Bockenheimer Landstrasse 2-4, 60306 Frankfurt am Main. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and supervised jointly by the European Central Bank, the German Central Bank (Deutsche Bundesbank) and BaFin, to which this publication has not been submitted for approval. **Hong Kong SAR**: This publication is distributed to clients of UBS AG Hong Kong Branch by UBS AG Hong Kong Branch, a licensed bank under the Hong Kong Banking Ordinance and a registered institution under the Securities and Futures Ordinance. UBS AG Hong Kong Branch is incorporated in Switzerland with limited liability. **India**: Distributed by UBS Securities India Private Ltd. (Corporate Identity Number U67120MH1996PTC097299) 2/F, 2 North Avenue, Maker Maxity, Bandra Kurla Complex, Bandra (East), Mumbai (India) 400051. Phone: +912261556000. It provides brokerage services bearing SEBI Registration Number INZ000259830; merchant banking services bearing SEBI Registration Number: INM000010809 and Research Analyst services bearing SEBI Registration Number: INH000001204. UBS AG, its affiliates or subsidiaries may have debt holdings or positions in the subject Indian company/companies. UBS AG, its affiliates or subsidiaries may have financial interests (e.g. like loan/derivative products, rights to or interests in investments, etc.) in the subject Indian company/companies from time to time. Within the past 12 months, UBS AG, its affiliates or subsidiaries may have received compensation for non-investment banking securities-related services and/or non-securities services from the subject Indian company/companies. The subject company/companies may have been a client/clients of UBS AG, its affiliates or subsidiaries during the 12 months preceding the date of distribution of the research report with respect to investment banking and/or non-investment banking securities-related services and/or non-securities services. With regard to information on associates, please refer to the Annual Report at: https://www.ubs.com/global/en/about_ubs/investor_relations/annualreporting.html. **Indonesia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed without the consent of UBS. None of the Material has been registered or filed under the prevailing laws and with any financial or regulatory authority in your jurisdiction. The Material may not have been approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. In Israel, UBS Switzerland AG is registered as Foreign Dealer in cooperation with UBS Wealth Management Israel Ltd., a wholly owned UBS subsidiary. UBS Wealth Management Israel Ltd. is an Investment Marketing licensee which engages in Investment Marketing and is regulated by the Israel Securities Authority. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. No action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Nigeria**: The investment products mentioned in this material are not being offered or sold by UBS to the public in Nigeria and they have not been submitted for approval nor registered with the Securities and Exchange Commission of Nigeria. If you are interested in products of this nature, please let us know. The investment products mentioned in this material are not being directed to, and are not being made available for subscription by any persons within Nigeria other than the selected investors to whom the offer materials have been addressed as a private sale or domestic concern within the exemption and meaning of Section 69(2) of the Investments and Securities Act, 2007 (ISA). This material has been provided to you at your specific unsolicited request and for your information only. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: UBS Switzerland AG is not licensed to conduct banking and financial activities in Portugal nor is UBS Switzerland AG supervised by the portuguese regulators (Bank of Portugal "Banco de Portugal" and Portuguese Securities Exchange Commission "Comissão do Mercado de Valores Mobiliários"). **Qatar**: UBS Qatar LLC is authorized by the Qatar Financial Centre Regulatory Authority, with QFC no. 01169, and has its registered office at 14th Floor, Burj Alfardan Tower, Building 157, Street No. 301, Area No. 69, Al Majdami, Lusail, Qatar. UBS Qatar LLC neither offers any brokerage services nor executes any order with, for or on behalf of its clients. A client order will have to be placed with, and executed by, UBS Switzerland AG in Switzerland or an affiliate of UBS Switzerland AG, that is domiciled outside Qatar. It is in the sole discretion of UBS Switzerland AG in Switzerland or its affiliate to accept or reject an order and UBS Qatar LLC does not have authority to provide a confirmation in this respect. UBS Qatar LLC may however communicate payment orders and investment instructions to UBS Switzerland AG in Switzerland for receipt, acceptance and execution. UBS Qatar LLC is not authorized to act for and on behalf of UBS Switzerland AG or an affiliate of UBS Switzerland AG. This document and any attachments hereto are intended for eligible counterparties and business customers only. **Russia**: This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia**: UBS Saudi Arabia is authorised and regulated by the Capital Market Authority to conduct securities business under licence number 08113-37. **Singapore**: Clients of UBS AG Singapore branch are asked to please contact UBS AG Singapore branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or report. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved or endorsed by any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Sweden**: This publication is not intended to constitute a public offer under Swedish law. It is distributed only for information purposes to clients of UBS Europe SE, Sweden Bankfilial, with place of business at Regeringsgatan 38, 11153 Stockholm, Sweden, registered with the Swedish Companies Registration Office under Reg. No 516406-1011. UBS Europe SE, Sweden Bankfilial is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Swedish supervisory authority (Finansinspektionen), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Taiwan**: This material is provided by UBS AG, Taipei Branch in accordance with laws of Taiwan, in agreement with or at the request of clients/prospects. **Thailand**: This communication and any offering material, term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication were done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Turkey**: The information in this document is not provided for the purpose of offering, marketing or sale of any capital market instrument or service in the Republic of Turkey. Therefore, this document may not be considered as an offer made, or to be made, to residents of the Republic of Turkey in the Republic of Turkey. UBS Switzerland AG is not licensed by the Turkish Capital Market Board (the CMB) under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instrument/service may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the CMB. However, according to article 15 (d) (ii) of the Decree No. 32 residents of the Republic of Turkey are allowed to purchase or sell the financial instruments traded in financial markets outside of the Republic of Turkey. Further to this, pursuant to article 9 of the Communiqué on Principles Regarding Investment Services, Activities and Ancillary Services No. III-37.1, investment services provided abroad to residents of the Republic of Turkey based on their own initiative are not restricted. **United Arab Emirates (UAE)**: UBS is not a financial institution licensed in the UAE by the Central Bank of the UAE nor by the Emirates' Securities and Commodities Authority and does not undertake banking activities in the UAE. UBS AG Dubai Branch is licensed by the DFSA in the DIFC. This document is provided for your information only and does not constitute financial advice. **United Kingdom**: This document is issued by UBS Wealth Management, a division of UBS AG which is authorised and regulated by the Financial Market Supervisory Authority in Switzerland. In the United Kingdom, UBS AG is authorised by the Prudential Regulation Authority and is subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. Details about the extent of regulation by the Prudential Regulation Authority are available from us on request. A member of the London Stock Exchange. This publication is distributed to retail clients of UBS Wealth Management. **Ukraine**: UBS is not registered and licensed as a bank/financial institution under Ukrainian legislation and does not provide banking and other financial services in Ukraine. UBS has not made, and will not make, any offer of the mentioned products to the public in Ukraine. No action has been taken to authorize an offer of the mentioned products to the public in Ukraine and the distribution of this document shall not constitute financial services for the purposes of the Law of Ukraine "On Financial Services and State Regulation of Financial Services Markets" dated 12 July 2001. Any offer of the mentioned products shall not constitute an investment advice, public offer, circulation, transfer, safekeeping, holding or custody of securities in the territory of Ukraine. Accordingly, nothing in this document or any other document, information or communication related to the mentioned products shall be interpreted as containing an offer, a public offer or invitation to offer or to a public offer, or solicitation of securities in the territory of Ukraine or investment advice under Ukrainian law. Electronic communication must not be considered as an offer to enter into an electronic agreement or other electronic instrument within the meaning of the Law of Ukraine "On Electronic Commerce" dated 3 September 2015. This document is strictly for private use by its holder and may not be passed on to third parties or otherwise publicly distributed. **USA**: Distributed to US persons by UBS Financial Services Inc. or UBS Securities LLC, subsidiaries of UBS AG. UBS Switzerland AG, UBS Europe SE, UBS Bank, S.A., UBS Brasil Administradora de Valores Mobiliários Ltda., UBS Asesores México, S.A. de C.V., UBS SuMi TRUST Wealth Management Co., Ltd., UBS Wealth Management Israel Ltd. and UBS Menkul Degerler AS are affiliates of UBS AG. **UBS Financial Services Inc. accepts responsibility for the content of a report prepared by a non-US affiliate when it distributes reports to US persons. All transactions by a US person in the securities mentioned in this report should be effected through a US-registered broker dealer affiliated with UBS, and not through a non-US affiliate. The contents of this report have not been and will not be approved by any securities or investment authority in the United States or elsewhere. UBS Financial Services Inc. is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule") and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule.**

J.P. Morgan Securities LLC

- **2Q23 EPS meets JPMe,Street.** EXC reported 2Q23 adjusted EPS of $0.41, matching the $0.41 JPMe/Street median estimates, and down -3c YoY compared with 2Q22 EPS of $0.44 in light of -3c higher parent interest expense, among other items. PECO landed -2c lower than JPMe, with a -3c weather impact and higher depreciation/other, partially offset by higher gas rates. PHI surpassed our estimate by +2c, primarily driven by higher rates. ComED, BGE, and Corp all landed within +/-1c of our estimates.
- **PJM transmission projects approved; DPA sunsets; new PECO substation.** EXC secured $870mm of PJM-approved transmission projects to address reliability needs in eastern Maryland resulting from plant retirements, with expected completion by YE28. EXC also successfully completed its three-year DPA. Lastly, the company called out PECO's $130mm Civic Terminal Yard Substation project, which will upgrade transmission lines from 69kV to 230kV and install two 13kV distribution buses. EXC targets completion by 2Q24.
- **2023 guidance + capital plan + equity needs reaffirmed.** EXC reiterated 2023 adj EPS guidance of $2.30-2.42 ($2.36 JPMe/Street), implying ~5% growth based on the original 2022 guidance midpoint disclosed at the Jan 2022 Analyst Day, and consistent with EXC's 3Q22/EEI growth message as PECO's rate cycle/weather/MYP reconciliations impact growth into 2023. EXC also reaffirmed its 2021-2025 and 2022-2026 EPS CAGR of 6-8% with expectations of midpoint or better. Lastly, EXC's 5yr capex plan remained unchanged at $31.3bn (2023-2026 rate base CAGR of 7.9%), with $425mm of remaining equity issuance between 2023 and 2025. In a relatively quiet quarter, we look for any incremental updates on the timing of EXC's remaining $425 equity issuance given broad attention on sector balance sheets as of late.
- **MYP process underway with batch of evidentiary hearings.** On the regulatory front, ComEd's distribution rate case remains on track for evidentiary hearings in August, followed by reply briefs in September and an ultimate final order by December. Alongside this, current messaging indicates expected commission decisions on ACE, BGE, Pepco DC, Pepco MD, and DPL DE filings in 1Q24, YE23, 2Q24, June 2024, and 2Q24 respectively. Here, we continue to view 2Q23 as an execution-focused quarter for EXC to drill into progress on this MYP transition and anticipate continued messaging on the post-reconciliation accounting benefits that further tighten EXC's EPS trajectory with its underlying rate base growth.
- **Conference call details.** EXC will host a webcast to discuss 2Q23 results on Wednesday, August 2, at 10:00 AM ET.

See page 3 for analyst certification and important disclosures.

The chart(s) show J.P. Morgan's continuing coverage of the stocks; the current analysts may or may not have covered it over the entire period.
J.P. Morgan ratings or designations: OW = Overweight, N= Neutral, UW = Underweight, NR = Not Rated

Explanation of Equity Research Ratings, Designations and Analyst(s) Coverage Universe:
J.P. Morgan uses the following rating system: Overweight [Over the next six to twelve months, we expect this stock will outperform the average total return of the stocks in the analyst's (or the analyst's team's) coverage universe.] Neutral [Over the next six to twelve months, we expect this stock will perform in line with the average total return of the stocks in the analyst's (or the analyst's team's) coverage universe.] Underweight [Over the next six to twelve months, we expect this stock will underperform the average total return of the stocks in the analyst's (or the analyst's team's) coverage universe.] Not Rated (NR): J.P. Morgan has removed the rating and, if applicable, the price target, for this stock because of either a lack of a sufficient fundamental basis or for legal, regulatory or policy reasons. The previous rating and, if applicable, the price target, no longer should be relied upon. An NR designation is not a recommendation or a rating. In our Asia (ex-Australia and ex-India) and U.K. small- and mid-cap equity research, each stock's expected total return is compared to the expected total return of a benchmark country market index, not to those analysts' coverage universe. If it does not appear in the Important Disclosures section of this report, the certifying analyst's coverage universe can be found on J.P. Morgan's research website, https://www.jpmorganmarkets.com.

Coverage Universe: Tonet, Jeremy: AltaGas Ltd (ALA.TO), Ameren Corporation (AEE), American Electric Power (AEP), Antero Midstream Corp (AM), Aris Water Solutions, Inc (ARIS), CMS Energy Corporation (CMS), CenterPoint Energy, Inc. investment banking services within the previous 12 months.
For purposes of FINRA ratings distribution rules only, our Overweight rating falls into a buy rating category; our Neutral rating falls into a hold rating category; and our Underweight rating falls into a sell rating category. Please note that stocks with an NR designation are not included in the table above. This information is current as of the end of the most recent calendar quarter.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at http://www.jpmorganmarkets.com, contact the primary analyst or your J.P. Morgan representative, or email research.disclosure.inquiries@jpmorgan.com. For material information about the proprietary models used, please see the Summary of Financials in company-specific research reports and the Company Tearsheets, which are available to download on the company pages of our client website, http://www.jpmorganmarkets.com. This report also sets out within it the material underlying assumptions used.

A history of J.P. Morgan investment recommendations disseminated during the preceding 12 months can be accessed on the Research & Commentary page of http://www.jpmorganmarkets.com where you can also search by analyst name, sector or financial instrument.

Analysts' Compensation: The research analysts responsible for the preparation of this report receive compensation based upon various factors, including the quality and accuracy of research, client feedback, competitive factors, and overall firm revenues.

Other Disclosures

J.P. Morgan is a marketing name for investment banking businesses of JPMorgan Chase & Co. and its subsidiaries and affiliates worldwide.

UK MIFID FICC research unbundling exemption: UK clients should refer to UK MIFID Research Unbundling exemption for details of JPMorgan's implementation of the FICC research exemption and guidance on relevant FICC research categorisation.

All research material made available to clients are simultaneously available on our client website, J.P. Morgan Markets, unless specifically permitted by relevant laws. Not all research content is redistributed, e-mailed or made available to third-party aggregators. For all research material available on a particular stock, please contact your sales representative.

Any long form nomenclature for references to China; Hong Kong; Taiwan; and Macau within this research material are Mainland China; Hong Kong SAR (China); Taiwan (China); and Macau SAR (China).

J.P. Morgan Research may, from time to time, write on issuers or securities targeted by economic or financial sanctions imposed or administered by the governmental authorities of the U.S., EU, UK or other relevant jurisdictions (Sanctioned Securities). Nothing in this report is intended to be read or construed as encouraging, facilitating, promoting or otherwise approving investment or dealing in such Sanctioned Securities. Clients should be aware of their own legal and compliance obligations when making investment decisions.

Any digital or crypto assets discussed in this research report are subject to a rapidly changing regulatory landscape. For relevant regulatory advisories on crypto assets, including bitcoin and ether, please see https://www.jpmorgan.com/disclosures/cryptoasset-disclosure.

The author(s) of this research report may not be licensed to carry on regulated activities in your jurisdiction and, if not licensed, do not hold themselves out as being able to do so.

Exchange-Traded Funds (ETFs): J.P. Morgan Securities LLC ("JPMS") acts as authorized participant for substantially all U.S.-listed ETFs. To the extent that any ETFs are mentioned in this report, JPMS may earn commissions and transaction-based compensation in connection with the distribution of those ETF shares and may earn fees for performing other trade-related services, such as securities lending to short sellers of the ETF shares. JPMS may also perform services for the ETFs themselves, including acting as a broker or dealer to the ETFs. In addition, affiliates of JPMS may perform services for the ETFs, including trust, custodial, administration, lending, index calculation and/or maintenance and other services.

Options and Futures related research: If the information contained herein regards options- or futures-related research, such information is available only to persons who have received the proper options or futures risk disclosure documents. Please contact your J.P. Morgan Representative or visit https://www.theocc.com/components/docs/riskstoc.pdf for a copy of the Option Clearing Corporation's Characteristics and Risks of Standardized Options or http://www.finra.org/sites/default/files/Security_Futures_Risk_Disclosure_Statement_2018.pdf for a copy of the Security Futures Risk Disclosure Statement.

Changes to Interbank Offered Rates (IBORs) and other benchmark rates: Certain interest rate benchmarks are, or may in the future become, subject to ongoing international, national and other regulatory guidance, reform and proposals for reform. For more information, please consult: https://www.jpmorgan.com/global/disclosures/interbank_offered_rates

Private Bank Clients: Where you are receiving research as a client of the private banking businesses offered by JPMorgan Chase & Co. and its subsidiaries ("J.P. Morgan Private Bank"), research is provided to you by J.P. Morgan Private Bank and not by any other division of J.P. Morgan, including, but not limited to, the J.P. Morgan Corporate and Investment Bank and its Global Research division.

Morgan Securities (Taiwan) Limited, subject to the license scope and the applicable laws and the regulations in Taiwan. According to Paragraph 2, Article 7-1 of Operational Regulations Governing Securities Firms Recommending Trades in Securities to Customers (as amended or supplemented) and/or other applicable laws or regulations, please note that the recipient of this material is not permitted to engage in any activities in connection with the material that may give rise to conflicts of interests, unless otherwise disclosed in the “Important Disclosures” in this material. **Thailand**: This material is issued and distributed in Thailand by JPMorgan Securities (Thailand) Ltd., which is a member of the Stock Exchange of Thailand and is regulated by the Ministry of Finance and the Securities and Exchange Commission, and its registered address is 3rd Floor, 20 North Sathorn Road, Silom, Bangrak, Bangkok 10500. **UK:** Unless specified to the contrary, research is distributed in the UK by J.P. Morgan Securities plc (“JPMS plc”) which is a member of the London Stock Exchange and is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority. JPMS plc is registered in England & Wales No. 2711006, Registered Office 25 Bank Street, London, E14 5JP. This material is directed in the UK only to: (a) persons having professional experience in matters relating to investments falling within article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) (Order) 2005 (“the FPO”); (b) persons outlined in article 49 of the FPO (high net worth companies, unincorporated associations or partnerships, the trustees of high value trusts, etc.); or (c) any persons to whom this communication may otherwise lawfully be made; all such persons being referred to as "UK relevant persons". This material must not be acted on or relied on by persons who are not UK relevant persons. Any investment or investment activity to which this material relates is only available to UK relevant persons and will be engaged in only with UK relevant persons. Research issued by JPMS plc has been prepared in accordance with JPMS plc's policy for prevention and avoidance of conflicts of interest related to the production of Research which can be found at the following link: J.P. Morgan EMEA - Research Independence Policy. **U.S.**: J.P. Morgan Securities LLC (“JPMS”) is a member of the NYSE, FINRA, SIPC, and the NFA. JPMorgan Chase Bank, N.A. is a member of the FDIC. Material published by non-U.S. affiliates is distributed in the U.S. by JPMS who accepts responsibility for its content.

General: Additional information is available upon request. The information in this material has been obtained from sources believed to be reliable. While all reasonable care has been taken to ensure that the facts stated in this material are accurate and that the forecasts, opinions and expectations contained herein are fair and reasonable, JPMorgan Chase & Co. or its affiliates and/or subsidiaries (collectively J.P. Morgan) make no representations or warranties whatsoever to the completeness or accuracy of the material provided, except with respect to any disclosures relative to J.P. Morgan and the Research Analyst's involvement with the issuer that is the subject of the material. Accordingly, no reliance should be placed on the accuracy, fairness or completeness of the information contained in this material. There may be certain discrepancies with data and/or limited content in this material as a result of calculations, adjustments, translations to different languages, and/or local regulatory restrictions, as applicable. These discrepancies should not impact the overall investment analysis, views and/or recommendations of the subject company(ies) that may be discussed in the material. J.P. Morgan accepts no liability whatsoever for any loss arising from any use of this material or its contents, and neither J.P. Morgan nor any of its respective directors, officers or employees, shall be in any way responsible for the contents hereof, apart from the liabilities and responsibilities that may be imposed on them by the relevant regulatory authority in the jurisdiction in question, or the regulatory regime thereunder. Opinions, forecasts or projections contained in this material represent J.P. Morgan's current opinions or judgment as of the date of the material only and are therefore subject to change without notice. Periodic updates may be provided on companies/industries based on company-specific developments or announcements, market conditions or any other publicly available information. There can be no assurance that future results or events will be consistent with any such opinions, forecasts or projections, which represent only one possible outcome. Furthermore, such opinions, forecasts or projections are subject to certain risks, uncertainties and assumptions that have not been verified, and future actual results or events could differ materially. The value of, or income from, any investments referred to in this material may fluctuate and/or be affected by changes in exchange rates. All pricing is indicative as of the close of market for the securities discussed, unless otherwise stated. Past performance is not indicative of future results. Accordingly, investors may

Goldman Sachs India SPL

Exelon Corp (EXC, Sell) reported 2Q23 operating EPS of $0.41, a touch below our $0.43 estimate and in-line with FactSet consensus of $0.41. EXC reaffirmed its 2023 EPS guidance range of $2.30-$2.42, which compares to GS/consensus of $2.36, as well at its 6-8% long term growth rate. Weather was only a modest headwind for EXC this quarter YoY at just ($0.03) for PECO. Outside of results, EXC reports limited changes on the regulatory front, with all distribution rate cases continuing to progress in-line with the previously outlined schedules. EXC did announce $870mn of transmission projects awarded to it by PJM, with completion expected in 2028.

We expect the focus of the conference call to be around (a) regulatory updates especially at ComEd and BGE, (b) management commentary on credit metrics and (c) updates on incremental capital spending opportunities.

Analysis

What were the key drivers of the quarterly variance?

Results came in largely in-line with our estimates, with the very slight miss on the quarter driven by higher O&M expense than expected, and mild weather at PECO weighing on gross margin at that business. Results outside of this came in largely in-line with our expectations. We do highlight a one-time charge related to a SEC Matter Loss Contingency for the quarter as an item to monitor, likely related to the investigation into EXC/ComEd's lobbying activities per 10Q filings, but we look for more details on the call.

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. For Reg AC certification and other important disclosures, see the Disclosure Appendix, or go to www.gs.com/research/hedge.html. Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Exhibit 1: The slight miss on the quarter was most notably driven by PECO, likely due to mild weather impacts

What are key questions for the conference call?

1. Are there any updates on how the rate cases at ComEd and BGE are progressing?

2. How has O&M tracked thus far this year relative to expectations going into the year?

3. Where could we see further upside relative to announced plans with regard to capital spending?

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

Valuation & Key Risks

We are Sell rated on EXC with a 12-month PT of $39 based on a 15x P/E multiple. Key risks for EXC include: 1) favorable rate case outcomes, 2) cost control and ability to smooth earnings, 3) a robust balance sheet that appeals to investors seeking safety in the event of a recession, and 4) incremental capex opportunities.

Disclosure Appendix

Reg AC

We, Carly Davenport, John Miller and Jaskaran Jaiya, hereby certify that all of the views expressed in this report accurately reflect our personal views about the subject company or companies and its or their securities. We also certify that no part of our compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Unless otherwise stated, the individuals listed on the cover page of this report are analysts in Goldman Sachs' Global Investment Research division.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our coverage universe) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

The rating(s) for Exelon Corp. is/are relative to the other companies in its/their coverage universe: American Electric Power, Consolidated Edison Inc., Dominion Energy Inc., Duke Energy Corp., Exelon Corp., NextEra Energy Inc., Public Service Enterprise Group, Sempra Energy, Southern Co., Xcel Energy Inc.

Company-specific regulatory disclosures

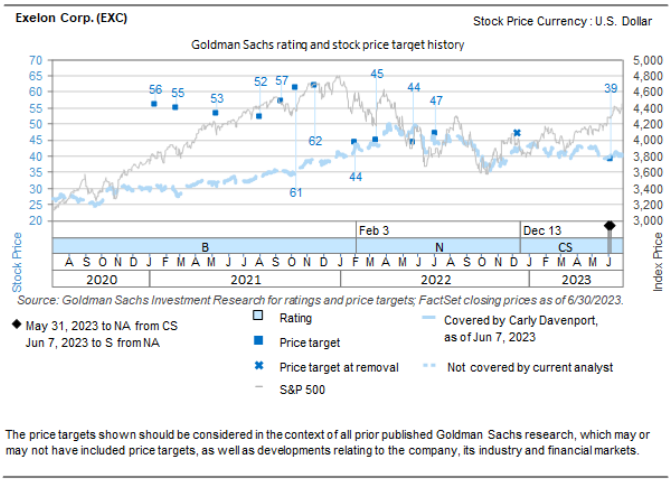
Banking Relationships chart reflects the percentage of subject companies within each rating category for whom Goldman Sachs has provided investment banking services within the previous twelve months.

Price target and rating history chart(s)



The price targets shown should be considered in the context of all prior published Goldman Sachs research, which may or may not have included price targets, as well as developments relating to the company, its industry and financial markets.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with subject company, public appearances and trading securities held by the analysts.

Distribution of ratings: See the distribution of ratings disclosure above. **Price chart:** See the price chart, with changes of ratings and price targets in prior periods, above, or, if electronic format or if with respect to multiple companies which are the subject of this report, on the Goldman Sachs website at https://www.gs.com/research/hedge.html.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at https://www.gs.com/worldwide/brazil/area/gir/index.html. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 951-A, Rational House, Appasaheb Marathe Marg, Prabhadevi, Mumbai 400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at:

https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, The Investment Trusts Association, Japan, and Japan Investment Advisers Association. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction lists, which are selected from Buy rated stocks on the respective region's Investment lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) have been suspended pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company. **Not Available or Not Applicable (NA).** The information is not available for display or is not applicable. **Not Meaningful (NM).** The information is not meaningful and is therefore excluded.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. of Denmark; GSBE - Sucursal en España (Madrid branch) subject (to a limited extent) to local supervision by the Bank of Spain disseminates research in the Kingdom of Spain; GSBE - Succursale Italia (Milan branch) to the relevant applicable extent, subject to local supervision by the Bank of Italy (Banca d'Italia) and the Italian Companies and Exchange Commission (Commissione Nazionale per le Società e la Borsa "Consob") disseminates research in Italy; GSBE - Succursale de Paris (Paris branch), supervised by the AMF and by the ACPR disseminates research in France; and GSBE - Sweden Bankfilial (Stockholm branch), to a limited extent, subject to local supervision by the Swedish Financial Supervisory Authority (Finansinpektionen) disseminates research in the Kingdom of Sweden.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.fiadocumentation.org/fia/regulatory-disclosures_1/fia-uniform-futures-and-options-on-futures-risk-disclosures-booklet-pdf-version-2018. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.

EQUITY RESEARCH QUICK TAKE

RBC Capital Markets, LLC
Shelby Tucker, CFA (Analyst)
(212) 428-6462, shelby.tucker@rbccm.com

August 2, 2023

Exelon Corporation

2Q23 in line; 2023 guidance reaffirmed

NYSE: EXC | USD 41.47 | Sector Perform | Price Target USD 47.00

Sentiment: Neutral

Our view: Adjusted earnings of $0.41 compared to our estimate of $0.40 and consensus of $0.41. 2023 guidance of $2.30-$2.42 is reaffirmed, as is the long-term EPS growth CAGR of 6%-8%. On the call, we expect to hear more on the new Pepco rate case filing and pending distribution rate cases, preliminary commentary on weather in Q3, and the regulatory calendar.

EXC reported 1Q23 earnings of $0.41 versus 1Q22 earnings of $0.44. Higher interest rates and unfavorable weather were both a -3c drag in the quarter, partially offset by increased distribution and transmission rates.

Regulatory updates. Pepco Maryland filed a new 3-year plan in May, requesting $213M of additional revenue through 2027. An order date is expected in June 2024. Multiple outstanding rate cases are ongoing across regulatory areas, with the two largest at ComEd and BGE expected to be completed by the end of this year.

2023 financing outlook. The company completed 100% of its planned 2023 debt financing needs in Q1 and Q2. EXC continues to target 13-14% FFO/debt metric with the downgrade threshold around 12%. The company still expects to issue $425 million of equity by 2025.

Conference call today at 10:00AM ET. Register for a unique pin here.

Capital Markets

Required disclosures

Conflicts disclosures

The analyst(s) responsible for preparing this research report received compensation that is based upon various factors, including total revenues of the member companies of RBC Capital Markets and its affiliates, a portion of which are or have been generated by investment banking activities of the member companies of RBC Capital Markets and its affiliates.
With regard to the MAR investment recommendation requirements in relation to relevant securities, a member company of Royal Bank of Canada, together with its affiliates, may have a net long or short financial interest in excess of 0.5% of the total issued share capital of the entities mentioned in the investment recommendation. Information relating to this is available upon request from your RBC investment advisor or institutional salesperson.

Please note that current conflicts disclosures may differ from those as of the publication date on, and as set forth in, this report. To access current conflicts disclosures, clients should refer to https://www.rbccm.com/GLDisclosure/PublicWeb/DisclosureLookup.aspx?entityId=1 or send a request to RBC CM Research Publishing, P.O. Box 50, 200 Bay Street, Royal Bank Plaza, 29th Floor, South Tower, Toronto, Ontario M5J 2W7.

A member company of RBC Capital Markets or one of its affiliates managed or co-managed a public offering of securities for Exelon Corporation in the past 12 months.

A member company of RBC Capital Markets or one of its affiliates received compensation for investment banking services from Exelon Corporation in the past 12 months.

RBC Capital Markets, LLC makes a market in the securities of Exelon Corporation.

A member company of RBC Capital Markets or one of its affiliates received compensation for products or services other than investment banking services from Exelon Corporation during the past 12 months. During this time, a member company of RBC Capital Markets or one of its affiliates provided non-securities services to Exelon Corporation.

RBC Capital Markets is currently providing Exelon Corporation with non-investment banking securities-related services.

RBC Capital Markets has provided Exelon Corporation with non-investment banking securities-related services in the past 12 months.

RBC Capital Markets has provided Exelon Corporation with non-securities services in the past 12 months.

Explanation of RBC Capital Markets Equity rating system

An analyst's 'sector' is the universe of companies for which the analyst provides research coverage. Accordingly, the rating assigned to a particular stock represents solely the analyst's view of how that stock will perform over the next 12 months relative to the analyst's sector average.
Ratings
Outperform (O): Expected to materially outperform sector average over 12 months.
Sector Perform (SP): Returns expected to be in line with sector average over 12 months.
Underperform (U): Returns expected to be materially below sector average over 12 months.
Restricted (R): RBC policy precludes certain types of communications, including an investment recommendation, when RBC is acting as an advisor in certain merger or other strategic transactions and in certain other circumstances.
Not Rated (NR): The rating, price targets and estimates have been removed due to applicable legal, regulatory or policy constraints which may include when RBC Capital Markets is acting in an advisory capacity involving the company.
Risk Rating
The **Speculative** risk rating reflects a security's lower level of financial or operating predictability, illiquid share trading volumes, high balance sheet leverage, or limited operating history that result in a higher expectation of financial and/or stock price volatility.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

RBC Capital Markets

Distribution of ratings

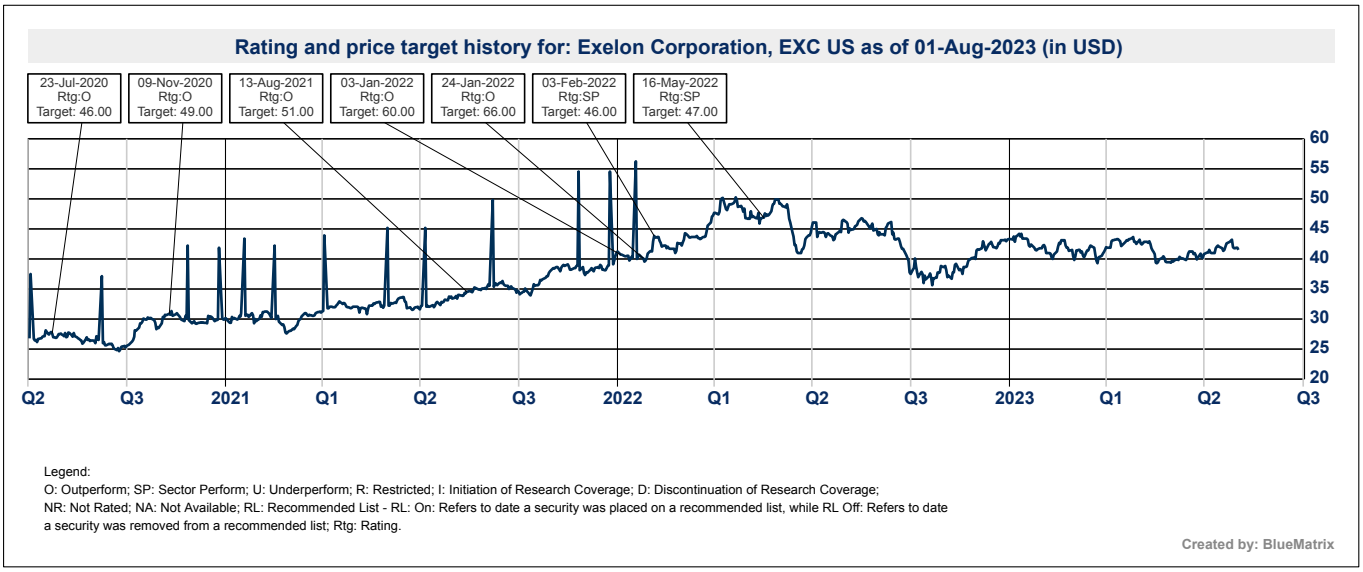
For the purpose of ratings distributions, regulatory rules require member firms to assign ratings to one of three rating categories - Buy, Hold/Neutral, or Sell - regardless of a firm's own rating categories. Although RBC Capital Markets' ratings of Outperform (O), Sector Perform (SP), and Underperform (U) most closely correspond to Buy, Hold/Neutral and Sell, respectively, the meanings are not the same because our ratings are determined on a relative basis.

Distribution of ratings

RBC Capital Markets, Equity Research

As of 30-Jun-2023

			Investment Banking Serv./Past 12 Mos.	
Rating	**Count**	**Percent**	**Count**	**Percent**
BUY [Outperform]	832	57.22	250	30.05
HOLD [Sector Perform]	573	39.41	138	24.08
SELL [Underperform]	49	3.37	3	6.12



References to a Recommended List in the recommendation history chart may include one or more recommended lists or model portfolios maintained by RBC Wealth Management or one of its affiliates. RBC Wealth Management recommended lists include the Guided Portfolio: Prime Income (RL 6), the Guided Portfolio: Dividend Growth (RL 8), the Guided Portfolio: ADR (RL 10), and the Guided Portfolio: All Cap Growth (RL 12). The abbreviation 'RL On' means the date a security was placed on a Recommended List. The abbreviation 'RL Off' means the date a security was removed from a Recommended List. As of April 3, 2023, U.S. RBC Wealth Management's quarterly reports will serve as the primary communication for its models and will highlight any changes to the model made during the quarter.

Equity valuation and risks

For valuation methods used to determine, and risks that may impede achievement of, price targets for covered companies, please see the most recent company-specific research report at www.rbcinsightresearch.com or send a request to RBC Capital Markets Research Publishing, P.O. Box 50, 200 Bay Street, Royal Bank Plaza, 29th Floor, South Tower, Toronto, Ontario M5J 2W7.

Exelon Corporation

Valuation

Our $47 price target assumes a 18.6x P/E multiple on 2024E utilities EPS of $2.51. Our multiple reflects a slight 3% discount to our base case blended electric and gas multiple of 19.1x, resulting in equity value per share of $47. While we believe Exelon utilities have a similar profile to industry peers (6–8% EPS CAGR and 7–8% rate base CAGR), we give consideration for some regulatory

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:33 PM.

overhang and lower ROE at ComEd. Our price target supports a Sector Perform rating.

Risks to rating and price target

- Stagnant ROE performance at ComEd
- Credit metrics deteriorate due to significant borrowings
- Inflation drives up O&M costs
- Corporate minium taxes become a drag on cash
- Approval of upcoming multi-year plans at favorable levels

Conflicts policy

RBC Capital Markets Policy for Managing Conflicts of Interest in Relation to Investment Research is available from us on request. To access our current policy, clients should refer to
https://www.rbccm.com/global/file-414164.pdf
or send a request to RBC Capital Markets Research Publishing, P.O. Box 50, 200 Bay Street, Royal Bank Plaza, 29th Floor, South Tower, Toronto, Ontario M5J 2W7. We reserve the right to amend or supplement this policy at any time.

Dissemination of research

RBC Capital Markets endeavors to make all reasonable efforts to provide research content simultaneously to all eligible clients, having regard to local time zones in overseas jurisdictions. RBC Capital Markets provides eligible clients with access to Research Reports on the Firm's proprietary INSIGHT website, via email and via third-party vendors. Please contact your investment advisor or institutional salesperson for more information regarding RBC Capital Markets' research.

KeyBanc Capital Markets

Alert

October 30, 2023

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: FE, EXC, ETR, DTE, AVA, WEC, XEL, DUK, ES

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com
Madison Lehan / (917) 368-2293 / madison.lehan@key.com

3Q earnings continue with PEG, OTTR, WEC, DTE, AVA, ETR, EIX, AEP, EXC, DUK, PNW, SO, ED, D, and SRE scheduled to report. This week, we are tracking proceedings in EXC's DE electric rate case and FE's ESP V and Grid Mod II proceedings. In other news, SERI files a compliance report for recoupment amounts and reaches a settlement in principle with AR PSC; parties file exceptions to the ALJ's proposed decision in DTE's MI electric rate case; the OR PUC authorizes a $7M increase in AVA's gas rate case; the MN PUC approves the settlement in MERC's natural gas rate case; SPS files its 2023 NM IRP; DUK completes the sale of its commercial renewables business; and Moody's downgrades ES's credit ratings. ***Don't miss our schedule of meetings at the EEI this fall and contact us to join the meetings.***

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.

Please scroll down for our full schedule, including dinners with **DTE** and **AGR**, and contact us or your KBCM sales representative to schedule meetings.

Upcoming Earnings Report

3Q earnings continue: PEG, OTTR, WEC, DTE, AVA, ETR, EIX, AEP, EXC, DUK, PNW, SO, ED, D, and **SRE** are scheduled to report this week (see calendar below). Our recently published preview, Finally, Attractive, includes our thesis, expectations, and estimates for our coverage.

Figure 1 - 3Q23 Utilities Earnings Calendar

Company Name	Ticker	Date	Time (ET)
FirstEnergy Corp	FE	10/27/2023	9:00 AM

Sempra Energy	SRE	11/3/2023	12:00 PM

*ED does not hold a conference call and will release an earnings package after market close
Source: Company filings, KeyBanc Capital Markets Inc.

Regulatory Calendar

FE — Staff testimony in FE's ESP V plan is due on October 30: FE's Ohio Edison, Cleveland Electric, and Toledo Edison filed the fifth Electric Security Plan (ESP) with the OH PUC, which covers the eight years from June 2024 through May 2032. ESP V focuses on maintaining reliability and affordability. FE proposed several rate design and cost recovery proposals, including continuing capital investment riders and introducing vegetation management, and storm cost recovery riders. FE also proposes a portfolio of energy efficiency and demand response programs. Evidentiary hearings are scheduled for November.

EXC — Surrebuttal testimony in EXC's DE electric rate case is due on November 1: EXC filed rebuttal testimony and updated its ask to $54M (net $39M) compared to its prior request of $56M (net $42M). EXC maintained its request for a 10.5% ROE and 50.5% equity. EXC's request compares to Staff's recommended $36M revenue increase, premised on a 9.38% ROE and 50.5% equity. The primary drivers of the delta are the lower O&M, Staff's use of an average-rate base method (vs. EXC year-end RB), and lower O&M. The Division of the Public Advocate recommended a revenue increase of $29M ($16M net), using a 9.1% ROE and 46.4% equity. EXC and the DPA's net revenue increase excludes $14M for the DSIC rider. A final order is expected in April 2024. Interim rates of $56M went into effect in mid-July.

FE — Staff testimony in FE's Grid Mod II plan is due on November 3: FE is seeking recovery of $626M of capital costs over four years. The plan includes continued investments in AMI by adding 700K more customers, installing distribution automation, and integrating additional volt/var control distribution circuits. The Grid Mod II filing also includes three pilot projects: a lateral electronic circuit protection pilot, a distributed energy resource front-of-the-meter battery energy storage system pilot, and a residential and commercial electric vehicle charging pilot program. Hearings are set to commence in December.

Recent Developments for Companies Under Our Coverage

From our midweek: The MT PSC approves the settlement in NWE's electric and gas rate cases; the VA Staff files testimony in D's biennial review proceedings; the MD PSC authorizes a $28M revenue increase for Potomac Edison; the IL ALJ proposes a $1.2B revenue increase in EXC's IL electric rate; SRE and EIX request a 70 bps increase to authorized ROE levels; AEP receives IURC approval for ~750 MW of solar power; and SO signs an MOU with GSA to develop carbon pollution-free electricity.

ETR — SERI makes compliance filing calculating $68M recoupment amount; reaches settlement agreement with AR PSC:

- SERI filed a compliance report to recalculate and update the required refunds associated with sale-leaseback renewal rent expenses and depreciation rate errors. As a result, SERI calculated that it is due $68M in recoupments ($61M for rent expenses and $7M for the deprecation rates) after refunding ETR AR, ETR MS, and ETR NO $104M on January 10, 2023. SERI will recoup a total of $41M from ETR LA and ETR NO on October 30. FERC instructed SERI to file the compliance report to recalculate the value of overpayments on sale-leaseback refunds previously made to customers in its August 28 order.
- SERI will not be recouping the $27M from the AR PSC after SERI noted in the compliance report that ETR AR and SERI have reached a settlement in principle to resolve several pending cases. The parties are memorializing the settlement and plan to file the agreement with FERC shortly. The settlement terms align with the $588M global settlement SERI and ETR MS entered in 2022. That settlement included a $142M refund to ETR AR. Read more about the global settlement here.

DTE — Parties file exceptions to the ALJ's proposed decision in DTE's MI electric rate case: DTE's critical exceptions included the disallowance of $406M for investments into the electric distribution infrastructure, which replaced and hardened the aging infrastructure across its service territory. DTE's other critical exceptions included the $44M disallowance for IT O&M expenses; $51M disallowance for customer self-service IT investments; the $203M disallowance for decommissioning costs for St. Clair, River Rouge, and Trenton Channel; $7M disallowance for inflation adjustments; and the 9.8% ROE. If the ALJ PFD were adopted, DTE would likely need to pause or cancel critical investments. The Company has implemented cost measures over the past several years to offset high inflation while staying out of any rate cases during the pandemic and only receiving a $30M revenue increase in the 2022 rate case. The Company does not have many more levers to pull and, therefore, would need to cut investments. ~80% of its revenue request is associated with a correction to the sales forecast from the last rate case ($102M), the recovery of investments made between 2021-2023 and expected to be made in 2024 ($278M), and expenses for inflation and higher interest rates ($74M). As a reminder, the ALJ's PFD recommended a $290M revenue increase, premised on a 9.8% ROE and 50% equity. Staff, which recommended a $379M revenue increase, only listed a few exceptions, including the approval of the IRM with some modifications. New rates are expected to go into effect on December 10. Read more about the ALJ PFD here.

AVA — PUC authorizes $7M increase in AVA OR gas rate case: The OR PUC issued a final order adopting the first partial settlement and the second settlement that resolved all remaining issues. As a result, AVA authorized a $7M revenue increase, premised on a 9.5% ROE, 50% equity, and a $340M rate base. The lower revenue requirement relative to AVA's initial $11M (10.24% ROE, 50% equity) request reflects lower depreciation rates from its latest depreciation study and the removal of $6.8M from the rate base for pro forma capital investments. The first settlement resolved the costs of capital components, lowering the revenue requirement by $1.6M. New rates will go into effect January 1, 2024.

Sophie Karp (917) 368-2361 / sophie.karp@key.com

WEC — MN PUC votes to approve settlement in MERC's natural gas rate case: The MN PUC voted to adopt the settlement among Minnesota Energy Resources, the Department of Commerce, the Division of Energy Resources, the OAG, and others that resolved all issues in its latest rate case. While a final order is pending, the settlement agreed to a net $21M revenue increase ($29M gross), premised on a 9.65% ROE and 53% equity. It also extended the revenue decoupling mechanism for three years. MERC initially requested a net $33M revenue increase ($42M gross), premised on a 10.3% ROE, 53% equity layer, and a rate base of $482.5M. Interim rates of ~$37M went into effect on January 1, requiring MERC to refund customers for the over-collected amounts.

XEL — SPS files 2023 NM resource plan: The 2023 IRP (Docket# 23-00073-UT) covers the 20 years from 2024-2043. XEL presented three load forecasts ranging from a low-load growth scenario to a high-load growth forecast. The modeling projects a total resource need ranging from 5-10GW by 2030 and 12.5-23.5GW through 2043. Specifically, to meet the near-term resource needs, XEL plans to add 4.2-6.6GW of wind and solar, 1-4.3GW of dispatchable resources, and 10MW-4.2GW of dispatchable resources. The needs are driven by increased population and economic growth in XEL's service territory, EV adoption, and the expansion of the oil & gas industries. XEL also expects to exit all coal operations by the end of 2028, including the retirement of the Tolk Station at the end of 2028. The earlier retirement of Tolk was recently approved by TX and NM commissioners. The PRC has six months to act on the IRP filing. If approved, XEL expects to issue an RFP in mid-2024.

DUK — DUK completes sale of utility-scale commercial renewables business: DUK announced the closing of the sale of its utility-scale solar and wind group (read more here) to Brookfield Renewable for ~$2.8B, including project debt and non-controlling tax equity interests. The announcement completes DUK's transition to a fully regulated business. In addition to the commercial renewables sale, DUK previously closed the sale of its distributed energy business. The proceeds from both deals will be used to offset capital needs in the regulated business and to help fund the Company's 10-year, $145B capital plan.

ES — Moody's downgrades ES; Fitch revises outlook on ES: Moody's downgraded ES and NSTAR Electric to Baa2 and A2, respectively. Moody's previously rated them Baa1 and A1, respectively. The outlooks were stable. Fitch maintained its ratings but revised its outlooks for ES and NSTAR Electric from stable to negative. The negative outlook reflects the uncertainty around the sale of its offshore development projects and the expectation of a future equity issuance. Fitch noted that the failure to complete the sale or equity issuance in a timely manner would result in a downgrade to the ratings. Fitch currently rates ES and NSTAR as BBB+ and A, respectively.

Earnings Recap

NWE — NWE reported 3Q results slightly ahead of our expectations on lower depreciation and interest expenses than we modeled. Notably, the Company recently received approval of its MT rate cases, resulting in the Company receiving enough clarity to provide 2023 and 2024 earnings guidance, while also updating its long-term growth rate (4-6%) and rate base growth (4-6%). We see the set of updates as an encouraging sign of an improving regulatory construct, and expect NWE to be able to comfortably achieve its growth rates over the next several years, with incremental opportunities for capital investment as it seeks to reduce its capacity shortages. Read our full report here.

POR — POR reported 3Q results in line with our expectations, despite lower residential and C&I volumes and a drag from higher power prices during peak demand periods. Consequently, the Company has narrowed its 2023 guidance and maintained LT growth outlook. Regulatory updates were constructive, particularly as POR has reached a settlement in its OR GRC with constructive PCAM modifications. Read our full report here.

XEL — XEL reported in-line 3Q results and rolled out 2024 guidance that is aligned with our expectations. The Company has also refreshed its base five-year capital plan, which now stands at $34B ($29B prior), with potential for $10B in additions for CO and SPS resource plans and other future RFPs. Read our full report here.

FE — FE reported 3Q results that were near the top end of its range as it benefited from the use of NOLs and continued to execute on its plan to reduce costs to help offset headwinds in 2023. The Company narrowed its guidance range, while slightly raising its capital plan through 2025. We expect a refreshed capital plan to incorporate the outcomes of its rate cases, ESP V, and the Grid Mod II. More importantly, the Company has once again reiterated its LT 6-8% growth rate target and was confident in its commentary that it expects to maintain the range in its refreshed guidance plan. Read our full report here.

CMS — CMS reported in line 3Q results, matching our estimates and consensus. The Company highlighted its operating initiatives designed to offset weather headwinds that have persisted throughout 2023, and noted identified upside to its $15.5B capital plan, though the full refresh is expected on 4Q results. Read our full report here.

AGR — AGR missed 3Q expectations across the board with Renewables driving the largest delta, as taxes were a significant headwind y/y. AGR maintained its FY guidance, which includes the benefits of the make-whole from the NY rate cases and the sale of assets. We note that the outcomes in ME and NY were relatively constructive and an encouraging sign, but CT will remain a challenge in the medium term. A Supreme Court decision on the PNM merger is the main item we are watching, which will set the path for the Company's future financing needs, which could be partially met by the proceeds from the transfer of tax credits. Read our full report here.

Sophie Karp (917) 368-2361 / sophie.karp@key.com

CNP — CNP reported EPS of $0.40, which was ahead of our estimate, resulting in the Company raising its full-year guidance. The Company also took advantage of the strong YTD performance by pulling forward O&M from 2024, helping to derisk next year, and instilling confidence in achieving the 8% growth rate embedded in the 2024 guidance range. The Company raised its 2023-2025 capital plan by $0.5B, which it seeks to fund through a combination of debt/ equity, and will wait until the conclusion of a busy regulatory calendar to refresh its long-term capital plan. The $43.9B capital plan through 2030 should support the Company's 6-8% long-term EPS growth rate, and the Company still has significant opportunities over the next few years to add to its plan. Read our full report here.

NEE — NEE reported an above-consensus quarter and took an impairment charge for NEP. More importantly, NEE began outlining its strategy post the fallout at NEP. The Company's refreshed funding strategy involves tax credit sales, some equity and non-core assets and renewable assets sales. Read our full report here.

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC ("KBCMI"), and KeyBank National Association ("KeyBank N.A."), are marketed.

KeyBanc Capital Markets Inc. ("KBCMI") does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst's compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. This communication is intended solely for use by KBCMI clients. The recipient agrees not to forward or copy the information to any other person without the express written consent of KBCMI.

KBCM Research LLC ("KeyBanc Capital Markets Research"), an SEC registered investment advisor, is a wholly owned subsidiary of KeyBanc Capital Markets Inc. KeyBanc Capital Markets Research provides objective and sophisticated **Research Services**, primarily in the form of published Research Reports, to an institutional client base in exchange for a cash fee. KBCM Research does not provide particularized investment advice with regard to any specific institutional client, on the basis of specific sector or company requests from a client. Our advisory relationship with our clients is strictly limited to the provision of **Research Services**, which are not to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. Additional information about KBCM Research LLC also is available on the SEC's Investment Adviser Public Disclosure (IAPD) website.

Energy: Electric Utilities

Midweek Thoughts — NWE, D, FE, EXC, EIX, SRE, AEP, SO

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com
Madison Lehan / (917) 368-2293 / madison.lehan@key.com

Earlier this week, NEE reported 3Q23 results. AGR, CMS, CNP, FE, NWE, POR, and XEL are scheduled to report later this week. In other news, the MT PSC approves the settlement in NWE's electric and gas rate cases; the VA Staff files testimony in D's biennial review proceedings; the MD PSC authorizes a $28M revenue increase for Potomac Edison; the IL ALJ proposes a $1.2B revenue increase in EXC's IL electric rate; SRE and EIX request a 70 bps increase to authorized ROE levels; AEP receives IURC approval for ~750 MW of solar power; and SO signs an MOU with GSA to develop carbon pollution-free electricity. Don't miss our EEI schedule included below, and contact us to schedule any meetings.

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.

Please scroll down for our full schedule, including dinners with **DTE** and **AGR.** Please contact us or your KBCM sales representative to schedule meetings.

Upcoming Earnings Reports

AGR reported after the close today. **CMS** and **CNP** report BMO tomorrow (Thursday), followed by **FE** and **NWE** AMC. **POR** and **XEL** report BMO Friday. Our recently published 3Q23 Preview includes our thesis, expectations, and estimates for our coverage. Earlier this week, **NEE** reported earnings. Please scroll down for our takeaways.

Industry News and News from Companies in Our Coverage

NWE — MT PSC approves settlement in electric and gas rate cases; new rates going into effect November 1: The MT PSC voted 5-0 to approve the settlement between NWE, the MT Consumer Counsel, and several intervenors. As a reminder, the settlement agreed to an $82M electric revenue increase and an $18M natural gas revenue increase, including $15M and $4M for the respective property tax trackers. The increases are premised on maintaining the authorized ROE levels for electric and gas at 9.65% and 9.55%, respectively. NWE will continue to earn a 10% ROE at Colstrip Unit 4. The parties also adopted the 48.02% equity layer NWE requested. The approval further validates our view that MT is becoming an incrementally more constructive regulatory construct. However, we note that the PSC denied retroactively implementing rates to October 1, 2022, which our model assumed a true-up in 4Q23. NWE will not appeal the decision and new rates will go into effect on November 1, 2023, which will be incremental to the interim electric and gas rates of $29M and $2M, respectively. Read more about the initial settlement here.

D — Staff files testimony in D's VA biennial review proceedings: Staff's analysis determined that D would produce ROEs of 10.49% and 10.37% in 2024 and 2025, respectively. Therefore, Staff recommends a $72M reduction in revenue in 2024 and a $10M increase in 2025. Staff removed adjustments for lost revenues due to DSM/EE adjustment programs, which drove the most significant difference relative to D's request. D provided a forward-looking, rate-making analysis demonstrating a $26M revenue deficiency in 2024 and an incremental $25M in 2025. However, since the legislation also says that the fold-in of $350M in rider revenue (Rider R – Bear Garden, Rider S – Virginia City, Rider W – Warren County) into base rates cannot serve as a basis for a rate increase, D is not proposing any incremental rates in this proceeding. Staff also recommends that D be able to defer $46M of the $76M of severe weather event costs that D experienced during the 2021 and 2022 test periods. The deferrals allow D to earn the 9.35% authorized ROE for those periods. D would be allowed to amortize the costs over two years, beginning January 1, 2023. D made the biennial rate filing in pursuance of new legislation. An SCC order is expected by March 3, 2024, followed by new rates going into effect April 1, 2024.

FE — MD PSC authorizes $28M revenue increase for Potomac Edison: The MD PSC issued a final order authorizing FE's Potomac Edison to increase rates $28M (net $23M), premised on a 9.5% ROE, 53% equity, and $680M rate base. The authorized rate base excluded post-test-year reliability investments and capitalized administrative and general expenses. The PSC also denied Potomac Edison's proposal for a second phase of the electric distribution investment surcharge (EDIS). Potomac Edison's latest request was for a $50M revenue increase premised on a 10.6% ROE, 53.53% equity layer, and a $719M rate base. New rates are expected to go into effect November 1.

EXC — IL ALJ proposes $1.2B revenue increase in EXC's IL electric rate: The ALJ issued a PD recommending a $1,175M revenue increase, premised on a 9.28% ROE. In briefs, EXC updated its request to a $1,499M revenue increase over the 2024-2027 period while proposing to defer ~$339M for future recovery. EXC is allowed to phase-in up to 50% of the initial year's approved increase to be deferred and recovered within 24 months, or by 2026. EXC's request is premised on gradual increases in its ROE (10.5-10.65%) and equity layers (50.58-51.19%) through the four years. Staff filed briefs recommending a $1,118M revenue increase over 2024-2027 while continuing to make its case for an 8.91% ROE, or 580 bps over the 2022 U.S. Treasury Bond yield of 3.114%. The ALJ denied this method in the PD. Exceptions to the PD are due by November 8. The ICC has until December 20 to issue a final decision. New rates are expected to go into effect January 1, 2024.

- **ROE:** The ALJ recommends a 9.28% ROE throughout the four years of the MYRP. The ALJ derived the recommended ROE using the Staff's DCF (9.23%) and CAPM (9.5%) calculations. The ALJ recommendation is better than the 8.91% ROE Staff recommended using the formula approach of 580 bps over the 2022 U.S. Treasury Bond yield of 3.114%. That approach was no longer applicable since that option existed only under the IL Energy Infrastructure Modernization Act, which expired at the end of 2022, and the provisions of the CEJA require that the ROE be determined under current commission law and renders the statutory formula rate as "inoperative." EXC requested a 10.5% ROE with annual step-ups of 5 bps, resulting in a 10.65% ROE by 2026.
- **Equity layer:** The ALJ ruled that EXC should not have a capital structure that exceeds 50% equity, and therefore EXC will be authorized a capital structure that is the lower of 50% equity or the Company's actual equity ratio during each year of the MYRP. The ALJ does not believe an equity layer exceeding 50% is just and reasonable and would require specific ICC approval. The ALJ also noted that EXC did not have a capital structure that exceeded 50% over the past five years, and its capital structure has averaged 46.6% equity since 2012. EXC requested an equity ratio beginning at 50.58% in RY1 with gradual increases to 51.19% by RY4.

Figure 1 - EXC IL Electric MYRP GRC

Source: Regulatory filings, KeyBanc Capital Markets Inc

EIX, SRE — CA utilities request 70 bps increase to authorized ROEs: EIX's SCE and SRE's SoCalGas and SDG&E filed advice letters with the CA PUC seeking a 70 bps increase to authorized ROE levels. SCE, SoCalGas, and SDG&E's current authorized ROEs are 10.05%, 9.8%, and 9.95%, respectively. If approved, the 70 bps ROE increase would raise SCE's revenue requirement by $201M and would raise SoCalGas and SDG&E's revenue requirements by $77M and $44M, respectively. The request is in response to the cost-of-capital mechanism, which allows utilities to seek adjustments to authorized ROEs when utility bond yields change by more than 100 bps. The utilities can seek a change that is up to half of the total difference in utility bond yields. Protests to the requests are due by November 2. EIX and SRE requested new rates to become effective November 12.

AEP — I&M receives IURC approval for ~750 MW of solar power: The Indiana Utility Commission issued an order approving AEP's proposal for four solar projects totaling 749 MW of generation. Specifically, APCo will own and operate the 245 MW Lake Trout and 224 MW Mayapple solar projects while purchasing power from the 100 MW Elkhart County and 180 MW Sculpin projects. AEP expects to commence construction on Lake Trout and Mayapple in 2H24 and enter them into service in 1H26. The projects will require ~$1B of capital. AEP agreed to procure ~2.2 GW of new carbon-free resources in its 2021 IRP. AEP previously received MI PSC approval for the Sculpin, Mayapple, and Elkhart projects but is awaiting approval for Lake Trout due to a different process in MI, given its size.

SO — SO signs MOU with GSA to develop carbon pollution-free electricity: SO and the U.S. General Services Administration signed an MOU to develop carbon pollution-free electricity options across SO's territory for federal facilities. The GSA and SO would collaborate on developing a roadmap that would eventually lead to federal agencies buying more CFE and achieving reliability and resiliency in the region. The understanding is part of the federal government goal, which was put forth in the Federal Sustainability Plan, seeking to achieve 100% CFE for federal government operations by 2030, including 50% on a 24/7 basis, 100% zero-emission vehicle acquisitions by 2035, and net-zero emissions buildings by 2045, among others.

Earnings Recap

NEE — NEE reported an above-consensus quarter and took an impairment charge for NEP. More importantly, NEE began outlining its strategy post the fallout at NEP. The Company's refreshed funding strategy involves tax credit sales, some equity and non-core assets and renewable assets sales. Read our full report here.

The Wolfe Byte

An ICC ALJ recommended a disappointing ROE in EXC's ComEd rate case; not a surprise after an ALJ in AEE's similar case. The ICC likely addresses inconsistencies in the ALJ recs with law and gas cases before a final order. We think the 6-8% EPS growth target is intact.

Disappointing ICC ALJ rec: 9.28% ROE and no return on pension. Late 10/23, ICC ALJs recommended in ComEd's 2024-27 electric distribution rate case a 9.28% ROE, no return on pension, and rate base disallowances of ~$100M in 2024 and ~$600M by 2027. The ROE was disappointing but not surprising after ICC ALJs recommended 9.24% for AEE IL electric's rate case last week; see report. The recommended electric ROEs are inconsistent with ICC ALJ proposals in pending gas rate cases (~9.9%) and not supported by the current cost of capital. The ALJ recs will make it harder to achieve the goals in IL's 2021 utility law (CEJA). ComEd will file exceptions on 11/8 and replies 11/20, followed by oral arguments in late Nov. Final ICC decisions in both ComEd and AEE IL electric are due by 12/20. EXC has lagged the UTY by ~300bp since the AEE ALJ was issued. Notably, ComEd distribution is ~27% of EXC's total rate base, and we believe EXC's 6-8% EPS growth target is intact even with the ALJ's proposed ROE.

50bp ComEd distribution ROE = $0.04. Notably allowed ROEs for ComEd had been low under formula rates tied to 30Y UST. We think EXC's 6-8% growth likely assumed ComEd would be at least more in line with prior gas ROEs in IL (9.6-9.7%). ComEd can earn up to 32bp ROE incentives. ComEd requested a WACC on its pension asset, but the ALJ proposes no return; ComEd had been allowed a debt return on pension under formula rates. See p. 3 for more sensitivities. The ICC, which as three new comms, will issue final rulings on pending gas cases in Nov ahead of the electric decisions by 12/20. We are hopeful the ICC will address the inconsistencies of ALJ support for gas investment relative to electric.

Other opportunities. This summer EXC pointed to $870M of transmission capex mostly outside of its 2023-26 capital plan. EXC also is competing for transmission to address load growth in the Dominion territory. Both are indicative of potential capex that could backfill any reduction in ComEd investment.

ESTIMATES			DECEMBER FYE
($)	2023E	2024E	2025E
EPS FY	2.37 E	2.51 E	2.76 E
Cons.	2.36 E	2.51 E	2.72 E

WOLFE RESEARCH

October 24, 2023

Investment Conclusion

We believe EXC is a low-risk utility stock. It is a mostly electric T&D utility with no coal, constructive regulation in most of its jurisdictions, flexible B/S, and LT EPS growth of 6-8%, driven by ~8% rate base growth. We think the stock hit last year on IRA and nonlinear EPS growth was overdone. We think the messaging and conviction on its LT outlook will be well-received. And we see the stock over time trading in line with the low-risk, high-quality utilities. This year, focus will be on a first multiyear rate case in IL, as well as a second multiyear filing in MD and reconciliations of the first MD/BGE multiyear case. Those are expected to add more certainty to an otherwise low-risk utility story.

Valuation

Our $47PT is based on a one-turn premium to our utility group P/E of 16x 2025E.

More on ALJ in ComEd case

ComEd rate case. The ALJs' recommended rate increases and average rate base vs ComEd's revised requests are below. We also note ComEd's requested pension funding costs using its requested WACC.

- Rate increase electric: ALJ vs ComEd
  - 2024: $759M vs $969M
  - 2025: $152M vs $184M
  - 2026: $130M vs $167M
  - 2027: $133M vs $179M
- Rate Base (in $B): ALJ vs ComEd
  - 2024: $15.3 vs $15.4
    - Denied net plant is $88M
  - 2025: $16.3 vs $16.5
    - Denied net plant is $150M
  - 2026: $17.2 vs $17.5
    - Denied net plant is $315M
  - 2027: $18.0 vs $18.6
    - Denied net plant is $589M
- The ALJ rejected ComEd's request for a return on its pension asset, which is outside of rate base. ComEd requested recovery of pension funding costs using a WACC: ~$38M in 2024, $40M in 2025, $42M in 2026, $46M in 2027.

ComEd 2025 EPS sensitivities. The following are key sensitivities for ComEd distribution: Every $100M of disallowed rate base is ~$0.01. Every 50bp ROE is ~$0.04. A debt return (4.27% for 2025) on the jurisdictional portion of ComEd's pension asset (~$700M) is ~$0.03.

Relative stock performance and Comps

As shown in Exhibit 1, EXC has outperformed peers since May but is off 52-week relative highs following the ALJ order in AEE's IL electric case. EXC trades at a modest premium to regulated peers on 2025E; see Exhibit 2.

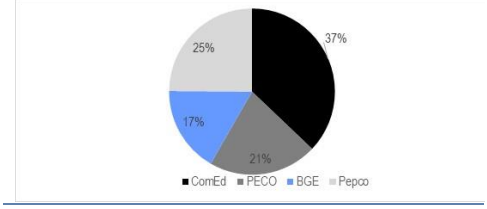
Exhibit 5: 2024 EPS by Subsidiary



Source: Wolfe Utilities & Power Research

Company Description

Chicago-based EXC is a large T&D (wires-only) regulated utility company, providing mostly electric service to roughly 10 million customers in the Mid-Atlantic and northern IL. It has no coal or other generation. ComEd serves northern IL and is EXC's largest utility sub, representing ~40% of rate base. Pepco serves DC, DE, MD and southern NJ and represents 25% of rate base. PECO, which serves southeastern PA, and BGE, which serves Baltimore, each represent nearly 20% of rate base. A little over 90% of EXC's total rate base is electric, with the rest gas LDC.

Investment Thesis

We believe EXC is a low-risk utility stock with above average EPS growth. It is a mostly electric T&D utility with no coal, constructive regulation in most of its jurisdictions, flexible B/S, and LT EPS growth of 6-8%.

Valuation

Our $47 PT is based on a one-turn premium to our utility group average P/E on 2025E. Risks are less capex, lower returns, less cash or more equity needs, and unfavorable regulatory outcomes.

Wolfe Research, LLC Fundamental Stock Ratings Key:

Please help us protect your advantage...
DO NOT FORWARD

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Outperform (OP):	The security is projected to outperform analyst's industry coverage universe over the next 12 months.
Peer Perform (PP):	The security is projected to perform approximately in line with analyst's industry coverage universe over the next 12 months.
Underperform (UP):	The security is projected to underperform analyst's industry coverage universe over the next 12 months.

Wolfe Research, LLC does not assign target prices for Peer Perform rated companies.

Wolfe Research, LLC uses a relative rating system using the terms Outperform, Peer Perform, and Underperform as per the definitions above. Please carefully read these definitions used in Wolfe Research, LLC research. In addition, since Wolfe Research, LLC research contains more complete information concerning the analyst's views, please carefully read Wolfe Research, LLC research in its entirety and do not infer the contents from the ratings alone. In all cases, ratings (or research) should not be used or relied upon as investment advice and any investment decisions should be based upon individual circumstances and other considerations.

Wolfe Research, LLC Industry Weighting System:

Market Overweight (MO):	Expect the industry to outperform the primary market index for the region (S&P 500 in the U.S.) by at least 10% over the next 12 months.
Market Weight (MW):	Expect the industry to perform approximately in line with the primary market index for the region (S&P 500 in the U.S.) over the next 12 months.
Market Underweight (MU):	Expect the industry to underperform the primary market index for the region (S&P 500 in the U.S.) by at least 10% over the next 12 months.

Wolfe Research, LLC Distribution of Fundamental Stock Ratings (As of October 24, 2023):

Outperform:	45%	4% Investment Banking Clients within the previous 12 months
Peer Perform:	45%	1% Investment Banking Clients within the previous 12 months
Underperform:	9%	0% Investment Banking Clients within the previous 12 months

Other Disclosures:

Wolfe Research, LLC does not assign ratings of Buy, Hold, or Sell to the stocks it covers. Outperform, Peer Perform, and Underperform are not the respective equivalents of Buy, Hold, and Sell but represent relative weightings as defined above. To satisfy regulatory requirements, Outperform has been designated to correspond with Buy, Peer Perform has been designated to correspond with Hold, and Underperform has been designated to correspond with Sell.

Wolfe Research Securities and Wolfe Research, LLC have adopted the use of Wolfe Research and The Wolfe Daily Howl as brand names. October 24, 2023

The Guggenheim Daily Transmission: NEE, NEP, EXC/IL, SMR, Wind, FE, NI, NEE/ED, ETR

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our FE CFO lunch, and other events, scroll down...

'23 LCOE Analysis – Inflation Now Embedded, But IRA Keeps Solar/Wind Competitive; Renewables Not Dead Despite Higher Interest Rates; NEE Positive Lateral (see our note HERE)

Utility and IPP 3Q23: Valuation and Estimate Adjustments (see our note HERE)

Utilities: Perfect Storm of Rates, Tax-Loss Selling, and Macro Concerns Weigh on Sector Valuation: We Remain Cautious and Selective Despite Sell-Off (see our note HERE)

NEE reports 3Q23 EPS beat; NEP reports 3Q23 EBITDA in-line; both reiterate EPS, EBITDA and CAFD guidance; NEER posts strong new project backlog adds

NEP reports 3Q23 EBITDA of $488M vs. $491M consensus

EXC/IL – ALJ PO docketed in ComEd MYP

SMR – NuScale responds to short seller report

Wind – Total sells stake in NY OSW project

FE – Phase 2 of Maryland case continues following $28m base rate increase

NI – Briefs due today in Infrastructure Replacement and Improvement Surcharge proceeding

NEE/ED – MVP continues construction progress; Developer sets 1Q24 COD timeline

ETR – Federal agencies sign agreement for carbon free electricity with ETR-AR

NEE reports 3Q23 EPS beat; NEP reports 3Q23 EBITDA in-line; both reiterate EPS, EBITDA and CAFD guidance; NEER posts strong new project backlog adds

- NEE reported $0.94 EPS for 3Q23 vs. $0.88 consensus and our $0.89 estimate.
- Regulatory Capital Employed has grown 13.4% vs. 12% last quarter
- NEER reported strong earnings growth, despite a drag from lower wind production and higher interest costs (new investment offsetting production and costs). (93% WPI for 3Q23, remains low for 2023 YTD)
- **NEER has ~3,245 MW of new renewables and storage added to the backlog**; ~1,025 MW put in service (strong net adds in 1Q).
- ~455 MW of wind repowering (first additions post IRA, incremental to pre-IRA plan).
- ~21,000+ MW in NEER aggregate backlog.
- **NEE reiterated guidance through 2026, including expectations to be near the top end of the ranges**.
- NEE provided cash flow guidance through 2026. $3B of equity, $3B of asset sales (incl. NEP). ~$25 - $35B of tax equity and project finance expected ($300M done in 2023).

