectus has been or will be approved in the United Kingdom in respect of the Securities. Consequently, this communication is directed only at (i) persons who are outside the United Kingdom or (ii) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order"), (iii) high net worth entities falling within Article 49(2) of the Order (iv) and other persons to whom it may lawfully be communicated (all such persons together being referred to as "relevant persons"). Any investment activity to which this communication relates will only be available to, and will only be engaged with, relevant persons. Any person who is not a relevant person, or otherwise in a territory where it is not intended to, or may not, be distributed, should not act or rely on this document or any of its contents.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:32 PM.

ARGUS

NASDAQ: EXC

EXELON CORP

Exelon Corp. is a leading energy provider, with transmission and distribution operations in the U.S. and headquarters in Chicago. Exelon spun off its generation business, which was about 60% nuclear, as Constellation Energy at the end of 2021. Constellation is now a publicly traded company focused on generation and competitive distribution, while Exelon focuses on regulated transmission and distribution.

Analyst's Notes

Analysis by Marie Ferguson, June 16, 2023

ARGUS RATING: BUY

- Steady earnings growth driven by rate increases
- Exelon recently reported 1Q23 operating EPS of $0.70, up from $0.64 a year earlier and above the consensus of $0.66. Rate increases boosted EPS by $0.13.
- We are maintaining our 2023 operating EPS estimate of $2.38 and raising our 2024 estimate to $2.52 from $2.50.
- The current annualized dividend of $1.44 per share yields about 3.5%, near the peer average of 3.4%.
- We believe that the current EXC share price offers a buying opportunity for income-oriented investors, and are reiterating our target price of $50.

INVESTMENT THESIS

We are maintaining our BUY rating on Exelon Corp. (NYSE: EXC), which provides electricity and natural gas to about 10 million customers in Illinois, Maryland, Pennsylvania, New Jersey, Delaware, and the District of Columbia. We have a positive view of the company's transformation into a pure-play transmission utility through the recent spinoff of its competitive energy business, Constellation Energy (CEG). The move should also lower earnings volatility. Management projects long-term earnings growth of 6%-8% from the company's utilities, which we believe is achievable. Exelon is also benefiting from favorable rate case decisions, as well as from its cleaner transmission mix and focus on hydro power.

In conjunction with the February 2022 Constellation spinoff, EXC shareholders received one share of CEG for every three shares of EXC. Exelon shares were repriced as a result of this separation.

We believe that the current share price offers a buying opportunity for income-oriented investors, and are reiterating our target price of $50.

RECENT DEVELOPMENTS

EXC shares have underperformed over the past three months, falling 2% compared to a

Analyst's Notes...Continued

12% gain for the S&P 500 and a 1% decline for the S&P Utility Sector Index (XLU). The shares have been flat over the 52 weeks, compared to a 20% gain for the S&P 500.

Exelon recently reported 1Q23 operating EPS of $0.70, up from $0.64 a year earlier and above the consensus of $0.66. The utility was less affected by unfavorable weather than many peers; earnings were driven mainly by rate increases, which boosted EPS by $0.13. ComEd, serving Northern Illinois, posted strong operating earnings of $0.25 per share, up from $0.20 in 1Q22.

First-quarter operating revenues rose 4% from the prior year to $5.6 billion. Operating expenses were kept in check at $4.46 billion, up slightly from $4.42 billion a year earlier. While the company now has higher wholesale and purchased fuel costs, the spinoff of the generation business appears to have reduced cost volatility and mitigated risks from nuclear generation. In 1Q23, O&M expenses decreased while purchased power costs rose 9% from the prior year to $1.7 billion. Interest expense increased to $406 million, up from $332 million in 1Q22.

EXC has several pending rate cases. In 1Q, it filed an electric distribution rate case for ACE and a multiyear rate plan for BGE. After the end of the quarter, it filed a multiyear plan for Pepco DC; it also plans to file a second multiyear plan for Pepco MD.

Meanwhile, Pennsylvania regulators recently approved a $55 million increase in gas distribution revenues, effective 1Q23. Separately, DPL/Delmarva obtained an $8 million increase in gas distribution rates and an authorized ROE of 9.6%, which took effect at the end of 2022. The company's average ROE is 9.4%, above the peer average.

Management is focused on capital investment to improve reliability and provide cleaner energy. It plans to allocate $31 billion to new infrastructure by 2026, which will increase the rate base by 8%. The company has taken on additional debt to fund these improvements, issuing $650 million of long-term bonds in 3Q22.

Along with 1Q23 earnings, management reaffirmed its 2023 adjusted EPS guidance of $2.30-$2.42. It also projects 6%-8% growth in operating earnings through 2025-2026, driven mainly by rate increases.

EARNINGS & GROWTH ANALYSIS

Following the CEG spinoff, Exelon has six utility subsidiaries: PECO (1.7 million electric and 0.5 million gas customers near Philadelphia); PEPCO (1 million electric customers in Maryland and Washington DC); DPL (0.5 million electric and 0.1 million gas customers in Delaware); ACE (0.6 million electric customers in New Jersey); BGE (1.3 million electric and 0.7 million gas customers near Baltimore); and ComEd (4 million electric customers in Illinois).

The company generally breaks out results for four segments: ComEd, PECO, BGE, and PHI (which includes ACE, PEPCO, and DPL). Compared to 1Q22, first-quarter earnings increased 28% to $241 million at ComEd; 1% to $200 million at BGE; and 19% to

Analyst's Notes...Continued

$155 million at PHI. PECO's net income fell to $166 million from $206 million.

While Exelon has managed costs better than peers in the past, high fuel costs and rising interest rates may weigh on earnings. However, the company has benefited in 1H23 from sharply lower natural gas spot prices and lower wholesale electric rates. Exelon is also working to lower costs through multiyear labor agreements and improved technology.

Going forward, the company should continue to benefit from cost cutting and favorable rate case decisions. The company has mixed service territories, with cold winters in Illinois and more moderate weather in the mid-Atlantic region, which can help it to manage costs. We expect Exelon to benefit from economic growth in the Chicago and Philadelphia areas, offset by slower growth and higher unemployment in Baltimore. We expect the strongest segment results at ComEd and BGE, helped by rate increases, with weaker earnings at PECO due to regulatory lag and higher interest expense.

Turning to our estimates, we are maintaining our 2023 operating EPS estimate of $2.38 and raising our 2024 estimate to $2.52 from $2.50. Our estimates assume a return to normal weather patterns and lower interest rates in 2024.

FINANCIAL STRENGTH & DIVIDEND

Our financial strength rating on Exelon is Medium. Moody's rates the company's debt an investment-grade Baa2. S&P and Fitch rate the company BBB.

The company's long-term debt has increased. At the end of 1Q23, long-term debt was $38.7 billion, up from $35.3 billion at the end of 2022. Cash and equivalents were $522 million, up from $407 million. The long-term debt/cap ratio at the end of 1Q23 was 61%, in line with the peer average but up from 59% at the end of 2022.

The weighted-average maturity of the company's long-term debt is about 18 years. Exelon has $850 million of debt maturing in 2023. Regulatory assets totaled $7.8 billion at the end of 1Q23, compared to $8 billion at the end of 2022.

Following the Constellation spinoff, Exelon lowered its quarterly dividend by 12% to $0.3375 per share, or $1.35 annually. It then increased its dividend by 6.6% in February 2023. The increase was slightly greater than usual, as the average increase over the last five years has been about 5.5%. The current quarterly dividend of $0.36, or $1.44 annually, yields about 3.5%, near the peer average of 3.4%. Our dividend estimates are $1.44 for 2023 and $1.53 for 2024.

MANAGEMENT & RISKS

Calvin Butler became the company's president and CEO in January 2023 following the retirement of Christopher Crane. Jeanne Jones is the CFO.

Risks for Exelon shareholders include cooler-than-normal conditions during the summer air-conditioning season and

©2023 Argus Research Company

Analyst's Notes...Continued

warmer-than-normal temperatures during the winter heating season. The transmission business may also be hurt by extreme weather events. The company also faces regulatory risk.

Utility stocks in general are susceptible to commodity price fluctuations and potential environmental and safety liabilities. In addition, the capital-intensive nature of the utility industry creates ongoing liquidity risk. Utility stock performance also tends to be sensitive to interest rates; when rates rise, utility yields often rise.

COMPANY DESCRIPTION

Exelon Corp. is a leading energy provider, with transmission and distribution operations in the U.S. and headquarters in Chicago. Exelon spun off its generation business, which was about 60% nuclear, as Constellation Energy at the end of 2021. Constellation is now a publicly traded company focused on generation and competitive distribution, while Exelon focuses on regulated transmission and distribution.

Through its regulated utility subsidiaries, Exelon delivers electricity and natural gas to about 10 million customers, primarily in central Maryland (Baltimore Gas & Electric Co.), northern Illinois (ComEd), and southeastern Pennsylvania (PECO). About 89% of EXC's 2022 revenues were from the electricity business and about 42% of earnings were from the largest utility, ComEd. The company plans to cut emissions by 50% by 2030 and to achieve net-zero emissions by 2050. The shares are a component of the S&P 500. The market cap is $40.3 billion.

VALUATION

EXC shares have participated in the recent rotation out of utility stocks, though they have outperformed peers and the S&P 500 over the past two years. At current prices near $41, the shares are trading near the midpoint of their 52-week range of $35-$47 and appear undervalued on several key metrics. They are trading at 17-times our 2023 EPS estimate, below the average of 19 for Argus-covered utilities. The PEG multiple of 2.6 is below the peer average of 3.3, and the price/sales multiple of 2.0 is below the peer average of 2.5. The EV/EBITDA multiple of 10.9 is also below the peer average of 12.1.

Although Exelon may face pressure from rising interest rates, we believe that the shares offer value based on the company's size and scale, and reduced earnings volatility following the Constellation spinoff. We also like the company's focus on renewable energy and cleaner transmission, and generally positive relations with regulators. We are reiterating our BUY rating with a target price of $50.

On June 16, BUY-rated EXC closed at $41.21, up $0.39.

About Argus

Argus Research, founded by Economist Harold Dorsey in 1934, has built a top-down, fundamental system that is used by Argus analysts. This six-point system includes Industry Analysis, Growth Analysis, Financial Strength Analysis, Management Assessment, Risk Analysis and Valuation Analysis.

Utilizing forecasts from Argus' Economist, the Industry Analysis identifies industries expected to perform well over the next one-to-two years.

The Growth Analysis generates proprietary estimates for companies under coverage.

In the Financial Strength Analysis, analysts study ratios to understand profitability, liquidity and capital structure.

During the Management Assessment, analysts meet with and familiarize themselves with the processes of corporate management teams.

Quantitative trends and qualitative threats are assessed under the Risk Analysis.

And finally, Argus' Valuation Analysis model integrates a historical ratio matrix, discounted cash flow modeling, and peer comparison.

THE ARGUS RESEARCH RATING SYSTEM

Argus uses three ratings for stocks: BUY, HOLD, and SELL. Stocks are rated relative to a benchmark, the S&P 500.

- A BUY-rated stock is expected to outperform the S&P 500 on a risk-adjusted basis over a 12-month period. To make this determination, Argus Analysts set target prices, use beta as the measure of risk, and compare expected risk-adjusted stock returns to the S&P 500 forecasts set by the Argus Market Strategist.
- A HOLD-rated stock is expected to perform in line with the S&P 500.
- A SELL-rated stock is expected to underperform the S&P 500.

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: EXC, XEL, POR, AEE, PNW, SO, AEP, CNP, SRE, CMS

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, we are tracking proceedings in EXC's BG&E electric and gas rate cases, and XEL's NM electric rate case. In other news, OR Staff files testimony in POR's electric rate case; AEE files rebuttal testimony in the IL electric rate case; the MO PSC issues an order approving the black-box settlement in the AEE MO electric rate case; PNW and the Legal Division Staff of the ACC file a settlement in the 2019 rate case appeal; AZ Staff addresses rate design in PNW's AZ electric GRC; SO delays Vogtle Unit 3 by another month; the ALJ issues a PD to accept the 2019 SWEPCO LA settlement; parties file a settlement in EXC's derivative claims lawsuit; PUCT delays action on ERCOT market redesign; CMS shuts down units 1 and 2 at the Karn coal-fired facility; the MD governor appoints a commissioner to the last open spot on the PSC; and POR announces Joseph Trpik as CFO. FERC issued a final rule in the docket on transmission system planning performance requirements during periods of extreme weather.

ICYMI

We held a **virtual Fireside Chat with Dr. Daniel Swain** to discuss the impact of El Niño, the U.S. wildfire, and hydro outlook for 2023.Read our full report here.

Regulatory Calendar

EXC — Intervenor testimony in BG&E's MD electric and gas rate cases is due on June 20: BG&E filed electric and gas multiyear rate plans in MD (Docket: C-9692) seeking a cumulative net $313M electric rate increase and a $289M gas rate increase over 2024-2026. Both requests are premised on a 10.4% ROE and 52% equity. EXC proposes smoothing the rates over three years by accelerating the amortization of ADIT benefits. The request includes a performance incentive mechanism with four performance metrics related to the state's policy goals. An MD PSC decision is expected by year-end, with new rates becoming effective in early 2024. In its first MYRPs in MD, BG&E received a cumulative $140M electric rate increase and a $74M gas increase. The increases were premised on a 9.5% and 9.65% ROE, respectively. Both were approved for a 52% equity layer.

XEL — Hearings in SPS's NM electric rate case begin on June 20: XEL filed a settlement for a $33M revenue increase, premised on a 9.5% ROE and 54.7% equity. The settlement also agrees to approve the amended 2028, previously 2032, abandonment date of Tolk Generation Station. Staff and nine other parties agreed to the settlement, while two parties opposed the settlement. The settlement compares to Staff's $37M revenue increase recommendation and XEL's request for a net revenue increase of $76M, premised on a 10.75% ROE, 54.7% equity layer, and a test year ending June 30, 2024. A PRC decision is expected in 4Q23.

Recent Developments for Companies Under Our Coverage

From our midweek: AGR reaches a multiyear settlement in NYSEG and RGE rate cases; the MI PSC Staff files testimony in DTE's electric rate case; AVA reaches a settlement in ID rate case; intervenors file testimony in FE's MD electric rate case; WEC files rebuttal testimony in IL gas rate cases; EXC requests to implement interim rates in DE; the WRAP faces delays to its binding date; and the FL PSC approves FPL's $256M rate reduction for fuel charges.

POR — Staff files testimony in POR's OR electric rate case: Staff proposed a $206M revenue increase, premised on a 9.0% ROE and 50% equity layer. This compares to POR's ask for a $338M revenue increase, premised on a 9.8% ROE and 50% equity layer. POR and staff's recommendations include net variable power costs of $107M and $99M, respectively. Rebuttal testimony is due July 21. Evidentiary hearings are expected to begin on September 26. New rates will go into effect on January 1, 2024.

- **What's driving the difference?** The lower ROE (-$35M) and differences in the rate base calculation (-$22M) are two of the main drivers of the difference. Staff proposed using the average of monthly averages, reflecting depreciation expenses from throughout the test year, while POR requested a 2023 year-end test year. POR has historically used the monthly averages method.
- **Faraday repowering project:** Much of the discussion of Faraday is confidential, but Staff recommended disallowing a portion of the Faraday cost; the latest project costs were estimated at ~$190M. Staff also recommended that POR be allowed recovery of

the Faraday expenses at the cost of LT debt. POR is seeking cost recovery of the Faraday repowering project, which was placed into service at the end of January.

- **PCAM modification:** Staff agreed with POR for a pass-through mechanism for QF costs, but broadly recommended maintaining the PCAM. Staff does not support removing the dead bands, but provided two options: 1) maintain the existing deadband construct; or 2) adopt a multi-tiered sharing construct, including applying an earnings test. The new construct would set the deadband at a symmetrical $60M shared at a 30/70 ratio between customers and POR. Costs exceeding the $60M deadband would be shared 80/20 between customers and POR. POR seeks to remove the current dead bands and replace them with a 90/10 sharing of costs with customers.
- **Standalone storage:** Staff recommended against allowing standalone storage to qualify for the Renewable Adjustment Clause, while POR was requesting clarification that standalone storage would qualify for the RAC.

AEE — AEE's IL files rebuttal testimony in the multiyear electric rate case: AEE filed rebuttal testimony, for a $450M rate increase over 2024-2027 and maintained its original stance on an ROE of ~54%. This compares to AEE's initial request for a $449M rate increase and Staff's recommendation for a $249M revenue increase over the four years. Evidentiary hearings are scheduled to begin on August 7, and an ICC ruling is due in December. New rates will go into effect on January 1, 2024.

- **ROE:** AEE argued that Staff's recommended 8.9% ROE using 580 bps over the 2022 U.S. Treasury Bond yield of 3.114% is no longer applicable since that option existed only under the IL Energy Infrastructure Modernization Act, which expired at the end of 2022, and the provisions of the CEJA require that the ROE be determined under current commission law, and renders the statutory formula rate as "inoperative." Staff refers to a 10.02% ROE in its analysis using the traditional DCF and CAPM methods, which is more in line with AEE's 10.5% request but settled on recommending an ROE that uses the traditional formula rate calculation. Our view, as we stated in our recent AEE upgrade, is that the commission is likely to overlook the T+580 provision recommended by Staff to set an ROE that aligns more with national averages or ~10%.
- **Equity Layer:** AEE maintained its request for an equity ratio (increasing from 53.99% in RY1 to 54.03% in RY4). This compares to Staff's recommendation for a flat 50%. AEE argues that it should be able to maintain its current equity ratio of ~54%, given the turbulent macroeconomic backdrop, higher inflation, and an elevated interest rate environment that could lead to potentially weaker corporate credits. While we think that AEE has a strong argument with respect to the ROE, we think the Company will have a harder time defending its equity layer request in this proceeding, specifically given the expected increase in ROEs.
- While acknowledging that a multiyear electric rate plan is not directly comparable to natural gas rate plans, we point out that staff recommended a 50% equity layer in AEE's current gas rate case (ROE 9.89%), 50% in EXC's pending MYRP for ComEd, 52.58% in WEC's pending North Shore Gas rate case (9.83% ROE), and 50.79% in WEC's PGL gas rate case (ROE 9.83%).

AEE — MO PSC issues order approving black-box settlement in AEE MO electric rate case: The MO PSC approved AEE's settlement for a $140M revenue increase. The settlement is silent on the ROE, although AEE is allowed a 6.82% WACC to calculate the plant-in-service accounting deferrals, the RESRAM rates, and AFUDC. The PSC also ordered AEE to identify avoidable capital investments if it proposes earlier retirements of the Sioux and Labadie coal plants. This compares to AEE's initial request for a $316M revenue increase, premised on a 10.2% ROE/51.93% equity and staff-supported $199M revenue increase at 9.59% ROE and 51.84% equity. New rates are expected to be effective on June 24.

Sophie Karp
(917) 368-2361 / sophie.karp@key.com

PNW — PNW and the Legal Division Staff of the ACC filed a settlement in the 2019 rate case appeal: The parties reached an agreement to allow PNW to recover the $216M cost for Selective Catalytic Reduction investments at the Four Corners Power Plant and to increase PNW's authorized ROE to 8.9% ROE, from 8.7% ROE. Per the settlement, PNW would also be allowed recovery of lost revenues since 2021. Following a disappointing order in the last rate case, PNW filed an appeal with the AZ Court of Appeals regarding the SCR disallowance and 20 bps ROE reduction after the 2019 GRC (read more here). On a pro forma basis, the settlement will increase PNW's revenues by ~$38M, while the historical recovery will increase revenue by ~$60M (over four years), or $0.26 and $0.42 ($0.14/year) of EPS upside respectively. The parties are requesting the settlement to be considered at the ACC's June 21 Open Meeting. If approved, new rates will go into effect on July 1.

PNW — AZ Staff files testimony for rate design in PNW AZ electric GRC: Staff filed rate design testimony, which addresses PNW's proposed recovery mechanisms. Staff opposed PNW's proposal to enhance its Renewable Energy Adjustment Charge (REAC) to recover renewable resources. PNW proposed this measure to smooth out investments and prevent frequent rate case filings. Staff supported the addition of an earning test for the REAC, as well as eliminating the Environmental Improvement Surcharge, in line with PNW. Staff opposed the elimination of the Lost Fixed Cost Recovery mechanism or any modifications to the Demand-Side Management Adjustment Clause. Staff previously recommended a $313M net revenue increase, premised on a 9.6% ROE and 51.93% equity, compared to PNW's request for a $460M net revenue increase premised on a 10.25% ROE and 51.93% equity. Staff's and PNW's total revenue increase includes $108M for test year adjustor revenue transfers and $204M Day-One PSA and REAC. PNW is requesting rates to go into effect on December 1, 2023.

SO — SO delays Vogtle Unit 3 one month, expects to enter service in July: SO announced that it identified a degraded hydrogen seal in the main generator of Vogtle Unit 3 during startup and pre-operational testing. Consequently, SO now expects the unit to enter service in July, a one-month delay from the prior timeline, to allow for appropriate repairs. SO noted that Unit 3 power-ascension testing is approximately 95% complete. The 1,100 MW Vogtle Unit 3 previously reached 100% power and was performing tests focused on the operation of the reactor, plant control systems for the reactor and support systems, and integrated plant operations before the unit is made commercially available. As of the 1Q23 earnings call, the Company's total cost forecast for Vogtle is expected to be about $10.6B. SO will seek a prudence review for all costs exceeding $7.3B once the fuel load begins at Unit 4. SO expects Unit 4 to enter service in late 4Q23 or 1Q24.

AEP — ALJ issues PD to accept 2019 SWEPCO LA settlement: The ALJ issued a PD recommending the LA PSC to accept AEP's settlement with the LA Staff for a $27M net revenue increase, premised on a 9.5% ROE. The ALJ also authorizes SWEPCO to establish a regulatory asset (and corresponding regulatory liability) for the return of ADIT and net operating loss taxes. SWEPCO would be eligible to request recovery of the asset (or liability) once receiving a determination from the IRS. This was the only issue not agreed to in the previously filed settlement. AEP initially filed the application in 2019 seeking a revenue increase of $134M premised on a 10.35% ROE and 50.8% equity, which the Company lowered to $114M to remove costs associated with hurricanes Laura and Delta that will be recovered in a separate filing. Parties have been engaged in settlement discussions since January 2022.

EXC — EXC files a settlement in the shareholder derivative claims lawsuit: EXC announced that a settlement has been filed with the U.S. Court for the Northern District of Illinois to resolve and dismiss all derivative claims and lawsuits against EXC. The EXC board-appointed Special Litigation Committee, the Independent Review Committee of the Board, the Board, and Settling Shareholders approved the settlement. If approved by the District Court, the settlement terms include a $40M payment to EXC by its insurers, which includes $10M for the attorneys' fee award to be paid to the Settling Shareholders' counsel, compliance and disclosure-related reforms, and certain changes in Board and Committee composition. The lawsuits were in response to ComEd's agreement with the U.S. Attorney's Office to resolve an ongoing investigation into ComEd's past lobbying practices in Illinois. The agreement required ComEd to make $200M in payments.

CNP, SRE — PUCT delays action on ERCOT market redesign: The PUCT did not take any formal action on the proposals for ERCOT market redesign at its first Open Meeting since the adjournment of the 2023 legislative session. During the legislative session, lawmakers proposed SB 7, which would pay certain power plants credit for being available during times of peak demand. SB 7 capped the performance capacity mechanism (PCM) at $1B. The PUCT voted unanimously in January to adopt a PCM electric market design option, which did not include a cap for the PCM. The PCM is a means to improve generation reliability on the ERCOT grid, incentivize capacity owners to make more supply available when more supply is needed, smooth out price volatility, and encourage the build-out of new generation capacity. The PCM is intended to be technology neutral. The next PUCT Open Meeting is on June 29.

CMS — CMS shuts down Karn units 1 and 2, per plan: CMS closed units 1 and 2 at the 1,728 MW Dan E Karn power plant, in line with its plans. The two coal-fired units each had a total capacity of 272 MW. The retirements were approved by the PSC in CMS's 2022 electric rate case, including the amortization of the related regulatory assets and the ash disposal costs. The decommissioning costs will be amortized through 2031 (beginning in 2024), and the coal ash disposal costs for the units will be amortized over 10 years starting in 2024. CMS will continue to run the 693 MW Unit 3 and 710 MW Unit 4 at the Karn facility until 2031. Those units run on natural gas. CMS plans to eliminate all coal generation from its generation mix by 2025.

Sophie Karp

EXC — MD governor appoints a commissioner for the last open spot on the PSC: MD Governor Wes Moore appointed Bonnie Suchman to serve a partial term through June 2027. Ms. Suchman replaces Commissioner Odogwu Obi Linton, who had been serving an expired term since June 2022. The Senate will not take up Suchman's nomination until the 2024 session convenes. Suchman joins Kumar Barve and Frederick Hoover, who was also appointed by Governor Moore upon taking office in 2023. The MD PSC is a five-member commission with the governor nominating the members and the Senate confirming them. We are tracking FE's Potomac Edison rate case and EXC's BGE and PEPCO multiyear rate cases.

POR — POR announces the appointment of Joseph Trpik as CFO: POR announced the appointment of Joseph Trpik as the new CFO, effective June 30. Mr. Trpik joins from EXC, where he first joined in 2001 and most recently served as SVP and chief accounting officer. Before that, he held roles as CFO of Exelon Utilities and CFO of ComEd. Mr. Trpik replaces Jim Ajello, who is set to transition from his role as CFO to serve as a senior advisor until his retirement at the end of August.

FERC — FERC issued a final rule in the docket on Transmission System Planning Performance Requirements for Extreme Weather: Following an extended period of comments and discussions, FERC issued a Final Rule in Docket RM22-10 directing NERC to develop reliability standards within 18 months of the issue of the final rule to address reliability concerns related to transmission system planning for extreme weather events that impact the operation of the power system. NERC will be required to develop benchmark planning cases based on past extreme weather events or based on meteorological projections, including a range of extreme weather scenarios that take into account resource mix availability during extreme weather conditions. NERC will also provide corrective action plans for mitigation where performance standards are not met. FERC highlighted the increase in the number of extreme weather events that have challenged wide swaths of the power grid with increasing frequency.

Energy: Electric Utilities

Midweek Thoughts — AGR, DTE, FE, WEC, EXC, AVA, NWE, PNW, POR, NEE

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, AGR reaches a multi-year settlement in NYSEG and RGE rate cases; the MI PSC Staff files testimony in DTE's electric rate case; AVA reaches a settlement in ID rate case; intervenors file testimony in FE's MD electric rate case; WEC files rebuttal testimony in IL gas rate cases; EXC requests to implement interim rates in DE; the WRAP faces delays to its binding date; and the FL PSC approves FPL's $256M rate reduction for fuel charges.

ICYMI

DUK — DUK announced the sale of the solar and wind portfolio in its commercial renewables segment for $2.8B to Brookfield Renewables. We see the sale as a positive development that de-risks the Company's portfolio and offsets the need for incremental holding company debt. Read more here.

Industry News and News from Companies in Our Coverage

AGR — AGR reached a constructive multi-year settlement in NYSEG and RGE rate cases: AGR, NY PSC Staff, and several intervenors reached a three-year settlement, agreeing to a cumulative $769M revenue increase for NYSEG and RGE. The settlement is premised on a 9.2% ROE and 48% equity. If approved, new rates will be retroactive to May 1, 2023. We view the settlement as a constructive, and a largely timely outcome that should minimize the regulatory lag between the two rate case periods. The multi-party NY settlement follows a constructive sentiment reached in ME recently, signaling a positive turn in regulatory relations, and should be viewed positively, especially since the NY utilities make up nearly half of AGR's regulated portfolio. We present below the scenarios for levelized rate increases and, if approved, NYSEG electric and gas rates will increase by 17.1% and 5.6% annually, respectively. RGE electric and gas rates will increase by 11.0% and 10.2%, respectively.

Figure 1 - Summary of Proposed Settlement

NYSEG Joint Proposal	Electric		Gas	
Delivery Rate Increases	($M)	(%)	($M)	(%)
RY1	137.3	17.1%	11.7	5.6%
RY2	160.7	17.1%	12.4	5.6%
RY3	200.6	17.1%	12.9	5.6%

RG&E Joint Proposal	Electric		Gas	
Delivery Rate Increases	($M)	(%)	($M)	(%)
RY1	51.0	11.0%	18.2	10.2%
RY2	56.6	11.0%	20.1	10.2%
RY3	65.3	11.0%	22.4	10.2%

Source: Regulatory filings, KeyBanc Capital Markets Inc.

- **Capital investments:** The settlement approves AGR's five-year capital plan of $6.4B for the 2022-2026 period. This includes the recovery of capital investments already made and $634M of investments approved towards the implementation of Phase 1 of the NY climate law (CLCPA).
- **Earnings sharing mechanism:** The mechanism does not include any low-end earnings sharing and is better than the incumbent earnings sharing mechanism that kicks in as early as 20 bps higher than the authorized ROE. The mechanism directs 100% of the customer's portion toward the accelerated recovery of regulatory deferral assets. AGR will direct 50% of its electric earnings portion towards storm-related reg assets.

Figure 2 - Earning Sharing Parameters

Customers/Shareholders	ESM Parameters
No Sharing	<9.7%
50% / 50%	> 9.7% to 10.2%
75% / 25%	> 10.2% to 10.7%
90% / 10%	> 10.7%

Source: Regulatory Filings, KeyBanc Capital Markets Inc.

- **Interest rate reconciliation:** The settlement includes a mechanism that allows for a symmetrical reconciliation of debt costs - helping to reduce the regulatory lag in recovering such costs in future proceedings.
- **Storm costs recovery:** The settlement allows NYSEG and RGE to recover deferred storm costs of $371M and $55M, respectively. It also includes storm rate allowances of $31.5M, $41.5M, and $46.5M for RY1, RY2, and RY3 for NYSEG Electric. For RGE Electric, the Company is allowed annual storm rate allowances of $4.5M, $6M, and $7.6M.

DTE — MI PSC Staff files constructive testimony in DTE electric rate case: Staff recommended a $383M revenue increase, premised on a 9.8% ROE and 50% equity. This compares to DTE's request for a net $619M revenue increase, premised on a 10.25% ROE and 50% equity. The main drivers of the difference can be attributed to the lower ROE and Staff's disallowance of O&M costs, including IT and incentive compensation. We view Staff's testimony as constructive and could establish the foundations for settlement discussions. As a reminder, DTE received approval for a $30.5M rate increase on a 9.9% ROE and a 50% equity layer, vs. its ask for a $368M increase. That rate case was primarily driven by the Commission's stance on residential sales forecasts post-COVID, whereby the PSC noted the difficulty of forecasting sales coming out of the pandemic. We recently met with the PSC, where the general theme was that MI remains a constructive regulatory jurisdiction (read more here). New rates are expected to go into effect on December 10.

Source: Regulatory filings, company filings, KeyBanc Capital Markets Inc.

AVA — AVA reaches multi-year settlement in ID rate case: AVA, ID PUC Staff, and others reached a settlement in AVA's two-year electric and gas rate cases. The settlement agrees to electric revenue increases of $22M and $4M in RY1 and RY2, respectively. AVA also agreed to natural gas revenue increases of $1M and ~$0M. The settlement is based on a 9.4% ROE and 50% equity. This compares to AVA's request for a $37.5M and a $13.2M electric rate increase in RY1 and RY2, respectively, and corresponding gas rate increases of $2.8M and $0.1M. AVA's requests were premised on a 10.25% ROE and 50% equity ratio. If approved, new rates would go into effect on September 1, 2023.

FE — Intervenors file testimony in FE's MD electric rate case: The MD PSC Staff recommended a net $19M revenue increase, premised on a 9.5% ROE and 53.53% equity. This compares to Potomac Edison Co.'s request seeking a net $46M revenue increase, premised on a 10.6% ROE and 53.53% equity. The net amounts exclude the recovery of $4.8M of revenue collected through the electric distribution investment surcharge (EDIS). FE seeks to extend the EDIS program for another four years, with which Staff concurred, although it proposed maintaining the 70/30 split to determine the allocation factor (FE proposed a 50/50 split) and use Staff's proposed ROE. The delta between Staff and FE's recommended revenue increases can largely be attributed to the lower ROE, lower depreciation expenses, and reduced incentive compensation expenses. Among other intervenors, the MD Office of People's Counsel recommended a net $14M revenue increase, using a 9.0% ROE and a 45% equity layer. Notably, FE's filing was a single-year rate plan after recent legislation allowed MYRP filings. FE will file rebuttal testimony on June 30, while a MD PSC final decision is expected in 4Q23.

WEC — WEC files rebuttal testimony in IL gas rate cases: In rebuttal testimony, WEC maintained its ROE and equity layer, while making modest changes to its revenue requirements. WEC updated its request to ~$404M and ~$17M for Peoples Gas and North Shore Gas, respectively. This compares to the Company's initial request of $407M (net $195M) and $19M and Staff's recommendation for revenue increases of $357M (net $145M) and $16M. As a reminder, PGL's difference between the gross and net revenue requests includes the amount recovered through the QIP rider. PGL is not seeking an extension to the QIP rider for pipeline safety modernization, which is set to expire in 2023, but will seek recovery for those investments through future rate cases. Evidentiary hearings for both cases are scheduled to begin on August 10, and an ICC decision is expected in 4Q23. New rates are expected to go into effect on January 1, 2024.

EXC — EXC requests interim rates of $56M in DE: EXC's subsidiary Delmarva Power filed a motion to implement interim rates of ~$56M (including $14M of DSIC revenues) effective July 15. The interim rates are unchanged from the $42M net revenue increase EXC requested in its 2022 electric GRC and include the transfer of ~$14M of revenues currently recovered through the Distribution System Improvement Charge (DSIC). EXC seeks a 10.5% ROE and 55.5% equity. EXC initially sought a $60M net revenue increase in its GRC but revised the request based on updated data. The primary driver for the rate increase, among others, is the recovery of $290M of investment in the distribution system. The Company is proposing adjustments, including leveraging a pro forma capital structure, utilizing an O&M inflation adjustment, and applying year-end treatment to its rate base. The next date to watch is June 18, when the intervenor testimony is due. The PSC is expected to issue a final decision in 2Q24.

AVA, NWE, PNW, POR — Western resource sharing program faces delays to the binding date: The Western Resource Adequacy Program will be delayed at least one year before commencing full binding operations after failing to receive enough members electing into the program. The deadline was May 31, 2023. Members will now have until May 31, 2024, to elect into the full binding operation phase to begin in mid-2026. Once binding, members with deficient resources will be required to pay penalties. FERC issued an order approving the WRAP Tariff effective January 1, 2023, which requires members to be fully binding by 2028. The WRAP includes two main components, the forward showing program and the operations program, to address shortfalls and ensure participants have enough capacity to meet planning reserve margins. The participants include AVA, NWE, PNW, POR, and 16 other utilities. The WRAP is a region-wide reliability planning and compliance program allowing participants to share resources across the Western Interconnection. The WRAP proposes establishing consistent reliability metrics across the region and pooling resources to balance supply and demand among its participants. The WRAP will be non-binding during the 2023/2024 winter season.

NEE — FL PSC approves FPL's $256M reduction for fuel charges: The FL PSC approved FPL's mid-course correction to reduce its 2023 fuel purchased power cost recovery clause (FCR) by an incremental $256M to reflect declining natural gas prices. The PSC addressed it at the June 13 Commissioner meeting. The $256M is in addition to ~$1.4B in refunds to customers associated with lower fuel costs that were previously filed. The latest correction reflects NYMEX natural gas prices of $2.80/MMBtu as of May 1, 2023, and compares to the $3.22/MMBtu when FPL conducted its last analysis on February 1. New rates will become effective on July 1.

Power & Utilities

August 31, 2023

The Guggenheim Daily Transmission: SO, MI, ETR, CMS, EIX/SRE, PCG, FE, OGE, PPL/RI, EXC/MD, D/VA, DUK, WEC

Please join us for our quarterly utilities investor roundtables in NYC on Sept. 25th, and NJ on Sept. 26th, both invite details below.

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our SO NDR, POR NDR, CEG NDR, PEG NDR, NI NDR, and other events, scroll down...

Please see our sector-wide note on the country's evolving regulatory jurisdictions HERE, our updated mid-year utility sector valuation analysis HERE.

SO – Vogtle Prudency Review Begins with a Multi-Party Stipulation Right Out of the Gate (see our note HERE)

MI – Michigan PSC announces stakeholder process for performance based rates

MI – Michigan Governor Whitmer announces further push on clean energy standard

ETR – ETR-LA files first notice of rate proceeding with LPSC

CMS – CMS electric rate case testimony in line with expectations

EIX/SRE – OEIS issues draft decision documents for SCE and SDG&E

PCG – PG&E makes notification for all-clear on power shutoffs from August 30, 2023; wildfire smoke reaches San Francisco

CMS – Michigan court issues order denying rehearing in prior CMS Electric rate case outcome

FE – Settlement filed with PaPUC in consolidation docket

OGE – APSC staff proposes procedural schedule for AR application for flexible resource approvals

PPL/RI – RIE files post hearing statement on AMI

EXC/MD – MD OSC dockets summary tables of parties' positions in BGE MYP

D/VA – SCC clarifies DER interconnection process

DUK – Update on restoration efforts in the wake of Hurricane Idalia

WEC – Final order issued in Michigan Gas Utilities case

MI – Michigan PSC announces stakeholder process for performance based rates

- After starting a financial incentive/disincentive working group process in April, MPSC announced a stakeholder comment process on connecting utility earnings with reducing duration and frequency of electric outages.
- The recommendations in the press release are phrased asymmetrically despite the MPSC commissioners prior comments of seeking a balanced "stick and carrot" approach.
- The 4 main parts of the MPSC straw proposals are:
  - Establishing penalties for utilities whose customers experience four or more

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

sustained power interruptions per year. Current service quality standards require that, through December 2029, not more than 6% of a utility's customers may experience more than 4 sustained outages, and no more than 5% of customers after Jan. 1, 2030. In 2022, DTE Electric had 163,417 such customers, and Consumers Energy 173,273, according to annual utility reports.
    - Utilities would be penalized further for having customers experience 7 or more sustained power interruptions. Annual reports filed by the utilities indicate DTE Electric had 16,262 such customers, and Consumers Energy 19,821 in 2022.
    - Utilities would be penalized if a circuit ranked in the top 10 worst-performing circuits for 3 or more years within the past 5 years.
    - Considering financial mechanisms connected to the time it takes utilities to restore power, including a particular focus on restoration timelines during major storms.
- Docket: U-21400

Guggenheim takeaway: *We caught up with CMS mgmt. after the press release. While the PR language seems asymmetrical in terms of penalties, mgmt. welcomes a stakeholder process and continuation of working groups to determine a better informed framework for reliability and resiliency. MPSC Chair Scripps has previously commented on pursuing a more balanced outcome, which mgmt. anticipates could be achieved through the stakeholder process. Separately the audit of storm response that the MPSC commissioned has been specifically called out by the commissioners as an informative process vs. a punitive proceeding as stakeholders recognize the increased frequency and severity of weather events that impact customers.*

MI – Michigan Governor Whitmer announces further push on clean energy standard

- MI Governor Gretchen Whitmer issued a release on policy and legislative priorities including energy.
- The announcement focuses on a 100% clean energy standard (legislated), Improvements in energy efficiency and granting MPSC authority to permit utility-scale clean energy projects
- More in PR here.

Guggenheim takeaway: *An important step in further energy transition for MI and we caught up with CMS subsequent to the release. The legislated clean energy standard could be helpful in providing guidance to the MPSC for integrated resource plan implementation and reduces the ambiguity of resource mix arguments. CMS mgmt. is supportive of the state's clean energy transition efforts and has generally been ahead of the curve on generation mix targets and decarbonization goals. The solar permitting reform would also remove the major hurdle that utilities currently face in IRP implementation as small township permitting processes can be lengthy and contentious.*

ETR – ETR-LA files first notice of rate proceeding with LPSC

- ETR-LA filed a notice of rate proceeding (FRP and/or rate case) with the LPSC and issued an associated press release.
- The application is titled "Blueprint Necessary for Company to Strengthen the Electric Grid for State of Louisiana".
- The purpose of the Company's application is to extend and modify the Company's Formula Rate Plan ("FRP") to position ETR-LA to continue upgrade work on the electric grid.
- Beyond maintaining affordable rates, many of the modifications to the FRP that Entergy Louisiana has proposed in its filing would directly benefit customers, including:
    - Pledging $1 million to assist customers in need and providing free home energy efficiency kits.
    - Adding $1 million to its The Power to Care match for older adults and disabled customers.
    - Reducing the amount of late fees charged to customers who fall behind on their bills.
    - Eliminating electric service connection fees for new customers and reconnection fees in many situations.
    - Expanding the program that provides eligible low-income older adults monthly discounts on their bills.
    - Streamlining rates so that residential customers in different parts of the state are

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

subject to the same rate structures.
  - Lowering the rates for additional facilities.
  - And new rate options for customers with electric vehicle charging equipment.
- To be accountable to customers, Entergy Louisiana is also proposing adhering to the most stringent reliability standards of any utility provider in the state and setting financial penalties for not meeting those standards.
- Docket: U-36959

Guggenheim takeaway: *FYI. The first notice of ETR LA regulatory process for FRP extension or rate case in support of ongoing capital investment. Mgmt. has previously noted that there would be several customer support proposals within the FRP extension, which in our view helps the commission create a more equitable outcome. While we expect a contentious process, the first notice of filing shows a balanced stakeholder commitment.*

CMS – CMS electric rate case testimony in line with expectations

- Intervenors filed direct testimony in the CMS electric rate case including Staff.
- The Staff recommendation is $88M gross (vs. a $216M request), with constructive testimony on cost of capital and other issues.
- Major differences vs. Staff were attributed to cost of capital, timing of project in service dates (i.e., lower capex in test year, eligible for future recovery) and certain O&M alignments.
- Staff was supportive of the infrastructure recovery mechanism and undergrounding pilot programs.
- CMS requested a revenue increase for the 2/28/2025 test year is $207M ($216M gross), premised on a 10.25% ROE with a 42.58% net equity ratio (largely in line with prior case requested fundamentals).
- Current approved ROE's are 9.9%.
- ALJ Proposal for decision is scheduled for 12/21/2023
- Docket: U-21389

Guggenheim takeaway: *We caught up with mgmt. on the emerging regulatory bid-ask and opportunity to settle after the testimony. While the staff rec is around 40% of the request, the differences are largely explained by cost of capital and non earnings impacting items like timing of capex (i.e., if capex is in service ahead of staff schedule, CMS still earns AFUDC). Mgmt. is optimistic around the IRM and undergrounding as new constructs that the MPSC can get excited about, and overall sees the direct testimonies as a workable starting point in both litigation and settlement talks (mgmt. prepared for both routes). We are monitoring cost of capital as staff recommendations have started to recognize a tighter capital markets environment, and staff testimony in particular had stretched assumptions relative to the near term bond indices.*

EIX/SRE – OEIS issues draft decision documents for SCE and SDG&E

- The Office of Energy Infrastructure Safety (OEIS) issued draft decision reports on the 2023-2025 SCE and SDG&E wildfire mitigation plans.
- The draft decisions are a commentary on the strengths and weaknesses of each plan and recommendations for improvements.
- In its evaluation of an electrical corporation's 2023-2025 WMP, Energy Safety considers the areas where the electrical corporation must improve, as well as the progress it plans to achieve in its areas of strength.
- OEIS, in totality approved the WMPs for both EIX and SRE.
- Docket: U-20963.

Guggenheim takeaway: *FYI. The draft decisions are still subject to approval, but the history of both EIX and SRE has been less contentious in the WMP process.*

PCG – PG&E makes notification for all-clear on power shutoffs from August 30, 2023; wildfire smoke reaches San Francisco

- PG&E has made the all-clear notification after the customer power shutoffs for Wednesday, August 30, 2023 (PSPS).
- PSPS notifications and status can be found here.
- Simultaneously, wildfire smoke from distant fires including outside of California has reached San Francisco (see here).

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Guggenheim takeaway:*FYI. Highlights the wildfire risks and proactive risk mgmt. taken by the company.*

CMS – Michigan court issues order denying rehearing in prior CMS Electric rate case outcome

- MI appeals court ordered the MPSC rate case decision appeal to be denied in the prior CMS Electric rate case.
- Stakeholders challenged the rate case outcome for certain funds use for under/over earning but the court sided with the MPSC on discretion to approve regulatory mechanisms.
- Docket: U-20963.

Guggenheim takeaway: *FYI. MI appeals court affirming the MPSC commission demonstrates a fair and balanced approach to ratemaking.*

FE ─ Settlement filed with PaPUC in consolidation docket

- Today, FE announced that it's subsidiaries Met-Ed, Penelec, Penn Power, West Penn Power, Keystone Appalachian Transmission Company (KATCo) and Mid-Atlantic Interstate Transmission, LLC (MAIT), have filed a settlement agreement with the Pennsylvania Public Utility Commission (PaPUC).
- The settlement pertains to FE's efforts to merge its four PA electric distribution companies into one utility.
- Terms included a mechanism for tracking cost savings which are expected to result from the consolidation, and which would be returned to ratepayers via future base rate reviews. Also included, were five years of income-eligible customer assistance totaling $650k.
- More HERE
- Docket A-2023-3038771

Guggenheim takeaway: *Following FERC's approval of this merger on August 14th, FE still requires the PaPUC to signoff along with obtaining commission approval in New York. We continue to expect that regulators will rule on the case by the December 2023 timeframe which FE had requested a decision by.* ***For our coverage of the recent FERC approval of this same PA consolidation, please see our write-up HERE.***

OGE – APSC staff proposes procedural schedule for AR application for flexible resource approvals

- APSC proposed a modified procedural schedule in AR for the flex resource RFP implementation.
- The proposed schedule includes a staff testimony on September 15, 2023, settlement or issues list due date of October 13, 2023 and maintains OGE recommended hearing dates (OGE requested an order date of November 30, 2023).
- APSC docket: 23-039-U
- OG&E previously filed an application for determination of need for 448MW of combustion turbines as part of the flexible RFP procurement result.
- OG&E's Horseshoe Lake Power Plant is the best alternative with a 448 MW capacity ($330M capital cost, $394M of total rate base) and an estimated in-service date of late 2026.
- The project will use GE7F Class hydrogen-capable combustion turbines.
- OG&E proposed a Generation Capacity Rider (GCR) for recovery of the costs associated with the Horseshoe Lake combustion turbines after the units are placed into service
- OCC docket: PUD2023-000038

Guggenheim takeaway: *FYI. As anticipated OGE is moving forward with the flexible resources procurement as mgmt. had previously put the solar procurement on reconsideration (now reiterated) to find better opportunities post IRA. OGE previously communicated that RFP outcomes are incremental to current plan, but would not increase capex in the current plan but shift some of the spending between years.*

PPL/RI ─ RIE files post hearing statement on AMI

- "This Post-Hearing Statement outlines certain questions that the Company submits the Commission should address in reaching its decision in this docket." - RIE
- "Rhode Island Energy has proposed to implement AMF over three and a half years. During

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

the hearing, Division witness Blanton testified that the Division supports this timeline given that extending the implementation period would increase the overall costs of AMF implementation. In fact, during opening and closing statements, the parties expressed broad support for the Company's project implementation proposal." - RIE

- More HERE

Guggenheim takeaway: *Minor FYI as we continue to monitor the RI capex program and spend programs therein.*

EXC/MD – MD OSC dockets summary tables of parties' positions in BGE MYP

- More HERE

Guggenheim takeaway: *Flagged for your awareness with the tables providing a year by year and side by side comparison of rebuttal/surrebuttal testimony. As a reminder, hearings are ongoing this week and next (8/30-9/8) - we fully expect this case to run the full length of the process (FO expected by the company on 12/14). See our prior flag of intervenor testimony HERE.*

D/VA – SCC clarifies DER interconnection process

- "Based on the findings and recommendations in the Report, the Commission hereby issues an injunction, as plead for in the Petition, "that suspends the imposition of the Parameters on • Midsized NEM Projects and suspends the requirement of SGIAs for Midsized NEM Projects at least until the Commission has completed its investigations and rulemaking in Case Nos. PUR-2022-00073 and PUR-2023-00069 and has ruled definitely on such issues." - SCC
- More HERE

Guggenheim takeaway: *Minor FYI – this has been a long-running item that has generated media noise at the local level through every step of the process given its linkages to local-level projects.*

DUK – Update on restoration efforts in the wake of Hurricane Idalia

- At the time Duke Energy Florida published an update on its website, >135k customers had been restored.
- The utility announced that it had been targeting to have **95% of impacted customers** restored by last night, other than those in the hardest hit areas (e.g., where power remains unavailable due to significant damage or flooding).
- The hardest hit counties included: Alachua, Columbia, Dixie, Gilchrist, Hamilton, Jefferson, Lafayette, Leon, Levy, Madison, Suwannee, Taylor and Wakulla counties.
- More HERE

Guggenheim takeaway: *Flagging to highlight response time (a significant factor which impacts both public sentiment and ultimately commission decisions).*

WEC – Final order issued in Michigan Gas Utilities case

- Yesterday, the Michigan PSC issued a final order in Michigan Gas Utilities' rate case.
- The order approved a settlement between MGU, Michigan Attorney General Dana Nessel's office, MPSC Staff, and intervenors in the case: RESA, ABATE and CUB.
- The MPSC approved a 9.80% ROE in the case, compared with the company's prior authorized ROE of 9.85%.
- The $9.9m increase will be effective January 1, 2024 and is expected to result in a ~6.6% increase to the average residential customer's bill.
- Docket U-21366

Guggenheim takeaway: *Minor FYI given that MGU makes up ~2% of WEC's asset base, but flagging for your awareness, nonetheless.*

Equity Research | Corporate Access

Southern Company (SO)

Dan Tucker, *Chief Financial Officer*

Scott Gammill, *VP of Investor Relations & Treasurer*

Dates & Locations

September 13-15, 2023
West Coast

Meeting Format

NDR - 1:1 Meetings & Group Meeting

Company Information

Market Cap: $77.5bn

Southern Company (SO) is a holding company, which engages in the generation and sale of electricity. It operates through the following segments: Traditional Electric Operating Companies, Southern Power and Southern Company Gas. The Traditional Electric Operating Companies segment refers to vertically integrated utilities that own generation, transmission and distribution facilities, and supplies electric services in the states of Alabama, Georgia, and Mississippi. The Southern Power segment constructs, acquires, owns, and manages generation assets such as renewable energy projects and sells electricity in the wholesale market. The Southern Company Gas segment distributes natural gas through natural gas distribution facilities in the states of Illinois, Georgia, Virginia, New Jersey, Tennessee, and Maryland. The company was founded on November 9, 1945, and is headquartered in Atlanta, GA. (Source: FactSet)

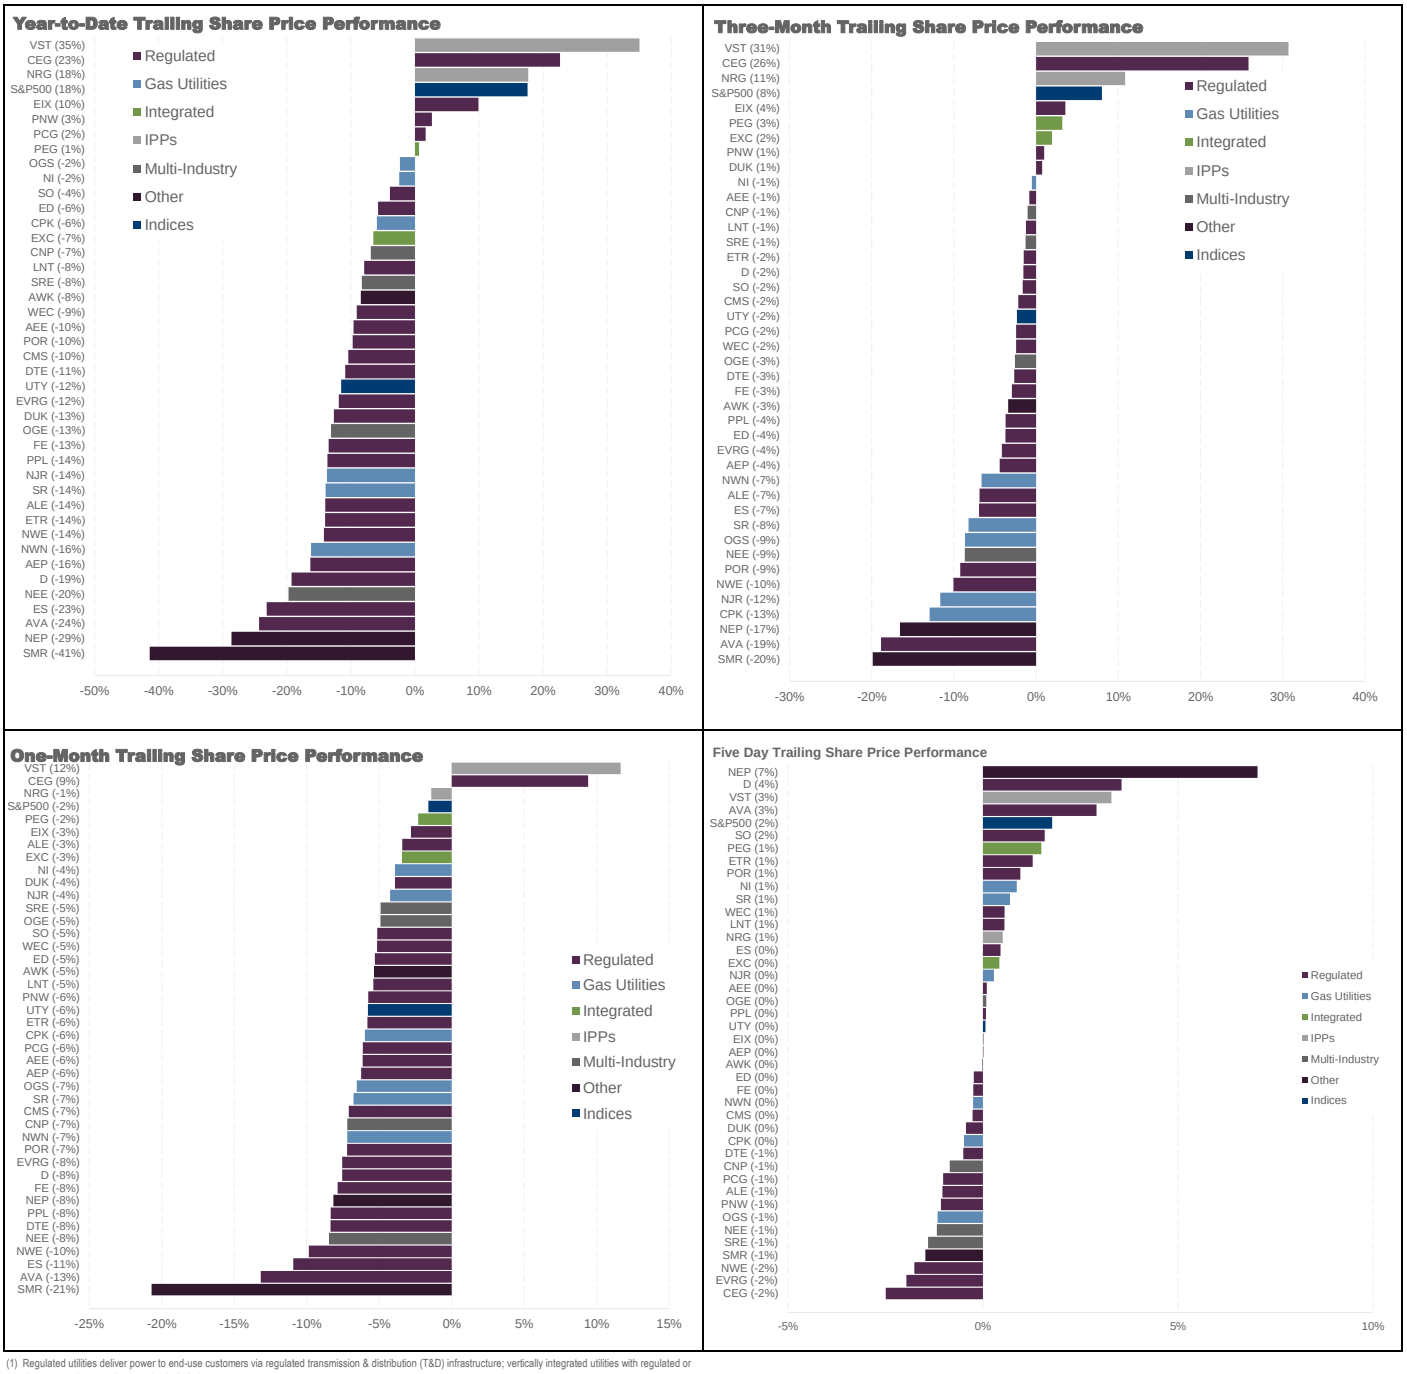
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

RATINGS DISTRIBUTIONS FOR GUGGENHEIM SECURITIES:

			IB Serv./ Past 12Mos.

TRUCOST ENVIRONMENTAL SKYLINE EXPLANATORY NOTES

In a single graphic, you get a view of five different dimensions of corporate environmental impact:

- Trucost's Environmental Skyline is an assessment of the performance of an organisation across **six broad groups of environmental KPIs:** greenhouse gases, water, waste, air pollutants, natural resource use, and land/water pollutants. Environmental impacts are not just about carbon, and the Environmental Skyline gives you exactly that broader perspective, which is practically impossible to get without access to Trucost's data.

- Most organisations struggle to assess their direct impacts, let alone their indirect supply chain impacts. Trucost's Environmental Skyline offers an immediate evaluation of the **scale of direct and indirect environmental impacts** an organisation is causing, for each of the environmental KPIs listed above.

- Each organisation is assessed according to the scale of its different business activities for a particular year. Business activities are classified based upon North American Industrial Classification (NAICS) 6 digit codes. Each environmental KPI in the Environmental Skyline is offered as a **comparison to an industry benchmark**. The benchmark index of 100 represents average performance in the sector. The higher the index rating, the worse the performance of the organisation compared to its peers.

- Trucost rates an organisation's overall environmental performance by providing its **position in the benchmark**. The organisation is ranked against peers who share the same primary business activity at NAICS 3 digit code level.

- An organisation will have **a different Environmental Skyline each financial year**. The total number of organisations in the benchmark will increase as financial and environmental data becomes available for analysis by Trucost.

In essence, Trucost's Environmental Skyline offers a valuable assessment of an organisation's performance, covering issues that are near-impossible to assess without the use of Trucost's powerful data model and methodology.

Power & Utilities

August 28, 2023

The Guggenheim Daily Transmission: CT, EXC/MD, LNT, PCG, AZ, NI

Please join us for our quarterly utilities investor roundtables in NYC on Sept. 25th, and NJ on Sept. 26th, both invite details below.

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our CMS NDR, SO NDR, POR NDR, CEG NDR, PEG NDR, NI NDR, and other events, scroll down...

Please see our sector-wide note on the country's evolving regulatory jurisdictions HERE, our updated mid-year utility sector valuation analysis HERE.

Forward Power Curves, Genco MtM, and Weekly Commentary (see our note HERE)

CT – Final order issued in UIL case

EXC/MD – Additional testimony docketed in BGE case ahead of hearings

LNT – PSCW dockets written final decision on fuel reconciliation

PCG – CPUC posts evidentiary hearing transcript in Pac Gen formation and equity sale proceeding

AZ – Dissenting decision issued in Tucson Electric Power case

NI – Pennsylvania PUC approves second MA gas penalty

CT – Final order issued in UIL case

- "The Public Utilities Regulatory Authority (Authority or PURA) approves an annual revenue requirement for The United Illuminating Company (UI or Company) in the amount of $384.865 million for the rate year commencing on September 1, 2023. This represents an increase of $22.957 million to the Company's currently approved base distribution revenue requirement from which the Company had sought a $131 million increase over three years. While the Company requests a 10.20% return on equity, the Authority determines that an allowed return on equity of 9.10% is appropriate; however, the Authority reduces the allowed ROE by an aggregate 47 basis point reduction (i.e., to 8.63%), subject to certain conditions and timelines, to address performance and management issues." - PURA
- More HERE
- "We can all reach a place where UI and its investors are justly compensated for investments and efforts" -Commissioner Caron
- Commissioner commentary recapped HERE

Guggenheim takeaway: *Despite some modifications from the draft decision the data points out of this case remain overwhelmingly negative in our view, with little supportive commentary from Caron or Betkoski. Still, we believe investors may be treating this as the new baseline for the jurisdiction. As a reminder, ES intends to stay out of a rate case at CL&P through the settlement period (October 2025), with the company confident on the legal standing of the settlement in the face of any attempt by the Chair to call the company back in (to say nothing of the need for the other commissioners to flip in such a situation). Such a timeline means that a decision on any case thereafter would not come until the 2026-2027 timeframe. CL&P also retains the full utilization of its current capital tracker (~ $300M) until the next rate case proceeding. On the gas side, Yankee Gas could be called in at some point. As a reminder, we took a look at the potential ramifications of hypothetically slashing allowed ROEs for the CT utilities in our recent flash HERE, pointing to a potential*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

~$0.10-0.15 impact. Nonetheless, this UIL case doesn't help with sentiment in the state as CT continues to point to becoming a value-destructive state.

EXC/MD – Additional testimony docketed in BGE case ahead of hearings

- Additional testimony has been docketed by several parties in the ongoing BGE MYP
- More HERE

Guggenheim takeaway: *Minor FYI ahead of the hearings later this week (8/0-9/8). As a reminder, we fully expect this case to run the full length of the process (FO expected by the company on 12/14). See our prior flag of intervenor testimony HERE.*

LNT – PSCW dockets written final decision on fuel reconciliation

- "The applicant is authorized to recover the $116,783,859 for the 2022 under-collection of monitored fuel costs, plus accrued interest, by applying a surcharge to Wisconsin retail electric customer bills from October 1, 2023 through December 31, 2025." - PSCW
- More HERE

Guggenheim takeaway: *Flagged for your awareness following the earlier oral decision on the matter (8/10).*

PCG – CPUC posts evidentiary hearing transcript in Pac Gen formation and equity sale proceeding

- The CPUC had an evidentiary hearing for Pac Gen formation last week and posted the full transcript into case documents.
- The record goes through witness testimony and cross examination across the case record.
- As previously announced, PG&E would sell up to 49.9% equity in a 2.7 GW portfolio of regulated power plants (hydro, nat gas and energy storage).
- FERC previously approved the PG&E application to form the PacGen subsidiary.
- FERC Docket: EC23-38 (through search)
- At the CPUC the final date for reply briefs was moved from August 28, 2023 to October 5, 2023 (PFD 90 days after briefs)
- CPUC Docket: A2209018

Guggenheim takeaway:*FYI. PCG announced the plan to split and subsequently sell up to a 49.9% equity stake in the new-co (Pacific Generation, wholly owned sub) and by our estimates, the formation and sale could result in $1.7-2.1B in equity proceeds. Pacific Generation equity sales (noted here). FERC has effectively completed its process and the burden now shifts to the CPUC. Any strategic process would be contingent on regulatory approvals.*

AZ – Dissenting decision issued in Tucson Electric Power case

- Commissioner Anna Tovar issued a dissenting decision in TEP's (TSX:FTS) Arizona rate case.
- The commissioner opposed the 9.55% ROE as being too high and did not fully support the Purchase Power Fuel Adjustor Clause (PPFAC).
- Docket E-01933A-22-0107

Guggenheim takeaway: *We expect Commissioner Tovar to remain consistent in opposing her Republican colleagues on the commission, likely in part to continue differentiating herself from them. That said, there still remain four commissioners who, based on the final outcome of the TEP case, would seem to be taking a more pragmatic approach to utility regulation, and one more in line with other states, which we see as a positive development in the trajectory of AZ regulation, and hopefully for PNW and its AZ utility as well.* ***For more, see our note "Arizona Regulation: Drawing a Line in the Sand? Not with this Commission — Continuing Our Deep Dive in the Desert with Commissioner Myers and Commissioner Thompson" (link HERE).***

NI – Pennsylvania PUC approves second gas penalty

- The order approves a settlement with a fine and corrective actions related to excess pressure incidents at Columbia Gas of Pennsylvania.
- The incidents happened in January 2018 and spring 2018.
- This settlement calls for a $535k penalty as well as corrective actions to prevent further

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

incidents.

- No customer property was damaged nor were there any explosions.
- Docket M-2021-3005572

Guggenheim takeaway: *Minor FYI but flagged for your awareness following the approval of the first settlement (and $1m fine) in an order earlier this summer.*

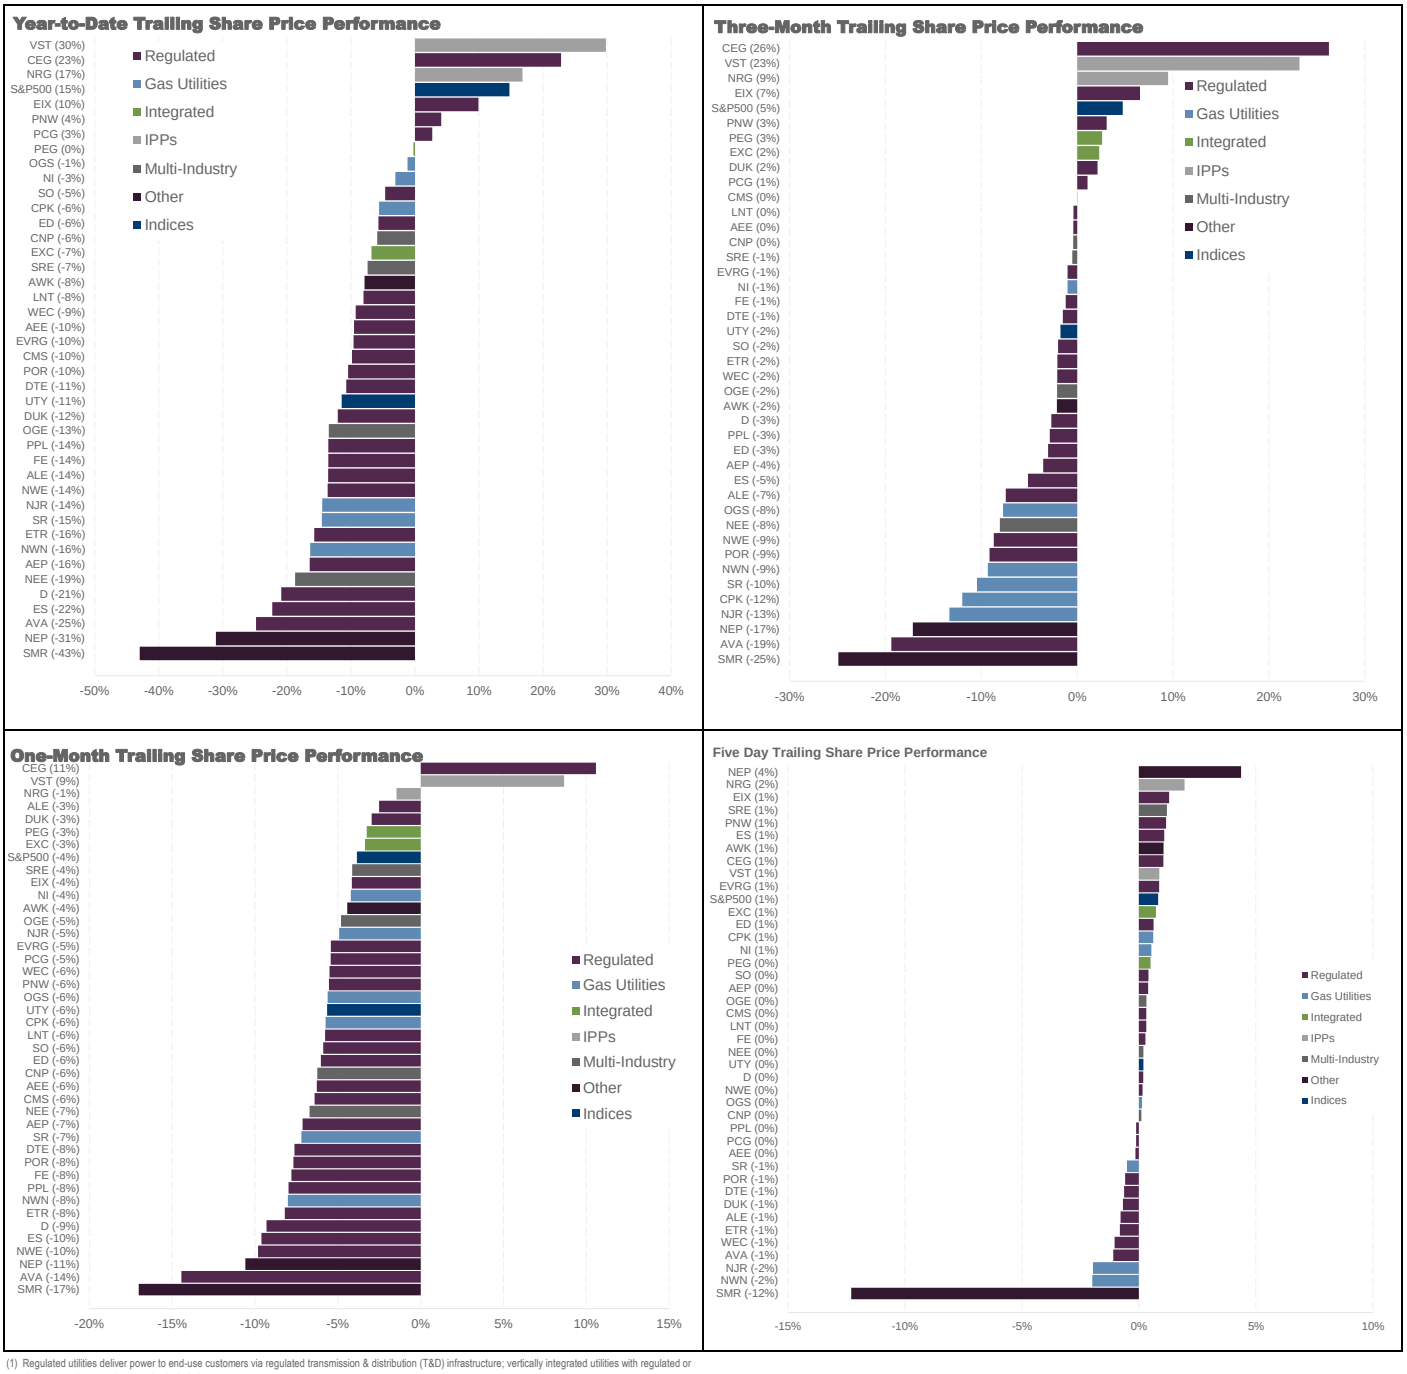
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: WEC, DUK, AEP, CMS, AVA, EXC, DTE, ETR, AGR, ES, XEL, NWE, PNW, POR

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, we are tracking proceedings in WEC's MN natural gas rate case, DEC's NC electric rate case, AEPs WV ENEC proceedings, CMS' s MI electric rate case, AVA's OR natural gas rate IRP, EXC's MD electric and natural gas rate cases, DTE's MI Distribution Grid Plan, and EXC's DC electric rate case. In other news, the CT PURA issues a final decision in AGR's UIL electric rate case; XEL files rebuttal testimony in TX electric rate case; MD PSC Staff files rebuttal testimony in BG&E's MD electric and gas rate cases; the PUCT issues a final order in the ETR TX rate case; the MA DPU approves the termination of Commonwealth offshore wind PPAs; the MN PUC approves XEL to add storage at the Monticello nuclear facility; CAISO files day-ahead market proposal with FERC; MISO issues a rare energy emergency alert; and the NC governor vetoes a bill proposal to change the NCUC composition.

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Scroll down for a full schedule, including dinners with **DTE** and **AGR.**

ICYMI
AVA: We upgraded AVA from Underweight to Sector Weight as the stock had effectively reached our price target, and we believe that our Underweight thesis is priced in with limited downside from the current levels. Read more here.

Regulatory Calendar
WEC — Exceptions to the ALJ report in MERC's natural gas rate case are due on August 28: The ALJ issued a report recommending approval of the settlement among Minnesota Energy Resources, the Department of Commerce, the Division of Energy Resources, the OAG, and others that resolves all issues. The parties agreed to a net $21M revenue increase ($29M gross), premised on a 9.65% ROE and 53% equity. This compares to MN Energy Resources' request for a net $33M revenue increase ($42M gross), premised on a 10.3% ROE, 53% equity layer, and a rate base of $482.5M. Interim rates of ~$37M went into effect on January 1. A PUC decision is expected by November 1.

DUK — Evidentiary hearings in DEC's NC electric rate case begin on August 28: DUK reached a partial settlement with NCUC Staff on several items, including the recovery of investments, the NC retail rate base, and depreciation rates, but left ROE, capital structure, and recovery of COVID-19 deferred costs out for a litigated proceeding. As a result of the settlement, DUK updated its revenue request to reflect the agreed-upon items. The Company is seeking a cumulative increase of $824M ($500M in RY1, $163M in RY2, and $161M in RY3) premised on the 10.4% ROE and 53% equity. This compares to DUK's prior request of $833M ($511M in RY1, $172M in RY2, and $150M in RY3) and Staff's recommended $398M ($113M in RY1, $153M in RY2, and $133M in RY3) revenue increase, premised on a 9.35% ROE and 52% equity layer. New rates are expected to go into effect by January 1, 2024.

AEP — Rebuttal testimony in AEP's ENEC proceedings is due on August 29: The WV Staff recommended a total revenue increase of $154M, composed of the under-recovery of $99M and $35M for the forecast period. This compares to AEP's request for ~$642M, including the accumulated under-recovered balance of ~$553M through February 2023 and $89M of projects for the forecast period from September 2023-August 2024. The biggest driver of the delta was Staff's recommendation to disallow $258M for recovery based on Critical Technologies Consulting's prudence review. Staff also recommended rejecting AEP's proposal to securitize the balance in favor of amortizing the costs over three years using the AEP's cost of debt, or 2.5%, for the carrying charge. CTC conducted its prudence review following the PSC's order in May 2022 after AEP failed to meet the annual capacity factor during the 2020-2021 period. The PSC also deferred any rate increase until the Staff completes the prudence review. AEP noted that the low capacity factors during the 2020-2021 and 2021-2022 ENEC periods were because of inadequate coal supplies. The ENEC is an annual rate adjustment mechanism allowing Wheeling and APCo to recover fuel, purchased power, and environmental compliance costs.

CMS — Staff and intervenor testimony in CMS's MI electric rate case is due on August 29: The utility seeks a $207M revenue increase on a forward test year with an ROE of 10.25% and a 51.5% equity ratio. Aside from the regular items, the request includes an Investment Recovery Mechanism (IRM) tracker with the intent of ring-fencing certain investments, including those for reliability

and resilience, to make it easier to track the performance of these investments. Also included is a request for approval of a pension/ OPEB volatility mechanics, to smooth out the impact of pension expenses over time. As expected, the filing includes a request for an undergrounding pilot to convert 10.3 miles of overhead lines to underground. An ALJ PD is expected on December 21.

AVA — Staff and intervenor comments on AVA's OR natural gas IRP are due on August 29: AVA filed a presentation of its 2023 natural gas IRP, highlighting the Company's preferred resource strategy to meet the expected 0.9% average annual growth through 2045. AVA's OR resource options include a combination of RNG, wastewater treatment plants, EE, community climate investments, and conventional natural gas to meet forecasted demand. AVA could add synthetic methane in the 2030s. As a reminder, AVA filed the IRP with the ID, OR, and WA utility commissions. AVA's filing includes strategies to comply with OR's Climate Protection Program and WA's Climate Commitment Act while meeting forecasted system energy demand. Across the portfolio strategies, AVA will rely heavily on procuring natural gas and energy efficiency. AVA is required to file a natural gas IRP with the OPUC, WUTC, and IPUC every two years.

EXC — Evidentiary hearings in EXC's MD electric and natural gas rate cases begin on August 30: MD PSC Staff recommended electric and gas revenue increases of $193M and $232, respectively, over a three-year term. The increases are premised on a 9.45% ROE and 52% equity. This compares to BG&E's (Docket: C-9692) request for a cumulative net $314M electric and a $290M gas rate increase over 2024-2026, premised on 10.4% ROE and 52% equity. The difference is largely due to the lower ROE proposed by Staff. EXC proposes smoothing the rates over three years by accelerating the amortization of ADIT benefits. A MD PSC decision is expected by year-end, with new rates becoming effective in early 2024.

DTE — Technical conference for DTE's Distribution Grid Plan to be held on August 31: DTE will share key topics on its 2023 Distribution Grid Plan. DTE will make the filing this year as required by the Commission and will address a continued focus on tree trimming and replacement of equipment, as well as an attempt to accomplish full grid automation in five years. Automation will play a key role in reducing outages during storms and follow-up restoration. Also included in the grid filing will be the acceleration of the upgrade of about 16K miles of the 4800 kV lines that are way beyond their useful life. The MI PSC will host the technical conference.

EXC — Supplemental testimony in PEPCo's DC electric rate case is due on August 31: EXC's PEPCO filed a three-year electric rate case with the DC PSC seeking a cumulative $191M revenue increase ($116M in RY1, $37M in RY2, and $37M in RY3). New rates would go into effect on February 15, 2024, with the step-ups effective January 1 of 2025 and 2026, respectively. The rate increase request is premised on a 10.5% ROE and 50.5% equity layer.

Recent Developments for Companies Under Our Coverage

From our midweek: The NCUC authorizes a $494M revenue increase for DEP NC; DUK reaches a partial settlement in its DEC NC MYRP; parties reach a full settlement in the APCo VA triennial proceedings; D's SC reaches a settlement in its natural gas rate case; AGR announces plans for the 44 MW solar project in CA; POR and the OR Staff file the details of the OR electric rate case partial settlement; and AL Power surrenders its permit for a hydro storage project.