NEP reports 3Q23 EBITDA of $488M vs. $491M consensus

- NEP reported 3Q23 EBITDA of $488M vs. $491M consensus.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

- NEP reiterated EBITDA and CAFD run rate guidance of $1,900 - $2,100 MM and $730 - $820 MM respectively (calendar year 2024 expectations for forecasted portfolio as of 12/31/2023)
- NEP reiterated $3.52 annualized DPU rate by year-end, with growth guidance of 5% - 8%, with a target of 6%
- NEP still in process of STX pipeline sales but has settled the CEPF buyouts on revolver; $402M.
- NEP announced plans to repower approximately 740 MW of wind facilities through 2026

EXC/IL – ALJ PO docketed in ComEd MYP

- The ALJ's proposed order in the MYP was docketed last night, calling for a 9.28% ROE (~50% equity)
- "The Commission has consistently approved the use of DCF and CAPM models in determining the cost of common equity. Staff's ROE analysis, using DCF and CAPM models, as adjusted herein is consistent with the Commission's preferred and accepted methods. The Commission finds this result meets the goals of Hope and Bluefield in allowing ComEd to attract capital yet still charge just and reasonable affordable rates. Therefore, the Commission adopts an ROE of 9.28% for each of the four test years." – filing
- "The Commission adopts the Three Tranche Phase-In proposal as proposed by ComEd and initially accepted by the AG. The Three Tranche Phase-In defers 35% of the revenue requirement increase from 2024 to 2026, 10% of the revenue requirement increase from 2025 to 2027, and 35% of the revenue requirement increase from 2026 to 2028."- filing
- More HERE

Guggenheim takeaway: *We believe investor expectations for deviations from AEE's order were fairly muted, with the key case data points appearing to closely resemble AEE's – we continue to parse the order.*

SMR – NuScale responds to short seller report

- The company responded to last week's short seller report with a series of rebuttals this AM
- More HERE

Guggenheim takeaway: *Flagged for your awareness. In our view, many of the seller's data points were not entirely new to investors, with several framing the story in our recent conversations as occupying somewhat of a show-me phase given lower familiarity with ENTRA1 and Standard Power.*

Wind – Total sells stake in NY OSW project

- "Corio and Rise [PRIVATE] took respective stakes of 27.7% and 16.3% in the *Attentive Energy* project. Rise will also contribute its assets and interconnection capabilities in New York City to the project. In exchange, TotalEnergies, which retains the remaining 56%, received a total cash consideration of $420 million. TotalEnergies had secured, in February 2022, 100% of maritime lease OCS-A 0538 at the *New York Bight* auction." – release [NYSE:TTE]
- More HERE

Guggenheim takeaway: *Minor FYI.*

FE – Phase 2 of Maryland case continues following $28m base rate increase

- The MD PSC assigned Potomac Edison a $28.0m base rate increase (vs the ALJ's $31.4m proposal and the company's original $50.4m ask).
- The order featured a 9.50% ROE and 53.0% equity layer, compared with the utility's previously authorized levels of 9.65% and 52.82%, respectively.
- Note that Phase II of the case will now take place and will be limited to consideration of the two programs proposed by the Potomac Edison Company to support low-income customers.
- Docket 9695

Guggenheim takeaway: *We note that modeling to a 9.5% ROE on 53% equity results in no change to FE's EPS vs. the utility's prior earnings parameters of a 9.65% ROE and 52.82% equity ratio, which we had been modeling previously. This is due to MD making up ~3% of FE's rate base.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

NI – Briefs due today in Infrastructure Replacement and Improvement Surcharge proceeding

- Briefs are due today in Columbia Gas of Maryland's Infrastructure Replacement and Improvement Surcharge (IRIS) proceeding.
- Docket 9709

Guggenheim takeaway: *Flagging for your calendar.*

NEE/ED – MVP continues construction progress; Developer sets 1Q24 COD timeline

- FERC approved more temporary workspaces and relocation of certain elements within disturbance limits for MVP.
- The pipeline developer noted last week that given the court challenges and late construction start in 2023, the project will now be ready for COD in 1Q24 (from year end 2023).
- The updated cost estimate also increased from $6.6B to $7.2B.
- MVP also recently filed tariff adjustments for increased maximum tariff rates on the pipe which remains fully subscribed (i.e. increased maximum tariff rate would not affect the negotiated rates)
- FERC Docket: CP16-10. / CP21-57

Guggenheim takeaway: *FYI. Highlights the continued work on construction going into the winter season and the associated with a later 2023 start on construction. MVP had around 50 miles of pipeline construction that was stalled on contested lands that Congress cleared for construction. Temporary workspaces highlight the extensive ramp up in work progress to complete the project by year end. Both ED and NEE have taken major write downs on the MVP project (i.e., not in financial guidance) and would not include any upsides in near term plans. Longer term, the prospect of MVP completion could enable a strategic process (ED specifically mentioned and executed an exit from gas midstream over the past 2 years). At nominal cost the value of MVP is ~1-2% of market cap.*

ETR – Federal agencies sign agreement for carbon free electricity with ETR-AR

- The White House announced an agreement signed with ETR-AR for supply of carbon free electricity for federal agency facilities in AR.
- Collectively, these agencies' total electricity load in the Entergy Arkansas territory is 278 gigawatt-hours
- More here.

Guggenheim takeaway: FYI. Supportive of ETR plans for energy transition and green tariffs across service territories. ETR previously outlined plans for 13 GW of solar over the next decade to support load growth, generation retirements and green tariffs.

Participating Guggenheim Analyst
Shar Pourreza, *Senior Managing Director, Senior Equity Research Analyst – Power & Utilities*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Equity Research | Corporate Access

FirstEnergy Corp. (FE)

Jon Taylor, *Chief Financial Officer*

Date & Time

Wednesday, December 6, 2023
12:00PM

Location

Guggenheim Office
330 Madison Ave, 32nd Floor
New York, NY

Company Information

Market Cap: $20.9bn

FirstEnergy Corp. (FE) engages in the generation, transmission, and distribution of electricity as well as energy management and other energy-related services through its subsidiaries. It operates through the following business segments: Regulated Distribution, Regulated Transmission, and Corporate or Other. The Regulated Distribution segment distributes electricity through FirstEnergy's utility operating companies, serving various customers. The Regulated Transmission segment transmits electricity through transmission facilities owned and operated by FirstEnergy's utilities. The Corporate or Other segment reflects corporate support and other costs not charged or attributable to the utilities or transmission companies. The company was founded in 1996 and is headquartered in Akron, OH. (Source: FactSet)

DISCLAIMER

Important Notices and Disclosures Please forward the language below to your Compliance team: Guggenheim Securities, LLC is providing notice to you and your firm's Compliance department that we have invited personnel from your firm to attend the above-referenced event. Attendees are advised that any information or materials discussed at the event or provided in connection therewith (the "materials") are provided for informational and educational purposes only and should not be considered a recommendation of any particular security, strategy or investment product, as investing advice of any kind, or as offering or providing any investment product or service, or as an offer or solicitation with respect to the purchase or sale of any investment by Guggenheim Securities, LLC or any of its affiliates ("Guggenheim"). The materials are not provided in an advisory or fiduciary capacity and may not be relied upon for or in connection with the making of investment decisions. The views expressed during the event and/or in the materials are solely those of the authors, participants, investment bankers and other presenters (collectively, the "Presenters") and may differ from the views of other officers, directors, employees or other representatives (as to any person or entity, its "Representatives") of Guggenheim or any other Presenter. The Presenters' opinions are subject to change without notice. Neither Guggenheim nor any other Presenter undertakes any obligation to provide additional information or any update to or correction of the information discussed or provided at the event or otherwise in connection therewith. Sources for the information discussed or contained in any materials are believed to be reliable, but the information is not guaranteed as to, and neither Guggenheim nor any other Presenter nor any of their respective Representatives make any representation or warranty regarding, accuracy or completeness of any information contained therein or otherwise. Neither Guggenheim nor any other Presenter nor any of their respective Representatives shall be liable to any person in any way whatsoever for any losses, costs or claims for reliance on the materials. Guggenheim and/or any other Presenter may have a business relationship with certain attendees and/or issuers mentioned during the event or in any materials provided, or may otherwise underwrite, hold a position, buy or sell as principal in the securities of any issuer mentioned. Guggenheim may have in the past provided, may currently be providing and may in the future seek to provide investment banking, financial advisory and other services to, and have other material relationships with, attendees and/or issuers of securities, loans and other financial instruments discussed during the event or referred to in any materials. With respect to any position Guggenheim or any Presenter may hold, Guggenheim or such Presenter may have interests different from or adverse to your interests. None of the materials provided may be reproduced or redistributed, in whole or in part, to any other person or published in whole or in part for any purpose absent the written consent of Guggenheim. By registering for and/or attending the event and/or accepting delivery of the materials, you will be deemed to acknowledge and agree to the matters set forth above. Copyright © 2023 by Guggenheim Securities, LLC, a FINRA registered broker-dealer. All rights reserved. Invitation is non-transferable.

This is a message from Guggenheim Securities, LLC to provide notice to you and your firm's compliance department that personnel from your firm are scheduled to attend the above-referenced meeting. The discussion will be general in nature and any mention of individual companies would only occur in the context of illustrating a trend or historical reference point. Our policies provide that specific companies, material non-public information and/or confidential information may not be discussed. The experts and/or speakers for this event may have material non-public information, but have agreed not to discuss such information. Further, all experts are required to review, understand our Expert Training Deck and agree to comply with its Terms and Conditions. Personnel from your firm must not seek Investor confidential information and/or material non-public information from Guggenheim Securities, LLC. Additionally, at your discretion, you may also choose not to attend the meeting.

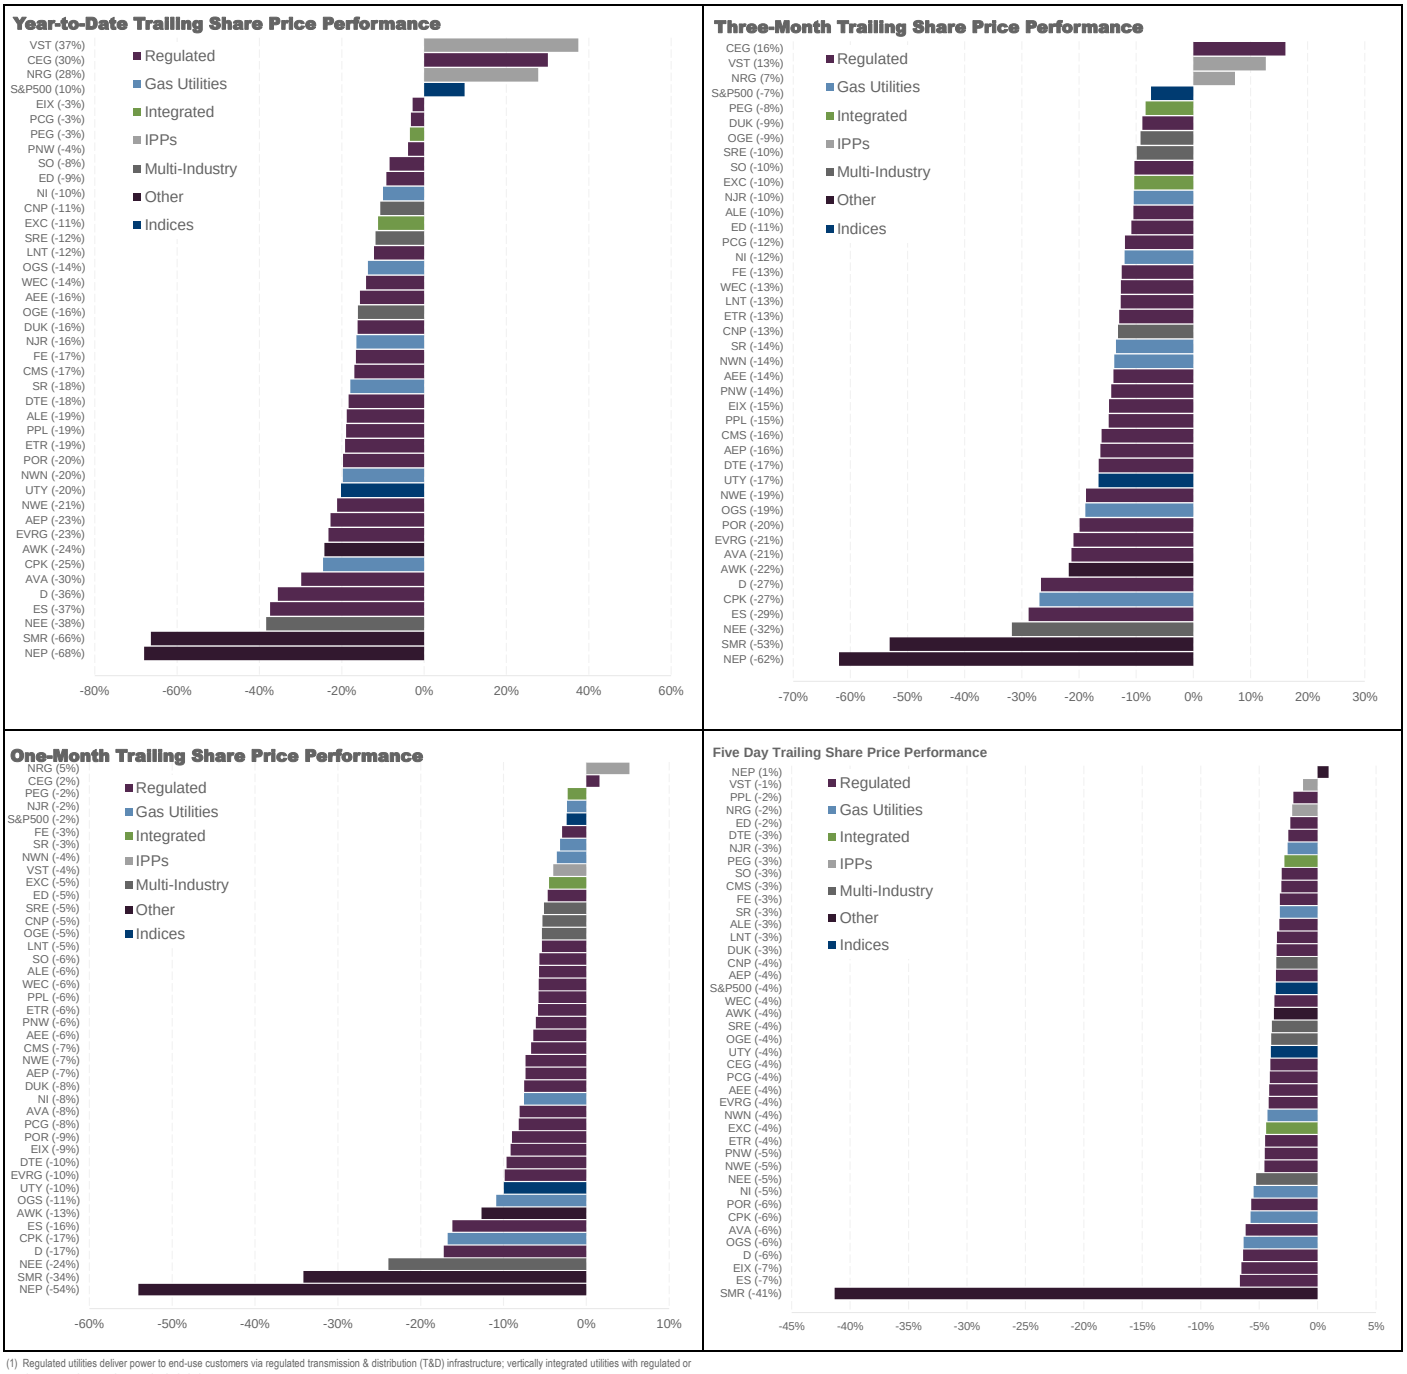
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

What Happened?

The proposed order in EXC's ComEd multi-year rate case in Illinois was filed post-close yesterday. The 9.28% ROE recommendation is just slightly higher than what we saw in AEE's case (note here) where the Administrative Law Judge recommended a 9.24%. Outside of the ROE, the proposed decision modestly improved upon the Staff position filed in July, with the cumulative revenue increase over '24 to '27 being $1,1175mm vs. Staff at $1,076mm and EXC's ask of $1,550mm. This is a very reasonable outcome on revenue at ~76% of the ask. The PD supports Staff's recommendation of 50.0% vs. the company's request of ~51.0%. On rate base the PD calls for $17,984mm in 2027 vs. Staff at $17,680mm and EXC at $18,715mm.

What's Our Take?

The cat was out of the bag on this disappointing ROE recommendation over the weekend with AEE. EXC underperformed the XLU by 145bps yesterday as most investors priced in the proposed decision in the AEE-IL case, so we don't believe there should be much incremental negative reaction from here. As we commented in that case, recent proposed decisions in several natural gas utility cases in Illinois, ranged from 9.83-9.89%. The formula rate mechanism the ComEd has been operating under for over a decade would imply 10.91%. For sensitivities, a 25bps change in ROE is worth ~ $0.02/shr and 100bps change in equity ratio is worth $0.015/shr. If a final order were to adopt the PD "as is", we see ~1.0% downside to EPS in '25 or ~3c/shr relative to what we believe the company embeds in the midpoint of its 6-8% EPS CAGR from 2022 through 2026, which we assume is ~9.6%. We note this is before any mitigation efforts on the part of management and the company will be eligible to earn up to 32bps of incentive ROE adders under the new multi-year rate plan framework.Overall, despite the ROE being a bit lower than expected (and still potential for improvement) the PD appears balanced and reasonable on revenue and rate base.

What's Next?

Exceptions to the proposed order are due 11/8, replies to exceptions are due 11/20 and a final order is due is 12/20. The company reports Q3 earnings on 11/2. The company will not be providing updated financial guidance until the Q4 call, but we expect the company to update views on the Illinois and Maryland regulatory processes and the pursuit of additional transmission projects.

Company Description

Exelon owns six regulated utility subsidiaries: Atlantic City Electric, BGE, ComEd, Delmarva Power, PECO and the Pepco Subsidiaries, which deliver electricity and natural gas to about 10m customers in Delaware, Washington DC, Illinois, Maryland, New Jersey, and Pennsylvania.

Valuation Method and Risk Statement

Our valuation methodology for the group is price to earnings based. The adjustments applied fall into 5 categories. These are as follows: 1) Group Valuation Bias: Flowing from our valuation work comparing Baa corporate yields to group dividend yields and RU price to earnings ratios to those for the S&P 500, we incorporate a positive or negative adjustment to our group multiple representing the gap we calculate to the nearest 5%; 2) Growth Adjustment: We adjust our valuations based on the growth quartile each utility occupies. First quartile receives a 5% premium, second quartile a 2% premium, third quartile a 2% discount and fourth quartile a 5% discount; 3) Regulatory Adjustment: Our valuation adjustments for regulation are based on our proprietary Regulatory Rankings. First quartile jurisdictions receive 5%, second quartile 2%, third quartile -2% and fourth quartile -5%; 4) Multi Utility Diversified Valuation: For multi utilities (those with more than 15% diversified or foreign earnings), we perform a sum-of-parts analysis applying business/region appropriate valuations to those diversified businesses; 5) One-off Adjustments: In special situations, we value risk on an issue specific basis. Common areas where we apply such an adjustment include: ESG advantage, large project construction risk, legal risk, and announced M&A completion risk.

We maintain our Price Target of $47 premised on a 6% premium to the group multiple or 17.0x our $2.77/share earnings forecast for 2025. Our 6% net premium is derived from a 5% premium for the overall regulated utility group, premised upon the current undervaluation versus the Baa corporate bond, a 3% discount for a 3rd quartile regulatory ranking overall, a 2% premium for 2nd quartile earnings growth, a 5% premium for energy transition, and 3% discount for lower pricing power.

Specific risks for Exelon include regulatory risks at the utilities, weather, and interest rates.

Quantitative Research Review

UBS Global Research publishes a quantitative assessment of its analysts' responses to certain questions about the likelihood of an occurrence of a number of short term factors in a product known as the 'Quantitative Research Review'. The views for this month can be found below. Views contained in this assessment on a particular stock reflect only the views on those short term factors which are a different timeframe to the 12-month timeframe reflected in any equity rating set out in this note. For previous responses please make reference to (i) previous UBS Global Research reports; and (ii) where no applicable research report was published that month, the Quantitative Research Review which can be found at https://neo.ubs.com/quantitative, or contact your UBS sales representative for access to the report or the Quantitative Research Team on qa@ubs.com. A consolidated report which contains all responses is also available and again you should contact your UBS sales representative for details and pricing or the Quantitative Research Team on the email above.

Exelon Corp

Question	Response
1. Is the industry structure facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting worse, 3 = no change, 5 = getting better, N/A = no view)	4
2. Is the regulatory/government environment facing the firm likely to improve or deteriorate over the next six months? Rate on a scale of 1-5 (1 = getting tougher 3 = no change, 5 = getting better, N/A = no view)	4
3. Over the last 3-6 months in broad terms have things been improving/no change/getting worse for this stock? Rate on a scale of 1-5 (1 = getting a lot worse, 3 = not much change, 5 = getting a lot better, N/A = no view)	4
4. Relative to the current CONSENSUS EPS forecast, is the next company EPS update likely to lead to: (1 = negative surprise vs consensus, 3 = in-line with consensus, 5 = positive surprise vs consensus expectations, N/A = no view)	2
5. What's driving the difference?	
6. Relative to YOUR current earnings forecast, is there relatively greater risk at the next earnings result of:(1 = downside skew risk to earnings, 3 = equal upside or downside risk to earnings, 5 = upside skew risk to earnings, N/A = no view)	3
7. What's driving the difference?	
8. Is there an upcoming catalyst for the company over the next three months?	
9. Is there an actual or approximate date for the catalyst?	
10. Is the catalyst date an actual or approximate date?	
11. What is the catalyst?

Short-Term Rating	**Definition**	**Coverage[3]**	**IB Services[4]**
Buy	Stock price expected to rise within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%
Sell	Stock price expected to fall within three months from the time the rating was assigned because of a specific catalyst or event.	<1%	<1%

Source: UBS. Rating allocations are as of 30 September 2023.
1:Percentage of companies under coverage globally within the 12-month rating category.
2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.
3:Percentage of companies under coverage globally within the Short-Term rating category.
4:Percentage of companies within the Short-Term rating category for which investment banking (IB) services were provided within the past 12 months.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

KEY DEFINITIONS: Forecast Stock Return (FSR) is defined as expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is defined as the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged as UR by the analyst, indicating that the stock's price target and/or rating are subject to possible change in the near term, usually in response to an event that may affect the investment case or valuation. **Short-Term Ratings** reflect the expected near-term (up to three months) performance of the stock and do not reflect any change in the fundamental view or investment case. **Equity Price Targets** have an investment horizon of 12 months.

EXCEPTIONS AND SPECIAL CASES: UK and European Investment Fund ratings and definitions are: Buy: Positive on factors such as structure, management, performance record, discount; **Neutral:** Neutral on factors such as structure, management, performance record, discount; **Sell:** Negative on factors such as structure, management, performance record, discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Committee (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed to be very high or low risk may be subject to higher or lower bands as they relate to the rating. When such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions expressed in this document may change without notice and are only current as of the date of publication. Different areas, groups, and personnel within UBS may produce and distribute separate research products independently of each other. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. Research methodologies and rating systems of each separate research organization may differ, for example, in terms of investment recommendations, investment horizon, model assumptions, and valuation methods. As a consequence, except for certain economic forecasts (for which UBS CIO and UBS Global Research may collaborate), investment recommendations, ratings, price targets, and valuations provided by each of the separate research organizations may be different, or inconsistent. You should refer to each relevant research product for the details as to their methodologies and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy the document.

UBS Global Research is provided to our clients through UBS Neo, and in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each a system) as an approved means for distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties via e-mail or alternative electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss your access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or has made use of data provided by UBS Evidence Lab and you would like to access that data please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending upon various factors such as a client's individual preferences as to the frequency and manner of receiving communications, a client's risk profile and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term, etc.), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab and legal and regulatory constraints.

When you receive UBS Global Research through a system, your access and/or use of such UBS Global Research is subject to this UBS Global Research Disclaimer and to the UBS Neo Platform Use Agreement (the "Neo Terms") together with any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (https://www.ubs.com/global/en/investment-bank/regulatory.html) and to UBS's Terms of Use/Disclaimer (https://www.ubs.com/global/en/legalinfo2/disclaimer.html). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (https://www.ubs.com/global/en/legalinfo2/privacy.html) and cookie notice (https://www.ubs.com/global/en/legal/privacy/users.html).

If you receive UBS Global Research, whether through a System or by any other means, you agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and that you shall not extract data from any research or estimates provided to you via UBS Global Research or otherwise, without the prior written consent of UBS.

In certain circumstances (including for example, if you are an academic or a member of the media) you may receive UBS Global Research otherwise than in the capacity of a client of UBS and you understand and agree that (i) the UBS Global Research is provided to you for information purposes only; (ii) for the purposes of receiving it you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) the UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is a general communication and is educational in nature; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. The recipient should carefully read this document in its entirety and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "The Characteristics and Risks of Standardized Options." You may read the document at https://www.theocc.com/publications/risks/riskchap1.jsp or ask your salesperson for a copy. Various theoretical explanations of the risks associated with these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies calling for multiple purchases and sales of options, such as spreads and straddles. Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions.

Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the Information.

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes:

(i) valuation or accounting purposes;

(ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or

(iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS Global Research manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit https://www.ubs.com/disclosures.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. All material information in relation to published research reports, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history etc. as required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by UBS Global Research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms under English law or, if not carried out by UBS in the UK the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months UBS may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

United Kingdom: This material is distributed by UBS AG, London Branch to persons who are eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority and subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. **Europe:** Except as otherwise specified herein, these materials are distributed by UBS Europe SE, a subsidiary of UBS AG, to persons who are eligible counterparties or professional clients (as detailed in the Bundesanstalt fur Finanzdienstleistungsaufsicht (BaFin) Rules and according to MIFID) and are only available to such persons. The information does not apply to, and should not be relied upon by, retail clients. UBS Europe SE is authorised by the European Central Bank (ECB) and regulated by the BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE. In all cases it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for the purpose of offering, marketing and sale by any means of any capital market instruments and services in the Republic of Turkey. Therefore, this document may not be considered as an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, according to article 15 (d) (ii) of the Decree No. 32, there is no restriction on the purchase or sale of the securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce regulated by the Polish Financial Supervision Authority. Where an analyst of UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE (spolka z ograniczona odpowiedzialnoscia) Oddzial w Polsce. **Russia:** Prepared and distributed by UBS Bank (OOO). Should not be construed as an individual Investment Recommendation for the purpose of the Russian Law - Federal Law #39-FZ ON THE SECURITIES MARKET Articles 6.1-6.2.**Switzerland:** Distributed by UBS AG to persons who are institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** The information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties, as classified under the DFSA rulebook. No other person should act upon this material/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS Investment Bank is not licensed to provide banking services in the UAE by the Central Bank of the UAE, nor is it licensed by the UAE Securities and Commodities Authority. **Israel:** This Material is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer that is supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or in distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as such term is defined under the Israeli Advisory Law). Nothing in this Material should be considered as investment advice under the Israeli Advisory Law. This Material is being issued only to and/or is directed only at persons who are Eligible Clients within the meaning of the Israeli Advisory Law, and this Material must not be furnished to, relied on or acted upon by any other persons. **United States:** Distributed to US persons by either UBS Securities LLC or by UBS Financial Services Inc., subsidiaries of UBS AG; or by a group, subsidiary or affiliate of UBS AG that is not registered as a US broker-dealer (a **'non-US affiliate'**) to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this report must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG that is registered to conduct business in Canada or is otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this Material is prepared by UBS Brasil Corretora de Câmbio, Títulos e Valores Mobiliários S.A. (UBS Brasil CCTVM) to persons who are eligible investors residing in Brazil, which are considered to be Professional Investors (Investidores Profissionais), as designated by the applicable regulation, mainly the CVM Resolution No. 30 from the 11th of May 2021 (determines the duty to verify the suitability of products, services and transactions with regards to the client´s profile). UBS Brasil CCTVM is a subsidiary of UBS BB Servicos de Assessoria Financeira e Participacoes S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB – Banco de Investimentos S.A.), of which UBS AG is the majority owner and which provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. UBS Brasil CCTVM is regulated by the Comissao de Valores Mobiliarios (CVM) and by the Central Bank of Brazil. Ombudsman: 0800-940-0266/ https://www.ubs.com/br/pt/ubsbb-investment-bank/ombudsman.html **Hong Kong:** Distributed by UBS Securities Asia Limited. Please contact local licensed persons of UBS Securities Asia Limited in respect of any matters arising from, or in connection with, the analysis or document **Singapore:** Distributed by UBS Securities Pte. Ltd. [Co. Reg. No.: 198500648C] or UBS AG, Singapore Branch. Please contact UBS Securities Pte. Ltd., an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110); or UBS AG, Singapore Branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or document. Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates (**"UBS"**) with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either

publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit https://www.ubs.com/research-methodology.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at https://www.theocc.com/about/publications/character-risks.jsp or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or Sustainable Investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio incorporating ESG factors or Sustainable Investing considerations may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

Disclosures: If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosure_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Bahrain: UBS is a Swiss bank not licensed, supervised or regulated in Bahrain by the Central Bank of Bahrain to undertake banking or investment business activities in Bahrain. Therefore, prospects/clients do not have any protection under local banking and investment services laws and regulations. **Brazil**: This report is only intended for Brazilian residents who are directly purchasing or selling securities in the Brazil capital market through a local authorized institution. **Canada**: The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. Under no circumstances is the information contained herein to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada or, alternatively, pursuant to a dealer registration exemption. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon these materials, the information contained herein or the merits of the securities described herein and any representation to the contrary is an offence. In Canada, this publication is distributed by UBS Investment Management Canada Inc. **China**: This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Czech Republic**: UBS is not a licensed bank in the Czech Republic and thus is not allowed to provide regulated banking or investment services in the Czech Republic. This communication and/or material is distributed for marketing purposes and constitutes a "Commercial Message" under the laws of Czech Republic in relation to banking and/or investment services. Please notify UBS if you do not wish to receive any further correspondence. **Denmark**: This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annae Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. UBS AG, its affiliates or subsidiaries may have debt holdings or positions in the subject Indian company/companies. UBS AG, its affiliates or subsidiaries may have financial interests (e.g. like loan/derivative products, rights to or interests in investments, etc.) in the subject Indian company/companies from time to time. Within the past 12 months, UBS AG, its affiliates or subsidiaries may have received compensation for non-investment banking securities-related services and/or non-securities services from the subject Indian company/companies. The subject company/companies may have been a client/clients of UBS AG, its affiliates or subsidiaries during the 12 months preceding the date of distribution of the research report with respect to investment banking and/or non-investment banking securities-related services and/or non-securities services. With regard to information on associates, please refer to the Annual Report at: https://www.ubs.com/global/en/about_ubs/investor_relations/annualreporting.html. **Indonesia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed without the consent of UBS. None of the Material has been registered or filed under the prevailing laws and with any financial or regulatory authority in your jurisdiction. The Material may not have been approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel**: UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. In Israel, UBS Switzerland AG is registered as Foreign Dealer in cooperation with UBS Wealth Management Israel Ltd., a wholly owned UBS subsidiary. UBS Wealth Management Israel Ltd. is an Investment Marketing licensee which engages in Investment Marketing and is regulated by the Israel Securities Authority. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. No action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy**: This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Jersey**: UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg**: This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia**: This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico**: This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco**: This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Nigeria**: The investment products mentioned in this material are not being offered or sold by UBS to the public in Nigeria and they have not been submitted for approval nor registered with the Securities and Exchange Commission of Nigeria. If you are interested in products of this nature, please let us know. The investment products mentioned in this material are not being directed to, and are not being made available for subscription by any persons within Nigeria other than the selected investors to whom the offer materials have been addressed as a private sale or domestic concern within the exemption and meaning of Section 69(2) of the Investments and Securities Act, 2007 (ISA). This material has been provided to you at your specific unsolicited request and for your information only. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have

been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal**: UBS Switzerland AG is not licensed to conduct banking and financial activities in Portugal nor is UBS Switzerland AG supervised by the portuguese regulators (Bank of Portugal "Banco de Portugal" and Portuguese Securities Exchange Commission "Comissão do Mercado de Valores Mobiliários"). **Qatar**: UBS Qatar LLC is authorized by the Qatar Financial Centre Regulatory Authority, with QFC no. 01169, and has its registered office at 14th Floor, Burj Alfardan Tower, Building 157, Street No. 301, Area No. 69, Al Majdami, Lusail, Qatar. UBS Qatar LLC neither offers any brokerage services nor executes any order with, for or on behalf of its clients. A client order will have to be placed with, and executed by, UBS Switzerland AG in Switzerland or an affiliate of UBS Switzerland AG, that is domiciled outside Qatar. It is in the sole discretion of UBS Switzerland AG in Switzerland or its affiliate to accept or reject an order and UBS Qatar LLC does not have authority to provide a confirmation in this respect. UBS Qatar LLC may however communicate payment orders and investment instructions to UBS Switzerland AG in Switzerland for receipt, acceptance and execution. UBS Qatar LLC is not authorized to act for and on behalf of UBS Switzerland AG or an affiliate of UBS Switzerland AG. This document and any attachments hereto are intended for eligible counterparties and business customers only. **Russia**: This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia**: UBS Saudi Arabia is authorised and regulated by the Capital Market Authority to conduct securities business under licence number 08113-37. **Singapore**: Clients of UBS AG Singapore branch are asked to please contact UBS AG Singapore branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or report. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved or endorsed by any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Sweden**: This publication is not intended to constitute a public offer under Swedish law. It is distributed only for information purposes to clients of UBS Europe SE, Sweden Bankfilial, with place of business at Regeringsgatan 38, 11153 Stockholm, Sweden, registered with the Swedish Companies Registration Office under Reg. No 516406-1011. UBS Europe SE, Sweden Bankfilial is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Swedish supervisory authority (Finansinspektionen), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Taiwan**: This material is provided by UBS AG, Taipei Branch in accordance with laws of Taiwan, in agreement with or at the request of clients/prospects. **Thailand**: This communication and any offering material, term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication were done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete the e-mail and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Turkey**: The information in this document is not provided for the purpose of offering, marketing or sale of any capital market instrument or service in the Republic of Turkey. Therefore, this document may not be considered as an offer made, or to be made, to residents of the Republic of Turkey in the Republic of Turkey. UBS Switzerland AG is not licensed by the Turkish Capital Market Board (the CMB) under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instrument/service may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the CMB. However, according to article 15 (d) (ii) of the Decree No. 32 residents of the Republic of Turkey are allowed to purchase or sell the financial instruments traded in financial markets outside of the Republic of Turkey. Further to this, pursuant to article 9 of the Communiqué on Principles Regarding Investment Services, Activities and Ancillary Services No. III-37.1, investment services provided abroad to residents of the Republic of Turkey based on their own initiative are not restricted. **United Arab Emirates (UAE)**: UBS is not a financial institution licensed in the UAE by the Central Bank of the UAE nor by the Emirates' Securities and Commodities Authority and does not undertake banking activities in the UAE. UBS AG Dubai Branch is licensed by the DFSA in the DIFC. This document is provided for your information only and does not constitute financial advice. **United Kingdom**: This document is issued by UBS Wealth Management, a division of UBS AG which is authorised and regulated by the Financial Market Supervisory Authority in Switzerland. In the United Kingdom, UBS AG is authorised by the Prudential Regulation Authority and is subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. Details about the extent of regulation by the Prudential Regulation Authority are available from us on request. A member of the London Stock Exchange. This publication is distributed to retail clients of UBS Wealth Management. **Ukraine**: UBS is not registered and licensed as a bank/financial institution under Ukrainian legislation and does not provide banking and other financial services in Ukraine. UBS has not made, and will not make, any offer of the mentioned products to the public in Ukraine. No action has been taken to authorize an offer of the mentioned products to the public in Ukraine and the distribution of this document shall not constitute financial services for the purposes of the Law of Ukraine "On Financial Services and State Regulation of Financial Services Markets" dated 12 July 2001. Any offer of the mentioned products shall not constitute an investment advice, public offer, circulation, transfer, safekeeping, holding or custody of securities in the territory of Ukraine. Accordingly, nothing in this document or any other document, information or communication related to the mentioned products shall be interpreted as containing an offer, a public offer or invitation to offer or to a public offer, or solicitation of securities in the territory of Ukraine or investment advice under Ukrainian law. Electronic communication must not be considered as an offer to enter into an electronic agreement or other electronic instrument within the meaning of the Law of Ukraine "On Electronic Commerce" dated 3 September 2015. This document is strictly for private use by its holder and may not be passed on to third parties or otherwise publicly distributed. **USA**: Distributed to US persons only by UBS Financial Services Inc. or UBS Securities LLC, subsidiaries of UBS AG. UBS Switzerland AG, UBS Europe SE, UBS Bank, S.A., UBS Brasil Administradora de Valores Mobiliários Ltda., UBS Asesores México, S.A. de C.V., UBS SuMi TRUST Wealth Management Co., Ltd., UBS Wealth Management Israel Ltd. and UBS Menkul Degerler AS are affiliates of UBS AG. **UBS Financial Services Inc. accepts responsibility for the content of a report prepared by a non-US affiliate when it distributes reports to US persons. All transactions by a US person in the securities mentioned in this report should be effected through a US-registered broker dealer affiliated with UBS, and not through a non-US affiliate. The contents of this report have not been and will not be approved by any securities or investment authority in the United States or elsewhere. UBS Financial Services Inc. is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule") and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule.**

Exelon Corporation

EXC's ComEd Rate Case Proposed Order Issued

NYSE: EXC | USD 38.40 | Sector Perform | Price Target USD 45.00

Sentiment: Neutral

Our view: Previously ComEd had operated under a variable system, where electric rates were based on a distribution formula rate plan with an allowed ROE set to the 30-year UST rate + 580 bps. While the change removes the variability of ROE, it also represents a decline versus what the company would have received under the old plan and likely below company expectations. This proposed order aligns with AEE's (not covered) proposed order that was received in the same jurisdiction on Friday, which allowed for a 9.24% ROE and 50% equity ratio. Had the AEE order not come out on Friday, we would have viewed this proposed order as negative.

The Illinois Commerce Commission released its proposed order for EXC's Commonwealth Edison Company, available here. The proposed order called for an equity ratio of 50% versus 50% previous and 51.2% requested by the company as well as an approved ROE of 9.28% versus 8.91% previous and 10.65% requested. The proposed rates also include a phase-in, allowing the higher rate increases expected under the plan in 2024 (23.9% YoY) to be phased in through 2026.

RBC Capital Markets has provided Exelon Corporation with non-investment banking securities-related services in the past 12 months.

RBC Capital Markets has provided Exelon Corporation with non-securities services in the past 12 months.

Explanation of RBC Capital Markets Equity rating system

An analyst's 'sector' is the universe of companies for which the analyst provides research coverage. Accordingly, the rating assigned to a particular stock represents solely the analyst's view of how that stock will perform over the next 12 months relative to the analyst's sector average.
Ratings
Outperform (O): Expected to materially outperform sector average over 12 months.
Sector Perform (SP): Returns expected to be in line with sector average over 12 months.
Underperform (U): Returns expected to be materially below sector average over 12 months.
Restricted (R): RBC policy precludes certain types of communications, including an investment recommendation, when RBC is acting as an advisor in certain merger or other strategic transactions and in certain other circumstances.
Not Rated (NR): The rating, price targets and estimates have been removed due to applicable legal, regulatory or policy constraints which may include when RBC Capital Markets is acting in an advisory capacity involving the company.
Risk Rating
The **Speculative** risk rating reflects a security's lower level of financial or operating predictability, illiquid share trading volumes, high balance sheet leverage, or limited operating history that result in a higher expectation of financial and/or stock price volatility.

RBC Capital Markets

Distribution of ratings

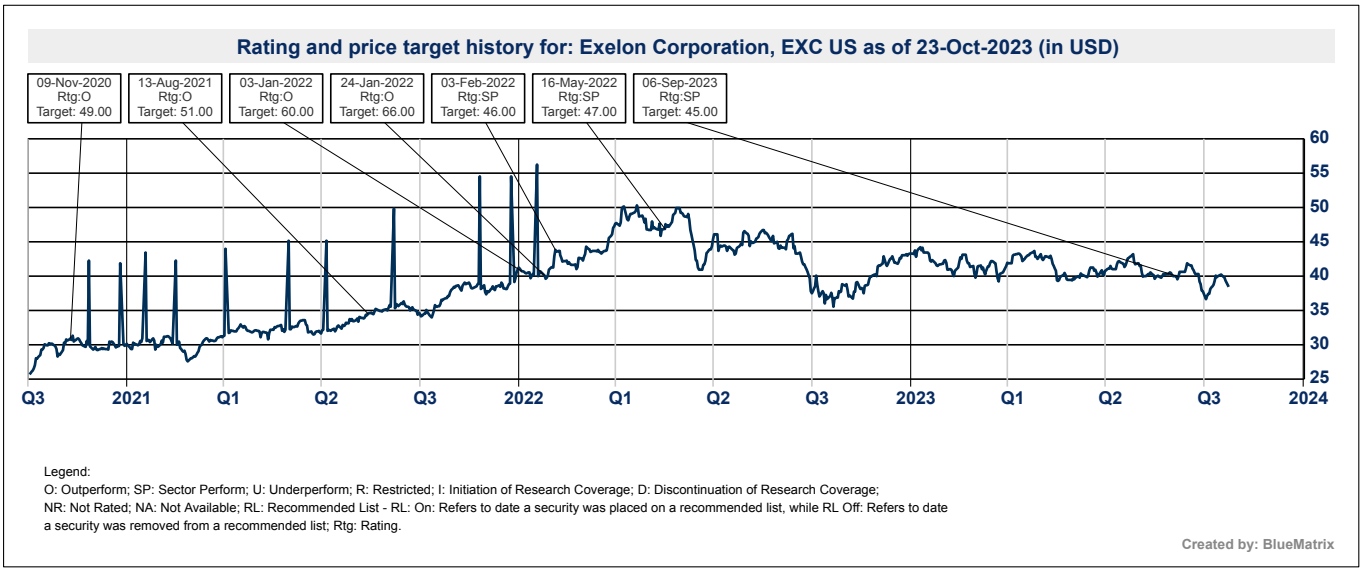
For the purpose of ratings distributions, regulatory rules require member firms to assign ratings to one of three rating categories - Buy, Hold/Neutral, or Sell - regardless of a firm's own rating categories. Although RBC Capital Markets' ratings of Outperform (O), Sector Perform (SP), and Underperform (U) most closely correspond to Buy, Hold/Neutral and Sell, respectively, the meanings are not the same because our ratings are determined on a relative basis.

Distribution of ratings

RBC Capital Markets, Equity Research

As of 30-Sep-2023

			Investment Banking Serv./Past 12 Mos.	
Rating	**Count**	**Percent**	**Count**	**Percent**
BUY [Outperform]	**820**	**55.97**	**250**	**30.49**
HOLD [Sector Perform]	**590**	**40.27**	**148**	**25.08**
SELL [Underperform]	**55**	**3.75**	**5**	**9.09**



References to a Recommended List in the recommendation history chart may include one or more recommended lists or model portfolios maintained by RBC Wealth Management or one of its affiliates. RBC Wealth Management recommended lists include the Guided Portfolio: Prime Income (RL 6), the Guided Portfolio: Dividend Growth (RL 8), the Guided Portfolio: ADR (RL 10), and the Guided Portfolio: All Cap Growth (RL 12). The abbreviation 'RL On' means the date a security was placed on a Recommended List. The abbreviation 'RL Off' means the date a security was removed from a Recommended List. As of April 3, 2023, U.S. RBC Wealth Management's quarterly reports will serve as the primary communication for its models and will highlight any changes to the model made during the quarter.

Equity valuation and risks

For valuation methods used to determine, and risks that may impede achievement of, price targets for covered companies, please see the most recent company-specific research report at www.rbcinsightresearch.com or send a request to RBC Capital Markets Research Publishing, P.O. Box 50, 200 Bay Street, Royal Bank Plaza, 29th Floor, South Tower, Toronto, Ontario M5J 2W7.

Exelon Corporation

Valuation

Our $45 price target assumes a 16.7x P/E multiple on 2025E utilities EPS of $2.74. Our multiple reflects a slight 3% discount to our base case blended electric and gas multiple of 18.6x, resulting in equity value per share of $53. While we believe Exelon utilities have a similar profile to industry peers (6–8% EPS CAGR and 7–8% rate base CAGR), we give consideration for some regulatory

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

overhang and lower ROE at ComEd. Our price target supports a Sector Perform rating.

Risks to rating and price target

- Stagnant ROE performance at ComEd
- Credit metrics deteriorate due to significant borrowings
- Inflation drives up O&M costs
- Corporate minium taxes become a drag on cash
- Approval of upcoming multi-year plans at favorable levels

Conflicts policy

RBC Capital Markets Policy for Managing Conflicts of Interest in Relation to Investment Research is available from us on request. To access our current policy, clients should refer to

No matter contained in this document may be reproduced or copied by any means without the prior written consent of RBC Capital Markets in each instance.

Additional information is available on request.

To U.S. Residents:
This publication has been approved by RBC Capital Markets, LLC (member FINRA, NYSE, SIPC), which is a U.S. registered broker-dealer and which accepts responsibility for this report and its dissemination in the United States. Any U.S. recipient of this report that is not a registered broker-dealer or a bank acting in a broker or dealer capacity and that wishes further information regarding, or to effect any transaction in, any of the securities discussed in this report, should contact and place orders with RBC Capital Markets, LLC.

To Canadian Residents:
This publication has been approved by RBC Dominion Securities Inc.(member CIRO). Any Canadian recipient of this report that is not a Designated Institution in Ontario, an Accredited Investor in British Columbia or Alberta or a Sophisticated Purchaser in Quebec (or similar permitted purchaser in any other province) and that wishes further information regarding, or to effect any transaction in, any of the securities discussed in this report should contact and place orders with RBC Dominion Securities Inc., which, without in any way limiting the foregoing, accepts responsibility for this report and its dissemination in Canada.

To U.K. Residents:
This publication has been approved by RBC Europe Limited ('RBCEL') which is authorized by the Prudential Regulation Authority and regulated by the Financial Conduct Authority ('FCA') and the Prudential Regulation Authority, in connection with its distribution in the United Kingdom. This material is not for general distribution in the United Kingdom to retail clients, as defined under the rules of the FCA. RBCEL accepts responsibility for this report and its dissemination in the United Kingdom.

To EEA Residents:
This material is distributed in the EU by either RBCEL on an authorised cross-border basis, or by RBC Capital Markets (Europe) GmbH (RBC EG) which is authorised and regulated in Germany by the Bundesanstalt für Finanzdienstleistungsaufsicht (German Federal Financial Supervisory Authority) (BaFin).

To Persons Receiving This Advice in Australia:
This material has been distributed in Australia by Royal Bank of Canada, Sydney Branch (ABN 86 076 940 880, AFSL No. 246521). This material has been prepared for general circulation and does not take into account the objectives, financial situation or needs of any recipient. Accordingly, any recipient should, before acting on this material, consider the appropriateness of this material having regard to their objectives, financial situation and needs. If this material relates to the acquisition or possible acquisition of a particular financial product, a recipient in Australia should obtain any relevant disclosure document prepared in respect of that product and consider that document before making any decision about whether to acquire the product. This research report is not for retail investors as defined in section 761G of the Corporations Act.

To persons receiving this from Royal Bank of Canada, Hong Kong Branch:
This document is distributed in Hong Kong by Royal Bank of Canada, Hong Kong Branch which is regulated by the Hong Kong Monetary Authority and the Securities and Futures Commission. This document is not for distribution in Hong Kong, to investors who are not “professional investors”, as defined in the Securities and Futures Ordinance (Cap. 571 of Hong Kong) and any rules made under that Ordinance. This document has been prepared for general circulation and does not take into account the objectives, financial situation, or needs of any recipient. Past performance is not indicative of future performance. WARNING: The contents of this document have not been reviewed by any regulatory authority in Hong Kong. Investors are advised to exercise caution in relation to the investment. If you are in doubt about any of the contents of this document, you should obtain independent professional advice.

To persons receiving this from Royal Bank of Canada, Singapore Branch:
This publication is distributed in Singapore by the Royal Bank of Canada, Singapore Branch, a registered entity licensed by the Monetary Authority of Singapore. This publication is not for distribution in Singapore, to investors who are not “accredited investors” and “institutional investors”, as defined in the Securities and Futures Act 2001 of Singapore. This publication has been prepared for general circulation and does not take into account the objectives, financial situation, or needs of any recipient. You are advised to seek independent advice from a financial adviser before purchasing any product. If you do not obtain independent advice, you should consider whether the product is suitable for you. Past performance is not indicative of future performance. If you have any questions related to this publication, please contact the Royal Bank of Canada, Singapore Branch.

To Japanese Residents:
Unless otherwise exempted by Japanese law, this publication is distributed in Japan by or through RBC Capital Markets (Japan) Ltd. which is a Financial Instruments Firm registered with the Kanto Local Financial Bureau (Registered number 203) and a member of the Japan Securities Dealers Association (JSDA) and the Financial Futures Association of Japan (FFAJ).

FLASH

Exelon

EXC-NSDQ 15 | Rating Outperform | Price: Oct-23 $38.40 | Target $42.00 | Total Rtn 13%

ALJ PO Expectedly Similar to Peer AEE - Solid Revenue Requirement

Bottom Line:

Last night the ALJ released the proposed order in ComEd's MYRP. **The PO suggests total revenue increase of ~$1,175mm vs. the company's updated request of ~ $1,499mm (~78%).** The ALJ suggests a 9.28% ROE and a 50% equity ratio vs. the company's 10.5%/50.58% request. **While the headline ROE is consistent with peer AEE's PO, it is likely light of initial investor expectations (~9.5-9.6%), but we view the comprehensive revenue requirement favorably and maintain our Outperform rating.**

Key Points

Revenue Increase: The ALJ recommends a cumulative four-year revenue increase of ~ $1,175mm which compares to updated staff testimony of ~$1,118mm and the company's updated ~$1,499mm request. In terms of shaping the largest delta occurs in the first year of the rate plan (2024).

ROE: The ALJ recommends a 9.28% ROE vs. the 10.5% year-one request. The ROE is based on utilizing Staff's DCF/non-constant DCF models and CAPM models (9.23%/9.50%, respectively) which they believe justifies a 9.28% ROE. Staff originally suggested continuing the formulaic ROE (30-year treasury plus 580bps) that yielded 8.91% at the time, but would be higher if we mark-to-market at the current 5.11% 30-year Treasury.

While we are not surprised to see the ALJ propose moving off the formulaic ROE, the proposed ROE is notably below the 9.8-9.89% recommended in recent gas case proposed orders. Due to the certainty provided by the MYRP, directionally a lower ROE than the gas companies was to be expected, however, the degree of the spread may surprise investors to the downside. **That being said, the ROE should be less of a surprise following AEE's PO on Friday.**

Capital Structure: The ALJ recommends a 50% equity ratio compared to the company's 50.58% request, however, this is consistent with legislation and treatment in the POs of the ongoing gas cases.

Rate Base: ALJ proposes 2027 rate base of ~$18B vs. the company's request of ~$18.6B which we do not view as a significant delta.

Pension Asset: ALJ proposes denying a return on the pension asset.

Bottom Line: Following yesterday's ~150bps of underperformance in conjunction with AEE's PO, we believe the ROE headline is largely priced in and see the PO as a net-neutral event. Holistically, we would view a proposed order with ~78% of the company's ask favorably and maintain our Outperform rating.

Company Description

Exelon is the largest utility by customer count with over 10mm electric and natural gas customers spread across its six-state footprint. It is the fourth largest utility by rate base with one of the lowest business risk and ESG-friendly profiles given the company's pure T&D asset mix with electric distribution and transmission representing over 88% of rate base.

IMPORTANT DISCLOSURES

Analyst's Certification

I, James M. Thalacker, hereby certify that the views expressed in this report accurately reflect my personal views about the subject securities or issuers. I also certify that no part of my compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Analysts who prepared this report are compensated based upon (among other factors) the overall profitability of BMO Capital Markets and their affiliates, which includes the overall profitability of investment banking services. Compensation for research is based on effectiveness in generating new ideas and in communication of ideas to clients, performance of recommendations, accuracy of earnings estimates, and service to clients.

Analysts employed by BMO Nesbitt Burns Inc. and/or BMO Capital Markets Limited are not registered as research analysts with FINRA. These analysts may not be associated persons of BMO Capital Markets Corp. and therefore may not be subject to the FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst account.

Company Specific Disclosures

Disclosure 9B: BMO Capital Markets makes a market in Exelon and Ameren Corporation in United States.

Methodology and Risks to Target Price/Valuation for Ameren Corporation (AEE-NYSE)

Methodology: Our target price is based on a sum-of-the-parts methodology. Our framework begins with the relevant sector average P/E multiple using 2025E EPS as a base which we then adjust (premium, discount, or no change) to reflect the relative fundamentals of that segment.

Risks: AEE's regulated profile exposes the company to business risk including but not limited to: federal and state regulatory risk, federal and state political risk, environmental policy, interest rate risk, access to capital markets, construction risk, changes in customer demand trends,

changes in customer affordability, extreme weather, natural disaster, and equipment failure. Ameren Illinois formula rates also directly expose 20% of the company's consolidated rate base to fluctuations in the 30-year Treasury yield.

Methodology and Risks to Target Price/Valuation for Exelon (EXC-NSDQ)

Methodology: We value EXC using our sum-of-the-parts valuation analysis to derive our target price. Our valuation takes into account the quality of EXC's assets relative to its peers and the company's regulated business rate base growth and funding sources.

Risks: Adverse outcomes in the company's inaugural MYRP filing in IL, DE electric rate case and 2025 PECO electric GRC. Despite having nearly a 1% cushion over its 12% downgrade threshold, the ability to meet its stated credit metrics given adverse impacts from severe storms, fuel deferrals and other unforeseen expenses.

Ratings Key (as of October 2016)

We use the following ratings system definitions:
OP = Outperform - Forecast to outperform the analyst's coverage universe on a total return basis;
Mkt = Market Perform - Forecast to perform roughly in line with the analyst's coverage universe on a total return basis;
Und = Underperform - Forecast to underperform the analyst's coverage universe on a total return basis;
(S) = Speculative investment;
Spd = Suspended - Coverage and rating suspended until coverage is reinstated;
NR = No Rated - No rating at this time; and
R = Restricted - Dissemination of research is currently restricted.

The total return potential, target price and the associated time horizon is 12 months unless otherwise stated in each report. BMO Capital Markets' seven Top 15 lists guide investors to our best ideas according to different objectives (CDN Large Cap, CDN Small Cap, US Large Cap, US Small Cap, Income, CDN Quant, and US Quant have replaced the Top Pick rating).

General Disclaimer

"BMO Capital Markets" is a trade name used by BMO Financial Group for the wholesale banking businesses of Bank of Montreal, BMO Bank N.A. (member FDIC), Bank of Montreal Europe p.l.c, and Bank of Montreal (China) Co. Ltd, the institutional broker dealer business of BMO Capital Markets Corp. (Member FINRA and SIPC) and the agency broker dealer business of Clearpool Execution Services, LLC (Member FINRA and SIPC) in the U.S., and the institutional broker dealer businesses of BMO Nesbitt Burns Inc. (Member Investment Industry Regulatory Organization of Canada and Member Canadian Investor Protection Fund) in Canada and Asia, Bank of Montreal Europe p.l.c. (authorised and regulated by the Central Bank of Ireland) in Europe and BMO Capital Markets Limited (authorised and regulated by the Financial Conduct Authority) in the UK and Australia. Bank of Montreal or its subsidiaries ("BMO Financial Group") has lending arrangements with, or provide other remunerated services to, many issuers covered by BMO Capital Markets. The opinions, estimates and projections contained in this report are those of BMO Capital Markets as of the date of this report and are subject to change without notice. BMO Capital Markets endeavours to ensure that the contents have been compiled or derived from sources that we believe are reliable and contain information and opinions that are accurate and complete. However, BMO Capital Markets makes no representation or warranty, express or implied, in respect thereof, takes no responsibility for any errors and omissions contained herein and accepts no liability whatsoever for any loss arising from any use of, or reliance on, this report or its contents. Information may be available to BMO Capital Markets or its affiliates that is not reflected in this report. The information in this report is not intended to be used as the primary basis of investment decisions, and because of individual client objectives, should not be construed as advice designed to meet the particular investment needs of any investor. The information in this report is based on general considerations and do not purport to meet the objectives or needs of specific recipients. Nothing herein constitutes any investment, legal, tax or other advice nor is it to be relied on in any investment or decision. If you are in doubt about any of the contents of this document, the reader should obtain independent professional advice. This material is for information purposes only and is not an offer to sell or the solicitation of an offer to buy any security. In furnishing this report, BMO Capital Markets intends to take advantage of the exemption from the principal and agency trading restrictions in Section 206(3) of the Investment Advisers Act of 1940 and Rule 206(3)-1 thereunder. Accordingly, recipients of this report are advised that BMO Capital Markets or its affiliates may act as principal for its own account or agent for another person in connection with the purchase or sale of any security mentioned in or the subject of this report. BMO Capital Markets or its affiliates, officers, directors or employees have a long or short position in many of the securities discussed herein, related securities or in options, futures or other derivative instruments based thereon. The reader should assume that BMO Capital Markets or its affiliates may have a conflict of interest and should not rely solely on this report in evaluating whether or not to buy or sell securities of issuers discussed herein.

Additional Matters

This report is directed only at entities or persons in jurisdictions or countries where access to and use of the information is not contrary to local laws or regulations. Its contents have not been reviewed by any regulatory authority. BMO Capital Markets does not represent that this report may be lawfully distributed or that any financial products may be lawfully offered or dealt with, in compliance with regulatory requirements in other jurisdictions, or pursuant to an exemption available thereunder.

To Australian residents: BMO Capital Markets Limited and Bank of Montreal are exempt from the requirement to hold an Australian financial services licence under the Corporations Act in respect of financial services they provide to wholesale investors (as defined in the Corporations Act). BMO Capital Markets Limited is regulated by the UK Financial Conduct Authority under UK laws, and Bank of Montreal in Hong Kong is regulated by the Hong Kong Monetary Authority and the Securities and Futures Commission, which differ from Australia laws. This document is only intended for wholesale clients (as defined in the Corporations Act 2001), Eligible Counterparties or Professional Clients (as defined in Annex II to MiFID II) and Professional Investors (as defined in the Securities and Futures Ordinance and the Securities and Futures (Professional Investor) Rules under the Securities and Futures Ordinance of Hong Kong).

To Canadian Residents: BMO Nesbitt Burns Inc. furnishes this report to Canadian residents and accepts responsibility for the contents herein subject to the terms set out above. Any Canadian person wishing to effect transactions in any of the securities included in this report should do so through BMO Nesbitt Burns Inc.

The following applies if this research was prepared in whole or in part by Colin Hamilton, Alexander Pearce or Raj Ray:

This research is not prepared subject to Canadian disclosure requirements. This research is prepared by BMO Capital Markets Limited and distributed by BMO Capital Markets Limited or Bank of Montreal Europe Plc and is subject to the regulations of the Financial Conduct Authority (FCA) in the United Kingdom and the Central Bank of Ireland (CBI) in Ireland. FCA and CBI regulations require that a firm providing research disclose its ownership interest in the issuer that is the subject of the research if it and its affiliates own 5% or more of the equity of the issuer. Canadian regulations require that a firm providing research disclose its ownership interest in the issuer that is the subject of the research if it and its affiliates own 1% or more of the equity of the issuer that is the subject of the research. Therefore each of BMO Capital Markets Limited and Bank of Montreal Europe Plc will disclose its and its affiliates' ownership interest in the subject issuer only if such ownership exceeds 5% of the equity of the issuer.

To E.U. Residents: In an E.U. Member State this document is issued and distributed by Bank of Montreal Europe plc which is authorised and regulated in Ireland and operates in the E.U. on a passported basis. This document is only intended for Eligible Counterparties or Professional Clients, as defined in Annex II to "Markets in Financial Instruments Directive" 2014/65/EU ("MiFID II").

To U.S. Residents: BMO Capital Markets Corp. furnishes this report to U.S. residents and accepts responsibility for the contents herein, except to the extent that it refers to securities of Bank of Montreal. Any U.S. person wishing to effect transactions in any security discussed herein should do so through BMO Capital Markets Corp.

To U.K. Residents: In the UK this document is published by BMO Capital Markets Limited which is authorised and regulated by the Financial Conduct Authority. The contents hereof are intended solely for the use of, and may only be issued or passed on to, (I) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order") or (II) high net worth entities falling within Article 49(2)(a) to (d) of the Order (all such persons together referred to as "relevant persons"). The contents hereof are not intended for the use of and may not be issued or passed on to retail clients.

To Hong Kong Residents: In Hong Kong, this report is published and distributed by Bank of Montreal. Bank of Montreal (incorporated in Canada with limited liability) is an authorized institution under the Banking Ordinance and a registered institution with the Securities and Futures Commission (CE No. AAK809) to carry on Type 1 (dealing in securities) and Type 4 (advising in securities) regulated activities under the Securities and Futures Ordinance (Cap 571 of the Laws of Hong Kong). This report has not been reviewed or approved by any regulatory authority in Hong Kong. Accordingly this report must not be issued, circulated or distributed in Hong Kong other than (a) to professional investors as defined in the Securities and Futures Ordinance and the Securities and Futures (Professional Investor) Rules under the Securities and Futures Ordinance of Hong Kong, or (b) in circumstances which do not result in or constitute an offer to the public in Hong Kong.

To Korean Residents: This report has been provided to you without charge for your convenience only. All information contained in this report is factual information and does not reflect any opinion or judgement of BMO Capital Markets. The information contained in this report should not be construed as offer, marketing, solicitation or investment advice with respect to financial investment products in this report.

To Japan Residents: This report has not been reviewed by any regulatory authority in Japan. This report is provided for information purposes only and it should not be construed as an offer to sell, a solicitation to buy, or a recommendation for any security, or as an offer to provide investment management or advisory or other services in Japan. Securities may not be offered or sold in Japan by means of this report or any other document other than to Qualified Financial Institutions within the meaning of item (i) of Article 17-3 of the Government Ordinance to enforce the Financial Instruments and Exchange Act (Kinyu Shohin Torihiki Ho Sekou Rei). Unless specified otherwise, the securities that may be offered to you are not and will not be registered in Japan pursuant to the Financial Instruments and Exchange Acts.

To Taiwanese Residents: This report is not intended to constitute investment advice nor a public offer for any investment products to investors in Taiwan. This report should only be accessed by investors in Taiwan that are qualified to invest in investment products pursuant to relevant Taiwanese laws and regulations, and subject to sales restrictions as set forth in the relevant Taiwanese laws and regulations. BMO Capital Markets has not and will not secure the required licenses in Taiwan for the offer of securities and investment services. Any offer of securities has not been and will not be registered or filed with or approved by the Financial Commission of Taiwan and/or other regulatory authority pursuant to relevant securities laws and regulations of Taiwan, and may not be issued, offered or sold within Taiwan through a public offering or in circumstances which constitute an offer that requires a registration, filing or approval of the Financial Supervisory Commission of Taiwan and/or other regulatory authority in Taiwan under relevant securities laws and regulations of Taiwan. No person or entity in Taiwan has been authorized to offer or sell the securities in Taiwan.

To Singapore Residents: This report is intended for general circulation and does not and is not intended to constitute the provision of financial advisory services, whether directly or indirectly, to persons in Singapore. You should seek advice from a financial adviser regarding the suitability of the investment products, taking into account your specific investment objectives, financial situation or particular needs before you make a commitment to purchase the investment product. This report has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, it should not be circulated or distributed, nor may the securities described herein be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (a) to an institutional investor or a relevant person as defined in and pursuant to and in accordance with the conditions of the relevant provisions of the Securities and Futures Act of Singapore or (b) otherwise pursuant to and in accordance with the conditions of, any other applicable provision of the SFA.

To Israeli residents: BMO Capital Markets is not licensed under the Israeli Law for the Regulation of Investment Advice, Investment Marketing and Portfolio Management of 1995 (the "Advice Law") nor does it carry insurance as required thereunder. This document is to be distributed solely to persons that are qualified clients (as defined under the Advice Law) and qualified investors under the Israeli Securities Law of 1968. This document represents the analysis of the analyst but there is no assurance that any assumption or estimation will materialize.

These documents are provided to you on the express understanding that they must be held in complete confidence and not republished, retransmitted, distributed, disclosed, or otherwise made available, in whole or in part, directly or indirectly, in hard or soft copy, through any means, to any person, except with the prior written consent of BMO Capital Markets.

Alert

October 23, 2023

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: D, EXC, POR, SRE, DTE, AEE, ETR, FE, AEP, XEL, AGR

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com
Madison Lehan / (917) 368-2293 / madison.lehan@key.com

3Q earnings begin with NEE, AGR, CNP, CMS, FE, NWE, XEL, and POR scheduled to report. This week, we are tracking proceedings in D's biennial review in VA, EXC's IL electric rate case, POR's integrated resource plan in OR, SRE's SDG&E and SoCalGas rate cases, and DTE's MI electric rate case. In other news, the ALJ proposes a $338M revenue increase in AEE's IL electric rate case; the NM PRC authorizes a $33M revenue increase in SPS's NM electric rate case; the CCNO authorizes a three-year extension to ETR's FRP process; the PA ALJ issued recommended decision to adopt settlement in FE's consolidation proceedings; AEP receives $28M award through DOE's GRIP program; XEL issues an RFP for 1,200 MW of wind resources in MN; and AGR announces the resignation of CFO Patricia Cosgel and an interim replacement. ***Don't miss our schedule of meetings at the EEI this fall and contact us to join the meetings.***

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.

Please scroll down for our full schedule, including dinners with **DTE** and **AGR**, and contact us or your KBCM sales representative to schedule meetings.

Upcoming Earnings Report

3Q earnings begin: NEE, AGR, CNP, CMS, FE, NWE, XEL, and **POR** are scheduled to report this week (see calendar below). Our recently published preview, Finally, Attractive, includes our thesis, expectations, and estimates for our coverage.

Regulatory Calendar

D — Staff testimony in D's VA biennial review proceedings is due on October 23: The OAG filed testimony calculating a $106M revenue sufficiency in 2024 and an incremental $30M in 2025. The $136M revenue sufficiency for the two years compares to D's revenue deficiency calculation of $51M. The OAG and D's calculations are premised on 50.33% and 52.1% equity layers, respectively. Both use the state-mandated 9.7% ROE. D made the biennial rate filing in pursuance of new legislation. The Company provided a forward-looking, rate-making analysis demonstrating a $26M revenue deficiency in 2024 and an incremental $25M in 2025. However, since the legislation also says that the fold-in of $350M in rider revenue (Rider R – Bear Garden, Rider S – Virginia City, Rider W – Warren County) into base rates cannot serve as a basis for a rate increase; D is not proposing any incremental rates in this proceeding.

EXC — ALJ proposed order in EXC's IL electric rate case is due on October 23: In briefs, EXC updated its request to a $1,494M revenue increase over the 2024-2027 period while proposing to phase in the rate increases to even out expected y/y impacts. EXC's request is premised on gradual increases in its ROE (10.5-10.65%) and equity layers (50.58-51.19%) through the four years. Staff filed briefs recommending a $1,104M revenue increase over 2024-2027. Staff continues to make its case for an 8.91% ROE, or 580 bps over the 2022 U.S. Treasury Bond yield of 3.114%. EXC has argued that this is no longer applicable since that option existed only under the IL Energy Infrastructure Modernization Act. The act expired at the end of 2022, and the provisions of the CEJA require that the ROE be determined under current commission law. Staff calculated ROE midpoints of 9.23% and 10.87% in its analysis using the traditional DCF and CAPM methods, respectively. Staff also proposes a 50% equity ratio. The ICC has until December 20 to issue a final decision.

POR — Staff's reply comments in POR's Clean Energy Plan and IRP are due on October 24: Staff's initial comments provided insight into some low-regret actions or opportunities, challenges, and vulnerabilities that need to be addressed. Staff's 29 recommendations for POR to address in reply comments included adopting a scoring metric for GHG reductions, redesigning the Preferred Portfolio without assuming 800 MW of additional transmission, providing an accounting of banked RECs, and a detailed assessment of its small-scale renewable resource compliance strategy including how it plans to meet the compliance obligations and projected shortfalls. POR's CEP includes a set of near-term actions to achieve the targets outlined in HB 2021. The Preferred Portfolio emphasizes solar and wind resources, with ~3.5 GW expected to be online by 2030. POR will issue an annual RFP for up to 520 MW of non-emitting resources through 2028, plans to add 632 MW of storage, energy efficiency (248 MW), and distributed resources (136 MW). The Company will study the addition of community-based renewable energy to reach 155 MW by 2030. This is POR's first CEP/IRP filing since the enactment of HB 2021. The PUC has six months from the March 31 filing to acknowledge the CEP and determine if it is consistent with the new law.

SRE — Settlement deadline in SDG&E and SoCalGas rate cases is on October 24: Hearings were held in June, and parties submitted updated testimony and opening briefs. SRE largely maintained its request from updated testimony. This includes SoCalGas's ask for a $767M revenue increase in 2024, followed by $292M, $261M, and $381M over the years 2025, 2026, and 2027, respectively. SDG&E maintained its $475M request for 2024, with subsequent revenue increases of $346M, $332M, and $303M, respectively. Cal Advocates recommended revenue increases for SoCalGas of $360M, $188M, $215M, and $225M for 2024, 2025, 2026, and 2027, respectively, and $271M, $222M, $239M, and $247M for SDG&E for the same time periods, respectively. Proposed decisions on Track 1 are due in 2Q24.

DTE — Exceptions to the ALJ's proposed decision in DTE's MI electric rate case are due on October 27: The ALJ's PFD recommended a $290M revenue increase, premised on a 9.8% ROE and 50% equity. The PFD was below Staff's $379M and the Company's $580M request, with the difference in the revenue requirement predominantly related to the $593M reduction in rate base and the lower ROE relative to DTE's 10.25% request. New rates are expected to go into effect on December 10. Read more about the ALJ PFD here.