AGR — CT PURA issues final decision in AGR's UIL electric rate case: The CT PURA authorized a $23M revenue increase, premised on a 9.1% ROE with a further 47 bps cut to address performance and management issues, bringing the effective ROE to 8.63% and a 50% equity layer. The PURA also authorized a $1.1B rate base compared to AGR's $1.4B proposal, underpinned by a $222M reduction in plant addition through 2023/2024. The PURA rejected AGR's application for a three-year rate plan. The final decision is better than the PD, but is nonetheless a restrictive order highlighting the difficult regulatory landscape in the state (read more here). The PD recommended a rate increase of less than $2M premised on an effective 8.28% ROE (8.8% ROE with a further 52 bps cut). AGR requested a $131M increase over three years, with a 10.2% ROE and 52% equity. In written exceptions to the PD, AGR noted that the recommendation was insufficient to cover expenses and attract the needed capital for grid modernization. The new rates will go into effect September 1, 2023.

XEL — XEL files rebuttal testimony in TX electric rate case: XEL updated its request to a $136M revenue increase while maintaining its 10.65% ROE and 54.68% equity. This compares to XEL's initial request for a $158M revenue increase and the TX PUC Staff's recommendation for a $102M revenue increase, premised on a 9.5% ROE and 54.6% equity. The lower request excludes $10.8M of deferred costs that XEL would recover through a two-year rider. XEL also updated its request to reflect the passage of SB 1016, including removing the elimination of its capitalized annual incentive program and related expenses and including long-term incentives for non-officers. Hearings are scheduled to begin September 12. A PUCT decision is expected in 1Q24.

EXC — Staff files rebuttal testimony in BG&E's MD electric and gas rate cases: MD PSC Staff updated the three three-year electric and gas rates increase recommendations to $197M and $237M, respectively, up from $193M and $232M, respectively. Staff updated its recommendation to reflect revisions to various capital projects and EXC's revised ADIT. Staff maintained its 9.45% ROE and 52% equity recommendations. This compares to BG&E's request (Docket: C-9692), seeking a cumulative net $313M electric and a $289M gas rate increase over 2024-2026. BG&E's requests are premised on a 10.4% ROE and 52% equity. The request includes a performance incentive mechanism with four performance metrics related to the state's policy goals. A MD PSC decision is expected by year-end, with new rates becoming effective in early 2024.

Sophie Karp (917) 368-2361 / sophie.karp@key.com

ETR — PUCT issues final order in the ETR TX rate case: The PUCT issued its final order authorizing a $54M net revenue increase ($252M base rate increase offset by $198M of riders), premised on a 9.57% ROE and 51.21% equity. The order was expected after the Commission unanimously approved the settlement at its July open meeting. The settlement resolved all issues except Issue Nos. 68 and 69 related to transportation electrification and charging infrastructure, respectively. The PUCT agreed to transfer these outstanding issues to a separate proceeding to expedite the rate case. Interim rates of $54M have been in effect since May 27. New rates will be retroactive to December 3, 2022.

AGR, ES — MA DPU approves the termination of Commonwealth offshore wind PPAs: The MA DPU approved the termination of AGR's PPAs with ES, National Grid, and Until for the ~1.2 GW Commonwealth Offshore Wind project. The parties filed the request after AGR agreed to pay a cumulative $48M to terminate each respective PPA. The AGR plans to bid anew in MA's next RFP, with the bids likely to be announced in June 2024. The terms of the RFP will include an option for developers to submit indexed-priced bids that would allow the developers to adjust the energy prices based on macro conditions. Bidders will be evaluated based on their experience and track record, including the termination of prior contracts.

XEL — MN PUC approves Monticello nuclear facility to add storage for fuel waste: The MN PUC approved XEL (Docket: 21-668) to add storage for the fuel waste at the 617 MW Monticello nuclear facility, allowing the Company to continue operating the plant through 2040. Without the additional storage, XEL would have exhausted its spent nuclear fuel storage capacity by 2030. In XEL's last IRP, the MN PUC approved XEL to pursue extending the operating life of the plant by 10 years. XEL also filed a license renewal application with the NRC seeking a 20-year extension for the facility to continue operating the plant through 2050. The NRC only allows applications in increments of 20 years. An NRC decision is expected in late 2024. The plant entered service in 1971.

AVA, NWE, PNW, POR, XEL — CAISO files EDAM proposal with FERC: CAISO filed a proposal with FERC to revise two tariffs to enable its Extended Day Ahead Market. Specifically, CAISO proposed two new products (imbalance reserves and reliability capacity) for its Day-Ahead Market Enhancements Initiative, and it proposed changes to extend the market to balancing areas in the Western Energy Imbalance Market. The proposals address challenges caused by increasing system variability and uncertainty. The EDAM is a day-ahead market that will allow voluntary participation among its members and builds on CAISO's real-time WEIM, which is the most relatable option to a regional market that the Western Interconnection provides. The West lacks any regional market, but CAISO's WEIM and the SPP's Market+ are the most relatable options the Western Interconnection provides. CAISO requested FERC approval by December 21 and is targeting a launch in 1H25.

MISO issues energy emergency alert: MISO declared a Max Gen Step 2 event and took actions to preserve firm load during a heatwave that impacted much of the Midwest U.S. last week. During Max Gen 2 Events, MISO will implement demand management programs, utilize contingency reserves, and purchase emergency energy. The summertime emergency alert was a rare occasion for the ISO. However, NERC highlighted MISO as a region that could face shortfalls during extreme weather given its increased reliance on renewable resources, including wind generation during peak demand, in its 2023 Summer Reliability Assessment.

DUK — NC governor vetoes bill proposal to change NCUC composition: NC Governor Roy Cooper vetoed SB 512, which proposes reducing the NCUC down to five commissioners, reducing the NCUC chair to a three-year term, and allowing the governor to appoint three of the commissioners. The General Assembly would be responsible for appointing the two other commissioners. The NCUC has historically comprised seven governor-appointed commissioners and a chair serving four years. Although the governor vetoed the bill, the Republican-controlled House of Representatives and Senate can override the veto. If enacted, the NCUC would begin experiencing changes to the composition in 2025, when two of the three expiring terms would not be refilled. We are currently watching the DEC multiyear rate case.

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC ("KBCMI"), and KeyBank National Association ("KeyBank N.A."), are marketed.

KeyBanc Capital Markets Inc. ("KBCMI") does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst's compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. This communication is intended solely for use by KBCMI clients. The recipient agrees not to forward or copy the information to any other person without the express written consent of KBCMI.

KBCM Research LLC ("KeyBanc Capital Markets Research"), an SEC registered investment advisor, is a wholly owned subsidiary of KeyBanc Capital Markets Inc. KeyBanc Capital Markets Research provides objective and sophisticated **Research Services**, primarily in the form of published Research Reports, to an institutional client base in exchange for a cash fee. KBCM Research does not provide particularized investment advice with regard to any specific institutional client, on the basis of specific sector or company requests from a client. Our advisory relationship with our clients is strictly limited to the provision of **Research Services**, which are not to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. Additional information about KBCM Research LLC also is available on the SEC's Investment Adviser Public Disclosure (IAPD) website.

August 25, 2023

The Guggenheim Daily Transmission: SRE, ETR, NEE/ED, EXC/NJ, LNT, ERCOT, MA/Wind, PA, ISO-NE, DUK/NEE, WEC, SO, PCG

Please join us for our quarterly utilities investor roundtables in NYC on Sept. 25th, and NJ on Sept. 26th, both invite details below.

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our CMS NDR, SO NDR, POR NDR, CEG NDR, PEG NDR, NI NDR, and other events, scroll down...

Please see our sector-wide note on the country's evolving regulatory jurisdictions HERE, our updated mid-year utility sector valuation analysis HERE.

SRE – PUCT issues order denying rehearing in the Oncor rate case

ETR – FECR Staff and SERI file answer testimony for SERI operational imprudence complaint at FERC

NEE/ED – MVP sees new homeowner lawsuit challenging project land rights

EXC/NJ – ACE seeks minor schedule tweak as settlement discussions ongoing

LNT – Additional intervenors sign on to IPL settlement

ERCOT – PUCT approves Tesla Powerwall DER aggregations

MA/Wind – DPU approves wind PPA terminations

ERCOT – ERCOT operations survive strained conditions alongside MISO issues

PA – PA PUC issues policy statement on storage

ISO-NE – NH governor and legislators oppose executive EJ position at RTO

DUK/NEE – Local media coverage of utilities' customer energy conservation efforts

DUK – Gov. Cooper meets with North Carolina State Ports Authority

WEC – Briefs filed in Illinois gas cases

SO – Minor NRC report unrelated to Vogtle 3 & 4

PCG – Environmental group lawsuit aiming at stopping Diablo canyon extension dismissed by court

SRE – PUCT issues order denying rehearing in the Oncor rate case

- PUCT has issued an order denying rehearing on Oncor rate case issues by a few consumers and marketer stakeholders.
- Stakeholders filed for rehearing on the basis of a variety of issues, including high rates, high ROE, amortization issues, etc.
- Docket: 53601

Guggenheim takeaway: *FYI. The decision in the case was supported by case record and generally well debated with the PUCT. See more takes on the Oncor PFD here.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

ETR – FECR Staff and SERI file answer testimony for SERI operational imprudence complaint at FERC

- FERC Staff and SERI filed separate answer testimony to the stakeholder request for confirmation of scope and establishment of serious doubt.
- FERC Staff supports FERC issuing scoping comments to clarify the complaint but declines to have FERC issue testimony on the establishment of serious doubt at this stage.
- SERI answers similarly oppose the determination of serious doubt among other clarifying comments on scope and schedule.
- FERC previously issued an order addressing certain scoping items (motions to strike testimony denied, motion to exclude ETR Hold co approved, and starting settlement proceedings)
- FERC notes that there is not enough record for addressing the complaints in this specific docket related to SERI and will require an evidentiary hearing (which ETR disputes).
- Docket: EL21-56 (through FERC search)

Guggenheim takeaway:*FYI. Another step in the litigation back and forth on the SERI complaint case. This specific complaint relates to alleged imprudent operations and purchased power costs. The commission is also looking at a variety of other formula rate and cost of capital complaints related to SERI.*

NEE/ED – MVP sees new homeowner lawsuit challenging project land rights

- Two homeowners filed a fourth circuit appeal of certain land use issues against Mountain Valley Pipeline.
- MVP has already filed a compliance filing regarding the commencement of construction activities starting August 4, 2023.
- US Supreme Court overturned a lower court stay on MVP construction activities that challenged constitutionality of Congress approval.
- US SC lifted the stay on construction and MVP filed a notice with FERC on commencement of construction activities.
- After Congress passed a debt ceiling deal which expedited approval of new permits and removed the appeals option, MVP received all necessary permits including US Army Corps of Engineers.
- The project developer still anticipates a 2023 year-end completion.
- FERC Docket: CP16-10 / CP21-57

Guggenheim takeaway: *FYI. The new complaint may not have any serious merit and seems small in the context of the momentum for completion at this point. USSC is the highest authority that was left to opine on this case and construction activities are now able to continue. MVP had around 50 miles of pipeline construction that was stalled on contested lands that Congress cleared for construction. Both ED and NEE have taken major write downs on the MVP project (i.e., not in financial guidance) and would not include any upsides in near term plans. Longer term, the prospect of MVP completion could enable a strategic process (ED specifically mentioned and executed an exit from gas midstream over the past 2 years). At nominal cost the value of MVP is ~1-2% of market cap.*

EXC/NJ – ACE seeks minor schedule tweak as settlement discussions ongoing

- "Please be advised that representatives from Staff of the Board of Public Utilities, the Division of Rate Counsel, and the Intervenor (the "Parties") are currently engaged in settlement discussions that could result in a negotiated resolution of this proceeding. In light of current negotiations and the progress being made, the Parties have agreed to respectfully request a modification to the Prehearing Order. Specifically, the Parties ask that Your Honor move the date for testimony from September 1, as set forth in the Prehearing Order, to September 8; effectively establishing a one week delay to the submission of testimony. This delay also accommodates the Labor Day holiday. Public Service Electric and Gas Company has also been invited to participate in the settlement discussions as Participant." - Filing
- More HERE

Guggenheim takeaway: *Heads up on the potential settlement and scheduling tweak, with the potential execution on a settlement at ACE a modest positive in our view, all things equal. As a reminder ACE is EXC's smallest utility (~6% of total company).*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

LNT – Additional intervenors sign on to IPL settlement

- "The Environmental Law & Policy Center (ELPC) and Iowa Environmental Council (IEC) (collectively Environmental Intervenors) file this Notice of Intent to Join Settlement in lieu of filing testimony as non-settling parties pursuant to the schedule adopted by the Iowa Utilities Board on August 4, 2023, in the above-captioned docket. Environmental Intervenors hereby state that they intend to join in the Non-Unanimous Stipulation and Settlement Agreement and support the Joint Motion to Approve Non-Unanimous Stipulation and Settlement Agreement filed by Interstate Power & Light and the Office of Consumer Advocate on August 1, 2023." - filing
- More HERE

Guggenheim takeaway: *A smaller positive after the earlier initial settlement. For your awareness. As a reminder, the company reached a settlement with the OCA on the solar portion of the RPU earlier in the month. We saw the settlement as a positive step, given it includes all of RPU's solar consideration alongside a favorable ROE. See our most recent thoughts HERE for more.*

ERCOT – PUCT approves Tesla Powerwall DER aggregations

- The PUCT has approved two VPPs backed by the aggregation of home Powerwalls for participation in the ERCOT WEM
- More HERE
- "Two 'virtual power plants' (VPPs) are now qualified and able to provide dispatchable power to the Texas electric grid, which is operated by the Electric Reliability Council of Texas (ERCOT). This marks a first for the state's electricity market and is part of the Aggregate Distributed Energy Resource (ADER) pilot project the Public Utility Commission of Texas (PUCT) directed ERCOT to begin developing in June 2022. The pilot project tests how consumer-owned, small energy devices, such as battery energy storage systems, backup generators, and controllable Electric Vehicle (EV) chargers, can be virtually aggregated and participate as a resource in the wholesale electricity market, strengthening grid reliability." - release

Guggenheim takeaway: *While not a large initial step (~7.2MW), the aggregated DER model is somewhat of a holy grail in the space and of keen interest to policymakers seeking greater flexibility and more price-responsive demand.*

MA/Wind – DPU approves wind PPA terminations

- The DPU gave its stamp approval to the terminations earlier this week for the developers of Commonwealth Wind
- More HERE

Guggenheim takeaway: *The final step in the long process – we continue to monitor for pathways forward on the state's ongoing OSW needs.*

ERCOT – ERCOT operations survive strained conditions alongside MISO issues

- The ISO had issued a call for conservation yesterday, alongside an EEA2 in MISO due to heat and outages
- More HERE

Guggenheim takeaway: *We continue to monitor both ERCOT and MISO closely given the blistering conditions and the potential for forced outages and curtailment – the current heat dome over the central US is forecasted to gravitate toward the south/Texas in the coming days.*

PA – PA PUC issues policy statement on storage

- "With this Order the Commission issues, for comment, a proposed policy statement in Annex A that sets forth proposed guidelines for usage of electricity-storage assets as electric distribution assets in the Commonwealth." - release
- More HERE

Guggenheim takeaway: *Interesting data point as we continue to monitor spending opps on the PA distribution system for utility readthrough (e.g., incremental PPL spend).*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

ISO-NE – NH governor and legislators oppose executive EJ position at RTO

- "Today, Governor Chris Sununu and twelve New Hampshire legislators wrote to Robert Ludlow, Chief Financial and Compliance Officer of ISO New England, in opposition to the creation of an executive-level environmental justice position at ISO New England." - Governor
- More HERE

Guggenheim takeaway: *Minor FYI.*

DUK/NEE – Local media coverage of utilities' customer energy conservation efforts

- A nonprofit group, American Council for an Energy-Efficient Economy, based in Washington, D.C., ranked the country's 53 largest electric utilities on their efforts to encourage customers to save energy.
- The top five highest-ranked utilities were ES in Massachusetts, followed by PCG in California, NGG in Massachusetts, Commonwealth Edison (EXC) of Illinois, and DTE in Michigan.
- Lowest ranked were AEP of Texas at 47th, followed by DUK and AEP in Ohio, then Alabama Power (SO), NEE's FPL in 52nd, and Ohio Edison (FE) in last place.
- More HERE

Guggenheim takeaway: *We note that as evidenced by the groupings of MA and FL, the legislative and regulatory environment a utility operates in certainly plays a role in directing a utility's activities and ultimately the results of this type of report.*

DUK – Gov. Cooper meets with North Carolina State Ports Authority

- The governor met with the organization's board to discuss offshore wind off the coast of North Carolina.
- Gov. Cooper wants to build out NC's offshore wind-related manufacturing industry.
- More HERE

Guggenheim takeaway: *Minor FYI. As a reminder, DUK filed its updated Carbon Plan IRP last week in NC as well.*

WEC – Briefs filed in Illinois gas cases

- Briefs were filed by the Staff of the Illinois Commerce Commission, the City of Chicago, CUB, and AARP, among others.
- Staff's maintained its ROE recommendation, which it originally established in testimony on May 9, 2023.
- Docket 23-0069

Guggenheim takeaway: *We remind investors that the Illinois Staff recommended a 9.83% ROE earlier this year (which continues to be our go-forward baseline assumption in this case), compared with the utilities' ask of 9.90% and presently authorized level of 9.05%.*

SO – Minor NRC report unrelated to Vogtle 3 & 4

- "At 1724 EDT, on August 22, 2023, with Unit 1 in Mode 1 at 100 percent power, the reactor was manually tripped due to a failure of the non-safety heater drain pump 'B' and the failure of the non-safety condensate pump 'A' to automatically or manually start. At 1735 EDT, a fire was identified on heater drain pump 'B' and was extinguished by the onsite fire brigade at 1807 EDT. Operations responded and stabilized the plant. The trip was not complex, with all safety systems responding normally post-trip. Decay heat is being removed by the main steam system to the main condenser using the steam dumps. There was no impact to Units 2, 3, or 4." – NRC report
- More HERE

Guggenheim takeaway: *We note that this was Unit 1, and therefore completely unrelated to Unit 2, as well as the newly constructed Unit 3 and nearing-completion Unit 4.*

PCG – Environmental group lawsuit aiming at stopping Diablo canyon extension dismissed by court

- A prior environmental group lawsuit aimed at stopping the Diablo Canyon Extension was dismissed in court.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

- The Suit alleged that PCG has not made adequate investments for safe operations and challenges PCG compliance with the prior regulatory decision to retire the units in 2024/2025.
- More in media here.

Guggenheim takeaway:*As we anticipated the merit of the lawsuit was found to be lacking especially as the outlook for Diablo Canyon is legislated and pending NRC approvals. From an earnings perspective there could be a slight tailwind for PCG, but impacts would remain in the prior range of EPS / rate base guidance outcomes (more thoughts in our SB846 note here). Overall, we believe PG&E actions on extending Diablo Canyon operations provide support to the state policy objectives, provide benefits to customers from carbon free generation at reduced costs and secure good will.*

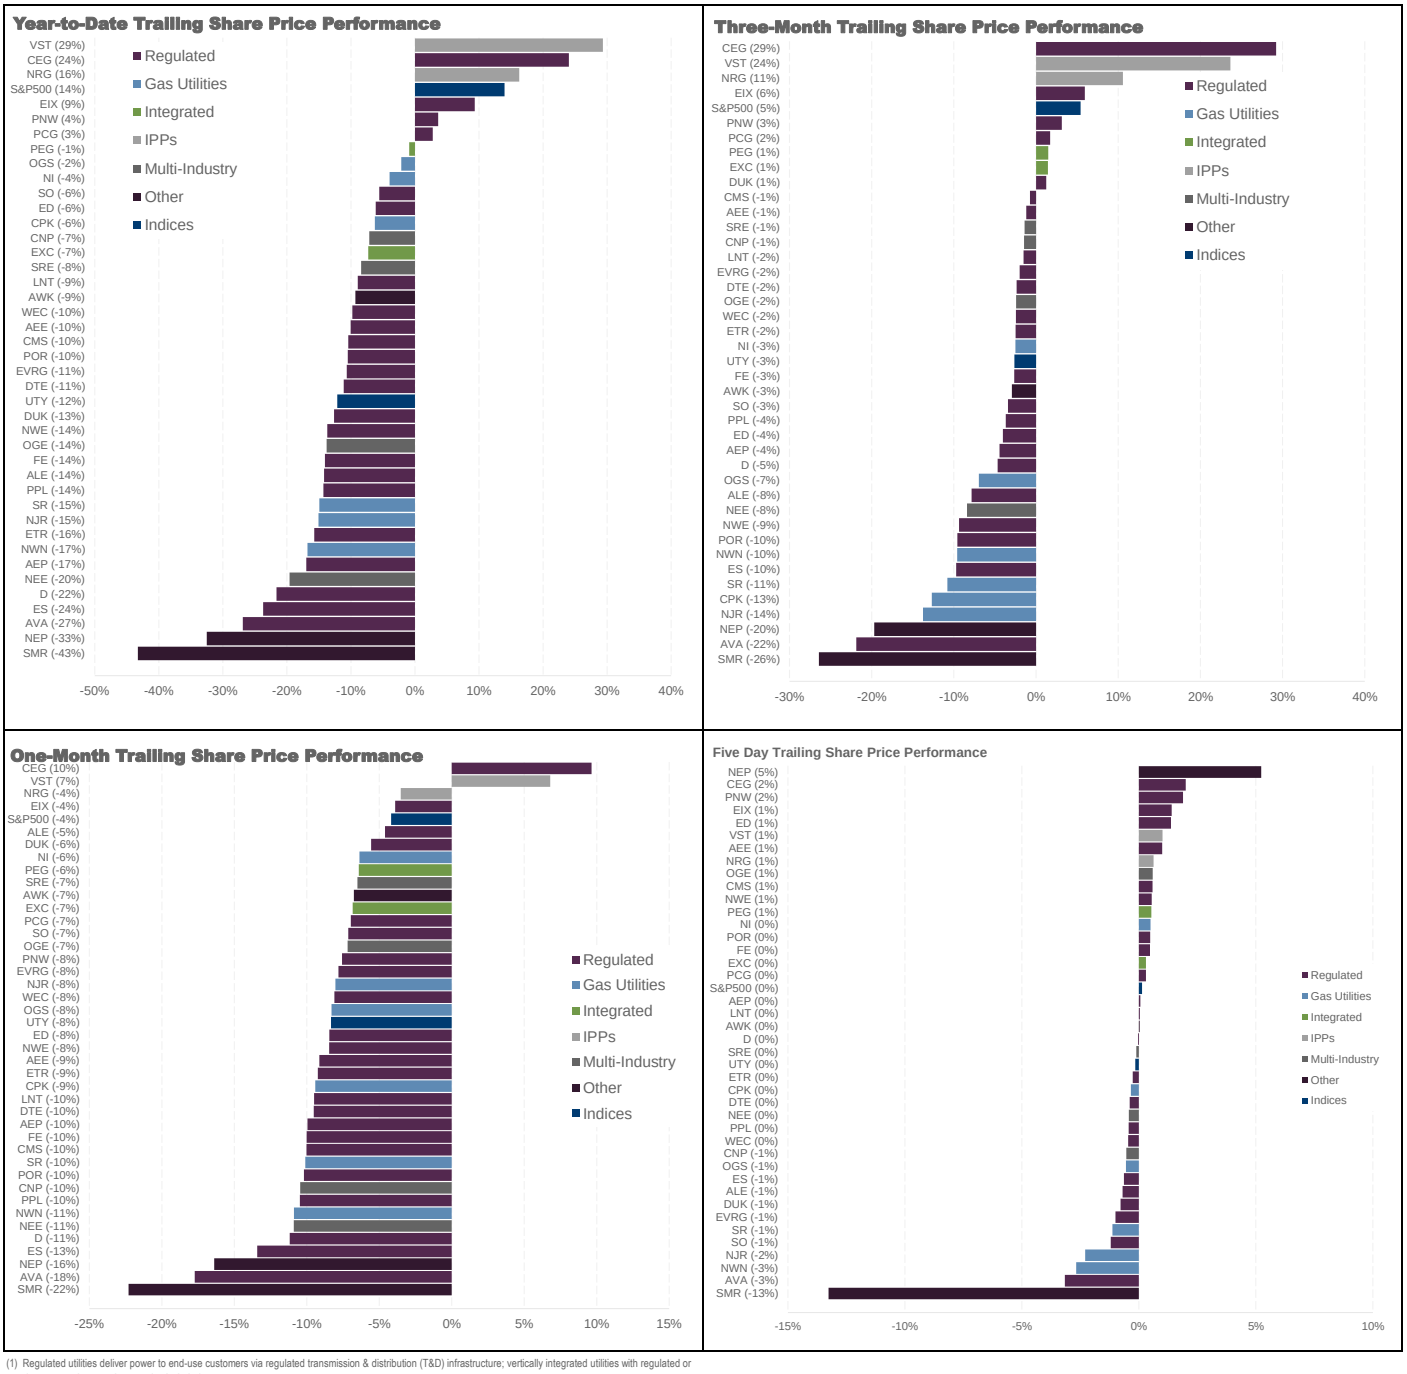
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

RATINGS DISTRIBUTIONS FOR GUGGENHEIM SECURITIES:

			IB Serv./ Past 12Mos.

SELL	10	2.70%	0	0.00%

OTHER DISCLOSURES

This research is for our clients and prospective clients only. This research was prepared by personnel who are associated with both Guggenheim Securities, LLC (a FINRA-registered broker-dealer, “Guggenheim Securities”) and Guggenheim Securities Research Services, LLC (an investment adviser, “GSRS,” and together with Guggenheim Securities, “Guggenheim”). If you are paying separately for this research, it is being provided to you by GSRS. Otherwise, it is being provided by Guggenheim Securities. Guggenheim does not create tailored or personalized research and all research provided by Guggenheim is impersonal advice. Other than disclosures relating to Guggenheim and our affiliates, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the research analyst's judgement. Guggenheim Securities conducts a full-service, integrated investment banking and brokerage business. Guggenheim Securities is a member of SIPC (http://www.sipc.org). Guggenheim Securities' salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to Guggenheim Securities' clients and our employees trading for our own account that reflect opinions that are contrary to the opinions expressed in this research. Guggenheim and certain of our affiliates conduct an

investment management business, trade for their own accounts, and may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

We and our affiliates, officers, directors, and employees, excluding equity and credit analysts, will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research. We and our affiliates also may sell to or buy from customers on a principal basis the securities described herein. We and our affiliates also do business with, or that relates to, companies covered in Guggenheim research and may have a position in the debt of the company or companies discussed herein.

This research is not an offer to sell or the solicitation of an offer to buy any security. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them will fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Power & Utilities

August 22, 2023

The Guggenheim Daily Transmission: POR, EXC/NJ, NC/DUK, EXC/DC, CNP, PPL/KY, DTE

For details on our Guggenheim-hosted client Utility events including our CMS NDR, SO NDR, POR NDR, CEG NDR, PEG NDR, NI NDR, and other events, scroll down...

Please see our sector-wide note on the country's evolving regulatory jurisdictions HERE, our updated mid-year utility sector valuation analysis HERE.

POR – 1st, 2nd, and 3rd partial stipulations docketed

EXC/NJ – ACE updates case for actual test year results

NC/DUK – Pro-nuclear legislation moves forward in NC

EXC/DC – OPC and AG push back on proposed modifications to Pepco MYP case schedule

CNP – CenterPoint appoints new independent Board chair

PPL/KY – Hearings to commence at KY PSC for CPCN

DTE – Fermi taken offline

POR – 1st, 2nd, and 3rd partial stipulations docketed

- PGE, alongside multiple intervenors, has reached two stipulations (1st and 3rd) concerning multiple NVPC items and one stipulation (the 2nd) concerning the GRC
- The first partial stipulation primary contains NVPC resolutions, as reached back in June is HERE
- The third stipulation primarily pertains to additional NVPC issues (Beaver cycling, inclusion of a physical gas call option, RCE modeling, and WA CCA costs) – see HERE
- Testimony explaining the first and third stipulations is HERE
- The second stipulation includes several GRC issue resolutions, including a black box settlement on several rate base items (Reducing rate base by $27.5M and the rev req by $4.25M), several black box items on O&M, and a series of miscellaneous items (50/50 cap structure, cost of debt, Boardman item, load forecasting, etc.)
- More HERE

Guggenheim takeaway: *The details of these stipulations appear to hew closely to the commentary from management on the 2Q call, where they laid out areas of agreement for potential settlement, including 1) cap structure (50/50), 2) "several core business issues, such as the treatment of the transfer and sale of PTCs," and 3) 'certain' NVPC items. Still the parties have not come to an agreement on 1) cost of capital, 2) the PCAM proposals, or 3) "certain other capital projects."* ***The ROE and recovery of Faraday costs ($188M) remains a key sticking point*** *in our view, and while we asked on the recent 2Q call about potential pathways forward for recovery, management was largely deferential to the process while emphasizing the value and complexity of hydro construction. We expect there could be some level of disallowance, however we continue to see this as a discrete issue (cost/time overruns on a very old hydro refurbishment). As a reminder, we wrote last month on the details of the initial testimony in our note HERE. At this point, based on management's commentary, we also do not expect movement on the PCAM proposal. We upgraded POR to BUY last week – see our note HERE.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

EXC/NJ – ACE updates case for actual test year results

- "The Company's original Petition requested a net annual increase in current retail base rates for electric service of $104.8 million ($111.73 million, including Sales and Use Tax) to cover its cost of service. The revenue requirement calculation associated with this 12+0 Update, for the 12 month period ended June 30, 2023, is $91,979,736. This updated revenue requirement is $1,571,817 lower than the $93,551,552 revenue requirement proposed in the nine months actual, three months forecasted test period results." - filing
- More HERE

Guggenheim takeaway: *Procedural tweak as ACE continues to work through the initial stages of its case and intervenor testimony approaches on 9/1. ACE had previously filed its 9+3 update on 6/1. As a reminder, ACE is EXC's smallest utility (~6% of EXC).*

NC/DUK – Pro-nuclear legislation moves forward in NC

- Yesterday, the bill was referred to the Committee on Rules and Operations of the Senate.
- Recall that the bill has already been passed by the state Senate.
- North Carolina Senate Bill 678

Guggenheim takeaway: *In our view, DUK would be the primary beneficiary of this bill, which would redefine "renewable energy" as "clean energy" in order to provide a term that includes nuclear resources and fusion energy, and which specifically eliminates language impeding CPCN issuance for nuclear facilities.* ***DUK also filed its NC Carbon Plan update and SC IRP last week, which we covered HERE, and HERE, respectively.***

EXC/DC – OPC and AG push back on proposed modifications to Pepco MYP case schedule

- The back and forth comes after Pepco filed earlier proposed modifications to the procedural schedule
- "The Commission must reject the unmanageable and prejudicial procedural schedule attached to Pepco's Motion and instead adopt a procedural schedule based on the District's concerns discussed below" - AG
- More HERE

Guggenheim takeaway: *Data points for your awareness as we monitor the schedule.*

CNP – CenterPoint appoints new independent Board chair

- Yesterday, the company announced that Earl M. Cummings has been appointed by the Board of Directors as its Independent Board Chair.
- Mr. Cummings succeeds Martin H. Nesbitt, who served as Independent Board Chair since July 2021.
- Press release HERE

Guggenheim takeaway: *FYI.*

PPL/KY – Hearings to commence at KY PSC for CPCN

- Formal hearing in this proceeding will occur on August 22, 2023 – August 25, 2023
- More HERE

Guggenheim takeaway: *For your calendars today and this week.*

DTE – Fermi taken offline

- "On 8/20/2023 at 1600 EDT, during plant walkdowns in the drywell while in mode 3 to identify a cause of increasing unidentified leakage rate, reactor coolant system pressure boundary leakage (approximately 2 gpm) was identified on the reactor recirculation sample line between the reactor recirculation sample line inboard isolation valve (B3100F019) and where the sample line taps off the B reactor recirculation jet pump riser. This requires entry into technical specification 3.4.4 condition C, identification of pressure boundary leakage with a required action to be in mode 3 in 12 hours and mode 4 in 36 hours. At 1630 EDT, a technical specification required shutdown to mode 4, cold shutdown, was initiated." - NRC
- More HERE

Guggenheim takeaway: *Minor FYI.*

Equity Research | Corporate Access

CMS Energy Corporation (CMS)

Garrick Rochow, *President & Chief Executive Officer*

Rejji Hayes, *Chief Financial Officer*

Dates & Locations

Wednesday, August 30, 2023
New York

Meeting Format

NDR - 1:1 Meetings & Group Meeting

Company Information

Market Cap: $17.7bn

CMS Energy Corp (CMS) engages in the provision of electric and natural gas activities. It operates through the following business segments: Electric Utility, Gas Utility, and NorthStar Clean Energy. The Electric Utility segment focuses on generation, purchase, distribution, and sale of electricity. The Gas Utility segment includes purchase, transmission, storage, distribution, and sale of natural gas. The NorthStar Clean Energy segment is involved in domestic independent power production including the development and operation of renewable generation and the marketing of independent power production. The company was founded in 1987 and is headquartered in Jackson, MI. (Source: FactSet)

Equity Research | Corporate Access

Southern Company (SO)

Dan Tucker, *Chief Financial Officer*

Scott Gammill, *VP of Investor Relations & Treasurer*

Dates & Locations

September 13-15, 2023
West Coast

Meeting Format

NDR - 1:1 Meetings & Group Meeting

Company Information

Market Cap: $77.5bn

Southern Company (SO) is a holding company, which engages in the generation and sale of electricity. It operates through the following segments: Traditional Electric Operating Companies, Southern Power and Southern Company Gas. The Traditional Electric Operating Companies segment refers to vertically integrated utilities that own generation, transmission and distribution facilities, and supplies electric services in the states of Alabama, Georgia, and Mississippi. The Southern Power segment constructs, acquires, owns, and manages generation assets such as renewable energy projects and sells electricity in the wholesale market. The Southern Company Gas segment distributes natural gas through natural gas distribution facilities in the states of Illinois, Georgia, Virginia, New Jersey, Tennessee, and Maryland. The company was founded on November 9, 1945, and is headquartered in Atlanta, GA. (Source: FactSet)

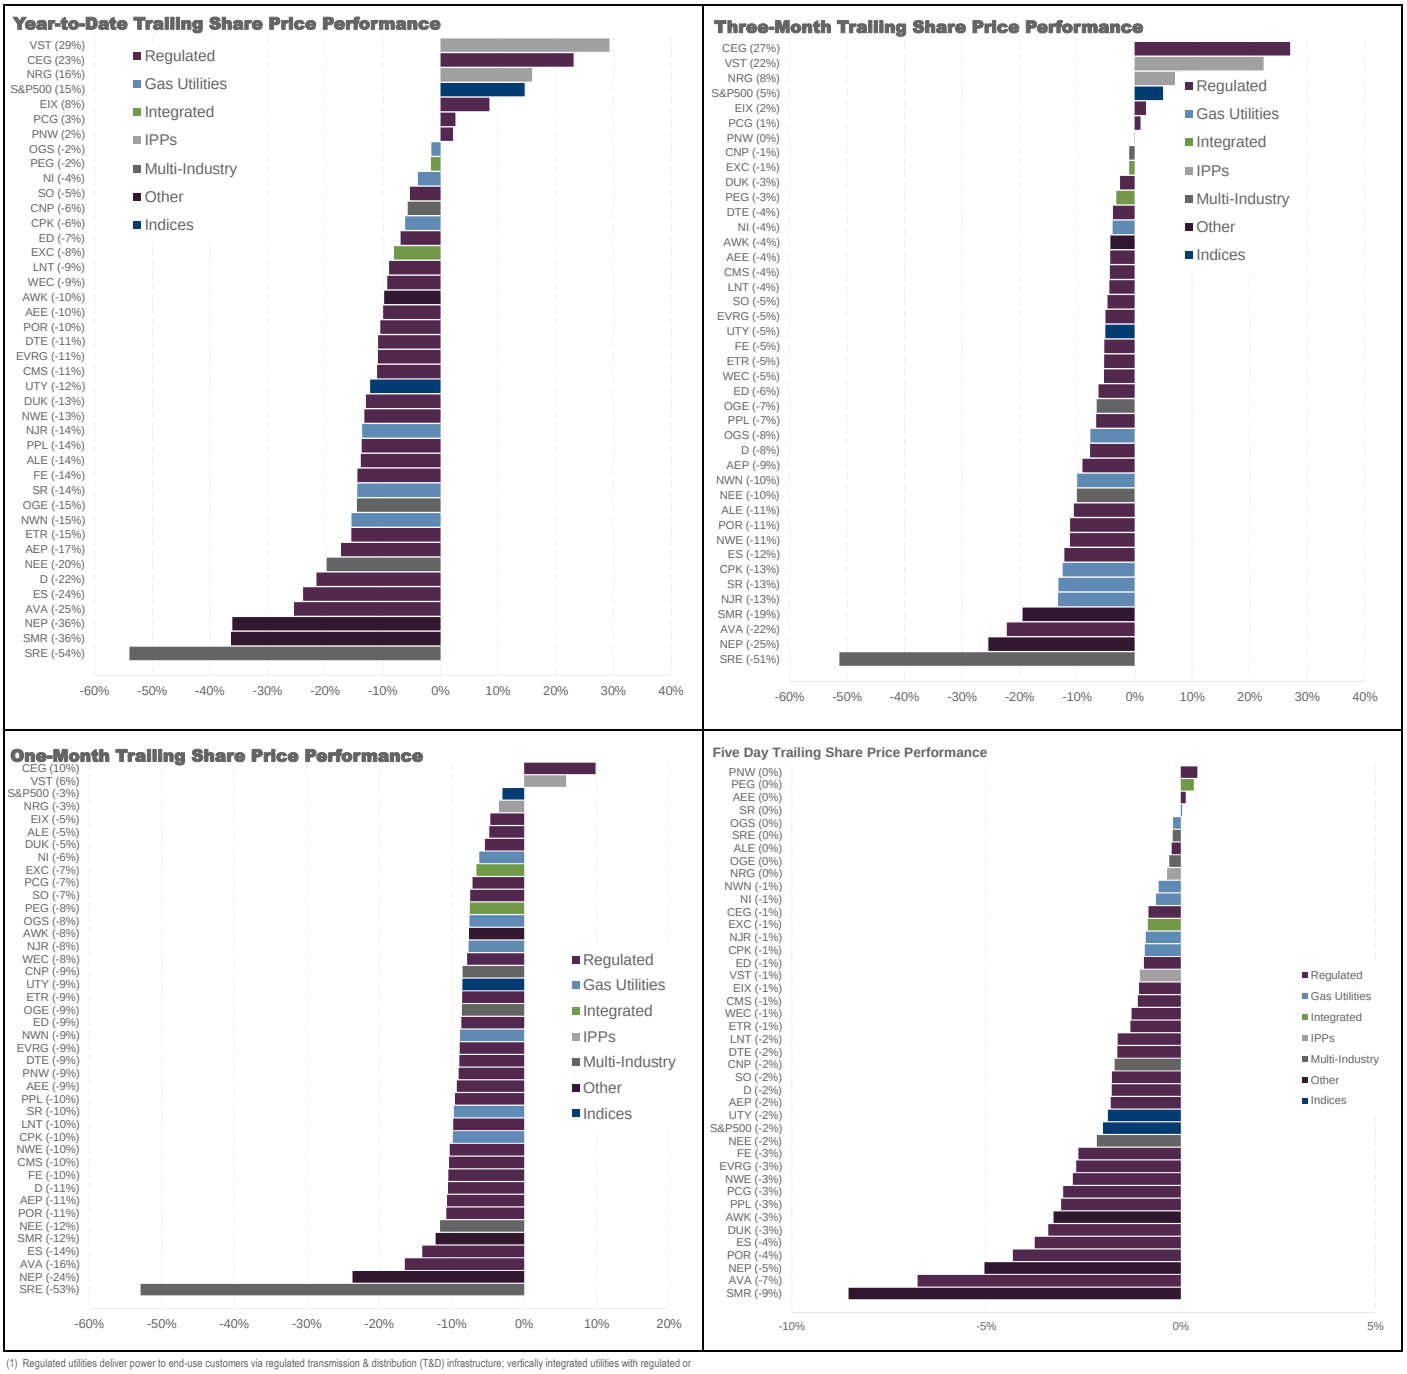
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

August 21, 2023

The Guggenheim Daily Transmission: AZ/PNW, DUK, AVA, PCG, EXC, AEE/IL, AEP, FE, ETR, CA/Fires, CAISO

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our CMS NDR, SO NDR, POR NDR, CEG NDR, PEG NDR, NI NDR, and other events, scroll down...

Please see our sector-wide note on the country's evolving regulatory jurisdictions HERE, our updated mid-year utility sector valuation analysis HERE.

Forward Power Curves, Genco MtM, and Weekly Commentary (see our note HERE)

Arizona Regulation: Drawing a Line in the Sand? Not with this Commission — Continuing Our Deep Dive in the Desert with Commissioner Myers and Commissioner Thompson (see our note HERE)

DUK – Constructive final order issued in DEP's North Carolina rate case

AVA – Company reports having had no role in Gray Fire ignition

PCG – PCG responds with additional data to ALJ and TURN requests

EXC – Initial testimony filed in DPL DE case

AEE/IL – Briefs filed in IL gas case

AEP – Julie Sloat elected Chair of AEP's Board effective October 2

FE – PUCO to vote on another six-month investigation deferral on Wednesday

ETR – Briefs opposing exceptions filed in SERI

EXC – Multiple parties file motions to admit additional evidence

CA/Fires – Plant Fire burns over 5K acres in Santa Barbra

CAISO – SoCal hurricane heightens alert at ISO

DUK – Constructive final order issued in DEP's North Carolina rate case

- Friday, the NCUC approved DEP's prior partial settlements and issued an order resolving its first multi-year rate plan (MYRP).
- The order included a 9.80% ROE (vs prior approved level of 9.60%), and also approved the company's requested 53.00% equity layer.
- DEP will implement revised Year 1 rates along with residential decoupling on October 1, 2023.
- More HERE

Guggenheim takeaway: *We caught up with the company over the weekend and this morning. We see this order as constructive even beyond the numbers, as it represents a significant milestone in DUK/NC's journey through the HB951 energy legislation, the NCUC rulemaking process, and now ultimately to the successful culmination of the company's first North Carolina multi-year rate plan. We remind investors that DEC (whose North Carolina rate case is still underway) has hearings scheduled for next week, and so we will be watching for a settlement announcement over the coming week.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

AVA – Company reports having had no role in Gray Fire ignition

- The company reported that a severe windstorm caused the Gray Fire, which has burned more than 10,000 acres around Medical Lake, WA, damaging at least 185 structures.
- Avista has begun an investigation into the wildfire and has so far found no indication that its facilities were involved in its ignition.
- The utility said that it is actively working with first responders, community support agencies and others to help assist those individuals and communities who have been impacted.
- 8-K HERE

Guggenheim takeaway: *We continue to monitor especially given investors' heightened scrutiny with wildfires involving smaller cap utilities.*

PCG – PCG responds with additional data to ALJ and TURN requests

- "Pursuant to the Email Ruling (Ruling) issued August 11, 2023 by Administrative Law Judges DeAngelis and Larsen, PG&E respectfully submits this response providing additional data regarding various memorandum account costs associated with PG&E's requested revenue requirement in the 2023 General Rate Case (GRC). As directed, the data provides information responsive to the questions identified in the Ruling, which clarifies a data request that had been propounded by TURN." - filing
- More HERE

Guggenheim takeaway: *Flagged for your awareness following last week's back and forth in the docket. As we noted then, The CPUC has been vocal in public hearings around the need to get a timely decision done on the PG&E rate case, and commitments to a 3Q resolution of the case. While additional evidentiary filings help set a better case record for a PD, they continue to extend the timeline for potential approval, which is a key component of the capital allocation decisions for PCG, including dividend initiation. Ultimately, we still see an upside to the base capex for PCG even among the bid-ask as system needs are not going away. More on our thesis here.*

EXC – Initial testimony filed in DPL DE case

- The DPA, PSC Staff, and other stakeholders have all field direct testimony in the ongoing DPL electric case
- Staff have recommended a 9.38% ROE (vs. 10.5% ask) and a 50.5% layer (no change)
- More HERE

Guggenheim takeaway: *Heads up on the testimony, which we continue to pick through. Initial Staff data points on ROE set the bid-ask floor in our view, with the commission most recently authorizing a 9.6% only ~2 years ago. As a reminder, of the ~$42M ask roughly $14M is just the roll in of DSIC capital. Interim rates went into effect last month, with rebuttal testimony due 9/29 ahead of hearings in December. Management has pointed to 2Q24 for a final order. As a reminder, DPL is EXC's second smallest distribution rate base next to ACE in NJ.*

AEE/IL – Briefs filed in IL gas case

- Multiple briefs from various stakeholders have been filed in AEE IL's ongoing gas case
- More HERE

Guggenheim takeaway: *The gas case is more advanced than the electric MYP and featured a positive mark from Staff earlier this year (9.89% ROE, 50% equity) relative to the electric side. The latest briefs appear to hew closely to existing intervenor sticking points, including affordability (the AG), and ROEs (multiple parties).*

FE – PUCO to vote on another six-month investigation deferral on Wednesday

- PUCO will meet next on August 23 at which time it will consider whether to approve another six-month deferral of its own HB6-related probes.
- DCR Audit: 20-1629-EL-RDR
- DMR Audit: 17-2474-EL-RDR
- Corporate Separation Audit: 17-0974-EL-UNC
- Review of Political & Charitable Spend: 20-1502-EL-UNC
- More HERE

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Guggenheim takeaway: *For your calendar, and we remind investors that the company's former executives, who have not been charged so far to date, would seem to be the most likely targets of ongoing federal investigations, in our view, rather than the new executive team who were not in their present roles (or even at FE at all in some cases) when the events around HB6 took place, or the company itself, which already entered into a Deferred Prosecution Agreement with the DOJ and paid a $230m fine.* ***For more, see our previous write-up on this topic HERE****.*

AEP ─ Julie Sloat elected Chair of AEP's Board effective October 2

- Julie Sloat, President and CEO, was elected by the Board of Directors as its new Chair, effective October 2, 2023.
- Nicholas K. Akins will be retiring and stepping down from his position as Executive Chair of AEP's Board on October 1, 2023.
- Also, Daniel G. "Dan" Stoddard, retired SVP, Chief Nuclear Officer and President of Contracted Assets for Dominion Energy, has been elected to the Board.
- More HERE

Guggenheim takeaway: *A natural extension of her current role given Mr. Akins' prior position as Chair as well during his tenure as CEO.*

ETR ─ Briefs opposing exceptions filed in SERI

- System Energy Resources, Inc. filed briefs opposing the filed exceptions of several parties on Friday.
- "*The Commission should deny the Exceptions raised by the Louisiana Public Service Commission ("LPSC"), Arkansas Public Service Commission ("APSC"), and City Council of New Orleans ("CNO") (collectively "Complainants") and reject the Complainants' misguided efforts to convince this Commission to adopt extreme positions that contradict decades of Commission precedent and, at times, contradict each other.*" – SERI filing
- Docket EL20-72-000

Guggenheim takeaway: *FYI on continuing process at FERC for the outstanding SERI issues.*

EXC ─ Multiple parties file motions to admit additional evidence

- Multiple stakeholders have filed to admit additional evidence following ALJ commentary at last Thursday's status hearing
- More HERE

Guggenheim takeaway: *The data points appear to be minor at this time but we continue to parse – flagged for your awareness.*

CA/Fires ─ Plant Fire burns over 5K acres in Santa Barbra

- The fire started Saturday and was approximately 5% contained as of Sunday morning
- More HERE

Guggenheim takeaway: *FYI.*

CAISO ─ SoCal hurricane heightens alert at ISO

- Hurricane Hilary's impacts are ranging from lower demand to lower solar output to downed transmission/distribution lines
- *"The California ISO is closely following Hurricane Hilary and any potential grid impacts. At this time, the grid remains stable and forecasted supply is expected to cover demand." - CAISO*
- More HERE

Guggenheim takeaway: *Flagged for your awareness as the remnants of the storm continue to drop rain on the region.*

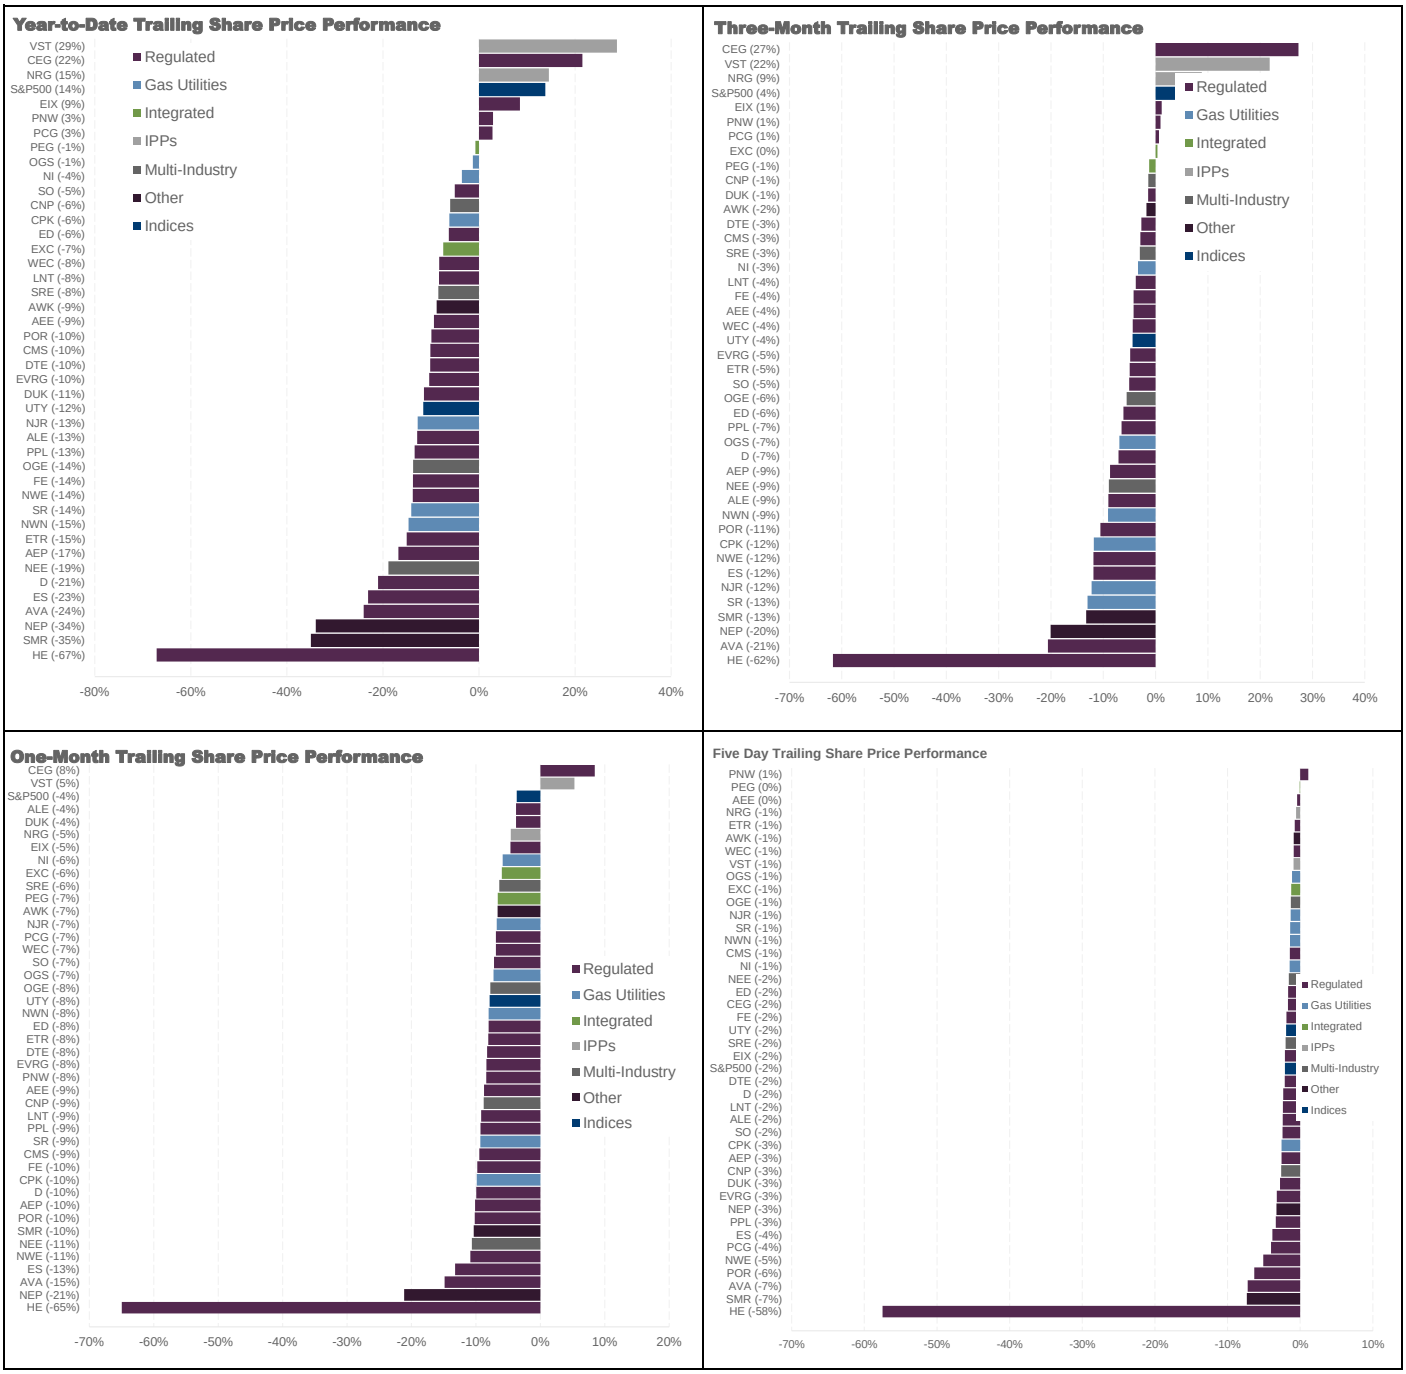
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: D, EXC, POR, AEP, AEE, AGR, XEL, ETR, SRE, WEC, ES, SO, FE, NEE

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, we are tracking proceedings in D's SC natural gas rate case, EXC's IL electric rate case, POR's OR electric rate case, D' s VA IRP, AEP's APCo VA triennial review, AEE's IL electric rate case, AGR's UIL electric rate case, and XEL's TX electric rate case. In other news, WV Staff files testimony in AEP's ENEC proceedings; intervenors file testimony in EXC's DE electric rate case; parties file briefs opposing exceptions to the ALJ's PD in the SERI UPSA complaint; parties file opening briefs in SDG&E and SoCalGas rate cases; settlement details in the MI Gas Utilities' natural gas rate case are filed; ES files a brief with the CT Superior Court requesting reconsideration in Aquarion rate case appeal; Vogtle Unit 4 starts fuel load; the IL governor issues amendatory veto for ROFR in energy bill; FERC approves FE to consolidate PA utilities; and NEER signs an agreement with Ingevity for 85 MW solar facility.

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Scroll down for a full schedule, including dinners with **DTE** and **AGR.**

ICYMI

NWE — As NWE is nearing the resolution of its 2023 GRC, we are refreshing our thesis on the name. Our thesis is premised on the long-term rate base growth opportunities, improving regulatory construct in MT, and attractive valuation despite relative LTM outperformance. Read more here.

Regulatory Calendar

D — Evidentiary hearings in D's SC natural gas rate case begin August 21: Staff recommended a $5M revenue increase, premised on a 9.37% ROE and 51.97% equity. This compares to DESC's request for a $19M revenue increase, premised on a 10.38% ROE, 54.78% equity, and a $1.1B rate base as of September 20, 2022. Staff and D's recommendation includes $14M for gas costs from eliminating the Net Interruptible Revenue Credit, while Staff and D calculated ($9M) and $5M for non-fuel revenue, respectively. D requested new rates to become effective in October 2023.

EXC — Evidentiary hearings in EXC's IL electric rate case begin on August 21: ComEd's rebuttal testimony included a $1,550M revenue request over 2024-2027 (Docket: 23-0055), compared to Staff's recommendation for a $1,039M revenue increase and EXC's initial request for a $1,501M revenue increase. ComEd requested a 10.65% ROE and argues that Staff's recommended 8.9% ROE using 580 bps over the 2022 U.S. Treasury Bond yield of 3.114% is no longer applicable since that option existed only under the IL Energy Infrastructure Modernization Act. As a reminder, the act expired at the end of 2022 and the provisions of the CEJA require that the ROE be determined under current commission law. Staff calculated ROE midpoints of 9.23% and 10.87% in its analysis using the traditional DCF and CAPM methods, respectively. A proposed order is due on October 23, and December 20 is the ICC's deadline to issue a decision.

POR — Intervenor rebuttal testimony in POR's OR electric rate case is due on August 22: Parties have reached a partial settlement (details pending). In direct testimony, Staff proposed a $206M revenue increase, premised on a 9.0% ROE/50% equity compared to POR's ask for a $338M revenue increase, premised on a 9.8% ROE/50% equity. POR and Staff include net variable power costs of $107M and $99M, respectively. The lower ROE (-$35M) and differences in the rate base calculation (-$22M) drive the difference. Staff proposed using an average test year, while POR requested a 2023 year-end test year. POR has historically used the monthly averages method. Evidentiary hearings are expected to begin on September 26. New rates will go into effect on January 1, 2024.

D — Staff testimony in D's VA IRP is due on August 22: Intervenor testimony in D's IRP centered around data center demand driving the load growth in D's service territories. The 2023 IRP covers the 15-year period starting in 2024-2038 using 2023 as the base year. The 25-year planning period extends to 2048. The plan takes into account PJM-projected annual peak and energy load growth of 5% and 7%, respectively, over the next decade, driven primarily by data centers and less so by electrification trends. Overall, D is

projecting the addition of ~20 GW of resources in the 15-year period and ~32 GW (net of retirements) in the 25-year period. D has taken into account the provisions of the IRA and the IIJA in its planning. We wrote on D's initial IRP filing here.

AEP — Evidentiary hearings in APCo's VA triennial review are set to begin on August 23: APCO filed rebuttal arguing against the ROE of 9.4% proposed by Staff and the OAG's 9.2% implying that these ROEs are not in line with current capital market conditions and barely above APCO's current authorized ROE of 9.2%. In contrast, APCO contends in its triennial earnings review for the 2020-2022 period that it earned a 5.39% ROE during the period, below the allowed band of 8.5-9.9%, and seeks a $213M rate increase, premised on a 10.6% ROE. According to Staff's calculations, APCO earned a 5.49% ROE during the 2020-2022 period and recommends a $155M revenue increase, premised on the proposed 9.4% ROE. OAG's recommendation is for a $69M revenue increase on its proposed 9.4% ROE. An SCC decision is due by November 30.

AEE — Evidentiary hearings in AEE's IL electric rate case resume on August 24: Staff filed rebuttal testimony recommending a $317M revenue increase over 2024-2027. The updated recommendation bridges the gap between revenue deficiency as calculated by AEE in its rebuttal and the Staff's original testimony, primarily on account of a higher rate base. AEE filed rebuttal testimony for a $450M rate increase and maintained its original stance on a 10.5% ROE and ~54% equity ratio. This compares to AEE's initial request for a $449M rate increase and Staff's recommendation for a $249M revenue increase over the four years. An ICC ruling is due in December, followed by new rates going into effect on January 1, 2024.

AGR — A CT PURA decision in AGR's UIL electric rate filing is due on August 25: In written exceptions, AGR noted the PD is insufficient to cover expenses and attract the needed capital for grid modernization. AGR offered PURA additional time to review the PD and is supportive of extending the statutory deadline from August 25 to September 15. CT PURA issued a PD approving a rate increase of less than $2M and premised on an 8.8% ROE with a further 52 bps cut to address performance and management issues, bringing the effective ROE to 8.28% and a 50% equity layer. PURA also rejected the AGR's application for a three-year rate plan citing errors in the Company's cost of service study as one of several reasons for the rejection. UIL had requested a $131M rate increase over three years with a 10.2% ROE, 52% equity. We wrote in more detail on the PD here.

XEL — Rebuttal testimony in XEL's TX electric rate case is due on August 25: The TX PUC Staff recommended a $102M revenue increase, premised on a 9.5% ROE and 54.6% equity. This compares to XEL's request for a $158M revenue increase, premised on a 10.65% ROE and 54.6% equity. The lower ROE is the primary driver of the delta. Other adjustments include removing fuel-related costs from base rates and an alternative calculation for property and other non-income taxes. Staff did not oppose XEL's request to accelerate the depreciation of the Tolk coal facility to retire the plant in 2028 (vs. 2034 previously). Other intervenors filed testimony, and according to XEL's calculations, the Office of Public Utility Counsel and the Texas Industrial Energy Consumers recommended revenue increases of $130M and $89M, respectively. The OPUC did not recommend an ROE or capital structure, while the TIEC recommended an ROE range of 9.05-9.95%. Hearings are scheduled to begin September 12. A PUCT decision is expected in 1Q24.

Recent Developments for Companies Under Our Coverage

From our midweek: Intervenors file testimony in XEL's TX electric rate case; DUK files its 2023 SC IRP; a MT judge issues a ruling that declares HB 971 unconstitutional; the MN ALJ issues a report supporting the settlement in MERC's natural gas rate case; AEP closes the sale of its unregulated renewables business; and APS signs an agreement for 300 MW of storage resources.

AEP — Staff files testimony in AEP's ENEC proceedings: The WV Staff recommended a total revenue increase of $154M, comprised of the under-recovery of $99M and $35M for the forecast period. This compares to AEP's request for ~$642M, including the accumulated under-recovered balance of ~$553M through February 2023 and $89M of projects for the forecast period from September 2023-August 2024. The biggest driver of the delta was Staff's recommendation to disallow $258M for recovery based on Critical Technologies Consulting's prudence review. Staff also recommended rejecting AEP's proposal to securitize the balance in favor of amortizing the costs over three years using the AEP's cost of debt, or 2.5%, for the carrying charge. CTC conducted its prudence review following the PSC's order in May 2022 after AEP failed to meet the annual capacity factor during the 2020-2021 period. The PSC also deferred any rate increase until the Staff completes the prudence review. AEP noted that the low capacity factors during the 2020-2021 and 2021-2022 ENEC periods were because of inadequate coal supplies. The ENEC is an annual rate adjustment mechanism allowing Wheeling and APCo to recover fuel, purchased power, and environmental compliance costs.

EXC — Intervenors file testimony in EXC's DE electric rate case: Staff recommended a $36M revenue increase, premised on a 9.38% ROE and 50.5% equity. This compares to EXC's supplemental testimony with updated data through 1H23 requesting a $56M (net $42M) revenue increase, premised on a 10.5% ROE and 55.5% equity. The primary drivers of the delta are the lower O&M, Staff's use of an average-rate base method (vs. EXC year-end RB), and lower O&M costs. The Division of the Public Advocate recommended a revenue increase of $29M ($16M net), using a 9.1% ROE and 46.4% equity. We note that EXC and the DPA's net revenue increase excludes $14M for the DSIC rider. EXC plans to file supplemental testimony to incorporate 12 months of actual data on September 29. A final order is expected in April 2024. EXC has interim rates of $56M that went into effect in mid-July.

ETR — Parties file briefs opposing exceptions to ALJ's PD in SERI UPSA complaint: Parties filed briefs opposing exceptions in the Unit Power Sales Agreement complaint (Docket: EL20-72). The ALJ, in its initial decision, determined that SERI should have

excluded multiple identified categories of accumulated deferred income taxes from the rate base when calculating UPSA bills and that SERI's formula rate should include a negative $36.4M cash working capital allowance in the future. The ALJ decision also found that SERI treated sale-leaseback transaction costs correctly. Based on ETR's calculations, if adopted by FERC, ETR would need to refund $115M plus $135M of interest. The LA PSC, AR PSC, MS PSC, and NOCC filed the UPSA complaint in September 2020; evidentiary hearings were held in 3Q22/4Q22; and ETR reached a settlement with the AR PSC, LA PSC, and NOCC to resolve seven of the 26 issues in the docket, resulting in a black-box refund of $18M. FERC has no statutory timeline to issue its decision, and a final order may take 12 months or longer.

- **SERI:** SERI believes the commission should reject all the exceptions raised by the CCNO, AR PSC, and LA PSC. SERI also believes that the commission should accept its and the Trial Staff's exceptions. As a reminder, SERI raised 15 exceptions and five related policy considerations that should be reversed. The exceptions and policy considerations primarily relate to placing the burden of proof for formula-rate inputs on utilities, the length of time the complaint goes back to, the treatment of ADIT in rate base, changes for accounting for income taxes, and the proposed negative cash working capital allowance for utilities. SERI noted that a utility has never received a negative cash working capital allowance, and if the decision was adopted, the amount of interest SERI would be required to pay would exceed the actual refunds and set an unfavorable precedent for future utility investment given the lack of any statute of limitations.
- **Trial Staff:** The Trial Staff opposed several exceptions raised by all parties. Specifically, the Trial Staff agreed with the initial decision and disagreed with SERI's argument regarding the treatment of ADIT. The Trial Staff also opposed exceptions by the CCNO, LA PSC, and AR PSC regarding the treatment of the money pool, upfront payment of the lessors' transaction costs, and the recovery of legal expenses. The Trial Staff urges the commission to affirm the Initial Decision with minimal changes. As a reminder, the Staff largely agreed with the PD except on five issues, where it believes the ALJ was incorrect in its findings regarding SERI's rate base additions for timing differences associated with incentive compensation and medical claim expenses, as well as the use of federal tax deductions for state income taxes accrued and NOL carryforwards. The Trial Staff also disagrees with the decision related to paying AMT liability in the UPSA rate base and setting a negative cash WC allowance.

SRE — Parties file opening briefs in SDG&E and SoCalGas rate cases: Hearings were held throughout the month of June, and parties followed it up with updated testimony and its opening briefs. SRE largely maintained its request from updated testimony. This includes SoCalGas's ask for a $767M revenue increase in 2024, followed by $292M, $261M, and $381M over the years 2025, 2026, and 2027, respectively. SDG&E maintained its $475M request for 2024, with subsequent revenue increases of $346M, $332M, and $303M. Cal Advocates recommended revenue increases for SoCalGas of $360M, $188M, $215M, and $225M for 2024-2027, and $271M, $222M, $239M, and $247M for SDG&E for the same time period. Proposed decisions on Track 1 are due in 2Q24. Costs of Capital are determined outside the rate case proceedings in CA and are thus not part of this docket.

WEC — Parties file settlement details in the MI Gas Utilities' natural gas rate case: WEC filed the settlement for a $10M revenue increase, premised on a 9.8% ROE and 51% equity. The settlement compares to WEC's request for an $18M revenue increase, premised on a 10.4% ROE and 40.48% equity. The settlement also agrees to continue the demand response pilot program and pause the main replacement program rider for 2024. The MRP rider will resume in 2025. The parties previously filed to cancel all scheduled dates after notifying the PSC that an agreement was reached in June. A MI PSC decision is expected by January 3, with new rates going into effect at the beginning of 2024.

ES — ES files brief with the CT Superior Court requesting reconsideration in Aquarion rate case appeal: ES raised 12 counts directly contributing to unjust and unreasonable rates. The counts relate to the disallowance of plant additions, operating expenses, cap structure, ROE, depreciation, and taxes. ES requests the case be remanded back to PURA with instructions from the court for a legally proper reconsideration of the overall impact on the Company. ES filed the appeal with the Superior Court after PURA authorized a $2M revenue decrease, premised on an 8.7% ROE and 50.35% equity. The order compared to ES's three-year rate request for a ~$27.5M rate increase in RY1, ~$13.6M in RY2, and ~$8.8M in RY3. ES's request was based on a 10.35% ROE, 53.06% equity, $1.05B RB, and a 2021 test year. ES obtained a stay from the Superior Court on the PURA decision and must place any collected revenue above the amount authorized in the PURA order in an escrow account until a final ruling is received from the court. Parties will have the option to follow reply briefs followed by hearings scheduled for December 14.

SO — Vogtle Unit 4 starts fuel load: GP has commenced fuel load into Vogtle Unit 4. During fuel load, technicians will move the fuel assemblies to the reactor core and begin startup testing. The testing will demonstrate the integrated operation of the primary coolant and steam supply systems at design temperature and pressure with fuel inside the reactor. Completing the fuel load and testing is the last major milestone before the commercial operation, which is expected in 4Q23 or 1Q24. According to the most recent update, GP's costs for its 45.7% share in Vogtle Units 3 and 4 are estimated at $10.6B. SO agreed that it would not seek approval of any costs exceeding the $7.3B cost recovery previously deemed reasonable by the commission until the prudence review is complete.

AEE — IL governor issues amendatory veto for ROFR in energy bill: Illinois Governor Pritzker issued an amendatory veto on HB 3445. Specifically, the governor vetoed the ROFR-related amendment. The bill passed the IL General Assembly in June but will now be returned to the House to remove the ROFR amendment before the governor approves the omnibus energy bill. The bill favored

Sophie Karp
(917) 368-2361 / sophie.karp@key.com

AEE as it would have provided the Company with a ROFR to build the MISO LRTP projects in IL approved by YE24. Other proposals in HB 3445 include changes to the Adjustable Block Grant program to make it more available to public schools, requiring IPA to conduct a study evaluating several policy proposals, amending existing law regarding siting for renewable energy projects, and requiring the ICC to conduct a thermal energy network workshop.

FE — FERC approves FE's request to consolidate PA utilities: FERC issued an order approving FE's request to consolidate its PA subsidiaries into a single operating entity, FE PA. The subs in PA include Metropolitan Edison Co., Pennsylvania Electric Co., West Penn Power Co., and Pennsylvania Power Co. The consolidation requires Metropolitan Edison and Penn Electric's interest in MAIT to be sold to FE and certain West Penn transmission assets to be sold to FE subsidiary KATCo. FE expects the PA Consolidation to close by early 2024.

NEE — NEER signs agreement with Ingevity for 85 MW solar facility: NEE's NEER signed a renewable product purchase agreement with chemical manufacturing company Ingevity Corp. for an 85 MW solar facility in North Texas. NEE will own and operate the facility, while Ingevity will receive the associated RECs to help offset its scope 2 emissions. The project is expected to enter commercial operation by the end of 2025. At the end of 2022, NEER had ~27 GW of electric generation.

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: SRE, SO, AEP, DTE, AEE, EXC, ES, ETR, FE, AGR, CMS, CNP, DUK

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, we are tracking proceedings in SRE's CA GRCs, SO's IL natural gas rate case, AEP's VA ENEC, DTE's MI electric rate case, AEE's gas rate case in IL, EXC's DC electric rate case, legal briefs in ES's Aquarion CT case, EXC's DE electric rate case, and ETR's SERI proceedings. In other news, parties filed exceptions to the PURA PD in the UIL rate filing; CPUC issued a decision adopting the settlement for the Aliso Canyon gas leak; ES started work on a geothermal pilot in MA; CMS is contemplating selling 13 small hydro facilities; IN regulators are scheduling a conference with AEP, CNP, and DUK to discuss the response to the summer storms; FE filed supplemental testimony in the JCP&L case; APCO issues rebuttal testimony in the pending triennial; and the DOE issues a NOPR to streamline and set deadlines for federal permitting of transmission projects.

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Scroll down for a full schedule, including dinners with **DTE** and **AGR**.

Regulatory Calendar

SRE — Opening briefs in SDG&E and SoCalGas rate cases are due on August 14: In the multiyear filings, SoCalGas is requesting $295M, $261M, and $379M over the years 2025, 2026, and 2027, respectively. **SDG&E** has requested a combined $3B revenue increase effective January 1, 2024 ($674M gas and $2.35B electric). Proposed decisions on Track 1 are due in 2Q24. Costs of Capital are determined outside the rate case proceedings in CA and are thus not part of this docket. See here for more details on what is in each of the filings.

SO — Post hearing briefs on SO's Northern IL gas rate case are due on August 14: IL ICC Staff's revised testimony recommends a $254M revenue deficiency, premised on 9.89% ROE/50% equity, and a 2024 YE test year (vs. $256M previously). Staff's rebuttal excludes the $32M of QIP investments from the rate base after the ICC order disallowing the amounts from the 2019 QIP plant additions reconciliation (Docket: 20-0330). Nicor Gas's rebuttal included a $320M revenue increase, premised on a 10.35% ROE and 54.5% equity. The lower ROE and equity layer and Staff's recommendation to remove certain incentive compensation drive the difference. An ICC decision is due by November 28.

AEP — Intervenor testimony in AEP's ENEC proceedings is due on August 15: AEP filed the 2023 ENEC, requesting recovery of ~$642M, including the accumulated under-recovered balance of ~$553M through February 2023, and $89M of projects for the forecast period from September 2023-August 2024. AEP proposed two alternate mechanisms to recover the costs and reduce customer bill impacts (securitization or recovery over two years, beginning with a $174M increase). The PSC ordered the prudence review in May 2022 after AEP failed to meet the annual capacity factor during the 2020-2021 period. The PSC also deferred any rate increase until the Staff completes the prudence review. AEP noted that the low capacity factors during 2020-2021 and 2021-2022 ENEC periods were because of inadequate coal supplies. The ENEC is an annual rate adjustment mechanism allowing Wheeling and APCo to recover fuel, purchased power, and environmental compliance costs.

DTE — Post hearing briefs in DTE's MI electric rate case are due on August 15: Thus far, Staff has recommended a $383M revenue increase, premised on a 9.8% ROE and 50% equity. This compares to DTE's request for a net $619M revenue increase, premised on a 10.25% ROE and 50% equity. The main drivers of the difference are the lower ROE and Staff's disallowance of O&M costs, including IT and incentive compensation. A PD is expected by October 5 with new rates going into effect on December 10.

AEE — Post hearing briefs in AEE's IL gas rate case are due on August 17: AEE provided an updated request for a $72M rate increase, compared to its initial request for a net $84M revenue increase, and maintained the 54% equity layer (vs. Staff's 50%) but lowered the requested ROE to 10.3%, from 10.7%, closer to the Staff's proposal of 9.89%. AEE also agreed to adjust the 2024 charitable contributions and adopted the AG's HDD adjustment, resulting in an increase to present revenues. Staff recommended a $52M revenue increase. AEE's rate request includes the recovery of $77M of annual revenues that are recovered under the QIP

rider, which Staff proposes to be reviewed in the annual QIP reconciliation. AEE expects an ICC ruling within the 11-month statutory timeframe or by November 29, with rates going into effect on January 1, 2024.

EXC — Supplemental testimony in PEPCo's DC electric rate case is due on August 17: EXC's PEPCO filed a three-year electric rate case with the DC PSC seeking a cumulative $191M revenue increase ($116M in RY1, $37M in RY2, and $37M in RY3). New rates would go into effect on February 15, 2024, with the step-ups effective January 1 of 2025 and 2026, respectively. The rate increase request is premised on a 10.5% ROE and 50.5% equity layer.

ES — Legal briefs in Aquarion rate case appeal are due on August 17: ES filed an appeal with the Superior Court after PURA authorized a $2M revenue decrease, premised on an 8.7% ROE and 50.35% equity. The order compared to ES's three-year rate request for a ~$27.5M rate increase in RY1, ~$13.6M in RY2, and ~$8.8M in RY3. ES's request was based on a 10.35% ROE, 53.06% equity, $1.05B RB, and a 2021 test year. ES obtained a stay from the Superior Court on the PURA decision and must place any collected revenue above the amount authorized in the PURA order in an escrow account until a final order is received from the Court. Hearings are scheduled for December 14.

EXC — Staff and intervenor testimony in EXC's DE electric rate case is due on August 18: EXC filed supplemental testimony with updated data through 1H23 and revised the revenue requirement to $42M (from $60M), premised on a 10.5% ROE and 55.5% equity. The primary driver for EXC to seek the rate increase is the recovery of $290M of investment in the distribution system. EXC is proposing adjustments, including leveraging a pro forma capital structure, utilizing an O&M inflation adjustment, and applying year-end treatment to the rate base. A final order is expected in April 2024. EXC has interim rates of $56M in place that went into effect in mid-July.

ETR — Briefs opposing exceptions in the SERI UPSA complaint are due on August 18: In briefs on exceptions, SERI raised 15 exceptions and five related policy considerations that should be reversed, while the Trial Staff largely agreed with the PD except on five issues. The Staff believes the ALJ was incorrect in its findings regarding SERI's rate base additions for timing differences associated with incentive compensation and medical claim expenses, and the use of federal tax deductions for state taxes accrued and NOL carryforwards. The ALJ, in its decision, determined that SERI should have excluded multiple identified categories of ADIT from the rate base when calculating UPSA bills and that SERI's formula rate should include a negative $36M cash working capital allowance going forward. The ALJ decision also found that SERI treated sale-leaseback transaction costs correctly. Based on ETR's calculations, if adopted by FERC, ETR would need to issue a refund of $115M plus $135M of interest. The LA PSC, AR PSC, MS PSC, and NOCC filed the UPSA complaint in September 2020; evidentiary hearings were held in 2H22; and ETR reached a settlement with the AR PSC, LA PSC, and NOCC to resolve seven of the 26 issues in the docket, resulting in a black-box refund of $18M. FERC does not have a statutory timeline to issue its decision, and a final order may take 12 months or longer.