Recent Developments for Companies Under Our Coverage

From our midweek: The KY PSC authorizes a $48M revenue increase in DUK's KY electric rate case; DUK seeks recovery of storm costs for Hurricane Idalia; EXC issues supplemental testimony in PEPCo's DC electric rate case; FE issues an RFP for OH renewable energy credits; the DOE awards $3.5B in the first round of the Grid Resilience and Innovation Partnership program; AGR and CIP announce the installation of the first turbine at Vineyard Wind I, and SRE announces the resignation of the Company's Group President.

AEE — The ALJ proposes $338M revenue increase in AEE's IL electric rate case: The ALJ issued a PD recommending a $338M revenue increase, premised on a 9.24% ROE and 50% equity. The PD compares to Staff's initial brief recommending a $322M revenue increase over 2024-2027 and AEE's reply briefs requesting a $444M revenue increase. The delta between Staff and AEE's calculations was less than the party's initial testimony after Staff raised AEE's allowed rate base. AEE's initial request was for a $449M rate increase, and Staff initially recommended a $249M revenue increase over the four years. An ICC ruling is due by December 20, followed by new rates going into effect on January 1, 2024.

- **ROE:** The ALJ calculated the 9.24% ROE using the average of the Staff's DCF (9.54%) and NCDCF (8.48%) calculations and the Commission's CAPM calculations resulting in 9.5% and 9.34%. The average of the four calculations resulted in a 9.34% ROE. The ALJ also adjusted the ROE 10 bps lower to reflect AEE's proposed downward credit risk adjustment, resulting in the proposed 9.24% ROE. The ALJ recommendation is better than the 8.9% ROE Staff recommended using the formula approach of 580 bps over the 2022 U.S. Treasury Bond yield of 3.114% That approach was no longer applicable since that option existed only under the IL Energy Infrastructure Modernization Act, which expired at the end of 2022, and the provisions of the CEJA require that the ROE be determined under current commission law, and renders the statutory formula rate as "inoperative." AEE is requesting a 10.5% ROE.
- **Equity layer:** The ALJ ruled that AEE should not have a capital structure that exceeds 50% equity, and therefore AEE will be authorized a capital structure that is the lower of 50% equity or the Company's actual equity ratio during each year of the MYRP. The ALJ believes the multiyear plan reduces AEE's risk and regulatory lag, therefore justifying the lower equity layer relative to AEE's request. AEE requested an equity ratio beginning at 53.99% in RY1 with gradual increases to 54.03% by RY4.

Source: Regulatory filings, KeyBanc Capital Markets Inc.

XEL — NM PRC authorizes $33M revenue increase in SPS's NM electric rate case: The NM PRC issued a final order adopting the multi-party settlement filed in SPS's NM electric rate case entirely. The order authorizes a $33M revenue increase, premised on a 9.5% ROE and 54.7% equity. The order also approves the amended 2028, previously 2032, abandonment date of Tolk Generation Station. Staff and nine other parties agreed to the settlement, while two parties opposed the settlement. The final order compares to Staff's $37M revenue increase recommendation and XEL's request for a net revenue increase of $76M, premised on a 10.75% ROE, 54.7% equity layer, and a test year ending June 30, 2024.

ETR — CCNO authorizes three-year extension to FRP process: The Council of the City of New Orleans approved ETR's request to extend the electric and gas FRP process three years. ETR's FRP process was set to expire after 2023, but the Company will now file upcoming RFPs in 2024, 2025, and 2026. The CCNO also authorized ETR a 55% equity ratio and 45% long-term debt ratio. This compares to the previously authorized 51% equity/49% debt capital structure and ETR's request for 57% equity/43% debt. The ROE range will remain at 8.85-9.85%. In the 2023 FRP, the CCNO authorized ETR to increase electric and gas rates by $10.5M and $6.9M, respectively, premised on a 9.35% ROE and 51% equity.

FE — ALJ issues recommended decision in FE's proceedings to consolidate PA utilities: The PA ALJ issued a recommended decision to approve without modification the settlement in FE's consolidation proceedings. The stipulation included a mechanism for tracking cost savings realized through the consolidated operations and returning the savings to customers in future base rate proceedings. FE PA will also gradually unify rates among all classes, which will not be met until the conclusion of three rate cases filed on or after January 1, 2025. The settlement was part of FE's filing to consolidate FE's PA subsidiaries into a single operating entity, FE PA. The subs in PA include Metropolitan Edison Co., Pennsylvania Electric Co., West Penn Power Co., and Pennsylvania Power Co. The consolidation requires Metropolitan Edison and Penn Electric's interest in MAIT to be sold to FE and certain West Penn transmission assets to be sold to FE subsidiary KATCo. Exceptions to the ALJ's recommended decision are due by October 26. FERC previously issued an order approving the consolidation, and FE expects the PA Consolidation to close by early 2024.

AEP — DOE awards $28M to AEP in the first round of the Grid Resilience and Innovation Partnership program:AEP was awarded $28M to advance the deployment of its Advanced Distribution Management System (ADMS), including the Distributed Energy Resource Management System (DERMS). AEP seeks to accelerate the deployment of more advanced systems and new technologies to reduce the frequency and impact of power outages. The DERMS program also seeks to provide visibility into DERs to plan and manage the flow of resources through the system. The $28M award to AEP was part of the DOE's ~$3.5B of selected awards announced to strengthen the electric grid resilience and reliability, which were the first round of the larger $10.5B GRIP program that was part of the Bipartisan Infrastructure Bill. Selection for award negotiations is not a commitment by DOE to issue an award or provide funding. Before funding is issued, the DOE and applicants will undergo a negotiation process, which could result in canceled negotiations or rescinded awards.

XEL — XEL issues RFP for 1,200 MW of wind resources in MN: XEL issued an RFP seeking 1,200 MW of wind resources in MN. XEL expects the projects to be located in southwest MN and be entered into service by the end of 2027. XEL plans to reuse the Sherco transmission interconnection rights, and the resources will help offset the 2030 retirement of the Sherco coal plant. The resources will be complementary to 710 MW of solar resources that XEL previously selected to be located at Sherco and utilize the Sherco 2 interconnection rights. RFP bids for the wind resources are due December 14.

AGR — CFO Patricia Cosgel resigns, AGR names interim replacement: Patricia Cosgel announced her intention to resign as AGR's CFO, effective November 24. Ms. Cosgel joined AGR in 2015 as VP and Treasurer before being promoted to CFO in July 2022, a role she was previously appointed to on an interim basis in February 2022. Justin Lagasse will replace Ms. Cosgel on an interim basis, effective November 24. Mr. Lagasse currently serves as SVP, Controller and held prior roles as VP, Chief Accounting Officer, and Directory of Technical Accounting. He joined AGR in September 2017.

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC ("KBCMI"), and KeyBank National Association ("KeyBank N.A."), are marketed.

KeyBanc Capital Markets Inc. ("KBCMI") does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst's compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. Energy: Electric Utilities

Midweek Thoughts — DUK, EXC, FE, POR, XEL, AGR, SRE

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com
Madison Lehan / (917) 368-2293 / madison.lehan@key.com

This week, the KY PSC authorizes a $48M revenue increase in DUK's KY electric rate case; DUK seeks recovery of storm costs for Hurricane Idalia; EXC issues supplemental testimony in PEPCo's DC electric rate case; FE issues an RFP for OH renewable energy credits; the DOE awards $3.5B of awards in the first round of the Grid Resilience and Innovation Partnership program; AGR and CIP announce the installation of the first turbine at Vineyard Wind I, and SRE announces the resignation of the Company's Group President. Don't miss our EEI schedule included below, and contact us to schedule any meetings.

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Please scroll down for our full schedule, including dinners with **DTE** and **AGR**. Please contact us or your KBCM sales representative to schedule meetings.

ICYMI
We published our 3Q23 Previews for Utilities and Alternative Energy. Access our reports here and here.

Industry News and News from Companies in Our Coverage
DUK — KY PSC authorizes $48M revenue increase in DUK's KY electric rate case: The KY PSC issued a final order authorizing a $48M revenue increase, premised on a 9.75% ROE, 52.15% equity, and a $1.1B rate base for a June 30, 2024, test year. The order compares to DUK's $75M request, premised on a 10.35% ROE, 52.15% equity layer, and $1.2B rate base. The PSC maintained depreciation expenses to reflect a 2041 retirement date for the 600 MW East Bend coal plant while excluding terminal net salvage from depreciation expense. DUK had proposed accelerating depreciation rates for East Bend to align with the change in the expected life of the plant from 2041 to 2035 but had not committed to an earlier retirement date nor filed a CPCN for resources to replace the plant before 2041. The PSC also denied a local investment charge mechanism for unplanned distribution-related investments. We expect new rates to go into effect on November 1.

DUK — DUK requests Hurricane Idalia recovery: DUK filed a request with the FL PSC to recover $166M of storm costs, including ~$92M for costs associated with Hurricane Idalia. DUK proposed to recover the amount over 12 months, beginning January 2024. Other expenses include replenishing the storm reserve and interest related to Hurricane Idalia. The impact to customers would be partially offset by a bill-reduction request filed in a different proceeding (Docket: 20230020), where DUK filed to lower storm restoration costs related to 2021/2022 hurricanes by $11M. The PSC previously approved DUK to recover $442M on an interim basis beginning in April 2023 for the earlier storms. Those costs were set to roll off in March 2024, although DUK is also proposing to extend the recovery of the remaining ~$74M over the same 12-month period (January-December 2024). If approved, the Hurricane Idalia costs will be subject to a true-up based on actual costs.

EXC — EXC issues supplemental testimony in PEPCo's DC electric rate case: EXC made a compliance filing to reflect a traditional test year. EXC's traditional test year filing supports a $108M revenue increase, using an adjusted 12-month period ending December 31, 2023. EXC was required to make the compliance filing to enable the PSC to analyze the multiyear plan filing relative to a traditional rate case while also considering authorizing a traditional one-year rate case. As a reminder, PEPCO filed a three-year electric rate case with the DC PSC seeking a cumulative $191M revenue increase ($116M in RY1, $37M in RY2, and $37M in RY3). New rates would go into effect on February 15, 2024, with the step-ups effective January 1, 2025 and 2026, respectively. The rate increase request is premised on a 10.5% ROE and 50.5% equity layer.

FE — FE issues RFP for OH renewable energy credits: FE issued an RFP seeking 570,000 OH-compliant renewable energy credits (RECs) for its OH utilities. The RECs must be associated with energy generated between January 1, 2021, and December 31, 2023, and be deliverable through the PJM interconnection. The RECs will help FE to meet its 2023 renewable energy targets under the state's alternative energy law. The law requires 8.5% of the electricity sold by OH electric utilities to be from renewable energy by 2026. FE is allowed to recover the costs through the standard service monthly charge. Proposals are due November 28.

AGR, EXC, POR, XEL — DOE awards $3.5B in the first round of the Grid Resilience and Innovation Partnership program: The DOE announced ~$3.5B of awards for 58 projects to strengthen the electric grid resilience and reliability. Recipients of the awards previously submitted concept papers, followed by full applications if they received letters of encouragement. The $3.5B of awards were the first round of the larger $10.5B GRIP program that was part of the Bipartisan Infrastructure Bill and offers grants for projects that enhance grid flexibility and improve grid resilience against climate change and extreme weather. Selection for award negotiations is not a commitment by DOE to issue an award or provide funding. Before funding is issued, the DOE and applicants will undergo a negotiation process, which could result in canceled negotiations or rescinded awards. Selected awards include:

- **AGR**'s CMP was awarded $30M to accelerate the deployment of smart grid technologies that seek to reduce the frequency and impact of power outages through investments in "self-healing" technologies, including advanced grid restoration (AGR) and sequential reclosing (SR). CMP also seeks to deploy a distribution supervisory control and data acquisition (SCADA) switch program to help prevent faults.
- **EXC** was awarded $50M to fund a variety of new grid technologies to improve grid resilience, reliability, and workforce programming. EXC plans to run new pilot programs to support DERs and solar installations and improve system response time during inclement weather. EXC filed an application with the DOE seeking $700M of funding for 10 projects through the GRIP program. The projects included a community innovation hub, battery-backed community microgrids, deployment of smart meters, and improved grid resilience in under-resourced communities. Some of the projects could still be selected in future rounds.
- **POR** was awarded $250M as part of a partnership with the Confederated Tribes of the Warm Springs Reservation of OR (CTWS) to support vital transmission upgrades in the region. Specifically, POR and CTWS plan to enhance the existing 230kV Bethel-Round Butte transmission line, enabling renewable energy development.
- **XEL** was awarded $100M to boost wildfire mitigation and grid resilience. XEL will also provide $140M toward the projects to mitigate the threat of wildfires and severe storms while reducing power outages. Specifically, XEL plans to add fire-resistant coatings to 6,000 wood poles, improve equipment safety features in power lines and EV chargers in high fire-risk conditions, underground high-risk distribution circuits, and enhance vegetation management. It also plans to build on current programs using emerging technology to identify risks and predict the future spread of fires. The projects will be based in CO, MN, NM, TX, and WI.

AGR — AGR and CIP announced the installation of the first turbine at Vineyard Wind I: AGR and CIP announced that the Vineyard Wind I project completed the installation of the first turbine. The 13 MW GE Haliade-X Wind turbine comprises one tower, three blades, and one nacelle. The successful installation represents the completion of the first turbine of the first commercial-scale offshore wind farm in the U.S. The 804 MW Vineyard Wind I will consist of 62 turbines upon completion. The project is on track (COD 2024), and AGR expects that 85% of the capex should be eligible for a 30% ITC. The project is a 50/50 partnership between AGR and Copenhagen Infrastructure Partners.

SRE — SRE announces the resignation of Group President: Kevin Sagara announced that he will resign as VP and Group President at SRE, effective December 1. He will also be resigning from his role as Chairman and Director of SoCal Gas. Mr. Sagara has served in his current position since June 2020 and previously held several other leadership roles at SRE, including President of Sempra Renewables. Mr. Sagara first joined SRE as an attorney with SDG&E in 1992. SRE has not named a replacement.

We update estimates across our Utilities coverage ahead of 3Q2023 results. From a macro perspective, weather this quarter should be much less impactful than it has been in recent quarters, with higher YoY interest costs and O&M management in focus as companies focus on full year earnings execution. While certain companies will provide updates on capital spending and earnings guidance, many expect the quarter to be light on material updates, with plans to provide a more fulsome update at EEI or on the 4Q2023 earnings call.

On single stocks, we are constructive on Buy rated Southern Company (SO) into the quarter, where we expect strong cost management and more favorable weather to drive above consensus results. We also expect investor focus on the recent Vogtle Unit 4 update and for more detail from management on the comfort with the 1Q24 timeline. While we are in line with consensus on the quarter, we also believe 3Q results could be a positive catalyst for Buy rated NextEra (NEE) to the extent the company reports a strong renewables backlog number and/or if management is able to provide incremental disclosure around NEER financing or NEE interest rate swaps. We see 26% total return to SO and 36% to NEE.

Where we see the most upside to consensus around 3Q23 results. We are 3% above consensus for Buy rated SO for 3Q23. We expect strong cost management and weather that was slightly better than normal will drive the beat for the quarter. Outside of results, we expect investors will be focused on Vogtle Unit 4 following the recent delay, and we expect management to discuss why they are still comfortable guiding to a 1Q2024 in-service date. We also look for incremental updates on potential renewable spend at SO Power, but acknowledge that we may not hear an update this quarter with Vogtle not yet completed. Additionally, we expect focus on how the prudency view has proceeded thus far, and what the next steps are. SO remains our top idea given a path to multiple re-rating as the project execution risk overhang is removed with Vogtle completion in the near-term, expectations of a strong balance sheet post Vogtle, favorable regulatory jurisdictions, and above average growth. Our $81 target price implies a 26% total return.

Where we see the most downside to consensus around 3Q23 results. We are

4% below consensus for EXC, largely driven by modest interest expense and O&M headwinds. EXC is in the midst of two important rate cases at its ComEd and BGE segments, with the ComEd rate case being one of the main topics of debate for EXC. We expect these rate cases will be the primary area of interest for investors. The ComEd rate case expects a ruling from the Administrative Law Judge (ALJ) before earnings, which will be an important milestone in the rate case. We expect EXC to receive an RoE in-line with the national average of 9.7% from the ComEd final order, but we acknowledge that this rate case is particularly difficult to forecast as the commission is switching from a formulaic approach to a traditional approach. Given the uncertainty from the rate case we consider it to be a regulatory overhang for the stock, and do not believe EXC warrants a premium valuation. We expect both the ALJ decision and the final order in December will be material catalysts for the stock, but the outcome will determine if it is a headwind or tailwind. We see more appealing valuation elsewhere in our coverage, with our $39 target price for EXC implying only 1% total return.

NextEra Energy (NEE, Buy)

Our most recent views

We remain Buy Rated on NEE, with 36% total return following recent challenges and its significant underperformance. NEE is still the most exposed to renewables in our coverage, and we believe that the company can still hit the top end of its growth range going forward. Many investors are concerned that a slowdown in renewables monetizations and higher interest rates will slow NEE's ability to grow, but we believe these fears are overdone. We believe that NEE can utilize tax equity financing, monetization of tax credits, non core asset sales, and interest rate swaps to mitigate the bulk of these headwinds. In our view, a quarter of strong financial results as well as 2GW of renewable backlog growth would be viewed positively by investors. Our latest note on NEE goes into detail on our positive views.

Quarterly outlook

We slightly raise our 3Q23E EPS to $0.89 which is in-line with FactSet consensus of $0.89 for the quarter. We reflect higher interest expense for the quarter as well as slightly lower O&M expense. Overall, we expect a strong quarter for NEE, as it has consistently hit or beat its guidance. While financial results will of course be important, investors will be very focused on management commentary on the growth outlook for the business. We believe that more disclosures surrounding the NEER segment or on NEE's interest rate swaps could contribute to improving investor sentiment. In addition to these items, we expect investors to be focused on (a) updates on addition to the renewables backlog at the NEER segment, (b) discussion on how NEE will replace the funding gap left by a slowdown in asset monetizations, (c) updates on the Supreme Court review/potential FPL campaign finance violations as reported by NPR, and (d) commentary around renewable project returns.

Valuation & Key Risks

We are Buy rated on NEE. We value NEE with a SOTP, applying a 5x premium to its Florida based utility given its strong regulatory jurisdiction. We apply a 12x EV/EBITDA multiple to its NEER segment, given its scale advantage and consistent execution over the years. Our 12-month target price of $72, implies a 36% total return vs the average of 21% for our coverage group. Our 2023-2025 EPS estimates move from $3.18/$3.45/$3.71 to $3.21/$3.45/$3.72. Key risks for NEE include the 1) a more negative regulatory landscape, 2) a slowdown in renewable demand, 3) impact of higher interest rates when interest rate hedges begin to roll off.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

American Electric Power (AEP, Buy)

Our most recent views

We continue to view AEP as well positioned in the energy transition as the leader in transmission, and expect that its renewable build out and ongoing effort to improve its regulatory jurisdictions will improve sentiment around the stock over time. As discussed in detail in our Initiation note, we see a $93bn gap in transmission spend through 2030, and expect that AEP will benefit significantly from this opportunity for incremental spend. Additionally, AEP has allocated $8.6bn for renewables to replace the 4.7 GWs of coal that it plans to retire through 2028. We see the potential for upside from the renewable build out if AEP ends up owning a higher share of the projects than the market expects, but expect this transition to be a tailwind regardless as it replaces high cost coal generation with low cost renewables. We also expect AEP to provide details on a bridge to its FFO/Debt target going forward, which we believe will help ease concerns around the state of its balance sheet.

Quarterly outlook

Our estimate for 3Q2023 comes in at $1.73 which puts us in-line with consensus at $1.73. We expect higher interest expense to be a headwind for the quarter along with weather which was a tailwind for 3Q2022 and data indicates that it was closer to normal levels this year. To the extent the company provides more granularity on the bridge between current FFO/debt levels to its targets, we believe it would be viewed favorably by investors as the balance sheet has remained one of the top concerns in our conversations. Additionally, we expect investors to be focused on 1) regulatory updates for the various jurisdictions, 2) RFP updates, 3) earned vs authorized RoEs, 4) updates on cost management.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Valuation & Key Risks

We are Buy rated on AEP with a 12-month, SOTP based price target of $100. We value AEP with a SOTP to account for its transmission holdco segment along with its regulated utilities. We apply a 16x multiple to its VIU and T&D segments, accounting for the potential renewable growth at VIU as well as the regulatory lag that both segments face. For the Transco segment we apply a 19x multiple to account for the strong RoEs and material investment into the segment. Our 2023-2025 estimates move from $5.16/$5.64/$6.16 to $5.20/$5.66/$6.19. Key risks include 1) Lower than expected ownership of renewable RFPs; 2) Financing needs; 3) Failure to make progress on closing the ROE gap at the VIU utilities, and 4) cost management.

Southern Company (SO, Buy)

Our most recent views

We continue to view SO as well positioned to rerate to its historical valuation premium as the Vogtle expansion is brought online. Despite the recent delay with Unit 4, we continue to believe that the majority of risk for Vogtle is behind us at this point, and the 1Q24 timeline is in line with our expectations. The challenging macro environment has made SO's strong balance sheet even more valuable, and its favorable regulatory jurisdictions warrant a premium valuation in our view. We still believe there is potential for upside from the prudency review, as the latest stipulated agreement would allow SO to put $7.52bn of Vogtle spend into rate base, above the original $7.3bn that is embedded in our numbers. SO is currently trading at a 0.7x premium to regulated utilities on our 2025 numbers, and we believe that as Vogtle progresses towards completion SO will rerate back to its 2x premium.

Quarterly outlook

Our 3Q23 EPS estimate is $1.37, which is above FactSet consensus at $1.33. On the quarter, we see O&M expense decreasing, interest expense increasing, and favorable

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

weather providing a slight benefit. We expect that this quarter will be relatively quiet in terms of updates, with management likely focusing on recent Vogtle news. While we do expect strong results from SO in 2023, we believe Unit 4 coming online in early 2024 will be the inflection point for the stock to rerate. Outside of results, we expect investors will focus on 1) Vogtle Unit 4 timeline given recent delays, 2) prudency review updates, 3) potential incremental renewable spend at SO Power, and 4) load growth in SO's service regions.

Valuation & Key Risks

We are Buy rated on SO. We value SO with a P/E multiple of 18x on 2025 EPS, a 2x premium to our baseline multiple. Our target price of $81 price target implies a total return of 26% vs the average for our coverage group of 21%. Our 2023-2025 EPS estimates move from $3.58/$4.07/$4.52 to $3.55/$4.03/$4.48 to reflect quarterly updates and tweaks to costs in the back half. Key risks include: 1) execution risk around Vogtle, 2) balance sheet strength and 3) slower than anticipated rate base/earnings growth.

Exelon (EXC, Sell)

Our most recent views

We continue to see less upside to EXC largely due to the rate case overhang at its largest segment ComEd, and the fact that is has less notably less thematic exposure than other names in our coverage. The ComEd rate case has been a topic of debate, and our views is that EXC will receive an RoE roughly in line with the 9.7% national average, but we assume that the segment slightly underearns authorized going forward. Given that EXC only owns T&D assets, we see limited opportunity for above average growth vs a company that is spending capex on assets like renewables. We do acknowledge its balance sheet cushion relative to its downgrade threshold which is something that is very much in focus for investors now, but do not think that the 1.1x premium that EXC

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

trades at on 2025 numbers is warranted.

Quarterly outlook

We update our 3Q2023 estimate to $0.68 (from $0.70 prior) to better reflect our expectations for O&M cadence in the back half of the year, which compares to FactSet consensus at $0.70. We revise our estimates to account for some amount of interest rate and O&M drag in 3Q, but our FY2023 estimate of $2.37 remains within EXC's guidance range of $2.30-$2.42. Outside of results, we expect investors to be most interested in (a) regulatory updates at both ComEd and BGE, (b) commentary around how EXC will navigate a higher interest rate environment, (c) cost management.

Valuation & Key Risks

We are Sell rated on EXC. We apply an unchanged 15x P/E multiple (vs our baseline multiple of 16x) to our 2025 EPS estimate to derive a 12-month $39 PT, reflecting a 1% total return versus 21% for our coverage. Our 2023-2025 EPS remains the same at $2.37/$2.46/$2.61. Key risks for EXC include: 1) favorable rate case outcomes, 2) cost management, 3) balance sheet cushion relative to downgrade threshold appeals to investors seeking a defensive name, and 4) incremental capex opportunities beyond the base level T&D spend.

Xcel Energy (XEL, Buy)

Our most recent views

We remain positive on XEL as we see potential upside on the Preferred plan (Commission approvals expected in 4Q23) which could drive around ~$11bn of incremental capex, if approved, which in our view could drive up 2025E EPS by ~2-4%. Our positive view on XEL has been driven by robust investment opportunities across regulated renewables and transmission as the portfolio transitions away from coal, which we believe is materializing. While investor concerns remain around the potential

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

implications of the Marshall Fire for XEL, we note that the management has focused on communicating the facts/circumstances of the situation. We remain Buy rated and expect 29% total return vs 21% total return our coverage.

Quarterly outlook

We reduce our 3Q23 EPS estimate to $1.26 (from $1.37 earlier) which is below FactSet consensus at $1.29 to account for timing of O&M for the remainder of 2023E, which we now expect to be more heavily weighted to 4Q versus 3Q. We also adjust 4Q23 EPS upwards to $0.81 (from $0.71), which is above FactSet consensus at $0.77, to maintain our 2023E EPS at $3.36 which is in-line with FactSet consensus and accounts for revised cadence around O&M. Outside of results, we expect investors to be focused on (a) commentary around the Preferred plan, (b) outlook on guidance for the year and updates on the capital plan/forward earnings guidance, and (c) updates on the Marshall fire.

Valuation & Key Risks

We are Buy rated on XEL. Our 12-month, P/E based price target is $74. In our valuation, we apply a 19x (unchanged) multiple on 2025 earnings, representing a 3x premium to our baseline multiple to account for attractive leverage to renewables and transmission, as well as above average growth versus peer and a strong track record of execution. Our 2023-2025 EPS estimates change to $3.36/$3.59/$3.88 from $3.36/$3.63/$3.90 to reflect higher interest, O&M and D&A expenses. Key risks to our positive view include 1) negative rate case outcomes, 2) slower than expected renewable transition, 3) failure to close gap between earned vs authorized ROE, and 4) cost management.

Sempra (SRE, Buy)

Our most recent views

We continue to view SRE favorably for its regulated utility in Texas and its LNG project

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

pipeline within its infrastructure segment. SRE's Texas utility Oncor benefits from organic load growth in its service territory, and despite raising its capital spending plan just last year to $19bn, we expect Oncor to raise the capital plan yet again this year. We also view SRE's LNG portfolio favorably, as these assets have longer dated contracts that can provide steady cash flows to help fund SRE's regulated utility capex. We expect 2024 to be a robust year for SRE's LNG business as both its Port Arthur Phase 2 project and its Cameron expansion project will likely reach FID next year. We believe that SRE's current 0.7x P/E discount to our coverage on 2025 numbers is unwarranted and positive developments from both its LNG business and its Texas utility will help to improve sentiment.

Quarterly outlook

We raise our 3Q2023 estimate slightly to $0.99 which compares to FactSet consensus at $1.00. On the quarter, we expect an increase in interest expense and strong results from Oncor due to favorable weather. SRE noted that this quarter would likely have limited updates, and that a more fulsome update for the company would come in February along with full year 2023 results. For the quarter, we expect investors to be focused on (a) any commentary around the Cameron LNG facility and Port Arthur Phase 2 progress, (b) regulatory updates at the California utilities, (c) cost trends in the back half of 2023.

Valuation & Key Risks

We are Buy rated on Sempra. We value SRE with a SOTP, applying a 1x discount to the California utilities and a 1x premium to the Texas utilities. We value the SIP segment with an unchanged 11x EV/EBITDA multiple, and apply a probability of completion for the LNG projects that are in flight. Our target price of $89 implies a total return of 31% vs an average of 21% for our coverage group. Our 2023-2025 EPS estimates move from $4.59/$4.77/$5.17 to $4.61/$4.74/$5.13. Key risks for SRE include (1) delays with the LNG projects, (2) Texas customer growth slowing or the regulatory environment becoming less favorable in Texas, and (3) unfavorable rate case outcomes at the California utilities or challenging regulatory constructs.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Duke Energy (DUK, Neutral)

Our most recent views

We are Neutral rated on DUK. DUK continues to have an appealing long term growth story, but we still expect the inflection there to be longer dated, and we continue to view the balance sheet as less advantaged in the near term. We continue to view DUK as a solid electric and gas utility outside of this, and acknowledge that it has continued to push to improve the regulatory mechanisms in its service territories. However we believe these improvements are largely priced in and DUK's short term outlook is still challenging given balance sheet constraints. Our current target price of $97 implies 14% upside vs our coverage average of 21%.

Quarterly outlook

Our 3Q23 estimate is at $0.99 as compared to FactSet consensus at $1.00. On the quarter, we expect interest expense to be the largest headwind for the quarter and adjust accordingly, with O&M reductions somewhat offsetting it. We expect weather will likely be a modest tailwind for the quarter, but not a major driver of results. Outside of results, we expect investors to be focused on (a) how DUK is tracking on its cost management plans as it expects to reduce O&M expense by $300mn in 2023, (b) commentary on equity needs and the outlook of the balance sheet going into 2024 and (d) regulatory updates.

Valuation & Key Risks

We are Neutral rated on DUK. We value DUK using a P/E methodology, applying a half turn discount to our baseline multiple of 16x. We view this slight discount as warranted due to DUK's constrained balance sheet and less differentiated regulatory jurisdictions, in our view. Our current target price of $97 implies a total return of 14%, vs the average of 21% for our coverage group. Key risks for DUK include 1) rate case outcomes, 2) cost

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

management and 3) poor load growth or weather.

Dominion Energy (D, Not Rated)

Quarterly outlook

Our 3Q23 EPS estimate changes to $0.86, as compared to FactSet consensus at $0.80. We note our estimate includes $0.08 of earnings from the Gas LDCs segment in our model, which may not be an apples to apples comparison to consensus estimates. On the quarter, Dominion recently decreased their guidance from $0.72-$0.87 to $0.66-$0.81 (a reduction of $0.05-$0.06) to account for exclusion of Gas LDCs from operating earnings. The company expects reduction in earnings from rate reduction at DEV, loss of solar ITC and outages at Millstone. Apart from results, we expect investors to be on the lookout for (a) updates on the business review, (b) commentary on the sale of Gas LDC assets, and (c) management guidance for 4Q23.

Valuation & Key Risks

We are Not Rated on Dominion Energy. Our 2023-2025 EPS estimates moves from $3.56/$3.51/$3.61 to $3.47/$3.49/$3.60 to account for updated guidance.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Public Service Enterprise Group (PEG, Neutral)

Our most recent views

We remain Neutral rated on PEG. We do see long term value in PEG's business model with 90%/10% regulated/unregulated split, as PEG can use the cash from its merchant nuclear fleet to fund regulated capex. Near term, we see headwinds for PEG as it continues to deal with higher interest rates and pension expense through the end of the year. PEG's upcoming rate case will account for these costs and allow PEG to recover them, but rates will likely not go into effect until sometime in 2025. We view the latest delay to GSMP Phase 3 to be neutral to slightly negative, as there is now some level of uncertainty around the program and the upcoming rate case with recent commission changes.

Quarterly outlook

Our 3Q23 EPS estimate remains unchanged at $0.74 as compared to FactSet consensus at $0.73. We expect pension and interest to be the largest drivers year over year from an earnings perspective, though we expect growth in customers and grid/transmission investments to offset some of the higher expenses. Apart from results, we expect investors to be on the lookout for (a) any updates around nuclear PTC or hydrogen tax credit expectations, and (b) regulatory updates including the expected distribution rate case filing later this year.

Valuation & Key Risks

We are Neutral rated on PEG and our 12-month price target is $65. We value PEG with a SOTP, applying a 16x P/E multiple on PSE&G 2025 earnings, which is in line with our baseline multiple for the sector. We apply a 9x EV/EBITDA multiple on the Power & Other segment as the nuclear PTC will help derisk the cash flow at the segment going forward. We see 11% total return versus an average of 21% for our coverage. Our

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

2023-2025 EPS estimates move from $3.45/$3.64/$4.05 to $3.45/$3.65/$4.06 as we model slight growth in customer numbers. Key risks for PEG include 1) 2023 distribution rate case uncertainty 2) lack of clarity around the nuclear PTC, 3) potential for upside to current capital plan.

Consolidated Edison (ED, Sell)

Our most recent views

We remain cautious on ED and see valuation as less compelling following the outperformance v/s the XLU (~8% YTD). While we recognize the balance sheet strength at the company, in addition to valuation we see fewer near term catalysts following resolution on the CECONY rate cases, lower relative exposure to energy transition investment opportunities outside of grid reliability, and concerns around customer affordability constraints on investment growth in New York.

Quarterly outlook

Our 3Q23 EPS remains at $1.62 which keeps us below FactSet consensus at $1.66. We adjust our debt and cash levels in 2024 and beyond, which drives a slight change in our 2024 EPS estimate. For the full year 2023E, we expect higher interest expenses (~$190mn higher in 2023E vs 2022A) to moderate the benefit from lower operating expenses, which keeps 2023E EPS unchanged at $4.84. Outside of results, the items that we expect investors to be focused on are (a) management commentary on cost management, (b) any updates on the steam rate case, and (c) potential upside to capex plans given ED's clean energy transition.

Valuation & Key Risks

We are Sell rated on ED. We derive our unchanged $88 12-month price target using a 16x P/E multiple (in line with our baseline multiple of 16x) on our 2025 EPS estimates, reflecting a 4% total return versus 21% for our coverage. Our 2023-2025 EPS estimates

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

move from $4.84/$5.10/$5.53 to $4.84/$5.09/$5.53. Key risks for ED include: 1) premium valuation persisting and 2) stronger than expected execution.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our coverage universe) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with subject company, public appearances and trading securities held by the analysts.

Distribution of ratings: See the distribution of ratings disclosure above. **Price chart:** See the price chart, with changes of ratings and price targets in prior periods, above, or, if electronic format or if with respect to multiple companies which are the subject of this report, on the Goldman Sachs website at https://www.gs.com/research/hedge.html.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at https://www.gs.com/worldwide/brazil/area/gir/index.html. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 951-A, Rational House, Appasaheb Marathe Marg, Prabhadevi, Mumbai 400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Investment in securities market are subject to market risks. Read all the related documents carefully before investing. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited Investor Grievance E-mail: india-client-support@gs.com. Compliance Officer: Anil Rajput |Tel: + 91 22 6616 9000 | Email: anil.m.rajput@gs.com. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, The Investment Trusts Association, Japan, and Japan Investment Advisers Association. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction lists, which are selected from Buy rated stocks on the respective region's Investment lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are not provided or have been suspended pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, when the company is an early-stage biotechnology company, and in certain other circumstances. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company. **Not Available or Not Applicable (NA).** The information is not available for display or is not applicable. **Not Meaningful (NM).** The information is not meaningful and is therefore excluded.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs do Brasil Corretora de Títulos e Valores Mobiliários S.A.; Public Communication Channel Goldman Sachs Brazil: 0800 727 5764 and / or contatogoldmanbrasil@gs.com. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: GSI, authorised by the PRA and regulated by the FCA and the PRA, disseminates research in the following jurisdictions within the European Economic Area: the Grand Duchy of Luxembourg, Italy, the Kingdom of Belgium, the Kingdom of Denmark, the Kingdom of Norway, the Republic of Finland and the Republic of Ireland; GSI - Succursale de Paris (Paris branch) which is authorised by the French Autorité de contrôle prudentiel et de resolution ("ACPR") and regulated by the Autorité de contrôle prudentiel et de resolution and the Autorité des marches financiers ("AMF") disseminates research in France; GSI - Sucursal en España (Madrid branch) authorized in Spain by the Comisión Nacional del Mercado de Valores disseminates research in the Kingdom of Spain; GSI - Sweden Bankfilial (Stockholm branch) is authorized by the SFSA as a "third country branch" in accordance with Chapter 4, Section 4 of the Swedish Securities and Market Act (Sw. lag (2007:528) om värdepappersmarknaden) disseminates research in the Kingdom of Sweden; Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research in the Federal Republic of Germany and those jurisdictions within the European Economic Area where GSI is not authorised to disseminate research and additionally, GSBE, Copenhagen Branch filial af GSBE, Tyskland, supervised by the Danish Financial Authority disseminates research in the Kingdom of Denmark; GSBE - Sucursal en España (Madrid branch) subject (to a limited extent) to local supervision by the Bank of Spain disseminates research in the Kingdom of Spain; GSBE - Succursale Italia (Milan branch) to the relevant applicable extent, subject to local supervision by the Bank of Italy (Banca d'Italia) and the Italian Companies and Exchange Commission (Commissione Nazionale per le Società e la Borsa "Consob") disseminates research in Italy; GSBE - Succursale de Paris (Paris branch), supervised by the AMF and by the ACPR disseminates research in France; and GSBE - Sweden Bankfilial (Stockholm branch), to a limited extent, subject to local supervision by the Swedish Financial Supervisory Authority (Finansinpektionen) disseminates research in the Kingdom of Sweden.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.fiadocumentation.org/fia/regulatory-disclosures_1/fia-uniform-futures-and-options-on-futures-risk-disclosures-booklet-pdf-version-2018. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.

Alert

October 16, 2023

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: EXC, FE, ETR, AEE, WEC, AGR, ES, DUK, XEL

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com
Madison Lehan / (917) 368-2293 / madison.lehan@key.com

This week, we are tracking proceedings in EXC's electric rate case in DC, FE's electric rate case in MD, ETR's formula rate plan in AR, AEE's IL electric rate case, and WEC's limited reopener rate case in WI. In other news, the NY PSC denies contracted offshore wind projects to be amended; the NY PSC approves settlement in AGR's NYSEG and RGE electric and gas rates; NC legislators override the governor's veto to change the NCUC composition; parties file briefs in EXC's MD electric and natural gas rate cases; and XEL files reply briefs in the NSP-WI electric and gas rate cases. ***Don't miss our schedule of meetings at the EEI this fall and contact us to join the meetings.***

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Please scroll down for our full schedule, including dinners with **DTE** and **AGR**, and contact us or your KBCM sales representative to schedule meetings.

Regulatory Calendar

EXC — Supplemental testimony in PEPCo's DC electric rate case is due on October 16: EXC's PEPCO filed a three-year electric rate case with the DC PSC seeking a cumulative $191M revenue increase ($116M in RY1, $37M in RY2, and $37M in RY3). New rates would go into effect on February 15, 2024, with the step-ups effective January 1 of 2025 and 2026, respectively. The rate increase request is premised on a 10.5% ROE and 50.5% equity layer.

FE — The final order in Potomac Edison's MD electric rate case is due on October 18: The ALJ's proposed order recommended a $30M revenue increase, premised on a 9.5% ROE and 53% equity. The proposal removed all spending related to post-test-year reliability projects and the associated depreciation, resulting in a $694M rate base at the end of 2022. The ALJ also recommended the denial of Phase II of the electric distribution investment surcharge (EDIS). The ALJ order aligned with the Staff's recommendation for a $29M revenue increase, using a 9.5% ROE and 53% equity. FE's latest request was for a $50M revenue increase premised on a 10.6% ROE, 53.53% equity layer, and a $719M rate base.

ETR — Company responses in ETR AR's FRP are due on October 19: AR PSC Staff (Docket: 16-036-FR) recommended a $137M revenue increase, capped at $88M due to the 4% revenue constraint. Staff calculated a $47M adjustment for the 2022 historical test year and a $90M adjustment for the forecast year. Staff also recommended a 5.62318% benchmark rate of return on rate base compared to ETR's 5.62085% request. ETR AR submitted the FRP application seeking approval of an $89M electric revenue requirement. The FRP includes $50M for the 2022 historical test year and $81M for the 2024 forecast year, although state law only allows a 4% maximum increase, limiting ETR to the $89M request. Hearings are set to commence on November 13 and a Commission ruling is expected December 13.

FERC — FERC's Open Meeting is scheduled for October 19: A copy of the Sunshine Notice is included here.

AEE — TheALJ PD in AEE's IL electric rate case is due on October 20: Staff filed rebuttal testimony recommending a $317M revenue increase over 2024-2027. The updated recommendation bridges the gap between revenue deficiency as calculated by AEE in its rebuttal and the Staff's original testimony, primarily on account of a higher rate base. AEE filed rebuttal testimony for a $450M rate increase and maintained its original stance on a 10.5% ROE and ~54% equity ratio. This compares to AEE's initial request for a $449M rate increase and Staff's recommendation for a $249M revenue increase over the four years. An ICC ruling is due in December, followed by new rates going into effect on January 1, 2024.

WEC — Reply briefs in WEC's limited reopener WI cases are due on October 20: In rebuttal testimony, WEC disagreed with the Staff's recommendation to disallow certain costs associated with West Riverside 2 and Badger Hollow II. Staff's recommendation was to remove the associated cost, resulting in a $76M net revenue increase ($35M WEPCO-E, $21M WEPCO-G, $20M WG), compared to WEC's $90M revenue request ($44M WEPCO-E, $24M WEPCO-G, $22M WG). Staff and WEC's calculations exclude fuel recovery

costs of $42M and $40M, respectively. WEC filed the reopener to recover capital investments for projects achieving commercial operations in 2023 and 2024, and to incorporate projected O&M savings from the planned retirement of coal units. A WI PSC decision is expected in 4Q23, with new rates effective January 1, 2024.

Recent Developments for Companies Under Our Coverage

From our midweek: The ALJ files a proposed order in WEC's IL gas rate cases; the NJ BPU approves the stipulation in PEG's GSMP filing to extend Phase II through 2025; intervenors file testimony in D's VA biennial review; SCE and the DOJ reach a settlement in the 2017 Thomas Fire proceedings; NC legislators override the governor's veto to include nuclear within the definition of clean energy; and the EIA releases its October STEO.

ES — NY PSC denies price increases for contracted projects, likely triggering a series of contract cancelations:

- **What happened?** The NY PSC denied NYSERDA the ability to amend existing contracts for ORECs for offshore wind projects. The PSC decision was in response to petitions by the project developers to raise prices to reflect the current environment, given supply chain challenges and higher interest rates that have disrupted the industry and made projects unviable at current contracted prices. The impacted projects include the 924 MW Sunrise Wind, 816 MW Empire Wind 1, 1,260 MW Empire Wind 2, and 1,230 MW Beacon Wind. ES and Orsted, which were developing Sunrise Wind, sought a 54% price increase to maintain the project's economic viability. The PSC said the companies could exit the deals and bid again in future procurement processes. Shares of ES (-7.5%) underperformed the UTY (-1.6%) during PSC discussions and following the order.
- **What's next?** We believe that while ES has not formally stated its path forward following the PSC decision, it is quite possible that it will rescind the current PPA in favor of rebidding in the next RFP. Termination of the current PPA will likely incur ES a $22M penalty. Recently, AGR agreed to pay $48M and $16M to terminate the PPAs in the ~1.2GW Commonwealth Offshore Wind project in MA and the 804 MW Park City Wind project in CT, respectively. In response to the PSC's decision, the NY governor released her 10-Point Action Plan to reinforce the state's climate policy goals and expedite the rebidding process.
- **What implications does this decision have for ES?** ES has yet to announce the sale of its 50% interest in South Fork, Sunrise, and Revolution. The sale has taken longer than anticipated but is still likely to be announced before YE. The PSC decision on the ORECs adds uncertainty into the value that the projects could bring, especially if ES decides to exit the current Sunrise Wind PPA. It is also likely that ES will take another write-down since ES's fair value estimation of its offshore project portfolio assumed a successful repricing of the Sunrise Wind OREC contract (valued at ~$400M). Last quarter, ES took a $331M after-tax impairment charge to adjust for the carrying value of the total offshore wind investment. See here and here for more.

AGR — NY PSC issues a final order in AGR's NYSEG and RGE electric and gas rate cases: The NY PSC issued a final order adopting the three-year settlement in AGR's NYSEG and RGE electric and gas rate cases. The order authorizes a cumulative $769M revenue increase, premised on a 9.2% ROE and 48% equity. The PSC also authorizes AGR's five-year capital plan of $6.4B for 2022-2026, including recovery of capital investments already made and $634M of investments approved toward the implementation of Phase 1 of the NY climate law (CLCPA). AGR is approved to update its ESM that does not include any low-end earnings sharing. The mechanism directs 100% of the customer's portion toward the accelerated recovery of regulatory deferred assets. AGR will direct 50% of its electric earnings toward storm-related reg assets. The new rates are retroactive to May 1, 2023.

DUK — NC legislators override the governor's veto to change NCUC composition: The NC General Assembly voted to override the governor's veto of SB 512, which proposes reducing the NCUC down to five commissioners, reducing the NCUC chair to a three-year term, and allowing the governor to appoint three of the commissioners. The General Assembly would be responsible for appointing the two other commissioners. If enacted, the NCUC would begin experiencing changes to the composition in 2025, when two of the three expiring terms would not be refilled. In response to the override, the governor filed a lawsuit seeking to block the enactment of the legislation while also requesting a temporary restraining order to prevent many of the provisions of the legislation from going into effect until the constitutionality is resolved. The NCUC has historically comprised seven governor-appointed commissioners and a chair serving four years. We are currently watching the DEC multiyear rate case.

EXC — Parties file briefs in EXC's MD electric and natural gas rate cases: BG&E filed its initial briefs, maintaining its 10.4% ROE and 52% equity. The Company's overall request is for a cumulative net $314M electric and a $290M gas rate increase over 2024-2026, premised on 10.4% ROE and 52% equity. EXC proposes smoothing the rates over three years by accelerating the amortization of ADIT benefits. EXC also noted the importance of continuing its Resilience Investment Plan during the multiyear plan, while broader proceedings to explore resilience for MD's grid can always be explored later. The MD PSC staff recommends that the PSC deny $109M for funding the program. Staff also maintained its ROE and capital structure at 9.45% and 52%, respectively, while recommending RY1 revenue increases of $41M and $127M for electric and gas, respectively. Overall, the Staff recommends electric and gas revenue increases of $193M and $232M, respectively, over a three-year term. A MD PSC decision is expected by year-end, with new rates becoming effective in early 2024.

XEL — XEL files reply briefs in the NSP-WI electric and gas rate cases: In reply briefs, XEL broadly argued against the CUB and Walmart's demands of a lower ROE (9.3%) and the disallowance of other costs. XEL maintained its requests from its initial briefs, including a proposal for a 10.25% ROE, 52.5% equity, and its proposed earnings-sharing mechanism. These were three of the

Sophie Karp
(917) 368-2361 / sophie.karp@key.com

five Staff proposed adjustments that XEL opposed in rebuttal testimony, including AIP costs, RAP expenses, fuel adjustments, and MISO charges. Cumulatively, these adjustments lowered the electric and gas revenue deficiencies by $27M and $3M, respectively. XEL adopted eight of the 13 adjustments that Staff proposed, including the $11M adjustment in the electric rate case to reflect the extended life of the Monticello nuclear facility and several wind facilities (which were the main areas of difference between XEL and Staff testimonies). XEL's original ask was for electric and gas revenue increases of $40M and $9M, respectively, premised on a 10.25% ROE and 52.5% equity.

Figure 1 - KBCM Meetings at EEI

Time (MT)	Sunday, November 12	Monday, November 13	Tuesday, November 14
7:00 AM		Exelon Corp (EXC)	
8:00 AM		Duke Energy (DUK)	Ameren Corp (AEE)

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC ("KBCMI"), and KeyBank National Association ("KeyBank N.A."), are marketed.

KeyBanc Capital Markets Inc. ("KBCMI") does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst's compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. This communication is intended solely for use by KBCMI clients. The recipient agrees not to forward or copy the information to any other person without the express written consent of KBCMI.

KBCM Research LLC ("KeyBanc Capital Markets Research"), an SEC registered investment advisor, is a wholly owned subsidiary of KeyBanc Capital Markets Inc. KeyBanc Capital Markets Research provides objective and sophisticated **Research Services**, primarily in the form of published Research Reports, to an institutional client base in exchange for a cash fee. KBCM Research does not provide particularized investment advice with regard to any specific institutional client, on the basis of specific sector or company requests from a client. Our advisory relationship with our clients is strictly limited to the provision of **Research Services**, which are not to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. October 09, 2023

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: CMS, D, XEL, ED, EXC, WEC, POR, SO, ETR, PNW, AGR, ES, EIX

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com
Madison Lehan / (917) 368-2293 / madison.lehan@key.com

This week, we are tracking proceedings in CMS's electric rate case in MI, D's VA biennial review, XEL's rate cases in WI, ED's steam rate case in NY, EXC's MD rate cases, and WEC's limited reopener in WI. In other news, POR reaches a constructive settlement resolving all outstanding issues in its electric rate case; SO identifies a motor fault in Vogtle Unit 4; SO reaches an estimated $413M settlement with OPC; the AR Staff files testimony in ETR's FRP; FERC partially accepts PNW's proposal for AZ interconnection reform; CT, MA, and RI sign an MOU to coordinate offshore wind procurements; Orange County files lawsuits against EIX for the Silverado Fire and Coastal Fire; PEPCO reaches a $57M settlement in a chemical dumping lawsuit; and CMS announces plans to add an 85 MW solar facility at a former coal power plant site. ***Don't miss our schedule of meetings at the EEI this fall and contact us to join the meetings.***

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Please scroll down for our full schedule, including dinners with **DTE** and **AGR,** and contact us or your KBCM sales representative to schedule meetings.

ICYMI
Close Your Eyes and Buy (Quality): We shook up our ratings and price targets to reflect our current views on the space. Read more here.

WEC — We hosted WEC for a set of management meetings last week. Given the timing, WEC discussed its pending refreshed capital plan, as well as how it plans to finance it, and its longer-term outlook. Read more here.

DTE — We provided our thoughts on the ALJ's PD in DTE's electric rate case. Overall, the ALJ proposed a $290M rev increase (9.8% ROE) compared to DTE's $580M (10.25% ROE) request and Staffs $379M recommendation (9.8% ROE). Read more here.

Regulatory Calendar
CMS — Hearings in CMS's MI electric rate case begin October 9: CMS lowered its request to $160M, down from the $218M requested during the initial filing. The lower revenue deficiency is due to CMS reducing its rate base by ~$576M and lower O&M expenses of $28M. The lower rate base reflects the removal of capex for Mustang Mile, Washtenaw, and Muskegon solar projects, which the Company will seek to recover in a future rate case. CMS continues to pursue a 10.25% ROE and 52% equity. The lower request narrows the gap compared to Staff's $95M revenue increase recommendation based on a 9.8% ROE and 50% equity—the lower ROE continues to drive the difference. Concerning the IRM (Investment Recovery Mechanism), CMS supported some of the Staff's proposed changes but did not support reduced spending for the IRM. An ALJ PD is expected on December 21.

D — Intervenor testimony in D's VA biennial review proceedings is due on October 10: D made a biennial rate filing in pursuance of the new legislation. The Company provided a forward-looking, rate-making analysis based on the 9.7% ROE and 52.1% equity layer provided for in the legislation and demonstrates a $26M revenue deficiency in 2024 and $51M in 2025. However, since the legislation also says that the fold-in of $350M in rider revenue into base rates cannot serve as a basis for a rate increase, D is not proposing any incremental rates in this proceeding.

XEL — Reply briefs in the NSP-WI electric and gas rate cases are due on October 10: In initial briefs, XEL requested the PSC accept its proposal for a 10.25% ROE, 52.5% equity, and its proposed earnings sharing mechanism. These were three of the five Staff proposed adjustments that XEL opposed in rebuttal testimony, including AIP costs, RAP expenses, fuel adjustments, and MISO charges. Cumulatively, these adjustments lowered the electric and gas revenue deficiencies by $27M and $3M, respectively. XEL adopted eight of the 13 adjustments that Staff proposed, including the $11M adjustment in the electric rate case to reflect the extended

life of the Monticello nuclear facility and several wind facilities (which were the main areas of difference between XEL and Staff testimonies). XEL's original ask was for electric and gas revenue increases of $40M and $9M, respectively, premised on a 10.25% ROE and 52.5% equity (Docket: 4220-UR-126).

ED — Evidentiary hearings in ED's CECONY steam rate case begin on October 11: Staff offered a statement in support of the Joint Proposal agreeing to a three-year rate plan beginning in November 2023 with a levelized revenue increase of $77.8M in each of RY1-RY3. The JP proposes a 9.25% ROE and a 48% equity layer and includes an ESM in which customers will share earnings in excess of 9.75%. The settlement also includes a weather normalization adjustment and reflects roughly $105M of capex each year during the rate plan. The settlement compares to Staff's recommended $94M revenue increase, premised on a 9% ROE and 48% equity, and ED's $141M revenue request, 10% ROE, and 50% equity layer.

EXC — Briefs in EXC's MD electric and natural gas rate cases are due on October 12: MD PSC Staff recommended electric and gas revenue increases of $193M and $232M, respectively, over a three-year term. The increases are premised on a 9.45% ROE and 52% equity. This compares to BG&E's (Docket: C-9692) request for a cumulative net $314M electric and a $290M gas rate increase over 2024-2026, premised on 10.4% ROE and 52% equity. The difference is largely due to the lower ROE proposed by Staff. EXC proposes smoothing the rates over three years by accelerating the amortization of ADIT benefits. A MD PSC decision is expected by year-end, with new rates becoming effective in early 2024.

WEC — Briefs in WEC's limited reopener WI cases are due on October 13: In rebuttal testimony, WEC disagreed with the Staff's recommendation to disallow certain costs associated with West Riverside 2 and Badger Hollow II. As a reminder, Staff's recommendation to remove the associated cost resulted in a cumulative $76M net revenue increase ($35M WEPCO-E, $21M WEPCO-G, $20M WG), compared to WEC's $90M revenue request ($44M WEPCO-E, $24M WEPCO-G, $22M WG). Staff and WEC's calculations exclude fuel recovery costs of $42M and $40M, respectively. WEC filed the reopener to recover capital investments for projects achieving commercial operations in 2023 and 2024, and to incorporate projected O&M savings from the planned retirement of coal units. A WI PSC decision is expected in 4Q23, with new rates effective January 1, 2024.

Recent Developments for Companies Under Our Coverage

From our midweek: Intervenors file testimony in KY Power's electric rate case; AGR reaches an agreement to terminate Park City PPAs; EXC files rebuttal testimony in its DE electric rate case; the NC governor vetoes the clean energy bill proposal; DUK completes the sale of its distributed energy assets; D proposes new solar projects for VA customers; AEP appoints a new CFO; and OTTR announces the retirement of its CFO and names a replacement.

POR — POR reaches constructive settlement resolving all outstanding issues in OR electric rate case: POR, OR PUC Staff, the OR CUB, and others reached a sixth and final settlement, resolving all outstanding issues in the electric rate case. The settlement agrees to a $391M (net $208M) revenue increase, premised on 9.5% ROE, 50% equity, and a $6.2B rate base. The authorized revenue increase includes $183M of power costs and reflects POR's updated load forecast. Parties also agreed to adjust the Power Cost Adjustment Mechanism (PCAM) to allow POR to recover 80% of reliability contingency event (RCE) costs that are above POR's forecast in its annual tariff, with the remaining 20% of RCE costs flowing through the existing PCAM. While POR requested that 100% of the expenses during RCE be recoverable, the updated mechanism mitigates some volatility associated with power costs during periods of region-wide capacity constraints. The settlement also includes a vegetation management tracker that POR requested. As part of the agreement, POR withdrew its request to add associated battery storage to the Renewable Adjustment Clause. The settlement is a constructive outcome relative to the Company's initial ask for $338M (net $231M), premised on a 9.8% ROE, 50% equity, and $6.3B rate base. The primary adjustments were the agreed-upon ROE (-$13M) and O&M expenses (-$17M). A PUC decision is expected in December, followed by new rates going into effect on January 1, 2024.

SO — SO identifies motor fault resulting in Vogtle Unit 4 in-service date of 1Q24: SO identified a motor fault in one of the four reactor coolant pumps during startup and pre-operational testing at Unit 4. SO has begun replacing the pump with a spare RCP that was on site. As a result of the fault, SO now expects the plant to enter service during 1Q24, still within its prior 4Q23-1Q24 window. However, the delay will result in a $0.05 EPS impact in 2024, implying earnings toward the lower end of the $3.95-$4.10 range. SO will provide narrower 2024 guidance at the end of the year. At the end of 2Q23, the Company's total cost forecast for Vogtle was $10.6B.

SO — SO reaches an estimated $413M settlement with OPC with respect to certain cost-sharing provisions in the joint ownership agreement: SO reached an agreement with Oglethorpe Power Corporation (OPC) to resolve the dispute regarding the interpretation of the cost-sharing and tender provisions of the Vogtle Joint Ownership Agreement. As a result of the settlement, OPC will not exercise its tender option, and SO will pay $308M for a portion of OPC's construction costs for previously incurred costs. SO is also expected to pay OPC an incremental $105M for further construction costs, based on the current project capital cost forecast. If construction costs exceed current projections, SO will pay 66% of all incremental construction costs. SO expects to record a $152M ($114M after tax) charge in 3Q23. SO previously reached a similar agreement with the Municipal Electric Authority of Georgia (MEAG) paying $76M for a portion of MEAG's construction costs and 20% of all incremental construction costs above projections at the time. The settlement with MEAG is not affected by the latest agreement, and neither settlement resolves the lawsuit with Dalton. However, SO estimates its current exposure is a $17M pre-tax charge to income for the pending dispute with Dalton.

ETR — Staff files testimony in ETR AR's FRP: AR PSC Staff (Docket: 16-036-FR) recommended a $137M revenue increase, capped at $88M due to the 4% revenue constraint. Staff calculated a $47M adjustment for the 2022 historical test year and a $90M adjustment for the forecast year. Staff also recommended a 5.62318% benchmark rate of return on rate base compared to ETR's 5.62085% request. ETR AR submitted the FRP application seeking approval of an $89M electric revenue requirement. The FRP includes $50M for the 2022 historical test year and $81M for the 2024 forecast year, although state law only allows a 4% maximum increase, limiting ETR to the $89M request. Hearings are set to commence on November 13 and a Commission ruling is expected December 13.

PNW — FERC partially accepts PNW's proposal for AZ interconnection reform: The order partially adopts PNW's proposals to reform AZ's interconnection policy. The order requires developers to post a study deposit of $100,000, demonstrate 100% site control, and choose between two additional options: demonstrating commercial readiness through signed contracts or posting a $7.5M deposit. Developers can either demonstrate site control or post a $160,000 study deposit for projects between 20 MW and 75 MW or a $250,000 study deposit for projects exceeding 75 MW. PNW was seeking to remove the deposit option. However, FERC rejected the proposal in favor of maintaining the current site control requirements. FERC also rejected PNW's proposal to use any remaining queue withdrawal penalty revenue to offset the costs of network upgrades in the same cluster projects. PNW can draw on the $7.5M deposit if a project withdraws from a cluster study and triggers delays for remaining projects. The FERC order is in response to PNW's proposal with FERC (ER23-2398) requesting that FERC permit changes to the interconnection process as it relates to the PNW's AZ transmission system to allow a readiness standard for processing interconnection requests (and move away from the first come, first served approach). PNW has an interconnection queue backlog of 224 projects totaling ~78 GW. The revisions went into effect on September 30.

AGR, ES — CT, MA, RI sign MOU to coordinate offshore wind procurement: Three New England states (CT, MA, RI) signed a memorandum of understanding establishing guidelines for multi-state offshore wind procurements. The MOU allows the states to select a multi-state proposal up to each state's procurement authority and split the MW and RECs from a single project. The agreement between the three states follows several offshore wind projects canceling contracts due to higher interest rates and inflation, making prior contracts uneconomic. Those canceled projects are expected to be rebid into upcoming RFPs. MA, CT, and RI seek to procure a total of 6,000 MW in 2024, with the states targeting procurements of 3,600 MW, 1,200 MW, and 1,200 MW, respectively.

EIX — A California county files lawsuits against EIX for the Silverado Fire and Coastal Fire: Orange County filed lawsuits against EIX for its role in the 2020 Silverado and 2022 Coastal wildfires. T-Mobile was also named as a defendant in the Silverado Fire. Orange County claims that EIX's negligence caused the two wildfires. EIX filed Electric Safety Incident Reports (ESIR) for each fire. EIX issued a report following the Coastal Fire, notifying the CPUC that circuit activity occurred around the fire's reported time. After the Silverado Fire, EIX notified the regulator that a lashing wire attached to a telecommunications line may have contacted EIX's power line. CA utilities are required to submit a report in certain instances, including when significant public attention has been focused on such events, and the submission is not an admission of guilt. CA has a framework of inverse condemnation, which means that utilities are deemed responsible for wildfire damage caused by their equipment whether the companies are acting negligently or not. CA legislature passed AB 1054 in 2019, which provides safeguards against the inverse condemnation statute.

EXC — PEPCO reaches $57M settlement in chemical dumping lawsuit: EXC's PEPCO reached a $57M settlement with the District of Columbia to resolve civil claims brought by the city. The city accused PEPCO of dumping toxic chemicals into the Anacostia River for several years. ~$47M of the settlement will go toward cleaning up the river, while the remaining $10M is for penalties. PEPCO is required to clean up contamination at the Buzzard Point and Benning Road facilities and will also investigate the environmental costs of its 60,000 underground transformer vaults around DC.

CMS — CMS announces plans to add 85 MW solar facility at power plant site: CMS announces plans to add an 85 MW solar facility at the Dan E Karn Power Plant. The project is expected to enter service by 2026 and be located at the former sites of the previously closed units 1 and 2 of the coal plant. CMS closed units 1 and 2 this past June and is amortizing the decommissioning costs through 2031 (beginning in 2024) and the coal ash disposal costs over 10 years starting in 2024. CMS will continue to run the 693 MW Unit 3 and 710 MW Unit 4 at the Karn facility until 2031. Those units run on natural gas. CMS plans to eliminate all coal generation from its generation mix by 2025.

This week, intervenors file testimony in KY Power's electric rate case; AGR reaches an agreement to terminate Park City PPAs; EXC files rebuttal testimony in its DE electric rate case; the NC governor vetoes the clean energy bill proposal; DUK completes the sale of its distributed energy assets; D proposes new solar projects for VA customers; AEP appoints a new CFO; and OTTR announces the retirement of its CFO and names a replacement. Don't miss our EEI schedule included below, and contact us to schedule any meetings.

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.

Please scroll down for our full schedule, including dinners with **DTE** and **AGR**. Please contact us or your KBCM sales representative to schedule meetings.

Industry News and News from Companies in Our Coverage

AEP — Intervenors file testimony in KY Power's electric rate case: The Office of the AG and KY Industrial Utility Customers filed joint testimony recommending a $66M revenue increase, premised on a 9.7% ROE, 41.24% equity, and $1,573M rate base as of March 31, 2023. This compares to KY Power's request for a ~$94M revenue increase, premised on a 9.9% ROE, 41.62% equity, and a ~$1,793M rate base using the same test year. The lower rate base is a material driver of the delta as the interveners recommend recalculating certain working capital items and removing assets associated with a federal NOL ADIT from rate base, The OAG and KIUC do not oppose KY Power's proposed distribution reliability rider, but want to limit the recovery to incremental capex and O&M. Through the filing, KY Power is seeking to right-size its rate base and improve the balance sheet to improve the earned ROE. At the end of 2Q23, KY Power earned a 1.6% ROE over the past 12 months. KY Power will file rebuttal testimony by November 6, followed by hearings beginning on November 28. New rates are expected to go into effect on January 1, 2024.

EXC — EXC files rebuttal testimony in DE electric rate case: EXC filed rebuttal testimony and updated its ask to $54M (net $39M) compared to its prior request of $56M (net $42M). EXC maintained its request for a 10.5% ROE and 50.5% equity. EXC's request compares to Staff's recommended $36M revenue increase, premised on a 9.38% ROE and 50.5% equity. The primary drivers of the delta are the lower O&M, Staff's use of an average-rate base method (vs. EXC year-end RB), and lower O&M. The Division of the Public Advocate recommended a revenue increase of $29M ($16M net), using a 9.1% ROE and 46.4% equity. EXC and the DPA's net revenue increase excludes $14M for the DSIC rider. A final order is expected in April 2024. Interim rates of $56M went into effect in mid-July.

AGR, ES — AGR reaches an agreement with utilities to terminate Park City PPA: AGR agreed to pay a cumulative $16M to ES and AGR's UIL to terminate the PPA for the 804MW Park City Offshore Wind project. AGR sought to be released from its contracts after determining that the project could not receive financing under the current PPAs. ES and UIL filed the requests with the CT PURA to approve the termination. AGR will decide to rebid either into the next CT RFP or in MA.

DUK — NC governor vetoes clean energy bill: The NC governor vetoed SB 678, or the "Promote Clean Energy" bill, which proposes to redefine renewable energy as clean energy and include nuclear and fusion technology as clean energy. Republican lawmakers plan to override the veto. DUK owns and operates the largest regulated nuclear fleet in the U.S., with 11 nuclear units located at six separate sites totaling 10.7 GW across North Carolina and South Carolina. In its 2023 SC IRP and NC Carbon Plan filings, DUK has proposed investments in new advanced nuclear technology, including small modular reactors.

DUK — DUK completes sale of distributed energy assets: DUK announced the closing of the sale of the distributed energy business to ArcLight Capital Partners for $364M, including non-controlling tax equity interests. The distributed energy business included REC Solar operating assets, a development pipeline, an O&M portfolio, and distributed fuel cell projects. In addition to the distributed energy assets, DUK previously agreed to sell its utility-scale solar and wind group (read more here) to Brookfield Renewable for ~$2.8B, including project debt and non-controlling tax equity interests. DUK still expects the deal with Brookfield to close by year-end. The

proceeds from both deals will be used to offset capital needs in the regulated business and to help fund the Company's 10-year, $145B capital plan.

D — D proposes new solar projects for VA customers: D proposed new solar projects for VA customers in a clean energy filing with the Virginia State Corporation Committee (Docket: PUR-2023-00142). The Company proposed more than a dozen new solar projects, which, if approved, would generate 772 MW of electricity. The proposal includes six solar plants in VA owned by the utility, including 13 PPAs totaling 435 MW. Approval of these solar projects would bring D's total solar energy in VA to 4,600 MW.

AEP — AEP appoints new CFO: AEP announced Charles Zebula will replace Ann Kelly as CFO, effective immediately. Mr. Zebula joined AEP in 1998 and most recently served as an EVP of Portfolio Optimization. Mr. Zebula will report to CEO Julie Sloat. At the same time, AEP reaffirmed its 2023 EPS guidance range of $5.19-$5.39, the 6-7% long-term growth rate, and the FFO/debt target of 14-15%.

OTTR — OTTR CFO retiring, replacement named: OTTR announced that CFO Kevin Moug will retire from his role at the end of the year. Todd Wahlund, who has served as CFO and VP of finance at Ottertail Power Company since 2018, will replace him. Mr. Wahlund joined OTTR in 1992. We view the move as part of OTTR's leadership transition plan.

ARGUS

NASDAQ: EXC

EXELON CORP

Exelon Corp. is a leading energy provider, with transmission and distribution operations in the U.S. and headquarters in Chicago. Exelon spun off its generation business, which was about 60% nuclear, as Constellation Energy at the end of 2021. Constellation is now a publicly traded company focused on generation and competitive distribution, while Exelon focuses on regulated transmission and distribution.

Analyst's Notes

Analysis by Marie Ferguson, October 4, 2023

ARGUS RATING: BUY

- Reaffirming BUY and $50 target
- Management has balanced its rate case filings and expects rate decisions at its six utilities from 4Q23 through 2Q24.
- Exelon recently reported 2Q23 operating EPS of $0.41, down from $0.44 a year earlier and just above the consensus of $0.40. The lower earnings reflected unfavorable weather and higher interest costs.
- At the end of September, the company settled SEC fraud charges against its ComEd subsidiary by agreeing to a $46 million civil penalty. The charges related to activities in 2011-2019.
- The current annualized dividend of $1.44 per share yields about 3.9%, near the peer average of 4.0%.

INVESTMENT THESIS

We are maintaining our BUY rating on Exelon Corp. (NYSE: EXC), which provides electricity and natural gas to about 10 million customers in Illinois, Maryland, Pennsylvania, New Jersey, Delaware, and the District of Columbia. We have a positive view of the company's transformation into a pure-play transmission utility through the spinoff of its competitive energy business, Constellation Energy (CEG), which should lower earnings volatility. Management projects long-term earnings growth of 6%-8% from the company's utilities, which we believe is achievable. Exelon is also benefiting from favorable rate case decisions, as well as from its cleaner transmission mix and focus on hydro power.

In conjunction with the February 2022 Constellation spinoff, EXC shareholders received one share of CEG for every three shares of EXC. Exelon shares were repriced as a result of this separation.

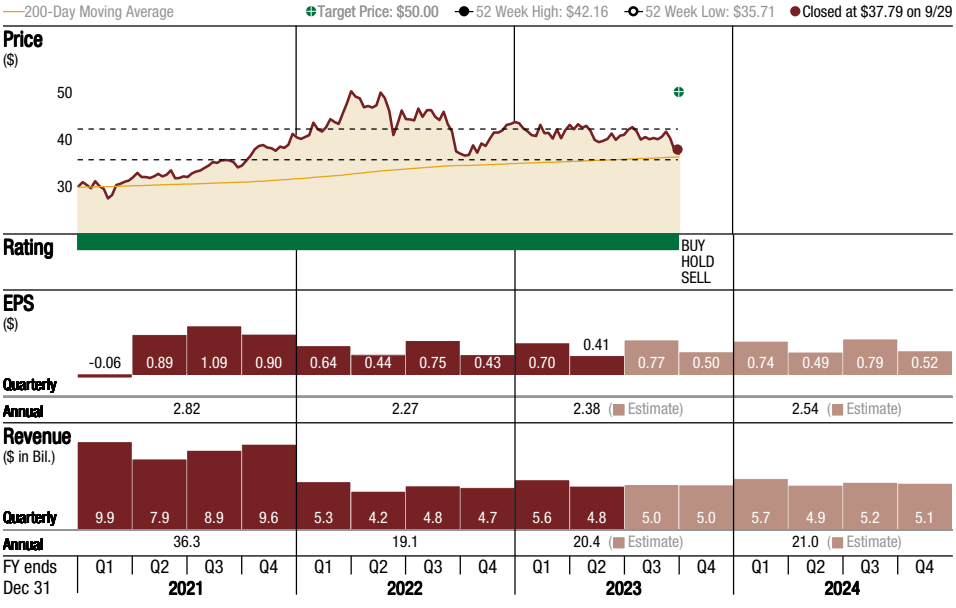
We believe that the current share price offers a buying opportunity for income-oriented investors, and are reiterating our target price of $50.