Recent Developments for Companies Under Our Coverage

From our midweek: XEL requests a PUC rehearing on its order in the MN MYRP; MA lawmakers pare back the spending bill to exclude a provision supporting cost renegotiation for the NECEC project; CEG and NRG file a response with NRC opposing the ROFR complaint filed by partial owners of the STP; CA seeks to create a hydrogen ecosystem; SoCalGas files for approval of an RNG pilot with the CPUC; parties file comments in response to EPA-issued proposal for limiting GHG emissions at power plants; FERC denies ETR's request for a waiver for certain MISO seasonal capacity requirements, and the EIA releases its August STEO.

AGR — Parties file written exceptions to the PD in AGR's UIL electric rate filing:

- In written exceptions, AGR notes the PD is insufficient to cover expenses and attract the needed capital for grid modernization, which would raise borrowing rates, resulting in higher customer rates down the road. The Company contends that the PD as written would yield a rate of return of 5.48% which it characterizes as confiscatory and would violate state and federal constitutional protections. AGR recommends several exceptions to make the PD minimally viable, including authorizing a 9.3% ROE and eliminating the unwarranted penalties. AGR initially requested a 10.2% ROE. Other recommendations include allowing AGR to recover prudently incurred costs and eliminating the disallowance of $37M regulatory assets. AGR is offering PURA additional time to review the PD and is supportive of extending the statutory deadline from August 25 to September 15.
- The OCC provided a letter supporting the PD. The OCC does not take any exceptions but made several recommendations (ESM, rate base) to enhance the PD further. The OAG and PURA's EOE also wrote letters in support of the PD.
- **What was in the original PD?** CT PURA issued a PD in July approving a rate increase of less than $2M on an 8.8% ROE with a further 52 bps cut to address performance and management issues, bringing the effective ROE to 8.28% and a 50% equity layer. PURA also rejected AGR's application for a three-year rate plan citing errors in the Company's cost of service study as one of several reasons for the rejection. UIL had requested a $131M rate increase over three years with a 10.2% ROE, 52% equity. We wrote in more detail on the PD here.

SRE — CPUC issues a decision adopting the settlement for the Aliso Canyon gas leak: The CPUC issued a decision adopting a settlement between SoCalGas and state agencies for the 2015 Aliso Canyon natural gas storage facility leak. The settlement includes a $71M penalty to be paid into the Aliso Canyon recovery account, disallowing the utility from collecting the $1.8B in civil litigation

Sophie Karp (917) 368-2361 / sophie.karp@key.com

settlement costs and over $1B in other costs. The CPUC, in a separate proceeding, is assessing the possibility of eliminating the uses of Aliso Canyon while maintaining energy supply reliability in the LA region.

ES — ES begins work on a geothermal loop pilot project in MA: The Company started drilling on ~90 boreholes as part of its networked geothermal pilot program in MA, which, when complete, will create a geothermal loop to connect about 140 customers. Geothermal technology works by transferring heat to and from underground wells into homes and businesses using heat pumps.The pilot is expected to be complete in time for the 2023 heating season, and as part of the cost recovery terms, ES will operate the pilot for two years to assess the viability of the technology and the cost-effectiveness if it were to be extended to a utility scale project.

CMS — CMS exploring a plan to sell its 13 hydroelectric facilities: CMS plans to issue an RFP to explore the possibility of selling its 13 hydro facilities. CMS contributes the relatively higher cost of the hydropower (~9x higher than other generation sources) as the main reason for exploring the RFP. The facilities contribute less than 1% of total energy provided by CMS. The federal operating licenses for the facilities expire between 2034-2041. CMS will conduct public meetings throughout the remainder of the year to inform its decisions.

AEP, CNP, DUK — IURC schedules a conference with IN utilities to discuss their response to the damage and outages caused by the recent storms: IURC has scheduled a September 22 conference with state utilities to gather information on the utility response to the storms and the challenges faced by the utilities in restoring power. The conference is scheduled in response to consumer advocates' request for an investigation into the storms that hit the state in late June/early July and led ~100K customers to lose power.

FE — FE files supplemental testimony in JCP&L's electric rate case: FE subsidiary Jersey Central Power and Light Co. filed supplemental testimony (Docket: ER23030144) with the NJ BPU largely maintaining its revenue recommendation at ~$192M and above the $185M revenue increase requested in March. The supplemental testimony reflects actuals through the June 30, 2023, test year and incorporates certain revenue classification changes. Intervenor testimony is due September 29, and a NJ BPU final decision expected in 1Q24. In the last rate case, JCP&L was authorized a $94M revenue increase, 9.6% ROE, and 51.44% equity.

AEP — APCo files rebuttal testimony in the VA triennial proceedings: APCO filed rebuttal arguing against the ROE of 9.4% proposed by staff and the OAG's 9.2% implying that these ROEs are not in line with current capital market conditions and barely above APCO's current authorized ROE of 9.2%. In contrast, APCO contends in its triennial earnings review for the 2020-2022 period that it earned a 5.39% ROE during the period, below the allowed band of 8.5-9.9%, and seeks a $213M rate increase, premised on a 10.6% ROE. According to Staff's calculations, APCO earned a 5.49% ROE during the 2020-2022 period and recommends a $155M revenue increase, premised on the proposed 9.4% ROE. OAG's recommendation is for a $69M revenue increase on its proposed 9.4% ROE. An SCC decision is due by November 30.

DOE issues a NOPR to streamline and set deadlines for federal permitting of transmission projects: The proposal would make DOE the lead agency for NEPA (National Environmental Policy Act) reviews, create a Coordinated Interagency Transmission Authorizations and Permits Program (CITAP) for transmission projects rated 230 kV and above (implying that it would create a single window for agency reviews), and set deadlines for federal authorizations and permits on a two-year timeline.

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC ("KBCMI"), and KeyBank National Association ("KeyBank N.A."), are marketed.

KeyBanc Capital Markets Inc. ("KBCMI") does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst's compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. This communication is intended solely for use by KBCMI clients. The recipient agrees not to forward or copy the information to any other person without the express written consent of KBCMI.

KBCM Research LLC ("KeyBanc Capital Markets Research"), an SEC registered investment advisor, is a wholly owned subsidiary of KeyBanc Capital Markets Inc. KeyBanc Capital Markets Research provides objective and sophisticated **Research Services**, primarily in the form of published Research Reports, to an institutional client base in exchange for a cash fee. KBCM Research does not provide particularized investment advice with regard to any specific institutional client, on the basis of specific sector or company requests from a client. Our advisory relationship with our clients is strictly limited to the provision of **Research Services**, which are not to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. Additional information about KBCM Research LLC also is available on the SEC's Investment Adviser Public Disclosure (IAPD) website.

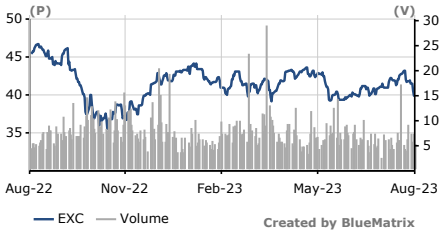
Fiscal Year-End: Dec 31

	2023E	2024E Prior	2024E Curr	2025E Prior	2025E Curr
Earnings per Share ($)					
1Q	–	–	–	–	–
2Q	–	–	–	–	–
3Q	–	–	–	–	–
4Q	–	–	–	–	–
Yr	**2.35E**	**–**	**2.51E**	**–**	**2.70E**
P/E	17.0x	–	15.9x	–	14.8x



Summary

EXC continues to execute on its plan as a fully regulated utility and while 2Q earnings were in line, we focused on the ROEs of the company's four utilities. While the group has seen macro headwinds chip away at earned ROEs for a significant portion of the utility sector, EXC management continues to deliver on its 2023 ROE target of 9-10%. We maintain our Buy rating on EXC and look for the P/E multiple to continue to re-rate as management progresses on the six pending rate cases. We maintain our PT at $45 and view the current 3% P/E discount for a fully regulated story with 6-8% EPS CAGR as an attractive entry point.

Key Points

EXC reported in-line 2Q earnings, but we believe the focus should be on earned ROEs. EXC reported 2Q earnings of $0.41 which included $0.03 of unfavorable weather. Mizuho believes the focus should be on the earned ROEs of the company's four utilities which are forecasted to be in the 9-10% ROE range. While many utilities in the sector have been unable to navigate the macro challenges of high interest rates and inflation the EXC team has been able to execute on its plan, and we believe the momentum should continue to carry into 2H23.

Reaffirmed 2023 but quarterly 'breakout' slightly different. EXC expects the relative EPS contribution to 3Q to be negative on a y-o-y comparison. Management now expects 3Q23 to contribute 28% of annual proceeds as the quarter will not include several timing benefits that occurred in 3Q22. For 4Q23 EXC is forecasting additional Y-o-Y growth as O&M and tax timing provide a tailwind.

Regulatory update: **MD**: In May PEPCO filed for a three-year $213.6M rate increase with the Maryland PSC. The filing is based off of a 10.5% ROE, 50.5% equity ratio and $3,047M of rate base. **IL**: In January ComEd submitted its electric plan as the formula rate plan will expire later this year. The rate increase is based on a 10.65% ROE and 51.2% equity ratio. A final decision is expected in December. **MD**: In February BG&E filed for a $313.9M electric rate increase on a $5,600M rate base and a $290.1M gas increase on a $3,944M rate base. Both filings are based off of a 10.4% ROE and 52% equity ratio. **NJ**: ACE has revised their rate increase to $93.6M (prev. $104.8M) based off a 10.5% ROE, 50.2% equity, and $2,235M rate base. A final order from NJ regulators is expected in 1Q24. **DC**: PEPCO filed for a $190.7M rate increase based off a 10.5% ROE, 50.5% equity ratio, and $3,416M rate base. Staff recommendations are expected to be filed on October 12.

PLEASE REFER TO PAGE 6 OF THIS REPORT FOR IMPORTANT DISCLOSURE AND ANALYST CERTIFICATION INFORMATION. Mizuho Securities USA LLC does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the Firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

Exelon Valuation

Base Case

Our price $45.00 target is derived as follows:

We value the regulated electric distribution and transmission 2025 earnings of $2.58 using a P/E multiple of 17.6 times, a 16% premium to our electric group average multiple, resulting in a price target of $46.00.

We value the regulated gas distribution 2025 earnings of $0.52 using a P/E multiple of 18.1 times, a 10% premium to our gas group average multiple, resulting in a price target of $9.00.

Adjusting for unallocated debt reduces the PT by $10.00.

Consistent with our methodology our price targets are dynamic changing with the group average P/E multiples and EV/EBITDA multiples recalculated on a daily basis.

Company Models

In the pages that follow, we highlight our detailed consolidated financial model, including both historical and projections for income statement, cash flow and balance sheet for Exelon Corporation from 2020A to 2025E. To derive the consolidated results, we modeled full financials for each operating subsidiary. Clients who would like the full models may obtain them through their MSUSA representative or by direct request to the authors.

Price Target Calculation and Key Risks

Price Target Calculations: Using a sum of the parts analysis on 2025 results we derive a price target of $45.00 per share. Our price target is derived as follows: (1) Regulated electric distribution and transmission: we derive a PT of $46.00, applying a 16% premium to the electric utility group average P/E multiple; (2) Regulated Gas Distribution: we derive a PT of $9.00, applying a 10% premium to the gas utility group average multiple; (3) Adjusting for unallocated debt reduces the PT by $10.00.

Consistent with our methodology our price targets are dynamic changing with the group average P/E multiples and EV/EBITDA multiples recalculated on a daily basis.

Key Risks: Equity overhang, weak commodity outlook, general economic conditions, changes in state and/or Federal regulation, weather, ongoing business operational risk, broader macroeconomic conditions, and interest rate movements are among the key risks to our rating and expected stock performance.

IMPORTANT DISCLOSURES

The disclosures for the subject companies of this report as well as the disclosures for Mizuho Securities USA LLC entire coverage universe can be found at https://msusa.bluematrix.com/sellside/Disclosures.action or obtained by contacting EQSupervisoryAnalystUS@mizuhogroup.com or via postal mail at Equity Research Editorial Department, Mizuho Securities USA LLC, 1271 Avenue of the Americas, 2nd FL, New York NY, 10020.

Investment Risks and Valuation Methods can be located in the following section of this research report - Price Target Calculation and Key Risks.

Receipt of Compensation

Mizuho Securities USA LLC and or its affiliates has received compensation for investment banking services for Exelon Corporation in the past 12 months.

Mizuho Securities USA LLC and or its affiliates has managed or co-managed a public offering of securities for Exelon Corporation in the past 12 months.

Mizuho Securities USA LLC and or its affiliates have provided investment banking services for Exelon Corporation who is or was a client in the past 12 months.

The compensation of the research analyst writing this report, in whole or part, is based on MSUSA's annual revenue and earnings and is not directly related to any specific investment banking compensation. MSUSA's internal policies and procedures prohibit research analysts from receiving compensation from companies covered in the research reports.

Regulation Analyst Certification (AC)

I, Anthony Crowdell, hereby certify that the views expressed in this research report accurately reflect my personal views about any and all the subject companies. No part of my compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this research report.

Rating Definitions

Mizuho Securities USA investment ratings are based on the following definitions: Anticipated share price change is based on a 12-month time frame. Return expectation is based on the stock’s total return. For disclosure purposes (for purposes of the FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Buy, Neutral, and Underperform.

Buy: Stock's total return is expected to appreciate above the average total return of the analyst's industry coverage universe, on a risk-adjusted basis, over the next 12 months.

Neutral: Stock's total return is expected to be within the average total return of the analyst's industry coverage universe, on a risk-adjusted basis, over the next 12 months.

Underperform: Stock's total return is expected to depreciate below the average total return of the analyst's industry coverage universe, on a riskadjusted basis, over the next 12 months.

RS: Rating Suspended - rating and price objective temporarily suspended.

NR: No Rating - not covered, and therefore not assigned a rating.

Rating Distribution

(As of August 4)	% of coverage	IB service past 12 mo
Buy (Buy)	59.50%	57.31%
Hold (Neutral)	37.99%	53.01%
Sell (Underperform)	2.52%	18.18%

For disclosure purposes only (NYSE and FINRA ratings distribution requirements), our Buy, Neutral and Underperform ratings are displayed as Buy, Hold and Sell, respectively.

Goldman Sachs India SPL

We update estimates for Exelon Corp (EXC, Sell) following second quarter results that were broadly in line with expectations, and we expect the company to execute within its reiterated earnings guidance range for 2023. While we thought commentary on transmission was constructive, we do not see an above average allocation of spend towards transmission at EXC relative to our coverage on our current estimates. Looking forward, we remain focused on rate case execution given the number of ongoing proceedings, including at EXC's largest utility, ComEd, that should be concluded by the end of the year. We continue to see less upside to consensus estimates, where we are -3% below FactSet consensus on average in 2023-2027, and valuation, where we see 0% total return to our price target versus 17% on average to our coverage. We provide key takeaways from results around regulatory updates, transmission, and the balance sheet inside.

Key takeaways from earnings

Regulatory updates. EXC currently has six active rate case proceedings including at ComEd, BGE, DPL Delaware, ACE, Pepco MD, and Pepco DC. We remain focused on ComEd and BGE, with expectations to receive final orders by end the of the year. Both cases recently file rebuttal testimony, and we look to evidentiary hearings in August for ComEd and August/September for BGE for as next milestones. On the call, management noted ICC staff and intervenors have remained committed to initial positions provided in direct testimony related to ROE and pension asset, with challenges to capital spend focused on certain IT projects at ComEd. At BGE, the case is proceeding in line with the company's expectations, with staff's proposal at 70% of BGE's ask. EXC expects both cases to move through a fully litigated case.

Source: Company data, Goldman Sachs Research estimates.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Transmission. The company noted that it was recently awarded $870 mn in transmission upgrades from PJM in order to address reliability challenges. The projects are expected to be completed in the 2028 timeframe, implying that the spend is outside of the scope of the current capital plan, but is additive to EXC's current plan. The company is also participating in the PJM open window to help transmission reinforcements in the Dominion territory. As we've written previously, we have a positive view on allocation of capital towards transmission, and at current EXC has allocated about 21% of its capex towards transmission, which is broadly in line with the average across our coverage.

Balance sheet. EXC continues to expect a 100-200 bps cushion on average relative to its downgrade thresholds of 12%, and versus current levels of 13%. A key item to monitor in determining where EXC will fall within the 100-200 bps range is the corporate alternative minimum tax, where the company has noted if the CMT is not mitigated through a repairs deduction, EXC expects to be at the low end of that range. Management expects to have some clarity from the Treasury by the end of the year on implementation of the tax. With that said, Treasury has granted deferral of estimated tax payments associated with the CMT until 2024. Regardless of the outcome there, management expects to stick to its plan to issue $425 mn of equity by 2025.

Model Updates and Our Latest Views

We maintain our more negative relative view on EXC following in line results. We remain focused on the number of outstanding rate cases across the business, and in particular outcomes at ComEd and BGE that are expected by the end of this year. In addition to regulatory outcomes, we see less thematic exposure that drive less upside opportunity around investment/earnings growth going forward, and see less attractive valuation at current levels with the stock trading at a ~0.5x premium on our 2025 numbers versus a discount of about 1x since the Ex-Gen spin. On the margin, we view the potential upside around transmission projects in PJM positively, though note this is outside of the scope of the company's current plan and current spend allocated towards transmission is broadly in line with the average across our coverage.

We update our model for the latest results, adjusting our model for 1) O&M expense, 2) interest expense, and 3) debt levels; as well as altering the cadence of our 2023 numbers to better reflect managements guidance. This drives our EPS estimates in 2023-2025 from $2.36/$2.47/$2.59 to $2.37/$2.46/$2.61. We remain below consensus in all years beyond 2023.

Valuation & Key Risks

We are Sell rated on EXC with a 12-month PT of $39 based on a 15x P/E multiple on 2025 earnings. Key risks for EXC include: 1) favorable rate case outcomes, 2) cost control and ability to smooth earnings, 3) a robust balance sheet that appeals to investors seeking safety in the event of a recession, and 4) incremental capex opportunities.

Disclosure Appendix

Reg AC

We, Carly Davenport, John Miller and Jaskaran Jaiya, hereby certify that all of the views expressed in this report accurately reflect our personal views about the subject company or companies and its or their securities. We also certify that no part of our compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Unless otherwise stated, the individuals listed on the cover page of this report are analysts in Goldman Sachs' Global Investment Research division.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our coverage universe) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

The rating(s) for Exelon Corp. is/are relative to the other companies in its/their coverage universe: American Electric Power, Consolidated Edison Inc., Dominion Energy Inc., Duke Energy Corp., Exelon Corp., NextEra Energy Inc., Public Service Enterprise Group, Sempra Energy, Southern Co., Xcel Energy Inc.

Company-specific regulatory disclosures

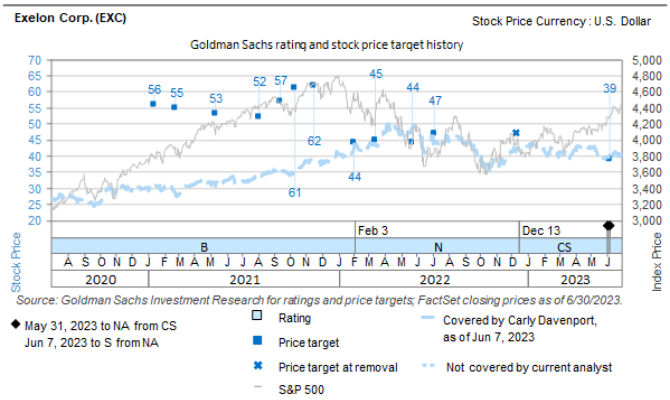
Price target and rating history chart(s)



The price targets shown should be considered in the context of all prior published Goldman Sachs research, which may or may not have included price targets, as well as developments relating to the company, its industry and financial markets.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with subject company, public appearances and trading securities held by the analysts.

Distribution of ratings: See the distribution of ratings disclosure above. **Price chart:** See the price chart, with changes of ratings and price targets in prior periods, above, or, if electronic format or if with respect to multiple companies which are the subject of this report, on the Goldman Sachs website at https://www.gs.com/research/hedge.html.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at https://www.gs.com/worldwide/brazil/area/gir/index.html. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 951-A, Rational House, Appasaheb Marathe Marg, Prabhadevi, Mumbai 400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, The Investment Trusts Association, Japan, and Japan Investment Advisers Association. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction lists, which are selected from Buy rated stocks on the respective region's Investment lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) have been suspended pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company. **Not Available or Not Applicable (NA).** The information is not available for display or is not applicable. **Not Meaningful (NM).** The information is not meaningful and is therefore excluded.

Global product; distributing entities

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.fiadocumentation.org/fia/regulatory-disclosures_1/fia-uniform-futures-and-options-on-futures-risk-disclosures-booklet-pdf-version-2018. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.

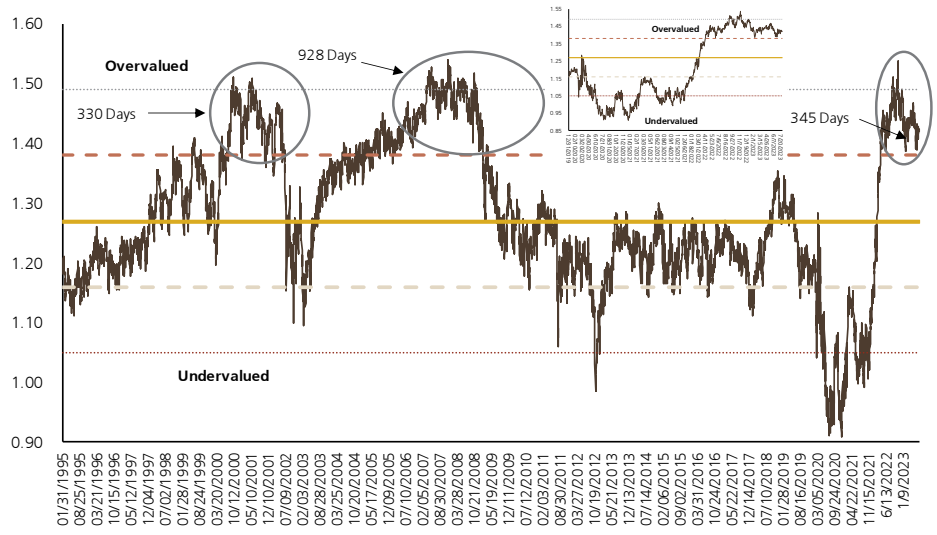
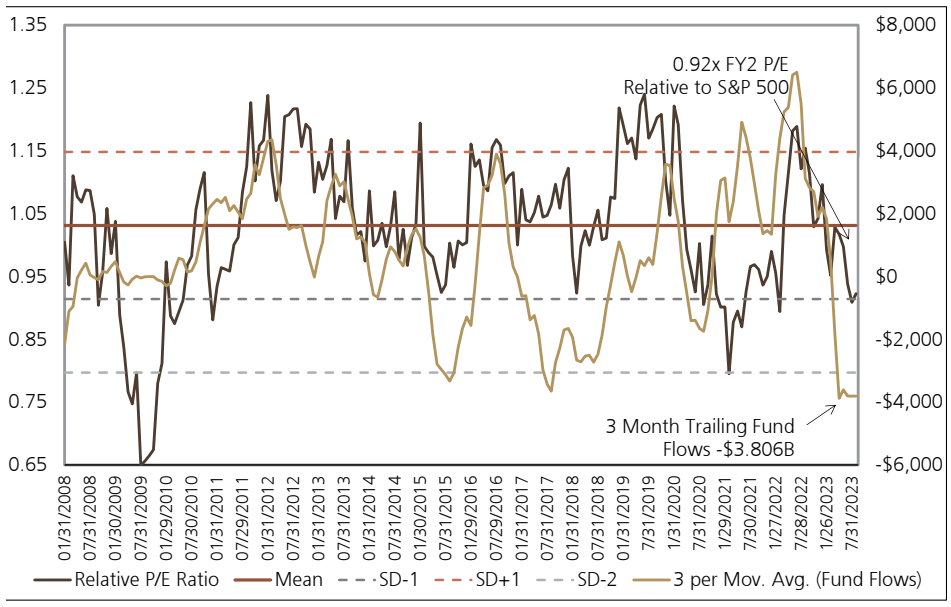
Figure 8: US Regulated Utility Dividend Yield vs. Moody's Baa Corporate Bond Yield



Source: FactSet, US Federal Reserve, UBS
Updated as of: 8/2/2023

RUs 91% correlated to Baa corporate bonds. Now overvalued 15.1% to the mean.

Figure 9: Relative FY2 P/E Ratio US Regulated Utilities vs. S&P 500 with 3mo. Avg. Equity Income Fund Flows $MM



Source: FactSet, Strategic Insights, UBS
Updated as of:8/2/2023

Utilities now trade at a 13.5% discount to the relationship mean. 3-month rolling average equity income fund outflows tend to foreshadow relative value moves.

Interactive Utility Regression Model: We published a "New Analytical Valuation Approach for Regulated Utilities" with Amar Hamoudi, UBS Head of Empirical Scientific Approaches for Research and Evidence Lab, which is a regression model that as of July 27 implies a 14.49x FY 2 P/E vs. current valuation of 15.8x or ~8% overvalued.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Water Utility Relative P/E Chart

Water utilities trade at a 14.9% discount to the 5 year average FY 2 P/E relative to the S&P 500 and a 6% discount to the average since 2008. Water utility valuations are 87% correlated to this relative P/E relationship.

Updated 8/2/2023

The Analyst Conviction Index (ACI)

The ACI = (# of buy ratings - # of sell ratings)/Total # of ratings. We show the sorted ACIs for our regulated utility, power, and water coverage stocks in (Figure 11) below. The graph also shows absolute number of buy, hold, and sell ratings by company. We also track the change in the ACI over the last 12 weeks (Figure 12) to try to gauge where the sell-side consensus view is shifting.

Valuation Method and Risk Statement

North America Utilities: Our valuation methodology for the group is price to earnings based. The adjustments applied fall into 7 categories. These are as follows: 1) Group Valuation Bias: Flowing from our valuation work comparing Baa corporate yields to group dividend yields and RU price to earnings ratios to those for the S&P 500, we incorporate a positive or negative adjustment to our group multiple representing the gap we calculate to the nearest 5%; 2) Growth Adjustment: We adjust our valuations based on the growth quartile each utility occupies. First quartile receives a 4% premium, second quartile a 2% premium, third quartile a 2% discount and fourth quartile a 4% discount; 3) Regulatory Adjustment: Our valuation adjustments for regulation are based on our proprietary Regulatory Rankings. First quartile jurisdictions receive 9%, second quartile 3%, third quartile -3% and fourth quartile -9%; 4) Clean Energy Transition: A potential 5% premium for a risk adjusted clean energy transition growth opportunity; 5) Earnings Consistency Adjustment: For companies that fall in the top quartile of % Time Beat/Meet, we include +4%; and a discount of -4% for those in the bottom quartile, 6) a lower relative pricing power discount of 3%, 7) Multi Utility Diversified Valuation: For multi utilities (those with more than 15% of unregulated earnings), we perform a sum-of- the-parts analysis applying business/region appropriate valuations to those diversified businesses; 7) One-off Adjustments: In special situations, we value risk on an issue specific basis. Common areas where we apply such an adjustment include: large project construction risk, legal risk, and announced M&A completion risk. We identify the following risk factors: rising interest rates; regulatory and policy risks; operational risks; construction risks; cybersecurity risk to the transmission grid and/or customer data, and extreme weather events.
IPPs: We identify the following risks for the sector: Demand for new renewable installations has historically been volatile around changes in state and federal policy, and we expect this volatility to continue. In addition, margins for product manufacturers can be impacted by swings in raw materials pricing and the overall level of energy prices.
Environmental Services: We identify the following risks for the sector: Housing remains a key driver of incremental municipal solid waste volume growth, and a slowdown in new housing starts could put downward pressure on sales growth. In addition, pricing tends to follow GDP growth, and a slowdown in economic growth could lower ability to raise pricing driving potential contraction in margins. For more industrial-exposed names, swings in commodity prices can impact the overall level of waste-generating activity, contributing to earnings volatility

Quantitative Research Review

UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

California Water Service Group

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	3
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	2
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	2
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	3
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	3
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	No Catalyst
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?

Required Disclosures

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

For information on the ways in which UBS manages conflicts and maintains independence of its UBS Global Research product; historical performance information; certain additional disclosures concerning UBS Global Research recommendations; and terms and conditions for certain third party data used in research report, please visit https://www.ubs.com/disclosures. Unless otherwise indicated, information and data in this report are based on company disclosures including but not limited to annual, interim, quarterly reports and other company announcements. The figures contained in performance charts refer to the past; past performance is not a reliable indicator of future results. Additional information will be made available upon request. UBS Securities Co. Limited is licensed to conduct securities investment consultancy businesses by the China Securities Regulatory Commission. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 04 August 2023 01:56 AM GMT. UBS has designated certain UBS Global Research department members as Derivatives Research Analysts where those department members publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient upon which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For the latest responses, please see the Quantitative Research Review Addendum at the back of this report, where applicable. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research team on the email above.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that with respect to each security or issuer that the analyst covered in this report: (1) all of the views expressed accurately reflect his or her personal views about those securities or issuers and were prepared in an independent manner, including with respect to UBS, and (2) no part of his or her compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Global Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	54%	41%
Neutral	FSR is between -6% and 6% of the MRA.	37%	43%
Sell	FSR is > 6% below the MRA.	9%	36%
Short-Term Rating	**Definition**	**Coverage[3]**	**IB Services[4]**
Buy	Stock price expected to rise within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%
Sell	Stock price expected to fall within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%

Source: UBS. Rating allocations are as of 30 June 2023.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.
3:Percentage of companies under coverage globally within the Short-Term rating category.
4:Percentage of companies within the Short-Term rating category for which investment banking (IB) services were provided within the past 12 months.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

KEY DEFINITIONS: Forecast Stock Return (FSR) is defined as expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is defined as the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged as UR by the analyst, indicating that the stock's price target and/or rating are subject to possible change in the near term, usually in response to an event that may affect the investment case or valuation. **Short-Term Ratings** reflect the expected near-term (up to three months) performance of the stock and do not reflect any change in the fundamental view or investment case. **Equity Price Targets** have an investment horizon of 12 months.

EXCEPTIONS AND SPECIAL CASES: UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record, discount; **Neutral:** Neutral on factors such as structure, management, performance record, discount; **Sell:** Negative on factors such as structure, management, performance record, discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Committee (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed to be very high or low risk may be subject to higher or lower bands as they relate to the rating. When such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by any non-US affiliate of UBS Securities LLC are not registered/ qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to the FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. The name of each affiliate and analyst employed by that affiliate contributing to this report, if any, follows.

UBS Securities LLC: Gregg Orrill, Jon Windham, CFA, Ross Fowler, CFA, William Appicelli, CFA, William Grippin, CFA.

The Disclaimer relevant to Global Wealth Management clients follows the Global Disclaimer.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions expressed in this document may change without notice and are only current as of the date of publication. Different areas, groups, and personnel within UBS may produce and distribute separate research products independently of each other. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. **Credit Suisse Global CIO Office Research** is produced by Credit Suisse Wealth Management. **Credit Suisse Securities Research** is produced by Credit Suisse operating under its Securities Research function within the Investment Banking Division. Research methodologies and rating systems of each separate research organization may differ, for example, in terms of investment recommendations, investment horizon, model assumptions, and valuation methods. As a consequence, except for certain economic forecasts (for which UBS CIO and UBS Global Research may collaborate), investment recommendations, ratings, price targets, and valuations provided by each of the separate research organizations may be different, or inconsistent. You should refer to each relevant research product for the details as to their methodologies and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy the document.

UBS Global Research is provided to our clients through UBS Neo, and in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each a system) as an approved means for distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties via e-mail or alternative electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss your access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or has made use of data provided by UBS Evidence Lab and you would like to access that data please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending upon various factors such as a client's individual preferences as to the frequency and manner of receiving communications, a client's risk profile and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term, etc.), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab and legal and regulatory constraints.

When you receive UBS Global Research through a system, your access and/or use of such UBS Global Research is subject to this UBS Global Research Disclaimer and to the UBS Neo Platform Use Agreement (the "Neo Terms") together with any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and cookie notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or by any other means, you agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and that you shall not extract data from any research or estimates provided to you via UBS Global Research or otherwise, without the prior written consent of UBS.

In certain circumstances (including for example, if you are an academic or a member of the media) you may receive UBS Global Research otherwise than in the capacity of a client of UBS and you understand and agree that (i) the UBS Global Research is provided to you for information purposes only; (ii) for the purposes of receiving it you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) the UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is a general communication and is educational in nature; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. The recipient should carefully read this document in its entirety and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "The Characteristics and Risks of Standardized Options." You may read the document at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks associated with these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies calling for multiple purchases and sales of options, such as spreads and straddles. Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions.

Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the Information.

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes:

(i) valuation or accounting purposes;

(ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or

(iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS Global Research manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. All material information in relation to published research reports, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history etc. as required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by UBS Global Research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms under English law or, if not carried out by UBS in the UK the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months UBS may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

United Kingdom: This material is distributed by UBS AG, London Branch to persons who are eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority and subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. **Europe:** Except as otherwise specified herein, these materials are distributed by UBS Europe SE, a subsidiary of UBS AG, to persons who are eligible counterparties or professional clients (as detailed in the Bundesanstalt fur Finanzdienstleistungsaufsicht (BaFin) Rules and according to MIFID) and are only available to such persons. The information does not apply to, and should not be relied upon by, retail clients. UBS Europe SE is authorised by the European Central Bank (ECB) and regulated by the BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE. In all cases it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for the purpose of offering, marketing and sale by any means of any capital market instruments and services in the Republic of Turkey. Therefore, this document may not be considered as an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, according to article 15 (d) (ii) of the Decree No. 32, there is no restriction on the purchase or sale of the securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce regulated by the Polish Financial Supervision Authority. Where an analyst of UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce. **Russia:** Prepared and distributed by UBS Bank (OOO). Should not be construed as an individual Investment Recommendation for the purpose of the Russian Law - Federal Law #39-FZ ON THE SECURITIES MARKET Articles 6.1-6.2.**Switzerland:** Distributed by UBS AG to persons who are institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies and styles approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or Sustainable Investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio consisting primarily of sustainable investments may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ. Companies may not necessarily meet high performance standards on all aspects of ESG or sustainable investing issues; there is also no guarantee that any company will meet expectations in connection with corporate responsibility, sustainability, and/or impact performance.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosures_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Bahrain: UBS is a Swiss bank not licensed, supervised or regulated in Bahrain by the Central Bank of Bahrain to undertake banking or investment business activities in Bahrain. Therefore, prospects/clients do not have any protection under local banking and investment services laws and regulations. **Brazil**: This report is only intended for Brazilian residents who are directly purchasing or selling securities in the Brazil capital market through a local authorized institution. **Canada**: The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. Under no circumstances is the information contained herein to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada or, alternatively, pursuant to a dealer registration exemption. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon these materials, the information contained herein or the merits of the securities described herein and any representation to the contrary is an offence. In Canada, this publication is distributed by UBS Investment Management Canada Inc. **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. In Israel, UBS Switzerland AG is registered as Foreign Dealer in cooperation with UBS Wealth Management Israel Ltd., a wholly owned UBS subsidiary. UBS Wealth Management Israel Ltd. is an Investment Marketing licensee which engages in Investment Marketing and is regulated by the Israel Securities Authority. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. No action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Nigeria**: The investment products mentioned in this material are not being offered or sold by UBS to the public in Nigeria and they have not been submitted for approval nor registered with the Securities and Exchange Commission of Nigeria. If you are interested in products of this nature, please let us know. The investment products mentioned in this material are not being directed to, and are not being made available for subscription by any persons within Nigeria other than the selected investors to whom the offer materials have been addressed as a private sale or domestic concern within the exemption and meaning of Section 69(2) of the Investments and Securities Act, 2007 (ISA). This material has been provided to you at your specific unsolicited request and for your information only. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the

Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: UBS Switzerland AG is not licensed to conduct banking and financial activities in Portugal nor is UBS Switzerland AG supervised by the portuguese regulators (Bank of Portugal "Banco de Portugal" and Portuguese Securities Exchange Commission "Comissão do Mercado de Valores Mobiliários"). **Qatar**: UBS Qatar LLC is authorized by the Qatar Financial Centre Regulatory Authority, with QFC no. 01169, and has its registered office at 14th Floor, Burj Alfardan Tower, Building 157, Street No. 301, Area No. 69, Al Majdami, Lusail, Qatar. UBS Qatar LLC neither offers any brokerage services nor executes any order with, for or on behalf of its clients. A client order will have to be placed with, and executed by, UBS Switzerland AG in Switzerland or an affiliate of UBS Switzerland AG, that is domiciled outside Qatar. It is in the sole discretion of UBS Switzerland AG in Switzerland or its affiliate to accept or reject an order and UBS Qatar LLC does not have authority to provide a confirmation in this respect. UBS Qatar LLC may however communicate payment orders and investment instructions to UBS Switzerland AG in Switzerland for receipt, acceptance and execution. UBS Qatar LLC is not authorized to act for and on behalf of UBS Switzerland AG or an affiliate of UBS Switzerland AG. This document and any attachments hereto are intended for eligible counterparties and business customers only. **Russia**: This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia**: UBS Saudi Arabia is authorised and regulated by the Capital Market Authority to conduct securities business under licence number 08113-37. **Singapore**: Clients of UBS AG Singapore branch are asked to please contact UBS AG Singapore branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or report. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved or endorsed by any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Sweden**: This publication is not intended to constitute a public offer under Swedish law. It is distributed only for information purposes to clients of UBS Europe SE, Sweden Bankfilial, with place of business at Regeringsgatan 38, 11153 Stockholm, Sweden, registered with the Swedish Companies Registration Office under Reg. No 516406-1011. UBS Europe SE, Sweden Bankfilial is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Swedish supervisory authority (Finansinspektionen), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Taiwan**: This material is provided by UBS AG, Taipei Branch in accordance with laws of Taiwan, in agreement with or at the request of clients/prospects. **Thailand**: This communication and any offering material, term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication were done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Turkey**: The information in this document is not provided for the purpose of offering, marketing or sale of any capital market instrument or service in the Republic of Turkey. Therefore, this document may not be considered as an offer made, or to be made, to residents of the Republic of Turkey in the Republic of Turkey. UBS Switzerland AG is not licensed by the Turkish Capital Market Board (the CMB) under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instrument/service may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the CMB. However, according to article 15 (d) (ii) of the Decree No. 32 residents of the Republic of Turkey are allowed to purchase or sell the financial instruments traded in financial markets outside of the Republic of Turkey. Further to this, pursuant to article 9 of the Communiqué on Principles Regarding Investment Services, Activities and Ancillary Services No. III-37.1, investment services provided abroad to residents of the Republic of Turkey based on their own initiative are not restricted. **United Arab Emirates (UAE)**: UBS is not a financial institution licensed in the UAE by the Central Bank of the UAE nor by the Emirates' Securities and Commodities Authority and does not undertake banking activities in the UAE. UBS AG Dubai Branch is licensed by the DFSA in the DIFC. This document is provided for your information only and does not constitute financial advice. **United Kingdom**: This document is issued by UBS Wealth Management, a division of UBS AG which is authorised and regulated by the Financial Market Supervisory Authority in Switzerland. In the United Kingdom, UBS AG is authorised by the Prudential Regulation Authority and is subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. Details about the extent of regulation by the Prudential Regulation Authority are available from us on request. A member of the London Stock Exchange. This publication is distributed to retail clients of UBS Wealth Management. **Ukraine**: UBS is not registered and licensed as a bank/financial institution under Ukrainian legislation and does not provide banking and other financial services in Ukraine. UBS has not made, and will not make, any offer of the mentioned products to the public in Ukraine. No action has been taken to authorize an offer of the mentioned products to the public in Ukraine and the distribution of this document shall not constitute financial services for the purposes of the Law of Ukraine "On Financial Services and State Regulation of Financial Services Markets" dated 12 July 2001. Any offer of the mentioned products shall not constitute an investment advice, public offer, circulation, transfer, safekeeping, holding or custody of securities in the territory of Ukraine. Accordingly, nothing in this document or any other document, information or communication related to the mentioned products shall be interpreted as containing an offer, a public offer or invitation to offer or to a public offer, or solicitation of securities in the territory of Ukraine or investment advice under Ukrainian law. Electronic communication must not be considered as an offer to enter into an electronic agreement or other electronic instrument within the meaning of the Law of Ukraine "On Electronic Commerce" dated 3 September 2015. This document is strictly for private use by its holder and may not be passed on to third parties or otherwise publicly distributed. **USA**: Distributed to US persons by UBS Financial Services Inc. or UBS Securities LLC, subsidiaries of UBS AG. UBS Switzerland AG, UBS Europe SE, UBS Bank, S.A., UBS Brasil Administradora de Valores Mobiliários Ltda., UBS Asesores México, S.A. de C.V., UBS SuMi TRUST Wealth Management Co., Ltd., UBS Wealth Management Israel Ltd. and UBS Menkul Degerler AS are affiliates of UBS AG. **UBS Financial Services Inc. accepts responsibility for the content of a report prepared by a non-US affiliate when it distributes reports to US persons. All transactions by a US person in the securities mentioned in this report should be effected through a US-registered broker dealer affiliated with UBS, and not through a non-US affiliate. The contents of this report have not been and will not be approved by any securities or investment authority in the United States or elsewhere. UBS Financial Services Inc. is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule") and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule.**

- **EPS growth:** reiterated 7%–9% LT annual EPS growth (base is FY22's initial guidance midpoint of $2.25)
  - EPS in FY24 still expected to be at or above top end of LT annual growth range of 7%-9% due to the impact of the AMA at NJRES
- **Capex:** increased FY23 capex to $545m-$633m (vs. $520m-$658m, previously); reiterated FY24 capex of $542m-$728m
- **Business mix guidance:** ranges for FY23 were reiterated:
  - New Jersey Natural Gas: **48%-53%** (vs. *55%-60%* originally)
  - Energy Services: **20%-25%** (vs. *15%-20%* originally)
  - Clean Energy Ventures: **18%-20%** (vs. *20%-25%* originally)
  - Storage and Transportation: **4%-8%** (vs. *4%-8%* originally)
  - Home Services and Other: **0%-1%** (vs. *0%-1%* originally)
- **CEV:** placed ~75 MW in service so far this fiscal year and has ~757 MW pipeline of projects under contract, construction or exclusivity through fiscal 2027
- **NJNG growth:** +5,892 new customers additions at NJNG YTD vs. +5,274 during same YTD period in fiscal 2022
- **TSR:** total expected shareholder return of ~10%–13% vs. ~10%–12%, previously
- Earnings call will be held today at **10:00 AM ET**… Dial-in: **(888) 440-5655**…Access code: **7422446**

NWN – NWN reports 2Q23 earnings

- Reported $0.03 vs. Gugg/Cons of $0.06/0.05
- Reaffirmed 2023 guidance of $2.55 to $2.75
- 0.8% connection growth LTM
- LDC O&M +24% or $8.4M
- RNG co-investments (2 facilities) began production
- Water services business has now signed 2 agreements
- Call at 11AM ET. Results posted HERE

LNT – IPL reaches non-unanimous settlement agreement in RPU docket ahead of yesterday's hearings

- The settlement posted late Tuesday evening features a 10.75% ROE for the 400MW of

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

solar projects and includes AFUDC and transmission costs in its $735M target.
- The BESS is not included in the settlement.
- The OCA joined the settlement, however two other parties (IBEC/large customers) did not.
- Hearings yesterday on the matter were wide-ranging, with a focus on the OCA settlement and understanding the battery and plans therein.
- More HERE.
- Docket HERE.