RECENT DEVELOPMENTS

EXC shares have outperformed peers over the past three months, falling 9% compared

Market Data

Pricing reflects previous trading week's closing price.



Argus Recommendations

Twelve Month Rating	SELL	HOLD	**BUY**
Five Year Rating	SELL	HOLD	**BUY**
Sector Rating	Under Weight	**Market Weight**	Over Weight

Argus assigns a 12-month BUY, HOLD, or SELL rating to each stock under coverage.

- BUY-rated stocks are expected to outperform the market (the benchmark S&P 500 Index) on a risk-adjusted basis over the next year.
- HOLD-rated stocks are expected to perform in line with the market.
- SELL-rated stocks are expected to underperform the market on a risk-adjusted basis.

The distribution of ratings across Argus' entire company universe is: 71% Buy, 29% Hold, 0% Sell.

Analyst's Notes ...Continued

to a loss of 13% for the S&P Utility Sector index (XLU). The S&P has fallen 5% over the past quarter. Over the past 52 weeks, the shares have declined 1%, compared to a loss of about 13% for the XLU. The S&P 500 has gained 18% over the past year.

Exelon recently reported 2Q23 operating EPS of $0.41, down from $0.44 a year earlier and just above the consensus of $0.40. The lower earnings reflected unfavorable weather and higher interest costs.

Second-quarter operating revenues rose 14% from the prior year to $4.8 billion. Operating expenses increased 16% to $4.1 billion. The company has been battling high interest costs. In 2Q23, net interest expense was $427 million, up from $358 million a year earlier.

EXC has several pending rate cases. Thus far in 2023, it has filed an electric distribution rate case for ACE and multiyear rate plans for BGE and Pepco DC. Management expects rate case decisions at its six utilities from 4Q23 through 2Q24.

Meanwhile, Pennsylvania regulators recently approved a $55 million increase in gas distribution revenues that took effect in 1Q23. Separately, DPL/Delmarva obtained an $8 million increase in gas distribution rates and an authorized ROE of 9.6%, which took effect at the end of 2022. The company's average ROE is 9.4%, above the peer average. Looking ahead, management projects a consolidated ROE of 9%-10%.

Management is focused on capital investments that will improve reliability and provide cleaner energy. It plans to allocate $31 billion to new infrastructure by 2026, which will increase the rate base by 8%. The company has taken on additional debt to fund these improvements, issuing $650 million of long-term bonds in 3Q22. In 2Q23, Exelon also applied for $700 million in federal funding through the Infrastructure Investment and Jobs Act that could help to finance 10 new smart-grid and grid resilience projects.

After the close of 2Q23, Exelon subsidiary ComEd and former ComEd CEO Anne Pramaggiore were charged with civil fraud related to activities from 2011 through 2019. According to the SEC, ComEd and its former CEO offered bribes and jobs to third-party vendors with the goal of influencing an Illinois Representative to obtain favorable legislation. Exelon agreed to settle the charges with a payment of $46 million. The charges against the former CEO, including allegations that she directed payments of more than $1.3 million, will be litigated. The SEC's complaint alleges that Ms. Pramaggiore lied to Exelon auditors and filed false certifications. ComEd estimates that it received anticipated benefits of more than $150 million from favorable legislation.

Along with 2Q23 earnings, management reaffirmed its 2023 adjusted EPS guidance of $2.30-$2.42. It also projects 6%-8% growth in operating earnings through 2025-2026, driven mainly by rate increases.

EARNINGS & GROWTH ANALYSIS

Analyst's Notes ...Continued

Following the CEG spinoff, Exelon has six utility subsidiaries: PECO (1.7 million electric and 0.5 million gas customers near Philadelphia); PEPCO (1 million electric customers in Maryland and Washington DC); DPL (0.5 million electric and 0.1 million gas customers in Delaware); ACE (0.6 million electric customers in New Jersey); BGE (1.3 million electric and 0.7 million gas customers near Baltimore); and ComEd (4 million electric customers in Illinois).

Electricity sales in GWhs fell 6.5% from the prior year in 2Q23, reflecting a 12% decline in residential sales and a 5% decline in small commercial sales. Driven by rate increases, electric revenues rose 28% to $1.8 billion. Heating degree days fell 19% from the prior year.

The company breaks out results for four segments: ComEd, PECO, BGE, and PHI (which includes ACE, PEPCO, and DPL). Compared to 2Q22, second-quarter adjusted operating earnings were as follows: up 10% to $251 million at ComEd; down 26% to $98 million at PECO (which saw the greatest impact from weather among the company's subsidiaries); up 13% at BGE; and up 14% to $115 million at PHI.

Going forward, the company should continue to benefit from cost cutting and favorable rate case decisions, as well as from more moderate fuel costs, multiyear labor agreements, and improved technology. The company has mixed service territories, with cold winters in Illinois and more moderate weather in the mid-Atlantic region, which can help it to manage costs. We expect Exelon to benefit from economic growth in the Chicago and Philadelphia areas, offset by slower growth and higher unemployment in Baltimore. We expect the strongest segment results at ComEd and BGE, helped by rate increases, with weaker earnings at PECO due to regulatory lag and higher interest expense.

We expect the company to rebound from the recent fraud settlement at its ComEd subsidiary as earnings growth is driven by rate increases. We are maintaining our 2023 operating EPS estimate of $2.38 and raising our 2024 estimate to $2.54 from $2.52. Our estimates assume a return to normal weather patterns and lower interest rates in 2024.

FINANCIAL STRENGTH & DIVIDEND

Our financial strength rating on Exelon is Medium. Moody's rates the company's debt an investment-grade Baa2. S&P and Fitch rate the company BBB.

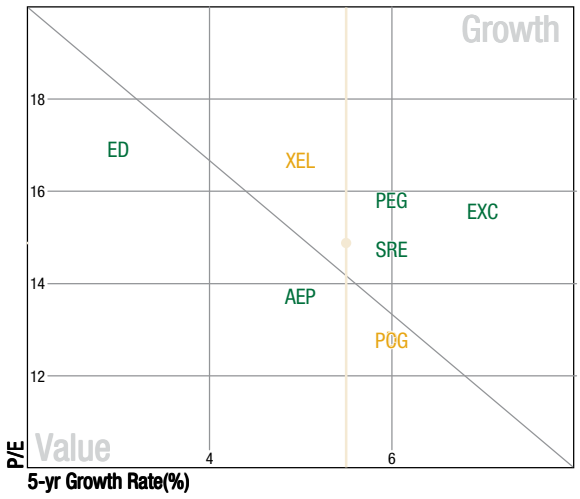
The company's long-term debt has increased. At the end of 2Q23, long-term debt was $39.5 billion, up from $35.3 billion at the end of 2022. Cash and equivalents were $399 million, down from $407 million. The long-term debt/cap ratio at the end of 2Q23 was 61%, in line with the peer average but up from 59% at the end of 2022.

The weighted-average maturity of the company's long-term debt is about 17 years. Exelon has $500 million of debt maturing in 2023. Long-term regulatory assets totaled $8 billion at the end of 2Q23, up from $7.8 billion at the end of 1Q23.

Peer & Industry Analysis

The graphics in this section are designed to allow investors to compare EXC versus its industry peers, the broader sector, and the market as a whole, as defined by the Argus Universe of Coverage.

- **The scatterplot shows how EXC stacks up versus its peers on two key characteristics: long-term growth and value. In general, companies in the lower left-hand corner are more value-oriented, while those in the upper right-hand corner are more growth-oriented.**
- **The table builds on the scatterplot by displaying more financial information.**
- **The bar charts on the right take the analysis two steps further, by broadening the comparison groups into the sector level and the market as a whole. This tool is designed to help investors understand how EXC might fit into or modify a diversified portfolio.**



Ticker	Company	Market Cap ($ in Millions)	5-yr Growth Rate (%)	Current FY P/E	Net Margin (%)	1-yr EPS Growth (%)	Argus Rating

©2023 Argus Research Company

Analyst's Notes ...Continued

Following the Constellation spinoff, Exelon lowered its quarterly dividend by 12% to $0.3375 per share, or $1.35 annually. It then increased its payout by 6.6% in February 2023. The increase was slightly greater than usual, as the average increase over the last five years has been about 5.5%. The current quarterly dividend of $0.36, or $1.44 annually, yields about 3.9%, near the peer average of 4.0%. Our dividend estimates are $1.44 for 2023 and $1.53 for 2024.

MANAGEMENT & RISKS

Calvin Butler became the company's president and CEO in January 2023 following the retirement of Christopher Crane. Jeanne Jones is the CFO. Exelon has recently added several board members, including Ann Richo, Charisse Lillie, and Matthew Rogers. Directors Paul Joskow, Ann Berzin, and Carlos Gutierrez will be leaving at the end of their terms.

EXC settled fraud charges against its ComEd subsidiary in Illinois after the close of 2Q23. The civil charges include charges against former ComEd CEO Anne Pramaggiore related to activities in 2011-2019, which will be litigated.

Risks for Exelon shareholders include cooler-than-normal conditions during the summer air-conditioning season and warmer-than-normal temperatures during the winter heating season. The transmission business may also be hurt by extreme weather events. The company also faces regulatory risk.

Utility stocks in general are susceptible to commodity price fluctuations and potential environmental and safety liabilities. In addition, the capital-intensive nature of the utility industry creates ongoing liquidity risk. Utility stock performance also tends to be sensitive to interest rates; when rates rise, utility yields often rise.

COMPANY DESCRIPTION

Exelon Corp. is a leading energy provider, with transmission and distribution operations in the U.S. and headquarters in Chicago. Exelon spun off its generation business, which was about 60% nuclear, as Constellation Energy at the end of 2021. Constellation is now a publicly traded company focused on generation and competitive distribution, while Exelon focuses on regulated transmission and distribution.

Through its regulated utility subsidiaries, Exelon delivers electricity and natural gas to about 10 million customers, primarily in central Maryland (Baltimore Gas & Electric Co.), northern Illinois (ComEd), and southeastern Pennsylvania (PECO). About 90% of EXC's 2022 revenues were from the electricity business and about 42% of earnings were from the largest utility, ComEd. The company plans to cut emissions by 50% by 2030 and to achieve net-zero emissions by 2050. The shares are a component of the S&P 500. The market cap is about $37 billion.

VALUATION

Although EXC shares have participated in the recent rotation out of Utility stocks, they have outperformed the Utility Sector index XLU over the past year. This includes recent trading on news of the civil fraud settlement. At current prices near $37, the shares are trading below the midpoint of their 52-week range of $35-$44 and appear undervalued on several key metrics. They are trading at 15.5-times our 2023 EPS estimate, below the average of 17.4 for Argus-covered utilities. The PEG multiple of 2.5 is below the peer average of 2.9, and the price/sales multiple of 2.1 is below the peer average of 2.7.

While Exelon may continue to face pressure from high interest rates, we believe that the shares offer value based on the company's size and scale. Recent results have been driven by rate increases and further favorable rate decisions are expected at the company's six subsidiaries over the next several quarters. We also like Exelon's focus on renewable energy, cleaner transmission, and decreased volatility following the spinoff of the nuclear generation business. We believe that the current share price offers a favorable entry point and are reiterating our BUY rating with a target price of $50.

On October 4 at midday, BUY-rated EXC traded at $37.04, down $0.01.

About Argus

Argus Research, founded by Economist Harold Dorsey in 1934, has built a top-down, fundamental system that is used by Argus analysts. This six-point system includes Industry Analysis, Growth Analysis, Financial Strength Analysis, Management Assessment, Risk Analysis and Valuation Analysis.

Utilizing forecasts from Argus' Economist, the Industry Analysis identifies industries expected to perform well over the next one-to-two years.

The Growth Analysis generates proprietary estimates for companies under coverage.

In the Financial Strength Analysis, analysts study ratios to understand profitability, liquidity and capital structure.

During the Management Assessment, analysts meet with and familiarize themselves with the processes of corporate management teams.

Quantitative trends and qualitative threats are assessed under the Risk Analysis.

And finally, Argus' Valuation Analysis model integrates a historical ratio matrix, discounted cash flow modeling, and peer comparison.

THE ARGUS RESEARCH RATING SYSTEM

Argus uses three ratings for stocks: BUY, HOLD, and SELL. Stocks are rated relative to a benchmark, the S&P 500.

- A BUY-rated stock is expected to outperform the S&P 500 on a risk-adjusted basis over a 12-month period. To make this determination, Argus Analysts set target prices, use beta as the measure of risk, and compare expected risk-adjusted stock returns to the S&P 500 forecasts set by the Argus Market Strategist.
- A HOLD-rated stock is expected to perform in line with the S&P 500.
- A SELL-rated stock is expected to underperform the S&P 500.

Argus Research Disclaimer

Power & Utilities

October 4, 2023

The Guggenheim Daily Transmission: PCG, EIX, ERCOT, SO, EXC, Wind/MD

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our NRG NDR, PEG NDR, NI NDR, FE CFO lunch, and other events, scroll down...

Power/Gas: No Country for New Gas… (see our note HERE)

PCG – Intervenors file comments on the PD/APD in the PG&E GRC proceeding

EIX – SCE files application for wildfire memo account recovery

ERCOT – Winter reserves program continues to draw questions

SO – Georgia Power issues RFI for resources up to 1,200 MW

EXC – Pepco reaches $57M settlement with DC over PCB suit

Wind/MD – BOEM opens draft EIS for MOW project off MD coast

SO – Southern Company begins salt operations of Integrated Effects Test along with partners

PCG – Intervenors file comments on the PD/APD in the PG&E GRC proceeding

- Intervenors filed comments on the proposed decisions (PD/APD) in the 2023 PG&E GRC proceeding.
- IOUs including PCG, SRE and EIX filed comments arguing for more spending on reliability and safety, opposing a variety of the cutbacks in the PD/APD including finding issues with precedent and legal standards.
- Intervenors addressed a variety of issues in support and opposition to the PD/APD but generally focused on reductions in revenue requirement and reductions in certain spending programs, with TURN specifically supporting reductions to the escalation factors as proposed in the APD.
- CPUC set a rate-setting all-party meeting in the PG&E GRC process for October 21, 2023.
- The proposed decisions are now still in comment phase and will be able to be heard at the November 2 CPUC meeting.
- Docket: A2106021

Guggenheim takeaway: *FYI. No surprises for us in the comments at this point as intervenors look to justify lower revenue requirements. The proposed decision was below expectations based on headline rate base figures and undergrounding miles, but provides a level of clarity on PG&E core capex. The rate base outcome as proposed would put PCG into the bottom half of prior 5-year guidance. There were also large parts of capex/rate base that were moved into separate proceedings (i.e., still room for upside vs. PD baselines), which defers, but does not preclude, recovery and ultimate inclusion into rate base (on the order of $3.5B, potentially bringing PCG back into the midpoint of the guidance range). PG&E also filed for a balancing account on customer interconnection capex above authorized (as per SB410), which could result in faster and incremental capex (note: GRC PD was supportive of full PG&E ask on customer interconnection and distribution needs). See more on our takes from the CPUC decisions in our note* HERE.

EIX – SCE files application for wildfire memo account recovery

- SCE filed an application for certain wildfire and risk mitigation spending recovery as directed under the prior GRC decision.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

- SCE submitted a review for (O&M) expenses totaling $112.914 million and capital expenditures totaling $135.736 million in SCE's Wildfire Mitigation Plan Memorandum Account (WMPMA) and Fire Risk Mitigation Memorandum Account (FRMMA).
- Additionally, SCE is looking to recover 2022 O&M expenses for vegetation management activities totaling $245.168 million recorded in SCE's Vegetation Management Balancing Account (VMBA).
- Docket: A2310001 (currently undocketed)

Guggenheim takeaway:*FYI. The applications are part of the recurring process for SCE to recover certain risk mitigation activities that were not covered in base rates in the prior GRC cycle.*

ERCOT – Winter reserves program continues to draw questions

- Yesterday, the ISO issued an RFP for up to 3GWs of reserves for the winter season.
- "Just because we're asking for up to 3,000 MW, it doesn't mean that we would sign contracts for that. We may not get that much offered, or it may be too expensive. … Those are all unknowns at this point. I think this exercise will help educate us to what the market is capable of providing." - ERCOT COO via Platts
- More HERE.

Guggenheim takeaway: *The winter reserves program and associated scenario analyses generated some media coverage yesterday, but it remains unclear what the potential implications of the program could be on potential tightness this winter. As a reminder, the ISO has been under scrutiny more recently for changes to the ancillary services market – see our recent gas note HERE for more.*

SO – Georgia Power issues RFI for resources up to 1,200 MW

- Now projecting more capacity needs than previously expected, Georgia Power has issued a Request for Information (RFI) for energy storage systems combined with a renewable or thermal generation resource.
- The utility requires that each resource must be firm, >100 MW, but no more than 1,200 MW in size.
- Responses are due October 24th.
- More HERE.

Guggenheim takeaway: *Recall that upon returning from our trip with investors to Georgia this July, our biggest, unexpected takeaway was the rapid pace of accelerating future load growth expectations in the state as being something to watch as Georgia Power updates various stakeholders at the Commission with a potential updated IRP in the works. In contrast to last year's trip, the IRA had largely resolved economic concerns around rate-basing solar, while the jump in expected industrial load means more gas plants will also be required – i.e., in all of the above strategy, which will include keeping remaining coal asset operating.* ***For more, please see our note HERE, as well as our subsequent call with the Georgia PSC's new Chair (HERE).***

EXC – Pepco reaches $57M settlement with DC over PCB suit

- The utility will pay $47M towards river cleanup and $10M towards civil penalties in a settlement with the DC AG.
- More HERE, HERE

Guggenheim takeaway: *Minor FYI.*

Wind/MD – BOEM opens draft EIS for MOW project off MD coast

- "In support of the Biden-Harris administration's goal of deploying 30 gigawatts of offshore wind energy capacity by 2030, the Bureau of Ocean Energy Management (BOEM) today announced the availability of the draft Environmental Impact Statement (EIS) for the proposed Maryland Offshore Wind Project. If approved, the project could generate between 1,100 and 2,200 megawatts of clean, renewable energy to the Delmarva Peninsula, which could power up to 770,000 homes." - release
- More HERE

Guggenheim takeaway: *As a reminder, the state of MD has significant OSW goals (8.5GW by 2031) that will require substantial capital deployment in the coming years.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

SO – Southern Company begins salt operations of Integrated Effects Test along with partners

- In partnership with TerraPower [PRIVATE] and CORE POWER [PRIVATE], Southern Company commenced the salt operations of the Integrated Effects Test (IET), which will inform the design, licensing and also the operation of a ~180 MW Molten Chloride Fast Reactor (MCFR) demo unit, which is planned for the early-2030s.
- "*The startup of the Integrated Effects Test is a milestone achievement in the development of the first fast-spectrum molten salt reactor, and we are immensely proud to contribute to its success*," said Mikal Bøe, president and CEO of CORE POWER. "*The Integrated Effects Test allows us to collect that crucial last-mile data for a design and build of the Molten Chloride Fast Reactor and takes the team one step closer to a genuinely unique way to do new nuclear that is appropriate for the commercial marine environment*." – release
- Company press release HERE

Guggenheim takeaway: *TerraPower's MCFR technology operates at higher temperatures than conventional nuclear reactors, offering potential for process heat applications and thermal storage, while also claiming to generate electricity more efficiently. Importantly, this technology represents another emission-free generation option in addition to conventional nuclear projects and traditional renewables.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Shar Pourreza, *Senior Managing Director, Senior Equity Research Analyst – Power & Utilities*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Equity Research | Corporate Access

FirstEnergy Corp. (FE)

Jon Taylor, *Chief Financial Officer*

Date & Time

Wednesday, December 6, 2023
12:00PM

Location

Guggenheim Office
330 Madison Ave, 32nd Floor
New York, NY

Company Information

Market Cap: $20.9bn

FirstEnergy Corp. (FE) engages in the generation, transmission, and distribution of electricity as well as energy management and other energy-related services through its subsidiaries. It operates through the following business segments: Regulated Distribution, Regulated Transmission, and Corporate or Other. The Regulated Distribution segment distributes electricity through FirstEnergy's utility operating companies, serving various customers. The Regulated Transmission segment transmits electricity through transmission facilities owned and operated by FirstEnergy's utilities. The Corporate or Other segment reflects corporate support and other costs not charged or attributable to the utilities or transmission companies. The company was founded in 1996 and is headquartered in Akron, OH. (Source: FactSet)

DISCLAIMER

Important Notices and Disclosures Please forward the language below to your Compliance team: Guggenheim Securities, LLC is providing notice to you and your firm's Compliance department that we have invited personnel from your firm to attend the above-referenced event. Attendees are advised that any information or materials discussed at the event or provided in connection therewith (the "materials") are provided for informational and educational purposes only and should not be considered a recommendation of any particular security, strategy or investment product, as investing advice of any kind, or as offering or providing any investment product or service, or as an offer or solicitation with respect to the purchase or sale of any investment by Guggenheim Securities, LLC or any of its affiliates ("Guggenheim"). The materials are not provided in an advisory or fiduciary capacity and may not be relied upon for or in connection with the making of investment decisions. The views expressed during the event and/or in the materials are solely those of the authors, participants, investment bankers and other presenters (collectively, the "Presenters") and may differ from the views of other officers, directors, employees or other representatives (as to any person or entity, its "Representatives") of Guggenheim or any other Presenter. The Presenters' opinions are subject to change without notice. Neither Guggenheim nor any other Presenter undertakes any obligation to provide additional information or any update to or correction of the information discussed or provided at the event or otherwise in connection therewith. Sources for the information discussed or contained in any materials are believed to be reliable, but the information is not guaranteed as to, and neither Guggenheim nor any other Presenter nor any of their respective Representatives make any representation or warranty regarding, accuracy or completeness of any information contained therein or otherwise. Neither Guggenheim nor any other Presenter nor any of their respective Representatives shall be liable to any person in any way whatsoever for any losses, costs or claims for reliance on the materials. Guggenheim and/or any other Presenter may have a business relationship with certain attendees and/or issuers mentioned during the event or in any materials provided, or may otherwise underwrite, hold a position, buy or sell as principal in the securities of any issuer mentioned. Guggenheim may have in the past provided, may currently be providing and may in the future seek to provide investment banking, financial advisory and other services to, and have other material relationships with, attendees and/or issuers of securities, loans and other financial instruments discussed during the event or referred to in any materials. With respect to any position Guggenheim or any Presenter may hold, Guggenheim or such Presenter may have interests different from or adverse to your interests. None of the materials provided may be reproduced or redistributed, in whole or in part, to any other person or published in whole or in part for any purpose absent the written consent of Guggenheim. By registering for and/or attending the event and/or accepting delivery of the materials, you will be deemed to acknowledge and agree to the matters set forth above. Copyright © 2023 by Guggenheim Securities, LLC, a FINRA registered broker-dealer. All rights reserved. Invitation is non-transferable.

This is a message from Guggenheim Securities, LLC to provide notice to you and your firm's compliance department that personnel from your firm are scheduled to attend the above-referenced meeting. The discussion will be general in nature and any mention of individual companies would only occur in the context of illustrating a trend or historical reference point. Our policies provide that specific companies, material non-public information and/or confidential information may not be discussed. The experts and/or speakers for this event may have material non-public information, but have agreed not to discuss such information. Further, all experts are required to review, understand our Expert Training Deck and agree to comply with its Terms and Conditions. Personnel from your firm must not seek Investor confidential information and/or material non-public information from Guggenheim Securities, LLC. Additionally, at your discretion, you may also choose not to attend the meeting.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

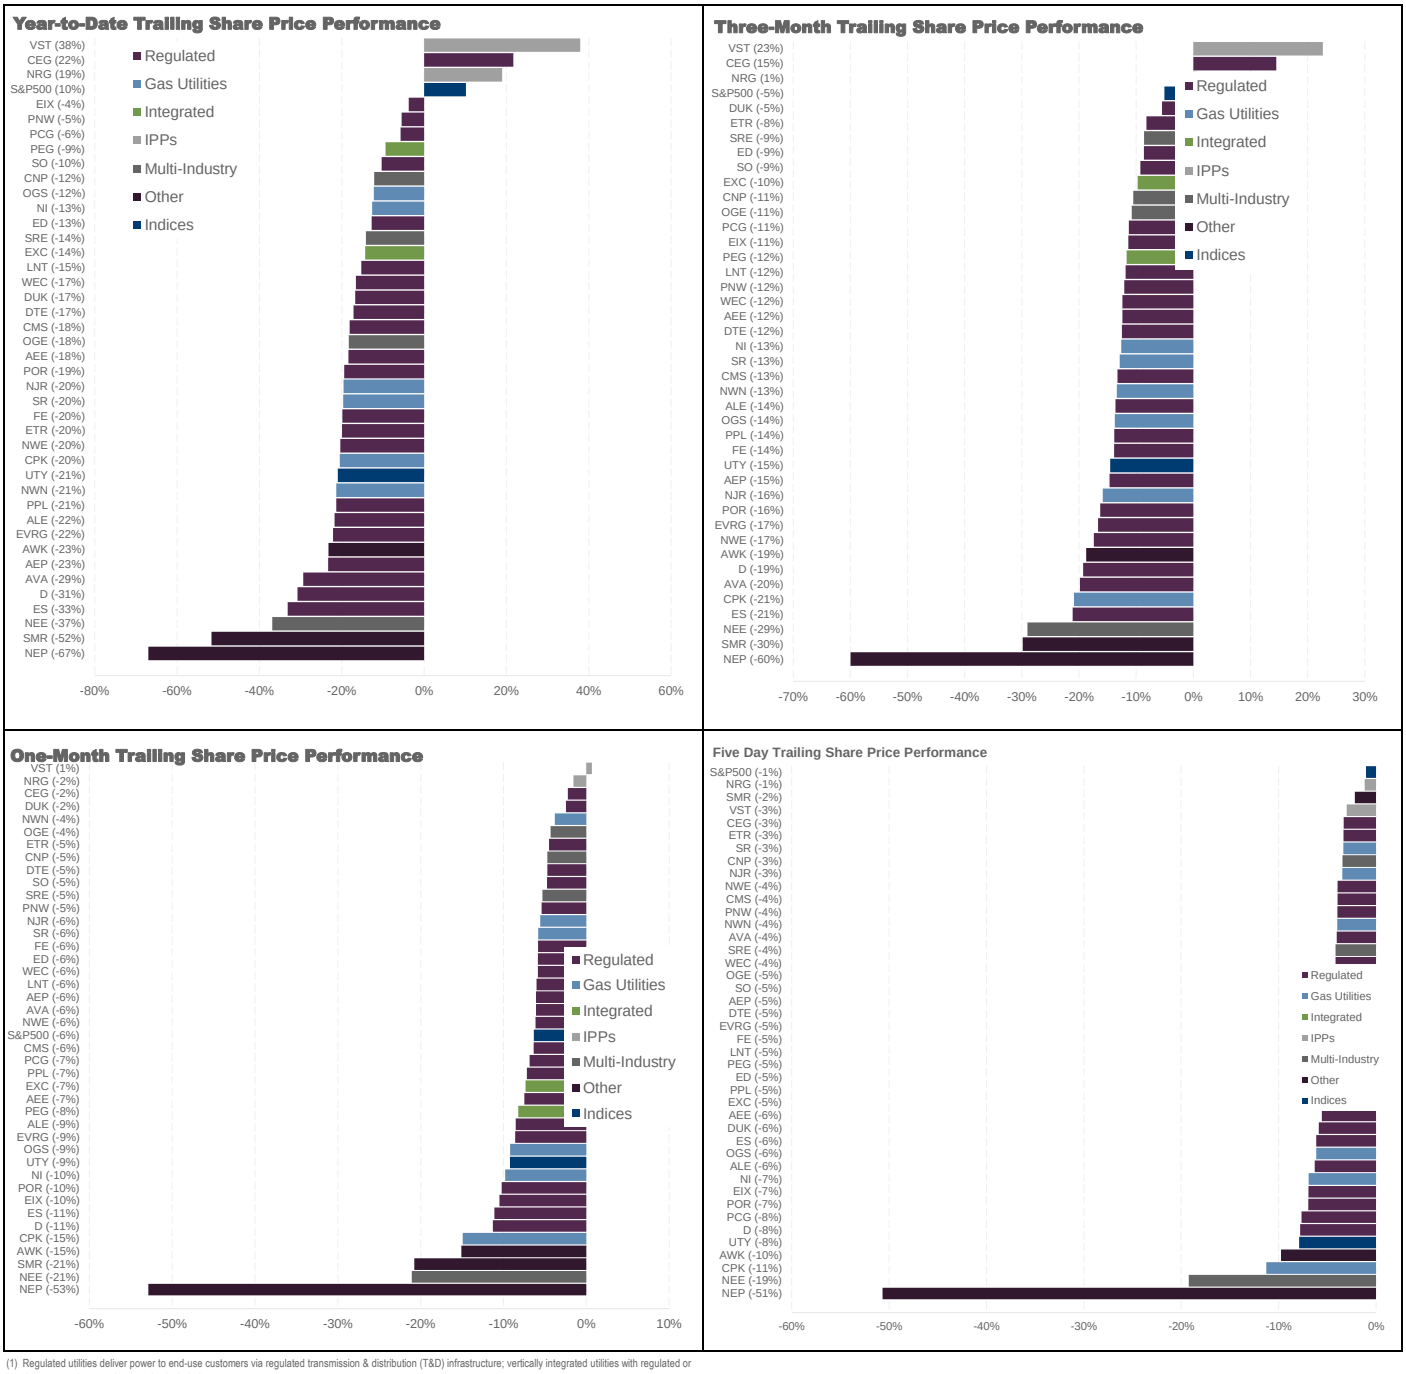
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

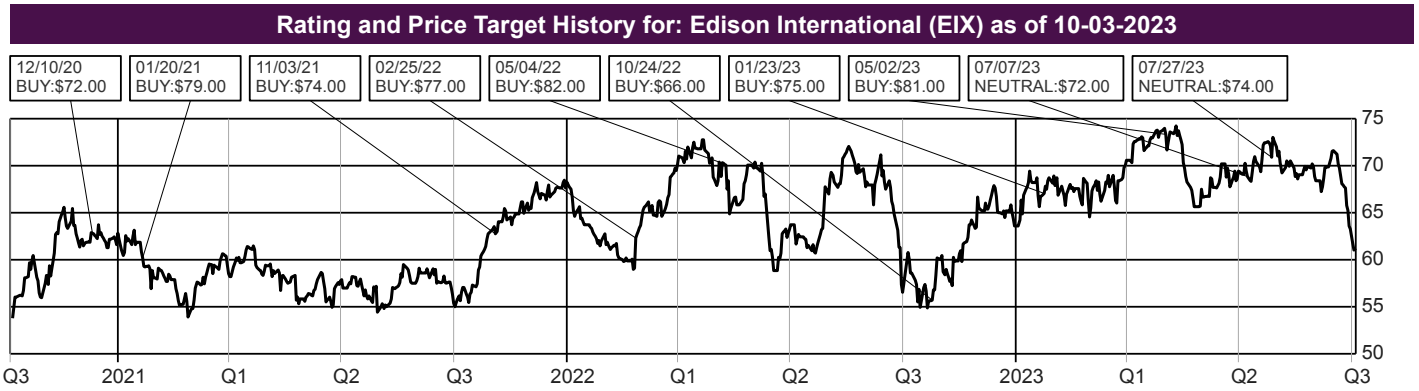
IMPORTANT DISCLOSURES

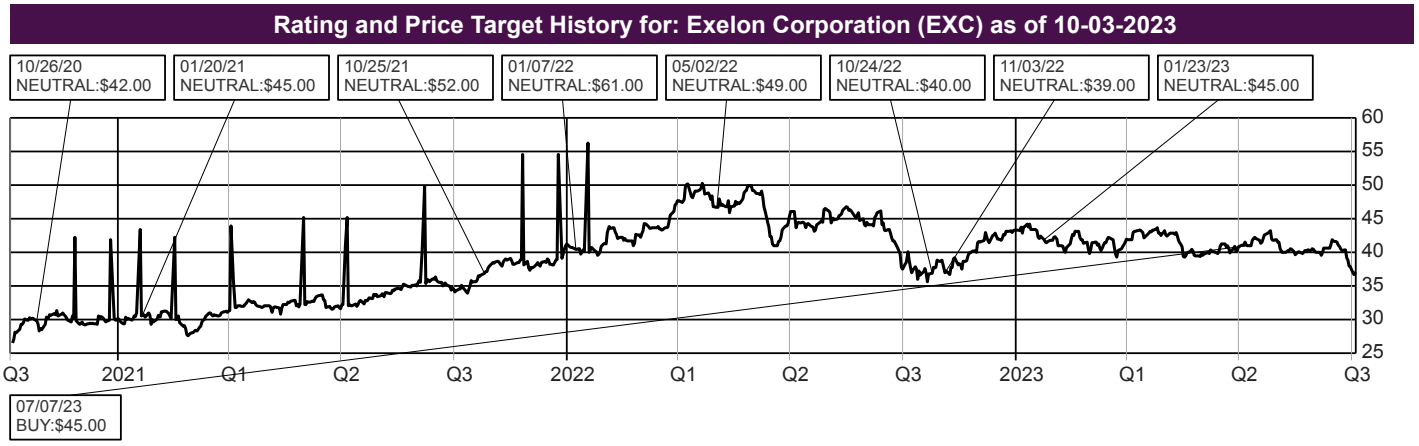
The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Guggenheim Securities, LLC or its affiliates received compensation for investment banking services from PG&E Corporation during the past 12 months.

Guggenheim Securities, LLC makes a market in the securities of PG&E Corporation.

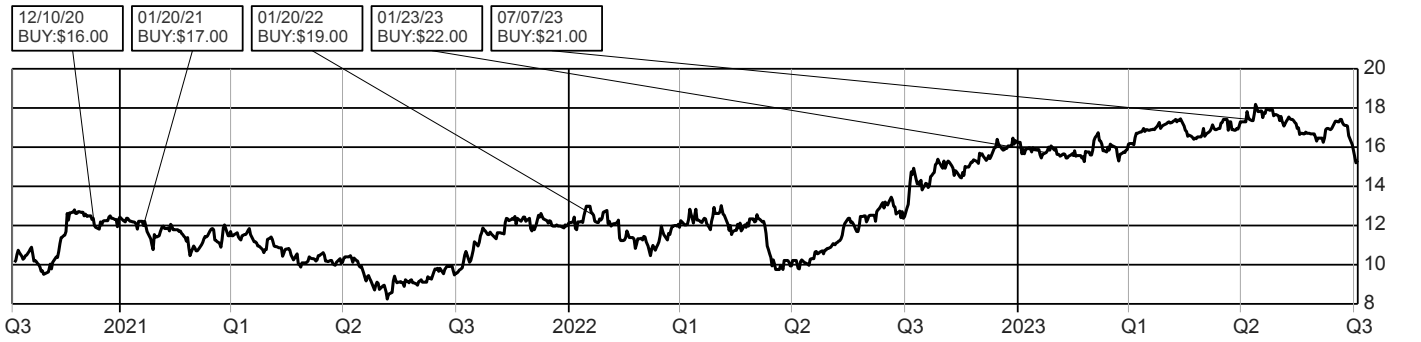
Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.





Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Rating and Price Target History for: PG&E Corporation (PCG) as of 10-03-2023



Created by: BlueMatrix

Rating and Price Target History for: Southern Company (SO) as of 10-03-2023

Created by: BlueMatrix

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

OTHER DISCLOSURES

This research is for our clients and prospective clients only. This research was prepared by personnel who are associated with both Guggenheim Securities, LLC (a FINRA-registered broker-dealer, “Guggenheim Securities”) and Guggenheim Securities Research Services, LLC (an investment adviser, “GSRS,” and together with Guggenheim Securities, “Guggenheim”). If you are paying separately for this research, it is being provided to you by GSRS. Otherwise, it is being provided by Guggenheim Securities. Guggenheim does not create tailored or personalized research and all research provided by Guggenheim is impersonal advice. Other than disclosures relating to Guggenheim and our affiliates, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the research analyst's judgement. Guggenheim Securities conducts a full-service, integrated investment banking and brokerage business. Guggenheim Securities is a member of SIPC (http://www.sipc.org). Guggenheim Securities' salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to Guggenheim Securities' clients and our employees trading for our own account that reflect opinions that are contrary to the opinions expressed in this research. Guggenheim and certain of our affiliates conduct an investment management business, trade for their own accounts, and may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

We and our affiliates, officers, directors, and employees, excluding equity and credit analysts, will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research. We and our affiliates also may sell to or buy from customers on a principal basis the securities described herein. We and our affiliates also do business with, or that relates to, companies covered in Guggenheim research and may have a position in the debt of the company or companies discussed herein.

This research is not an offer to sell or the solicitation of an offer to buy any security. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them will fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

This communication does not constitute an offer of Shares to the public in the United Kingdom. No prospectus has been or will be approved in the United Kingdom in respect of the Securities. Consequently, this communication is directed only at (i) persons who are outside the United Kingdom or (ii) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Order”), (iii) high net worth entities falling within Article 49(2) of the Order (iv) and other persons to whom it may lawfully be communicated (all such persons together being referred to as “relevant persons”). Any investment activity to which this communication relates will only be available to, and will only be engaged with, relevant persons. Any person who is not a relevant person, or otherwise in a territory where it is not intended to, or may not, be distributed, should not act or rely on this document or any of its contents.

Power & Utilities

October 2, 2023

The Guggenheim Daily Transmission: EVRG, Power/Gas, AEP, CMS/DTE, VST, LNT, PPL/RI, EXC/IL, NWE, FE, D

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our CEG NDR, NRG NDR, PEG NDR, NI NDR, FE CFO lunch, and other events, scroll down...

EVRG: Kansas Settlement Improves on Tough Bid-Ask but Leaves Cap Structure Overhang for Another Day (see our note HERE)

Forward Power Curves, Genco MtM, and Weekly Commentary (see our note HERE)

Power/Gas: No Country for New Gas… (see our note HERE)

AEP – Charles Zebula appointed as CFO, effective immediately

CMS/DTE – DTE announces plans to improve distribution grid reliability; CMS files distribution plan

VST – NRC approves ENGH license transfers

LNT – Additional exhibits and testimony filed in ongoing WPL case

PPL/RI – PPL to re-issue offshore wind RFP in RI

EXC/IL – Staff position statement filed in ComEd MYP

NWE – Holding company re-organization announced as expected

FE – OPC partially withdraws appeal of ALJ decision in Potomac Edison case

D – D warns on mini-tender offer

AEP – Charles Zebula appointed as CFO, effective immediately

- AEP's prior CFO, Ann Kelly, is departing the company.
- Mr. Zebula previously served as AEP's EVP, Portfolio Optimization.
- AEP reaffirmed its 2023 operating earnings guidance range of $5.19–$5.39 per share, LT growth rate of 6%–7% and FFO/Debt target of 14%–15%.
- Press release HERE

Guggenheim takeaway: *In our view, as well as the feedback we've received from investors, Ann likely wasn't the right fit for AEP, and it's good to see Julie making changes where needed. We caught up with the company this morning after the announcement. While this was a sudden and unexpected change in leadership, we note that the company highlighted Chuck's deep business and financial experience (>20 years with AEP and a former treasurer of the company) when describing what it referred to as a "stabilizing transition".*

CMS/DTE – DTE announces plans to improve distribution grid reliability; CMS files distribution plan

- DTE made an announcement Friday that the company would file its distribution grid plan with the MPSC with a roadmap to achieve 60% reliability improvements over the next 5 years.
- The plan also includes increased goals for grid automation and rebuilding some of the oldest parts of the grid.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

- The plan calls for $9B in capex investments over the next 5 years (in line with prior capex plans).
- CMS also filed the company's distribution grid plan with $7B in proposed grid investments.
- Docket: U-20147.

Guggenheim takeaway: *FYI. The overall plan aligns in magnitude with the prior DTE capex plans but lays out some detail expectations to address stakeholder concerns with reliability. For CMS, the DGP is a slight step up from the $1.1B/yr in distribution capex in the prior announced plan. We anticipate further updates as part of 3Q and EEI disclosures in October/November. As we highlighted before, what could come about from the events in MI is increased capital spending.*

VST – NRC approves ENGH license transfers

- "The Nuclear Regulatory Commission has approved the transfer of the licenses for four operating reactors and their associated spent fuel storage facilities from Energy Harbor Nuclear Corp. to Vistra Operations Company LLC. The transfer is part of VistraOps' acquisition of Energy Harbor's nuclear assets." - NRC
- More HERE

Guggenheim takeaway: *Minor FYI – the NRC is part of the process and not the main point of interest for investors at this point given DOJ/FERC. As a reminder, VST submitted a lengthy response to FERC earlier last month, including potential mitigation efforts in ATSI – see HERE for more.*

LNT – Additional exhibits and testimony filed in ongoing WPL case

- Multiple pieces of testimony and rebuttal testimony have been filed in the ongoing WPL docket, in
- More HERE

Guggenheim takeaway: *Yet more data-oriented filings in the case coming off hearings last week and additional briefs this week. The bid-ask on the case remains relatively narrow in our view, and we note multiple investors have asked in recent weeks whether a settlement could be forthcoming, which we believe is quite possible. In totality this case continues to reduce our focus on WI as a jurisdiction of concern and reinforce the focus on 'gradualism' at the PSCW = stay tuned for additional data points (e.g., settlement) in the coming days.*

PPL/RI – PPL to re-issue offshore wind RFP in RI

- "Rhode Island Energy, the state's leading energy utility, will be issuing a new Request for Proposals (RFP) to solicit approximately 1200 megawatts of new offshore wind to help power the state's clean energy needs… Rhode Island Energy is expected to issue its RFP in October, with proposals being due in early 2024 and a potential selection being made in Summer 2024. The new RFP will be released to coincide with offshore wind RFP procurement efforts in Massachusetts and Connecticut, thereby driving a unique offshore wind industry opportunity and economies of scale across southern New England."
- More HERE

Guggenheim takeaway: *Heads up. This is the re-run of the earlier procurement that failed to receive more than 1 bid.*

EXC/IL – Staff position statement filed in ComEd MYP

- ICC Staff's 300+ page position statement has been docketed in the ongoing MYP
- More HERE

Guggenheim takeaway: *Our initial parse indicates positions remain largely unchanged — the statement could serve as a useful refresher for those looking to catch up on the case and Staff's position. We continue to look for any potential readthrough from the forthcoming ALJ/proposed order due 10/23.*

NWE – Holding company re-organization announced as expected

- NWE announced that today, it executed upon its previously disclosed plans to create a holding company, as approved by the Montana PSC.
- NorthWestern Energy will be succeeded by NorthWestern Energy Group, Inc., while the company's ticker symbol "NWE" will remain unchanged.
- 8-K HERE

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Guggenheim takeaway: *Having a holding company should make certain aspects of financing easier for the company. We also note that simply having a holding company could make corporate acquisitions or divestitures easier as well.*

FE – OPC partially withdraws appeal of ALJ decision in Potomac Edison case

- The OPC withdrew part of its appeal of the ALJ's decision following the issuing of an errata by the ALJ, specifically to do with Appendix C, regarding depreciation rates.
- Recall that the ALJ recommended a 9.5% ROE, in line with Staff's 9.5% recommendation as well, and also accepted Staff's recommendation to adopt the utility's 53% requested equity ratio.
- A final order is scheduled to be issued on October 18th.
- Docket 9695

Guggenheim takeaway: *We note that modeling to a 9.5% ROE on 53% equity results in no change to FE's EPS vs. the utility's prior earnings parameters of a 9.65% ROE and 52.82% equity ratio, which we had been modeling previously. This is due to MD making up ~3% of FE's rate base.*

D – D warns on mini-tender offer

- "Dominion Energy does not endorse TRC Capital's unsolicited mini-tender offer and recommends that shareholders do not tender their shares. Dominion Energy is not associated in any way with TRC Capital, its mini-tender offer, or the mini-tender offer documentation." - D
- More HERE

Guggenheim takeaway: *Minor FYI.*

New York, NY

Company Information

Market Cap: $20.9bn

FirstEnergy Corp. (FE) engages in the generation, transmission, and distribution of electricity as well as energy management and other energy-related services through its subsidiaries. It operates through the following business segments: Regulated Distribution, Regulated Transmission, and Corporate or Other. The Regulated Distribution segment distributes electricity through FirstEnergy's utility operating companies, serving various customers. The Regulated Transmission segment transmits electricity through transmission facilities owned and operated by FirstEnergy's utilities. The Corporate or Other segment reflects corporate support and other costs not charged or attributable to the utilities or transmission companies. The company was founded in 1996 and is headquartered in Akron, OH. (Source: FactSet)

DISCLAIMER

Important Notices and Disclosures Please forward the language below to your Compliance team: Guggenheim Securities, LLC is providing notice to you and your firm's Compliance department that we have invited personnel from your firm to attend the above-referenced event. Attendees are advised that any information or materials discussed at the event or provided in connection therewith (the "materials") are provided for informational and educational purposes only and should not be considered a recommendation of any particular security, strategy or investment product, as investing advice of any kind, or as offering or providing any investment product or service, or as an offer or solicitation with respect to the purchase or sale of any investment by Guggenheim Securities, LLC or any of its affiliates ("Guggenheim"). The materials are not provided in an advisory or fiduciary capacity and may not be relied upon for or in connection with the making of investment decisions. The views expressed during the event and/or in the materials are solely those of the authors, participants, investment bankers and other presenters (collectively, the "Presenters") and may differ from the views of other officers, directors, employees or other representatives (as to any person or entity, its "Representatives") of Guggenheim or any other Presenter. The Presenters' opinions are subject to change without notice. Neither Guggenheim nor any other Presenter undertakes any obligation to provide additional information or any update to or correction of the information discussed or provided at the event or otherwise in connection therewith. Sources for the information discussed or contained in any materials are believed to be reliable, but the information is not guaranteed as to, and neither Guggenheim nor any other Presenter nor any of their respective Representatives make any representation or warranty regarding, accuracy or completeness of any information contained therein or otherwise. Neither Guggenheim nor any other Presenter nor any of their respective Representatives shall be liable to any person in any way whatsoever for any losses, costs or claims for reliance on the materials. Guggenheim and/or any other Presenter may have a business relationship with certain attendees and/or issuers mentioned during the event or in any materials provided, or may otherwise underwrite, hold a position, buy or sell as principal in the securities of any issuer mentioned. Guggenheim may have in the past provided, may currently be providing and may in the future seek to provide investment banking, financial advisory and other services to, and have other material relationships with, attendees and/or issuers of securities, loans and other financial instruments discussed during the event or referred to in any materials. With respect to any position Guggenheim or any Presenter may hold, Guggenheim or such Presenter may have interests different from or adverse to your interests. None of the materials provided may be reproduced or redistributed, in whole or in part, to any other person or published in whole or in part for any purpose absent the written consent of Guggenheim. By registering for and/or attending the event and/or accepting delivery of the materials, you will be deemed to acknowledge and agree to the matters set forth above. Copyright © 2023 by Guggenheim Securities, LLC, a FINRA registered broker-dealer. All rights reserved. Invitation is non-transferable.

This is a message from Guggenheim Securities, LLC to provide notice to you and your firm's compliance department that personnel from your firm are scheduled to attend the above-referenced meeting. The discussion will be general in nature and any mention of individual companies would only occur in the context of illustrating a trend or historical reference point. Our policies provide that specific companies, material non-public information and/or confidential information may not be discussed. The experts and/or speakers for this event may have material non-public information, but have agreed not to discuss such information. Further, all experts are required to review, understand our Expert Training Deck and agree to comply with its Terms and Conditions. Personnel from your firm must not seek Investor confidential information and/or material non-public information from Guggenheim Securities, LLC. Additionally, at your discretion, you may also choose not to attend the meeting.

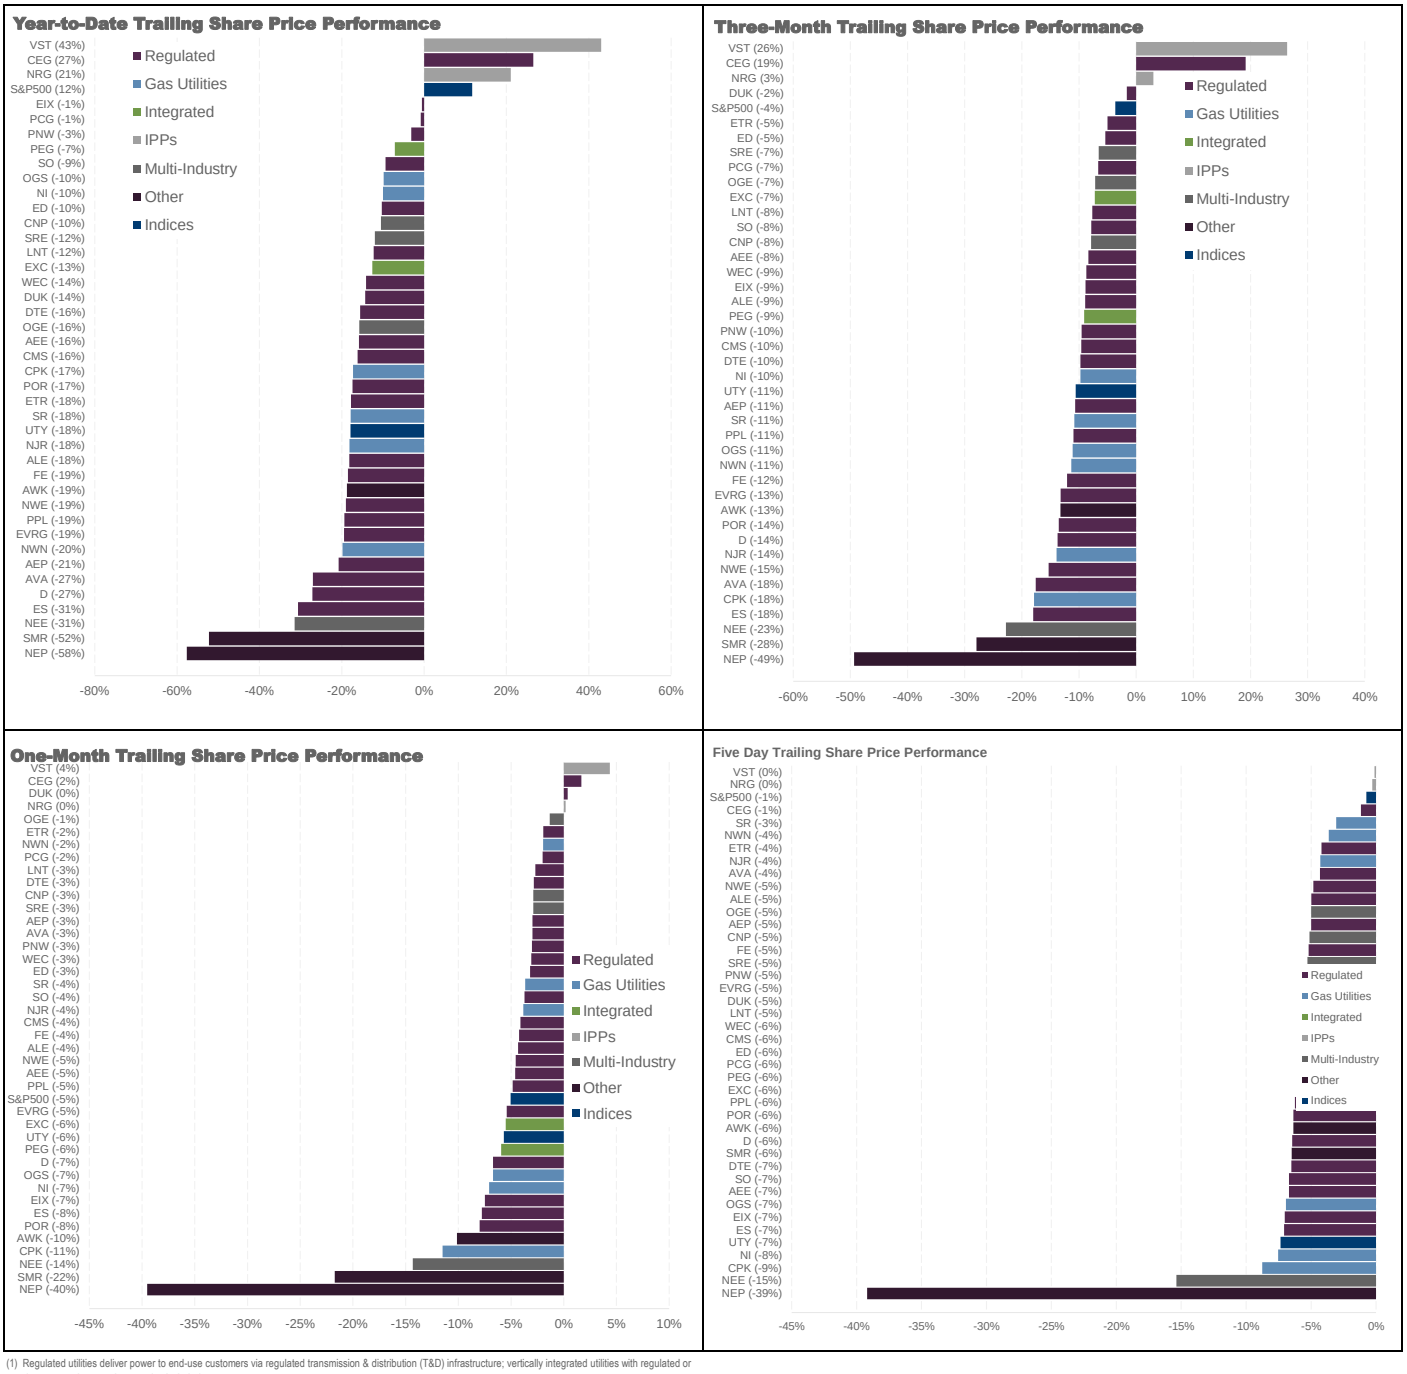
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

NEE/NEP: Day 2 Selloff Continues, NEP Price Warrants Reconsideration of Buy-in Thesis (see our note HERE)

Power/Gas: No Country for New Gas… (see our note HERE)

NEE – FL State Supreme Court remands FPL rate case settlement back to FPSC, finding the commission needed more justification in approval order

EIX – CPUC extends statutory deadline for 2022 CEMA application approval

EIX – CPUC extends statutory deadline for 2021 CEMA/WEMA application approval

OGE – OG&E and APSC staff proposes canceling hearing and submitting matters for determination for flexible resource approvals

EXC – EXC finalizes SEC settlement

PPL – RI PUC approves AMI program

D/VA – Former SCC commissioner returns to provide interim quorum

PJM – PJM Board details planned BRA/RPM changes

WEC – Hearing scheduled in limited re-opener docket

Power/Policy – House Energy, Climate, and Grid Security Subcommittee holds hearing with RTO heads

ERCOT – PUCT open meeting features lengthy discussion of reliability standard

Mexico – Supreme Court delays debate over AMLO energy policy

NEE – FL State Supreme Court remands FPL rate case settlement back to FPSC, finding the commission needed more justification in approval order

- FL Supreme Court issued a decision on the remand of the 2021 FPL rate case settlement.
- FLSC found that the order approving the settlement has not “supplied a basis for meaningful judicial review of its conclusion that the settlement agreement at issue provides a reasonable resolution of all issues raised”.
- The decision established that FPSC has authority to make such determinations, but the remand requires further argumentation from the commission.
- More in media here.
- Docket: 20210015

Guggenheim takeaway: *The remand decision from the FLSC is in line with our expectations (we caught up with the company shortly after the decision). The arguments before the FLSC were to determine FPSC authority over the matter and determine the basis for the order approving settlement. The order approving the settlement was short and did not include explicit justification for approval, but rather relied on prior case record. The FPSC*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

now has an opportunity to complete the order in alignment with statutory interpretation set by the FLSC. From a judicial process standpoint, DUK had a similar situation in FL last year, where the solar program was also remanded for additional record building, albeit on a slightly different issue (solar tariff related vs. scope modifications). The FPSC makes a solid argument for its approval in that the deviations in settlement from case record were on the size of the program and not in any structural change, and the same program has been approved without challenge in prior proceedings. Procedurally, this does cast some uncertainty around the settlement, but a remand puts the process back to the PSC, and provides an opportunity to address the limited issues around record and documentation vs. any sort of re-opening of the voluminous case record, of which there is no history (i.e., FPSC provides an avenue for record entry on contested issues and clarity around its decision making).

EIX – CPUC extends statutory deadline for 2022 CEMA application approval

- CPUC has issued an order extending the statutory deadline for the SCE 2022 CEMA application proceeding until April 1, 2024.
- The CEMA application is related to winter storms, heatwaves and fires in 2019-2020,
- Docket: A2203018

Guggenheim takeaway: *FYI. The push out of the proceeding into 2024 could potentially delay the recovery of funds into 2024 with modest cash and earnings impacts.*

EIX – CPUC extends statutory deadline for 2021 CEMA/WEMA application approval

- CPUC has previously issued an order extending the statutory deadline for the SCE 2021 CEMA application proceeding until January 31, 2024.
- The CEMA application is related to drought, firestorms, heatwaves, earthquakes and windstorms in 2018-2020,
- Docket: A2109019

Guggenheim takeaway: *FYI. The push out of the proceeding into 2024 could potentially delay the recovery of funds into 2024 with modest cash and earnings impacts.*

OGE – OG&E and APSC staff proposes canceling hearing and submitting matters for determination for flexible resource approvals

- Intervenors filed a joint motion to cancel hearings and submit the case for APSC determination in the flexible resource procurement proceeding.
- The proposed schedule includes an OGE requested an order date of November 30, 2023.
- APSC docket: 23-039-U
- OG&E previously filed an application for determination of need for 448MW of combustion turbines as part of the flexible RFP procurement result.
- OG&E's Horseshoe Lake Power Plant is the best alternative with a 448 MW capacity ($330M capital cost, $394M of total rate base) and an estimated in-service date of late 2026.
- The project will use GE7F Class hydrogen-capable combustion turbines.
- OG&E proposed a Generation Capacity Rider (GCR) for recovery of the costs associated with the Horseshoe Lake combustion turbines after the units are placed into service
- OCC docket: PUD2023-000038

Guggenheim takeaway: *FYI. As anticipated OGE is moving forward with the flexible resources procurement as mgmt. had previously put the solar procurement on reconsideration (now reiterated) to find better opportunities post IRA. OGE previously communicated that RFP outcomes are incremental to current plan, but would not increase capex in the current plan but shift some of the spending between years.*

EXC – EXC finalizes SEC settlement

- "Under the terms of the settlement, the Companies have agreed to pay a civil penalty of $46.2 million and to cease and desist from committing or causing any violations and any future violations of specified provisions of the federal securities laws and rules promulgated thereunder. Exelon recorded an accrual for the full amount of the penalty in the second quarter of 2023, which was reflected in Exelon's financial results reported in its Quarterly Report on Form 10-Q for the period ended June 30, 2023." - release
- 8K HERE

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

- SEC HERE

Guggenheim takeaway: *Minor FYI – the settlement is largely in line with the accrual reserved in 2Q, and management previously discussed this on the call.*

PPL – RI PUC approves AMI program

- The PUC approved the 3-year metering program alongside a $153M cost cap
- More HERE

Guggenheim takeaway: *Modest positive to see the program advance as investors continue to build comfort with the state and the commission itself. Per the company, the approval is largely in line with expectations. We continue to monitor.*

D/VA – Former SCC commissioner returns to provide interim quorum

- Judge Jimmy Dimitri was reportedly recalled to the commission to participate following Patricia West's departure
- More HERE

Guggenheim takeaway: *As we noted previously, the General Assembly recessed its special session but has not technically adjourned, which impedes the Governor's ability to advance interim appointments to the Commission. In the interim, Commissioner Dimitri can backfill the need for a quorum. In our view, this impasse is more of the same partisan politics that have prevailed for several years now, over both appointments and elections to the regulatory body, and is not representative of some new hostility towards the SCC itself or the utilities. While we remain on the lookout for the next data points regarding a longer-term solution (potentially after the election), we note that regardless D's case activity for the remainder of the year is relatively light.*

PJM – PJM Board details planned BRA/RPM changes

- In a lengthy letter the PJM Board has detailed its ongoing planned changes to the capacity construct under the ongoing CIFP effort
- The CP portion of the plans appear to include a stop-loss on penalties set at 1.5 x the BRA clearing price
- "The Board has directed PJM to file several changes to the Capacity Performance (CP) construct. In general, the Board continues to support strong performance incentives in the capacity market absent a stronger set of explicit requirements or a broader review of performance incentives in the energy and ancillary service markets that may allow more targeted performance incentives to be put in place. However, the Board also acknowledges the concern of many capacity market sellers regarding the level of risk associated with taking on a capacity commitment versus the annual revenues and the challenge some suppliers have voiced regarding the ability to express risk in capacity market offers." – PJM
- "The Board directs PJM to make the necessary changes to the MSOC to allow capacity market sellers to include their cost of risk in their offer even if their Net Avoidable Cost Rate (Net ACR) is zero or otherwise negative. The ability to express risk in offers is integral to ensuring the optimal set of resources are selected to provide capacity, and on its own is not an exertion of market power when those quantified risks are rooted in rigorous, reasonable analysis as is required by the current resource-specific process." - PJM
- The 2025/2026 DY auction would open 6/12/24 under the current plan
- More HERE

Guggenheim takeaway: *In totality the Board is building off of several proposals aired over the course of the CIFP, while appearing to acknowledge some of the technical shortcomings in the current design (MSOC). The changes come alongside a commitment to further evaluations (prompt design), and investors should take the process with a grain of salt – the BRA continues to lurch from reform to reform. As a reminder, our coverage universe is increasingly exposed more from a customer bill standpoint than a topline impact, with VST the remaining non-nuclear-PTC'd merchant exposure via its gas assets and the slowly shrinking Sunset segment.*

WEC – Hearing scheduled in limited re-opener docket

- A hearing has been scheduled for Wednesday, October 4th 10:00am.
- Recall that the 2024 limited re-opener being sought addresses recovery of new renewable facilities, RICE generation capacity, as well as LNG reliability investments which achieve

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

commercial operation in 2023 and 2024.

- The re-opener also addresses projected O&M savings from the planned retirement of two older coal-fueled units, while ROE and equity layer **will not be considered**.
- Docket 5-UR-110

Guggenheim takeaway: *For your calendar. Note that no formal action will be taken by the commission at this meeting.*

Power/Policy — House Energy, Climate, and Grid Security Subcommittee holds hearing with RTO heads

- Leadership from 7 of the nations RTOs testified before the subcommittee and answered lawmakers' questions on the health and outlook for the BES
- More HERE

Guggenheim takeaway: *The substance of the hearing appears to be somewhat educational for lawmakers, while also providing the RTO/ISOs with an outlet to express concern over the ongoing challenges of managing reliability in a changing resource environment – we continue to look for areas of bipartisan alignment, which could include permitting reform.*

ERCOT — PUCT open meeting features lengthy discussion of reliability standard

- The commissioners spoke at length on various scenarios for establishing the standard, including a significant amount of time on the degree to which the ISO should extrapolate potential policy driven retirements of coal
- "If you're going to imply EPA regulations are going to shutter 8,300 MW of coal, you have to take into account the absolute possibility that the voters will approve the money, and we'll have state-backed financing" – Chair McAdams via Platts
- "I fear that if we start subtracting massive amounts of megawatts out of the models due to hypothetical federal regulations which we are sure to litigate and go all the way to the US Supreme Court, which will take some time, I believe it will blow out the top of our models, unduly alarm the public, create a narrative that certain alternatives are better, and then we're left with nothing," - Chair McAdams via Platts
- More HERE

Guggenheim takeaway: *Heads up on the data points out of the open meeting, with the PUC's ongoing debate around the reliability standard a key part of the future establishment of the PCM.* ***See our very recent ERCOT gas note HERE for more detail****.*

Mexico — Supreme Court delays debate over AMLO energy policy

- The complaint from private developers was delayed by up to several months according to reports
- More HERE

Guggenheim takeaway: *FYI.*

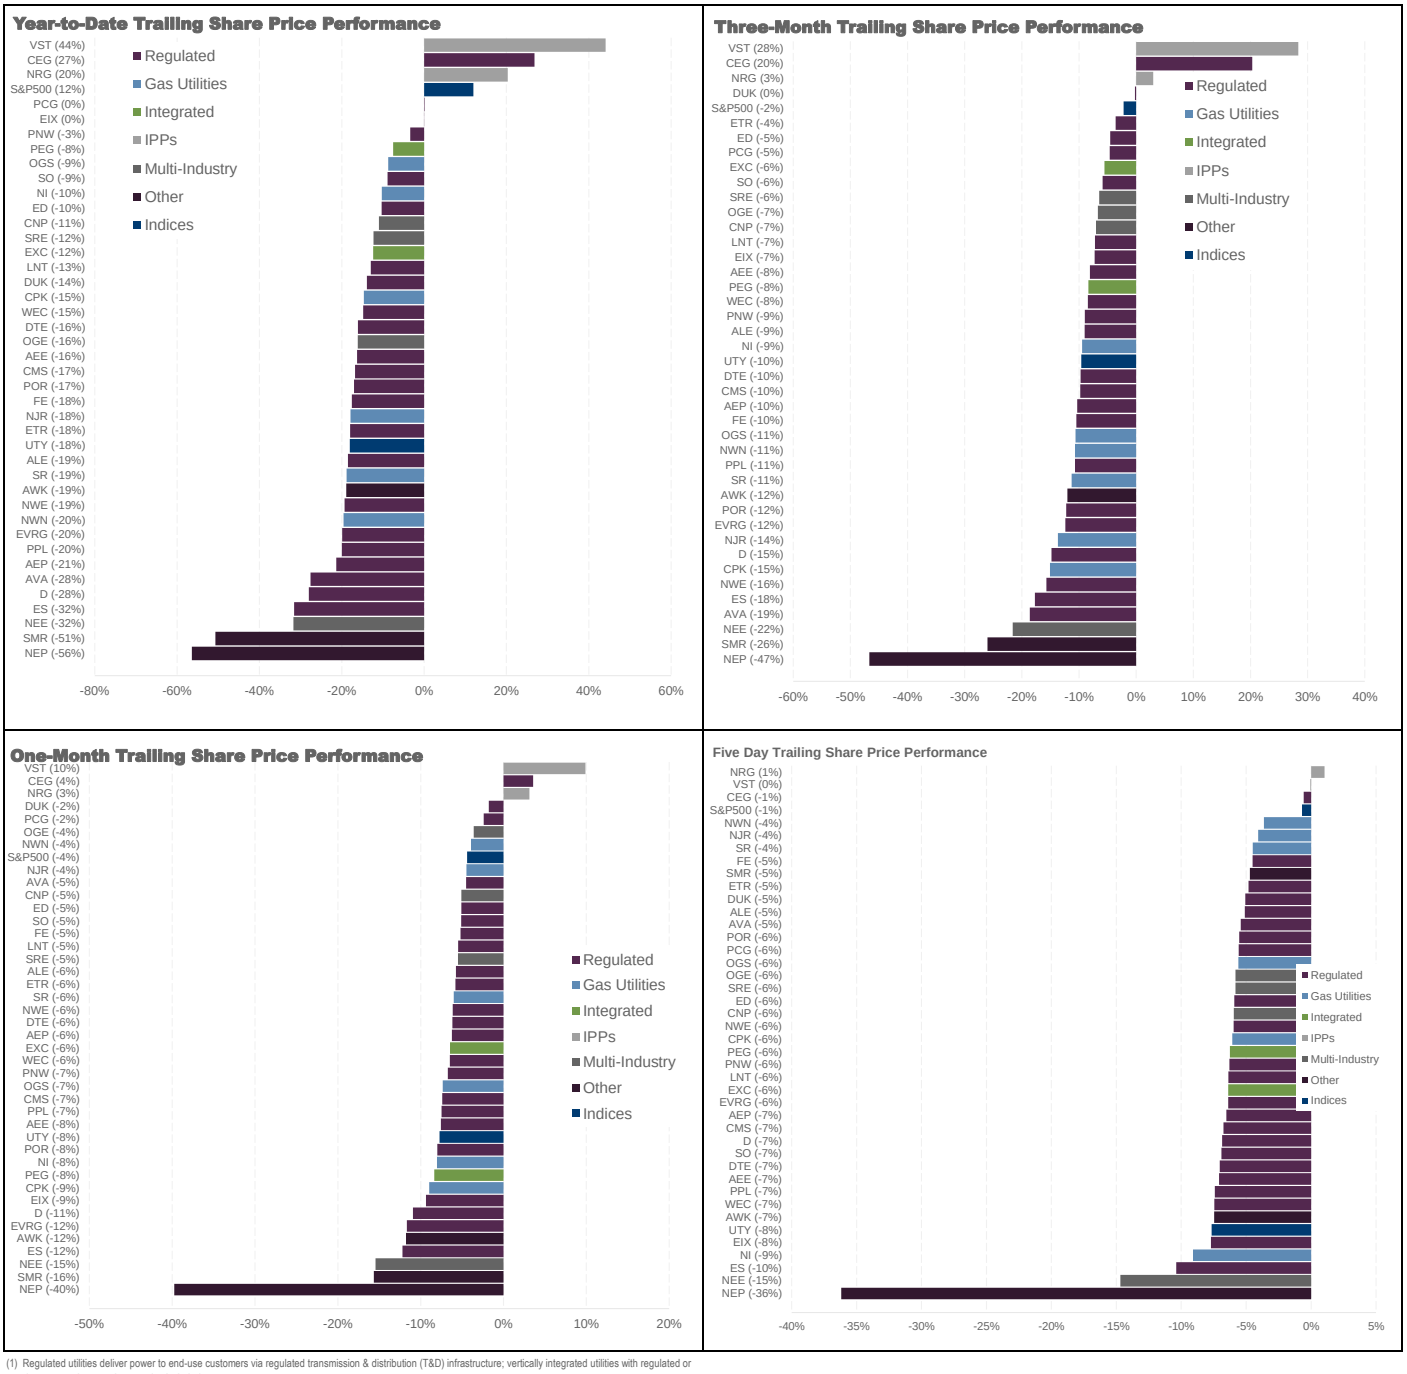
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

Power & Utilities

September 28, 2023

The Guggenheim Daily Transmission: NEE/NEP, Power/Gas, ETR, SRE, PPL/RI, ERCOT, EXC, AZ/ PNW, SO, NI

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our CEG NDR, NRG NDR, PEG NDR, NI NDR, FE CFO lunch, and other events, scroll down...

NEE/NEP: Cat's Out of the Bag – Capital Markets Weigh Heavy on NEP Growth, NEE Readthrough Too Punitive In Our View (see our note HERE)

Power/Gas: No Country for New Gas… (see our note HERE)

ETR – LPSC files request for rehearing in SERI complaint proceeding at FERC on sale-leaseback and ADIT refund treatment

SRE – SIP announces group president appointment for Tania Mena Otriz

PPL/RI – AMI decision possible at today's open meeting

ERCOT – PUCT to host open meeting

EXC – Reply briefs filed in ComEd MYP

AZ/PNW – Algonquin [TSX:AQN] (not covered) subsidiary's procedural schedule modified

SO – Local media coverage of EPA's coal ash pond recommendation

NI – Remarketing of mandatory convertible preferred stock postponed to November

ETR – LPSC files request for rehearing in SERI complaint proceeding at FERC on sale-leaseback and ADIT refund treatment

- LPSC filed a request for rehearing in the SERI complaint on sale leaseback and ADIT treatment.
- FERC previously issued a rehearing order in part modifying the Initial decision on the sale leaseback and ADIT portion of the SERI complaint (18-152).
- FERC order affirms the Initial decision in part, including siding with SERI on the ADIT calculations and provides a partial agreement with recognition of sale leaseback cost recovery.
- FERC commissioners dissented and concurred in part, especially noting the constitutionality challenges in the rehearing request.
- FERC Docket ER18-182 (available through search). MS Settlement here.
- Docket: EL20-72 / EL18-152 (through FERC search). Partial settlement found under 20-72.

Guggenheim takeaway: *FYI. The FERC outcome would result in no incremental refunds, while affirming the ADIT issue resolution and providing some clarity on the sale leaseback recovery (modest potential upside vs. initial order on depreciation portion of $90M in sale leaseback refunds, pending recalculated SERI filing). ETR does not see any challenges to the tax portions of the appeals so there is no more merit to the further challenges at FERC on this issue. Uncertain tax positions portion of the complaint has created some deadlock with FERC in terms of resources in the further SERI proceedings, so having clarity in this docket provides an opportunity to litigate or settle the other / final complaints around operational prudency (docket EL21-56). ETR has previously commented in multiple venues*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

on the progressive financial steps taken to include adverse outcomes at FERC into guidance explicitly and implicitly (i.e., within the range of equity needs scenarios, which have been resolved to near zero in the near term).

SRE – SIP announces group president appointment for Tania Mena Otriz

- Tania Ortiz Mena has been appointed president of Sempra Infrastructure.
- Ortiz Mena most recently served as group president of clean power and energy networks at Sempra Infrastructure.
- More here.

Guggenheim takeaway:*FYI. Mena Ortiz previously led IENOVA (SIP Mexico business lines).*

PPL/RI ─ AMI decision possible at today's open meeting

- "At this Open Meeting, the PUC will review the record and vote on the Company's AMF proposal. The Commission plans to discuss the matter in the morning and then recess before taking votes in the afternoon." – PUC
- The meeting will be streamed at 10AM HERE.
- More HERE

Guggenheim takeaway: *Heads up on the schedule, with the potential for a vote to drag into the afternoon per the latest filing.*

ERCOT ─ PUCT to host open meeting

- The ongoing work on the ERCOT reliability standard is on the docket, alongside the potential for other reliability and infrastructure conversations.
- More HERE

Guggenheim takeaway: *Minor FYI.*

EXC ─ Reply briefs filed in ComEd MYP

- Several reply briefs have been docketed in the ongoing MYP.
- "For the foregoing reasons, IIEC/CUB/CDC/PCR continue to oppose ComEd's request for an excessive ROE in each of the four years of the MYRP period, as well as the Company's proposed annual adder." - CUB
- More HERE

Guggenheim takeaway: *There are several non-focus intervenor filings in the docket as of the AM, however, we note that postings to the ICC website can lag the deadline by up to half a day, so stay tuned for additional potential filings. Our initial parse indicates positions remain largely unchanged — we continue to look for any potential readthrough from the forthcoming ALJ/proposed order due 10/23. IN the interim position statements will be due later today.*

AZ ─ Algonquin [TSX:AQN] (not covered) subsidiary's procedural schedule modified

- Opening briefs: November 2, 2023
- Responsive briefs: November 16, 2023
- Timeclock for a decision: extended until January 31, 2024
- Docket E-04204A-22-0251

Guggenheim takeaway: *While Tucson Electric's rate case result was the primary focus of investors watching to see what PNW's Arizona Public Service may have in store, we will also continue to monitor UNS' case as we gather a sense of the extent to which the regulatory regime in AZ has actually evolved.* ***For a recap of the event, we recently hosted with AZ's two newest commissioners, see our note "Arizona Regulation: Drawing a Line in the Sand? Not with this Commission — Continuing Our Deep Dive in the Desert with Commissioner Myers and Commissioner Thompson" (link HERE).***

SO ─ Local media coverage of regional environmental activists' comments to the EPA on Georgia coal ash ponds

- The activists are opposing Georgia Power's plans to cap in place four of the 10 ponds currently planned for that treatment.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

- 19 other ponds are planned to be excavated and removed.
- More HERE

Guggenheim takeaway: *Minor FYI.*

NI – Remarketing of mandatory convertible preferred stock postponed to November

- Due to market conditions, the company decided to postpone the remarketing of up to 862,500 shares of its Series C Mandatory Convertible Preferred Stock.
- The next remarketing period is expected to occur in November, the company stated.
- The preferreds were originally issued on April 19, 2021.
- 8-K HERE

Guggenheim takeaway: *Understandable given the pressure the group has been under as a whole.*

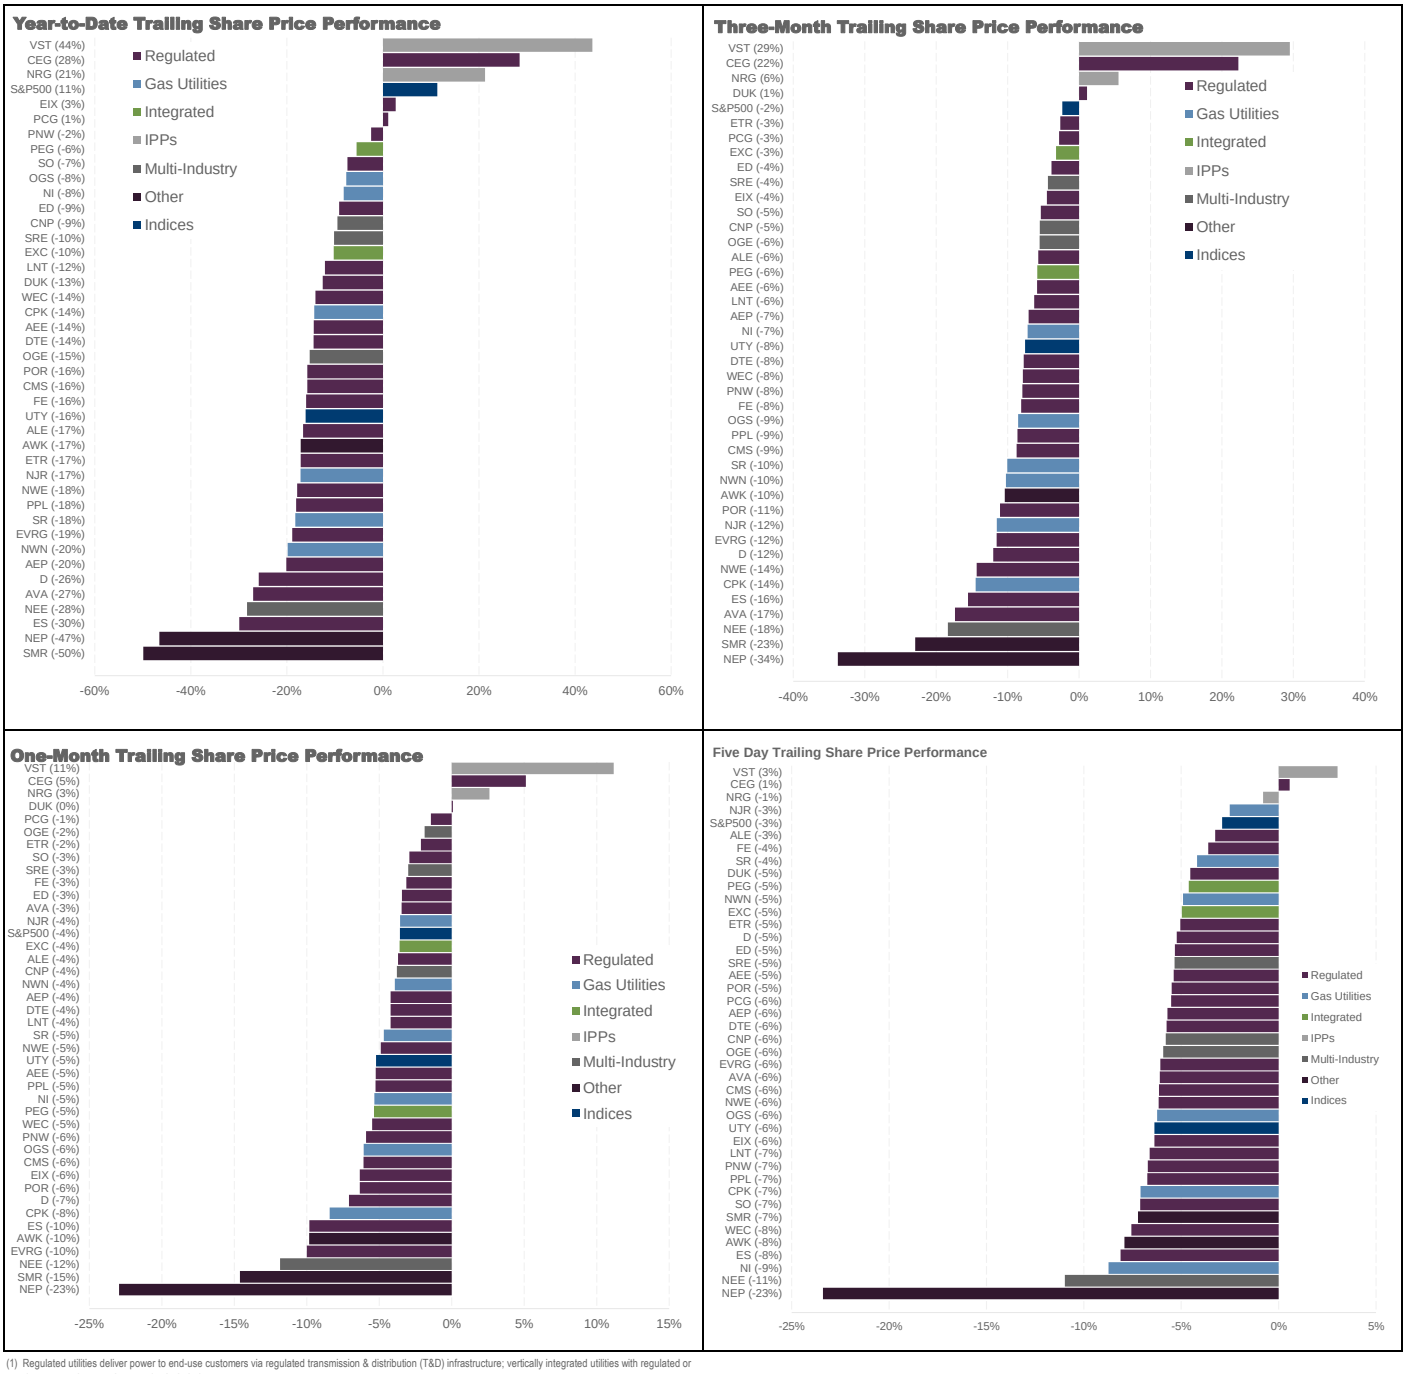
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

The Guggenheim Daily Transmission: AEE/MO, ETR, NEE/ED, SO, D, LNT, EXC, ERCOT

Please join us for our quarterly utilities investor roundtable in NJ TONIGHT.

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our CEG NDR, NRG NDR, PEG NDR, NI NDR, FE CFO lunch, and other events, scroll down...

Power/Gas: No Country for New Gas… (see our note HERE)

AEE/MO – 2023 IRP filed in MO featuring additional gas, storage

ETR – FERC approves procedural extension in Track 3 operational prudence complaint at FERC

NEE/ED – FERC approves temporary workspaces and minor relocations for MVP

SO – Southern Power acquires 150 MW South Cheyenne Solar Facility

D – BOEM issues final EIS for CVOW; preferred alternative draws media attention

LNT – WPL surrebuttal testimony docketed

EXC – ICC Staff file errata sheet for initial brief schedules

ERCOT – PUCT dockets priority implementation update ahead of open meetings

AEE/MO – 2023 IRP filed in MO featuring additional gas, storage

- The IRP was filed today in MO, featuring several overhauls to the pathways planned for least cost carbon emission reductions (still net zero by 2045)
- Coal changes data points include the retirement of Rush Island by 2024 and the extension of the Sioux retirement from 2030 to 2032
- The renewables investment by 2030 is +$1B vs, prior, with the 4.7GW target advanced to 2036 from 2040
- No change to gas retirement timelines vs. 2022 IRP (500MW by 2030)
- Gas additions now include an $800M CT facility by 2027 and a potential $1.7B CCGT by 2033
- 1.2GW of battery storage now proposed - $600M by 2030
- More HERE
- Release HERE
- Slides HERE

Guggenheim takeaway: *AEE's latest IRP lays out a robust incremental investment opportunity set through 2040, with several interesting pull forwards (e.g., renewables) in the next decade alongside a need for ongoing capacity via new NT gas additions. We see the updates as somewhat iterative to the 2022 IRP update vs. a wholesale departure (e.g., the 2020 to 2022 shifts), with management fully capitalizing on all available options to meet its portfolio goals. In our view the latest update continues to cement AEE's line of sight to a long runway of top tier rate base growth and maintaining the 6-8% EPS guide beyond our 2027 forecast window.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

ETR – FERC approves procedural extension in Track 3 operational prudence complaint at FERC

- FERC ALJ approved the procedural extension for Track 3 of the operational prudence complaint for SERI.
- SERI and the joint parties to the SERI complaint proceeding requested a ~9 month procedural schedule extension as intervenors are participating in other ETR related proceedings.
- The new schedule for Track 3 of the proceeding would hold hearings January 13, 2025 and target an initial decision deadline of July 28, 2025.
- SERI previously filed a supplemental brief showing precedent for operational prudence reviews not including operational issues after the complaint filing dates.
- SERI motions for the FERC not to include 2022 outages into the operational prudence reviews based on a North Carolina case.
- Docket: EL21-56 (through FERC search)

Guggenheim takeaway:*FYI. The procedural request would shift the proceeding into 2025 further extending the timeline for an outcome. While this will keep the overhang for SERI for longer, ETR has spread out potential changes in liability over a longer period of time and could help facilitate a settlement for immediate customer relief. This specific complaint relates to alleged imprudent operations and purchased power costs. Originally the complaint was quantified as retail regulators seeking damages of ~$360M for "imprudent operation" of the Grand Gulf nuclear plant between 2016 and 2020, and an investigation of the plant's management by System Energy Resources Inc. since 2012. The complainants also asked FERC to investigate the prudence of an $800 million capacity uprate of Grand Gulf in 2012, which they said led to overall decreased output from 2012 to 2020. The process so far has been reaching impasses in settlement talks and disputed on both procedural and scoping issues, but since FERC cleared the other complaint decisions and rehearing orders, operational prudence remains the last (and arguably the more difficult) complaint against SERI.*

NEE/ED – FERC approves temporary workspaces and minor relocations for MVP

- FERC approved more temporary workspaces and relocation of certain elements within disturbance limits for MVP.
- MVP also recently filed tariff adjustments for firm transport on the pipe which remains fully subscribed.
- US Supreme Court previously overturned a lower court stay on MVP construction activities that challenged the constitutionality of Congress approval.
- US SC lifted the stay on construction and MVP filed a notice with FERC on commencement of construction activities.
- After Congress passed a debt ceiling deal which expedited approval of new permits and removed the appeals option, MVP received all necessary permits including US Army Corps of Engineers.
- The project developer still anticipates a 2023 year-end completion.
- FERC Docket: CP16-10. / CP21-57

Guggenheim takeaway: *FYI. MVP had around 50 miles of pipeline construction that was stalled on contested lands that Congress cleared for construction. Temporary workspaces highlight the extensive ramp up in work progress to complete the project by year end. Both ED and NEE have taken major write downs on the MVP project (i.e., not in financial guidance) and would not include any upsides in near term plans. Longer term, the prospect of MVP completion could enable a strategic process (ED specifically mentioned and executed an exit from gas midstream over the past 2 years). At nominal cost the value of MVP is ~1-2% of market cap.*

SO – Southern Power acquires 150 MW South Cheyenne Solar Facility

- Located in Wyoming, the acquisition constitutes Southern Power's 30th solar project.
- Construction is well underway, with the project expected to reach COD in 1Q24.
- More HERE

Guggenheim Takeaway:*This acquisition follows on the heels of last week's 200 MW Millers Branch solar project. Both are incremental to SO's existing $43bn capex plan. We estimate that the two projects will contribute ~$0.02 of EPS once both are complete.*

D – BOEM issues final EIS for CVOW; preferred alternative draws media attention

- BOEM made the final EIS available yesterday, alongside an affirmation of the pricing and schedule by Dominion
- Media has also profiled the inclusion in the EIS of several alternatives from BOEM, including an alternative that would be 400MW smaller (2.6GW) to accommodate the Fish Haven Area
- "CEQ NEPA implementing regulations require the identification of a preferred alternative in the Final EIS." - BOEM
- More HERE

Guggenheim takeaway: *Part of the process for the project and good to see the ongoing affirmation of the pricing/schedule by D. While the alternatives included in the EIS may seem different, we see that as a specific part of the formal process – not an indication of some sort of pushback.*

LNT – WPL surrebuttal testimony docketed

- Several parties have filed surrebuttal testimony in the ongoing GRC
- Staff continue to recommend a 9.7% ROE
- "The net effect of these corrections does increase the lower-bound of my average reasonableness range and midpoint but does not change my ROE recommendation… an ROE recommendation of 9.70 percent was chosen in this proceeding under the tenant of gradualism" - PSCW Staff
- More HERE

Guggenheim takeaway: *Heads up on the voluminous filings, which we continue to parse ahead of a hearing tomorrow and additional briefs late next week. The bid-ask on the case remains relatively narrow in our view, and we note multiple investors have asked in recent weeks whether a settlement could be forthcoming, which we believe is quite possible. In totality this case continues to reduce our focus on WI as a jurisdiction of concern and reinforce the focus on 'gradualism' at the PSCW = stay tuned for additional data points (e.g., settlement) in the coming days).*

EXC – ICC Staff file errata sheet for initial brief schedules

- Staff filed an updated schedule 12 to account for surrebuttal testimony alongside a re-run of supporting schedules/appendices
- "Concurrent with filing this Errata Sheet, Staff will file corrected Appendices to Staff's Initial Brief, and include the corrected Schedule 12 in the Corrected Appendix A to Staff's Initial Brief. Due to the flow-through nature of the schedule, and in the interest of a clear record, Staff also provides a Corrected Summary – Attachment, Corrected Appendix B, Corrected Appendix C, and Corrected Appendix D, with all schedules." - filing
- More HERE

Guggenheim takeaway: *Flagged for your awareness*

ERCOT – PUCT dockets priority implementation update ahead of open meetings

- The memo features a quick summary of ongoing policy priorities for the PUCT, including items like the ancillary services updates under HB1500
- The PUCT will consider ongoing work on the reliably standard at this Thursday's open meeting (9/28), alongside a workshop on EE today
- More HERE

Guggenheim takeaway: *Minor FYI as we continue to monitor several ongoing items at ERCOT – see our most recent gas note HERE for more on the policy backdrop.*

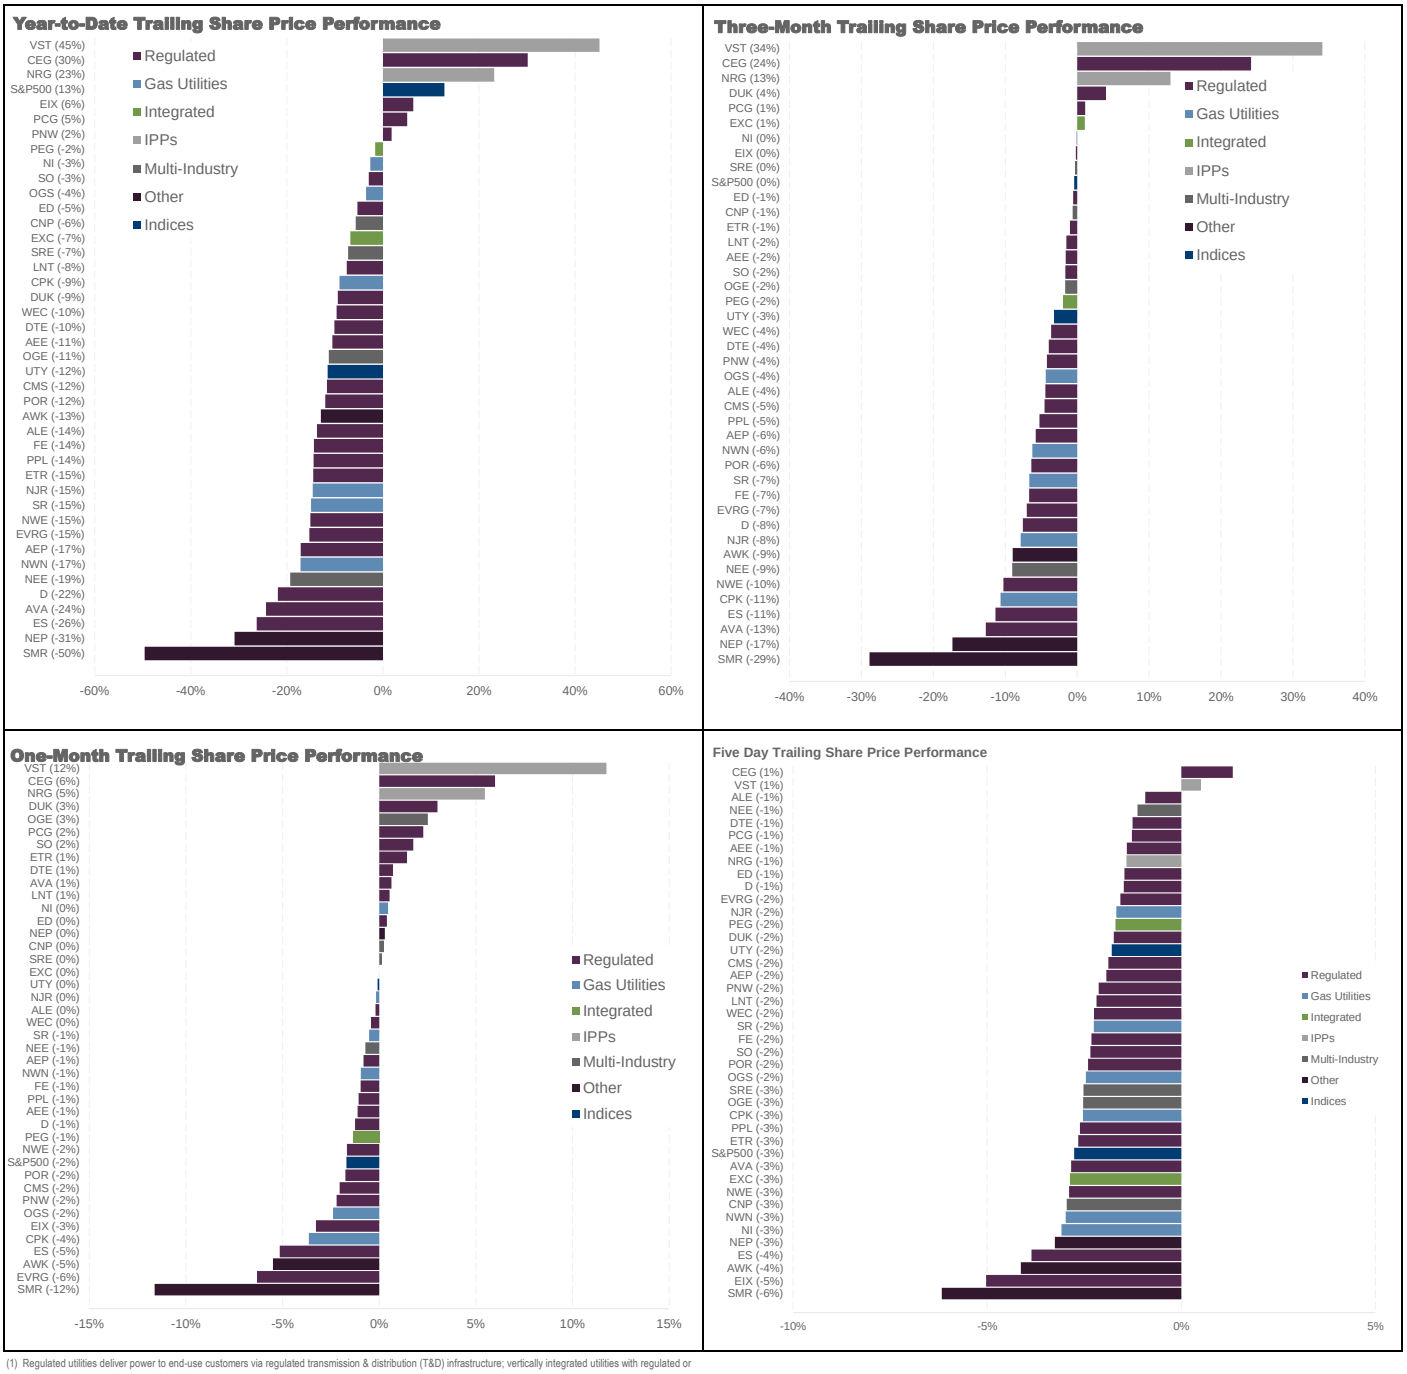
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

Alert

September 25, 2023

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: AEE, AVA, WEC, XEL, EXC, FE, ED, SO, D, EIX, SRE

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, we are tracking proceedings in AEE's gas rate case in IL, AVA's natural gas IRP in OR, WEC's limited reopener rate cases in WI, XEL's WI rate cases, EXC's IL electric rate case, EXC's DE electric rate case, FE's electric rate case in NJ, and ED's stream rate case. In other news, PSCO files Phase 2 of its Clean Energy Plan; the IL ALJ issues a proposed order in SO's Northern IL gas rate case; the SC PSC approves new rates in D's SC natural gas rate case; parties file briefs to the ALJ proposed order in Potomac Edison's MD electric rate case; the SCC approves Phase III of D's Grid Transformation Plan; EIX releases a new paper to meet CA's 2045 net-zero goal; WA votes to revamp building electrification mandates; SRE receives FERC permit for Port Arthur Phase 2; XEL announces receipt of up to a $70M grant for long-duration storage, and D files a long-duration storage pilot with the SCC. ***Don't miss our schedule of meetings at the EEI this fall and contact us to join the meetings.***

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Please scroll down for our full schedule, including dinners with **DTE** and **AGR**, and contact us or your KBCM sales representative to schedule meetings.

Regulatory Calendar

AEE — A PD in AEE's IL gas rate case is due on September 26: In the draft order, AEE suggested a $72M rate increase, premised on a 54% equity layer, 10.3% ROE, and a rate base of $2.894B using a 2024 test year, vs. Staff's suggestion for a $51M revenue increase, premised on a 9.89% ROE, 50% equity, and a $2.893B rate base. AEE initially requested an $84M revenue increase on a 10.7% ROE. AEE expects an ICC ruling within the 11-month statutory timeframe or by November 29, with rates going into effect on January 1, 2024.

AVA — Company reply comments on AVA's OR natural gas IRP are due on September 26: AVA filed a presentation of its 2023 natural gas IRP, highlighting the Company's preferred resource strategy to meet the expected 0.9% average annual growth through 2045. AVA's OR resource options include a combination of RNG, wastewater treatment plants, EE, community climate investments, and conventional natural gas to meet forecasted demand. AVA could add synthetic methane in the 2030s. AVA filed the IRP with the ID, OR, and WA utility commissions. AVA's filing includes strategies to comply with OR's Climate Protection Program and WA's Climate Commitment Act while meeting forecasted demand. Across the portfolio strategies, AVA will rely heavily on procuring natural gas and energy efficiency. AVA is required to file a natural gas IRP with the OPUC, WUTC, and IPUC every two years.

WEC — Rebuttal testimony in WEC's limited reopener WI cases is due on September 26: Staff recommended a cumulative $76M net revenue increase ($35M WEPCO-E, $21M WEPCO-G, $20M WG), compared to WEC's $90M revenue request ($44M WEPCO-E, $24M WEPCO-G, $22M WG). Staff and WEC's calculations exclude fuel recovery costs of $42M and $40M, respectively. The disallowance of certain costs associated with West Riverside 2 and Badger Hollow II are the main drivers of the difference, while O&M related to Bluff Creek and Ixonia also drive some difference. WEC filed the reopener to recover capital investments for projects achieving commercial operations in 2023 and 2024, and to incorporate projected O&M savings from the planned retirement of coal units. A WI PSC decision is expected in 4Q23, with new rates effective January 1, 2024.

XEL — Revised testimony in the NSP-WI electric and gas rate cases is due on September 27: XEL has adopted eight of the 13 adjustments that Staff proposed, including the $11M adjustment in the electric rate case to reflect the extended life of the Monticello nuclear facility and several wind facilities (which were the main areas of difference between XEL and Staff testimonies). XEL opposed five of the Staff proposed adjustments, including the ROE, AIP costs, RAP expenses, fuel adjustments, and MISO charges. Cumulatively, these adjustments lowered the electric and gas revenue deficiencies by $27M and $3M, respectively. This implies that XEL updated its request to $24M and $8M for electric and gas, respectively (vs. its original ask of $40M and $9M, respectively, premised on 10.25% ROE and 52.5% equity). Staff recommended an electric rate decrease of $3M when including fuel and purchased power adjustments and a natural gas rate increase of $5M based on an ROE of 9.7% and an equity ratio of 52.5% (Docket: 4220-UR-126).

EXC — A draft order in EXC's IL electric rate case is due on September 28: In briefs, EXC updated its request to a $1,494M revenue increase over the 2024-2027 period while proposing to phase in the rate increases to even out expected y/y impacts. EXC's request is premised on gradual increases in its ROE (10.5-10.65%) and equity layers (50.58-51.19%) through the four years. Staff filed briefs recommending a $1,104M revenue increase over 2024-2027. This compares to its prior recommendation for a $1,076M revenue increase (Docket: 23-0055). Staff continues to make its case for an 8.91% ROE, or 580 bps over the 2022 U.S. Treasury Bond yield of 3.114%. EXC has argued that this is no longer applicable since that option existed only under the IL Energy Infrastructure Modernization Act. The act expired at the end of 2022, and the provisions of the CEJA require that the ROE be determined under current commission law. Staff calculated ROE midpoints of 9.23% and 10.87% in its analysis using the traditional DCF and CAPM methods, respectively. Staff also proposes a 50% equity ratio. A proposed order is due October 23. The ICC has until December 20 to issue a final decision.

EXC — Rebuttal testimony in EXC's DE electric rate case is due on September 29: Staff recommended a $36M revenue increase, premised on a 9.38% ROE and 50.5% equity. This compares to EXC's supplemental testimony with updated data through 1H23 requesting a $56M (net $42M) revenue increase, premised on a 10.5% ROE and 55.5% equity. The primary drivers of the delta are the lower O&M, Staff's use of an average-rate base method (vs. EXC year-end RB), and lower O&M costs. The Division of the Public Advocate recommended a revenue increase of $29M ($16M net), using a 9.1% ROE and 46.4% equity. EXC and the DPA's net revenue increase excludes $14M for the DSIC rider. EXC plans to file supplemental testimony to incorporate 12 months of actual data on September 29. A final order is expected in April 2024. EXC has interim rates of $56M that went into effect in mid-July.

FE — Intervenor testimony in JCP&L's electric rate case is due on September 29: FE subsidiary Jersey Central Power and Light Co. filed supplemental testimony (Docket: ER23030144) with the NJ BPU largely maintaining its revenue recommendation at ~$192M and above the $185M revenue increase requested in March. The supplemental testimony reflects actuals through the June 30, 2023, test year and incorporates certain revenue classification changes. A NJ BPU final decision is expected in 1Q24. In the last rate case, JCP&L was authorized a $94M revenue increase, 9.6% ROE, and 51.44% equity.

ED — Reply statements on the settlement in ED's CECONY steam rate case are due on September 29: Staff offered a statement in support of the Joint Proposal agreeing to a three-year rate plan beginning in November 2023 with a levelized revenue increase of $77.8M in each of RY1-RY3. The JP proposes a 9.25% ROE and a 48% equity layer and includes an ESM where customers will share earnings in excess of 9.75%. The settlement also includes a weather normalization adjustment and reflects roughly $105M of capex each year during the rate plan. The settlement compared to Staff's recommended $94M revenue increase, premised on a 9% ROE and 48% equity, and ED's $141M revenue request, 10% ROE, and 50% equity layer. Prehearing submissions will also be filed on September 29, followed by evidentiary hearings beginning on October 11.

Recent Developments for Companies Under Our Coverage

From our midweek: The VA General Assembly recesses without filling vacancies at the VA SCC; the VA ALJ proposes the SCC adopts APCo's VA triennial settlement; DUK reaches a settlement in Piedmont make-whole gas rate case; XEL requests to suspend the procedural schedule in its TX electric rate case as settlement discussions progress; AVA requests approval of $2.1M tariff filing in AK electric rate case; CMS lowers its request in electric rate case in rebuttal testimony; and ES announces Paul Chodak as COO.

XEL — PSCO files Phase 2 of the Clean Energy Plan with the CO PUC: PSCO filed the second phase of its Clean Energy Plan (Docket: 21A-0141E) with the CO PSC. PSCO proposed 22 projects totaling 7.2 GW of generation, including 3.4 GW of wind, 2.0 GW of solar, 1.2 GW of storage, and 628 MW of natural gas to ensure reliability. The new generation would be a mixture of company-owned resources and PPAs, with XEL owning ~67% of the new capacity, including 2.5 GW of wind, 1.1 GW of solar, and 500 MW of storage. If approved, XEL expects to invest $7.9B in generation resources and $2.9B in transmission. The preferred plan aims to reduce carbon emissions by more than 80% by 2030 from 2005 levels and retire its coal fleet by 2030. XEL expects to utilize ~$10B in tax credits under the IRA to offset costs. The projects would be built between 2026-2029. A PUC decision on Phase 2 is expected in 4Q23.

SO — ALJ issues proposed order in SO's Northern IL gas rate case: The ALJ issued a proposed order recommending a $250M revenue increase, premised on a 9.89% ROE, 50% equity, and a $6B rate base using a 2024 test year. The order adopts the ICC's previous order to remove $32M of QIP-related investment from the rate base, for which Nicor requested a rehearing, but the ICC denied. The ALJ also removed $112M of claimed pension assets from rate base**.** The proposed order compares to Nicor Gas's $317M revenue increase request, premised on a 10.3% ROE, 54.5% equity, $6.158B rate base, and the ICC Staff's $254M revenue deficiency, premised on 9.89% ROE/50% equity, $6.07B rate base. Parties will file exceptions by October 6; an ICC final decision is due November 28.

D — SC PSC approves new rates in D's SC natural gas rate case: The SC PSC voted to adopt the settlement for a net $9M revenue increase ($5M decrease), premised on a 9.49% ROE, 54.78% equity, and a $1.1B rate base as of September 30, 2022. The difference accounts for a $5M decrease in base rates but a $14M increase in the cost of gas revenues. The settlement compares to Staff's net $5M recommendation (-$9M) and D's net $19M revenue request ($5M). A final order is expected in the first week of October, with new rates going into effect shortly after that. Per the terms of the settlement, D will not file its next GRC before April 1, 2026.

Sophie Karp
(917) 368-2361 / sophie.karp@key.com

FE — Parties file briefs to the ALJ proposed order in Potomac Edison's MD electric rate case: In a memorandum of appeals, FE argues that the ALJ deviated from precedent in its decision to reject the extension of the EDIS II program, post-test-year reliability investments, and exclusion of the recovery of monetary awards for employees from FE's COVID-19 regulatory asset. FE argues that the programs associated with EDIS meet all the criteria for a surcharge recovery. The OPC challenged the recovery of affiliate service costs and the costs related to misconduct litigation by FE's OH subsidiaries. Staff requested a clarification on the depreciation study to determine what date the study is based on (6/30/22 vs. 12/31/22) and what depreciation rate to use. The ALJ's proposed order recommended a $30M revenue increase, premised on a 9.5% ROE and 53% equity. The proposal removed all spending related to post-test-year reliability projects and the associated depreciation, resulting in a $694M rate base at the end of 2022. The ALJ also recommended the denial of Phase II of the electric distribution investment surcharge (EDIS). FE requested the second phase to support three reliability programs: underground cable replacement, substation reclosers, and distribution automation. The ALJ order aligned with the Staff's recommendation for a $29M revenue increase, using a 9.5% ROE and 53% equity. FE's latest request was for a $50M revenue increase premised on a 10.6% ROE, 53.53% equity layer, and a $719M rate base. Replies to the appeals are due September 27, and a MD PSC final decision is expected by October 18.

D — SCC approves Phase III of Grid Transformation Plan: The VA SCC issued an order authorizing D's Phase III of its Grid Transformation plan for projects entering service between 2024-2026. The SCC capped D's spend at $824M and $58.6M of expenses for the three years. The program approves D to invest in programs including AMI deployment, vegetation management, voltage optimization, substation technology deployment, and telecommunications build-outs. The SCC approved D to only spend $183M on its main feeder hardening program compared to its $508M ask. The SCC noted that D failed to demonstrate that the program met the benchmark for reduction in outage minutes during its pilot years. D requested $1.1B in capital investment and $71M in operating expenses for 2024-2026. The Grid Transformation plan is a 10-year plan that D files with the SCC, developed with the 2018 Grid Transformation and Security Act. D recovers the cost through the Rider GT.

EIX — EIX releases new paper to meet 2045 net-zero goal: EIX released its Countdown to 2045 white paper, highlighting the requirements to meet the State's 2045 net-zero target. According to EIX, CA needs to update its planning, policy, and technologies to achieve the net-zero goals, including adding 90 GW of utility-scale clean generation, 25 GW of utility-scale storage, and 15 GW of BTM solar and storage. The total investment needed is estimated at $370B for the clean-energy investments and the required T&D needed to support the grid and the new resources. EIX expects electricity demand to grow by 80% by 2045, driven by EV adoption reaching 90% of all vehicles and the electrification of 95% of the buildings in the state. Meeting the goals will require new technologies, including offshore wind, clean hydrogen, carbon capture, and vehicle-to-grid connectivity. The Countdown to 20245 white paper was an update to SCE's 2019 Pathway to 2045 study.

AVA — WA votes to revamp building electrification mandates: In response to legal challenges against electric heating mandates, the Washington State Building Council has voted 10-2 to advance proposed changes to its building code. The changes would heavily discourage the use of natural gas in new construction, driven by the state's goal of reducing annual net energy consumption in buildings by 70% in 2031. While the electric heating mandates were initially intended to help achieve this goal, a U.S. appeals court decision challenged their legality. Under the new proposals, gas appliances would be allowed, but builders will face additional efficiency requirements, particularly in residential construction, to compensate for their lower energy efficiency compared to heat pumps. The Council's approach could potentially be a template for other states and cities looking to reduce gas use in new construction. WA was the first state to approve an electrification mandate into its statewide energy code, which aligns with state law and requires the council to adopt energy codes that reduce annual net energy consumption in buildings by 70% from 2006 levels by 2031.

SRE — SRE receives FERC permits for Port Arthur Phase 2: FERC approved the expansion of Port Arthur Phase 2. The project expects to add 6-13 MTPA, consisting of two LNG trains, storage, a marine berth, and related infrastructure. Phase 2 remains in the development stages, and SRE continues to lock in offtake agreements. SRE received an HOA from INEOS for 0.2 MTPA of LNG. SRE previously received FID for Port Arthur Phase 1 in March. SRE expects commercial operation for Phase 1 in 2027 and 2028 for Trains 1 and 2, respectively.

XEL — XEL announces receipt of up to a $70M grant for LDES: XEL announced that it will receive a grant for up to $70M from the DOE to partially fund two 10 MW multi-day storage projects through a partnership with Form Energy. XEL and Form announced the partnership in January to deploy iron-air LDES systems capable of storing electricity for 100 hours, making it suitable for grid-scale applications. XEL will deploy the systems at the retiring Sherburne County and Comanche Station coal sites. XEL has received MN PUC approval and expects CO PUC regulatory approval later this year. The systems are expected to come online as early as 2025 and will help XEL meet the last 15-20% of its clean-energy targets. The $70M grant will be combined with a $20M grant XEL previously received from Bill Gates's Breakthrough Energy Ventures.

D — D files long-duration storage pilot with the SCC: D filed a pilot with the SCC to install 8.94 MW of long-duration energy storage at the existing Darbytown Power Station. The pilot includes two alternative technologies to lithium-ion batteries: Form Energy's iron-air batteries and Eos Energy's zinc-hybrid batteries. The Form and Eos projects would be 4.94 MW and 4 MW, respectively. If approved, D would begin construction by 2024, with the projects operational by the end of 2026.

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC ("KBCMI"), and KeyBank National Association ("KeyBank N.A."), are marketed.

KeyBanc Capital Markets Inc. ("KBCMI") does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst's compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. This communication is intended solely for use by KBCMI clients. The recipient agrees not to forward or copy the information to any other person without the express written consent of KBCMI.

KBCM Research LLC ("KeyBanc Capital Markets Research"), an SEC registered investment advisor, is a wholly owned subsidiary of KeyBanc Capital Markets Inc. KeyBanc Capital Markets Research provides objective and sophisticated **Research Services**, primarily in the form of published Research Reports, to an institutional client base in exchange for a cash fee. KBCM Research does not provide particularized investment advice with regard to any specific institutional client, on the basis of specific sector or company requests from a client. Our advisory relationship with our clients is strictly limited to the provision of **Research Services**, which are not to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. Additional information about KBCM Research LLC also is available on the SEC's Investment Adviser Public Disclosure (IAPD) website.

The Guggenheim Daily Transmission: SR, EIX/PCG/ SRE, ETR, NC/DUK, EXC/PJM/MD, POR, CMS

Please join us for our quarterly utilities investor roundtables in NYC on Sept. 25th, and NJ on Sept. 26th, both invite details below.

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our CEG NDR, NRG NDR, PEG NDR, NI NDR, and other events, scroll down...

SR – Steve Lindsey announced as incoming President and CEO

EIX/PCG/SRE – CPUC issues ruling on phase 2 of the 2022 cost of capital proceeding

ETR – FERC ALJ sets oral argument on motion to compel in operational prudence complaint at FERC

NC/DUK – House of Representatives places pro-nuclear bill on calendar for vote today

EXC/PJM/MD – Maryland PSC and OPC file protests at FERC over Brandon Shores transmission need

POR – GRC schedule slightly tweaked as POR indicates additional settlements potentially forthcoming

CMS – CMS announces expansion of voluntary renewables programs in MI

SR – Steve Lindsey announced as incoming President and CEO

- Mr. Lindsey will become Spire's new President and CEO effective October 1, 2023.
- Most recently, he has served as EVP and Chief Operating Officer for the company.
- Mr. Lindsey has also been appointed to the Board of Directors.
- More HERE

Guggenheim takeaway: *We see Mr. Lindsey as a strong choice given his utility pedigree (he spent 23 years at AGL Resources, most recently at Atlanta Gas Light, Chattanooga Gas and Florida City Gas, as well as a senior vice president of southern operations for AGL Resources. In our view, this operational expertise likely comes with many regulatory lessons learned and relationship building skills acquired.* ***As we wrote in our most recent SR note (link HERE)****, we see the changing of the guard at SR as a potential opportunity for an even more complete regulatory refresh following the pressures the company faced in Missouri (its largest jurisdiction) after a difficult final rate case order put the company on the defensive for most of the following year as it tried to regain its course. As a reminder, although the black box settlement which Spire Missouri obtained in its most recent rate case seemed constructive to us, it* ***would never have been required*** *if the utility had not been forced to refile another rate case so quickly after its last one due to the surprisingly poor result obtained in the preceding case.*

EIX/PCG/SRE – CPUC issues ruling on phase 2 of the 2022 cost of capital proceeding

- The CPUC posted a ruling on scope and schedule for the phase 2 of the 2022 cost of capital proceeding.
- Issues in phase 2 include:
  - The timing of the filing of subsequent cost of capital applications,
  - Whether a blended return on equity should be authorized for combined service gas

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

and electric investor-owned utilities for future cost of capital cycle applications, and
  - Whether other policy modifications should be ordered with regard to future cost of capital application cycles.
- Opening testimony is due by mid-November, Opening Briefs filed by early February 2024 and proceeding submitted after reply briefs.
- Docket: A2204008 et al

Guggenheim takeaway: *FYI. Phase 2 of the proceeding is limited in scope and separate from the potential CCM trigger at the end of the current remeasurement period in October. Currently, the CCM is set to trigger and EIX, PCG, and SRE have all indicated a level of intent to follow the regulatory process for an upwards adjustment.*

ETR – FERC ALJ sets oral argument on motion to compel in operational prudence complaint at FERC

- FERC ALJ scheduled an oral argument for September 28, 2023 on the motion to compel data requests in the SERI operational prudence proceeding.
- SERI previously filed a supplemental brief showing precedent for operational prudence reviews not including operational issues after the complaint filing dates.
- SERI motions for the FERC not to include 2022 outages into the operational prudence reviews based on a North Carolina case.
- Docket: EL21-56 (through FERC search)

Guggenheim takeaway:*FYI. Another step in the litigation back and forth on the SERI complaint case. This specific complaint relates to alleged imprudent operations and purchased power costs. Originally the complaint was quantified as retail regulators seeking damages of ~$360M for "imprudent operation" of the Grand Gulf nuclear plant between 2016 and 2020, and an investigation of the plant's management by System Energy Resources Inc. since 2012. The complainants also asked FERC to investigate the prudence of an $800 million capacity uprate of Grand Gulf in 2012, which they said led to overall decreased output from 2012 to 2020. The process so far has been reaching impasse in settlement talks and disputed on both procedural and scoping issues, but since FERC cleared the other complaint decisions and rehearing orders, operational prudence remains the last (and arguably the more difficult) complaint against SERI.*

EXC/PJM/MD – Maryland PSC and OPC file protests at FERC over Brandon Shores transmission need

- The state entities have taken issue with the award of roughly ~$785M in transmission work to EXC and the RTO's overall planning process for the retirement.
- "The Maryland PSC requests FERC find this applicable portion of the PJM filing to be deficient and to direct PJM to conduct its reliability assessment and transmission upgrade approval process in a more holistic manner and with consideration of state policies and jurisdiction." - PSC
- PSC filing HERE
- More HERE

Guggenheim takeaway: *Heads up on the filings at FERC, with this particular project a point of interest of ours on the 2Q23 call (see our note HERE) and one that we spoke with the company at length on during and after the update. Based on our conversations, the scale of the need here is unique to the constraints and topology of the plant's location within PJM and should not be directly extrapolated to any views on other future retirements. For example, management noted that the spend associated with Indian River in Delmarva was several orders of magnitude smaller. Still, we remain on the lookout for other opportunities given the significant resource turnover across both MAAC and COMED. For more from PJM – see HERE. With regard to the protests – we do not have a strong view on the merits of the state's concerns given PJM followed its own RTEP process, however, we acknowledge that the scale and potential allocation of costs here makes the situation somewhat unique.*

POR – GRC schedule slightly tweaked as POR indicates additional settlements potentially forthcoming

- The deadline for cross-examination statements was moved one day to today (9/21) as PGE indicates settlements remain ongoing.
- "The allowance for AUT revisions outside of a GRC was resolved by the parties and will be included in a forthcoming partial stipulation. PGE hopes to submit all outstanding partial stipulations and supporting testimony for Commission consideration by no later

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

than September 25, 2023." -filing

- More HERE

Guggenheim takeaway: *Flagged for your awareness as POR continues to work through 1) ROE, 2) the PCAM policy proposals, and 3) the question of standalone batteries in the RAC. See our most recent updates HERE and HERE for key background data points.*

NC/DUK – House of Representatives places pro-nuclear bill on calendar for vote today

- Yesterday, conference committees were appointed in both the House and Senate.
- North Carolina Senate Bill 678
- NC House of Representatives Calendar (scheduled for a vote today)

Guggenheim takeaway: *For your calendar. We continue to view DUK as the primary beneficiary of this bill, which would redefine "renewable energy" as "clean energy" in order to provide a term that includes nuclear resources and fusion energy, and which specifically eliminates language impeding CPCN issuance for nuclear facilities.* ***Also, in recent weeks, DUK filed its NC Carbon Plan update and SC IRP, which we covered HERE, and HERE, respectively.***

CMS – CMS announces expansion of voluntary renewables programs in MI

- CMS announced plans for expansion and modification of voluntary renewables program access for customers.
- The program updates include :
- Affordable community solar for all – cut in half the cost of monthly Solar Gardens subscriptions and build more 100% Michigan-made community solar fields.
- More options for large-scale solar and wind – seeking to remove the cap on its renewable energy programs to move forward with wind and solar projects as quickly as customers desire.
- Green Giving – program for customers to pass benefits to others.
- The company will file its plans this Friday with the Michigan Public Service Commission (MPSC).
- More here

Guggenheim takeaway:*FYI. The plan to increase voluntary renewables access continues to build on a strong energy transition plan for CMS. Mgmt. previously noted that demand for VRP has been strong and consistently achieves the caps.* ***More thoughts on recent CMS updates in our NDR note here.***

Attendees are advised that any information or materials discussed at the event or provided in connection therewith (the "materials") are provided for informational and educational purposes only and should not be considered a recommendation of any particular security, strategy or investment product, as investing advice of any kind, or as offering or providing any investment product or service, or as an offer or solicitation with respect to the purchase or sale of any investment by Guggenheim Securities, LLC or any of its affiliates ("Guggenheim"). The materials are not provided in an advisory or fiduciary capacity and may not be relied upon for or in connection with the making of investment decisions. The views expressed during the event and/or in the materials are solely those of the authors, participants, investment bankers and other presenters (collectively, the "Presenters") and may differ from the views of other officers, directors, employees or other representatives (as to any person or entity, its "Representatives") of Guggenheim or any other Presenter. The Presenters' opinions are subject to change without notice. Neither Guggenheim nor any other Presenter undertakes any obligation to provide additional information or any update to or correction of the information discussed or provided at the event or otherwise in connection therewith. Sources for the information discussed or contained in any materials are believed to be reliable, but the information is not guaranteed as to, and neither Guggenheim nor any other Presenter nor any of their respective Representatives make any representation or warranty regarding, accuracy or completeness of any information contained therein or otherwise. Neither Guggenheim nor any other Presenter nor any of their respective Representatives shall be liable to any person in any way whatsoever for any losses, costs or claims for reliance on the materials. Guggenheim and/or any other Presenter may have a business relationship with certain attendees and/or issuers mentioned during the event or in any materials provided, or may otherwise underwrite, hold a position, buy or sell as principal in the securities of any issuer mentioned. Guggenheim may have in the past provided, may currently be providing and may in the future seek to provide investment banking, financial advisory and other services to, and have other material relationships with, attendees and/or issuers of securities, loans and other financial instruments discussed during the event or referred to in any materials. With respect to any position Guggenheim or any Presenter may hold, Guggenheim or such Presenter may have interests different from or adverse to your interests. None of the materials provided may be reproduced or redistributed, in whole or in part, to any other person or published in whole or in part for any purpose absent the written consent of Guggenheim. By registering for and/or attending the event and/or accepting delivery of the materials, you will be deemed to acknowledge and agree to the matters set forth above. Copyright © 2023 by Guggenheim Securities, LLC, a FINRA registered broker-dealer. All rights reserved. Invitation is non-transferable.

This is a message from Guggenheim Securities, LLC to provide notice to you and your firm's compliance department that personnel from your firm are scheduled to attend the above-referenced meeting. The discussion will be general in nature and any mention of individual companies would only occur in the context of illustrating a trend or historical reference point. Our policies provide that specific companies, material non-public information and/or confidential information may not be discussed. The experts and/or speakers for this event may have material non-public information, but have agreed not to discuss such information. Further, all experts are required to review, understand our Expert Training Deck and agree to comply with its Terms and Conditions. Personnel from your firm must not seek Investor confidential information and/or material non-public information from Guggenheim Securities, LLC. Additionally, at your discretion, you may also choose not to attend the meeting.

Guggenheim 2023 Client and Corporate Access Utility Events

Ticker	Dates	Regions
EIX	*1/10 & 1/11*	Boston & New York
Commissioner Roundtable Event	*1/20*	In Person at Guggenheim
2023 Utilities Conference Call	*1/23*	Dial-In
Virginia Policy Call	*2/7*	Dial-In
Wisconsin Regulatory Call (Chair Valcq)	*2/9*	Virtual
WEC	*2/14–2/16*	West Coast
Wisconsin Regulatory Call (Commissioner Huebner)	*2/17*	Virtual
Arizona Regulatory Call (Commissioners Myers and Thompson)	*2/27*	Virtual
DUK	*3/7-3/8*	NYC
NEE	*3/14-3/16*	West Coast
AEE	*3/22*	Virtual
ERCOT Policy Call	*3/31*	Virtual
PPL	*4/3–4/4*	Boston
EXC	*5/15–5/16*	NYC
AEP	*5/17*	In Person at Guggenheim
CNP C-Suite Dinner	*5/22*	Fort Lauderdale, FL
AGA Conference Meetings	*5/20–5/23*	Fort Lauderdale, FL
ETR	*6/1–6/2*	West Coast
DTE	*6/7–6/8*	NYC
PCG	*6/12*	NYC
ES	*6/22*	NYC
SMR	*6/27*	NYC
SRE	*6/28–6/30*	NYC
SO Meeting, Porsche racing, & Georgia PSC	*7/11–7/12*	Atlanta
LNT	*7/17–7/18*	Boston
PNW	*7/19–7/20*	NYC & Boston
Georgia Regulatory Call (Commissioner Shaw)	*7/24*	Virtual
AWK	*8/9–8/10*	West Coast
Arizona Regulatory Call (Commissioners Myers and Thompson)	*8/16*	Virtual
CMS	*8/30*	NYC
SO	*9/13–9/15*	West Coast
POR	*9/18*	NYC
NY Roundtable	9/25	NYC
NJ Roundtable	9/26	NJ
CEG	10/2–10/3	West Coast
NRG	10/4–10/5	West Coast
PEG	10/9–10/12	West Coast
NI	10/17–10/20	West Coast
EEI Conference	11/12–11/14	Arizona
FE CFO Lunch	12/6	In Person at Guggenheim

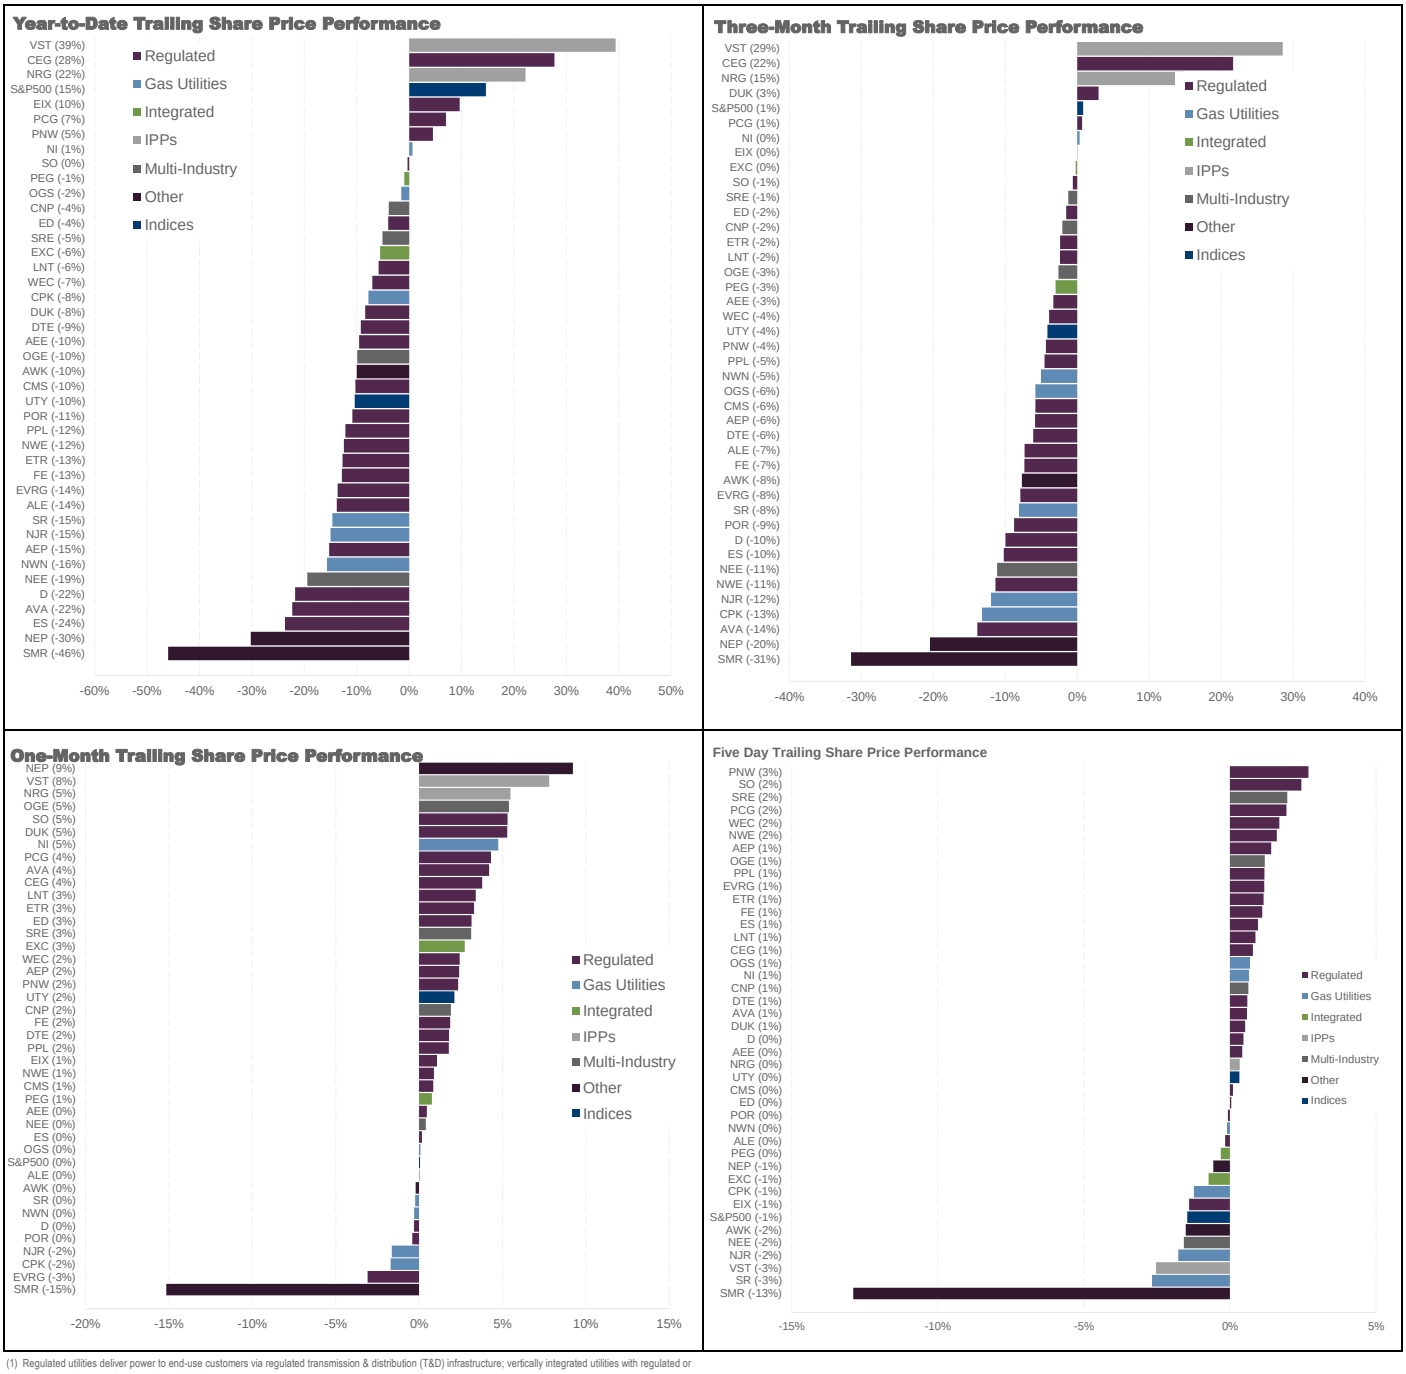
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

RATINGS DISTRIBUTIONS FOR GUGGENHEIM SECURITIES:

Power & Utilities

September 18, 2023

The Guggenheim Daily Transmission: PCG, CA, FERC/LNG, EXC/DC, D/VA, Nuclear, FE, AEP, DUK

Please join us for our quarterly utilities investor roundtables in NYC on Sept. 25th, and NJ on Sept. 26th, both invite details below.

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our POR NDR, CEG NDR, NRG NDR, PEG NDR, NI NDR, and other events, scroll down...

Forward Power Curves, Genco MtM, and Weekly Commentary (see our note HERE)

PCG – PG&E files opening brief in GRC Phase II proceeding on distribution capacity balancing account aligning with SB410

CA – CA passes AB1373 enhancing energy procurement and offshore wind path to market

FERC/LNG – FERC agenda for September 21 meeting includes votes on LNG projects

EXC/DC – DC PSC adopts refreshed procedural schedule in Pepco case

D/VA – DEV details substantial data center load in SCC filings

Nuclear – DOD awards contract for transportable microreactor design

FE – OPC appeals ALJ decision in Potomac Edison case

AEP – Hearing dates set in Kentucky Power docket

DUK – Procedural schedule adopted in South Carolina docket

PCG – PG&E files opening brief in GRC Phase II proceeding on distribution capacity balancing account aligning with SB410

- PG&E filed opening briefs in the Phase II proceeding of the GRC, specifically addressing a distribution capacity balancing account.
- The testimony aligns with the recently passed SB410 bill which provides support for CA electric interconnections.
- The rate mechanism authorized under SB410 and proposed by PG&E will facilitate and accelerate energization of new services in particular driven by EV adoption.
- The rate impact of this balancing account would be limited to 2.5% of distribution revenues as currently proposed.
- Docket: A2106021

Guggenheim takeaway: *The Phase 2 filings come after a recent passage of SB410, which helped codify the need for interconnection reform and provide a path for new regulatory mechanisms. We caught up with the company over the weekend. The bill and the GRC filing both acknowledge the increasing need for new distribution capacity especially as the company aligns with most recent EV adoption forecasts and goals for the state. Mgmt. noted that there was a history of underearning certain distribution capex which would be potentially resolved and enable a smoother regulatory process. The 2.5% cap as proposed could provide over $200M of revenue flexibility which supports up to 7-8x in capex deployment (~ $1.5B) and mgmt. noted that such capex would fall under upside capital that is not currently in plan and would be potentially above the authorized capex levels embedded in the Phase I proposed decision. The proposed decision was below expectations based on headline rate base figures and undergrounding miles but provides a level of clarity on PG&E core capex.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

There were also large parts of capex/rate base that were moved into separate proceedings (i.e., still room for upside vs. PD baselines) and Phase II starts to build on clarity around incremental capex. See more on our takes from the CPUC decisions in our note HERE.

CA – CA passes AB1373 enhancing energy procurement and offshore wind path to market

- CA passed AB 1373 last week, a bill to enhance energy procurement processes with CEC and CPUC.
- The bill authorizes the state agencies to approve large scale procurement of offshore wind.
- The bill has a history of multiple iterations over the years, and the passage finally aligns with state policy for up to 25 GW of offshore wind.
- AB 1373 bill text here.

Guggenheim takeaway: *The bill is an important step in guiding agencies on energy procurement which is the path to market for offshore wind. CA has not been the leader in offshore wind development and many of the northeast states are currently struggling with offshore wind policy and development.*

FERC/LNG – FERC agenda for September 21 meeting includes votes on LNG projects

- FERC September 21, 2023 meeting agenda includes work on gas and LNG applications at the agency.
- The agenda will possibly hold votes on LNG projects including SRE's Port Arthur expansion.
- The expansion application for Port Arthur was for an incremental 6.75MTPA of capacity at the site and the developer has been addressing stakeholder concerns on the supplemental environmental assessment.
- FERC has been working on supplemental environmental assessments for PA phase 2 for an extended period of time.
- FERC Docket: CP20-55

Guggenheim takeaway:*FYI. Update on FERC process as SRE pursues further LNG expansions. There is strong local pushback on environmental impacts, but SRE has been focused on lowering environmental impacts through electrification and CCS opportunities (relative to other LNG developers). While the plans for FID on PA are completed, the expansion project is still in the earlier stage of development. The co-location for the expansion project could provide an opportunity to accelerate development timelines.*

EXC/DC – DC PSC adopts refreshed procedural schedule in Pepco case

- "In this instance, Pepco has presented good cause to enlarge the time to address the Commission's directives in Order No. 21886 because additional time is needed to develop supplemental testimony and exhibits along with supporting schedules to support a traditional historical test year rate application for the test period ending December 31, 2023. Pepco filed supplemental testimony with accompanying exhibits on the Modified EMRP Pilot, as directed by Order No. 21886, on August 31, 2023. Therefore, Pepco is directed to file supplemental testimony with accompanying exhibits and supporting schedules to support a traditional historical test year rate application for the test period ending December 31, 2023, on or before October 16, 2023." – DC PSC
- More HERE

Guggenheim takeaway: *Minor FYI for your calendars as the case remains very early in the initial data discovery phase (direct testimony not due until December).*

D/VA – DEV details substantial data center load in SCC filings

- Local media has picked up DEV's filing of data center electric service agreements totaling some 5.8GW in additional load by 2032
- "As of July 2023, the Company has 8,658 MWs contracted associated with projects with customer requested completion dates through 2031. These contracted amounts do not contemplate the many data center projects that are in a development phase and have not yet reached a point in the service connection process where a contract is executed" – DEV
- More HERE
- Media HERE

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Guggenheim takeaway: *DEV's substantial data center load and associated T&D needs remains a key area of potential growth in our view, with these latest filings and associated media coverage driving a finer point on the substantial needs between now and the end of the decade to meet the current pipeline. We continue to view core rate base growth at DEV as supportive of 5-7% growth post-review.*

Nuclear ─ DOD awards contract for transportable microreactor design

- "As part of the Strategic Capabilities Office (SCO) initiative Project Pele, the Department of Defense (DOD) has awarded a contract option to X-energy, LLC of Rockville, Maryland in order to develop an enhanced engineering design for a transportable micro nuclear reactor." - release
- More HERE

Guggenheim takeaway: *Minor FYI as we continue to monitor federal support for microreactors.*

FE ─ OPC appeals ALJ decision in Potomac Edison case

- The OPC issued an appeal in response to the ALJ's proposed order in Potomac Edison's electric distribution rate case.
- OPC's complaints primarily appear to focus around ongoing HB6 disputes, particularly accounting-related ones.
- The ALJ recommended a 9.5% ROE, in line with Staff's 9.5% recommendation as well, and also accepted Staff's recommendation to adopt the utility's 53% requested equity ratio.
- A final order is scheduled to be issued on October 18th.
- Docket 9695

Guggenheim takeaway: *We note that modeling to a 9.5% ROE on 53% equity results in no change to FE's EPS vs. the utility's prior earnings parameters of a 9.65% ROE and 52.82% equity ratio, which we had been modeling previously. This is due to MD making up ~3% of FE's rate base.*

AEP ─ Hearing dates set in Kentucky Power docket

- This docket is part of an ongoing KY PSC investigation dating back originally to 2021.
- A hearing has been scheduled for January 31, 2024, and again on February 1, 2024.
- Docket 2021-00370

Guggenheim takeaway: *Flagging for your calendar.*

DUK ─ Procedural schedule adopted in South Carolina docket

- This docket was created to establish Green Source Advantage Programs and Riders GSA.
- The docket was originally opened in October 2018.
- Docket 2018-320-E

Guggenheim takeaway: *Routine in nature but flagging for your calendar.*

Shar Pourreza, *Senior Managing Director, Senior Equity Research Analyst – Power & Utilities*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

DISCLAIMER

Important Notices and Disclosures Please forward the language below to your Compliance team: Guggenheim Securities, LLC is providing notice to you and your firm's Compliance department that we have invited personnel from your firm to attend the above-referenced event. Attendees are advised that any information or materials discussed at the event or provided in connection therewith (the "materials") are provided for informational and educational purposes only and should not be considered a recommendation of any particular security, strategy or investment product, as investing advice of any kind, or as offering or providing any investment product or service, or as an offer or solicitation with respect to the purchase or sale of any investment by Guggenheim Securities, LLC or any of its affiliates ("Guggenheim"). The materials are not provided in an advisory or fiduciary capacity and may not be relied upon for or in connection with the making of investment decisions. The views expressed during the event and/or in the materials are solely those of the authors, participants, investment bankers and other presenters (collectively, the "Presenters") and may differ from the views of other officers, directors, employees or other representatives (as to any person or entity, its "Representatives") of Guggenheim or any other Presenter. The Presenters' opinions are subject to change without notice. Neither Guggenheim nor any other Presenter undertakes any obligation to provide additional information or any update to or correction of the information discussed or provided at the event or otherwise in connection therewith. Sources for the information discussed or contained in any materials are believed to be reliable, but the information is not guaranteed as to, and neither Guggenheim nor any other Presenter nor any of their respective Representatives make any representation or warranty regarding, accuracy or completeness of any information contained therein or otherwise. Neither Guggenheim nor any other Presenter nor any of their respective Representatives shall be liable to any person in any way whatsoever for any losses, costs or claims for reliance on the materials. Guggenheim and/or any other Presenter may have a business relationship with certain attendees and/or issuers mentioned during the event or in any materials provided, or may otherwise underwrite, hold a position, buy or sell as principal in the securities of any issuer mentioned. Guggenheim may have in the past provided, may currently be providing and may in the future seek to provide investment banking, financial advisory and other services to, and have other material relationships with, attendees and/or issuers of securities, loans and other financial instruments discussed during the event or referred to in any materials. With respect to any position Guggenheim or any Presenter may hold, Guggenheim or such Presenter may have interests different from or adverse to your interests. None of the materials provided may be reproduced or redistributed, in whole or in part, to any other person or published in whole or in part for any purpose absent the written consent of Guggenheim. By registering for and/or attending the event and/or accepting delivery of the materials, you will be deemed to acknowledge and agree to the matters set forth above. Copyright © 2023 by Guggenheim Securities, LLC, a FINRA registered broker-dealer. All rights reserved. Invitation is non-transferable.