Guggenheim takeaway: *Flagging for your awareness in case you missed this during the earnings noise. The settlement landed just ahead of yesterday's hearings, providing a key talking point for much of the day (and prompting an* ***extension request*** *from IBEC yesterday). We see* ***the settlement as a positive step given it includes all of the RPU's solar consideration alongside a favorable ROE, however, we remain cautious on the overall process given how haltingly it has moved to date.*** *As a reminder, the prior IUB took issue with MidAm's [NYSE:BRK.A] settlement for WindPRIME last December (also in rehearing). We also remain on the lookout for any incremental details on the BESS, which has been a point of focus in prior filings. A potential date for IUB action remains TBD.*

CEG/NY — Governor Hochul press release provides additional detail on PTC-ZEC interaction

- "The ZEC contracts expressly provide that ZEC payments would be adjusted for a change in law that materially changes the original economic benefits of the contract, such as a federal tax credit aimed at nuclear production like the IRA production tax credit (PTC). When Constellation begins claiming the federal PTC reflecting its ownership in the upstate New York nuclear generation units on its corporate tax return in 2025 for tax year 2024, the PTC will be used to reduce the ZEC payments. The PTC will reduce the costs to New York electricity customers, potentially resulting in hundreds of millions of dollars in savings, as early as 2025." - release
- More HERE.

Guggenheim takeaway: *Flagged for your awareness as this has been a recurring point of interest, in our view – stay tuned for more detail today.*

PNW/AZ — Agenda posted for Aug 8th/9th Open Meeting

- The ACC has posted its consent and full agenda for next week's Open Meeting.
- The webcast will be live-streamed HERE.

Guggenheim takeaway: *For your calendar. TEP's rate case decision is the final item scheduled on the agenda (including setting its ROE, which may have read-throughs to APS's case).*

Wind/M&A — Details on US OSW wind stake bidders emerge

- SSE [LON: SSE] is reportedly in exclusive talks to acquire CIP's 50% stake in 5GWs of OSW in the US, according to PeakLoad
- The portfolio includes stakes in the Vineyard Northeast and Vineyard Mid Atlantic lease areas.

Guggenheim takeaway: *Interesting data point and a positive sign for other processes (ES) that there is continuing interest stake sales.*

PCG – Media reports on PG&E wildfire management plan changes

- Multiple media sources picked up coverage on PG&E wildfire mitigation practices.
- Media has focused on the headline reduction to tree trimming.
- More here.

Guggenheim takeaway: *While media has selectively picked up the headline as a reduction to tree trimming, the program changes were well documented in regulatory filings as they relate to the effectiveness of risk reduction. PG&E WMP finding were that massive multi-billon dollar tree trimming programs did not provide as much risk mitigation benefit as the other tools that are used. While tree trimming employment may take a dip as a result, PG&E has often talked about converting temporary O&M solutions into permanent capital fixes, like EPSS/PSPS settings, sectionalizing and undergrounding, which provide a permanent risk reduction even if a healthy tree makes wire contact in extreme weather conditions. The*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

argument in media seems to be skewed with opinion and headline focused vs. the extensive WMP case record.

PCG – Shasta County supervisors debate Zogg Fire settlement

- Shasta County supervisors debated the Zogg Fire settlement with affected counties in a live meeting.
- More here.

Guggenheim takeaway: *FYI. While the resolution was constructive, stakeholders remain on edge over the legacy fires. The resolution to Zogg charges and demonstrates PG&E's commitment to provide a fair outcome for its employees. The judicial arguments also highlight the improvement in wildfire prevention and inspections undertaken by the company. Penalties remain in place and the liabilities from the fire are below the $1B insurance limit.*

SC – Judge tosses case against Westinghouse executive

- The case was one of the last defendants in the ongoing VC Summer saga.
- More HERE.

Guggenheim takeaway: *Minor FYI.*

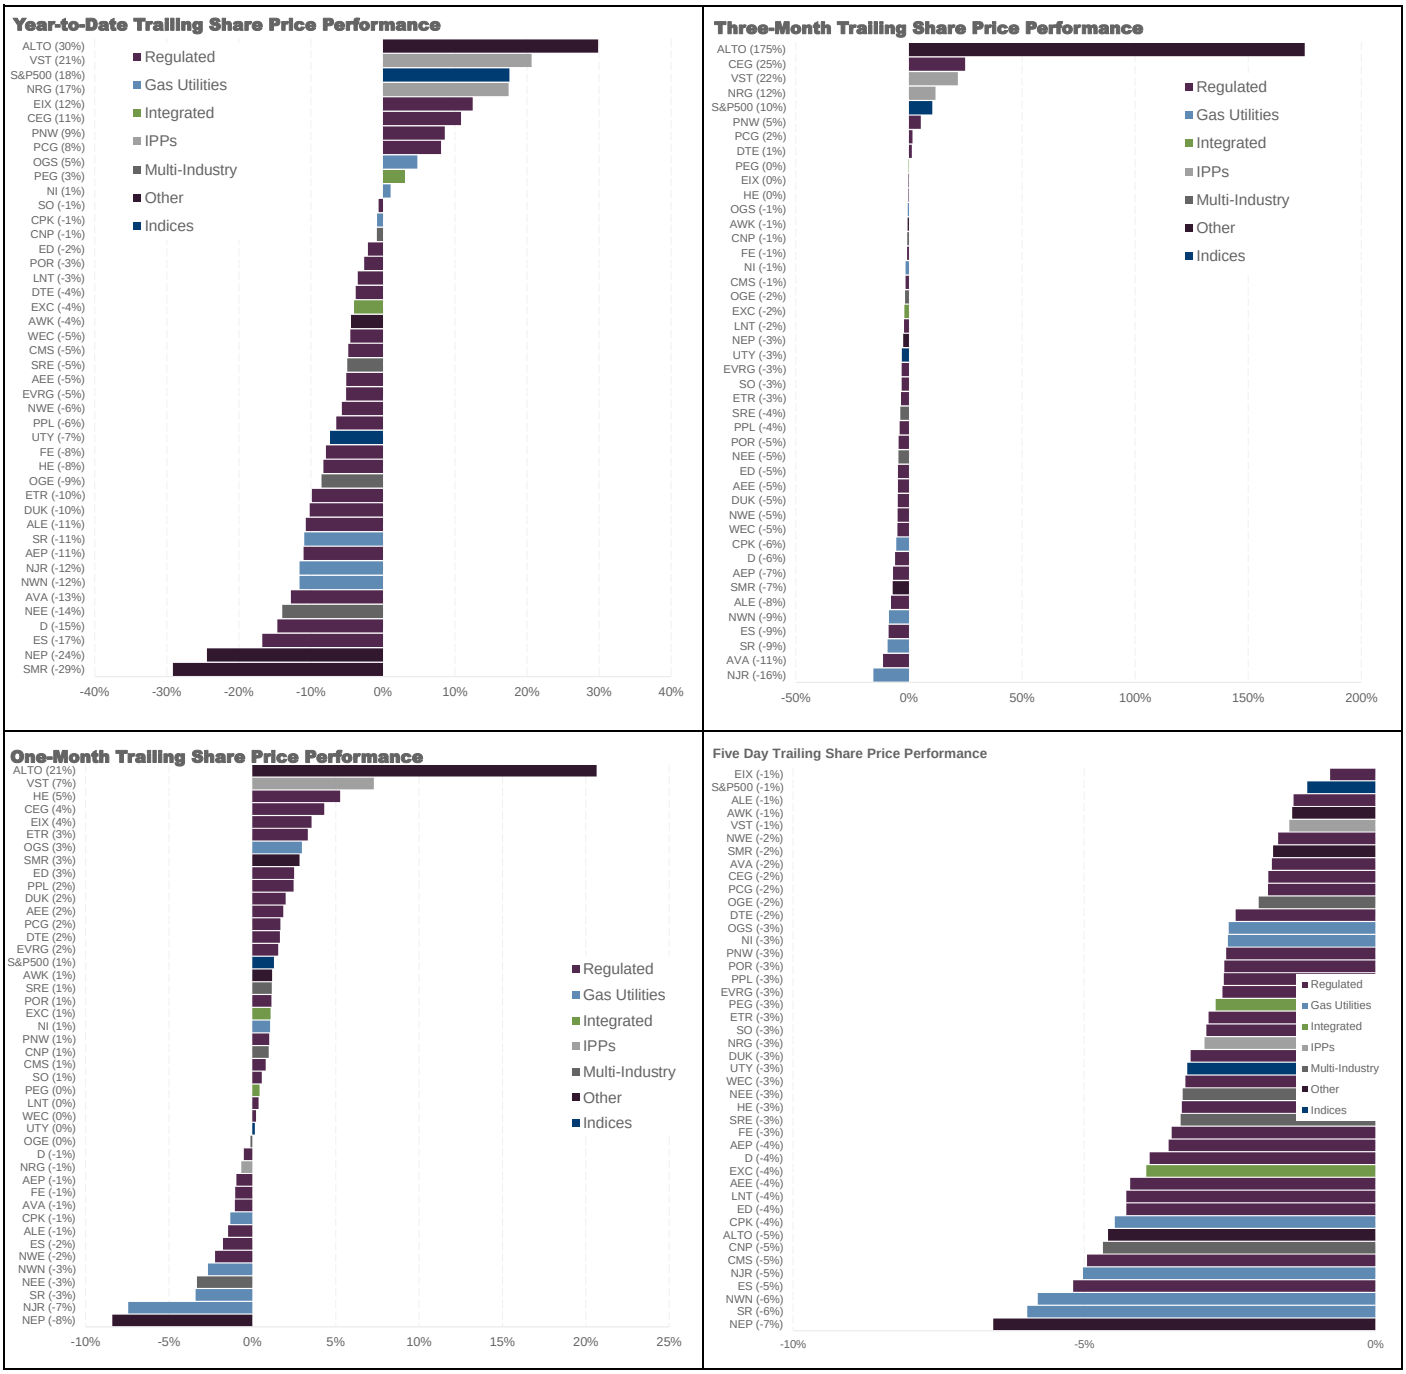
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

investment management business, trade for their own accounts, and may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

We and our affiliates, officers, directors, and employees, excluding equity and credit analysts, will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research. We and our affiliates also may sell to or buy from customers on a principal basis the securities described herein. We and our affiliates also do business with, or that relates to, companies covered in Guggenheim research and may have a position in the debt of the company or companies discussed herein.

This research is not an offer to sell or the solicitation of an offer to buy any security. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them will fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

This communication does not constitute an offer of Shares to the public in the United Kingdom. No prospectus has been or will be approved in the United Kingdom in respect of the Securities. Consequently, this communication is directed only at (i) persons who are outside the United Kingdom or (ii) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Order”), (iii) high net worth entities falling within Article 49(2) of the Order (iv) and other persons to whom it may lawfully be communicated (all such persons together being referred to as “relevant persons”). Any investment activity to which this communication relates will only be available to, and will only be engaged with, relevant persons. Any person who is not a relevant person, or otherwise in a territory where it is not intended to, or may not, be distributed, should not act or rely on this document or any of its contents.

The Wolfe Byte

EXC reported in line Q2 and affirmed 2023 guidance and 6-8% EPS growth. EXC pointed to capex upside mostly outside of its 2023-26 plan. But orders in EXC's IL and MD rate cases expected by mid-Dec are key. We expect reasonable outcomes and see the stock getting to a premium.

Q2 in line, 2023 guidance and LT EPS growth affirmed; Dec orders key. EXC reported an in line 2Q23 EPS of $0.41 and affirmed FY23 guidance of $2.30-2.42. EXC also affirmed its 6-8% EPS growth target through 2026. EXC reaffirmed its 13-14% FFO/D expectation for 2023-26 on average, with no plans to change its $425M of equity issuances through 2025. EXC also noted transmission capex upside in the 2027-28. But the key focus is on EXC's ComEd and BGE multiyear rate cases, which anticipate orders by mid-Dec. EXC is beating the UTY by 335bp and now trades at a modest discount to peers on 2025E. We think the stock can ultimately get to a one-turn premium with reasonable rate case outcomes.

IL rate case. Hearings on the ComEd 4yr rate case begin 8/21, with an order by 12/20. Although it expects the case to be fully litigated, EXC pointed to discussions with intervenors, potentially finding agreement on certain issues. Watch surrebuttal filings this month and briefs next month. ICC Staff's rec was ~70% of ComEd's ask. The key contested items are ROE and rate base. Staff wants to use the old formulaic ROE (30Y UST yield + 580bp), even though it is set to expire YE23 under a 2021 state law. Every 50bp ComEd ROE = $0.04. ComEd distribution is ~25% of EXC's RB.

BGE rate case. Hearings on BGE's 3yr rate case begin 8/30, with an order by 12/14. EXC also expects a fully litigated case, which includes 2021-22 reconciliations under the previous 3yr plan. The PSC Staff rec includes a 9.45% ROE vs BGE's 10.4% request and currently allowed 9.50-9.65%. Staff's reconciliations were close to BGE's request, a good sign for certainty under the MYPs in MD. BGE is ~15% of EXC's RB.

LT capex opportunities. EXC pointed to $870M of transmission capex mostly outside of its 2023-26 capital plan. EXC also is participating in an open window for transmission to address load growth in the Dominion territory. Both are indicative of opportunities that would be supportive of extending EXC's growth target.

WOLFE RESEARCH

August 3, 2023

Investment Conclusion

We believe EXC is a low-risk utility stock. It is a mostly electric T&D utility with no coal, constructive regulation in most of its jurisdictions, flexible B/S, and LT EPS growth of 6-8%, driven by ~8% rate base growth. We think the stock hit last year on IRA and nonlinear EPS growth was overdone. We think the messaging and conviction on its LT outlook will be well-received. And we see the stock over time trading in line with the low-risk, high-quality utilities. This year, focus will be on a first multiyear rate case in IL, as well as a second multiyear filing in MD and reconciliations of the first MD/BGE multiyear case. Those are expected to add more certainty to an otherwise low-risk utility story.

Valuation

Our $47PT is based on a one-turn premium to our utility group P/E of 16x 2025E.

Company Description

Chicago-based EXC is a large T&D (wires-only) regulated utility company, providing mostly electric service to roughly 10 million customers in the Mid-Atlantic and northern IL. It has no coal or other generation. ComEd serves northern IL and is EXC's largest utility sub, representing ~40% of rate base. Pepco serves DC, DE, MD and southern NJ and represents 25% of rate base. PECO, which serves southeastern PA, and BGE, which serves Baltimore, each represent nearly 20% of rate base. A little over 90% of EXC's total rate base is electric, with the rest gas LDC.

Investment Thesis

We believe EXC is a low-risk utility stock with above average EPS growth. It is a mostly electric T&D utility with no coal, constructive regulation in most of its jurisdictions, flexible B/S, and LT EPS growth of 6-8%.

Valuation

Our $47 PT is based on a one-turn premium to our utility group average P/E of 16x 2025E. Risks are less capex, lower returns, less cash or more equity needs, and unfavorable regulatory outcomes.

DO NOT FORWARD
Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Outperform (OP):	The security is projected to outperform analyst's industry coverage universe over the next 12 months.
Peer Perform (PP):	The security is projected to perform approximately in line with analyst's industry coverage universe over the next 12 months.
Underperform (UP):	The security is projected to underperform analyst's industry coverage universe over the next 12 months.

Wolfe Research, LLC does not assign target prices for Peer Perform rated companies.

Wolfe Research, LLC uses a relative rating system using the terms Outperform, Peer Perform, and Underperform as per the definitions above. Please carefully read these definitions used in Wolfe Research, LLC research. In addition, since Wolfe Research, LLC research contains more complete information concerning the analyst's views, please carefully read Wolfe Research, LLC research in its entirety and do not infer the contents from the ratings alone. In all cases, ratings (or research) should not be used or relied upon as investment advice and any investment decisions should be based upon individual circumstances and other considerations.

Wolfe Research, LLC Industry Weighting System:

Market Overweight (MO):	Expect the industry to outperform the primary market index for the region (S&P 500 in the U.S.) by at least 10% over the next 12 months.
Market Weight (MW):	Expect the industry to perform approximately in line with the primary market index for the region (S&P 500 in the U.S.) over the next 12 months.
Market Underweight (MU):	Expect the industry to underperform the primary market index for the region (S&P 500 in the U.S.) by at least 10% over the next 12 months.

Wolfe Research, LLC Distribution of Fundamental Stock Ratings (As of August 3, 2023):

Outperform:	43%	4% Investment Banking Clients within the previous 12 months
Peer Perform:	46%	0% Investment Banking Clients within the previous 12 months
Underperform:	11%	1% Investment Banking Clients within the previous 12 months

Wolfe Research, LLC does not assign ratings of Buy, Hold, or Sell to the stocks it covers. Outperform, Peer Perform, and Underperform are not the respective equivalents of Buy, Hold, and Sell but represent relative weightings as defined above. To satisfy regulatory requirements, Outperform has been designated to correspond with Buy, Peer Perform has been designated to correspond with Hold, and Underperform has been designated to correspond with Sell.

EXC-NSDQ | Rating: Outperform | Price: Aug-2: $41.50 | Target ↓: $45.00 | Total Rtn: 12%

More EXC-ecution – Strong 2Q23 Results and Year on Track

Bottom Line:

EXC reported an in-line quarter for 2Q23 and remains on track for the year, reaffirming its offsets to mild 1Q weather, and we view management's additional disclosures on key earnings drivers into the back half of the year positively. Management's plan remains on track, and they reaffirmed their 2023 guidance of $2.30-2.42. **Management also reaffirmed their 2021-2025 and 2022-2026 EPS CAGRs of 6-8% with an expectation of being at the midpoint or better. EXC remains an anchor on the relative value/GARP side of our BMO Barbell. Reiterate our Outperform rating.**

Key Points

Importantly, during the call management provided clarity on the shaping of earnings the remainder of the year as they expect 3Q23 to represent ~28% of their full-year earnings at the midpoint of the guidance range. Management noted that 3Q23 earnings are expected to be lower year-over-year as 3Q22 experienced a series of benefits. For 4Q23, the company should benefit from the absence of the pull-forward of costs in 4Q22, the reversal of O&M/tax timing, and a cumulative pickup from BGE's under recovery in 2021 and 2022 in their first MYRP when an order is issued in December 2023. **Management also reaffirmed their commentary from the 1Q23 call that they expect to offset ($0.07) of weather with O&M savings across the platform, better D&A comps at PECO, and the full-year impact of the carrying costs from the CMC regulatory asset balance.**

EXC reported 2Q23 EPS of $0.41 vs. our/consensus estimates of $0.40/$0.41. On the call, management detailed the offset to the mild 1Q23 weather and provided additional disclosures on key earnings drivers into the back half of the year which supports their reaffirmation of their 2023 guidance of $2.30-2.42. **EXC was recently awarded ~ $870mm in transmission projects to address reliability in eastern Maryland with an expected in-service date near year-end 2028. This spending is ~3% additive to the current 2023-2026 capital plan**.

Shares of EXC trade at a 1-2% discount to the group, which we believe offers compelling risk-adjusted value for its low-risk T&D investment strategy. Accordingly, we reiterate our Outperform rating. In the near term, additional multiple expansion is likely to be tied to successful navigation of the regulatory calendar. Our 2023-2025 estimates remain unchanged at $2.36. $2.50 and $2.72, respectively. **Our target price moves to $45 as we mark-to-market our peer group multiples used in our SOTP valuation framework.**

Notes : Prior numbers reflect our pre-spin estimates

Our Thesis

We see EXC's multiple re-rating post spin as a gradual 12-18-month process driven by the company executing against its capital and regulatory plans. We believe the company's low-risk T&D business profile, strong and visible fundamental growth outlook, and supportive regulatory environment position the company well to drive multiple expansion.

Source: BMO Capital Markets, Company Reports

Scenarios

Valuation

We value EXC on a sum-of-the-parts valuation. Our framework begins with the relevant sector average P/E multiple using 2025E EPS as a base, which we then adjust (premium, discount, or no change) to reflect the relative fundamentals for each segment.

Upside Scenario $50.00

Our upside scenario reflects continued multiple expansion associated with the execution of the company's current ComEd MYRP which should crystalize the company's premium and above-average earnings and dividend growth profile.

Downside Scenario $36.00

Our downside scenario reflects a tightening monetary policy, suboptimal regulatory outcomes that lead to a deceleration of the company's rate base growth.

Key Catalysts

We see EXC management now in execution mode post its separation from Constellation Energy. With nearly 75% of the company's revenues decoupled from volumes and 100% of its capital covered through alternative recovery mechanisms, we see EXC achieving our target price over the next 12-18 months as management executes against its capital and regulatory plans.

Company Description

Exelon is the largest utility by customer count with over 10mm electric and natural gas customers spread across its six-state footprint. It is the fourth largest utility by rate base with one of the lowest business risk and ESG-friendly profiles given the company's pure T&D asset mix with electric distribution and transmission representing over 88% of rate base.

More EXC-ecution – Strong 2Q23 Results and Year on Track

Bottom Line: EXC reported an in-line quarter for 2Q23 and remains on track for the year, reaffirming its offsets to mild 1Q weather and we view management's additional proactive disclosures on key earnings drivers into the back half of the year positively. Management's plan remains on track, and they reaffirmed their 2023 guidance of $2.30-2.42. **Shares of EXC trade at a 1-2% discount to the group, which we believe offers compelling risk-adjusted value for its low-risk T&D investment strategy. Accordingly, EXC remains an anchor on the relative value/GARP side of our BMO Barbell, and we reiterate our Outperform rating.** In the near term, additional multiple expansion is likely to be tied to successful navigation of the company's regulatory calendar. **Our target price moves to $45 as we mark-to-market our peer group multiples used in our SOTP valuation framework.**

EXC reported 2Q23 EPS of $0.41 vs. our $0.40 estimate and $0.41 for consensus. Year-over-year results declined by ($0.03) with ComEd adding +$0.02 (+$0.01 distribution rates and +$0.01 CMC carrying costs) and PHI adding +$0.02 that was offset by a ($0.04) headwind at PECO ($0.03 unfavorable weather) and ($0.03) at Corporate from interest drag.

Management reaffirmed their 2023 guidance range of $2.30-2.42 compared to BMO/consensus at $2.36. Importantly, during the call management provided clarity on the shaping of earnings the remainder of the year as they expect 3Q23 to represent ~28% of their full-year earnings at the midpoint of the guidance range. Management noted that 3Q23 earnings are expected to be lower year-over-year as 3Q22 experienced a $0.04 pickup from PECO's electric case, $0.03 from an uplift in the 30-year, and $0.03 of formula rate timing at ComEd. For 4Q23, the company expects to see earnings growth from the absence of the pull-forward of costs in 4Q22, the reversal of O&M and tax timing, and a cumulative pickup from BGE's under recovery in 2021 and 2022 in their first MYRP that cannot be booked until an order is issued, which is expected in December 2023. **Management also reaffirmed their commentary from the 1Q23 call that they expect to offset ($0.07) of weather with O&M savings across the platform, better D&A comps at PECO, and the full-year impact of the carrying costs from the CMC regulatory asset balance.**

Longer term, the company also reaffirmed its 2021-2025 and 2022-2026 EPS CAGRs of 6-8% with an expectation of being at the midpoint or better with the drivers for its annual growth ranges unchanged. The company continues to see the payout ratio of ~60% allowing the dividend to grow in line with earnings. Management expects the remaining $425mm of equity issuance to be completed by 2025.

Furthermore, EXC continues to expect credit metrics in the 13-14% over the forecast period, providing 100-200bps of cushion to its 12% downgrade threshold. After raising ~$1.3bn for BGE and PECO in the quarter the company has substantially completed all of its 2023 debt financings. Importantly as of 6/30/21 the company's short-term debt balance was only $1.2bn with only $500mm at the parent, which is down from $2.6bn at YE23 and $900mm at the parent. Despite persistently high interest rates, we think EXC is well-positioned with only $500mm of parent level maturities in 2024 and $807mm in 2025. Every 250bps in higher refinancing costs represents $0.01 and $0.015 to EPS, respectively.

The company was recently awarded ~$870mm in transmission projects to address reliability in eastern Maryland that is expected to be in service by year-end 2028. The company noted that this incremental investment is additive to the current plan. Looking forward, management continued to speak positively on additional transmission opportunities more broadly in PJM and specifically in support of the ambitious offshore wind programs in NJ and MD over time.

In July the company completed the three-year term from the Deferred Prosecution Agreement for ComEd. Following the end of the term the DOJ moved to dismiss the charges as the company fully complied with the DPA and the Court obliged.

The regulatory calendar remains busy with several on-going cases. The ComEd case remains the focal point for most investors with evidentiary hearings in late August, and an order by the end of the year. **While we do not expect the company to reach a comprehensive settlement in the case given it is the first MYRP under the 2021 CEJA, we do think some issues could be ripe for settlement given the constructive initial staff testimony and rebuttal testimony in the case.** At ACE, the company expects an order in 1Q24, though they will be eligible to implement interim rates subject to refund on November 17. For BGE in MD, the company is undergoing its second multi-year plan that covers years 2024-2026. The company expects an order in December 2023. In DC, the company's PEPCO subsidiary also recently filed a 2024-2026 multi-year plan to cover its climate-ready pathway multi-year plan.

IMPORTANT DISCLOSURES

Analyst's Certification

I, James M. Thalacker, hereby certify that the views expressed in this report accurately reflect my personal views about the subject securities or issuers. I also certify that no part of my compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Analysts who prepared this report are compensated based upon (among other factors) the overall profitability of BMO Capital Markets and their affiliates, which includes the overall profitability of investment banking services. Compensation for research is based on effectiveness in generating new ideas and in communication of ideas to clients, performance of recommendations, accuracy of earnings estimates, and service to clients.

Analysts employed by BMO Nesbitt Burns Inc. and/or BMO Capital Markets Limited are not registered as research analysts with FINRA. These analysts may not be associated persons of BMO Capital Markets Corp. and therefore may not be subject to the FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Company Specific Disclosures

Disclosure 9B: BMO Capital Markets makes a market in Exelon in United States.

Methodology and Risks to Target Price/Valuation for Exelon (EXC-NSDQ)

Methodology: We value EXC using our sum-of-the-parts valuation analysis to derive our target price. Our valuation takes into account the quality of EXC's assets relative to its peers and the company's regulated business rate base growth and funding sources.

Risks: Adverse outcomes in the company's inaugural MYRP filing in IL, DE electric rate case and 2025 PECO electric GRC. Despite having nearly a 1% cushion over its 12% downgrade threshold, the ability to meet its stated credit metrics given adverse impacts from severe storms, fuel deferrals and other unforeseen expenses.

Ratings Key (as of October 2016)

We use the following ratings system definitions:
OP = Outperform - Forecast to outperform the analyst's coverage universe on a total return basis;
Mkt = Market Perform - Forecast to perform roughly in line with the analyst's coverage universe on a total return basis;
Und = Underperform - Forecast to underperform the analyst's coverage universe on a total return basis;
(S) = Speculative investment;
Spd = Suspended - Coverage and rating suspended until coverage is reinstated;
NR = No Rated - No rating at this time; and
R = Restricted - Dissemination of research is currently restricted.

The total return potential, target price and the associated time horizon is 12 months unless otherwise stated in each report. BMO Capital Markets' seven Top 15 lists guide investors to our best ideas according to different objectives (CDN Large Cap, CDN Small Cap, US Large Cap, US Small Cap, Income, CDN Quant, and US Quant have replaced the Top Pick rating).

Additional Matters

This report is directed only at entities or persons in jurisdictions or countries where access to and use of the information is not contrary to local laws or regulations. Its contents have not been reviewed by any regulatory authority. BMO Capital Markets does not represent that this report may be lawfully distributed or that any financial products may be lawfully offered or dealt with, in compliance with regulatory requirements in other jurisdictions, or pursuant to an exemption available thereunder.

To Australian residents: BMO Capital Markets Limited and Bank of Montreal are exempt from the requirement to hold an Australian financial services licence under the Corporations Act in respect of financial services they provide to wholesale investors (as defined in the Corporations Act). BMO Capital Markets Limited is regulated by the UK Financial Conduct Authority under UK laws, and Bank of Montreal in Hong Kong is regulated by the Hong Kong Monetary Authority and the Securities and Futures Commission, which differ from Australia laws. This document is only intended for wholesale clients (as defined in the Corporations Act 2001), Eligible Counterparties or Professional Clients (as defined in Annex II to MiFID II) and Professional Investors (as defined in the Securities and Futures Ordinance and the Securities and Futures (Professional Investor) Rules under the Securities and Futures Ordinance of Hong Kong).

To Canadian Residents: BMO Nesbitt Burns Inc. furnishes this report to Canadian residents and accepts responsibility for the contents herein subject to the terms set out above. Any Canadian person wishing to effect transactions in any of the securities included in this report should do so through BMO Nesbitt Burns Inc.

The following applies if this research was prepared in whole or in part by Colin Hamilton, Alexander Pearce or Raj Ray:

This research is not prepared subject to Canadian disclosure requirements. This research is prepared by BMO Capital Markets Limited and distributed by BMO Capital Markets Limited or Bank of Montreal Europe Plc and is subject to the regulations of the Financial Conduct Authority (FCA) in the United Kingdom and the Central Bank of Ireland (CBI) in Ireland. FCA and CBI regulations require that a firm providing research disclose its ownership interest in the issuer that is the subject of the research if it and its affiliates own 5% or more of the equity of the issuer. Canadian regulations require that a firm providing research disclose its ownership interest in the issuer that is the subject of the research if it and its affiliates own 1% or more of the equity of the issuer that is the subject of the research. Therefore each of BMO Capital Markets Limited and Bank of Montreal Europe Plc will disclose its and its affiliates' ownership interest in the subject issuer only if such ownership exceeds 5% of the equity of the issuer.

To E.U. Residents: In an E.U. Member State this document is issued and distributed by Bank of Montreal Europe plc which is authorised and regulated in Ireland and operates in the E.U. on a passported basis. This document is only intended for Eligible Counterparties or Professional Clients, as defined in Annex II to "Markets in Financial Instruments Directive" 2014/65/EU ("MiFID II").

To U.S. Residents: BMO Capital Markets Corp. furnishes this report to U.S. residents and accepts responsibility for the contents herein, except to the extent that it refers to securities of Bank of Montreal. Any U.S. person wishing to effect transactions in any security discussed herein should do so through BMO Capital Markets Corp.

To U.K. Residents: In the UK this document is published by BMO Capital Markets Limited which is authorised and regulated by the Financial Conduct Authority. The contents hereof are intended solely for the use of, and may only be issued or passed on to, (I) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order") or (II) high net worth entities falling within Article 49(2)(a) to (d) of the Order (all such persons together referred to as "relevant persons"). The contents hereof are not intended for the use of and may not be issued or passed on to retail clients.

To Hong Kong Residents: In Hong Kong, this report is published and distributed by Bank of Montreal. Bank of Montreal (incorporated in Canada with limited liability) is an authorized institution under the Banking Ordinance and a registered institution with the Securities and Futures Commission (CE No. AAK809) to carry on Type 1 (dealing in securities) and Type 4 (advising in securities) regulated activities under the Securities and Futures Ordinance (Cap 571 of the Laws of Hong Kong). This report has not been reviewed or approved by any regulatory authority in Hong Kong. Accordingly this report must not be issued, circulated or distributed in Hong Kong other than (a) to professional investors as defined in the Securities and Futures Ordinance and the Securities and Futures (Professional Investor) Rules under the Securities and Futures Ordinance of Hong Kong, or (b) in circumstances which do not result in or constitute an offer to the public in Hong Kong.

To Korean Residents: This report has been provided to you without charge for your convenience only. All information contained in this report is factual information and does not reflect any opinion or judgement of BMO Capital Markets. The information contained in this report should not be construed as offer, marketing, solicitation or investment advice with respect to financial investment products in this report.

To Japan Residents: This report has not been reviewed by any regulatory authority in Japan. This report is provided for information purposes only and it should not be construed as an offer to sell, a solicitation to buy, or a recommendation for any security, or as an offer to provide investment management or advisory or other services in Japan. Securities may not be offered or sold in Japan by means of this report or any other document other than to Qualified Financial Institutions within the meaning of item (i) of Article 17-3 of the Government Ordinance to enforce the Financial Instruments and Exchange Act (Kinyu Shohin Torihiki Ho Sekou Rei). Unless specified otherwise, the securities that may be offered to you are not and will not be registered in Japan pursuant to the Financial Instruments and Exchange Acts.

To Taiwanese Residents: This report is not intended to constitute investment advice nor a public offer for any investment products to investors in Taiwan. This report should only be accessed by investors in Taiwan that are qualified to invest in investment products pursuant to relevant Taiwanese laws and regulations, and subject to sales restrictions as set forth in the relevant Taiwanese laws and regulations. BMO Capital Markets has not and will not secure the required licenses in Taiwan for the offer of securities and investment services. Any offer of securities has not been and will not be registered or filed with or approved by the Financial Commission of Taiwan and/or other regulatory authority pursuant to relevant securities laws and regulations of Taiwan, and may not be issued, offered or sold within Taiwan through a public offering or in circumstances which constitute an offer that requires a registration, filing or approval of the Financial Supervisory Commission of Taiwan and/or other regulatory authority in Taiwan under relevant securities laws and regulations of Taiwan. No person or entity in Taiwan has been authorized to offer or sell the securities in Taiwan.

To Singapore Residents: This report is intended for general circulation and does not and is not intended to constitute the provision of financial advisory services, whether directly or indirectly, to persons in Singapore. You should seek advice from a financial adviser regarding the suitability of the investment products, taking into account your specific investment objectives, financial situation or particular needs before you make a commitment to purchase the investment product. This report has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, it should not be circulated or distributed, nor may the securities described herein be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (a) to an institutional investor or a relevant person as defined in and pursuant to and in accordance with the conditions of the relevant provisions of the Securities and Futures Act of Singapore or (b) otherwise pursuant to and in accordance with the conditions of, any other applicable provision of the SFA.

To Israeli residents: BMO Capital Markets is not licensed under the Israeli Law for the Regulation of Investment Advice, Investment Marketing and Portfolio Management of 1995 (the "Advice Law") nor does it carry insurance as required thereunder. This document is to be distributed solely to persons that are qualified clients (as defined under the Advice Law) and qualified investors under the Israeli Securities Law of 1968. Energy: Electric Utilities

Midweek Thoughts — CEG, SO, EXC, POR

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

Earlier this week, ES, OTTR, PEG, WEC, EXC, FE, AVA, ETR and AEE reported 2Q23 results. CEG, PNW, SRE, SO, ED, and D are scheduled to report later this week. In other news, partial owners of the STX nuclear plant claim ROFR over NRG's plan to sell its 44% stake in the plant to CEG; SO enters Vogtle Unit 3 into service; BG&E files rebuttal testimony in EXC's MD electric and natural gas rate cases; and the OR Governor signs a securitization bill into law.

Upcoming Earnings Reports

AEE reported after the close today. **CEG, PNW, SRE,** and **SO** report BMO tomorrow (Thursday), followed by **ED** after-market. **D** reports BMO Friday. Our recently published 2Q23 Preview includes our thesis, expectations, and estimates for our coverage. Earlier this week, **ES, OTTR, PEG, WEC, EXC, FE, AVA,** and **ETR** reported earnings. Please scroll down for our takeaways.

Industry News and News from Companies in Our Coverage

CEG — Partial owners of the STX nuclear plant claim ROFR over NRG's plan to sell its 44% stake in the plant to CEG: City Public Service Board of San Antonio and Austin Energy, which own 40% and 16%, respectively, of the facility, jointly filed a motion with the NRC to dismiss the pending License Transfer Application (LTA) between NRG and CEG or have the NRC stay the review of the LTA pending resolution of the lawsuit. The plaintiffs believe that they have a ROFR after NRG agreed to sell its 44% interest to CEG (read more here). NRG believes the suit is without merit and still anticipates closing by year-end.

SO — SO enters Vogtle Unit 3 into service: SO announced that the 1,100 MW Vogtle Unit 3 entered commercial operation on July 31, in line with the Company's latest timeline. The one-month delay from its prior 2Q23 schedule will likely result in $15M of increment capital costs, compared to SO's $10.2B share of the project's total expected costs. The Company previously agreed that it would not seek approval for any costs exceeding the $7.3B forecast presented during VCM 17 hearings. SO will be able to seek a prudence review for all costs once the fuel load begins at Unit 4, expected in the upcoming months after the successful completion of hot-functional testing and receiving the NRC 103(g) finding. With Unit 3 in service, SO will be able to shift more attention to completing and entering Unit 4 into service, expected in late 4Q23 or 1Q24.

EXC — BG&E files rebuttal testimony in EXC's MD electric and natural gas rate cases: BG&E largely reaffirmed its direct testimony while addressing issues raised by intervenors. Specifically, BG&E rebutted the OPC's recommendation to terminate the multi-year pilot and to reduce the capital work plan by $1.3B. BG&E maintained its request for a 10.4% ROE and 52% equity. The equity layer was unopposed by intervening parties. BG&E's initial request sought net increases for the 2024-2027 time period of $314M and $290M for electric and gas, respectively. This is compared to MD PSC Staff's recommended electric and gas revenue increases of $193M and $232, respectively, over the three-year term. Staff's proposed increases are premised on a 9.45% ROE and 52% equity. An MD PSC decision is expected by year-end, with new rates becoming effective in early 2024.

POR — OR Governor signs securitization bill into law: Oregon Governor Kotek signed HB 3143 into law authorizing utilities to securitize costs for declared emergency events, including severe storms, pandemics, or wildfires. The new bill will reduce customer bills while allowing utilities timely recovery at a lower cost of capital. The PUC will be required to approve a securitization request within 180 days of a utility filing. POR was previously required to seek recovery of deferrals, including for a 2020 wildfire ($38M), ice storms ($71M), and COVID-19 ($35M).

Earnings Recap

ETR — ETR reported results ahead of consensus estimates and reaffirmed its full-year guidance and long-term outlook. SERI proceedings remain an overhang, and progress is inching toward clarity from FERC, although there is no statutory deadline. ETR expects to hear a final decision on its TX GRC tomorrow and filed its annual FRPs in AR, LA, and New Orleans in recent months. The Company is currently refreshing its long-term industrial sales forecast, which could further extend the growth opportunity and create incremental opportunity for renewable ownership. Read our full report here.

AVA — AVA reported 2Q results above our estimates, as the Company benefited from the ERM and lower operating costs in the quarter. The Company reaffirmed its full-year guidance but pointed toward the lower end as poor hydro conditions are expected to result in an unfavorable ERM for the year. The Company has reached a couple of regulatory settlements, but we do not expect a material improvement to regulatory lag until 2025. Read our full report here.

FE — FE reported 2Q a couple of pennies ahead of expectations and issued 3Q guidance below expectations while reiterating the FY23 range. More importantly, the Company has once again reiterated its LT 6-8% growth rate target, this time with the new CEO officially at the helm. FE has outlined its regulatory and financial strategy as it continues to take shape. While hearing the 6-8% reiterated, once again, should assuage investor concerns with respect to a potential "reset," the news of another subpoena and below-expectation 3Q guidance will likely dampen the enthusiasm in the NT. Read our full report here.

EXC — EXC reported an in-line quarter and reiterated the 2023 and long-term earnings outlook. While the Company has pending rate cases in several jurisdictions, the one that bears close attention is the IL ComEd MYRP, which is the first under the CEJA and the ROE seems to be the major point of difference between Staff and the ComEd. EXC on its part continues to move all the regulatory proceedings ahead in a timely manner and with many of its regulatory frameworks shifting to multi-year rates plans, earnings volatility should moderate - underpinning the Company's long-term outlook for 6-8% EPS growth through 2026 (stronger growth in the 2H of the planning period as the MYRPs come into effect). The capex outlook remains strong as the energy transition in EXC's densely populated jurisdictions drives T&D expansions. Read our full report here.

WEC — WEC reported 2Q EPS above guidance and consensus, fueled by rate base growth and slightly lower O&M than expected. WEC provided below-Street 3Q guidance but reaffirmed 2023 EPS guidance on expectations of a materially better 4Q relative to 2022. The Company also maintained its 6.5-7% long-term EPS growth rate and expects to refresh its five-year capital plan at EEI later this year, which will explore all financing options. Read our full report here.

PEG — PEG reported an in-line quarter and maintained 2023 guidance and the long-term earnings outlook. The Company announced the execution of its previously stated plan to lift out a portion of the pension to reduce earnings volatility. Regulatory activity continues apace with the GSMP III filing underway and a GRC planned for 4Q23. Nuclear PTC guidance from the IRS is still pending, and we expect that depending on the final form of the guidance, PEG will make further decisions on power hedging, clean hydrogen participation, etc. Read our full report here.

OTTR — OTTR reported EPS of $1.95 vs. our estimate of $1.48 and consensus of $1.45. The Plastics segment saw less modest pricing declines than anticipated, resulting in another beat and raise for the Company. Management now expects the higher-priced environment to continue through 1H24, as prices gradually abate. Longer term, OTTR maintained its 65%/35% earnings mix and its long-term growth rate of 5-7%. Read our full report here.

ES — ES reported a better-than-expected quarter, reiterated the full-year EPS guidance of $4.25-$4.43, and maintained the long-term EPS growth rate of 5-7% with a bias to the upper half of the range. The Company is still working through the mechanics of the sale of offshore projects, and the earlier announced sale of the acreage is on track to close in 3Q. The impairment charge announced of $331M after-tax is larger than the earlier indication of $220M-$280M, an indication of the evolving economics of offshore wind assets and the overall challenging M&A environment at present. Read our full report here.

EXC: No One Minds a Straightforward Update

Key Message: EXC reported results in line with our expectations alongside a relatively straightforward update, in our view. With many of the key data points in the 6 active cases skewed towards later in 3Q/4Q, the team remains focused on bread-and-butter utility execution, including mitigating moderate YTD weather drag at PECO. Alongside an affirmation of the '23 guide and underlying plans, the update was augmented by a positive data point on significant future transmission spend in MD (~$870M), which we unpack further below. We continue to see EXC's discount to the slower-growing group as increasingly unjustified, with yet another quarter of successful execution helping to building incremental comfort with the management team and the fundamentals of the MYP-dependent plan. Our focus for the balance of the quarter remains on the case processes, with incremental data points forthcoming at BGE, ComEd, DPL DE, and Pepco DC. We caught up with management.

As a reminder, we recently upgraded EXC to BUY – see our note HEREfor more and our recent NDR note HERE.

What happened? EXC reported results alongside a straightforward affirmation of the plan and key data points as further case clarity remains weighted towards 4Q. **The update was further augmented by the announcement of an incremental $870M transmission opportunity in BGE tied to the deactivation of Brandon Shores, with initial spend potentially landing in the outer year of the current plan ('26).** The announcement caught some investors off guard, in our view, with the prospects for the new spend underscoring what we see as a slightly underappreciated part of EXC's value proposition: transmission in all its forms. Based on our conversations, the scale of the need here is unique to the constraints and topology of the plant's location within PJM and should not be directly extrapolated to any views on other future retirements. For example, management noted that the spend associated with Indian River in Delmarva was several orders of magnitude smaller. Still, we remain on the lookout for other opportunities given the significant resource turnover across both MAAC and COMED. **For more from PJM – see HERE.**

The retirement-driven spend also comes alongside prospects for significant involvement in OSW interconnections in Delmarva, driven by MD's push for 8.5GWs by 2031. Per management, the MD PSC is required to conduct a study by July 2025 ahead of competitive solicitations – we expect this process will likely resemble NJ's own recent interconnection procurements (awarded last fall - ~$1B for ~3.5GWs of OSW). Management also noted, in response to our questions, that it is involved in PJM's competitive solicitations in the DOM zone, with 4 projects ranging in size from $400M to >$1B. Initial indications from PJM are expected in ~October ahead of Board action in December. **In totality, we continue to see opportunities like these as potentially supportive of the current plan's extension into the back of the decade, not dissimilar to the LRTP Tranche 1/2 discussions around MISO North names.**

2H23 event pathway remains relatively straightforward, in our view, as cases continue to mature. As a reminder, the company now has the staff initial testimony "floor" in 3 of its largest cases, with its remaining MYP processes at Pepco MD still in early innings. The initial staff marks have generally been reasonable, in our view (60-80% of ask range), with the balance of the cases either in smaller jurisdictions (NJ) or in their sophomore MYP (Pepco DC/MD). **We asked management about the prospects for settlements in the BGE and Pepco cases given they are the sophomore MYPs in each respective jurisdiction; however, the team continues to expect fully litigated processes** – it is a fresher commission in MD (on our Watchlist - see our note HERE), and the utilities in the state have historically gone through fully litigated cases. Data points on ComEd remain largely static ahead of surrebuttal testimony and hearings later this month; **however, we remain more focused on the September ALJ filing, which could provide further guardrails/context around the wide bid/ask on ROEs.**

Source: Guggenheim Securities LLC, RRA

EXC reported 1Q23 performance of $0.41, just ahead of our estimate and in line with consensus ($0.40/$0.41). YoY adjusted earnings were $0.03 lower, reflecting interest expense and weather drags on higher distribution rates across the utilities. Across the opcos, ComEd earnings were +$0.02 YoY thanks to another quarter of higher distribution rates (investment and treasuries) alongside $0.01 of benefit from CMC carrying costs (we expect another ~$0.01 of benefit from this phenomenon in 2H23). Earnings were $0.04 lower at PECO, reflecting higher gas distribution rates (+$0.01), which were fully offset by weather (-$0.04), and a variety of higher expenses, including $0.01 of D&A and $0.01 of other. The shoulder month drag from weather at PECO slightly exceeded our expectations. BGE was flat, while PHI added $0.02, courtesy of higher distro rates and other items. Interest expense at the parent dragged $0.03. **Management affirmed 2023 EPS guidance in the range of $2.30-$2.42, vs. our $2.36, which remains unchanged.** 3Q EPS shaping expectations of approximately 28% were also disclosed on the update. Finally, we note that there were few incremental updates on the financing or capex plans as the company still awaits full IRS clarity on CAMT (potentially in ~4Q23), with commentary around financing plan flexibility largely unchanged (e.g., credit upside with the repairs/deduction).

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Valuation

Our valuation is based on our 2025E EPS of $2.74. We use our 16x regulated utility multiple, which is based on our regression model using the correlation between electric utility valuations and forward interest rate expectations over the past 30+ years. To this 16x multiple, we continue to apply a 1-turn premium to each of EXC's subsidiaries for favorable recovery mechanisms (riders, MYPs) and underlying growth/ incremental investment opportunities. We now apply a 1x to ComEd as well for the favorable regulatory mechanisms in place (MYP) and what we see as receding case risk. This blended 17x multiple, applied to our 2025E EPS and discounted back 1 year, equals our $45 PT.

Risks

EXC comprises regulated distribution and transmission assets, which face traditional risk factors and upside drivers inherent with all utilities, including: (1) negative rate case outcomes below our expectations, (2) lower capex outlooks, and (3) interest rate changes above what we account for in our regression model.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

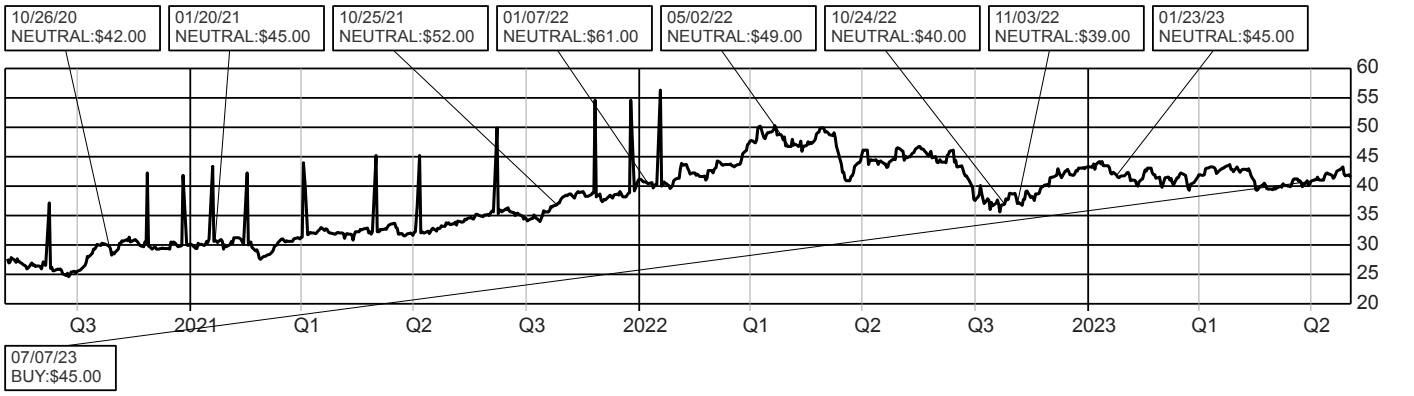
IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Guggenheim Securities, LLC or its affiliates expect(s) to receive or intend(s) to seek compensation for investment banking services from Exelon Corporation in the next 3 months.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

Rating and Price Target History for: Exelon Corporation (EXC) as of 08-01-2023



Created by: BlueMatrix

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

OTHER DISCLOSURES

This research is for our clients and prospective clients only. This research was prepared by personnel who are associated with both Guggenheim Securities, LLC (a FINRA-registered broker-dealer, “Guggenheim Securities”) and Guggenheim Securities Research Services, LLC (an investment adviser, “GSRS,” and together with Guggenheim Securities, “Guggenheim”). If you are paying separately for this research, it is being provided to you by GSRS. Otherwise, it is being provided by Guggenheim Securities. Guggenheim does not create tailored or personalized research and all research provided by Guggenheim is impersonal advice. Other than disclosures relating to Guggenheim and our affiliates, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the research analyst's judgement. Guggenheim Securities conducts a full-service, integrated investment banking and brokerage business. Guggenheim Securities is a member of SIPC (http://www.sipc.org). Guggenheim Securities' salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to Guggenheim Securities' clients and our employees trading for our own account that reflect opinions that are contrary to the opinions expressed in this research. Guggenheim and certain of our affiliates conduct an investment management business, trade for their own accounts, and may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

We and our affiliates, officers, directors, and employees, excluding equity and credit analysts, will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research. We and our affiliates also may sell to or buy from customers on a principal basis the securities described herein. We and our affiliates also do business with, or that relates to, companies covered in Guggenheim research and may have a position in the debt of the company or companies discussed herein.

This research is not an offer to sell or the solicitation of an offer to buy any security. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them will fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

This communication does not constitute an offer of Shares to the public in the United Kingdom. No prospectus has been or will be approved in the United Kingdom in respect of the Securities. Consequently, this communication is directed only at (i) persons who are outside the United Kingdom or (ii) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Order”), (iii) high net worth entities falling within Article 49(2) of the Order (iv) and other persons to whom it may lawfully be communicated (all such persons together being referred to as “relevant persons”). Any investment activity to which this communication relates will only be available to, and will only be engaged with, relevant persons. Any person who is not a relevant person, or otherwise in a territory where it is not intended to, or may not, be distributed, should not act or rely on this document or any of its contents.

Positive Update, Valuation Remains Compelling

We believe EXC provided a solid update, supportive of our view that the transparent growth and stability of the pure play T&D business model warrants a higher valuation than the 4% discount it trades vs. peers. EXC provided clarity on capex opportunities beyond the current plan that could support growth the 6-8% EPS growth, we believe, beyond the '23-26 window. The company continues to show cost discipline to offset interest and other cost pressures and reiterated they expect to be at the mid point or better of the growth rate. We believe the stock sets up well from here over the balance of the year with resolution of both the BGE and ComEd rate cases and potential for additional transmission awards from PJM by year-end.

Generation Retirements and Offshore Wind Drive Transmission Needs Longer-Term

On the call, management highlighted that PJM has recently assigned EXC transmission and substation projects that are needed due to the retirement of the Brandon Shores coal plant. The project is scheduled for completion in 2028 and will cost ~$850mm. This capex is incremental to the current capital plan of $31bn for '23 through '26, although much of the spend will come post this period. We estimate it to be +/-3-4c accretive to run-rate earnings. Additionally, EXC has submitted four transmission proposals to PJM for work in the Dominion territory that range from $300mm to $1.0bn. PJM will provide initial feedback in Sept/Oct and a final decision in December. These projects would also be incremental to the current plan. Lastly, EXC highlighted they will be pursuing transmission projects related to offshore wind development in Maryland and New Jersey. The legislation in Maryland requires solicitations for projects by July of 2025.

BGE and ComEd Rate Cases Likely to Be Fully Litigated; Awaiting CMT Clarity

Management expressed optimism on the progress so far in the BGE and ComEd multi-year rate plan proceedings. Staff positions in both cases have been reasonably constructive in our view (see our notes on BGE here and ComEd here). The company expects both cases to be fully litigated given past precedent for such in Maryland and the regulators in Illinois are likely to see the case through given it is the first plan filed under the new law. Separately, EXC is hopeful it will receive clarity from the U.S. Treasury Dept. by year end on whether repairs tax deduction is included in the CMT. The unmitigated cash flow impact is $200mm/yr and drives whether EXC expects to be at the low end or high end of the 13-14% FFO/Debt target range, with a downgrade threshold of 12%.

Valuation:

We maintain our Buy rating and $47 target.

Company Description

Exelon owns six regulated utility subsidiaries: Atlantic City Electric, BGE, ComEd, Delmarva Power, PECO and the Pepco Subsidiaries, which deliver electricity and natural gas to about 10m customers in Delaware, Washington DC, Illinois, Maryland, New Jersey, and Pennsylvania.

Valuation Method and Risk Statement

Our valuation methodology for the group is price to earnings based. The adjustments applied fall into 5 categories. These are as follows: 1) Group Valuation Bias: Flowing from our valuation work comparing Baa corporate yields to group dividend yields and RU price to earnings ratios to those for the S&P 500, we incorporate a positive or negative adjustment to our group multiple representing the gap we calculate to the nearest 5%; 2) Growth Adjustment: We adjust our valuations based on the growth quartile each utility occupies. First quartile receives a 5% premium, second quartile a 2% premium, third quartile a 2% discount and fourth quartile a 5% discount; 3) Regulatory Adjustment: Our valuation adjustments for regulation are based on our proprietary Regulatory Rankings. First quartile jurisdictions receive 5%, second quartile 2%, third quartile -2% and fourth quartile -5%; 5) Multi Utility Diversified Valuation: For multi utilities (those with more than 15% diversified or foreign earnings), we perform a sum-of-parts analysis applying business/region appropriate valuations to those diversified businesses; 6) One-off Adjustments: In special situations, we value risk on an issue specific basis. Common areas where we apply such an adjustment include: ESG advantage, large project construction risk, legal risk, and announced M&A completion risk.

We maintain our Price Target of $47 premised on a 6% premium to the group multiple or 17.0x our $2.77/share earnings forecast for 2025. Our 6% net premium is derived from a 5% premium for the overall regulated utility group, premised upon the current undervaluation versus the Baa corporate bond, a 3% discount for a 3rd quartile regulatory ranking overall, a 2% premium for 2nd quartile earnings growth, a 5% premium for energy transition, and 3% discount for lower pricing power.

Specific risks for Exelon include regulatory risks at the utilities, weather, and interest rates.

Quantitative Research Review

UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

Exelon Corp

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	3
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	3
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	3
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	3
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	3
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?

Required Disclosures

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

For information on the ways in which UBS manages conflicts and maintains independence of its UBS Global Research product; historical performance information; certain additional disclosures concerning UBS Global Research recommendations; and terms and conditions for certain third party data used in research report, please visit https://www.ubs.com/disclosures. Unless otherwise indicated, information and data in this report are based on company disclosures including but not limited to annual, interim, quarterly reports and other company announcements. The figures contained in performance charts refer to the past; past performance is not a reliable indicator of future results. Additional information will be made available upon request. UBS Securities Co. Limited is licensed to conduct securities investment consultancy businesses by the China Securities Regulatory Commission. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 02 August 2023 08:00 PM GMT. UBS has designated certain UBS Global Research department members as Derivatives Research Analysts where those department members publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient upon which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For the latest responses, please see the Quantitative Research Review Addendum at the back of this report, where applicable. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research team on the email above.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that with respect to each security or issuer that the analyst covered in this report: (1) all of the views expressed accurately reflect his or her personal views about those securities or issuers and were prepared in an independent manner, including with respect to UBS, and (2) no part of his or her compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Global Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	54%	41%
Neutral	FSR is between -6% and 6% of the MRA.	37%	43%
Sell	FSR is > 6% below the MRA.	9%	36%
Short-Term Rating	**Definition**	**Coverage[3]**	**IB Services[4]**
Buy	Stock price expected to rise within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%
Sell	Stock price expected to fall within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%

Source: UBS. Rating allocations are as of 30 June 2023.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.
3:Percentage of companies under coverage globally within the Short-Term rating category.
4:Percentage of companies within the Short-Term rating category for which investment banking (IB) services were provided within the past 12 months.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

KEY DEFINITIONS: Forecast Stock Return (FSR) is defined as expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is defined as the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged as UR by the analyst, indicating that the stock's price target and/or rating are subject to possible change in the near term, usually in response to an event that may affect the investment case or valuation. **Short-Term Ratings** reflect the expected near-term (up to three months) performance of the stock and do not reflect any change in the fundamental view or investment case. **Equity Price Targets** have an investment horizon of 12 months.

EXCEPTIONS AND SPECIAL CASES: UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record, discount; **Neutral:** Neutral on factors such as structure, management, performance record, discount; **Sell:** Negative on factors such as structure, management, performance record, discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Committee (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed to be very high or low risk may be subject to higher or lower bands as they relate to the rating. When such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by any non-US affiliate of UBS Securities LLC are not registered/ qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to the FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. The Disclaimer relevant to Global Wealth Management clients follows the Global Disclaimer.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions expressed in this document may change without notice and are only current as of the date of publication. Different areas, groups, and personnel within UBS may produce and distribute separate research products independently of each other. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. **Credit Suisse Global CIO Office Research** is produced by Credit Suisse Wealth Management. **Credit Suisse Securities Research** is produced by Credit Suisse operating under its Securities Research function within the Investment Banking Division. Research methodologies and rating systems of each separate research organization may differ, for example, in terms of investment recommendations, investment horizon, model assumptions, and valuation methods. As a consequence, except for certain economic forecasts (for which UBS CIO and UBS Global Research may collaborate), investment recommendations, ratings, price targets, and valuations provided by each of the separate research organizations may be different, or inconsistent. You should refer to each relevant research product for the details as to their methodologies and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy the document.

UBS Global Research is provided to our clients through UBS Neo, and in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each a system) as an approved means for distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties via e-mail or alternative electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss your access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or has made use of data provided by UBS Evidence Lab and you would like to access that data please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending upon various factors such as a client's individual preferences as to the frequency and manner of receiving communications, a client's risk profile and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term, etc.), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab and legal and regulatory constraints.

When you receive UBS Global Research through a system, your access and/or use of such UBS Global Research is subject to this UBS Global Research Disclaimer and to the UBS Neo Platform Use Agreement (the "Neo Terms") together with any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and cookie notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or by any other means, you agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and that you shall not extract data from any research or estimates provided to you via UBS Global Research or otherwise, without the prior written consent of UBS.

In certain circumstances (including for example, if you are an academic or a member of the media) you may receive UBS Global Research otherwise than in the capacity of a client of UBS and you understand and agree that (i) the UBS Global Research is provided to you for information purposes only; (ii) for the purposes of receiving it you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) the UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is a general communication and is educational in nature; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. The recipient should carefully read this document in its entirety and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "The Characteristics and Risks of Standardized Options." You may read the document at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks associated with these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies calling for multiple purchases and sales of options, such as spreads and straddles. Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions.

Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the Information.

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes:

(i) valuation or accounting purposes;

(ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or

(iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS Global Research manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. All material information in relation to published research reports, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history etc. as required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by UBS Global Research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms under English law or, if not carried out by UBS in the UK the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months UBS may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

United Kingdom: This material is distributed by UBS AG, London Branch to persons who are eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority and subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. **Europe:** Except as otherwise specified herein, these materials are distributed by UBS Europe SE, a subsidiary of UBS AG, to persons who are eligible counterparties or professional clients (as detailed in the Bundesanstalt fur Finanzdienstleistungsaufsicht (BaFin) Rules and according to MIFID) and are only available to such persons. The information does not apply to, and should not be relied upon by, retail clients. UBS Europe SE is authorised by the European Central Bank (ECB) and regulated by the BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE. In all cases it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for the purpose of offering, marketing and sale by any means of any capital market instruments and services in the Republic of Turkey. Therefore, this document may not be considered as an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, according to article 15 (d) (ii) of the Decree No. 32, there is no restriction on the purchase or sale of the securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce regulated by the Polish Financial Supervision Authority. Where an analyst of UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce. **Russia:** Prepared and distributed by UBS Bank (OOO). Should not be construed as an individual Investment Recommendation for the purpose of the Russian Law - Federal Law #39-FZ ON THE SECURITIES MARKET Articles 6.1-6.2.**Switzerland:** Distributed by UBS AG to persons who are institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** The information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties, as classified under the DFSA rulebook. No other person should act upon this material/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS Investment Bank is not licensed to provide banking services in the UAE by the Central Bank of the UAE, nor is it licensed by the UAE Securities and Commodities Authority. **Israel:** This Material is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer that is supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or in distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as such term is defined under the Israeli Advisory Law). Nothing in this Material should be considered as investment advice under the Israeli Advisory Law. This Material is being issued only to and/or is directed only at persons who are Eligible Clients within the meaning of the Israeli Advisory Law, and this Material must not be furnished to, relied on or acted upon by any other persons. **United States:** Distributed to US persons by either UBS Securities LLC or by UBS Financial Services Inc., subsidiaries of UBS AG; or by a group, subsidiary or affiliate of UBS AG that is not registered as a US broker-dealer (a **'non-US affiliate'**) to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this report must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG that is registered to conduct business in Canada or is otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this Material is prepared by UBS Brasil Corretora de Câmbio, Títulos e Valores Mobiliários S.A. (UBS Brasil CCTVM) to persons who are eligible investors residing in Brazil, which are considered to be Professional Investors (Investidores Profissionais), as designated by the applicable regulation, mainly the CVM Resolution No. 30 from the 11th of May 2021 (determines the duty to verify the suitability of products, services and transactions with regards to the client´s profile). UBS Brasil CCTVM is a subsidiary of UBS BB Servicos de Assessoria Financeira e Participacoes S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB – Banco de Investimentos S.A.), of which UBS AG is the majority owner and which provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. **Hong Kong:** Distributed by UBS Securities Asia Limited. Please contact local licensed persons of UBS Securities Asia Limited in respect of any matters arising from, or in connection with, the analysis or document **Singapore:** Distributed by UBS Securities Pte. Ltd. [Co. Reg. No.: 198500648C] or UBS AG, Singapore Branch. Please contact UBS Securities Pte. Ltd., an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110); or UBS AG, Singapore Branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or document. The recipients of this document represent and warrant that they are accredited and institutional investors as defined in the Securities and Futures Act (Cap. 289). **Japan:** Distributed by UBS Securities Japan Co., Ltd. to professional investors (except as otherwise permitted). Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the

Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies and styles approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or Sustainable Investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio consisting primarily of sustainable investments may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ. Companies may not necessarily meet high performance standards on all aspects of ESG or sustainable investing issues; there is also no guarantee that any company will meet expectations in connection with corporate responsibility, sustainability, and/or impact performance.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosures_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Bahrain: UBS is a Swiss bank not licensed, supervised or regulated in Bahrain by the Central Bank of Bahrain to undertake banking or investment business activities in Bahrain. Therefore, prospects/clients do not have any protection under local banking and investment services laws and regulations. **Brazil**: This report is only intended for Brazilian residents who are directly purchasing or selling securities in the Brazil capital market through a local authorized institution. **Canada**: The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. Under no circumstances is the information contained herein to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada or, alternatively, pursuant to a dealer registration exemption. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon these materials, the information contained herein or the merits of the securities described herein and any representation to the contrary is an offence. In Canada, this publication is distributed by UBS Investment Management Canada Inc. **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Czech Republic**: UBS is not a licensed bank in the Czech Republic and thus is not allowed to provide regulated banking or investment services in the Czech Republic. This communication and/or material is distributed for marketing purposes and constitutes a "Commercial Message" under the laws of Czech Republic in relation to banking and/or investment services. Please notify UBS if you do not wish to receive any further correspondence. **Denmark**: This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annae Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. UBS Europe SE, Denmark Branch, filial af UBS Europe SE is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Danish Financial Supervisory Authority (Finanstilsynet), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Egypt**: Securities or other investment products are not being offered or sold by UBS to the public in Egypt and they have not been and will not be registered with the Egyptian Financial Regulatory Authority (FRA). **France**: This publication is not intended to constitute a public offer under French law, it does not constitute a personal recommendation as it is distributed only for information purposes to clients of UBS (France) S.A., French "société anonyme" with share capital of € 132.975.556, at 69 boulevard Haussmann F-75008 Paris, registered with the "Registre du Commerce et des Sociétés" of Paris under N° B 421 255 670. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed without the consent of UBS. None of the Material has been registered or filed under the prevailing laws and with any financial or regulatory authority in your jurisdiction. The Material may not have been approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. In Israel, UBS Switzerland AG is registered as Foreign Dealer in cooperation with UBS Wealth Management Israel Ltd., a wholly owned UBS subsidiary. UBS Wealth Management Israel Ltd. is an Investment Marketing licensee which engages in Investment Marketing and is regulated by the Israel Securities Authority. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. No action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Nigeria**: The investment products mentioned in this material are not being offered or sold by UBS to the public in Nigeria and they have not been submitted for approval nor registered with the Securities and Exchange Commission of Nigeria. If you are interested in products of this nature, please let us know. The investment products mentioned in this material are not being directed to, and are not being made available for subscription by any persons within Nigeria other than the selected investors to whom the offer materials have been addressed as a private sale or domestic concern within the exemption and meaning of Section 69(2) of the Investments and Securities Act, 2007 (ISA). This material has been provided to you at your specific unsolicited request and for your information only. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the

Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: UBS Switzerland AG is not licensed to conduct banking and financial activities in Portugal nor is UBS Switzerland AG supervised by the portuguese regulators (Bank of Portugal "Banco de Portugal" and Portuguese Securities Exchange Commission "Comissão do Mercado de Valores Mobiliários"). **Qatar**: UBS Qatar LLC is authorized by the Qatar Financial Centre Regulatory Authority, with QFC no. 01169, and has its registered office at 14th Floor, Burj Alfardan Tower, Building 157, Street No. 301, Area No. 69, Al Majdami, Lusail, Qatar. UBS Qatar LLC neither offers any brokerage services nor executes any order with, for or on behalf of its clients. A client order will have to be placed with, and executed by, UBS Switzerland AG in Switzerland or an affiliate of UBS Switzerland AG, that is domiciled outside Qatar. It is in the sole discretion of UBS Switzerland AG in Switzerland or its affiliate to accept or reject an order and UBS Qatar LLC does not have authority to provide a confirmation in this respect. UBS Qatar LLC may however communicate payment orders and investment instructions to UBS Switzerland AG in Switzerland for receipt, acceptance and execution. UBS Qatar LLC is not authorized to act for and on behalf of UBS Switzerland AG or an affiliate of UBS Switzerland AG. This document and any attachments hereto are intended for eligible counterparties and business customers only. **Russia**: This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia**: UBS Saudi Arabia is authorised and regulated by the Capital Market Authority to conduct securities business under licence number 08113-37. **Singapore**: Clients of UBS AG Singapore branch are asked to please contact UBS AG Singapore branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or report. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved or endorsed by any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Sweden**: This publication is not intended to constitute a public offer under Swedish law. It is distributed only for information purposes to clients of UBS Europe SE, Sweden Bankfilial, with place of business at Regeringsgatan 38, 11153 Stockholm, Sweden, registered with the Swedish Companies Registration Office under Reg. No 516406-1011. UBS Europe SE, Sweden Bankfilial is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Swedish supervisory authority (Finansinspektionen), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Taiwan**: This material is provided by UBS AG, Taipei Branch in accordance with laws of Taiwan, in agreement with or at the request of clients/prospects. **Thailand**: This communication and any offering material, term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication were done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Alert

August 02, 2023

Energy: Electric Utilities

NYSE: EXC

Exelon Corporation

EXC: Moving Ahead as Planned, No Surprises in 2Q, Reiterating SW

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

EXC reported an in line quarter and reiterated the 2023 and long-term earnings outlook. While the Company has pending rate cases in several jurisdictions, the one that bears close attention is the IL ComEd MYRP, which is the first under the CEJA and the ROE seems to be the major point of difference between Staff and the ComEd. EXC on its part continues to move all the regulatory proceedings ahead in a timely manner and with many of its regulatory frameworks shifting to multi-year rates plans, earnings volatility should moderate - underpinning the Company's long-term outlook for 6-8% EPS growth through 2026 (stronger growth in the 2H of the planning period as the MYRPs come into effect). The capex outlook remains strong as the energy transition in EXC's densely populated jurisdictions drives T&D expansions. We remain Sector Weight on valuation while recognizing EXC's steady execution across several disparate jurisdictions.

EXC's 2Q was in line with expectations: EXC reported an in line quarter that matched consensus and was a penny ahead of our $0.40 estimate. Results by utility were also mostly in line with our breakdown. PECO earnings were below our forecast on unfavorable weather, the impact of which we underestimated.

Figure 1 - EXC 2Q Earnings Reconcilation

2Q23	EXC	KBCM
ComEd	0.25	0.24
PECO	0.10	0.13
BG&E	0.04	0.04
PHI	0.12	0.11
Parent	(0.10)	(0.11)
EXC	**0.41**	**0.40**
Consensus	**0.41**	

Source: Company Reports, KBCM Estimates, Thomson Reuters

2023 guidance reiterated: EXC reiterated 2023 EPS guidance of $2.30-$2.42 vs. our estimate of $2.36 (also consensus). There is also no change to the 6-8% earnings CAGR from 2022-2026 with an expectation to deliver at the midpoint or better. Our 2026E EPS of $2.92 implies a 6.5% CAGR, with an expectation for a stronger cadence of growth over the second half of the reference period.

Capex is unchanged but the energy transition lengthens the capex runway: There is no change to EXC's capex plan of $7.2B for 2023 or the long-term $31B capex plan through 2026 (resulting in an estimated 8% rate base growth rate), but there appear to be projects in the pipeline that could further extend the capex runway. A case in point is the recent award of $870M in transmission projects by PJM to address reliability needs in MD resulting from fossil retirements that will fall beyond the current capex guidance. Beyond the $870M, EXC is bidding in the open window for projects needed by the PJM to support load growth and has submitted four different proposals ranging from $300M to over $1B. A PJM decision is expected by YE. To add to this are offshore-related T&D opportunities in MD and NJ. MD is mandated to issue a solicitation for transmission infrastructure for offshore wind by mid-2025. EXC has received $24M in awards under the first NJ offshore T&D solicitation with the potential for more down the road. Recently, ComEd and BGE were each awarded ~$15M through the Middle Mile Grant by the DoC's National Telecommunications and Information Administration. ComEd will use the funding to enhance grid reliability and resilience while helping to increase broadband connectivity across areas in Chicago. BGE's grant will go toward a $31M project to underground 70 route miles of underground middle-mile fiber infrastructure.

Balance Sheet management, and pending clarity on the AMT: There is no change to EXC's strategy of maintaining a 100-200 bps cushion over the downgrade threshold of 12%, and to that end, the Company executed a stock issuance plan earlier and has a $425M

equity plan by 2025. There is still no clarity from the IRS on the applicability of the AMT as written in the IRA and depending on whether the final regulations allow for a mitigation in the anticipated AMT, it could add ~50 bps to the FFO/debt over the projected ~13%.