This is a message from Guggenheim Securities, LLC to provide notice to you and your firm's compliance department that personnel from your firm are scheduled to attend the above-referenced meeting. The discussion will be general in nature and any mention of individual companies would only occur in the context of illustrating a trend or historical reference point. Our policies provide that specific companies, material non-public information and/or confidential information may not be discussed. The experts and/or speakers for this event may have material non-public information, but have agreed not to discuss such information. Further, all experts are required to review, understand our Expert Training Deck and agree to comply with its Terms and Conditions. Personnel from your firm must not seek Investor confidential information and/or material non-public information from Guggenheim Securities, LLC. Additionally, at your discretion, you may also choose not to attend the meeting.

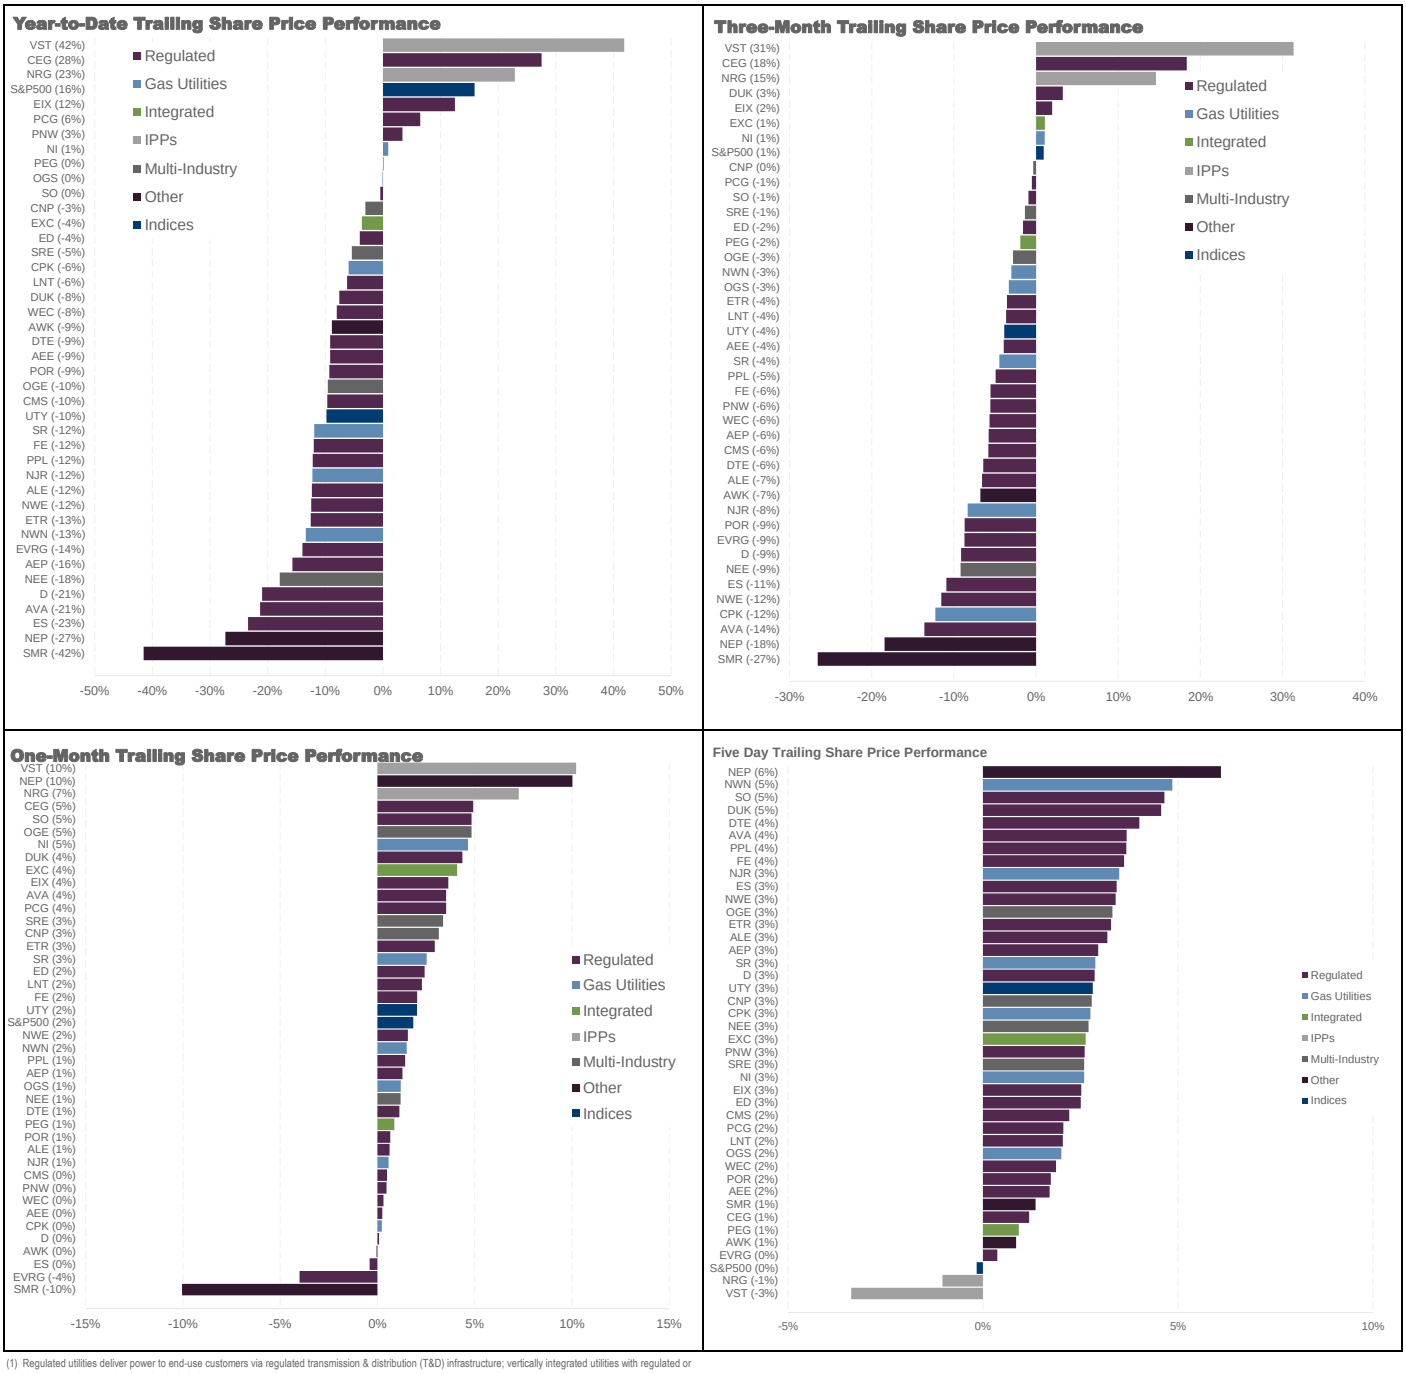
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: D, CMS, SO, XEL, AGR, AEP, ETR, WEC, CEG, EXC

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, we are tracking proceedings in D's VA IRP, CMS's electric rate case in MI, FERC's Open Meeting, SO's gas rate case in IL, and XEL's rate cases in WI. In other news, the NM Supreme Court holds oral arguments in the PNM merger; the MN PUC rejects XEL's MN MYRP rehearing request; the WV PSC issues order authorizing $89M revenue increase in AEP ENEC proceedings; the CCNO authorizes a $17M cumulative rate increase for ETR's 2023 FRP; parties file proposed orders in WEC's Peoples Gas and North Shore rate cases; and CEG and ComEd reach a 100% carbon-free energy matching agreement. ***Don't miss our schedule of meetings at the EEI this fall and contact us to join the meetings.***

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Please scroll down for our full schedule, including dinners with **DTE** and **AGR**, and contact us or your KBCM sales representative to schedule meetings.

ICYMI
Last week, we held meetings with the management teams from **AVA** and **NWE**. Please read our takeaways here and here.

Regulatory Calendar
D — Hearings in D's VA IRP begin on September 18: D filed rebuttal testimony noting that it incorporated PJM's load forecast into its data center forecast and defended the credibility of its forecasts since they incorporate EE and DR programs and use county-by-county load forecasts based on customer commitments. Staff and interveners believe that D's forecasted growth is optimistic, requiring D to build SMRs and continue operating fossil fuel plants. According to Staff, D's demand would peak at 22,000 MW, up from 17,000 MW currently but below D's forecasted peak load of 27,000 MW. The 2023 IRP covers the 15-year period starting in 2024-2038 using 2023 as the base year. The 25-year planning period extends to 2048. The plan considers PJM-projected annual peak and energy load growth of 5% and 7% over the next decade, respectively, driven by data centers and less so by electrification trends. D is projecting the addition of ~20 GW of resources in the 15-year period and ~32 GW (net of retirements) in the 25-year period. D has considered the provisions of the IRA and the IIJA in its planning. We wrote on D's initial IRP filing here.

CMS — Rebuttal testimony in CMS's MI electric rate case is due on September 19: Staff recommended a $95M revenue increase based on 9.8% ROE (50% equity) vs. CMS's request for $218M in revenue requirement based on a 10.25% ROE (52% equity)—the difference driven primarily by a lower ROE. Both the AG's office and Staff recommend removing ~$260M of capex for the Mustang Mile solar project with the AG citing uncertain timing and amount of capex as the reason. Staff recommends removing the capex from plant in service to CWIP since the project is expected to come online after the end of the test year. With respect to a CMS-proposed IRM, Staff proposes some changes if the commission decides to include an IRM (Investment Recovery Mechanism) tracker to ring-fence certain investments, including those for reliability and resilience, to make it easier to track the performance of these investments. An ALJ PD is expected on December 21.

FERC — FERC's Open Meeting is scheduled for September 21: A copy of the Sunshine Notice is included here.

SO — A proposed order in **SO's Northern IL gas rate case is due on September 22:** In its draft order, IL ICC Staff suggests a $254M revenue deficiency, premised on 9.89% ROE/50% equity, $6.07B rate base, and a 2024 YE test year. This compares to Nicor Gas's $317M revenue increase request, premised on a 10.3% ROE, 54.5% equity, $6.158B rate base, and a 2024 test year. An ICC decision is due by November 28.

XEL — Hearings in the NSP-WI electric and gas rate cases begin on September 22: XEL adopted eight of the 13 adjustments that Staff proposed in its testimony, including the $11M adjustment in the electric rate case to reflect the extended life of the Monticello nuclear facility and several wind facilities (which were the main areas of difference between XEL and Staff testimonies). XEL opposed five of the Staff proposed adjustments, including the ROE, AIP costs, RAP expenses, fuel adjustments, and MISO charges.

Cumulatively, these adjustments lowered the electric and gas revenue deficiencies by $27M and $3M, respectively. This implies that XEL updated its request to $24M and $8M for electric and gas, respectively (vs. its original ask of $40M and $9M, respectively, premised on 10.25% ROE and 52.5% equity). Staff recommended an electric rate decrease of $3M when including fuel and purchased power adjustments and a natural gas rate increase of $5M based on an ROE of 9.7% and an equity ratio of 52.5% (Docket: 4220-UR-126).

Recent Developments for Companies Under Our Coverage

From our midweek: Staff files testimony in WEC's limited re-opener in WI; the WV PSC orders an $89M revenue increase in AEP ENEC proceedings (details pending); XEL files rebuttal testimony in WI rate cases; parties request to suspend the procedural schedule in the NJ electric rate case as settlement discussions progress; parties file initial briefs in EXC's IL electric rate case; settling parties file proposed order in D's SC natural gas rate case; EXC receives approval for $173M settlement in class action lawsuit; SIP closes minority interest sale of Port Arthur Phase 1 to KKR; the NJ governor appoints a BPU president; MD utilities seek to procure 3,729 MW of power; and EIA releases its September short-term energy outlook.

AGR — NM Supreme Court holds oral arguments in the PNM merger proceedings: The NM Supreme Court held oral arguments regarding the legality of the PRC decision in rejecting the merger of PNM with AGR despite there being broad-based stakeholder support for the transaction. AGR presented arguments followed by intervenor New Energy Economy and the PRC. The arguments presented were as expected. AGR argued that the PRC's decision departed materially from its standard, and admitted hearsay testimony related to an audit conducted in Maine by a third party without a cross exam. The PRC believes its decision was lawful, based on its determination that the proposed transaction was not in the public interest, and relied on substantial evidence. Intervenor New Energy Economy argued that while some of the commission's decision may have been supported by inadmissible evidence, it should not require the case to be remanded to the PRC and risk reopening the entire case. The Supreme Court noted that it will issue a decision as soon as possible. It is our understanding that the court will determine whether the PRC exceeded its jurisdictional authority in denying approval for the merger in late 2021 and may choose to remand the case to the commission.

XEL — MN PUC rejects XEL's rehearing request; upholds prior decision: The MN PUC voted 5-0 to exclude new evidence from the record and deny a rehearing of the multiyear rate case. XEL is assessing its options, which could include filing with the MN Court of Appeals. XEL had requested the PUC to reconsider its decision on the ROE, recovery of insurance premiums and employee compensation expenses, prepaid pension assets, and sale true-up mechanism. The MN PUC authorized a $311M revenue increase over three years, premised on 9.25% ROE/52.5% equity, vs. XEL's ask for a $498M request premised on a 10.2% ROE and the ALJ's $386M recommendation using a 9.87% ROE. Read our takeaways on the MN PUC's decision here.

AEP — WV PSC issues a partial order in the ENEC proceedings: The WV PSC issued an order in AEP's APCo and Wheeling Power Co.'s ENEC proceedings, authorizing an $89M revenue increase for the 2023-2024 forecast year, in line with AEP's request. The PSC, however, is still evaluating the prudency and cost recovery request from the 2021 and 2022 ENEC proceedings. As part of its 2023 ENEC, AEP requested ~$642M, including an under-recovered balance of ~$553M and $89M worth of projects for September 2023-August 2024. Staff recommended that AEP be allowed to recover only $99M, disallowing $258M based on the consulting firm CTC's prudence review, and recommended rejecting AEP's proposal to securitize the balance in favor of amortizing the costs over three years using AEP's cost of debt, or 2.5%, as the carrying charge. CTC conducted a prudence review following the PSC's order in May 2022 after AEP failed to meet the annual capacity factor during the 2020-2021 period, and the PSC deferred any rate increase until the prudence review was complete. AEP noted that the low capacity factors during the 2020-2021 and 2021-2022 periods were because of inadequate coal supplies. The ENEC is an annual rate adjustment mechanism allowing Wheeling and APCo to recover fuel, purchased power, and environmental compliance costs.

ETR — CCNO authorizes a $17M rate increase in the 2023 FRP: The Council of the City of New Orleans approved electric and gas rate increases of $10.5M and $6.9M, respectively. As part of its 2023 FRP filing, ETR requested electric and gas revenue increases of $21M and $8M, respectively. The requests were premised on a 9.35% ROE and 51% equity ratio, and included request for recovery of expenses, capital investments, and previously deferred reliability expenses. New rates will go into effect in the next billing cycle.

WEC — Parties file proposed orders in WEC's Peoples Gas and North Shore rate cases: Peoples Gas and North Shore Gas proposed orders for revenue increases of $401M and $17M, respectively, on rate bases of $4.8B and $429M, respectively. The requests are based on a 9.9% ROE and 54% equity layer, which has been maintained throughout the rate case. Staff's proposed order was consistent with its initial briefs, recommending revenue increases of $353M and $14M, premised on rate bases of $4.6B and $424M for Peoples Gas and North Shore, respectively. Staff also recommended an ROE of 9.83% for both companies while using Peoples Gas and North Shores' actual equity layers of 50.79% and 52.58%. An ICC decision is expected by November 29. New rates are expected to go into effect on January 1, 2024.

CEG, EXC — CEG and ComEd reach 100% carbon-free energy matching agreement: CEG and EXC's ComEd reached an agreement for CEG to provide 100% locally produced carbon-free nuclear energy to power all of ComEd's 54 offices and metered facilities. CEG will match the clean energy production to the time and place ComEd uses energy around the clock. The agreement makes ComEd the first IOU in the U.S. to achieve complete clean energy consumption in real time. CEG previously agreed with Microsoft to supply one of its Virginia data centers with 100% carbon-free nuclear energy.

Energy: Electric Utilities

Midweek Thoughts — WEC, AEP, XEL, EXC, D, SRE, PEG, FE

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, Staff files testimony in WEC's limited reopener in WI; the WV PSC orders an $89M revenue increase in AEP ENEC proceedings (details pending); XEL files rebuttal testimony in WI rate cases; parties request to suspend the procedural schedule in the NJ electric rate case as settlement discussions progress; parties file initial briefs in EXC's IL electric rate case; settling parties file proposed order in D's SC natural gas rate case; EXC receives approval for $173M settlement in class action lawsuit; SIP closes minority interest sale of Port Arthur Phase 1 to KKR; the NJ governor appoints a BPU president; MD utilities seek to procure 3,729 MW of power; and EIA releases its September short-term energy outlook. Don't miss our EEI schedule included below and contact us to schedule any meetings.

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.

Please scroll down for our full schedule, including dinners with **DTE** and **AGR.** Please contact us or your KBCM sales representative to schedule meetings.

Industry News and News from Companies in Our Coverage

WEC — Staff and Interveners provide testimony in WEC's limited reopener in WI: Staff recommends a cumulative $76M net revenue increase ($35M WEPCO-E, $21M WEPCO-G, $20M WG), compared to WEC's $90M revenue request ($44M WEPCO-E, $24M WEPCO-G, $22M WG). Staff and WEC's calculations exclude fuel recovery costs of $42M and $40M, respectively. The disallowance of certain costs associated with West Riverside 2 and Badger Hollow II are the main drivers of the difference, while O&M related to Bluff Creek and Ixonia also drive some difference. WEC filed the reopener to recover capital investments for projects achieving commercial operations in 2023 and 2024, and to incorporate projected O&M savings from the planned retirement of coal units. A WI PSC decision is expected in 4Q23, with new rates effective January 1, 2024.

XEL — XEL files rebuttal testimony in the NSP-WI electric and gas rate cases: XEL adopted eight of the 13 adjustments that Staff proposed in its testimony, including the $11M adjustment in the electric rate case to reflect the extended life of the Monticello nuclear facility and several wind facilities (which were the main areas of difference between XEL and Staff testimonies). XEL opposed five Staff proposed adjustments, including the ROE, AIP costs, RAP expenses, fuel adjustments, and MISO charges. Cumulatively, these adjustments lowered the electric and gas revenue deficiencies by $27M and $3M, respectively. This implies that XEL updated its request to $24M and $8M for electric and gas, respectively (vs. its original ask of $40M and $9M, respectively, premised on 10.25% ROE and 52.5% equity). Staff recommended an electric rate decrease of $3M when including fuel and purchased power adjustments and a natural gas rate increase of $5M based on an ROE of 9.7% and an equity ratio of 52.5% (Docket: 4220-UR-126). Hearings are set to begin September 22.

EXC — Parties file initial briefs in EXC's IL electric rate case: In briefs, EXC updated its request to a $1,494M revenue increase over the 2024-2027 period while proposing to phase in the rate increases to even out expected y/y impacts. EXC's request is premised on gradual increases in its ROE (10.5-10.65%) and equity layers (50.58-51.19%) through the four years. Staff filed briefs recommending a $1,104M revenue increase over 2024-2027. This compares to its prior recommendation for a $1,076M revenue increase (Docket: 23-0055). Staff continues to make its case for an 8.91% ROE, or 580 bps over the 2022 U.S. Treasury Bond yield of 3.114%. EXC has argued that this is no longer applicable since that option existed only under the IL Energy Infrastructure Modernization Act. The act expired at the end of 2022, and the provisions of the CEJA require that the ROE be determined under current commission law. Staff calculated ROE midpoints of 9.23% and 10.87% in its analysis using the traditional DCF and CAPM methods, respectively. Staff also proposes a 50% equity ratio. Reply briefs are due by September 27, and a proposed order is due October 23. The ICC has until December 20 to issue a final decision.

D — Settling parties file proposed order in D's SC natural gas rate case: The Office of the Regulatory Staff, D, the SC Department of Consumer Affairs, and other settling parties filed a proposed order for the PSC to adopt the settlement agreeing to a $9M revenue increase (net $5M decrease), premised on a 9.49% ROE and 54.78% equity. The $14M difference accounts for the cost of gas revenue.

The settlement compares to Staff's $5M recommendation (net -$9M) and D's $19M revenue request (net $5M). Per the settlement, D will not file its next GRC before April 1, 2026. New rates are expected to go into effect in October 2023.

AEP — WV PSC orders an $89M revenue increase in AEP ENEC proceedings: The WV PSC authorized an $89M revenue increase in ENEC rates for AEP's APCo and Wheeling Power Co. The final order has not been filed on the PSC website yet and thus we cannot gauge the full scope of the ruling (and could be just for the forecast period). AEP's requested ~$642M includes an under-recovered balance of ~$553M and $89M worth of projects for the forecast period September 2023-August 2024. Staff recommended a revenue increase of $154M, including under-recovery of $99M and $35M for the forecast period. Staff recommended disallowing $258M for recovery based on the consulting firm CTC's prudence review and recommended rejecting AEP's proposal to securitize the balance in favor of amortizing the costs over three years using AEP's cost of debt, or 2.5%, as the carrying charge. CTC conducted a prudence review following the PSC's order in May 2022 after AEP failed to meet the annual capacity factor during the 2020-2021 period and the PSC deferred any rate increase until the prudence review is complete. AEP noted that the low capacity factors during the 2020-2021 and 2021-2022 periods were because of inadequate coal supplies. The ENEC is an annual rate adjustment mechanism allowing Wheeling and APCo to recover fuel, purchased power, and environmental compliance costs.

EXC — Parties request to suspend the procedural schedule in the NJ electric rate case as settlement discussions progress: Parties filed a request with the NJ BPU to suspend the procedural schedule to allow the continuation of settlement discussions, as a settlement has been reached in principle on several key issues. If parties cannot reach an agreement, a revised procedural schedule will be issued. ACE filed an electric rate case in NJ (Docket: ER23020091) seeking a net revenue increase of $92M, premised on 10.5% ROE and 50.2% equity. The main drivers of the request include recovery of investments to the distribution system and necessary investments to meet the targets set in NJ's Energy Master Plan. ACE also seeks recovery for higher interest rates, inflation, and storm costs. The NJ BPU is expected to issue an order by November 17.

EXC — EXC receives approval for $173M settlement, while a judge delays decision on $40M settlement in shareholder derivative lawsuit: U.S. District Court for the Northern District of Illinois issued a final approval for a previously reached settlement for EXC to pay investors $173M. The attorneys will receive 26% of the settlement fund. EXC's insurance covers the $173M settlement. At the same time, a judge delayed a decision on approving a settlement to resolve and dismiss all derivative claims and lawsuits against EXC, including a $40M payment to EXC by its insurers, compliance and disclosure-related reforms, and certain changes in board and committee composition. The lawsuits were in response to ComEd's agreement with the U.S. Attorney's Office to resolve an ongoing investigation into ComEd's past lobbying practices in Illinois. The agreement required ComEd to make $200M in payments.

SRE — SIP closes minority interest sale in Port Arthur Phase 1 to KKR: SRE completed the sale of a 42% indirect, non-controlling interest in Port Arthur Phase 1 to KKR. The financial details were not disclosed, but SIP previously agreed to sell 25-48.7% of the project (or 35.7-69.5% of its share) for ~$180M in cash (which would be $64M for a 35.7% interest and $125M for a 69.5% interest) plus KKR's pro rata equity share of development costs prior to closing that is in excess of $439M. SIP retains a controlling 28% indirect interest in Port Arthur LNG Phase 1 at the project level. Port Arthur Phase 1 received FID in March. The project will consist of two LNG trains, storage, and related infrastructure. SRE expects commercial operation in 2027 and 2028 for Trains 1 and 2, respectively. The total estimated capex for the project is $13B.

PEG, EXC, FE — NJ Governor appoints BPU president: NJ Governor Murphy appointed Christine Guhl-Sadovy (D) to serve as the president, following the passing of Joseph Fiordaliso, the former president. Ms. Sadovy's term at the BPU ends in March 2029. The BPU will operate with only four commissioners until the governor nominates the fifth commissioner. The NJ BPU is made up of five commissioners who serve staggered, six-year terms. The primary proceedings we are tracking in NJ include EXC's ACE electric rate case and FE's JCP&L electric rate case. PEG is scheduled to make a GRC filing by year-end. We are also following the state's Offshore Wind solicitation and allocations for the onshore infrastructure for offshore wind power.

EXC, FE — MD utilities seek to procure 3,729 MW of power: EXC's Baltimore Gas and Electric, Delmarva Power & Light, Potomac Electric Power, and FE's Potomac Edison filed RFPs totaling 3,729 MW for procurement of wholesale power. The supply contract terms are expected to range from three to 24 months. The utilities are required to procure supply to meet their standard offer service obligations for customers who do not choose a competitive electric supplier.

EIA's September Short-Term Energy Outlook: Electricity generation is expected to be up 2% y/y in 3Q23, as the U.S. experienced warmer weather for much of the quarter. Natural gas generation will serve as the marginal fuel supply with expectations for a 5% y/y increase for September, supported by lower natural gas prices and several new plants coming online. Overall, natural gas usage for electricity is expected to be up 6% y/y for 2023 before declining ~4% in 2024. Renewable generation continues to increase its contribution to the grid, as 26 GW of new solar capacity will be added in 2023 and another 33 GW in 2024. The share of renewables (ex. hydro) will increase to 18% of the U.S. generation mix in 2024, compared to 15% in 2022 and 16% in 2023. Weather in September is expected to be warmer than normal, resulting in 11% more CDDs in September 2023 vs. September 2022, although 2023 is expected to see 1,481 CDDs for the full year, or a ~5% decrease y/y, due to the milder 1H23.

September 13, 2023

The Guggenheim Daily Transmission: PCG, SRE, ETR, NEE/ED, EVRG, PJM/M&A, Nuclear, CA, NC/DUK, D/ISO-NE, EXC, D/SC

Please join us for our quarterly utilities investor roundtables in NYC on Sept. 25th, and NJ on Sept. 26th, both invite details below.

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our SO NDR, POR NDR, CEG NDR, NRG NDR, PEG NDR, NI NDR, and other events, scroll down...

PCG – OEIS adjusts schedule for review of PG&E revision notice filings

PCG – PG&E GRC proposed decision timeframe moves approval past October CPUC meeting

SRE – CPUC ALJ approves schedule modification in Track 2 of the 2024 General Rate Case

ETR – SERI files a notice of protective petition for review with appeals court in SERI complaint proceeding

NEE/ED – MVP files CPCN supplements and tariff adjustments for the pipeline project.

SRE – SIP closes financial transaction related to equity ownership on the Port Arthur Project

EVRG – Local media profiles EVRG's concerns over TOU rates in MO

PJM/M&A – PE groups transact ownership stake in 3 northeastern gas assets

Nuclear – Holtec signs PPA with Coop for Palisades nuclear plant

CA – CA legislature passes emissions disclosure bill

NC/DUK – Conference committees appointed for pro-nuclear bill in NC legislature

CA – CalFire responding to small fires in Sonoma County

D/ISO-NE – Millstone Unit 2 output lowered for maintenance

EXC – Additional briefs filed in ComEd MYP

D/SC – Gas supplier takes issue with tariff tweak

ED – CECONY breaks ground on Brooklyn Clean Energy Hub

ETR – ETR MS files storm response report on June storms

PCG – OEIS adjusts schedule for review of PG&E revision notice filings

- OEIS issued a response to the PG&E scheduling of the supplemental response to the revision notice from the agency in the WMP process.
- OEIS agrees to a new schedule including:
  - PG&E Supplemental Response Due: September 27, 2023
  - Opening Comments on Supplemental Response Due: October 9, 2023
  - Reply Comments Due: October 16, 2023

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

- Draft Decision Issued By: December 29, 2023
- PG&E 2023 Safety Certification Request Due: December 12, 2023

Guggenheim takeaway: *FYI. The process for PG&E's WMP has been getting more drawn out over time to address issues of incremental alignment, and we caught up with the company on any incremental expectations from the process. While the OEIS has drawn out the proceeding with the new scheduling, the agency has consistently gotten ahead of calendar conflicts and has acted independently of the CPUC WMP and certification process (i.e., committed to transparent and timely outcomes). While PG&E's safety certification is now due December 12, 2023 (right before the prior decision's expiration, the certification will remain active during the filing process and the timing of the WMP draft decision does not prevent a path to all necessary approvals (i.e., with a December filing the process will potentially run through the 90 day clock in February of 2024). We appreciate the near term timing issues/optics, but remain supportive of the PG&E transformation trajectory.*

PCG – PG&E GRC proposed decision timeframe moves approval past October CPUC meeting

- The CPUC due date for a proposed decision on the PG&E GRC to be able to hear the matter at the October 12 Voting meeting has passed, narrowing the options for a vote in the 3Q timeframe (pre-3Q earnings).
- Next potential date to get a final order would be the November 2, 2023 CPUC meeting.

Guggenheim takeaway: *FYI. While the CPUC recently reiterated the intention to issue a GRC PD in the 3Q timeframe, the dates have moved past the potential final decision date for a clean outcome before the 3Q earnings call. The window of opportunity for PCG is now shrinking, but there remain pathways for the CPUC to adhere to its public statements, for PG&E to receive a final order and prevent slippage of the regulatory and capital allocation timeframes into 2024.*

SRE – CPUC ALJ approves schedule modification in Track 2 of the 2024 General Rate Case

- CPUC ALJ approved a new schedule through an email ruling in the track 2 of the 2024 GRC for SDGE.
- Track 2 relates certain memorandum accounts recovery, not core capex and O&M.
- The new schedule allows for later briefing due to track 1 schedule changes.
  - SDG&E Testimony is due November 6, 2023
  - Intervenor Testimony due March 15, 2024
  - Evidentiary Hearings (if necessary) are scheduled for May 13 to May 15, 2024
  - Opening Briefs Filed June 7, 2024
  - Reply Briefs Filed June 21, 2024
- Dockets: A2205015 / A2205016

Guggenheim takeaway: *FYI. The process in the GRC continues building evidentiary record. Given the language of the GRC, investors can anticipate to see a material change in capex for SDGE including increased wildfire spend on undergrounding and covered conductors. As a reminder, SDG&E is seeking an increase in rates of $286 million for the 2024 test year and also seeking incremental, post-test year combined electric and gas rate increases of $363.2 million in 2025, $338.1 million in 2026 and $306.9 million in 2027; and SoCalGas is seeking a $767 million increase in gas rates for the 2024 test year and also seeking incremental, post-test year gas rate increases of $292 million in 2025, $267 million in 2026 and $413 million in 2027.*

ETR – SERI files a notice of protective petition for review with appeals court in SERI complaint proceeding

- SERI filed a notice of protective petition for review in the SERI complain proceeding.
- FERC issued a rehearing order in part modifying the Initial decision on the sale leaseback and ADIT portion of the SERI complaint (18-152).
- FERC commissioners dissented and concurred in part, especially noting the constitutionality challenges in the rehearing request.
- FERC Docket ER18-182 (available through search). MS Settlement here.
- Docket: EL20-72 / EL18-152 (through FERC search). Partial settlement found under 20-72.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Guggenheim takeaway: *FYI on continuing process at FERC for the outstanding SERI issues.*

NEE/ED – MVP files CPCN supplements and tariff adjustments for the pipeline project.

- MVP filed supplemental information related to the CPCN and has progressed on construction activities on the MVP project.
- MVP also filed tariff adjustments for firm transport on the pipe which remains fully subscribed.
- US Supreme Court previously overturned a lower court stay on MVP construction activities that challenged constitutionality of Congress approval.
- US SC lifted the stay on construction and MVP filed a notice with FERC on commencement of construction activities.
- After Congress passed a debt ceiling deal which expedited approval of new permits and removed the appeals option, MVP received all necessary permits including US Army Corps of Engineers.
- The project developer still anticipates a 2023 year end completion.
- FERC Docket: CP16-10. / CP21-57

Guggenheim takeaway: *FYI. USSC was the highest authority that was left to opine on this case and construction activities are now able to continue. MVP had around 50 miles of pipeline construction that was stalled on contested lands that Congress cleared for construction. Both ED and NEE have taken major write downs on the MVP project (i.e., not in financial guidance) and would not include any upsides in near term plans. Longer term, the prospect of MVP completion could enable a strategic process (ED specifically mentioned and executed an exit from gas midstream over the past 2 years). At nominal cost the value of MVP is ~1-2% of market cap.*

SRE – SIP closes financial transaction related to equity ownership on the Port Arthur Project

- SIP announced the closing of project equity deals on the Port Arthur project.
- PA closed on a 42% non-controlling interest sale to KKR (private) and has already sold 30% to COP.
- The transaction closed in accordance with the terms previously disclosed

Guggenheim takeaway:*FYI. Highlights the ability to get a timely close on a transaction and access to capital for SIP.*

EVRG ─ Local media profiles EVRG's concerns over TOU rates in MO

- The implementation of TOU rates continues to draw negative commentary from customers, prompting EVRG to seek relief from the MO PSC
- "The tone of the comments is mostly negative and speaks to customer frustration with being forced to move rates because Evergy is trying to spike customer bills to increase profits," - EVRG
- More HERE

Guggenheim takeaway: *Flagged for your awareness as this remains a source of significant local noise for EVRG YTD. In our view media has made clear that the PSC has led the charge on the matter, however we continue to monitor for any further noise (e.g., political).*

PJM/M&A ─ PE groups transact ownership stake in 3 northeastern gas assets

- "EGCO Compass II, LLC, a wholly owned subsidiary of EGCO domiciled in the United States, entered into a purchase and sale agreement with affiliates of Lotus Infrastructure Partners on September 8, 2023 to acquire the 50% ownership interest in a portfolio of three operational natural gas-fired combined cycle power facilities (CCGT) situated in the Northeast of the U.S. The Compass Portfolio comprises Marcus Hook Energy, L.P. (Marcus Hook), a 912 MW CCGT facility located just outside of Philadelphia, PA as well as Milford Power, LLC (Milford) and Dighton Power, LLC (Dighton), which are 205 MW and 187 MW CCGT facilities, respectively, located in the state of Massachusetts." – release [PRIVATE]
- More HERE

Guggenheim takeaway: *Interesting data point, however further details remain undisclosed. The Marcus Hook facility has a capacity contract with LIPA.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Nuclear – Holtec signs PPA with Coop for Palisades nuclear plant

- Holtec (private) announced a PPA with Wolverine Power Coop (private) for two thirds of the 800MW Palisades nuclear plant.
- The PPA moves Palisades one step closer to a potential DOE loan and repowering.
- According to the company, the repowering decision is still pending the $1B DOE loan application and necessary exemptions and license transfers from the NRC.
- A loan guarantee would provide support for the necessary capital to reverse the June 2022 decommissioning decision.
- Holtec believes about 2 years will be the repowering timeline, putting a potential return to CoD in 2025.
- MI previously announced interest in keeping the nuclear plant online (after shutdown in summer 2022), including a $150M in state funds for repowering support.
- More here.

Guggenheim takeaway:*FYI. Holtec has claimed that the technical side of reopening is feasible with federal funding and as part of repowering the NRC license would be transferred to a Holtec operating unit. The PPA agreement is a step in the right direction and could be enough to demonstrate the need for the plant for a DOE support loan. That said, reversing the decommissioning path is a heavy lift given the currently shut down status, needing to invest in capex, finding labor and or an ultimate owner for the power plant.*

CA – CA legislature passes emissions disclosure bill

- CA legislature passed SB 253, a bill requiring companies larger than $1B in revenue to disclose supply chain emissions profiles.
- Businesses would be required to report Scope 1 and 2 emissions by 2026 and scope 3 by 2027.
- SB 253 here.

Guggenheim takeaway: *FYI. Continues CA push for decarbonization through more strict reporting guidelines by the state.*

NC/DUK — Conference committees appointed for pro-nuclear bill in NC legislature

- Yesterday, conference committees were appointed in both the House and Senate.
- North Carolina Senate Bill 678

Guggenheim takeaway: *In our view, DUK would be the primary beneficiary of this bill, which would redefine "renewable energy" as "clean energy" in order to provide a term that includes nuclear resources and fusion energy, and which specifically eliminates language impeding CPCN issuance for nuclear facilities.* ***Recently, DUK filed its NC Carbon Plan update and SC IRP, which we covered HERE, and HERE, respectively.***

CA – CalFire responding to small fires in Sonoma County

- CalFire is reported 50% containment on a recent fire in Sonoma County
- The Alta fire was 14 acres as of last reporting.
- CalFire incident reports here

Guggenheim takeaway: *FYI.*

D/ISO-NE — Millstone Unit 2 output lowered for maintenance

- Power had been lowered to ~590MW (vs. ~870MW) to allow work on a heat exchanger
- More HERE

Guggenheim takeaway: *Minor heads up – we continue to monitor operational performance at Millstone following outages earlier this year.*

EXC — Additional briefs filed in ComEd MYP

- Multiple parties, including environmental groups, labor reps, large industrials, and consumer advocates have filed briefs of varying length in the ongoing MYP docket
- More HERE

Guggenheim takeaway: *Flagged for your awareness as the case goes through multiple rounds of briefs in the weeks to come, ahead of a PO in October.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

D/SC – Gas supplier takes issue with tariff tweak

- A large C&I group and a gas supplier have taken issue with the potential end of Rate 35, a program for open market gas purchases by large customers, claiming $111M in incremental gas costs
- The groups claim the utilities ROE should be 8.43%
- More HERE

Guggenheim takeaway: *Minor FYI. As a reminder a stipulation was reached late last month with multiple parties (including ORS) in this case for a 9.49% ROE.*

ED – CECONY breaks ground on Brooklyn Clean Energy Hub

- CECONY announced the start of construction on the Brooklyn Clean Energy Hub.
- The Brooklyn Clean Energy Hub was an approved proposal to bring 1,500MW of offshore wind into the CECONY system.
- The project will support union labor and has seen vocal support from legislators and city representatives.
- More here.

Guggenheim takeaway: *The clean energy hub was approved by the NYPSC as part of the non GRC capex programs. The project demonstrated the alignment between system needs and policy support.*

ETR – ETR MS files storm response report on June storms

- ETR MS filed a storm response evaluation and acknowledged the shortcomings of June 2023 storm response including not meeting customer expectations.
- The storms were noted as being severe and back-to-back which stretched company resources, but also created some unusual customer communications which will be used to improve future experience for customers.
- More here.

Guggenheim takeaway: *FYI. The storm response drew criticism from local representatives in MS, but overall, ETR-MS has been a balanced jurisdiction in achieving good customer outcomes (i.e. supportive of ETR investments to improve grid reliability).*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

West Coast

Meeting Format

NDR - 1:1 Meetings & Group Meeting

Company Information

Market Cap: $77.5bn

Southern Company (SO) is a holding company, which engages in the generation and sale of electricity. It operates through the following segments: Traditional Electric Operating Companies, Southern Power and Southern Company Gas. The Traditional Electric Operating Companies segment refers to vertically integrated utilities that own generation, transmission and distribution facilities, and supplies electric services in the states of Alabama, Georgia, and Mississippi. The Southern Power segment constructs, acquires, owns, and manages generation assets such as renewable energy projects and sells electricity in the wholesale market. The Southern Company Gas segment distributes natural gas through natural gas distribution facilities in the states of Illinois, Georgia, Virginia, New Jersey, Tennessee, and Maryland. The company was founded on November 9, 1945, and is headquartered in Atlanta, GA. (Source: FactSet)

DISCLAIMER

Important Notices and Disclosures Please forward the language below to your Compliance team: Guggenheim Securities, LLC is providing notice to you and your firm's Compliance department that we have invited personnel from your firm to attend the above-referenced event. Attendees are advised that any information or materials discussed at the event or provided in connection therewith (the "materials") are provided for informational and educational purposes only and should not be considered a recommendation of any particular security, strategy or investment product, as investing advice of any kind, or as offering or providing any investment product or service, or as an offer or solicitation with respect to the purchase or sale of any investment by Guggenheim Securities, LLC or any of its affiliates ("Guggenheim"). The materials are not provided in an advisory or fiduciary capacity and may not be relied upon for or in connection with the making of investment decisions. The views expressed during the event and/or in the materials are solely those of the authors, participants, investment bankers and other presenters (collectively, the "Presenters") and may differ from the views of other officers, directors, employees or other representatives (as to any person or entity, its "Representatives") of Guggenheim or any other Presenter. The Presenters' opinions are subject to change without notice. Neither Guggenheim nor any other Presenter undertakes any obligation to provide additional information or any update to or correction of the information discussed or provided at the event or otherwise in connection therewith. Sources for the information discussed or contained in any materials are believed to be reliable, but the information is not guaranteed as to, and neither Guggenheim nor any other Presenter nor any of their respective Representatives make any representation or warranty regarding, accuracy or completeness of any information contained therein or otherwise. Neither Guggenheim nor any other Presenter nor any of their respective Representatives shall be liable to any person in any way whatsoever for any losses, costs or claims for reliance on the materials. Guggenheim and/or any other Presenter may have a business relationship with certain attendees and/or issuers mentioned during the event or in any materials provided, or may otherwise underwrite, hold a position, buy or sell as principal in the securities of any issuer mentioned. Guggenheim may have in the past provided, may currently be providing and may in the future seek to provide investment banking, financial advisory and other services to, and have other material relationships with, attendees and/or issuers of securities, loans and other financial instruments discussed during the event or referred to in any materials. With respect to any position Guggenheim or any Presenter may hold, Guggenheim or such Presenter may have interests different from or adverse to your interests. None of the materials provided may be reproduced or redistributed, in whole or in part, to any other person or published in whole or in part for any purpose absent the written consent of Guggenheim. By registering for and/or attending the event and/or accepting delivery of the materials, you will be deemed to acknowledge and agree to the matters set forth above. Copyright © 2023 by Guggenheim Securities, LLC, a FINRA registered broker-dealer. All rights reserved. Invitation is non-transferable.

This is a message from Guggenheim Securities, LLC to provide notice to you and your firm's compliance department that personnel from your firm are scheduled to attend the above-referenced meeting. The discussion will be general in nature and any mention of individual companies would only occur in the context of illustrating a trend or historical reference point. Our policies provide that specific companies, material non-public information and/or confidential information may not be discussed. The experts and/or speakers for this event may have material non-public information, but have agreed not to discuss such information. Further, all experts are required to review, understand our Expert Training Deck and agree to comply with its Terms and Conditions. Personnel from your firm must not seek Investor confidential information and/or material non-public information from Guggenheim Securities, LLC. Additionally, at your discretion, you may also choose not to attend the meeting.

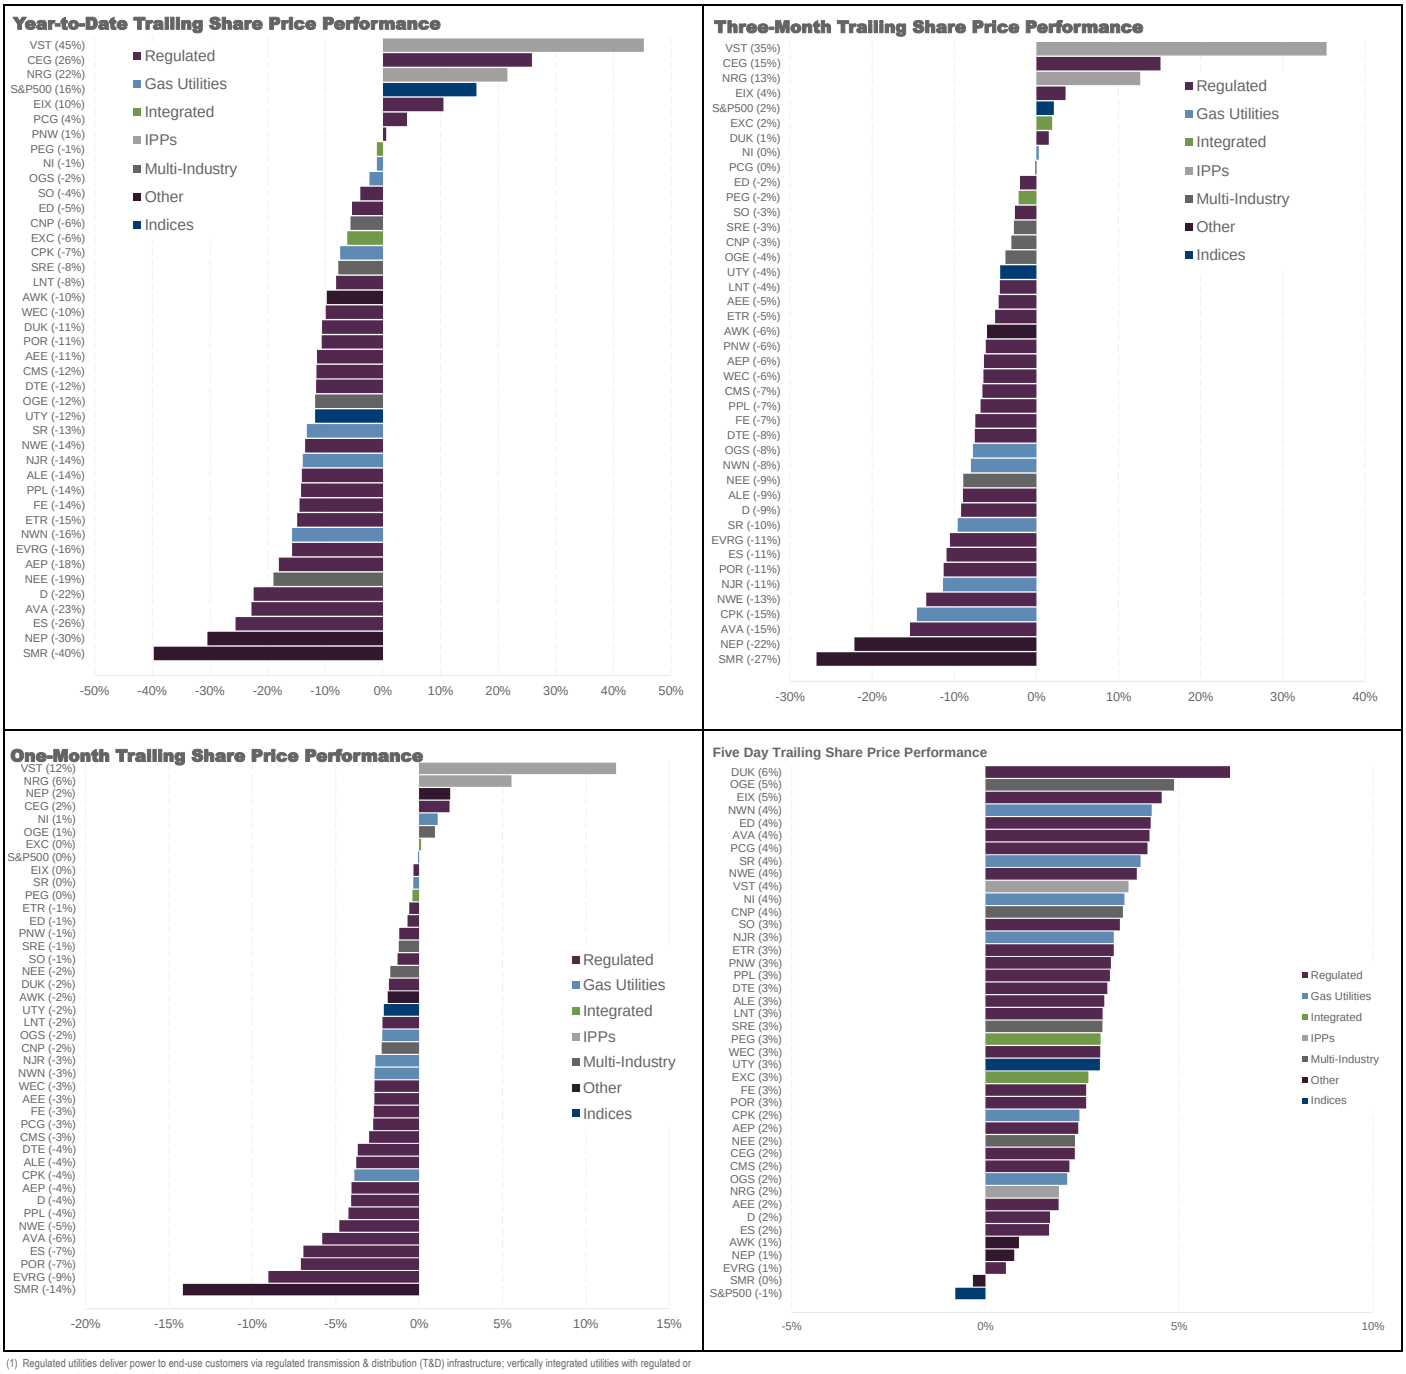
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

RATINGS DISTRIBUTIONS FOR GUGGENHEIM SECURITIES:

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our SO NDR, POR NDR, CEG NDR, PEG NDR, NI NDR, and other events, scroll down...

OGS – ONE Gas issues 1.2m shares via equity forward

Wind/NY – BOEM issues final EIS for Empire Wind

CEG/NYISO – Ginna trips offline

ERCOT/M&A – Peaker plant put up for sale

SRE – SDG&E files safety certification request

CA – Senate bill for transmission permitting improvements advancing through hearings and Assembly committee after concurrence

EXC – Settlement resolves securities suit over ComEd scandal

Talen – Talen settles class action lawsuit over post-spin employee pensions

NC/DUK – Pro-nuclear bill continues to work through NC legislature

WEC – Statements of position and proposed order filed in Illinois gas cases

LA – Media picks up coverage of wildfire risks in Louisiana Bayous

OGS – ONE Gas issues 1.2m shares via equity forward

- OGS announced after-market yesterday that it was issuing 1.2m shares of common stock via a forward sale agreement.
- The deal is expected to generate gross proceeds of $88.8m, and the underwriters have been granted an option to purchase up to 180k additional shares.
- ONE Gas intends to use any net proceeds received for general corporate purposes, which may include repayment or refinancing of debt, working capital, construction and acquisition expenditures and investments.
- Preliminary prospectus HERE

Guggenheim takeaway: *As expected, given OGS' $1.8bn 5-year financing plan (of which ~35% is indicated to be equity issuances). Prior to this transaction, OGS had indicated that its 2023 equity needs had been met, while its 2024 equity needs had only been partially met.*

Wind/NY – BOEM issues final EIS for Empire Wind

- "On Sep. 11, 2023, BOEM announced the availability of the Final Environmental Impact Statement (Final EIS) for the proposed Empire Wind project offshore New York. The project proposes up to 147 wind turbines and up to 2 offshore substations with two cable routes located 12 nautical miles (nm) from Long Island, New York and 16.9 nm from Long Branch, New Jersey. The Project is expected to generate 2,076-megawatts of clean, renewable energy." - BOEM

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

- More HERE

Guggenheim takeaway: *While this is a procedural data point on the project, we remain closely attuned to the ongoing request before the state to adjust the pricing and tenor of the project (Empire Wind sought a 5-year extension to 30 years), alongside several other projects including Sunrise. Those efforts have sought action from the commission by the end of next month.*

CEG/NYISO – Ginna trips offline

- "On 9/9/23 at 1143 EDT, with the Unit 1 in Mode 1 at 100 percent power, all 4 turbine control valves closed resulting in a reactor protection system (RPS) automatic reactor trip on over temperature differential temperature. All control rods inserted as expected. The trip was not complex and all systems responded normally post-trip. The cause of the control valve closure has not been determined." - NRC
- More HERE

Guggenheim takeaway: *Flagged for your awareness.*

ERCOT/M&A – Peaker plant put up for sale

- WattBridge [PRIVATE] has put the ~380MW Braes Bayou facility up for sale, according to PeakLoad
- The facilities went into operation in 2022, with the process seeking to close by late October

Guggenheim takeaway: *Interesting data point as we continue to closely monitor the economics for newbuilds in ERCOT and valuations on existing assets – stay tuned for additional details.*

SRE – SDG&E files safety certification request

- SDG&E filed a wildfire safety certification request with the OEIS.
- The request shows that SDG&E has substantially satisfied all requirements for certification.
- The Office of Energy Infrastructure Safety (OEIS) previously issued draft decision reports on the 2023-2025 SCE and SDG&E wildfire mitigation plans.
- The draft decisions are a commentary on the strengths and weaknesses of each plan and recommendations for improvements.
- In its evaluation of an electrical corporation's 2023-2025 WMP, Energy Safety considers the areas where the electrical corporation must improve, as well as the progress it plans to achieve in its areas of strength.
- OEIS, in totality approved the WMPs for both EIX and SRE.

Guggenheim takeaway: *FYI. The draft decisions are still subject to approval, but the history of both EIX and SRE has been less contentious in the WMP process. With all statutory requirements met, SDG&E safety certification approval should not be contentious (in our view).*

CA – Senate bill for transmission permitting improvements advancing through hearings and Assembly committee after concurrence

- SB 619 has passed both Senate and Assembly votes and reached concurrence through respective committees.
- SB 619 seeks to improve the transmission permitting process with increased authority for the CEC to certify siting treating transmission as environmental leadership projects.
- SB 619 text here.

Guggenheim takeaway: *The genesis of the bill was CA's history of transmission development delays and long lead times. While the bill will increase the state's authority over siting, transmission development remains a long lead time item.*

EXC – Settlement resolves securities suit over ComEd scandal

- The previously reached $173M settlement was approved by a judge last Friday
- More HERE

Guggenheim takeaway: *Minor FYI. The concurrent derivatives suit ($40M settlement) was delayed by another judge over certain investor objections.*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

Talen – Talen settles class action lawsuit over post-spin employee pensions

- Talen [PRIVATE] has reportedly reached a settlement in a class action lawsuit over post-spin interpretations of the company's pension and benefits
- The settlement will be submitted to the court by 10/13
- More HERE

Guggenheim takeaway: *Flagged for your awareness as interest continues to build in Talen.*

NC/DUK – Pro-nuclear bill continues to work through NC legislature

- Yesterday, the bill was withdrawn from the Committee on Rules and Operations of the Senate.
- It appears that the bill may be re-referred to another committee, as was the case when it was withdrawn from committee twice previously.
- North Carolina Senate Bill 678

Guggenheim takeaway: *In our view, DUK would be the primary beneficiary of this bill, which would redefine "renewable energy" as "clean energy" in order to provide a term that includes nuclear resources and fusion energy, and which specifically eliminates language impeding CPCN issuance for nuclear facilities.* ***Recently, DUK filed its NC Carbon Plan update and SC IRP, which we covered HERE, and HERE, respectively.***

WEC – Statements of position and proposed order filed in Illinois gas cases

- As scheduled, statements of position were filed along with a proposed order by the utilities.
- Following reply briefs which were filed at the end of last week, statements of position were filed by the Staff of the Illinois Commerce Commission, the City of Chicago, and CUB, among others.
- The deadline for commission action is November 29th at 5:00pm.
- Docket 23-0069

Guggenheim takeaway: *We continue to focus on ROE and capital structure, as both historic plant balances and 2023/2024 forecasted capital additions remain uncontested. We remind investors that the Illinois Staff recommended a 9.83% ROE earlier this year (which continues to be our go-forward baseline assumption in this case), compared with the utilities' ask of 9.90% and PGL's presently authorized level of 9.05%.*

LA – Media picks up coverage of wildfire risks in Louisiana Bayous

- Wildfires in LA have burned over 60,000 acres in 2023, which is unusual given the historically wet and swampy geographies, but hot and dry weather conditions have elevated wildfire risks in 2023.
- The biggest fires this year forces some evacuation orders but were largely rural.
- Media picked up coverage of the risks with an interview of the LA Forestry commissioner who noted a departure from historic norms for the region.
- Media coverage here.

Guggenheim takeaway: *The wildfires in LA have been more rural and much smaller in size than West coast fires by acreage but the changing weather patterns present a clear risk for LA. While many of the wildfires have historically seen allegations of utility negligence, the LA fires have not seen any investigations, and we note the biggest fires were in muni/coop service areas. From a liability standpoint, LA uses an ordinary negligence standard.*

Market Cap: $77.5bn

Southern Company (SO) is a holding company, which engages in the generation and sale of electricity. It operates through the following segments: Traditional Electric Operating Companies, Southern Power and Southern Company Gas. The Traditional Electric Operating Companies segment refers to vertically integrated utilities that own generation, transmission and distribution facilities, and supplies electric services in the states of Alabama, Georgia, and Mississippi. The Southern Power segment constructs, acquires, owns, and manages generation assets such as renewable energy projects and sells electricity in the wholesale market. The Southern Company Gas segment distributes natural gas through natural gas distribution facilities in the states of Illinois, Georgia, Virginia, New Jersey, Tennessee, and Maryland. The company was founded on November 9, 1945, and is headquartered in Atlanta, GA. (Source: FactSet)

DISCLAIMER

Important Notices and Disclosures Please forward the language below to your Compliance team: Guggenheim Securities, LLC is providing notice to you and your firm's Compliance department that we have invited personnel from your firm to attend the above-referenced event. Attendees are advised that any information or materials discussed at the event or provided in connection therewith (the "materials") are provided for informational and educational purposes only and should not be considered a recommendation of any particular security, strategy or investment product, as investing advice of any kind, or as offering or providing any investment product or service, or as an offer or solicitation with respect to the purchase or sale of any investment by Guggenheim Securities, LLC or any of its affiliates ("Guggenheim"). The materials are not provided in an advisory or fiduciary capacity and may not be relied upon for or in connection with the making of investment decisions. The views expressed during the event and/or in the materials are solely those of the authors, participants, investment bankers and other presenters (collectively, the "Presenters") and may differ from the views of other officers, directors, employees or other representatives (as to any person or entity, its "Representatives") of Guggenheim or any other Presenter. The Presenters' opinions are subject to change without notice. Neither Guggenheim nor any other Presenter undertakes any obligation to provide additional information or any update to or correction of the information discussed or provided at the event or otherwise in connection therewith. Sources for the information discussed or contained in any materials are believed to be reliable, but the information is not guaranteed as to, and neither Guggenheim nor any other Presenter nor any of their respective Representatives make any representation or warranty regarding, accuracy or completeness of any information contained therein or otherwise. Neither Guggenheim nor any other Presenter nor any of their respective Representatives shall be liable to any person in any way whatsoever for any losses, costs or claims for reliance on the materials. Guggenheim and/or any other Presenter may have a business relationship with certain attendees and/or issuers mentioned during the event or in any materials provided, or may otherwise underwrite, hold a position, buy or sell as principal in the securities of any issuer mentioned. Guggenheim may have in the past provided, may currently be providing and may in the future seek to provide investment banking, financial advisory and other services to, and have other material relationships with, attendees and/or issuers of securities, loans and other financial instruments discussed during the event or referred to in any materials. With respect to any position Guggenheim or any Presenter may hold, Guggenheim or such Presenter may have interests different from or adverse to your interests. None of the materials provided may be reproduced or redistributed, in whole or in part, to any other person or published in whole or in part for any purpose absent the written consent of Guggenheim. By registering for and/or attending the event and/or accepting delivery of the materials, you will be deemed to acknowledge and agree to the matters set forth above. Copyright © 2023 by Guggenheim Securities, LLC, a FINRA registered broker-dealer. All rights reserved. Invitation is non-transferable.

This is a message from Guggenheim Securities, LLC to provide notice to you and your firm's compliance department that personnel from your firm are scheduled to attend the above-referenced meeting. The discussion will be general in nature and any mention of individual companies would only occur in the context of illustrating a trend or historical reference point. Our policies provide that specific companies, material non-public information and/or confidential information may not be discussed. The experts and/or speakers for this event may have material non-public information, but have agreed not to discuss such information. Further, all experts are required to review, understand our Expert Training Deck and agree to comply with its Terms and Conditions. Personnel from your firm must not seek Investor confidential information and/or material non-public information from Guggenheim Securities, LLC. Additionally, at your discretion, you may also choose not to attend the meeting.

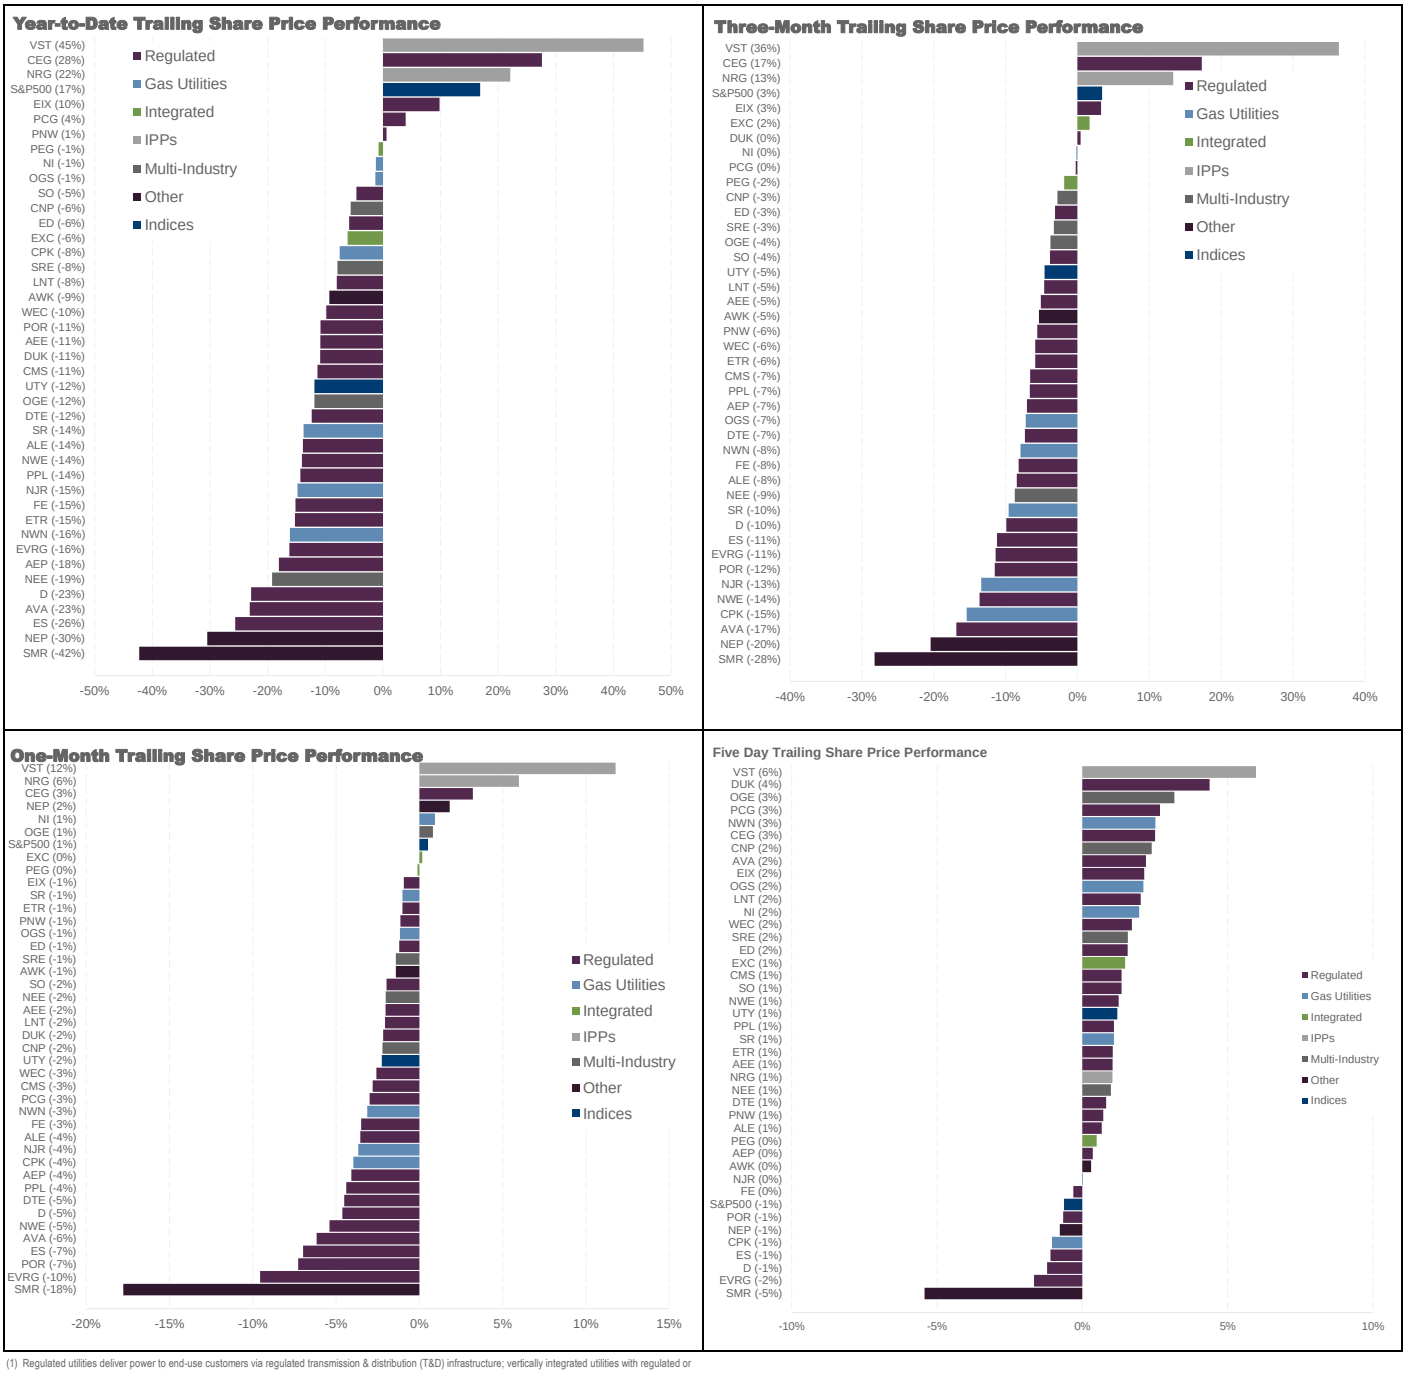
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

Alert

September 11, 2023

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: AGR, EXC, WEC, XEL, DUK, POR, FE, AEP, DTE, EIX, SRE, ES, PEG

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, we are tracking proceedings in AGR and PNM's proposed merger, EXC's IL electric rate case, WEC's limited reopener in WI, XEL's WI rate cases, XEL's TX electric rate case, and XEL's MN electric rate case. In other news, DUK files a Joint Climate Risk and Resilience study report; the ALJ issues a proposed order in Potomac Edison's MD electric rate case; the Hearing Examiner issues support for SPS's NM electric rate case; POR addresses intervenor comments on OR Clean Energy Plan; a majority of PJM participants reach a settlement on penalties related to December's Winter Storm Elliott outages; the Appeals Court remands PURPA rules to FERC to conduct further assessment of the changes made via Order 872; APCo receives SCC approval for ~350 MW of solar and wind power; the LA PSC allows SWEPCO to seek IRS ruling for treatment of ADIT; the MI PSC hosts a technical conference for DTE's Distribution Grid Plan; the CA governor and state legislature reach an agreement to streamline the clean energy transition; ES closes sale with Orsted for the offshore lease acreage; and the NJ BPU is down to four commissioners. Don't miss our schedule of meetings at the EEI this fall and contact us to join the meetings.

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Please scroll down for our full schedule, including dinners with **DTE** and **AGR**, and contact us or your KBCM sales representative to schedule meetings.

Regulatory Calendar

AGR — Oral arguments in the PNM merger proceedings are scheduled for September 12: The NM Supreme Court will hear oral arguments on the legality of the PRC decision regarding the merger on September 12. PNM and AGR extended the merger agreement until the end of the year to allow time for the court's decision and a potential remand to the PRC for a decision. There is no deadline by which the court needs to issue a ruling, but we could potentially hear an outcome by the end of the year (for background, see here).

EXC — Initial briefs in EXC's IL electric rate case are due on September 12: ComEd's rebuttal testimony included a $1,550M revenue request over 2024-2027 (Docket: 23-0055), compared to Staff's recommendation for a $1,039M revenue increase. ComEd requested a 10.65% ROE and argues that Staff's recommended 8.9% ROE using 580 bps over the 2022 U.S. Treasury Bond yield of 3.114% is no longer applicable since that option existed only under the IL Energy Infrastructure Modernization Act. The act expired at the end of 2022 and the provisions of the CEJA require that the ROE be determined under current commission law. Staff calculated ROE midpoints of 9.23% and 10.87% in its analysis using the traditional DCF and CAPM methods, respectively. A proposed order is due on October 23, and December 20 is the ICC's deadline to issue a decision.

WEC — Staff and Intervenor testimony in WEC's limited reopener WI cases is due on September 12: WEC is seeking a cumulative $100M revenue increase to recover capital investments that achieve commercial operation in 2023 and 2024. The reopener also implements projected O&M savings from the planned retirement of coal units. The ROE and equity layer will not be addressed. A WI PSC decision is expected in 4Q23, with new rates effective January 1, 2024.