Regulatory update:

- **IL Electric MYRP:** The IL electric MYRP remains the most watched rate proceeding especially as it relates to the debate on the ROE where Staff is insisting that the current framework of the 30-year Treasury +580 bps should remain the norm while EXC has argued that that framework was sunset when the CEJA superseded the IL Energy Infrastructure Modernization Act and a more traditional rate making procedure is warranted. Evidentiary hearings begin in late August, a proposed order is due on October 23, and December 20 is the ICC's deadline to issue a decision.
- **BGE MYRP:** BGE filed the second MYRP in 1Q23 for a three-year period based on a 10.4% ROE and 52% equity seeking a cumulative net $314M electric and a $290M gas rate increase over 2024-2026. The proceeding will also true up the first two years of BGE's first MYRP and it is seeking recovery of an imbalance of $17.8M for 2021 and $58.7M for 2022. Staff recommended three-year electric and gas revenue increases of $193M and $232M, respectively, premised on a 9.45% ROE and 52% equity. A final commission order is expected before YE.
- **Atlantic City Electric** distribution rate case in NJ is underway and EXC filed seeking a revised $94M rate increase, on a 10.5% ROE and 50.2% equity. The main drivers of the request include recovery of investments to the distribution system, AMI infrastructure, and investments needed to meet the targets set in the NJ Energy Master Plan. BPU approved a 4-year capital tracker for $93M of projects intended to enhance reliability and resiliency Intervenor testimony is scheduled for September and the NJ BPU is expected to issue an order by November 17.
- **DPL DE Electric** distribution filing is underway. DPL DE filed supplemental testimony to reflect actual data through YE22 and projections through 1H23 and revised the revenue requirement to $42M (also 10.5% ROE). Intervenor testimony is scheduled for August and a final order is expected in April 2024. EXC has interim rates in place that went into effect in mid-July.
- **PEPCO DC**'s second MYRP is underway seeking base rate increases for a three-year period through 2026 to support the District's clean energy programs and its goal to become carbon-neutral by 2045. The rate case is premised on a 10.5% ROE, intervenor testimony is scheduled for October 16, and a final outcome is expected in April next year.
- **PEPCO MD** filed an electric MYRP (Docket: 9702) in May seeking a cumulative net increase of $214M, premised on a 10.5% ROE and 50.5% equity (net $74M revenue increase in 2024, $60M each in 2025 and 2026, and a $20M revenue increase in April 2027-December 2027, allowing the next MYRP to become effective at the beginning of 2028. Like the BG&E filings, EXC proposes smoothing the rates over three years by accelerating the amortization of ADIT benefits. An MD PSC decision is expected by March 11, 2024, with new rates becoming effective in April 2024.

Recent Research: EXC: Steady Execution Across Multiple Jurisdictions; Sector Weight on Valuation; EXC: In Line Quarter; Clarity on Multi-Year EPS Cadence; IL Rate Case Is the Main Item to Watch in 2023; EXC: 3Q Beats, Longer-Term Growth Rate Reiterated, but Cadence Will Be Uneven; EXC: No Surprises in the Quarter, but the IRA Could Bring a Bigger Tax Bill; EXC: Delivering on Track Results as a Regulated Utility

Valuation: Based on a stock price of $41.41 and our 2024E EPS of $2.52, shares of EXC are trading at a P/E ratio of ~16x, representing a 1% discount to Large-Cap Regulated Utilities trading at ~16x. We view the shares as fairly priced at current levels.

Risks: EXC's regulated utilities are exposed to a number of risks, including regulatory risk in its jurisdictions and on the federal level, weather variations affecting electricity demand and the reliability of its system, interest rate risk affecting its cost of capital, and macroeconomic risk as underlying economic activity affects demand for electric power and gas. Should the impacts of these risks be greater than we currently anticipate, the Company and the shares may underperform relative to our expectations. Conversely, should these risks' impact be less than anticipated, the Company and the shares may outperform relative to our current expectations.

ETR – ETR reports 2Q23 EPS beat vs. consensus; 2023 guidance reiterated

EXC – **EXC reports 2Q23 earnings**

FE – reports slight 2Q23 beat vs Gugg/consensus; reaffirms 2023 guidance & LT EPS trajectory

NI – reports in line 2Q23; raises 2023 EPS guidance to upper half of $1.54–$1.60 range

SR misses on fiscal 3Q23 EPS; lowers FY23 guidance

AVA beats on 2Q23; now expects FY23 to be "in the lower end" of existing range of $2.27–$2.47

PCG – CA residents file law suit related to environmental damages associated with the Dixie fire

CNP – CNP prices issuance of $900M convertible notes; 4.25% coupon

CEG/NRG – CPS files lawsuit against STP sale in Texas state court and motion at NRC

FE – New subpoena disclosures in 10-Q

SMR – SDA process advances at NRC

AEP – Local media coverage of ApCo's ENEC filing in West Virginia

AR – Arkansas lawmakers debate crypto mining rules

Texas – Economic indicators remain mixed in latest Dallas Fed Surveys

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

ETR – ETR reports 2Q23 EPS beat vs. consensus; 2023 guidance reiterated

- ETR reported a 2Q23 adjusted EPS of $1.84 vs. $1.68 consensus and our $1.55 estimate.
- 2Q23 results included $0.07 of weather benefit vs. normal but a -$0.17 change year over year (YTD -$0.15 vs. normal guidance assumption).
- ETR provided drivers updates for 2023 adjusted EPS guidance range of $6.55 – $6.85 vs. consensus estimates of $6.70 and our estimate of $6.71.
- Assumptions in guidance include 0.7% sales growth vs. 1% prior (less favorable than prior).
- Utility taxes other than income taxes guidance is an incremental $0.05 drag vs. prior assumptions.
- ETR expects ~$0.15 YoY parent contribution vs. $0.20 prior due to lower residual EWC revenue and parent interest.
- ETR reiterated LT EPS growth guidance range of 6-8%.
- Equity needs through 2024 are ~$130M (unchanged, but equity issuance settled in Nov 2022).

EXC ─ EXC reports 2Q23 earnings

- EXC reported 2Q23 EPS of $0.41 vs. Gugg/Cons of $0.40/$0.41
- Reaffirmed 2023 EPS guide of $2.30-$2.42
- PECO weather dragged $0.03, Parent interest also dragged $0.03 vs. 2Q22
- 100% of debt financings for 2023 executed in 1H23
- The company's multiple distribution cases "proceeding in line with schedules"
- 2023 operating ROE remains "on track" for 9-10% (no change from 1Q23)
- ComEd DPA completed
- Call at 10AM, details HERE, Slides HERE

FE reports slight 2Q23 beat vs. Gugg/consensus; reaffirms 2023 guidance & LT EPS trajectory

- **2Q23 Operating EPS:** $0.47 reported, vs. Gugg/consensus of $0.45/$0.46 and guidance of $0.40–$0.50 ($0.45 midpoint)
- **Weather vs. normal:** -$0.05 in 2Q23; -$0.16 YTD; **YoY Weather:** -$0.06 vs 2Q22; -$0.18 vs 1H22
- **Guidance (FY23):** reaffirmed $2.44-$2.64 ($2.54 midpoint), vs. Gugg/consensus both at $2.54/$2.54
- **Guidance (3Q23):** $0.80–$0.90 ($0.95 midpoint)
- **LT EPS Growth:** reaffirmed 6%-8% LT annual operating EPS growth rate, based off the previous year's guidance midpoint
- **Signal Peak:** EPS guidance removed from 2Q23 slides (was on slide 6 in 1Q23 deck)
- **Capex:** Reaffirmed ~$18bn plan ('21–'25), along with annual capex guidance figures
- **Credit:** reaffirmed FFO/Debt target of ~14%–15%, with a "*long-term aspiration to be a BBB company*"
  - Remain focused on lowering FE Corp. Holdco debt as a percentage of total balance sheet debt
  - Continuing to target investment grade credit ratings at Moody's (**11% CFO pre-WC/ Debt upgrade threshold**) and S&P (**12% FFO/Debt upgrade threshold**); already achieved at Fitch
  - "*S&P could raise the ratings on FE over the next 12-24 months if: Upon close of the FET minority stake sale the company uses proceeds in a credit supportive manner, such that FFO to debt is consistently above 12% or FE meet its obligations under its DPA*." (**2/10/23 Credit Opinion**)
  - "*Moody's rating upgrade could be considered if FirstEnergy's financial profile strengthens, including cash flow from operations before changes in working capital (CFO pre-WC) to debt above 11%, on a sustained basis and its improved business risk profile is maintained. In addition, the regulatory environments in all of its jurisdictions remain stable and the company demonstrates more of a track record of sound corporate governance and internal controls, a rating upgrade could be possible*." (**11/20/22 Credit Opinion**)

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

- **2023 rate cases: MD** (filed March 22nd), **NJ** (filed March 16th), **WV** (filed May 31st)
- **2024 rate cases: OH** (May 2024), **PA** (1Q24)
- Other key filings:
  - **OH:** Filed ESP V on April 5th as expected (ESP IV expires 5/31/2024)
  - **PA:** Filed application to consolidate PA operating companies on March 6th
  - **NJ:** Plan to file IIP in summer 2023
  - **MD:** Filed second phase of EDIS with base rate case on March 22nd
  - **PA/VA/FERC:** FET 30% Interest Sale (Filed for approval: FERC/PA on 5/5, VA on 5/12)
  - **PA:** Plan to file LTIP in summer 2024
- FE will be hosting a call at **10:00 AM ET**. The dial-in is **877-269-7756** and the conference ID is **14070**

NI reports in line 2Q23; raises 2023 EPS guidance to upper half of $1.54–$1.60 range (now implies midpoint of $1.59 vs. $1.57, previously), and vs. Gugg/consensus each at $1.57

- **2Q23 net operating EPS:** $0.11 vs. Gugg/consensus also at $0.11/$0.11
- **Asset sale update:** NIPSCO minority sale agreement with Blackstone Infrastructure Partners previously announced…filed FERC 203 Application; "on track to close by year-end"
- **Credit:** continuing to target 14%-16% FFO/debt post-sale of NIPSCO minority interest
- **EPS CAGR:** reiterates 6%-8% expected annual NOEPS growth through 2027
- **Cost management:** reiterates guidance of flat O&M
- **Capex:** $15bn 2023–2027 capex plan reiterated, along with 2023 capital investment guidance
- **Rate Base:** reiterated 8%-10% expected annual rate base growth; recall that FY22 projected rate base was estimated at ~$16.6bn
- **Credit:** ~$12.6bn of total debt as of June 30, 2023; ~$11.0bn of LT debt; ~12yr weighted average maturity; 3.93% weighted average interest rate
- Committed to maintaining current investment-grade credit ratings: S&P (BBB+), Moody's (Baa2), and Fitch (BBB)
- **Financing:** maintains 2023–2027 financing plan; equity plans (excluding the remarketed equity units of $863m) are to restart the company's ATM equity in 2025+, to support current investment grade credit ratings; may also be used to redeem o/s preferred stock ($900m)
- **TSR:** continuing to target 9%-11% total shareholder return
- **Dividend:** reiterated 60%–70% payout target
- Presentation is available HERE
- Call is at **11:00am: (888) 330-2391, Passcode: 28323**

SR misses on fiscal 3Q23 EPS; lowers FY23 guidance

- **F3Q23 Net Economic EPS:** -$0.42 vs. Gugg/consensus of -$0.18/-$0.04, respectively
- **FY23 Guidance:** lowered to $4.15–$4.25 ($4.20 midpoint) from $4.20–$4.30 ($4.25 midpoint) previously… compares vs. Gugg/consensus of $4.25/$4.27, respectively
- **LT EPS growth:** reaffirmed 5%-7%
- **FFO/Debt target:** maintained 15%–16%
- **2023 Capex:** $700m guidance reiterated
- **10-year Capex Plan:** reiterated $7.0bn capex program for FY23–FY32
- **Rate Base Growth:** Reaffirmed 7%–8% annual rate base growth
- Presentation will be posted HERE once available (*not yet released*)
- Earnings call will be held today at 9**:00 AM ET**… Dial-in: **844-824-3832**…(**no access code**)

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

AVA beats on 2Q23; reports $0.23 vs. Gugg/consensus of $0.15/$0.15; now expecting to be "in the lower end" of existing 2023 annual guidance of $2.27–$2.47 vs. Gugg/ consensus at $2.28/$2.32

- **Weather:** AVA is decoupled from weather; however, the company can still be impacted to the extent that weather influences its ERM.
- **AVA CEO:** "*The month of May brought record-high temperatures to our service territory and caused the snowpack to melt faster than expected. As a result, this has been one of our worst years for hydroelectric generation.*"
- AVA now expects to be in the lower end of its guidance range for 2023 **as a result of incurring -$0.08 from its ERM**.
- **Seasonality/shaping:** Excluding the ERM, AVA now expects the remainder of its 2023 EPS to fall ~5% in 3Q22, and ~50% in 4Q22
- **Effective tax rate:** -49.8% in 2Q23, vs -9.6% in 2Q22; YTD EFT of -20.8% in 2023 vs. -16.6% in 1H22
- **Other businesses**: -$0.13 lower YoY in 2Q23, primarily due to recognizing net investment losses in 2023 vs. net investment gains recognized in 2Q22
- **Capex:** 2023 capex guidance at Avista Utilities was reiterated at $475m, and AEL&P's at $19m
- **Debt Financing:** AVA issued $250m of long-term debt in 1Q23 and does not expect to issue further LT debt this year
- **Equity Financing:** $60m of equity has been issued YTD, and common stock issuance guidance was maintained at $120m for 2023
- Presentation is available HERE
- Call is at **10:30am at 844-543-0451… PIN: 642193**

PCG – CA residents file lawsuit related to environmental damages associated with the Dixie fire

- Attorneys for Northern California residents filed a class action lawsuit in San Francisco Superior Court alleging Dixie and Fly fire environmental damages caused long-lasting health impacts, alleging PG&E responsibility.
- The lawsuit targets the substances found inside the wildfire smoke, which was a mixture of air pollutants, carbon monoxide, carbon dioxide, nitrogen oxides, and other volatile compounds.
- More here.
- Calfire previously issued a report finding PG&E wires at fault for starting the Dixie fire.
- Press release here.
- PG&E previously shared an extensive amount of information on the fire and stands by the position that the company acted as a prudent operator.
- PR Here.

Guggenheim takeaway: *The lawsuit is another liability in the stack for Dixie fire, and while the merit of the case is unclear, it could add to potential liability. While the report did implicate PG&E equipment as the source of the fire, the determination of neglect and ultimate liability is outside the scope of the CalFire report. PCG positions remain in line with prior stated facts. The reports surrounding Dixie did indicate possible electrical line contact around the time and place of suspected fire ignition, but there have been no negligence datapoints and PG&E has been fairly transparent in disclosures. PG&E disclosures on the potential Dixie Liability included a reg asset being recorded for utilization of recovery including AB1054 wildfire fund. While this will continue to be a 2023 issue, we see little fundamentally changing for PG&E at this point.*

CNP – CNP prices issuance of $900M convertible notes; 4.25% coupon

- CNP announced pricing of $900M of convertible notes.
- Pricing will be 4.25%, $36.86/sh conversion price.
- The issuance is a part of CNP's flexible liability management.

Guggenheim takeaway: *We caught up with the company yesterday and the convertible note is a part of financing flexibility that could help reduce rising interest costs. CNP noted rising costs of rolling the expired preferred equity given the current SOFR (5.3%) and credit spreads resulting in very expensive preferred costs (~9%). This option would be credit*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

neutral, but earnings accretive from lower interest cost, and the dilution from a potential equity settlement if the stock reaches the required premium would be lower over time than the potential accretion from saved interest.

CEG/NRG ─ CPS files lawsuit against STP sale in Texas state court and motion at NRC

- The San Antonio muni was joined by fellow muni Austin Energy in the proceedings.
- "On July 28, 2023, NRG accepted service of a lawsuit filed by the City of San Antonio, Texas, acting by and through the City Public Service Board of San Antonio ("CPS") in the 130th District Court of Matagorda County, Texas (the "CPS Lawsuit") claiming the existence of a right of first refusal that applies to the transaction contemplated by the Equity Purchase Agreement. On July 31, 2023, CPS and Austin Energy jointly filed a motion with the Nuclear Regulatory Commission ("NRC") seeking to dismiss the pending License Transfer Application ("LTA") between NRG and Constellation, or in the alternative, having the NRC staff to stay their review of the LTA pending resolution of the CPS lawsuit. Also on July 31, 2023, Austin Energy intervened in the CPS Lawsuit claiming a similar right of first refusal." - NRG
- More HERE

Guggenheim takeaway: *Per our catch up with the company, there are multiple layers to the ownership structure of STP, with the participation agreement at the project level specifically exempting the upstream entity from a ROFR in their view. We see this set of actions as noise at this juncture (unclear if San Antonio/Austin could even assemble a rival offer), with the NRC venue a particular irregularity given this is more of a legal/contractual dispute. We continue to monitor. NRG maintains its expectation that the deal will close by YE. We note CPS has not shied from litigation related to STP/new nuclear in the past (e.g., **HERE**, **HERE**).*

FE ─ New subpoena disclosures in 10-Q

- **FE 10-Q (pg 29):** "*On June 29, 2023, the OOCIC served FE a subpoena, seeking information relating to the conduct described in the DPA. FirstEnergy was not aware of the OOCIC's investigation prior to receiving the subpoena and understands that the OOCIC's investigation is also focused on the conduct described in the DPA. FirstEnergy is cooperating with the OOCIC in its investigation. No contingency has been reflected in FirstEnergy's consolidated financial statements, as a loss is neither probable, nor is a loss or range of loss reasonably estimable.*"
- **Also:** "*On April 28, 2021, July 11, 2022, and **May 25, 2023**, the SEC issued additional subpoenas to FE, with which FE has complied. While no contingency has been reflected in its consolidated financial statements, FE believes that it is probable that it will incur a loss in connection with the resolution of the SEC investigation. Given the ongoing nature and complexity of the review, inquiries and investigations, FE cannot yet reasonably estimate a loss or range of loss that may arise from the resolution of the SEC investigation.*"
- More HERE

Guggenheim takeaway: *Flagging for your awareness — the OOCIC subpoena requests information related to the DPA (disclosed as part of the DPA in 2021 and other proceedings/ audits). The SEC subpoena requested supplemental information as part of their ongoing investigation… both are HB6 related.*

SMR ─ SDA process advances at NRC

- SMR "announced the U.S. Nuclear Regulatory Commission (NRC) accepted its Standard Design Approval (SDA) Application for formal review. After beginning the **technical review of NuScale's application** in March 2023, the NRC has docketed the application for NuScale's VOYGR-6 plant design featuring an uprated 77 MWe small modular nuclear reactor (SMR), which will support capacity requirements for a wider range of customers. The NRC provided a 24-month review schedule for approval, which will align with the timing needs of NuScale's U.S. customers."
- More HERE

Guggenheim takeaway: *Modest milestone as the 77MWe uprate remains on track for review ahead of deployment to initial customers by the end of the decade (CFPP and Romania). While we continue to monitor the process, as the company notes, the approval for the earlier 50MWe design sets a helpful path forward for the latest application.*

AEP – Local media coverage of ApCo's ENEC filing in West Virginia

- In an article that appears to have included a brief interview with the Chair of the Sierra Club's West Virginia Chapter, local media discuss ApCo's "nearly $650 million rate hike proposal."
- More HERE.

Guggenheim takeaway: *Not unexpectedly, the article contains several errors, most notably that the company is not asking for a $650m rate hike, but rather a ~$88.8m increase in order to capture projected costs and amortize the deferred under-recovery amount mentioned in the article over three years, or… the same $88.8m increase for projected costs, while the under-recovered balance would be permitted to make use of securitization legislation West Virginia passed into law in March of this year.*

AR – Arkansas lawmakers debate crypto mining rules

- AR lawmakers debated "right to mine" bills in Arkansas that limit regulations over the industry.
- The debates came from complaints against bad actors causing pollution and noise in the state.
- More here.

Guggenheim takeaway: *FYI. States weighing some debate around encouraging crypto mining facilities.*

Texas – Economic indicators remain mixed in latest Dallas Fed Surveys

- Manufacturing and retail activity continue to weaken as services improved slightly.
- "Texas factory activity declined in July, according to business executives responding to the Texas Manufacturing Outlook Survey. The production index, a key measure of state manufacturing conditions, held fairly steady at -4.8, a reading indicative of a modest contraction in output." – Dallas Fed
- More HERE.
- "Retail sales declined in July, according to business executives responding to the Texas Retail Outlook Survey. The sales index, a key measure of state retail activity, improved five points to -2.4 suggesting sales decreased at a slower rate than the previous month. Retailers' inventories increased at a faster rate, with the index increasing from 5.3 to 12.0." – Dallas Fed
- More HERE.

Guggenheim takeaway: *Ongoing weakness in Texas is a headwind to power demand and underlying utility customer growth. The data continues to paint a bit of a mixed picture as respondents continue to expect some modest growth in the region alongside continued labor growth and deepening pessimism on business conditions. We continue to watch the survey data closely for indications of a slowdown in activity and hiring in Texas as any softening would have direct read through to the forward curves as well as the load backdrop for the regulated utilities.*

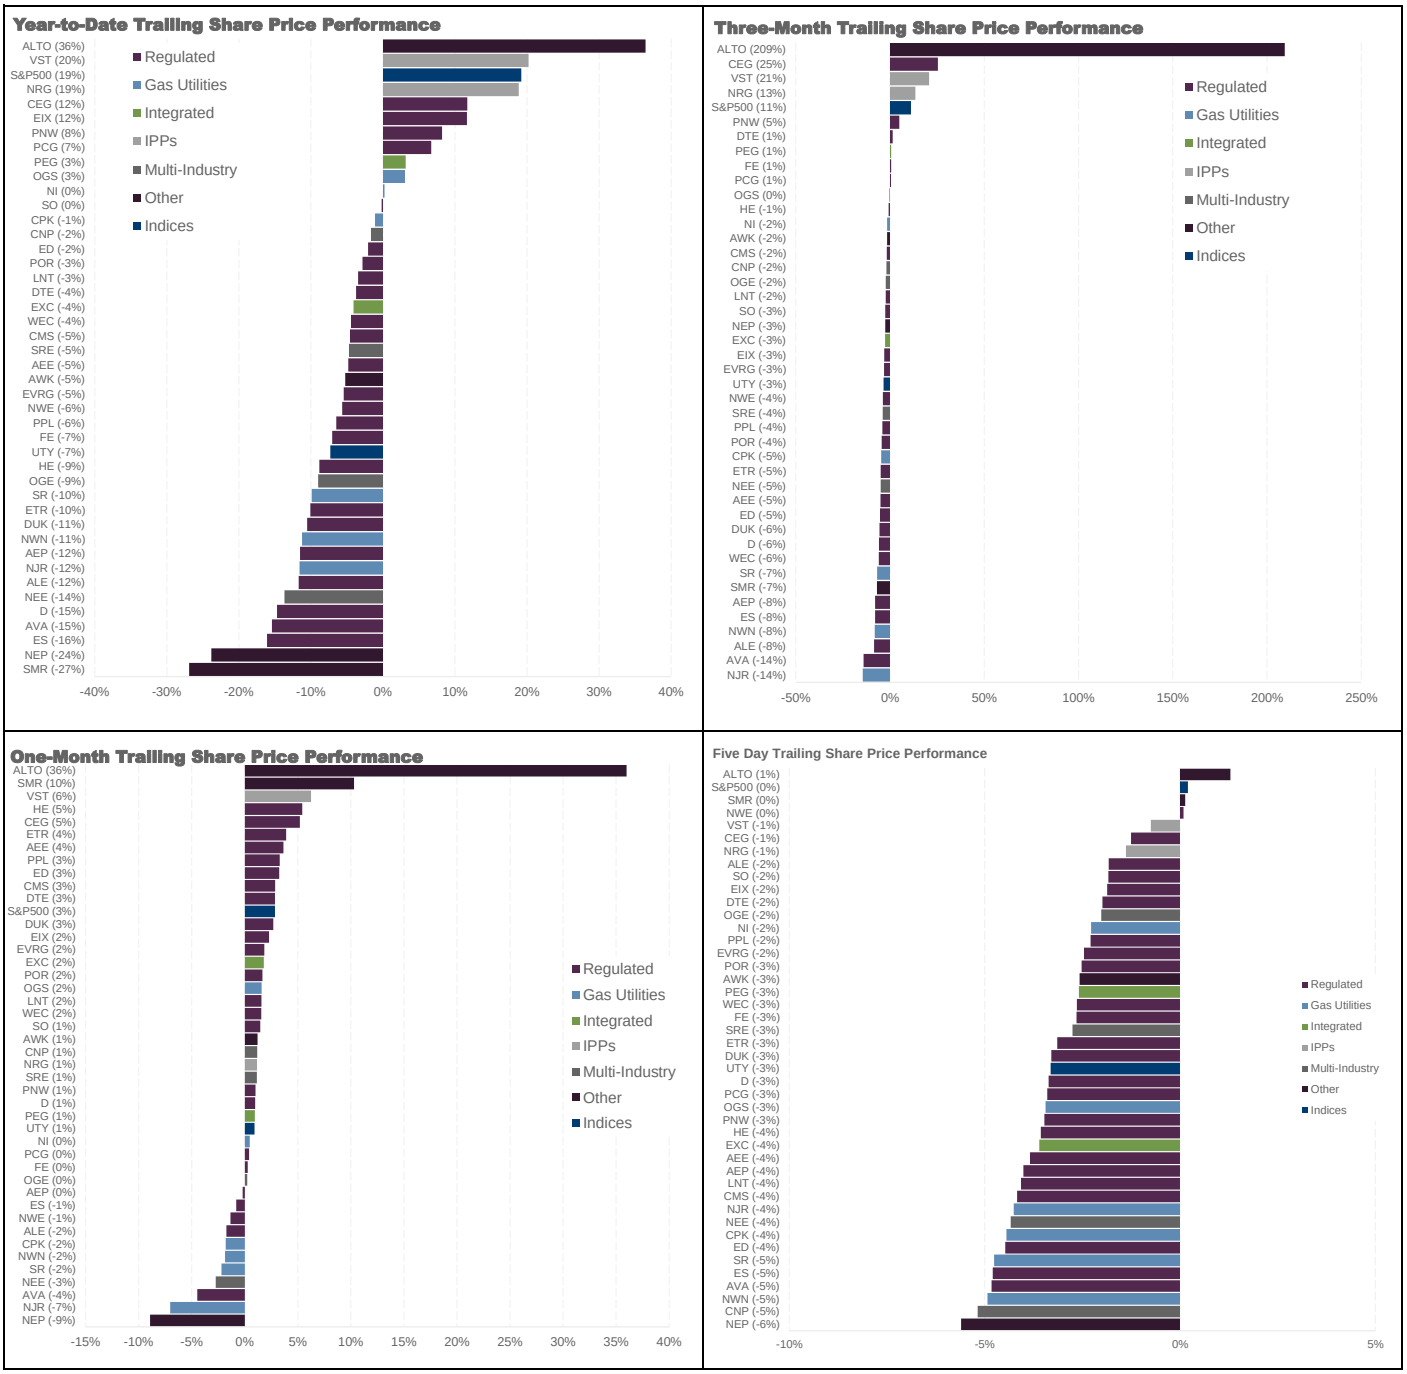
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

RATINGS DISTRIBUTIONS FOR GUGGENHEIM SECURITIES:

investment management business, trade for their own accounts, and may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

We and our affiliates, officers, directors, and employees, excluding equity and credit analysts, will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research. We and our affiliates also may sell to or buy from customers on a principal basis the securities described herein. We and our affiliates also do business with, or that relates to, companies covered in Guggenheim research and may have a position in the debt of the company or companies discussed herein.

This research is not an offer to sell or the solicitation of an offer to buy any security. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them will fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

This communication does not constitute an offer of Shares to the public in the United Kingdom. No prospectus has been or will be approved in the United Kingdom in respect of the Securities. Consequently, this communication is directed only at (i) persons who are outside the United Kingdom or (ii) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Order”), (iii) high net worth entities falling within Article 49(2) of the Order (iv) and other persons to whom it may lawfully be communicated (all such persons together being referred to as “relevant persons”). Any investment activity to which this communication relates will only be available to, and will only be engaged with, relevant persons. Any person who is not a relevant person, or otherwise in a territory where it is not intended to, or may not, be distributed, should not act or rely on this document or any of its contents.

First Read

Exelon Corp

Q2 Earnings Inline

Q: How did the results compare vs expectations?

A: EXC reported operating earnings of 41c vs. Consensus /UBSe of 41c/39c for Q2'23. The company reported 44c in Q2'22.

Q: What were the most noteworthy areas in the results?

A: ComEd was +2c yoy, PECO was -4c, hurt by 3c of unfavorable weather, BGE was flat, PHI was +2c while Corp drag was 3c worse on higher interest expense.

Q: Has the company's outlook/guidance changed?

A: No. The full year 2023 guidance was reaffirmed at $2.30-$2.42. The company also reaffirmed LT annual EPS growth of 6-8% from 2022-2026, with an expectation to be at the midpoint or better.

Q: How would we expect investors to react?

A: Inline. Overall, a quiet and uneventful quarter, where EXC met expectations - all good things, in our view. We expect questions to focus on key regulatory filings for multiyear rate plans at ComEd in Illinois and at BG&E in Maryland, and the potential for upside capex to the current plan.

Forecast price appreciation	+13.3%
Forecast dividend yield	3.6%
Forecast stock return	+16.9%
Market return assumption	9.9%
Forecast excess return	+7.0%

Company Description

Exelon owns six regulated utility subsidiaries: Atlantic City Electric, BGE, ComEd, Delmarva Power, PECO and the Pepco Subsidiaries, which deliver electricity and natural gas to about 10m customers in Delaware, Washington DC, Illinois, Maryland, New Jersey, and Pennsylvania.

Valuation Method and Risk Statement

Our valuation methodology for the group is price to earnings based. The adjustments applied fall into 5 categories. These are as follows: 1) Group Valuation Bias: Flowing from our valuation work comparing Baa corporate yields to group dividend yields and RU price to earnings ratios to those for the S&P 500, we incorporate a positive or negative adjustment to our group multiple representing the gap we calculate to the nearest 5%; 2) Growth Adjustment: We adjust our valuations based on the growth quartile each utility occupies. First quartile receives a 5% premium, second quartile a 2% premium, third quartile a 2% discount and fourth quartile a 5% discount; 3) Regulatory Adjustment: Our valuation adjustments for regulation are based on our proprietary Regulatory Rankings. First quartile jurisdictions receive 5%, second quartile 2%, third quartile -2% and fourth quartile -5%; 5) Multi Utility Diversified Valuation: For multi utilities (those with more than 15% diversified or foreign earnings), we perform a sum-of-parts analysis applying business/region appropriate valuations to those diversified businesses; 6) One-off Adjustments: In special situations, we value risk on an issue specific basis. Common areas where we apply such an adjustment include: ESG advantage, large project construction risk, legal risk, and announced M&A completion risk.

We maintain our Price Target of $47 premised on a 6% premium to the group multiple or 17.0x our $2.77/share earnings forecast for 2025. Our 6% net premium is derived from a 5% premium for the overall regulated utility group, premised upon the current undervaluation versus the Baa corporate bond, a 3% discount for a 3rd quartile regulatory ranking overall, a 2% premium for 2nd quartile earnings growth, a 5% premium for energy transition, and 3% discount for lower pricing power.

Specific risks for Exelon include regulatory risks at the utilities, weather, and interest rates.

Quantitative Research Review

UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

Exelon Corp

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	3
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	3
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	3
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	3
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	3
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?

Required Disclosures

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

For information on the ways in which UBS manages conflicts and maintains independence of its UBS Global Research product; historical performance information; certain additional disclosures concerning UBS Global Research recommendations; and terms and conditions for certain third party data used in research report, please visit https://www.ubs.com/disclosures. Unless otherwise indicated, information and data in this report are based on company disclosures including but not limited to annual, interim, quarterly reports and other company announcements. The figures contained in performance charts refer to the past; past performance is not a reliable indicator of future results. Additional information will be made available upon request. UBS Securities Co. Limited is licensed to conduct securities investment consultancy businesses by the China Securities Regulatory Commission. UBS acts or may act as principal in the debt securities (or in related derivatives) that may be the subject of this report. This recommendation was finalized on: 02 August 2023 12:39 PM GMT. UBS has designated certain UBS Global Research department members as Derivatives Research Analysts where those department members publish research principally on the analysis of the price or market for a derivative, and provide information reasonably sufficient upon which to base a decision to enter into a derivatives transaction. Where Derivatives Research Analysts co-author research reports with Equity Research Analysts or Economists, the Derivatives Research Analyst is responsible for the derivatives investment views, forecasts, and/or recommendations. **Quantitative Research Review:** UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For the latest responses, please see the Quantitative Research Review Addendum at the back of this report, where applicable. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research team on the email above.

Analyst Certification:
Each research analyst primarily responsible for the content of this research report, in whole or in part, certifies that with respect to each security or issuer that the analyst covered in this report: (1) all of the views expressed accurately reflect his or her personal views about those securities or issuers and were prepared in an independent manner, including with respect to UBS, and (2) no part of his or her compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by that research analyst in the research report.

UBS Global Research: Global Equity Rating Definitions

12-Month Rating	Definition	Coverage[1]	IB Services[2]
Buy	FSR is > 6% above the MRA.	54%	41%
Neutral	FSR is between -6% and 6% of the MRA.	37%	43%
Sell	FSR is > 6% below the MRA.	9%	36%
Short-Term Rating	**Definition**	**Coverage[3]**	**IB Services[4]**
Buy	Stock price expected to rise within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%
Sell	Stock price expected to fall within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%

Source: UBS. Rating allocations are as of 30 June 2023.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.
3:Percentage of companies under coverage globally within the Short-Term rating category.
4:Percentage of companies within the Short-Term rating category for which investment banking (IB) services were provided within the past 12 months.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

KEY DEFINITIONS: Forecast Stock Return (FSR) is defined as expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is defined as the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged as UR by the analyst, indicating that the stock's price target and/or rating are subject to possible change in the near term, usually in response to an event that may affect the investment case or valuation. **Short-Term Ratings** reflect the expected near-term (up to three months) performance of the stock and do not reflect any change in the fundamental view or investment case. **Equity Price Targets** have an investment horizon of 12 months.

EXCEPTIONS AND SPECIAL CASES: UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record, discount; **Neutral:** Neutral on factors such as structure, management, performance record, discount; **Sell:** Negative on factors such as structure, management, performance record, discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Committee (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed to be very high or low risk may be subject to higher or lower bands as they relate to the rating. When such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by any non-US affiliate of UBS Securities LLC are not registered/ qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to the FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. It may also be made available through third party vendors and distributed by UBS and/or third parties via e-mail or alternative electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss your access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or has made use of data provided by UBS Evidence Lab and you would like to access that data please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending upon various factors such as a client's individual preferences as to the frequency and manner of receiving communications, a client's risk profile and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term, etc.), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab and legal and regulatory constraints.

When you receive UBS Global Research through a system, your access and/or use of such UBS Global Research is subject to this UBS Global Research Disclaimer and to the UBS Neo Platform Use Agreement (the "Neo Terms") together with any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and cookie notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or by any other means, you agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and that you shall not extract data from any research or estimates provided to you via UBS Global Research or otherwise, without the prior written consent of UBS.

In certain circumstances (including for example, if you are an academic or a member of the media) you may receive UBS Global Research otherwise than in the capacity of a client of UBS and you understand and agree that (i) the UBS Global Research is provided to you for information purposes only; (ii) for the purposes of receiving it you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) the UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is a general communication and is educational in nature; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. The recipient should carefully read this document in its entirety and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "The Characteristics and Risks of Standardized Options." You may read the document at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks associated with these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies calling for multiple purchases and sales of options, such as spreads and straddles. Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions.

Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the Information.

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes:

(i) valuation or accounting purposes;

(ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or

(iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS Global Research manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. All material information in relation to published research reports, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history etc. as required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by UBS Global Research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms under English law or, if not carried out by UBS in the UK the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months UBS may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

United Kingdom: This material is distributed by UBS AG, London Branch to persons who are eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority and subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. **Europe:** Except as otherwise specified herein, these materials are distributed by UBS Europe SE, a subsidiary of UBS AG, to persons who are eligible counterparties or professional clients (as detailed in the Bundesanstalt fur Finanzdienstleistungsaufsicht (BaFin) Rules and according to MIFID) and are only available to such persons. The information does not apply to, and should not be relied upon by, retail clients. UBS Europe SE is authorised by the European Central Bank (ECB) and regulated by the BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE. In all cases it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for the purpose of offering, marketing and sale by any means of any capital market instruments and services in the Republic of Turkey. Therefore, this document may not be considered as an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, according to article 15 (d) (ii) of the Decree No. 32, there is no restriction on the purchase or sale of the securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce regulated by the Polish Financial Supervision Authority. Where an analyst of UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce. **Russia:** Prepared and distributed by UBS Bank (OOO). Should not be construed as an individual Investment Recommendation for the purpose of the Russian Law - Federal Law #39-FZ ON THE SECURITIES MARKET Articles 6.1-6.2.**Switzerland:** Distributed by UBS AG to persons who are institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** The information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties, as classified under the DFSA rulebook. No other person should act upon this material/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS Investment Bank is not licensed to provide banking services in the UAE by the Central Bank of the UAE, nor is it licensed by the UAE Securities and Commodities Authority. **Israel:** This Material is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer that is supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or in distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as such term is defined under the Israeli Advisory Law). Nothing in this Material should be considered as investment advice under the Israeli Advisory Law. This Material is being issued only to and/or is directed only at persons who are Eligible Clients within the meaning of the Israeli Advisory Law, and this Material must not be furnished to, relied on or acted upon by any other persons. **United States:** Distributed to US persons by either UBS Securities LLC or by UBS Financial Services Inc., subsidiaries of UBS AG; or by a group, subsidiary or affiliate of UBS AG that is not registered as a US broker-dealer (a **'non-US affiliate'**) to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this report must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG that is registered to conduct business in Canada or is otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this Material is prepared by UBS Brasil Corretora de Câmbio, Títulos e Valores Mobiliários S.A. (UBS Brasil CCTVM) to persons who are eligible investors residing in Brazil, which are considered to be Professional Investors (Investidores Profissionais), as designated by the applicable regulation, mainly the CVM Resolution No. 30 from the 11th of May 2021 (determines the duty to verify the suitability of products, services and transactions with regards to the client´s profile). UBS Brasil CCTVM is a subsidiary of UBS BB Servicos de Assessoria Financeira e Participacoes S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB – Banco de Investimentos S.A.), of which UBS AG is the majority owner and which provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. **Hong Kong:** Distributed by UBS Securities Asia Limited. Please contact local licensed persons of UBS Securities Asia Limited in respect of any matters arising from, or in connection with, the analysis or document **Singapore:** Distributed by UBS Securities Pte. Ltd. [Co. Reg. No.: 198500648C] or UBS AG, Singapore Branch. Please contact UBS Securities Pte. Ltd., an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110); or UBS AG, Singapore Branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or document. Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies and styles approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or Sustainable Investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio consisting primarily of sustainable investments may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ. Companies may not necessarily meet high performance standards on all aspects of ESG or sustainable investing issues; there is also no guarantee that any company will meet expectations in connection with corporate responsibility, sustainability, and/or impact performance.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosures_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Bahrain: UBS is a Swiss bank not licensed, supervised or regulated in Bahrain by the Central Bank of Bahrain to undertake banking or investment business activities in Bahrain. Therefore, prospects/clients do not have any protection under local banking and investment services laws and regulations. **Brazil**: This report is only intended for Brazilian residents who are directly purchasing or selling securities in the Brazil capital market through a local authorized institution. **Canada**: The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. Under no circumstances is the information contained herein to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada or, alternatively, pursuant to a dealer registration exemption. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon these materials, the information contained herein or the merits of the securities described herein and any representation to the contrary is an offence. In Canada, this publication is distributed by UBS Investment Management Canada Inc. **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Czech Republic**: UBS is not a licensed bank in the Czech Republic and thus is not allowed to provide regulated banking or investment services in the Czech Republic.