XEL — Evidentiary hearings in XEL's TX electric rate case begin on September 12: XEL updated its request to a $136M revenue increase while maintaining a 10.65% ROE and 54.68% equity. This compares to XEL's initial request for a $158M revenue increase and the TX PUC Staff's recommendation for a $102M revenue increase, premised on a 9.5% ROE and 54.6% equity. The lower request excludes $10.8M of deferred costs that XEL would recover through a two-year rider. XEL also updated its request to reflect the passage of SB 1016, including removing the elimination of its capitalized annual incentive program and related expenses and including long-term incentives for non-officers. A PUCT decision is expected in 1Q24.

XEL — Rebuttal testimony in the NSP-WI electric and gas rate cases is due on September 13: Staff recommended an electric base rate decrease of $3M when including fuel and purchased power adjustments, and a natural gas rate increase of $5M based on a ROE of 9.7% and an equity ratio of 52.5% (Docket: 4220-UR-126). Intervenor comments centered on cost of service, rate design, and

other policy issues. XEL filed the electric and gas rate cases requesting revenue increases of $40M and $9M, respectively, premised on 10.25% ROE and 52.5% equity. The main difference in the staff recommendation and XEL's request on the electric filing relates to the recent extensions received for the Monticello Nuclear plant and other wind facilities. The life extensions flow to NSP-WI through the Interchange Agreement (cost sharing agreement between NSP-WI and NSP-MN) and reduce the electric rate request through lower D&A.

XEL — The MN PUC will decide on a rehearing in XEL's MN MYRP on September 14: The MN PUC will decide on rehearing the rate case at its September 14 open meeting. XEL requested the rehearing of the MN PUC's rate case order that came in below expectations. The commission order authorized a $311M revenue increase over three years, premised on 9.25% ROE/52.5% equity, vs. XEL's ask for a $498M request premised on a 10.2% ROE and the ALJ's $386M recommendation using a 9.87% ROE. XEL is requesting that the PUC reconsider its decision on the ROE, the recovery of insurance premiums and employee compensation expenses, prepaid pension assets, and the sale true-up mechanism. Read our takeaways on the MN PUC's decision here.

Recent Developments for Companies Under Our Coverage

From our midweek: ES partner Orsted lays out possibility of abandoning U.S. offshore wind projects; D files rebuttal testimony in the VA IRP; the DOJ sues SCE for the 2020 Bobcat wildfire; parties file draft orders in SO's Northern IL gas rate case and AEE's IL gas rate case; ES files an Electric System Modernization Plan in MA; MA DPU changes the periods for basic supply rate adjustments to ease customer bill pressure during peak winter months; NCUC authorizes TOU rates for solar customers; the WV PSC moves forward with the FE management audit; and AVA issues an RFP for RNG.

DUK — DUK files a Joint Climate Risk and Resilience study report: DUK filed a Joint Climate Risk and Resilience Study report with the NCUC, highlighting significant vulnerabilities to DUK's grid from extreme weather and climate change. The system risks facing reduced service reliability in the future if DUK does not make adaptation investments. Substations are the biggest risk and DUK has initiated mitigation steps, including building new substations at least 2 feet higher than the federally designated levels to avoid flooding. The T&D system faces medium or low-scoring risks, while DUK's asset management practices are at high risk. DUK's load forecasting, capacity planning, and reliability planning are all at medium risk. To continue to improve its resilience, DUK identifies four frameworks, including monitoring climate science, maintaining readiness, incorporating new factors in T&D investments, and partnering with local communities. The report does not specify a specific set of investments, but DUK will continue to develop and refine its efforts to ensure that its system can address the evolving impacts of climate change. The Joint Climate Risk and Resilience report built on the Company's vulnerability study conducted in 3Q22.

FE — ALJ issues a proposed order in Potomac Edison's MD electric rate case: The ALJ issued a proposed order recommending a $30M revenue increase, premised on a 9.5% ROE and 53% equity. The proposal removes all spend related to post-test-year reliability projects and the associated depreciation, resulting in a $694M rate base at the end of 2022. The ALJ also recommended the denial of Phase II of the electric distribution investment surcharge (EDIS). FE requested the second phase to support three reliability programs: underground cable replacement, substation reclosers, and distribution automation. The ALJ order is relatively in line with Staff's recommendation for a $29M revenue increase, using a 9.5% ROE and 53% equity. FE's latest request was for a $50M revenue increase premised on a 10.6% ROE, 53.53% equity layer, and a $719M rate base. Parties will be able to file a memorandum of appeals by September 15. An MD PSC final decision is expected in 4Q23.

XEL — Hearing Examiner issues support for SPS's NM electric rate case: The NM Hearing Examiner issued a certification of stipulation supporting the settlement in XEL's NM electric rate case. The settlement agreed to a $33M revenue increase, premised on a 9.5% ROE and 54.7% equity. The settlement also agrees to approve the amended 2028, previously 2032, abandonment date of Tolk Generation Station. Staff and nine other parties agreed to the settlement, while two parties opposed the settlement. The settlement compares to Staff's $37M revenue increase recommendation and XEL's request for a net revenue increase of $76M, premised on a 10.75% ROE, 54.7% equity layer, and a test year ending June 30, 2024. A PRC vote could occur at an upcoming meeting with a final decision expected in 4Q23. The next open meeting is September 27.

POR — POR addresses intervenor comments on OR Clean Energy Plan and IRP: POR addressed Staffs comments and recommendations with a path based on a no-regrets process that will put POR on track to achieve its 2030 carbon emission targets, while positioning it suitably for the subsequent 2035 and 2040 targets. POR requires significant investments to increase its capacity to meet projected growth, although an expanded market structure in the West could help alleviate some of that need. POR will seek to meet demand at the least cost, which will be updated based on available technologies in subsequent CEPs. Staff's comments provided insight into some low-regret actions or opportunities, challenges, and vulnerabilities that need to be addressed. Staff's 29 recommendations for POR to address in reply comments included adopting a scoring metric for GHG reductions, redesigning the Preferred Portfolio without assuming 800 MW of additional transmission, providing an accounting of banked RECs, and a detailed assessment of its small-scale renewable resource compliance strategy including how it plans to meet the compliance obligations and projected shortfalls. POR's CEP includes a set of near-term actions to achieve the targets outlined in HB 2021. The Preferred Portfolio emphasizes solar and wind resources, with ~3.5GW expected to be online by 2030. POR will issue an annual RFP for up to 520 MW of non-emitting resources through 2028, plans to add 632 MW of storage, energy efficiency (248 MW), and distributed resources (136 MW). The Company will study the addition of community-based renewable energy to reach 155 MW by 2030. This is POR's first CEP/

IRP filing since the enactment of HB 2021. The PUC has six months from the March 31 filing to acknowledge the CEP and determine if it is consistent with the new law

Majority of PJM participants reach a settlement on the penalties related to December's Winter Storm Elliott outages: The majority of the participants have reached a settlement in principle, with a final settlement anticipated by the end of September. The settlement is for the $1.8B in penalties the owners of power plants in the PJM Interconnection market were fined for failing to provide electricity during the December Winter Storm. Nearly 46 GW or 23.2% of PJM's generating fleet was unexpectedly offline on December 24 primarily due to equipment that didn't operate and fuel supply challenges with gas-fired generation accounting for ~70% of unplanned outages. The cases cover 13 complaints against the PJM challenging its assessments of the penalties during the storm. Under PJM's forward capacity market construct, generators with capacity supply obligations are subject to penalties when they fail to perform in grid emergencies. Those penalties go into a bonus pool that compensates overperforming generators, which, in this case, included Constellation and Vistra, which sought an order on the merits of the case.

Appeals Court remands PURPA rules to FERC to conduct assessment: The U.S. Court of Appeals for the Ninth Circuit remanded FERC order 872 to FERC. The Appeals Court determined that FERC's lack of an environmental assessment before issuing the order violated the National Environmental Policy Act. While FERC will be required to conduct an environmental assessment, likely delaying implementation of the rules, the Appeals Court did not vacate the order itself, as it determined the order did not suffer from a fundamental flaw and was reasonable. FERC issued Order 872 in 2020, changing the QF eligibility criteria and mandatory purchase obligation and avoided costs methodology. PURPA requires utilities to purchase power from QFs at the avoided cost and in areas where the utilities' avoided capacity costs are high. In 2020, FERC updated the PURPA rules to such that only those power production facilities with a net capacity of 5 MW or less are considered not to have nondiscriminatory access to markets, thereby affording them protections under PURPA, bringing the threshold down from the prior 20 MW or less. The Order also modified the site rule for determining which assets constitute a single QF and made changes to power rates calculated under PURPA. The FERC made these changes to respond to the changing generation mix and the growing deployment of larger wind and solar projects that made PURPA protections less necessary.

AEP — APCo receives SCC approval for ~350 MW of solar and wind power: The VA SCC issued an order approving AEP's 2023 renewable energy portfolio standard (RPS) program filing to add 350 MW of renewable power. SCC approved the RPS Development Plan and the $16M revenue requirement for the 2023-24 rate year. Specifically, APCo will enter into six solar PPAs totaling 184 MWs, a renegotiated 20 MW solar PPA, and acquire a 146 MW onshore wind facility. The Grover Hill wind facility is located in OH. The SCC denied APCO's request for the cost recovery associated with the Beech Ridge legacy wind PPA. APCo is required to file an RPS plan and petitions for new solar and onshore wind capacity annually. The RPS program was established as part of the VA Clean Economy Act, which targets 100% carbon-free generation by 2045. APCo will file its next RPS application on or after March 15, 2024.

AEP — LA PSC allows SWEPCO to seek IRS ruling for treatment of ADIT: The LA PSC issued an order allowing SWEPCO to seek a private letter ruling from the IRS to address a potential violation for the treatment of the net operating loss carry forward. The order authorizes SWEPCO to establish a regulatory asset for the return of ADIT and NOLs. SWEPCO would be eligible to request recovery of the asset (or liability) once receiving a determination from the IRS. This was the only issue not agreed to in the previously filed settlement. SWEPCO sought the inclusion of NOLs as part of its 2019 LA rate case that resulted in a $27M net revenue increase, premised on a 9.5% ROE. AEP filed the application in 2019 seeking a revenue increase of $134M premised on a 10.35% ROE and 50.8% equity.

DTE — The MI PSC hosts a technical conference for DTE's Distribution Grid Plan ahead of a completed filing by the company: The technical conference was held prior to DTE filing its 2023 Distribution Grid Plan. The conference focused on four main pillars: infrastructure resilience and hardening, tree trimming, technology and automation, and infrastructure redesign and modernization. The new plan seeks to achieve increased reliability and to support the forecasted load growth from increased electrification and electric vehicles. DTE is seeking to accomplish full grid automation in five years, which will play a key role in reducing outages during storms and follow-up restoration. Also included in the grid filing will be the acceleration of the upgrade of about 16K miles of the 4800 kV lines that are way beyond their useful life. DTE will file a distribution grid plan by September 29.

EIX, SRE — CA Governor Newsom and legislature reach agreement to streamline clean energy transition: CA Governor Newsom and the CA Legislature reached an agreement in AB 1373 to fast-track the clean energy transition in the state. The agreement creates a central buyer to procure clean energy for the grid, focusing on offshore wind, geothermal, and long-duration storage. The bill also includes the infrastructure streamlining package that was signed last month. That law uses $180B in federal, state, and local infrastructure funds over the next 10 years to accelerate infrastructure projects as CA looks to achieve a 100% clean electric grid by 2045. The governor has emphasized the need for CA to make aggressive infrastructure and clean energy investments, noting the struggles the TX grid has faced during recent extreme heat waves.

ES — ES closes sale of offshore lease acreage: ES closed the sale of its 50% interest in the 175K uncommitted offshore lease acreage for $625M in an all-cash transaction to Orsted. ES plans to use a portion of the proceeds for a tax equity investment of about $545M for the South Fork Offshore Wind Project. ES is also in the final phases of advancing the sale of the 50% interest in the three projects (South Fork, Revolution, and Sunrise).

Sophie Karp (917) 368-2361 / sophie.karp@key.com

PEG, EXC, FE — NJ BPU down to four commissioners after the passing of chair: The NJ BPU is without a president after Joseph Fiordaliso passed away. Mr. Fiordaliso joined the BPU in 2005 and served as president since 2018. Until a replacement is named by the governor, the BPU will act with four commissioners, one of whom, Commissioner Mary-Anna Holden (R), is serving on a term that expired in 2021. The NJ BPU is made up of five commissioners who serve staggered, six-year terms. The primary proceedings we are tracking in NJ include EXC's ACE electric rate case and FE's JCP&L electric rate case. PEG is scheduled to make a GRC filing by year-end. We are also following the State's Offshore Wind solicitation and allocations for the onshore infrastructure for offshore wind power.

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC ("KBCMI"), and KeyBank National Association ("KeyBank N.A."), are marketed.

KeyBanc Capital Markets Inc. ("KBCMI") does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst's compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. This communication is intended solely for use by KBCMI clients. The recipient agrees not to forward or copy the information to any other person without the express written consent of KBCMI.

KBCM Research LLC ("KeyBanc Capital Markets Research"), an SEC registered investment advisor, is a wholly owned subsidiary of KeyBanc Capital Markets Inc. KeyBanc Capital Markets Research provides objective and sophisticated **Research Services**, primarily in the form of published Research Reports, to an institutional client base in exchange for a cash fee. KBCM Research does not provide particularized investment advice with regard to any specific institutional client, on the basis of specific sector or company requests from a client. Our advisory relationship with our clients is strictly limited to the provision of **Research Services**, which are not to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. Additional information about KBCM Research LLC also is available on the SEC's Investment Adviser Public Disclosure (IAPD) website.

Power & Utilities

September 7, 2023

The Guggenheim Daily Transmission: CMS, PCG, AEP, SRE, FE, ERCOT, EXC/NJ, POR, SMR

Please join us for our quarterly utilities investor roundtables in NYC on Sept. 25th, and NJ on Sept. 26th, both invite details below.

Our EEI schedule has been posted, see below for full schedule including 1on1s, corporate dinners and cocktail event.

For details on our Guggenheim-hosted client Utility events including our SO NDR, POR NDR, CEG NDR, PEG NDR, NI NDR, and other events, scroll down...

CMS – Timely NDR on the Heels of Regulatory and Weather Events; Mgmt. Highlights Gradualist Approach With LT Upside on Infrastructure Needs (see our note HERE)

PCG – Intervenors file ex-parte in the PG&E 2023 GRC detailing certain revenue requirements

PCG – Shasta County public meeting hears debate on use of proceeds for Zogg Fire settlement

AEP – Joint stipulation entered into in Ohio ESP V case

SRE – Public Advocates Office sends letter to CPUC on draft stipulation in the 2024 General Rate Case for SCG

FE – ALJ issues proposed order in Potomac Edison case

ERCOT – ERCOT declared EEA2 last night

EXC/NJ – Filings indicate ACE settlement forthcoming

POR – POR responds to Round 1 of IRP comments

SMR – Chubu Electric to buy stake in NuScale Power from JBIC

PCG – Intervenors file ex-parte in the PG&E 2023 GRC detailing certain revenue requirements

- CUE filed an exparte communication from last week in the PG&E GRC process.
- The communication note is from September 1, 2023 where CUE talked about support for PG&E's undergrounding proposals.
- PG&E previously filed updated testimony in the 2023 General Rate Case, which incorporates updated cost escalation on O&M and capital, as well as tax law changes that impact revenue requirements.
- The updated testimony results in a 2023 base year revenue requirement increase of $835M (the bulk of the contribution from expense escalation, $641M).
- Escalation for 2024-2026 results in revenue requirement increases of $31M, $105M and $119M in the respective attrition years.
- Capital cost escalation also results in an increase to rate base, with a 2023 base year step up to $50.9B (+$1.7B vs prior request) and up to $68B by 2026 (+$5.4B vs. prior request).
- Docket: A2106021

Guggenheim takeaway: *The CPUC has been vocal in public hearings around the need to get a timely decision done on the PG&E rate case, and commitments to a 3Q resolution of the case. The date for a clean PD/FD process has passed, but PG&E maintains options around recognition of PD if one is issued before the 3Q earnings call date. The exparte shows there is still some input from stakeholders this late in the process, and while the*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

content is supportive, the timeline continues to slip. Ultimately, we still see an upside to the base capex for PCG even among the bid-ask as system needs are not going away. More on our thesis here.

PCG – Shasta County public meeting hears debate on use of proceeds for Zogg Fire settlement

- Shasta County town hall meeting saw debate on the use of proceeds for the Zogg Fire settlement in a live meeting.
- The County is taking input on use of funds and questioning how the money was distributed.
- More here.

Guggenheim takeaway: *FYI. While the resolution was constructive, stakeholders remain on edge over the legacy fires. The resolution to Zogg charges demonstrates PG&E's commitment to provide a fair outcome for its employees. The judicial arguments also highlight the improvement in wildfire prevention and inspections undertaken by the company. Penalties remain in place and the liabilities from the fire are below the $1B insurance limit.*

AEP – Joint stipulation entered into in Ohio ESP V case

- Yesterday, September 6th, Ohio Power Company filed a Joint Stipulation and Recommendation in its ESP V docket.
- The stipulation resolves all of the issues raised by Ohio Power Company in this proceeding.
- The settlement would have AEP's ESP V run from June 1, 2024 through May 31, 2028, vs. the company's filed application requesting a term of June 1, 2024 through May 31, 2030.
- Docket 23-0023-EL-SSO
- Media coverage HERE

Guggenheim takeaway: *While the settlement reduces the timeframe in which ESP V will be in effect for, it also resolves all issues, which we see as an example of another constructive regulatory outcome (albeit subject to PUCO approval). As we continue to reiterate, AEP will need its streak of regulatory successes to keep building in order to shake some investors' misgivings following several regulatory missteps over the past year.* ***In our view, rebuilding the credibility of its regulatory strategy remains an achievable outcome for AEP, with this settlement representing another positive datapoint in that trajectory.***

SRE – Public Advocates Office sends letter to CPUC on draft stipulation in the 2024 General Rate Case for SCG

- The Public Advocate Office sent a letter to the CPUC ALJ notifying that a draft stipulation is in the works in the So Cal Gas (SCG/SRE) rate case.
- From initial filings, there is a healthy amount of disputes around ratemaking issues and investment levels for both utilities, including disputing the investments in light of state electrification policy and decarbonization goals impacting sales volumes negatively.
- CPUC previously adjusted the filing schedules, moving other procedural items further by around 2 weeks, but the target PD date remains in 2Q24.
- Dockets: A2205015 / A2205016

Guggenheim takeaway: *FYI. The notification does not specify any details on a partial or full stipulation, and it could be procedural in nature given the current stage of the GRC. Given the language of the GRC, investors can anticipate to see a material change in capex for SDGE including increased wildfire spend on undergrounding and covered conductors. As a reminder, SDG&E is seeking an increase in rates of $286 million for the 2024 test year and also seeking incremental, post-test year combined electric and gas rate increases of $363.2 million in 2025, $338.1 million in 2026 and $306.9 million in 2027; and SoCalGas is seeking a $767 million increase in gas rates for the 2024 test year and also seeking incremental, post-test year gas rate increases of $292 million in 2025, $267 million in 2026 and $413 million in 2027.*

FE – ALJ issues proposed order in Potomac Edison case

- Yesterday, September 6th, the ALJ issued a proposed order in Potomac Edison's electric distribution rate case.
- The ALJ recommended a 9.5% ROE, in line with Staff's 9.5% recommendation as well, and also accepted Staff's recommendation to adopt the utility's 53% requested equity

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

ratio.

- A final order is scheduled to be issued on October 18th.
- Docket 9695

Guggenheim takeaway: *We note that modeling to a 9.5% ROE on 53% equity results in no change to FE's EPS vs. the utility's prior earnings parameters of a 9.65% ROE and 52.82% equity ratio, which we had been modeling to previously. This is due to MD making up ~3% of FE's rate base.*

ERCOT – ERCOT declared EEA2 last night

- The grid operator declared the emergency after issuing a call for conservation and activating its ERS and remaining reserves.
- "An EEA 2 is issued when ERCOT's operating reserves have dropped below 1,750 MWs and are not expected to recover within 30 minutes. Controlled outages have not been requested at this time, however, could become necessary if demand isn't lowered or additional supply cannot be added from generators."
- "At this time, ERCOT is bringing all available generation online, releasing any remaining reserves, using demand response to lower electric demand. ERCOT is also working with out-of-state Independent System Operators (ISOs) and Market Participants to obtain additional power generation capacity. Additionally, ERCOT obtained Texas Commission on Environmental Quality (TCEQ) enforcement discretion, which allows a generator to extend its service/run-time/operations to help meet demand, if needed, to help maintain grid reliability." - ERCOT
- More HERE

Guggenheim takeaway: *This is one of the closer calls for the ISO this summer as a punishing amount of heat continues to blanket Texas. While pricing signals in this case spiked, as it has in several cases this summer, in our view, longer term questions remain around the new entry of dispatchable MWs under the proposed incentives (loans program) and market mechanisms (PCM, etc.).*

EXC/NJ – Filings indicate ACE settlement forthcoming

- "On behalf of Atlantic City Electric Company ("ACE" or the "Company"), the Petitioner in the above-referenced matter, we are pleased to report that significant progress has been made in resolving this matter. While the parties have reached a settlement in principle on some key issues, the parties continue to discuss important aspects of the case, and a Stipulation of Settlement has not yet been finalized among the parties. Given this, the Company respectfully requests that Your Honor temporarily suspend the procedural schedule to permit the parties to focus on the drafting and execution of a mutually acceptable Stipulation of Settlement."
- More HERE.

Guggenheim takeaway: *Yet another filing indicating a settlement remains forthcoming (there was an earlier indication on ~8/24), with the potential execution on a settlement at ACE a modest positive, in our view, all things equal. As a reminder, ACE is EXC's smallest utility (~6% of total company).*

POR – POR responds to Round 1 of IRP comments

- The utility responded in a lengthy filing yesterday to various stakeholder comments.
- "PGE has sought to respond to each point of feedback included in Staff and stakeholders' Round 1 comments. Appendix A to PGE's response lists each comment and references the chapter in which it is addressed. PGE looks forward to engaging in further discussion of these topics and providing additional information on remaining questions at the upcoming LC 80 workshops on September 14th and 22nd." - POR
- More HERE

Guggenheim takeaway: *The 2023 IRP process remains a key focus area of ours as it advances swiftly ahead of a potential RFP in the coming months. The RFP cycle remains a key driver of LT growth given the potential for owned generation – see our very recent upgrade HEREfor more.*

SMR – Chubu Electric to buy stake in NuScale Power from JBIC

- The Japanese utility will buy at least a portion of the public export credit agency stake.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

- "As an equity owner, we want to expand our revenue base through investing in NuScale." - Hiroki Sato, Chubu via Reuters
- More HERE (9502.T)

Guggenheim takeaway: *Interesting data point as we continue to monitor large holder churn and potential linkages to new customer opportunities (Korea, Japan).*

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 30-Oct-2023 04:34 PM.

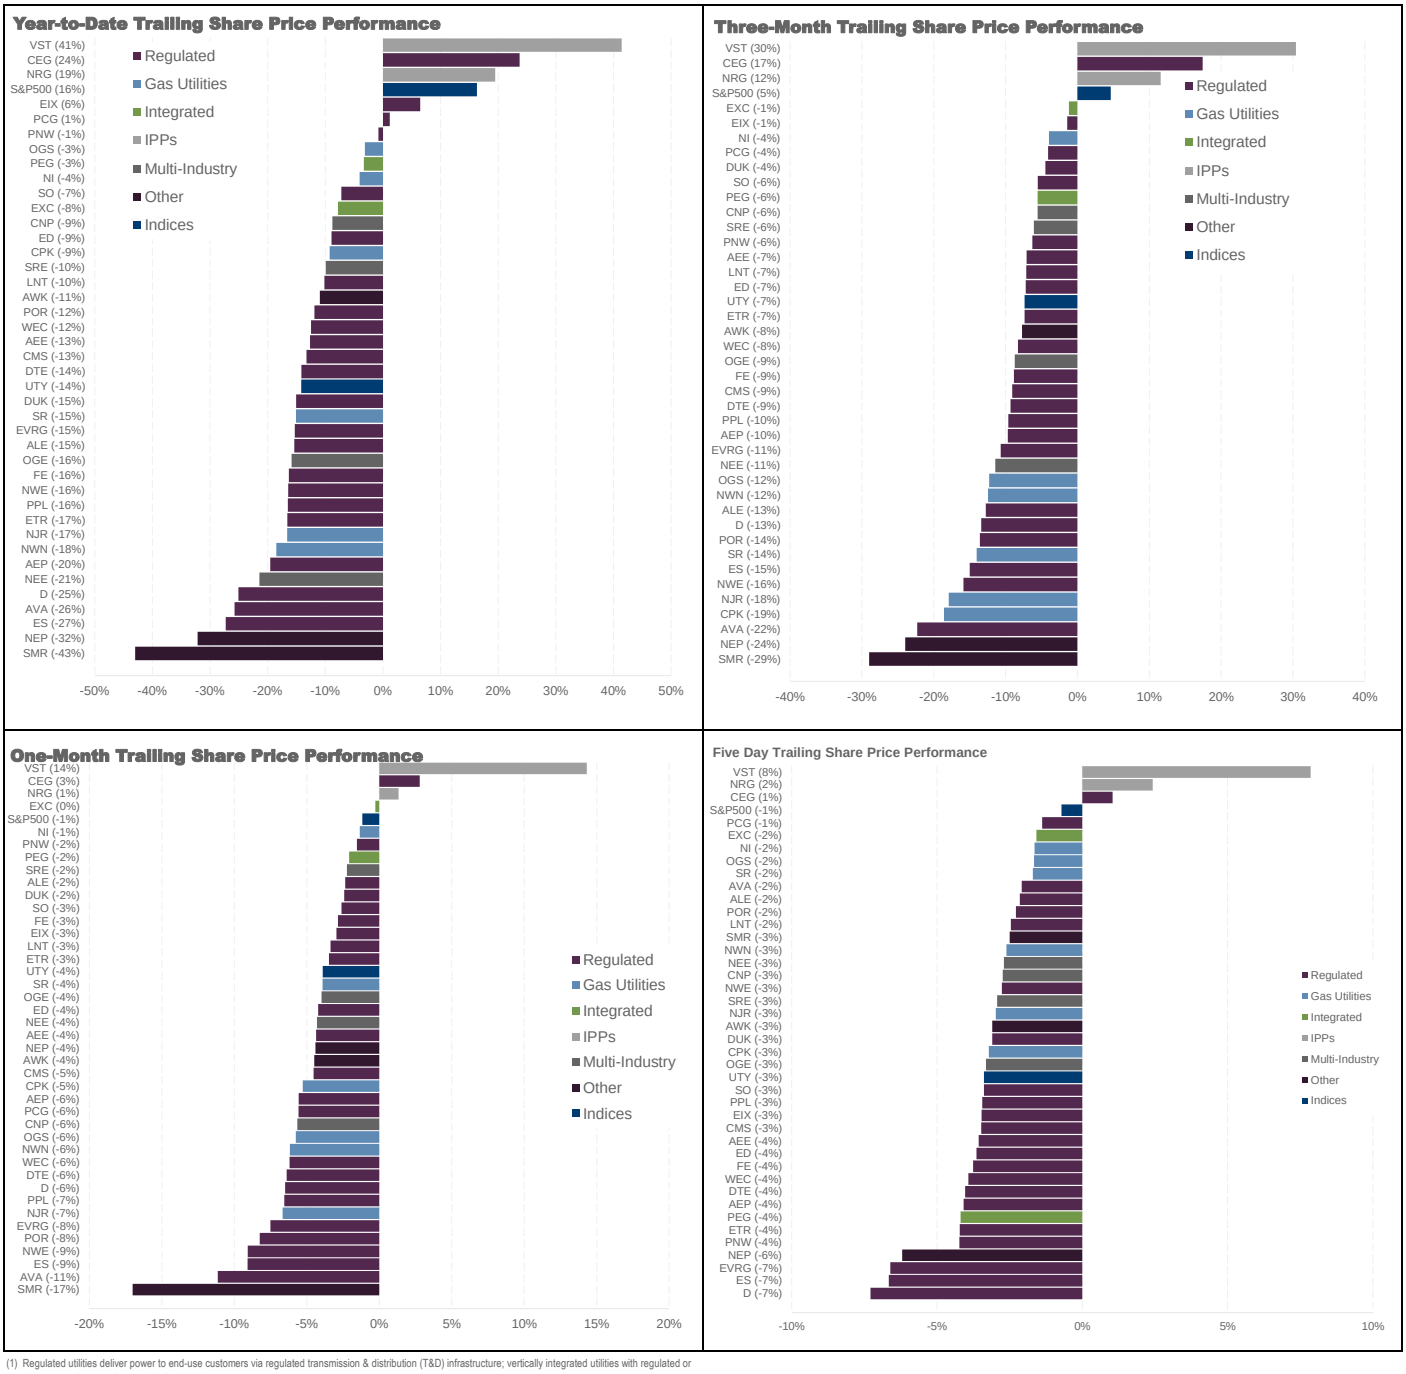
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: AEP, D, FE, POR, SRE, EXC, CMS, SO, AVA, XEL, ETR, ED

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Sangita Jain, CFA / (917) 368-2354 / sangita.jain@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com

This week, we are tracking proceedings in AEP's ENEC case, D's VA IRP, FE's MD electric rate case, POR's OR IRP, SDG&E and SoCalGas's rate cases, and EXC's NJ electric rate case. In other news, regulators issued approvals for previously reached settlements in the CMS MI gas rate case, SO's VA natural gas rate case, and AVA's ID electric and gas rate filings. FE and stakeholders reached a unanimous settlement with the PA PUC to separate the PA transmission and distribution assets. D announced the closing of the sale of Cove Point to Berkshire. ED entered a joint proposal for a three-year rate plan in the steam rate case, XEL and intervenors filed testimony in the WI electric and gas rate cases, and ETR filed an FRP in LA. The PA governor appoints a PUC chair and SRE's SIP partners with a Japanese consortium to evaluate a proposal to produce and export liquefied synthetic natural gas. Don't miss our schedule of meetings at the EEI this fall and contact us to join the meetings.

KBCM Invites You to Join Us at the EEI Financial Conference on November 12-14 in Phoenix, AZ.
Please scroll down for our full schedule, including dinners with **DTE** and **AGR**, and contact us or your KBCM sales representative to schedule meetings.

Regulatory Calendar
AEP — Hearings in AEP's ENEC proceedings begin on September 5: The WV Staff recommended a revenue increase of $154M, including under-recovery of $99M and $35M for the forecast period. This compares to AEP's request for ~$642M, including an under-recovered balance of ~$553M and $89M of projects for the forecast period from September 2023-August 2024. Driving the difference is Staff's recommendation to disallow $258M for recovery based on consultant CTC's prudence review. Staff also recommended rejecting AEP's proposal to securitize the balance in favor of amortizing the costs over three years using AEP's cost of debt, or 2.5%, as the carrying charge. CTC conducted a prudence review following the PSC's order in May 2022 after AEP failed to meet the annual capacity factor during the 2020-2021 period and the PSC deferred any rate increase until the prudence review is complete. AEP noted that the low capacity factors during the 2020-2021 and 2021-2022 periods were because of inadequate coal supplies. The ENEC is an annual rate adjustment mechanism allowing Wheeling and APCo to recover fuel, purchased power, and environmental compliance costs.

D — Rebuttal testimony in D's VA IRP is due on September 5: In testimony, Staff believes D's forecasted growth is optimistic and would require reliance on D building SMR plants, and to continue operating fossil fuel plants. According to Staff, D's forecasted load growth is overly optimistic, and it expects D's demand to peak at 22,000 MW, up from 17,000 MW currently, but materially lower than D's forecasted peak load of 27,000 MW. Intervenor testimony in D's IRP centered around data center demand driving the load growth in D's service territories. The 2023 IRP covers the 15-year period starting in 2024-2038 using 2023 as the base year. The 25-year planning period extends to 2048. The plan considers PJM-projected annual peak and energy load growth of 5% and 7% over the next decade, respectively, driven primarily by data centers and less so by electrification trends. Overall, D is projecting the addition of ~20 GW of resources in the 15-year period and ~32 GW (net of retirements) in the 25-year period. D has considered the provisions of the IRA and the IIJA in its planning. We wrote on D's initial IRP filing here.

FE — The ALJ's proposed order in Potomac Edison's MD electric rate case is due on September 6: Potomac Edison Co. requested a net $46M revenue increase, premised on 10.6% ROE/53.53% equity. The Company would adopt the Staff's proposed 70/30 split to determine the allocation factors of the electric distribution investment surcharge (EDIS) program for the next four years. FE's net request excludes the recovery of $4.8M of revenue collected through the EDIS. This compares to the MD PSC Staff's recommendation for a net $19M revenue increase, premised on a 9.5% ROE and 53.53% equity. An MD PSC final decision is expected in 4Q23.

POR — Reply comments in POR's OR Clean Energy Plan and IRP are due on September 6: Staff's initial comments provide insight into some low-regret actions or opportunities, challenges, and vulnerabilities that need to be addressed. Staff's 29 recommendations for POR to address in reply comments include adopting a scoring metric for GHG reductions, redesigning the Preferred Portfolio without assuming 800 MW of additional transmission, providing an accounting of banked RECs, and a detailed assessment of its

small-scale renewable resource compliance strategy including how it plans to meet the compliance obligations and projected shortfalls. POR's CEP includes a set of near-term actions to achieve the targets outlined in HB 2021. The Preferred Portfolio emphasizes solar and wind resources, with ~3.5GW expected to be online by 2030. POR will issue an annual RFP for up to 520 MW of non-emitting resources through 2028, plans to add 632 MW of storage, energy efficiency (248 MW), and distributed resources (136 MW). The Company will study the addition of community-based renewable energy to reach 155 MW by 2030. This is POR's first CEP/IRP filing since the enactment of HB 2021. The PUC has six months from the March 31 filing to acknowledge the CEP and determine if it is consistent with the new law.

SRE — Reply briefs in SDG&E and SoCalGas rate cases are due on September 7: Hearings were held in June, and parties submitted updated testimony and opening briefs. SRE largely maintained its request from updated testimony. This includes SoCalGas's ask for a $767M revenue increase in 2024, followed by $292M, $261M, and $381M over the years 2025, 2026, and 2027, respectively. SDG&E maintained its $475M request for 2024, with subsequent revenue increases of $346M, $332M, and $303M, respectively. Cal Advocates recommended revenue increases for SoCalGas of $360M, $188M, $215M, and $225M for 2024, 2025, 2026, and 2027, respectively, and $271M, $222M, $239M, and $247M for SDG&E for the same time period, respectively. Proposed decisions on Track 1 are due in 2Q24. Costs of Capital are determined outside the rate case proceedings in CA and are thus not part of this docket.

EXC — Intervenor testimony in EXC's NJ electric rate case is due on September 8: ACE filed an electric rate case in NJ (Docket: ER23020091) seeking a net revenue increase of $92M, premised on 10.5% ROE and 50.2% equity. The main drivers of the request include recovery of investments to the distribution system and necessary investments to meet the targets set in NJ's Energy Master Plan. ACE also seeks recovery for higher interest rates, inflation, and storm costs. The NJ BPU is expected to issue an order by November 17.

Recent Developments for Companies Under Our Coverage

From our midweek: EIX makes the first filing with the CPUC to recover $2.4B in costs and legal fees for the 2017/2018 wildfire and mudslide events. Orsted announced an anticipated write-down of up to $2.35B on U.S. offshore wind projects with potential implications for ES's carrying value of its Revolution Wind and Sunrise Wind projects. DUK reached a second partial settlement in the DEC NC MYRP; POR filed a rebuttal in the OR electric rate case; and staff and interveners issued testimony in CMS's MI electric rate case. ETR reaches a favorable resolution on the sale-leaseback FERC docket, but the LA PSC disagrees on ETR's interpretation of the FERC ruling. Georgia Power reaches a settlement regarding Vogtle cost recovery, and VCM 29 is filed. KY PSC rejects a proposal by AEP to supply power to a cryptomining operation; FERC approves the sale of FE's sale of a 30% interest in FET to Brookfield; DTE's Fermi 2 nuclear plant is shut down for non-emergency, unplanned repairs; NEE Transmission is picked for a ~$300M NM transmission project; and the PUCT approves interim rates in CNP's TEEEF rider.

CMS — Commission approves the settlement in the natural gas GRC: The MI PSC approved a previously reached settlement in CMS's natural gas rate case. PSC Staff, the AG's office, and others had agreed to a $95M revenue increase, premised on a 9.9% ROE and 50.75% equity. The settlement included a $214M allowance for the enhanced infrastructure replacement program (EIRP) to replace a minimum of 110.8 miles of installed main replacements by the end of September 2024, and allows CMS to implement an OPEB volatility mechanism to smooth out the impact on earnings by creating a regulatory asset/liability for future recovery or credit to customers compared to the amounts included in rates. CMS's revised request was for a $175M revenue increase, on 10.25% ROE/51.5% equity. New rates will go into effect on October 1.

SO — SCC approves the settlement in the VA Natural Gas rate case: The SCC issued a final order approving the settlement reached in the VA Natural Gas case. The settlement agreed to a $48M revenue increase, premised on a 9.7% ROE and 49.06% equity, and was constructive compared to Staff proposal for a $24M revenue increase, premised on a 9.5% ROE and 47.05% equity and the AG's Office recommendation for a $31M revenue increase. SO initially sought a $69M revenue increase, premised on 10.35% ROE and 53.2% equity. Interim rates of $69M are in effect since January 1; the excess over the approved amount will be refunded.

AVA — ID PUC approves settlement agreement in the multiyear electric and gas rate plans: AVA received PUC approval of the multiparty settlement filed in June for the electric and gas rate cases. New rates will go into effect in September. As part of the settlement in the two-year electric and gas rate cases, electric revenues will increase by $22M in RY1 and $4M in RY2, and natural gas revenues will increase by $1M and ~$0M, respectively. Both increases are based on a 9.4% ROE and 50% equity. This compares to AVA's request for $37.5M and $13.2M electric rate increases in RY1 and RY2, respectively, and gas rate increases of $2.8M and $0.1M, respectively, based on a 10.25% ROE and 50% equity.

FE — FE and stakeholders reach a unanimous settlement with the PA PUC to separate the AP transmission and distribution assets: Under FE's plan, PA distribution companies Met-Ed, Penelec, Penn Power, and West Penn will merge into a new entity called FE PA Electric. Currently, all but Penn Power are direct subsidiaries of FE and Penn Power is a subsidiary of OH Edison. If the settlement receives approval, the new entity will become a PA electric utility. As part of the settlement, FE has agreed to maintain separate tariff structures for the distinct distribution companies until three rate cases are concluded (the first one is targeted for 2025) or for 10 years, whichever is sooner. FE asked for the separation of T&D assets to streamline its business operations. FERC and the VA SCC previously approved the reorganization.

Sophie Karp (917) 368-2361 / sophie.karp@key.com

D — D announces closure of sale of its 50% interest in Cove Point: D announced the closure of the sale of the remaining 50% limited partnership interest in Cove Point to Berkshire Hathaway. D's proceeds include $3.3B plus $200M from the settlement of related interest rate derivatives. D announced the sale in July as part of the ongoing portfolio restructuring. See our takeaways on the announcement here.

ED — ED enters a joint proposal for a three-year rate plan for the steam business: The Joint Proposal includes a three-year rate plan beginning in November 2023 with a levelized revenue increase of $77.8M in each of RY1-RY3. The JP proposes a 9.25% ROE and a 48% equity layer and includes an ESM where customers will share earnings in excess of 9.75%. The settlement also includes a weather normalization adjustment and reflects roughly $105M of capex each year during the rate plan. The 9.25% ROE and 48% equity layer are in line with other decisions this year including the ED's CECONY gas and electric rate cases and 5 bps above AGR's NYSEG and RG&E rate cases. Staff recommended a $94M revenue increase, premised on a 9% ROE and 48% equity, compared to ED's $141M revenue request, 10% ROE, and 50% equity layer.

XEL — Staff and Interveners file testimony in the NSP-WI electric and gas rate cases: Staff recommended an electric base rate decrease of $3M when including fuel and purchased power adjustments, and a natural gas rate increase of $5M based on a ROE of 9.7% and an equity ratio of 52.5% (Docket: 4220-UR-126). Intervenor comments centered on cost of service, rate design, and other policy issues. XEL filed the electric and gas rate cases requesting revenue increases of $40M and $9M, respectively, premised on 10.25% ROE and 52.5% equity. The main difference in the staff recommendation and XEL's request on the electric filing relates to the recent extensions received for the Monticello Nuclear plant and other wind facilities. The life extensions flow to NSP-WI through the Interchange Agreement (cost sharing agreement between NSP-WI and NSP-MN) and reduce the electric rate request through lower D&A.

ETR — ETR files an FRP in LA: ETR LA submitted an application for an increase in rates through an FRP extension. The proposed FRP (Docket: U-36959) seeks approval of a $173M electric revenue requirement. The application introduces a regulatory blueprint to support grid strengthening efforts in LA, including grid hardening, vegetation management over a 10-year period through 2033, and plans to grow the generation portfolio by adding new solar.

FE, EXC — PA governor makes a PUC appointment: Governor Shapiro (D) named Commissioner Stephen DeFrank (D) as Chairman of the PUC. Also, the state Senate approved the governor's nomination of Kimberly Brown (D) to a five-year term at the PUC. With these announcements, the PA PUC is restored to its full strength of five commissioners.

SRE — SIP and a Japanese consortium are working on a project to produce liquefied synthetic natural gas: SIP, along with four Japanese natural gas utilities, is evaluating a proposed project to produce 130K MT per year of e-natural gas, a synthetic gas produced from hydrogen and CO_2. The gas would be liquefied at the Cameron LNG terminal before export to Japan, where the product would be marketed as e-methane.

Disclosure Appendix

Important Disclosures

Important disclosures for the companies mentioned in this report can be found at https://key2.bluematrix.com/sellside/Disclosures.action.

Please refer to the analysts' recently published reports for company-specific valuation and risks.

Reg A/C Certification

The research analyst(s) responsible for the preparation of this research report certifies that:(1) all the views expressed in this research report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers; and (2) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst(s) in this research report.

Rating Disclosures

Distribution of Ratings/IB Services Firmwide and by Sector

KeyBanc Capital Markets

Rating	Count	Percent	IB Serv/Past 12 Mos. Count	IB Serv/Past 12 Mos. Percent
Overweight [OW]	258	49.14	42	16.28
Sector Weight [SW]	261	49.71	44	16.86
Underweight [UW]	6	1.14	2	33.33

Energy

Rating	Count	Percent	IB Serv/Past 12 Mos. Count	IB Serv/Past 12 Mos. Percent
Overweight [OW]	22	38.60	15	68.18
Sector Weight [SW]	33	57.89	12	36.36
Underweight [UW]	2	3.51	2	100.00

Rating System

Overweight - We expect the stock to outperform the analyst's coverage sector over the coming 6-12 months.

Sector Weight - We expect the stock to perform in line with the analyst's coverage sector over the coming 6-12 months.

Underweight - We expect the stock to underperform the analyst's coverage sector over the coming 6-12 months.

Disclosure Appendix (cont'd)

Important disclosures for the companies mentioned in this report can be found at **https://key2.bluematrix.com/sellside/Disclosures.action**.

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC ("KBCMI"), and KeyBank National Association ("KeyBank N.A."), are marketed.

KeyBanc Capital Markets Inc. ("KBCMI") does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst's compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. This communication is intended solely for use by KBCMI clients. The recipient agrees not to forward or copy the information to any other person without the express written consent of KBCMI.

KBCM Research LLC ("KeyBanc Capital Markets Research"), an SEC registered investment advisor, is a wholly owned subsidiary of KeyBanc Capital Markets Inc. KeyBanc Capital Markets Research provides objective and sophisticated **Research Services**, primarily in the form of published Research Reports, to an institutional client base in exchange for a cash fee. KBCM Research does not provide particularized investment advice with regard to any specific institutional client, on the basis of specific sector or company requests from a client. Our advisory relationship with our clients is strictly limited to the provision of **Research Services**, which are not to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. Additional information about KBCM Research LLC also is available on the SEC's Investment Adviser Public Disclosure (IAPD) website.

Power & Utilities

December 27, 2023

The Guggenheim Daily Transmission: ISO-NE/ Transmission, EXC/IL, NY, AEP

For details on our 2023 events, scroll down...

ISO-NE/transmission – Maine PUC cancels contract for major transmission project

EXC/IL – Labor group files for rehearing in IL

NY – NY attorney general argues the gas policy is protected under US constitution

AEP – Regulators approve 245 MW solar farm for I&M

ISO-NE/transmission – Maine PUC cancels contract for major transmission project

- The 1GW line would have moved power from a similarly sized wind project in Aroostook County in Maine to the center of the state.
- More HERE

Guggenheim takeaway: *Interesting data point on a competitively-procured project.*

EXC/IL – Labor group files for rehearing in IL

- "IBEW Local 15's Application focuses solely on the Commission's incorrect decision to preclude ComEd from receiving any return on its Pension Asset. Order at 369-70. As discussed below, neither the law nor the facts support this result. The maintenance of the Pension Asset, and ComEd's decision to support it with shareholder funds, has benefitted workers and retirees as well as all customers." – filing
- More HERE

Guggenheim takeaway: *Minor FYI as this is a limited focus for the IBEW, however, we continue to monitor the process for further rehearing details and potential appeals – see our note HERE for more.*

NY – NY attorney general argues the gas policy is protected under US constitution

- The NY AG office made claims that the challenges against the NY gas ban should be dismissed.
- Under the arguments, the appeals court does not have the jurisdiction to rule on the challenges to the NY gas ban.
- More in media here.

Guggenheim takeaway:*FYI.*

AEP – Regulators approve 245 MW solar farm for I&M

- The Michigan PSC has approved I&M's plan to construct its largest solar farm so far.
- The PSC approved $532m for potential project costs.
- Regulators also approved the utility's request to defer incurred project costs as a regulatory asset until it is able to be moved into base rates.
- Construction is expected to begin in 4Q24 and to reach COD by 2Q26.
- Company press release HERE.

Guggenheim takeaway: *FYI, as we expected. As a reminder, I&M is working towards meeting a 749 MW need across four solar projects as part of its IRP filings.*

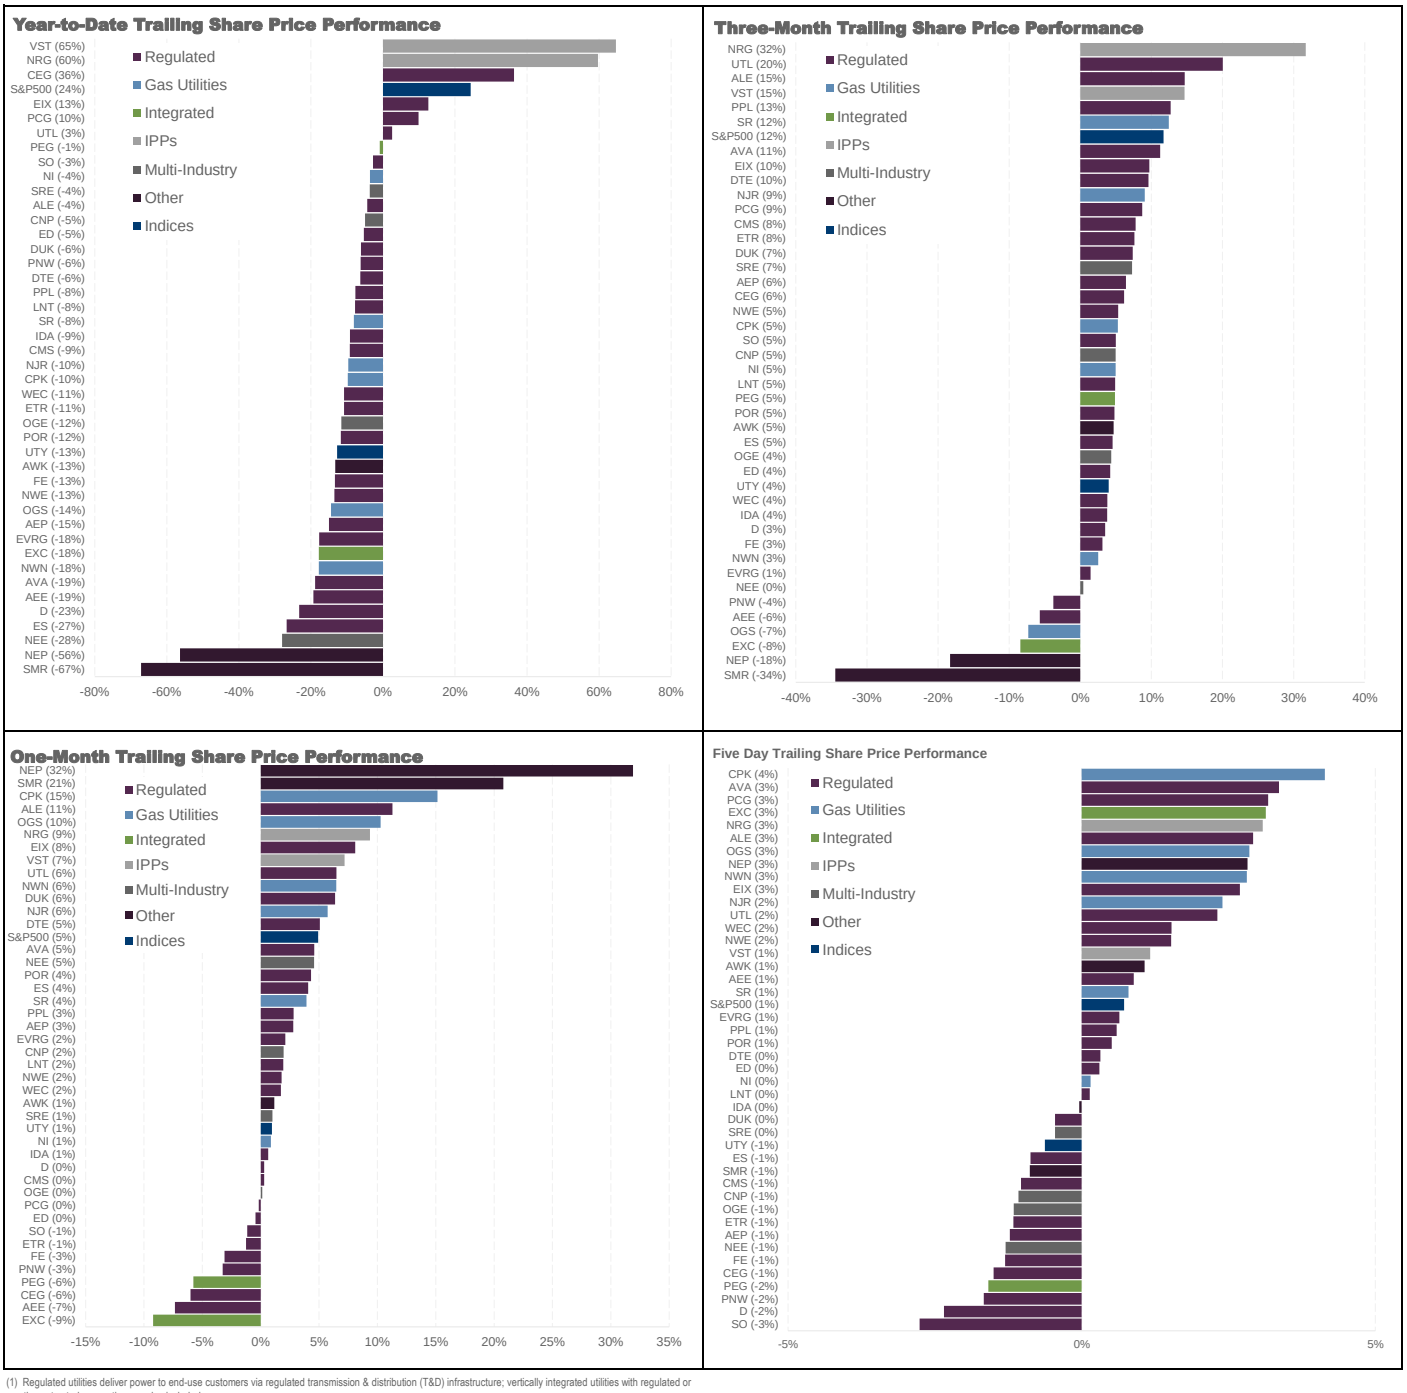
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

Rating and Price Target History for: American Electric Power Co., Inc. (AEP) as of 12-26-2023

Created by: BlueMatrix

Rating and Price Target History for: Exelon Corporation (EXC) as of 12-26-2023

Created by: BlueMatrix

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 10-Jan-2024 07:35 PM.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

SELL	8	2.20%	0	0.00%

OTHER DISCLOSURES

This research is for our clients and prospective clients only. This research was prepared by personnel who are associated with both Guggenheim Securities, LLC (a FINRA-registered broker-dealer, “Guggenheim Securities”) and Guggenheim Securities Research Services, LLC (an investment adviser, “GSRS,” and together with Guggenheim Securities, “Guggenheim”). If you are paying separately for this research, it is being provided to you by GSRS. Otherwise, it is being provided by Guggenheim Securities. Guggenheim does not create tailored or personalized research and all research provided by Guggenheim is impersonal advice. Other than disclosures relating to Guggenheim and our affiliates, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the research analyst's judgement. Guggenheim Securities conducts a full-service, integrated investment banking and brokerage business. Guggenheim Securities is a member of SIPC (http://www.sipc.org). Guggenheim Securities' salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to Guggenheim Securities' clients and our employees trading for our own account that reflect opinions that are contrary to the opinions expressed in this research. Guggenheim and certain of our affiliates conduct an investment management business, trade for their own accounts, and may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

We and our affiliates, officers, directors, and employees, excluding equity and credit analysts, will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research. We and our affiliates also may sell to or buy from customers on a principal basis the securities described herein. We and our affiliates also do business with, or that relates to, companies covered in Guggenheim research and may have a position in the debt of the company or companies discussed herein.

This research is not an offer to sell or the solicitation of an offer to buy any security. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them will fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

WATTS COOKING? Weekly

Topics: EXC; SO; CMS

Our view: Weekly developments that we found to be of interest.

WATTS on Your Mind

This past quieter week, many conversations focused on the Illinois rate case decision for **EXC** (we do not cover **AEE**) and what it means for the rest of the industry (see comments here). Most investors focused on the damage that has been done to EXC's otherwise intriguing growth profile. A few investors inquired whether the stock price weakness was a good entry point, but we are not seeing many warming up to the idea. Ultimately, we need to see more concrete evidence that the Commission understands the challenges that are now facing Illinois utilities.

WATTS on Our Mind

This is our last WATTS Cooking in 2023. We wish everyone a wonderful Holiday Seasons and a Happy New Year!

On Tuesday, the Georgia Public Service Commission (GPSC) approved Georgia Power's Vogtle Units 3 and 4 prudency settlement. The settlement (reached in August) calls for recovery of $7.6B in capital costs and $1.02B in associated retail rate base items. Once Unit 4 reaches COD, the additional $5.5B of capital costs will be included in rate base. We highlight that **SO** will be on the hook for the remaining $2.6B of capital costs. **Our view: The unanimous approval was very much expected but nonetheless represents a checked box on the road to putting Vogtle risk behind them. However, if COD is not reached by 3/31/2024, Georgia Power's ROE on existing Vogtle base rates will be zero until COD is reached.**

On Thursday, Consumers Energy's electric rate case (U-21389) received a Proposal for Decision (PFD) from the ALJ. The ROE and equity ratio recommended in the PFD was 9.8% and 50%, respectively, in line with the Michigan Public Service Commission (MPSC) staff's recommendation. The company filed for a 10.25% ROE and 51.5% equity ratio. The PFD recommended a revenue increase of $86M, compared to the staff's revised recommendation of $105M and the company's revised request of $169M. On the undergrounding pilot, the ALJ and Staff recommended limiting construction to 10.3 miles, rejecting the company's argument for an additional 11.3 miles. The PFD also calls for the rejection of the Investment Recovery Mechanism (IRM). **Our view: The PFD was largely in line with our expectations. We would not be surprised to see the Commission extend the company's current ROE of 9.9% in the final order, similar to DTE. The largest point of contention is the IRM, which is predominantly the reason the case will likely go the fully litigated route. Given the Commission's support for a mechanism to isolate the investment opportunity and the recent approval of an IRM for DTE, we believe that a similar outcome is likely for CMS. As a reminder, CMS has filed for ~$100M of investment per year ending in February 2027.**

Capital Markets

Required disclosures

Conflicts disclosures

This product constitutes a compendium report (covers six or more subject companies). As such, RBC Capital Markets chooses to provide specific disclosures for the subject companies by reference. To access conflict of interest and other disclosures for the subject companies, clients should refer to https://www.rbccm.com/GLDisclosure/PublicWeb/DisclosureLookup.aspx?entityId=1. These disclosures are also available by sending a written request to RBC Capital Markets Research Publishing, P.O. Box 50, 200 Bay Street, Royal Bank Plaza, 29th Floor, South Tower, Toronto, Ontario M5J 2W7 or an email to rbcinsight@rbccm.com.

The analyst(s) responsible for preparing this research report received compensation that is based upon various factors, including total revenues of the member companies of RBC Capital Markets and its affiliates, a portion of which are or have been generated by investment banking activities of the member companies of RBC Capital Markets and its affiliates.
With regard to the MAR investment recommendation requirements in relation to relevant securities, a member company of Royal Bank of Canada, together with its affiliates, may have a net long or short financial interest in excess of 0.5% of the total issued share capital of the entities mentioned in the investment recommendation. Information relating to this is available upon request from your RBC investment advisor or institutional salesperson.

Explanation of RBC Capital Markets Equity rating system

An analyst's 'sector' is the universe of companies for which the analyst provides research coverage. Accordingly, the rating assigned to a particular stock represents solely the analyst's view of how that stock will perform over the next 12 months relative to the analyst's sector average.
Ratings
Outperform (O): Expected to materially outperform sector average over 12 months.
Sector Perform (SP): Returns expected to be in line with sector average over 12 months.
Underperform (U): Returns expected to be materially below sector average over 12 months.
Restricted (R): RBC policy precludes certain types of communications, including an investment recommendation, when RBC is acting as an advisor in certain merger or other strategic transactions and in certain other circumstances.
Not Rated (NR): The rating, price targets and estimates have been removed due to applicable legal, regulatory or policy constraints which may include when RBC Capital Markets is acting in an advisory capacity involving the company.
Risk Rating
The **Speculative** risk rating reflects a security's lower level of financial or operating predictability, illiquid share trading volumes, high balance sheet leverage, or limited operating history that result in a higher expectation of financial and/or stock price volatility.

Distribution of ratings

For the purpose of ratings distributions, regulatory rules require member firms to assign ratings to one of three rating categories - Buy, Hold/Neutral, or Sell - regardless of a firm's own rating categories. Although RBC Capital Markets' ratings of Outperform (O), Sector Perform (SP), and Underperform (U) most closely correspond to Buy, Hold/Neutral and Sell, respectively, the meanings are not the same because our ratings are determined on a relative basis.

Distribution of ratings
RBC Capital Markets, Equity Research
As of 30-Sep-2023

			Investment Banking Serv./Past 12 Mos.	
Rating	Count	Percent	Count	Percent
BUY [Outperform]	820	55.97	250	30.49
HOLD [Sector Perform]	590	40.27	148	25.08
SELL [Underperform]	55	3.75	5	9.09

Conflicts policy

RBC Capital Markets Policy for Managing Conflicts of Interest in Relation to Investment Research is available from us on request. To access our current policy, clients should refer to

or send a request to RBC Capital Markets Research Publishing, P.O. Box 50, 200 Bay Street, Royal Bank Plaza, 29th Floor, South Tower, Toronto, Ontario M5J 2W7. We reserve the right to amend or supplement this policy at any time.

Dissemination of research

RBC Capital Markets endeavors to make all reasonable efforts to provide research content simultaneously to all eligible clients, having regard to local time zones in overseas jurisdictions. RBC Capital Markets provides eligible clients with access to Research Reports on the Firm's proprietary INSIGHT website, via email and via third-party vendors. Please contact your investment advisor or institutional salesperson for more information regarding RBC Capital Markets' research.
For a list of all recommendations on the company that were disseminated during the prior 12-month period, please click on the following link: https://rbcnew.bluematrix.com/sellside/MAR.action
The 12 month history of Quick Takes can be viewed at RBC Insight.

Analyst certification

All of the views expressed in this report accurately reflect the personal views of the responsible analyst(s) about any and all of the subject securities or issuers. No part of the compensation of the responsible analyst(s) named herein is, or will be, directly or indirectly, related to the specific recommendations or views expressed by the responsible analyst(s) in this report.

Third-party disclaimers

The Global Industry Classification Standard ("GICS") was developed by and is the exclusive property and a service mark of MSCI Inc. ("MSCI") and Standard & Poor's Financial Services LLC ("S&P") and is licensed for use by RBC. Neither MSCI, S&P, nor any other party involved in making or compiling the GICS or any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability and fitness for a particular purpose with respect to any of such standard or classification. Without limiting any of the foregoing, in no event shall MSCI, S&P, any of their affiliates or any third party involved in making or compiling the GICS or any GICS classifications have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

RBC Capital Markets disclaims all warranties of originality, accuracy, completeness, merchantability or fitness for a particular purpose with respect to any statements made to the media or via social media that are in turn quoted in this report, or otherwise reproduced graphically for informational purposes.

Disclaimer

RBC Capital Markets is the business name used by certain branches and subsidiaries of the Royal Bank of Canada, including RBC Dominion Securities Inc., RBC Capital Markets, LLC, RBC Europe Limited, RBC Capital Markets (Europe) GmbH, Royal Bank of Canada, Hong Kong Branch, Royal Bank of Canada, Singapore Branch and Royal Bank of Canada, Sydney Branch. The information contained in this report has been compiled by RBC Capital Markets from sources believed to be reliable, but no representation or warranty, express or implied, is made by Royal Bank of Canada, RBC Capital Markets, its affiliates or any other person as to its accuracy, completeness or correctness. All opinions and estimates contained in this report constitute RBC Capital Markets'' judgement as of the date of this report, are subject to change without notice and are provided in good faith but without legal responsibility. Nothing in this report constitutes legal, accounting or tax advice or individually tailored investment advice. This material is prepared for general circulation to clients and has been prepared without regard to the individual financial circumstances and objectives of persons who receive it. The investments or services contained in this report may not be suitable for you and it is recommended that you consult an independent investment advisor if you are in doubt about the suitability of such investments or services. This report is not an offer to sell or a solicitation of an offer to buy any securities. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. RBC Capital Markets research analyst compensation is based in part on the overall profitability of RBC Capital Markets, which includes profits attributable to investment banking revenues. Every province in Canada, state in the U.S., and most countries throughout the world have their own laws regulating the types of securities and other investment products which may be offered to their residents, as well as the process for doing so. As a result, the securities discussed in this report may not be eligible for sale in some jurisdictions. RBC Capital Markets may be restricted from publishing research reports, from time to time, due to regulatory restrictions and/ or internal compliance policies. If this is the case, the latest published research reports available to clients may not reflect recent material changes in the applicable industry and/or applicable subject companies. RBC Capital Markets research reports are current only as of the date set forth on the research reports. This report is not, and under no circumstances should be construed as, a solicitation to act as securities broker or dealer in any jurisdiction by any person or company that is not legally permitted to carry on the business of a securities broker or dealer in that jurisdiction. To the full extent permitted by law neither RBC Capital Markets nor any of its affiliates, nor any other person, accepts any liability whatsoever for any direct, indirect or consequential loss arising from, or in connection with, any use of this report or the information contained herein. No matter contained in this document may be reproduced or copied by any means without the prior written consent of RBC Capital Markets in each instance.

Additional information is available on request.

December 20, 2023

Energy: Electric Utilities

Midweek Thoughts — EXC, SO, EIX, AEP, OTTR, PEG, AGR

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com
Madison Lehan / (917) 368-2293 / madison.lehan@key.com

This week, intervenors file testimony in PEPCo's MD electric rate case; the GA PSC authorizes SO to recover $7.6B for Vogtle Units 3 and 4; the CA PUC adopts settlement authorizing a $790M revenue increase in 2024 for SCE; the PUCT approves a preliminary order resulting in AEP's expectation of a non-operating charge in 4Q23; the ND PSC authorizes OTTR to implement interim rates; PEG initiates 2024 EPS guidance; and AGR announces first tax equity funding for Vineyard Wind project.

ICYMI

DUK — The NCUC issued a final order in the DEC rate case, whereby DUK received a 10.1% ROE and a $768M revenue increase (93% of ask), as well as resolved other key items. The order supports our positive view on DUK, as we see the outcome as constructive. Read our full note here.

Industry News and News from Companies in Our Coverage

EXC — Intervenors file testimony in PEPCo's MD electric rate case: Staff filed testimony recommending a cumulative $132M revenue increase, premised on a 9.55% ROE and 50.5% equity. This compares to PEPCO's request (Docket: 9702) for a cumulative net increase of $214M, premised on a 10.5% ROE and 50.5% equity (net $74M revenue increase in 2024, $60M each in 2025 and 2026, and a $20M revenue increase in April 2027-December 2027). In addition to the lower ROE, an adjustment to depreciation expenses to eliminate depreciation on disallowed rate base items contributed to the delta. Staff also recommended rates remain flat in 2027, with a true-up to address any shortfall from April 1, 2027, to December 31, 2027. The OPC recommended a $66M revenue increase over the four years, using a 9.25% ROE, but recommended the PSC only authorize a single-year increase. The OPC proposed the same in EXC's BGE rate case, but the PSC denied the OPC's recommendation in the BGE case. However, the PSC noted it will investigate if continuing the multi-year plan process makes sense. Rebuttal testimony is due January 26, followed by evidentiary hearings beginning in March 2024. A final order is expected in June 2024, with rates retroactive to April 1, 2024.

SO — GA PSC authorizes SO to recover $7.6B for Vogtle: The GA PSC voted to approve the settlement in SO's Vogtle cost recovery proceedings. As a result, SO is authorized the recovery of $7.562B for construction and capital costs associated with Vogtle Units 3 and 4. SO currently has $2.1B of project construction costs in rate base but will be able to include the remaining $5.462B once Unit 4 is in commercial operation. The stipulation resolved all prudency review issues concerning Vogtle, including specifying the depreciation rate and other relevant matters. GP will continue to file the semiannual VCM reports until Unit 4 reaches commerciality, but no testimony or hearings related to them are required. Unit 4 is expected to enter commercial operations in March 2024. As of 3Q23, SO's forecasted total construction and capital cost for the project stands at $10.7B.

EIX — CA PUC adopts settlement in Track 4 proceedings of SCE's GRC: The PUC adopted the settlement in Track 4 of SCE's GRC, authorizing a $8.4B revenue requirement for 2024. The authorized amount is a $790M increase over the 2023 estimated revenue requirement of $7.7B for the 2023 attrition year. The settlement included an increase to O&M expenses for $255M and $52M for vegetation management and wildfire mitigation, respectively. SCE initially requested authorization of $8.6B in revenue for 2024, an increase of $972M. The Track 4 proceedings provide a bridge-year funding mechanism for 2024 between the Company's three-year 2021 GRC and the upcoming four-year 2025 GRC cycle. A significant portion of the Track 4 revenue requirement is in relation to projects previously approved by the CPUC. The rates go into effect on January 1, 2024.

AEP — PUCT approves preliminary order in proceedings on the disallowance of capitalized Turk Plant costs: The PUCT approved a preliminary order (Docket: 55155) and referred the docket to the State Office of Administrative Hearings to address seven issues related to AEP's SWEPCo 2012 rate case (Docket: 40443). AEP's request to recover costs exceeding the $1.522B Texas Capital Cost Cap for the Turk Plant was excluded from the list of issues. Therefore, AEP does not believe it will be able to recover capitalized AFUDC over the $1.522B cap. As a result, AEP expects to record a pre-tax, non-cash disallowance of $80M-$90M in 4Q23. AEP could also be required to refund customers $0-$200M for the collection of revenues between February 2013 through December 2013. The refund amount will be addressed by the SOAH. The remand proceeding refers to AEP's 2012 rate case, when it sought to recover the cost of its Turk Capital plan, including AFUDC. The final order included AFUDC in the cost cap, which was appealed and temporarily reversed to exclude AFUDC before the Texas Third Court of Appeals determined that AFUDC should be included

and remanded the case back to the PUC. A prehearing conference on the preliminary order will be held on January 23. AEP expects to exclude the pre-tax charge from its 2023 operating EPS. The Company reaffirmed 2024 operating EPS guidance of $5.53-$5.73 and its 6-7% long-term earnings growth rate.

OTTR — ND PSC authorizes net $14M interim rate increase: The PSC authorized OTTR to implement a net $14M rate increase effective January 1. The interim rate increase includes the transfer of $20M of rider into rates. OTTR is requesting (Docket: PU-23-342) a $17M net revenue increase, premised on a 10.6% ROE and 53.5% equity layer. OTTR also seeks to move ~$23M of revenues from riders into base rates. The filing included a sales adjustment rider proposal, which would limit the rate case filings required due to a significant change in sales. OTTR does not have a decoupling mechanism in place in ND. There is no procedural schedule set, but typically, ND rate cases are completed in seven months.

PEG — PEG initiates 2024 EPS guidance of $3.60-$3.70: PEG initiated 2024 EPS guidance of $3.60-$3.70. The midpoint of the range represents a 6% increase from 2023 EPS guidance of $3.40-$3.50, in line with the Company's long-term outlook of 5-7% earnings growth through 2027. The 2024 guidance compares to our consensus-matching EPS estimate of $3.69.

AGR — AGR announces first tax equity funding for Vineyard Wind: AGR announced that it received the first funding from its $1.2B tax-equity financing transaction. AGR also issued a $57M parent guaranty in favor of the tax equity investors. The guaranty will increase as the tax equity investors fund the offshore project, including a maximum guaranteed amount of $725M. The 804 MW Vineyard Wind I will consist of 62 turbines upon completion. The project is on track (COD 2024), and AGR expects that 85% of the capex should be eligible for a 30% ITC. The project is a 50/50 partnership between AGR and Copenhagen Infrastructure Partners.

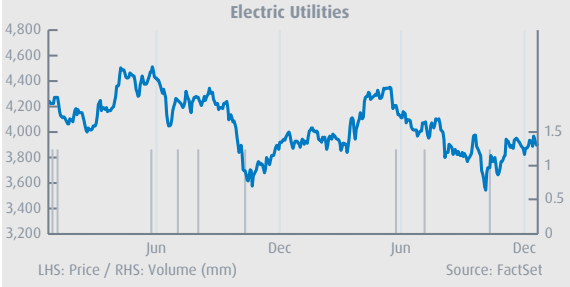
Legal Entity: BMO Capital Markets Corp.



Bottom Line:

Following significant underperformance of more than ~11% for EXC and ~8% for AEE, we are revising our 2025 estimates and present our updated illustrative 2025/2026 scenario analysis. Our revised scenarios imply 2025/2026 EPS for EXC of $2.58/$2.70 and $4.83/$5.04 for AEE. Our target prices go to $38 for EXC and $78 for AEE based on our revised 2025 estimates. **We see shares of EXC still trading at a 6-7% discount and a modest 1-3% premium for AEE on our bearish EPS scenarios (a double discount) which supports our Outperform ratings.**

Key Points

Inside the note we present exhibits with our updated scenario analysis and our new credit analysis as well as a detailed description of our thought process.

Our updated outlooks for both companies now formally include the incremental EPS headwinds related to a 25% reduction in ongoing capital expenditures at IL electric distribution operations as well as incremental external equity to repair the net impacts to credit metrics related to impacts of the lower ROE and ongoing lower FFO and debt related to our lower investment outlook (~20-30bps of FFO/debt to consolidated metrics). We have also included the incremental EPS drag from the ICC's treatment on pension/OPEB returns. **Importantly, in the effort of conservatism, we also do not assume either company shifts our reduced capital investment in IL to any of its other operating subsidiaries nor do we assume any EPS mitigation via cost savings.**

We believe that this creates a sufficiently bearish earnings outlook for both names, and given the significant relative underperformance of EXC (~11%) and AEE (~8%) over the last week, we believe the implied ~6-7% discount for EXC and ~1-3% premium for AEE represents an overly punitive "double discount" (both earnings and multiple) for both names. We believe this provides a good support level for both companies and underpins the maintenance of our Outperform ratings on EXC and AEE shares. However, we acknowledge the significant "air gap" in the catalyst calendar for both companies with: 1) no additional clarity on either companies' long-term growth rates, capital investment outlooks, or equity requirements until their 4Q23 calls in January/February; and 2) any additional regulatory clarity from the ICC related to their grid plans until later in 2024. As such, while we believe the stocks are likely approaching a bottom and have a favorable risk/return profile at current levels, they could chop in the interim as we see continued sponsorship rotation and investors further handicap the ongoing earnings power for both names and there is a lack of any immediate upside catalysts.

Investors remain keenly focused on whether the companies will be able to maintain their long-term growth rates of 6-8%. **Based on both stocks' performance over the last four trading days and the relative P/E valuation on our bearish EPS outlook, we see any downward revision to the growth rate as already discounted in EXC/ AEE shares.**

Although we see the risk/return on both names as favorable given the recent sell-off and the implied valuations associated with our revised forecast, we believe EXC could be closer to approaching a fundamental bottom in the near term.

For disclosure statements, including the Analyst Certification, please refer to page(s) 11 to 16.

Industry Research

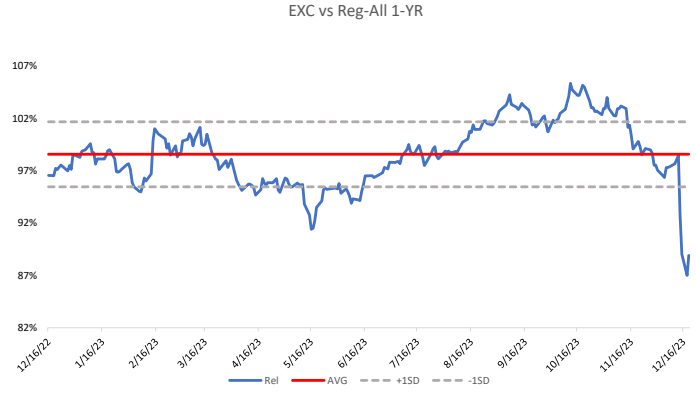
Glossary

Time to EXC-h-AEE-le? Full Clarity Will Take Time but Bear Case Likely Priced in at Current Levels

Bottom Line: We are revising our scenario analysis related to the ICC's MYRP orders for both Exelon (EXC-NSDQ, $35.41) and Ameren (AEE-NYSE, $72.35) to reflect what we believe likely represents a more conservative set of assumptions. Our revised scenarios imply 2025/2026 EPS for EXC of $2.58/$2.70 and $4.83/$5.04 for AEE. Our updated outlooks for both companies now formally include the incremental EPS headwinds related to a 25% reduction in ongoing capital expenditures at Illinois (IL) electric distribution operations as well as incremental external equity to repair the net impacts to credit metrics related to impacts of the lower ROE and ongoing lower FFO and debt related to our lower investment outlook (~20-30bps of FFO/debt to consolidated metrics). We have also included the incremental EPS drag from the ICC's treatment on pension/OPEB returns. Importantly, in the effort of conservatism, we also do not assume either company shifts our reduced capital investment in IL to any of its other operating subsidiaries nor do we assume any EPS mitigation via cost savings.

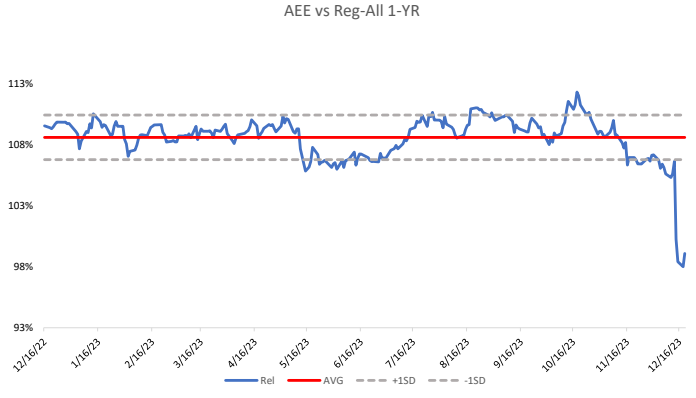
We believe that this creates a sufficiently bearish earnings outlook for both names, and given the significant relative underperformance of EXC (~11%) and AEE (~8%) over the last week, we believe the implied ~6-7% discount for EXC and ~1-3% premium for AEE represents an overly punitive "double discount" (both earnings and multiple) for both names. We believe this provides a good support level for both companies and underpins the maintenance of our Outperform ratings on EXC and AEE shares. However, we acknowledge the significant "air gap" in the catalyst calendar for both companies with: 1) no additional clarity on either companies' long-term growth rates, capital investment outlooks, or equity requirements until their 4Q23 calls in January/February; and 2) any additional regulatory clarity from the ICC related to their grid plans until later in 2024. As such, while we believe the stocks are likely approaching a bottom and have a favorable risk/return profile at current levels, they could chop in the interim as we see continued sponsorship rotation and investors further handicap the ongoing earnings power for both names and there is a lack of any immediate upside catalysts. **Although we see the risk/return on both names as favorable given the recent sell-off and the implied valuations associated with our revised forecast, we believe EXC could be closer to approaching a fundamental bottom in the near term.**

Exhibit 1: EXC 12-Month 2YR Forward Relative P/E



Source: BMO Capital Markets, FactSet

Exhibit 2: AEE 12-Month 2YR Forward Relative P/E



Source: BMO Capital Markets, FactSet

Updated & Incrementally Conservative Exelon Outlook

EXC shares have pulled back nearly 11% relative to their utility peers after the ICC's initial order in the company's MYRP on 12/14/23 that was followed by multiple sell side downgrades. With no clarity related to ComEd's forward distribution investment program and the associated credit impacts of the order, this level of underperformance clearly reflects investors' lack of clarity on the forward earnings

power of the company. As such, we are revising our initial scenario analysis to reflect what we believe likely represents a more conservative set of assumptions. In our initial scenario analysis, we adjusted our 2024 EPS estimate for ~80bps reduction in our ROE assumptions (original assumption of 9.7%) and the implied reduction in rate base for 2024 based on the order approving a rate base consistent with the 2022 year-end level (and possibly functionally ignoring any invested capital in 2023 until a grid plan and revised rate base levels are approved later in 2024). Our previous base case then assumed that with the approval of a grid plan sometime in 2024 the forward rate base estimates did not change significantly from the company's 4Q22 outlook (as capital has yet to be formally disallowed) which limited the impact in 2025 and beyond to the ~$0.06-0.07 EPS headwind from the change in our earned ROE assumptions.

However, in an effort to paint a more conservative or even near-worst case scenario, we are revising the assumptions behind our initial scenario analysis: 1) we maintain our earnings headwinds for the ~80bps change in the ROE which represents around a $0.06-0.07 EPS headwind; 2) we formally reduce our estimates by an additional ($0.03) to account for the disallowance of any return on the pension asset; and 3) with the significantly lower-than-expected ROE awarded to ComEd as well as the associated impact to the opco's ongoing FFO, we expect the company to likely reduce its overall distribution capital investment in the state. Although we believe the company could have the ability to replace some of this lower assumed capital investment into other jurisdictions including transmission projects (as signaled on the company's 3Q23 call) and potentially additional capital deployment into PECO, which remains the company's largest jurisdiction operating outside of a multi-year rate plan. **However, as we look to stress our scenarios, we are removing $500mm per year of capital from the ComEd distribution forecast beginning in 2024 and purposefully assume the capital is not redeployed elsewhere and/or mitigated with other cost offsets to be conservative.** We estimate that on a full run-rate basis every $500mm of capital removed represents ~$0.02-0.025 of EPS.

In Exhibit 3 below we illustrate the impact of the aforementioned changes in our assumptions which would result in an additional ~$0.06 headwind to our 2025 EPS and ~$0.08 to an illustrative 2026 EPS presented in our 12/14/2023 scenario analysis.

Source: BMO Capital Markets, Company Reports

We then turn to assess the net credit impacts of aforementioned changes. We begin with the company's current YE22 and TTM (ending 1Q23) FFO/debt metrics that were 13.4% and 13.1%, respectively, which is in line with management's expectation of being at the low end of their 13-14% target range when including the negative impact of the Corporate Alternative Minimum Tax cash included in the IRA of

~$200mm. Of note the baseline in our previous published analysis includes ~20bps of additional cushion or 13.2%. We see the net impact in our revised scenarios implying a ~30bps headwind to consolidated credit metrics due to: 1) the reduction in the allowed ROE; 2) lost FFO from lower capital deployment; and 3) pension return disallowance. This is partially offset by lower overall debt issuances related to the debt component of our assumed capital investment reduction. **Accordingly, although the company would still be meaningfully above their ~12% downgrade threshold (Moody's basis), we estimate that the company could require ~$1bn of external equity issuance to bring its metrics back in line with the company's targeted 13-14% range or at least 100bps cushion above its downgrade threshold**. As a placeholder, we have assumed the company would layer that equity via a ratable issuance across 2025 where the dilution is partially offset by interest savings as it uses the proceeds to pay down debt/avoid incremental debt issuances. **In Exhibit 4 below we illustrate this analysis and the impact of the additional equity on 2025 and 2026 EPS.**

Source: BMO Capital Markets, Company Reports, FactSet

Given the aforementioned impacts, we are updating our 2025 EPS to $2.58 from $2.66 while our 2023 and 2024 estimates remain unchanged at $2.36 and $2.37, respectively.

After incorporating a more conservative set of assumptions in our updated scenario analysis, we see shares of EXC trading at a ~6-7% discount, which represents an overly punitive "double discount" (both earnings and multiple) and underpins our reiteration of our Outperform rating. Furthermore, we would emphasize we find these assumptions to be sufficiently conservative as they assume no mitigating offsets to the headwinds which should approach a near worst-case scenario. However, we acknowledge the significant "air gap" in the catalyst calendar for both companies with: 1) no additional clarity on either companies' long-term growth rates, capital investment outlooks, or equity requirements until their 4Q23 calls in January/February; and 2) any additional regulatory clarity from the ICC related to their grid plans until later in 2024. As such, while we believe the stocks are likely approaching a bottom and have a favorable risk/return profile at current levels, they could chop in the interim as we see continued sponsorship rotation and investors further handicap the ongoing earnings power for both names and there is a lack of any immediate upside catalysts. **Although we see the risk/return on both names as favorable given the recent sell-off and the implied valuations associated with our revised forecast, we believe EXC could be closer to approaching a fundamental bottom in the near term.**

EXC has 30 days to file for reconsideration/rehearing with the ICC who then has 20 days to respond to the company's motion. If rehearing is denied, we would expect the company to seek relief through the appellate system specifically on the issues of ROE, capital structure, and the pension disallowance. ComEd's updated grid plan is due to be filed within 90 days (approximately 3/14/24). **Before the re-filing deadline the company is likely to roll forward their capital plan and provide their annual long-term financial update on their year-end call in January/February**. With this update, investors remain keenly focused on whether or not the company will be able to maintain their long-term growth rate of 6-8%. **Based on the stock's performance over the last four trading days and the relative P/E discount on our bearish EPS outlook, we see any downward revision to the growth rate as already discounted in EXC shares**. In fact, with a cut to the growth rate likely priced in, we believe the year-end call could be a positive catalyst as management is able to provide investors with incremental clarity relative to the current opacity including any potential mitigatory measures including cost saving and capital reallocation, neither of which we have included our current EPS outlook.

Our target price moves to $38 using our revised 2025 EPS estimates and supports a 12% total return opportunity even using our revised/more conservative assumptions.

Updated & Incrementally Conservative Ameren Outlook

Following AEE's significant underperformance of almost 8% relative to its peers after the ICC's order in the company's MYRP on 12/14/23, we are revising our initial scenario analysis to reflect what we believe likely represents a more conservative set of assumptions in an effort to paint a worst or near-worst case scenario for AEE shares. In our initial scenario analysis, we had adjusted our 2024 EPS estimate for: 1) ~100bps reduction in our ROE assumptions (original assumption of 9.7%); and 2) the implied reduction in rate base for 2024 based on the language in the ICC's order approving a rate base consistent with the company's 2022 year-end jurisdictional distribution rate base (which we believe did not include invested capital for 2023) and CAPEX consistent with the company's current capital spending plan until the ICC approves its MYRP-related grid plan later in 2024. We had previously assumed that with the approval of the grid plan, the forward rate base estimates would not likely change significantly (using the company's current forecast and as capital has yet to be formally disallowed) and the ultimate impact in 2025 and beyond would be limited to the ~$0.08-0.09 EPS headwind from the change in just the authorized ROE.

However, similar to our analysis above for EXC, we are revising our initial forecast to reflect a more conservative financial case given the significant uncertainty in the forward earnings and cash flow of the company's Illinois electric distribution operations. Specifically, our revised analysis makes the following assumptions: 1) we maintain our earnings headwinds for the ~100bps change in the ROE; 2) we formally reduce our estimates by an additional ($0.04) to account for the disallowance of a return on OPEB (~$14mm revenue headwind); and 3) with a disappointing authorized ROE we are reducing our assumed distribution investment in IL by ~$186mm per year or 25% beginning in 2024, and in the interest of conservatism have assumed the capital is not redeployed in MO or via transmission investment (despite the company's consolidated $48bn+ backlog), nor have we offset the impact with any assumed cost mitigation efforts. We estimate that on a full run-rate basis every $200mm of capital removed represents ~$0.03 of EPS.

In Exhibit 5 below we illustrate the impact of the aforementioned changes in our analysis which would result in an additional ~$0.08 headwind to our 2025 EPS and ~$0.11 to the illustrative 2026 EPS presented in our 12/14/2023 scenario analysis.

Exhibit 5: Illustrative AEE IL Distribution EPS Changes and ROE/Rate Base Impacts

	2024	2025	2026
Current Rate Base	**$4,876**	**$5,220**	**$5,619**

*2026 Current EPS uses the illustrative $5.19 from our 12/14/23 scenario analysis

Source: BMO Capital Markets, Company Reports

We then go on to assess the credit impacts of these changes. We begin with an assumption that the company is at ~17.5% FFO/debt vs their 17.0% downgrade threshold using Moody's methodology. We see the lost FFO from the ROE reduction, lower capital deployment, and OPEB disallowance that is partially offset by lower debt issuance related to the debt component of our assumed reduction in capital spending, resulting in a net ~20-30bps headwind to consolidated credit metrics. Accordingly, although the company would still be above their consolidated ~17.0% downgrade threshold, **we estimate recouping the lost 20-30bps could require ~$264mm of higher external equity.** We layer this level of equity ratably across 2025 where the dilution is partially offset by a couple pennies of interest savings from the associated debt paydown/debt avoidance.

In Exhibit 6 we present the credit side of our analysis and the impact of the additional equity issuance on the company's 2025 and illustrative 2026 EPS. Given the aforementioned impacts, we are lowering our 2025 EPS to $4.83 from $4.93 while our 2023 and 2024 estimates remain unchanged at $4.37 and $4.48, respectively.

Source: BMO Capital Markets, Company Reports

After incorporating a more conservative set of assumptions in our updated scenario analysis, we see shares of AEE trading at a ~1-3% premium, which underpins the maintenance of our Outperform rating. Furthermore, we continue to emphasize we find these assumptions to be rather conservative and allocate no mitigating offsets to the headwinds. **That said, we acknowledge the catalyst calendar remains quiet.** AEE has 30 days to file for reconsideration/rehearing after which the ICC has 20 days to respond to the company's motion. If rehearing is denied, we would expect the company, like EXC, to seek relief through the appellate system. AEE's updated grid plan is due to be filed within 90 days (approximately 3/14/24). Prior to this re-filing deadline, we expect the company to roll forward their capital plan and provide their annual long-term financial update on their 4Q23 conference call based on their assessment of their consolidated capital opportunities, commitment to credit quality, and any mitigation efforts to help address or smooth any earnings or cash flow shortfalls.

Some investors remain focused on whether or not the company will update their long-term growth rate on the year-end call. Based on the stock's performance over the last four trading days and the in-line to modest premium on our revised/more conservative EPS outlook, similar to EXC, we see any update to the growth rate as largely perfunctory. In fact, we believe the year-end call could help derisk the story as management is able to provide additional clarity on some of the potential mitigatory actions it could take including cost savings and/or capital reallocation, which we have explicitly not given them credit for in our current outlook.

Our target price moves to $78 using our revised 2025 EPS estimates and supports an 11% total return opportunity even using our revised/more conservative assumptions.

Accordingly, it is possible that individual employees at BMO CMC may have material non-public information or opinions which are not included in, and may not be consistent with, the information and opinions in this research report.

Methodology and Risks to Target Price/Valuation for Ameren Corporation (AEE-NYSE)

Methodology: Our target price is based on a sum-of-the-parts methodology. Our framework begins with the relevant sector average P/E multiple using 2025E EPS as a base which we then adjust (premium, discount, or no change) to reflect the relative fundamentals of that segment.

Risks: AEE's regulated profile exposes the company to business risk including but not limited to: federal and state regulatory risk, federal and state political risk, environmental policy, interest rate risk, access to capital markets, construction risk, changes in customer demand trends, changes in customer affordability, extreme weather, natural disaster, and equipment failure. Ameren Illinois formula rates also directly expose 20% of the company's consolidated rate base to fluctuations in the 30-year Treasury yield.

Methodology and Risks to Target Price/Valuation for Exelon (EXC-NSDQ)

Methodology: We value EXC using our sum-of-the-parts valuation analysis to derive our target price. Our valuation takes into account the quality of EXC's assets relative to its peers and the company's regulated business rate base growth and funding sources.

Risks: Adverse outcomes in the company's inaugural MYRP filing in IL, DE electric rate case and 2025 PECO electric GRC. Despite having nearly a 1% cushion over its 12% downgrade threshold, the ability to meet its stated credit metrics given adverse impacts from severe storms, fuel deferrals, and other unforeseen expenses.

Methodology and Risks to Target Price/Valuation for Phillips Edison & Company, Inc. (PECO-NSDQ)

Methodology: Our target price is based on a combination of our NAV and DCF analyses, taking into account FFO/AFFO multiples relative to peers, other REITs, and earnings expectations.

Risks: Primary risks include a softening leasing environment and elevated store closings, rising interest rates, rising capitalization rates, the health of the economy and fluctuations in occupancy/rent levels, availability and cost of capital, financial stability of tenants, new competitive supply, environmental matters, and higher costs of maintaining vacant space (labor, energy/utilities, repairs and maintenance, etc.).

Ratings Key (as of October 2016)

We use the following ratings system definitions:
OP = Outperform - Forecast to outperform the analyst's coverage universe on a total return basis;
Mkt = Market Perform - Forecast to perform roughly in line with the analyst's coverage universe on a total return basis;
Und = Underperform - Forecast to underperform the analyst's coverage universe on a total return basis;
(S) = Speculative investment;
Spd = Suspended - Coverage and rating suspended until coverage is reinstated;
NR = No Rated - No rating at this time; and
R = Restricted - Dissemination of research is currently restricted.

The total return potential, target price and the associated time horizon is 12 months unless otherwise stated in each report. BMO Capital Markets' seven Top 15 lists guide investors to our best ideas according to different objectives (CDN Large Cap, CDN Small Cap, US Large Cap, US Small Cap, Income, CDN Quant, and US Quant have replaced the Top Pick rating).

Additional Matters

This report is directed only at entities or persons in jurisdictions or countries where access to and use of the information is not contrary to local laws or regulations. Its contents have not been reviewed by any regulatory authority. BMO Capital Markets does not represent that this report may be lawfully distributed or that any financial products may be lawfully offered or dealt with, in compliance with regulatory requirements in other jurisdictions, or pursuant to an exemption available thereunder.

To Australian residents: BMO Capital Markets Limited and Bank of Montreal are exempt from the requirement to hold an Australian financial services licence under the Corporations Act in respect of financial services they provide to wholesale investors (as defined in the Corporations Act). BMO Capital Markets Limited is regulated by the UK Financial Conduct Authority under UK laws, and Bank of Montreal in Hong Kong is regulated by the Hong Kong Monetary Authority and the Securities and Futures Commission, which differ from Australia laws. This document is only intended for wholesale clients (as defined in the Corporations Act 2001), Eligible Counterparties or Professional Clients (as defined in Annex II to MiFID II) and Professional Investors (as defined in the Securities and Futures Ordinance and the Securities and Futures (Professional Investor) Rules under the Securities and Futures Ordinance of Hong Kong).

To Canadian Residents: BMO Nesbitt Burns Inc. furnishes this report to Canadian residents and accepts responsibility for the contents herein subject to the terms set out above. Any Canadian person wishing to effect transactions in any of the securities included in this report should do so through BMO Nesbitt Burns Inc.

The following applies if this research was prepared in whole or in part by Colin Hamilton, Alexander Pearce or Raj Ray:

This research is not prepared subject to Canadian disclosure requirements. This research is prepared by BMO Capital Markets Limited and distributed by BMO Capital Markets Limited or Bank of Montreal Europe Plc and is subject to the regulations of the Financial Conduct Authority (FCA) in the United Kingdom and the Central Bank of Ireland (CBI) in Ireland. FCA and CBI regulations require that a firm providing research disclose its ownership interest in the issuer that is the subject of the research if it and its affiliates own 5% or more of the equity of the issuer. Canadian regulations require that a firm providing research disclose its ownership interest in the issuer that is the subject of the research if it and its affiliates own 1% or more of the equity of the issuer that is the subject of the research. Therefore each of BMO Capital Markets Limited

and Bank of Montreal Europe Plc will disclose its and its affiliates' ownership interest in the subject issuer only if such ownership exceeds 5% of the equity of the issuer.

To E.U. Residents: In an E.U. Member State this document is issued and distributed by Bank of Montreal Europe plc which is authorised and regulated in Ireland and operates in the E.U. on a passported basis. This document is only intended for Eligible Counterparties or Professional Clients, as defined in Annex II to "Markets in Financial Instruments Directive" 2014/65/EU ("MiFID II").

To U.S. Residents: BMO Capital Markets Corp. furnishes this report to U.S. residents and accepts responsibility for the contents herein, except to the extent that it refers to securities of Bank of Montreal. Any U.S. person wishing to effect transactions in any security discussed herein should do so through BMO Capital Markets Corp.

To U.K. Residents: In the UK this document is published by BMO Capital Markets Limited which is authorised and regulated by the Financial Conduct Authority. The contents hereof are intended solely for the use of, and may only be issued or passed on to, (I) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order") or (II) high net worth entities falling within Article 49(2)(a) to (d) of the Order (all such persons together referred to as "relevant persons"). The contents hereof are not intended for the use of and may not be issued or passed on to retail clients.

To Hong Kong Residents: In Hong Kong, this report is published and distributed by Bank of Montreal. Bank of Montreal (incorporated in Canada with limited liability) is an authorized institution under the Banking Ordinance and a registered institution with the Securities and Futures Commission (CE No. AAK809) to carry on Type 1 (dealing in securities) and Type 4 (advising in securities) regulated activities under the Securities and Futures Ordinance (Cap 571 of the Laws of Hong Kong). This report has not been reviewed or approved by any regulatory authority in Hong Kong. Accordingly this report must not be issued, circulated or distributed in Hong Kong other than (a) to professional investors as defined in the Securities and Futures Ordinance and the Securities and Futures (Professional Investor) Rules under the Securities and Futures Ordinance of Hong Kong, or (b) in circumstances which do not result in or constitute an offer to the public in Hong Kong.

To Korean Residents: This report has been provided to you without charge for your convenience only. All information contained in this report is factual information and does not reflect any opinion or judgement of BMO Capital Markets. The information contained in this report should not be construed as offer, marketing, solicitation or investment advice with respect to financial investment products in this report.

To Japan Residents: This report has not been reviewed by any regulatory authority in Japan. This report is provided for information purposes only and it should not be construed as an offer to sell, a solicitation to buy, or a recommendation for any security, or as an offer to provide investment management or advisory or other services in Japan. Securities may not be offered or sold in Japan by means of this report or any other document other than to Qualified Financial Institutions within the meaning of item (i) of Article 17-3 of the Government Ordinance to enforce the Financial Instruments and Exchange Act (Kinyu Shohin Torihiki Ho Sekou Rei). Unless specified otherwise, the securities that may be offered to you are not and will not be registered in Japan pursuant to the Financial Instruments and Exchange Acts.

To Taiwanese Residents: This report is not intended to constitute investment advice nor a public offer for any investment products to investors in Taiwan. This report should only be accessed by investors in Taiwan that are qualified to invest in investment products pursuant to relevant Taiwanese laws and regulations, and subject to sales restrictions as set forth in the relevant Taiwanese laws and regulations. BMO Capital Markets has not and will not secure the required licenses in Taiwan for the offer of securities and investment services. Any offer of securities has not been and will not be registered or filed with or approved by the Financial Commission of Taiwan and/or other regulatory authority pursuant to relevant securities laws and regulations of Taiwan, and may not be issued, offered or sold within Taiwan through a public offering or in circumstances which constitute an offer that requires a registration, filing or approval of the Financial Supervisory Commission of Taiwan and/or other regulatory authority in Taiwan under relevant securities laws and regulations of Taiwan. No person or entity in Taiwan has been authorized to offer or sell the securities in Taiwan.

To Singapore Residents: This report is intended for general circulation and does not and is not intended to constitute the provision of financial advisory services, whether directly or indirectly, to persons in Singapore. You should seek advice from a financial adviser regarding the suitability of the investment products, taking into account your specific investment objectives, financial situation or particular needs before you make a commitment to purchase the investment product. This report has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, it should not be circulated or distributed, nor may the securities described herein be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (a) to an institutional investor or a relevant person as defined in and pursuant to and in accordance with the conditions of the relevant provisions of the Securities and Futures Act of Singapore or (b) otherwise pursuant to and in accordance with the conditions of, any other applicable provision of the SFA.

To Israeli residents: BMO Capital Markets is not licensed under the Israeli Law for the Regulation of Investment Advice, Investment Marketing and Portfolio Management of 1995 (the "Advice Law") nor does it carry insurance as required thereunder. This document is to be distributed solely to persons that are qualified clients (as defined under the Advice Law) and qualified investors under the Israeli Securities Law of 1968. This document represents the analysis of the analyst but there is no assurance that any assumption or estimation will materialize.

These documents are provided to you on the express understanding that they must be held in complete confidence and not republished, retransmitted, distributed, disclosed, or otherwise made available, in whole or in part, directly or indirectly, in hard or soft copy, through any means, to any person, except with the prior written consent of BMO Capital Markets.

ARGUS

NASDAQ: EXC

EXELON CORP

Exelon Corp. is a leading energy provider, with transmission and distribution operations in the U.S. and headquarters in Chicago. Exelon spun off its generation business, which was about 60% nuclear, as Constellation Energy at the end of 2021. Constellation is now a publicly traded company focused on generation and competitive distribution, while Exelon focuses on regulated transmission and distribution.

Analyst's Notes

Analysis by Marie Ferguson, December 19, 2023

ARGUS RATING: BUY

- Reaffirming BUY and $50 target
- In mid-December 2023, regulators requested a refiling of ComEd's rate application. The company still expects rate decisions at five utilities in 2024.
- Exelon recently reported 3Q23 adjusted operating EPS of $0.67, down from $0.75 a year earlier. The lower earnings reflected storm costs.
- Earnings growth was solid at ComEd with a 15% increase over 3Q22. This is in spite of moderate weather and a 3Q23 settlement of SEC fraud charges against the subsidiary resulting in a $46 million civil penalty related to activities in 2011-2019.
- The current annualized dividend of $1.44 per share yields about 4.1%, topping the peer average of 3.7%.

INVESTMENT THESIS

We are maintaining our BUY rating on Exelon Corp. (NYSE: EXC), which provides electricity and natural gas to about 10 million customers in Illinois, Maryland, Pennsylvania, New Jersey, Delaware, and the District of Columbia. We have a positive view of the company's transformation into a pure-play transmission utility through the spinoff of its competitive energy business, Constellation Energy (CEG), which should lower earnings volatility. Management projects long-term earnings growth of 6%-8% from the company's utilities, which we believe is achievable. Exelon is also benefiting from favorable rate case decisions, as well as from its cleaner transmission mix and focus on hydro power.

In conjunction with the February 2022 Constellation spinoff, EXC shareholders received one share of CEG for every three shares of EXC. Exelon shares were repriced as a result of this separation.

We believe that the current share price offers a buying opportunity for income-oriented investors, and are reiterating our target price of $50.

Analyst's Notes ...Continued

EXC shares have traded recently on regulatory news for its largest subsidiary. The shares have fallen 17% over the past three months, compared to a gain of 6% for the S&P 500, a loss of 0.5% for the Utility ETF (IDU), and a loss of 1.5% for the S&P Utility Sector Index (XLU). Over the past 52 weeks, the shares have declined 18%, compared to losses of 7% and 9.3% for the IDU and XLU, respectively. The S&P 500 has gained 22.5% over the past year.

Exelon recently reported 3Q23 adjusted operating EPS of $0.67, down from $0.75 a year earlier and in line with the consensus. The lower earnings reflected higher storm costs, offset by higher rates at PECO, BGE, and PHI.

Third-quarter operating revenues were $5.98 billion, up 23% from $4.85 billion in 3Q22. For the nine months ending September 30, operating revenues were $16.3 billion, up from $14.4 billion for the same period a year ago. Operating expenses were $4.9 billion in 3Q23, compared with $3.8 billion in 3Q22. The largest line-item increase was for purchased power and fuel with $2.4 billion spent in 3Q23, versus $1.5 billion a year ago. Like most peers, interest expenses also continued to increase, with reported net interest of $437 million in 3Q23, compared with $365 million in 3Q22.

EXC has several ongoing rate cases. Thus far in 2023, it has filed an electric distribution rate case for ACE and multiyear rate plans for BGE and Pepco DC. Management expects rate case decisions at its six utilities from 4Q23 through 2Q24.

In a setback, regulators requested that EXC refile its ComEd, Chicago-based rate increase application by the end of 1Q24, citing stricter compliance requirements to phase out carbon emissions. While ComEd has a higher ROE, the ICC rejected new grid plans and the utility's $1.5 billion, multiyear rate hike request until refiling requirements are met.

Meanwhile, Pennsylvania regulators recently approved a $55 million increase in gas distribution revenues that took effect in 2023. Separately, DPL/Delmarva obtained an $8 million increase in gas distribution rates and an authorized ROE of 9.6%, which took effect at the end of 2022. The company's average ROE is 9.4%, above the peer average. Looking ahead, management projects a consolidated ROE of 9%-10%.

Management is focused on capital investments that will improve reliability and provide cleaner energy. It plans to allocate $31 billion to new infrastructure by 2026, which will increase the rate base by 8%. In 2Q23, Exelon also applied for $700 million in federal funding through the Infrastructure Investment and Jobs Act that could help to finance 10 new smart-grid and grid resilience projects.

During the third quarter, Exelon subsidiary ComEd and former ComEd CEO Anne Pramaggiore were charged with civil fraud related to activities from 2011 through 2019. According to the SEC, ComEd and its former CEO offered bribes and jobs to third-party vendors with the goal of influencing an Illinois Representative to obtain favorable legislation. Exelon agreed to

Analyst's Notes ...Continued

settle the charges with a payment of $46 million. The charges against the former CEO, including allegations that she directed payments of more than $1.3 million, will be litigated. The SEC's complaint alleges that Ms. Pramaggiore lied to Exelon auditors and filed false certifications. ComEd estimates that it received anticipated benefits of more than $150 million from favorable legislation.

Along with 3Q23 earnings, management narrowed its 2023 adjusted EPS guidance to $2.32-$2.40, from $2.30-$2.42. The midpoint remained unchanged at $2.36. It also continues to project 6%-8% growth in operating earnings through 2025-2026, driven mainly by rate increases.

EARNINGS & GROWTH ANALYSIS

Following the CEG spinoff, Exelon has six utility subsidiaries: PECO (1.7 million electric and 0.5 million gas customers near Philadelphia); PEPCO (1 million electric customers in Maryland and Washington DC); DPL (0.5 million electric and 0.1 million gas customers in Delaware); ACE (0.6 million electric customers in New Jersey); BGE (1.3 million electric and 0.7 million gas customers near Baltimore); and ComEd (4 million electric customers in Illinois).

Electricity revenues in GWh in 3Q23 were down 1.6% over 3Q22, but up 65% in revenue. GWh sales declined 3% for residential deliveries, decreased 2% for small commercial deliveries, but increased 0.2% for industrial deliveries. The number of heating degree days decreased about 80% from normal temperatures during the third-quarter.

The company breaks out results for four segments: ComEd, PECO, BGE, and PHI (which includes ACE, PEPCO, and DPL). Compared to 3Q22, third-quarter adjusted operating earnings were as follows: up 15% to $338 million at ComEd; down 14% at PECO to $149 million; 48% at BGE to $47 million; down 18% at PHI to $234 million. For the nine months ending September 30, ComEd adjusted earnings were $839 million, up 17% from $715 million for the same period in 2022.

Like many Midwestern utilities, 2023 earnings reflected mild weather for the first three quarters. Thus far in 4Q23, we note that normal weather patterns have returned to the upper Midwest with average Illinois temperatures below 35 degrees for most of the past three months. Going forward, the company should continue to benefit from cost cutting and favorable rate case decisions, as well as from more moderate wholesale fuel costs, multiyear labor agreements, and improved technology. The company has mixed service territories, with cold winters in Illinois and more moderate weather in the mid-Atlantic region, which can help it to manage costs. We expect Exelon to benefit from economic growth in the Chicago and Philadelphia areas, offset by slower growth and higher unemployment in Baltimore. We expect the strongest segment results at ComEd and BGE, helped by rate increases, with weaker earnings at PECO due to regulatory lag and higher interest expense.

Peer & Industry Analysis

The graphics in this section are designed to allow investors to compare EXC versus its industry peers, the broader sector, and the market as a whole, as defined by the Argus Universe of Coverage.

- **The scatterplot shows how EXC stacks up versus its peers on two key characteristics: long-term growth and value. In general, companies in the lower left-hand corner are more value-oriented, while those in the upper right-hand corner are more growth-oriented.**
- **The table builds on the scatterplot by displaying more financial information.**
- **The bar charts on the right take the analysis two steps further, by broadening the comparison groups into the sector level and the market as a whole. This tool is designed to help investors understand how EXC might fit into or modify a diversified portfolio.**

Analyst's Notes ...Continued

We expect the company to rebound from the recent fraud settlement at its ComEd subsidiary which posted solid earnings growth in 3Q23. Overall results tend to be driven by rate increases. In spite of the request to refile for rate increases near Chicago, we expect rates to remain strong through the other territories. We are adjusting our 2023 adjusted operating EPS estimate to reflect the lower-than expected 3Q23 results. Our 2023 operating EPS estimate is $2.37, down from $2.38. We are maintaining our 2024 estimate of $2.54. Our estimates assume a return to normal weather patterns and lower interest rates in the last half of 2024.

FINANCIAL STRENGTH & DIVIDEND

Our financial strength rating on Exelon is Medium. Moody's rates the company's debt an investment-grade Baa2. S&P and Fitch rate the company BBB.

At the end of 3Q23, long-term debt was $39.4 billion, up from $35.3 billion at the end of 2022. Cash and equivalents were $300 million, down from $407 million. The long-term debt/cap ratio at the end of 3Q23 was 61%, unchanged from 2Q23 and in line with the peer average, but up from 59% at the end of 2022.

The weighted-average maturity of the company's long-term debt is about 17 years. Long-term regulatory assets totaled $8.1 billion at the end of 3Q23, up from $8.0 billion at the end of 4Q22.

Following the Constellation spinoff, Exelon lowered its quarterly dividend by 12% to $0.3375 per share, or $1.35 annually. It then increased its payout by 6.6% in February 2023. The increase was slightly greater than usual, as the average increase over the last five years has been about 5.5%. The current quarterly dividend of $0.36, or $1.44 annually, yields about 4.1%, above the peer average of 3.7%. Our dividend estimates are $1.44 for 2023 and $1.53 for 2024.

MANAGEMENT & RISKS

Calvin Butler became the company's president and CEO in January 2023 following the retirement of Christopher Crane. Jeanne Jones is the CFO. Exelon has recently added several board members, including Brian Segedi, Ann Richo, Charisse Lillie, and Matthew Rogers. Directors Paul Joskow, Ann Berzin, and Carlos Gutierrez will be leaving at the end of their terms. EXC settled fraud charges against its ComEd subsidiary in Illinois after the close of 2Q23. The civil charges include charges against former ComEd CEO Anne Pramaggiore related to activities in 2011-2019, which will be litigated.

Risks for Exelon shareholders include cooler-than-normal conditions during the summer air-conditioning season and warmer-than-normal temperatures during the winter heating season. The transmission business may also be hurt by extreme weather events. The company also faces regulatory risk.

Utility stocks in general are susceptible to commodity price fluctuations and potential environmental and safety liabilities. In addition, the capital-intensive nature of the utility industry creates ongoing liquidity risk. Utility stock performance also tends to be sensitive to interest rates; when rates rise, utility yields often rise.

COMPANY DESCRIPTION

Exelon Corp. is a leading energy provider, with transmission and distribution operations in the U.S. and headquarters in Chicago. Exelon spun off its generation business, which was about 60% nuclear, as Constellation Energy at the end of 2021. Constellation is now a publicly traded company focused on generation and competitive distribution, while Exelon focuses on regulated transmission and distribution.

Through its regulated utility subsidiaries, Exelon delivers electricity and natural gas to about 10 million customers, primarily in central Maryland (Baltimore Gas & Electric Co.), northern Illinois (ComEd), and southeastern Pennsylvania (PECO). About 90% of EXC's 2022 revenues were from the electricity business and about 42% of earnings were from the largest utility, ComEd. The company plans to cut emissions by 50% by 2030 and to achieve net-zero emissions by 2050. The shares are a component of the S&P 500. The market cap is about $35 billion.

VALUATION

EXC share have fallen about 12% in the past week, largely due to negative regulatory news regarding the company's largest subsidiary. ComEd's earnings growth has been solid and with normal weather patterns returning to the area, the subsidiary should continue to see results until refiling its rate application.

EXC shares are currently trading near the bottom of their 52 week range of $34-$44 and could provide a buying opportunity to interest investors. The share's above average dividend yield also adds to total return.

At current prices near $34, the shares appear undervalued on several key metrics. They are trading at 13.5-times our 2024 adjusted EPS estimate, below the average of 16.5 for Argus-covered utilities. The PEG multiple of 2.3 is below the peer average of 2.9, and the price/sales multiple of 2.0 is below the peer average of 2.3.

While Exelon may continue to face pressure from high interest rates, we believe that the shares offer value based on the company's size and scale. Recent results have been driven by rate increases and further rate decisions are pending. We also like Exelon's focus on renewable energy, cleaner transmission, and decreased volatility following the spinoff of the nuclear generation business. We believe that the current share price offers a favorable entry point and are reiterating our BUY rating with a target price of $50.

On December 19, BUY-rated EXC closed at $35.41, up $0.96.

About Argus

Argus Research, founded by Economist Harold Dorsey in 1934, has built a top-down, fundamental system that is used by Argus analysts. This six-point system includes Industry Analysis, Growth Analysis, Financial Strength Analysis, Management Assessment, Risk Analysis and Valuation Analysis.

Utilizing forecasts from Argus' Economist, the Industry Analysis identifies industries expected to perform well over the next one-to-two years.

The Growth Analysis generates proprietary estimates for companies under coverage.

In the Financial Strength Analysis, analysts study ratios to understand profitability, liquidity and capital structure.

During the Management Assessment, analysts meet with and familiarize themselves with the processes of corporate management teams.

Quantitative trends and qualitative threats are assessed under the Risk Analysis.

And finally, Argus' Valuation Analysis model integrates a historical ratio matrix, discounted cash flow modeling, and peer comparison.

THE ARGUS RESEARCH RATING SYSTEM

Argus uses three ratings for stocks: BUY, HOLD, and SELL. Stocks are rated relative to a benchmark, the S&P 500.

- A BUY-rated stock is expected to outperform the S&P 500 on a risk-adjusted basis over a 12-month period. To make this determination, Argus Analysts set target prices, use beta as the measure of risk, and compare expected risk-adjusted stock returns to the S&P 500 forecasts set by the Argus Market Strategist.
- A HOLD-rated stock is expected to perform in line with the S&P 500.
- A SELL-rated stock is expected to underperform the S&P 500.

Equity Research

Industry Update — December 19, 2023

Utilities

Utility and Infrastructure Daily

Comments on AEE, EXC & DUK

Our Call

Quick thoughts from Wells Fargo Securities, LLC Utility & Infrastructure Team:

Utilities

A Tale of Two States (IL & NC). On 12/18, **AEE & EXC** issued 8-Ks in response to the ICC's adverse electric distribution rate orders on 12/14. In addition, we caught up with AEE CEO Marty Lyons and CFO Michael Moehn yesterday. Recall, the ICC rejected AEE's & EXC's 4-yr Grid Plans and, separately, authorized ROEs (under the MYRPs) that were well below the ALJ proposals - 8.72% for AEE and 8.91% for EXC vs. the ALJ recommendations of 9.24% & 9.28%, respectively.

In reaction to the onerous orders, shares of AEE & EXC have underperformed the S&P Utilities by 900 bps & 1,300 bps, respectively, since 12/13. Both AEE & EXC are still processing the implications and evaluating the next steps, which will likely include seeking re-hearing on several matters followed by potential legal appeals. AEE also indicated that the balance of the orders may prompt "significant reductions" to the company's IL capex & O&M.

We think the timing of the orders will make it difficult for the companies to fully mitigate the '24 EPS impact; particularly since the revenue requirements are premised on historical rate bases until the Grid Plans are sorted out (no timetable for a final order). We also think the orders pose a risk to the companies' long-term EPS CAGR goals. Both AEE & EXC plan to provide '24 EPS guidance, capex refreshes and updated long-term EPS CAGR guidance in conjunction with the Q4 earnings releases.

In our discussion with AEE, mgmt. pointed to potential near-term mitigating actions including cost savings initiatives, re-allocation of capital investment and financing decisions. Lastly, AEE strongly believes the IL Public Utilities Act supports using YE'23 rate base ($4.3B) to set rates once the amount is filed with the ICC. Currently, the ICC is using AEE's YE'22 rate base of $3.9B to set '24-27 rates. We estimate that converting to YE'23 rate base adds $0.06 to '24 EPS power.

Not all is doom and gloom in utility land. Late on 12/15, the NCUC issued a constructive order for **DUK** subsidiary DEC. Notably, the commission approved a 10.1% ROE, which was a modest positive surprise given the NCUC recently authorized DEP (DUK's other NC utility) a 9.8% ROE (August '23). We estimate that the 30 bps higher ROE (relative to our expectation) impacts EPS by ~+$0.05. At the least, the order improves our confidence in our EPS outlook (our 24E & 25E EPS are $6.00 & $6.35).

Company/Ticker/Rating/Price

Ameren Corp. (AEE/Overweight/$18.7B market cap) 12/18/23 closing price: $71.14

Duke Energy (DUK/Overweight/$74.9B market cap) 12/18/23 closing price: $97.17

Exelon Corp. (EXC/Equal weight/$34.3B market cap) 12/18/23 closing price: $34.45

Acronyms

ALJ - Administrative Law Judge

ICC - Illinois Commerce Commission

MYRP - Multi-year Rate Plan

NCUC - North Carolina Utilities Commission

Investment Thesis, Valuation and Risks

Ameren Corporation (AEE)

Investment Thesis

Our Overweight thesis reflects AEE's strong 5-yr annual EPS growth prospects of 6%, long runway of capital investment opportunities (including electric transmission projects in MISO) and management's strong financial track record.

Target Price Valuation for AEE: $84.00

Our $84 price target is based on (1) a P/E analysis ($82/sh) (75%)—apply a 0-5% premium to the '24 Regulated Electric median of ~16.5X on our 25E EPS of $4.85 and (2) a three-stage dividend discount analysis ($89/sh) (25%), which employs a ~8% discount rate.

Risks to Our Price Target and Rating for AEE

Risks include the potential failure to achieve earned returns near the utilities' allowed ROEs, regulatory-related risks, particuarly in IL, and the risk that upside capex opportunities do not materialize as expected.

Duke Energy Corp. (DUK)

Investment Thesis

We rate shares Overweight. After a multi-year period of restructuring/back to basics and underwhelming financial performance, DUK appears poised to deliver a 6%+ EPS CAGR. We also consider DUK's NC & FL regulatory jurisdictions (~75% of earnings) to be above-average.

Target Price Valuation for DUK: $103.00

Our $103/sh price target is based on P/E multiple and dividend discount analyses. We apply a P/E multiple of ~16X, which represents a 0-5% premium to the '24 Large/Mid Cap Regulated Electric peer group median, on our 25E EPS of $6.35. Separately, our DDM supports a price target in excess of $105/sh. Key assumptions include long-term earnings and dividend growth of ~3% and a discount rate of ~8%.

Risks to Our Price Target and Rating for DUK

Risks to our price target include unexpected adverse regulatory outcomes and inability to achieve targeted cost savings (downside risk).

Exelon Corporation (EXC)

Investment Thesis

Our Equal Weight rating reflects our view that the current share price adequately reflects EXC's risk/reward proposition. Positive attributes including a healthy projected EPS CAGR (7%) and wires-centric asset mix are balanced by modest balance sheet concerns and our view that the company's regulatory jurisdictions are average to below average.

Target Price Valuation for EXC: $41.00

Our $41 price target is based on a P/E multiple analysis. We apply a P/E of 15X to our 25E EPS of $2.65. Our multiple represents a 5% discount to the '24 Regulated Electric peer group median as we balance positive features (strong 7% EPS CAGR and predominantly electric wires strategy) with our perception that EXC's regulatory jurisdictions are average to below average. We apply the '24 median to our 25E EPS due to the forward-looking nature of our price target.

Risks to Our Price Target and Rating for EXC

Risks to our thesis include favorable/unfavorable regulatory developments (upside/downside) and greater-than-expected ESG appetite for a wires-centric company (upside).

Wells Fargo Securities, LLC, or its affiliates intends to seek or expects to receive compensation for investment banking services in the next three months from an affiliate of Exelon Corporation.

Wells Fargo Securities, LLC, maintains a market in the common stock of Exelon Corporation.

Wells Fargo Securities, LLC, or its affiliates, managed or co-managed a public (or 144a) offering of securities for Exelon Corporation within the past 12 months.

Wells Fargo Securities, LLC, or any of its affiliates, intends to seek or expects to receive compensation for investment banking services from Exelon Corporation in the next three months.

Exelon Corporation currently is, or during the 12 month period preceding the date of distribution of the research report was, a client of Wells Fargo Securities, LLC. Wells Fargo Securities, LLC, provided investment banking services to Exelon Corporation.

Wells Fargo Securities, LLC, or its affiliates has a significant financial interest in Exelon Corporation.

Wells Fargo Securities, LLC, or its affiliates received compensation for investment banking services from an affiliate of Exelon Corporation in the past 12 months.

STOCK RATING

OW=Overweight: Total return on stock expected to be 10%+ over the next 12 months. BUY

EW=Equal Weight: Total return on stock expected to be -10% to +10% over the next 12 months. HOLD

UW=Underweight: Total return on stock expected to lag the Overweight- and Equal Weight-rated stocks within the analyst's coverage universe over the next 12 months. SELL

NR=Not Rated: The rating and price target has been removed due to lack of fundamental basis to support the recommendation or due to legal, regulatory or company policy considerations.

As of December 18, 2023
49.0% of companies covered by Wells Fargo Securities, LLC Equity Research are rated Overweight.
43.8% of companies covered by Wells Fargo Securities, LLC Equity Research are rated Equal Weight.
7.2% of companies covered by Wells Fargo Securities, LLC Equity Research are rated Underweight.
Wells Fargo Securities, LLC has provided investment banking services for 31.9% of its Equity Research Overweight-rated companies.
Wells Fargo Securities, LLC has provided investment banking services for 31.1% of its Equity Research Equal Weight-rated companies.
Wells Fargo Securities, LLC has provided investment banking services for 23.9% of its Equity Research Underweight-rated companies.

Important Disclosure for U.S. Clients

This report was prepared by Wells Fargo Securities Global Research Department ("WFS Research") personnel associated with Wells Fargo Securities, LLC ("Wells Fargo Securities").

WFS Research may, from time to time, provide clients with short-term trading views in its research reports regarding subject companies on which Wells Fargo Securities currently has equity research coverage. A short-term trading view offers a view on how the market price of a subject company's common equity may trend in absolute terms during the 30 days following the date of the short-term trading view. A short-term trading view on a subject company's common equity does not impact our fundamental investment rating or price target for that company, which reflect our view of how the subject company's common equity may perform over a one-year period. A short-term trading view may reach a different conclusion than the firm's fundamental investment rating and price target for a subject company and, therefore, short-term trading views could result in short-term price movements that are contrary to our fundamental investment rating and price target. Short-term trading views are not ratings and the firm does not intend, nor undertakes any obligation, to maintain, update or close out short-term trading views. Short-term trading views may not be suitable for all investors and have not been tailored to individual investor circumstances and objectives, and investors should make their own independent decisions regarding any short-term trading views discussed in WFS Research reports.

Important Disclosure for International Clients

United Kingdom – The securities and related financial instruments described herein may not be eligible for sale in all jurisdictions or to certain categories of investors. For recipients in the United Kingdom, this report is distributed by Wells Fargo Securities International Limited ("WFSIL"). WFSIL is a UK incorporated investment firm authorised and regulated by the Financial Conduct Authority. For the purposes of Section 21 of the UK Financial Services and Markets Act 2000 (the "Act"), the content of this report has been approved by WFSIL, an authorised person under the Act. WFSIL does not deal with retail clients as defined in the Directive 2014/65/EU ("MiFID2"). The FCA rules made under the Financial Services and Markets Act 2000 for the protection of retail clients will therefore not apply, nor will the Financial Services Compensation Scheme be available. This report is not intended for, and should not be relied upon by, retail clients. For the purposes of the U.K. Financial Conduct Authority's rules, this report constitutes impartial investment research.

EEA – The securities and related financial instruments described herein may not be eligible for sale in all jurisdictions or to certain categories of investors. For recipients in the EEA, this report is distributed by WFSIL or Wells Fargo Securities Europe S.A. ("WFSE"). WFSE is a French incorporated investment firm authorized and regulated by the Autorité de contrôle prudentiel et de résolution and the Autorité des marchés financiers. WFSE does not deal with retail clients as defined in the Directive 2014/65/EU ("MiFID2"). This report is not intended for, and should not be relied upon by, retail clients.

Australia – Wells Fargo Securities, LLC and Wells Fargo Securities International Limited are exempt from the requirements to hold an Australian financial services license in respect of the financial services they provide to wholesale clients in Australia. Wells Fargo Securities, LLC is regulated under the laws of the United States and Wells Fargo Securities International Limited is regulated under laws of the United Kingdom. All such laws differ from Australian laws. Any offer or documentation provided to Australian recipients by Wells Fargo Securities, LLC or Wells Fargo Securities International Limited in the course of providing the financial services will be prepared in accordance with the laws of the United States or United Kingdom and not Australian laws.

Canada – This report is distributed in Canada by Wells Fargo Securities Canada, Ltd., a registered investment dealer in Canada and member of the Canadian Investment Regulatory Organization (CIRO) and, Member – Canadian Investor Protection Fund (CIPF). Exelon Corporation

The best-laid plans often go astray; target to $38

Our view: EXC's new headline ROE at ComEd by the ICC was dissapointing, but we view the larger risk coming from the denied grid plan. Outlined in the written order are significant deficiencies, and we struggle to see how EXC can find an effective solution inside their three month timeline to refile. Given that, we find it a serious possibility that ComEd's revised grid plan will not be approved in 2024. We also expect significant rate base exemptions when the plan is ultimately approved. Our price target moves to $38 from $45. We maintain our Sector Perform rating.

Key points:

ROE is the headline dissapointment. The approved 8.9% ROE and 50% equity layer is below the implied rate that ComEd would have received under the previous cost of capital mechanism, which was 580bps + 30 year Treasury yield. While the low ROE is an issue, we see more serious long term concerns from EXC's rejected grid plan.

The Grid Plan rejection more serious than a simple refile. While the decision to reject the grid plan outright rather than alter it was not unanimous, all commissioners viewed ComEd's proposal as requiring significant amendments to be compliant with the Climate and Equitable Jobs Act (CEJA). Signed into law in September 2021, CEJA put significant reporting and compliance requirements on grid plans in Illinois. Inside the act, Section 16-105.17(d) lays out eleven requirements for approval, of which the Commission found ComEd did not satisfy multiple.

EIEC benefits will be difficult to prove. CEJA requires the company to bring at least 40% of the plan's benefits to low income and Equity Investment Eligible Communities (EIECs). While ComEd had shown 40% of spending in qualifying areas, the Commission viewed that as unsatisfactory. Noting that "the Grid Plan should measure how effective ComEd's investments are, not just how much the company is spending" in their rejection, the ICC ordered for a system which estimates where benefits are going, not just where they are spent. We are skeptical that any company would be able to create estimates that are satisfactory for the Commission in the time period proposed, especially given the required census tract-level disclosures.

Project level analysis will cause spending to be litigated. We also note the requirement that the grid plan show the optimization of grid assets for proposed system investments. While the Commission did not provide any specific reporting structure that ComEd could follow to satisfy the law, they did note ComEd must show project level cost benefit analysis for every project proposed in the Grid Plan. Additionally, ComEd must provide interconnection costs for distributed energy resources in a new system.

Updating estimates and price target. We lower our 2023–27 adj. EPS estimates to $2.36, $2.44, $2.67, $2.87, and $3.05 from $2.38, $2.51, $2.74, $2.93, and $3.12, respectively. Our price target moves to $38 from $45.

RBC Capital Markets

Key ESG questions

This section is intended to highlight key ESG discussion points relevant to this company, as well as our views on the outlook. Both the questions we highlight and our responses will evolve over time as the dialogue between management, analysts and investors continues to advance. We welcome any feedback on the topics.

	Our view
How do EXC's utilities rank across peers operationally?	EXC utilities rank in the top quartile of transmission and distribution operators in terms of operating metrics and customer satisfaction scores, according to EXC presentation materials. EXC utility customer bills average modestly below the US average, which we believe has a positive social impact.
What are EXC utilities' key environmental goals?	EXC has committed to a net-zero by 2050 operations goal, with an interim target of 50% by 2030. Post-separation from Constellation, EXC owns no generation supply and enables ~2GW of distributed energy resources. EXC also expects 50% vehicle fleet electrification by 2030. EXC is promoting electrification by advancing EV infrastructure in its operating territories.
What are EXC's key governance matters?	In July 2020, ComEd entered into a two-year deferred prosecution agreement (DPA) with Federal authorities in relation to certain past political lobbying activities. We expect this to produce an overhang for some investors during the course of the DPA.
What is diversity like at the management/board level?	As of 2022, 92% of board members (including Board Chair) are independent. 33% of Board of Directors are women while 22% are ethnically diverse.
What environmental disclosures does EXC provide?	EXC provides disclosures on GRI standards, SASB standards, EEI/AGA ESG templates, and scope 1-3 emissions information.

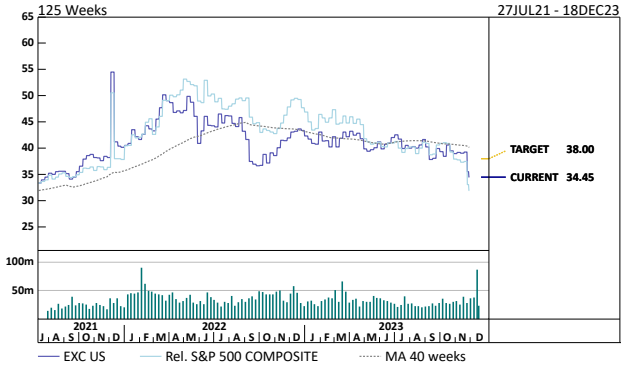
Capital Markets

Target/Upside/Downside Scenarios

Exelon Corporation



Source: Bloomberg and RBC Capital Markets estimates for Target

Valuation

Our $38 price target assumes a 14.2x P/E multiple on 2025E utilities EPS of $2.67. Our multiple reflects a 15% discount to our base case blended electric and gas multiple of 18.6x. While we believe Exelon utilities have a similar profile to industry peers (6–8% EPS CAGR after 2024 and 7–8% rate base CAGR), we note the considerable regulatory overhang and lower ROE at ComEd. Our price target supports a Sector Perform rating.

Upside scenario

Upside scenario of $45. We assume that 30-bps improvement in overall ROE leads to $93M higher net income and 2025 EPS of $2.77. We then apply a 20% discount to our upside blended electric and gas multiple of 18.6x, resulting in an equity per share value of $45.

Downside scenario

Downside scenario of $31. We assume that higher O&M and lower ROE reduce 2025E EPS to $2.58. We also expect ComEd to face significant issues in receiving approval for their grid plan, delaying recovery on invested capital and slowing down future rate base growth. We apply a 5% discount on our downside blended electric and gas multiple of 12.8x. We give consideration to rate recovery benefits from operations outside of Illinois and formula rates.

Investment summary

Exelon returns to a fully regulated T&D utility after a successful spinoff of its generation unit Constellation. One-third of Exelon's earnings comes from its primary utility, ComEd, which benefits from low-cost nuclear power generation. Regulatory hurdles in Illinois have become significantly higher, as lower ROEs and increased scrutiny on grid investments reduce earnings and delay capital spending plans. Over the 5-year period ending 2027, we project EPS CAGR of 6.6% and recognize headwinds in 2023 and 2024. In the near-term, we await the approval of ComEd's once denied Grid Plan, which could slip into 2025.

Potential catalysts

- Approval of further multiyear rate plans
- Favorable rate case decision on ComEd leading to material increase in allowed ROE
- Equity issuances at favorable prices leading to less-than-expected dilution
- Management announces accretive utility transactions and further improves balance sheet

Risks to rating and price target

- Stagnant ROE performance at ComEd
- Adverse grid plan rulings continue
- Credit metrics deteriorate due to significant borrowings
- Inflation drives up O&M costs
- Corporate minium taxes become a drag on cash
- Regulatory overhang softens

RBC Capital Markets

Company description

Exelon is one of the largest power companies in the U.S. Its six T&D utilities (ComEd, PECO, BG&E, PEPCO, DPL, ACE) serve more than 10 million electric and gas customers in DE, DC, IL, NJ, PA, and MD. Exelon operates 11,160 miles of regulated electric transmission lines and expects to have a total rate base of $52 billion by 2022. EXC separated from its generation business, Constellation, in February 2022.

During this time, a member company of RBC Capital Markets or one of its affiliates provided non-securities services to Exelon Corporation.

RBC Capital Markets is currently providing Exelon Corporation with non-investment banking securities-related services.

RBC Capital Markets has provided Exelon Corporation with non-investment banking securities-related services in the past 12 months.

RBC Capital Markets has provided Exelon Corporation with non-securities services in the past 12 months.

Explanation of RBC Capital Markets Equity rating system

An analyst's 'sector' is the universe of companies for which the analyst provides research coverage. Accordingly, the rating assigned to a particular stock represents solely the analyst's view of how that stock will perform over the next 12 months relative to the analyst's sector average.
Ratings
Outperform (O): Expected to materially outperform sector average over 12 months.
Sector Perform (SP): Returns expected to be in line with sector average over 12 months.
Underperform (U): Returns expected to be materially below sector average over 12 months.
Restricted (R): RBC policy precludes certain types of communications, including an investment recommendation, when RBC is acting as an advisor in certain merger or other strategic transactions and in certain other circumstances.
Not Rated (NR): The rating, price targets and estimates have been removed due to applicable legal, regulatory or policy constraints which may include when RBC Capital Markets is acting in an advisory capacity involving the company.
Risk Rating
The **Speculative** risk rating reflects a security's lower level of financial or operating predictability, illiquid share trading volumes, high balance sheet leverage, or limited operating history that result in a higher expectation of financial and/or stock price volatility.

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 10-Jan-2024 07:35 PM.

Distribution of ratings

For the purpose of ratings distributions, regulatory rules require member firms to assign ratings to one of three rating categories - Buy, Hold/Neutral, or Sell - regardless of a firm's own rating categories. Although RBC Capital Markets' ratings of Outperform (O), Sector Perform (SP), and Underperform (U) most closely correspond to Buy, Hold/Neutral and Sell, respectively, the meanings are not the same because our ratings are determined on a relative basis.

Distribution of ratings

RBC Capital Markets, Equity Research

As of 30-Sep-2023

			Investment Banking Serv./Past 12 Mos.	
Rating	Count	Percent	Count	Percent
BUY [Outperform]	820	55.97	250	30.49
HOLD [Sector Perform]	590	40.27	148	25.08

Equity valuation and risks

For valuation methods used to determine, and risks that may impede achievement of, price targets for covered companies, please see the most recent company-specific research report at www.rbcinsightresearch.com or send a request to RBC Capital Markets Research Publishing, P.O. Box 50, 200 Bay Street, Royal Bank Plaza, 29th Floor, South Tower, Toronto, Ontario M5J 2W7.

Exelon Corporation

Valuation

Our $38 price target assumes a 14.2x P/E multiple on 2025E utilities EPS of $2.67. Our multiple reflects a 15% discount to our base case blended electric and gas multiple of 18.6x. While we believe Exelon utilities have a similar profile to industry peers (6–8% EPS CAGR after 2024 and 7–8% rate base CAGR), we note the considerable regulatory overhang and lower ROE at ComEd. Our

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 10-Jan-2024 07:35 PM.

price target supports a Sector Perform rating.

Risks to rating and price target

- Stagnant ROE performance at ComEd
- Adverse grid plan rulings continue
- Credit metrics deteriorate due to significant borrowings
- Inflation drives up O&M costs
- Corporate minium taxes become a drag on cash
- Regulatory overhang softens

Conflicts policy

RBC Capital Markets Policy for Managing Conflicts of Interest in Relation to Investment Research is available from us on request. To access our current policy, clients should refer to

North American Utilities

IL Have a Blue Christmas: AEE & EXC on CEJA's Naughty List with Lower ROEs; Downgrade to Neutral

AEE and **EXC** took the spotlight last week after both receiving challenging ICC rate orders and grid plan rejections due to a deemed inability to sufficiently follow CEJA guidelines (particularly related to affordability and cost effectiveness), driving elevated confusion and casting significant concern over the state's regulatory backdrop and support for utilities. While valuations have slipped since the orders, we view the sell-off as warranted given the authorized ROEs' material EPS headwind to both utilities and material new overhang from to-be-decided MYRP capex that carries potentially additional earnings downside risk. Here, the grid plan refilings reduce rate base visibility, given the ICC indicated that total rate base and methodology will be subject to change after the commission reviews each refiled grid plan. The rulings have raised larger investor questions as to why IL granted electric utilities a lower authorized ROE than gas when CEJA mandates a significant electrification build out and as to the overall attractiveness of IL as a regulatory jurisdiction. Given the significant disappointment in the outcomes and likely extended IL uncertainty, we see a difficult path for both names to outperform in 2024, underpinning our downgrades to Neutral for each.

- **AEE: IL double whammy with electric hit now following gas.** We downgrade Ameren to Neutral from Overweight, following back-to-back lower than expected IL electric and gas rate case outcomes. On Thursday, the ICC granted an 8.72% electric authorized ROE, notably below the ALJ's 9.24% recommendation. The ruling comes roughly a month after the ICC granted a disappointing 9.44% gas ROE (down from 9.67%). This well below average electric ROE now challenges broader market hope that state electric system goals would drive a more favorable electric rate case outcome. While AEE has historically had stronger MO regulatory relationships and MO represents the majority of the company's YE 2022 rate base (51% vs 29% for IL electric/gas), we believe the two consecutive ROE hits will be difficult to backfill by reallocating investment, at least in the near-term. Though we note AEE's very good management track record, given the lower 8.72% ROE, temporary extension of YE 2022 rate base, and likely trimming of IL electric capex, we expect investors will be wary of underwriting IL risk until greater clarity emerges on forward earnings power and the potential for a growth re-base, all factors inconsistent with the company's prior premium (now eroded net of lower earnings from this outcome). As it currently stands, this overhang appears set to continue well into 2024 while the ICC reviews a revised grid plan.
- **EXC: CEJA's future ain't what it used to be.** We downgrade Exelon to

Neutral from Overweight, following ComEd's unsupportive rate order, which we see both challenging the utility's growth profile (relative to peers at similar valuations) and underpinning a negative inflection point for IL's increasingly challenged regulatory environment. Here, ComEd's authorized 8.905% ROE stands well below both the ALJ's 9.28% recommendation and national averages. While the recent sell-off has widened EXC's discount (net of lower earnings for the prospective IL ROE and capex hits), we do not see any convincing upside cases, particularly as 1) IL's MYP structure locks in ComEd's rates for the next four years, 2) any ultimate appeal could span 2024+, and 3) ComEd's rate base growth now merits caution, as uncertainty looms over potential distribution capex revisions in the grid plan refiling. Lastly, EXC's relatively low FFO/debt serves as yet another headwind to valuation upside, now exacerbated by these IL changes.

Investment Thesis, Valuation and Risks

Ameren Corporation *(Neutral; Price Target: $80.00)*

Investment Thesis

We downgrade Ameren to Neutral from Overweight, following back-to-back lower than expected IL electric and gas rate case outcomes. On Thursday, the ICC granted an 8.72% electric authorized ROE, notably below the ALJ's 9.24% recommendation. The ruling comes roughly a month after the ICC granted a disappointing 9.44% gas ROE (down from 9.67%). This well below average electric ROE now challenges broader market hope that state electric system goals would drive a more favorable electric rate case outcome. While AEE has historically had stronger MO regulatory relationships and MO represents the majority of the company's YE 2022 rate base (51% vs 29% for IL electric/gas), we believe the two consecutive ROE hits will be difficult to backfill by reallocating investment, at least in the near-term. Though we note AEE's very good management track record, given the lower 8.72% ROE, temporary extension of YE 2022 rate base, and likely trimming of IL electric capex, we expect investors will be wary of underwriting IL risk until greater clarity emerges on forward earnings power and the potential for a growth re-base, all factors inconsistent with the company's prior premium (now eroded net of lower earnings from this outcome). As it currently stands, this overhang appears set to continue well into 2024 while the ICC reviews a revised grid plan.

Valuation

We lower our Dec 2024 price target to $80/share from $89, based on an SOTP valuation using our 2025 estimates. The MO, IL electric, IL gas, and transmission segments are valued at 15.6-18.7x multiples, and we apply a 16.4x multiple to AEE's corporate segment. Among these, we value the transmission segment at a 25% premium to peers, given the notable opportunities in AEE's MISO footprint not yet in the plan. Following the recent IL regulatory outcomes, lower estimates and premiums relative to peers contribute to our revised price target.

Risks to Rating and Price Target

- While the company appears well positioned to execute its investment program under PISA, Missouri continues to feature unanticipated regulatory risks that have impacted local peer utilities. Although these rulings have not involved Ameren, it remains to be seen if these or other issues impact the company's current rate case or subsequent filings.
- IL electric ratemaking remains subject to a transition off prior formula rates. Depending on final capital evaluations, the IL commission may authorize a grid plan that drives higher or lower capex, and subsequently earnings, relative to our estimates.
- Given Ameren's relatively limited use of parent leverage and balance sheet headroom at current ratings, parent debt could be used to drive accretion even at elevated transaction multiples. This could result in higher-than-anticipated ongoing equity financing requirements after the company's balance sheet headroom is utilized. Additionally, the ability to realize EPS accretion through debt-funded transactions may not necessarily lead to meaningful shareholder value creation at current sector valuations.

Jeremy Tonet, CFA AC
(1-212) 622-4915
jeremy.b.tonet@jpmorgan.com

Investment Thesis, Valuation and Risks

Exelon Corp. *(Neutral; Price Target: $41.00)*

Investment Thesis

We downgrade Exelon to Neutral from Overweight, following ComEd's unsupportive rate order, which we see both challenging the utility's growth profile (relative to peers at similar valuations) and underpinning a negative inflection point for IL's increasingly challenged regulatory environment. Here, ComEd's authorized 8.905% ROE stands well below both the ALJ's 9.28% recommendation and national averages. While the recent sell-off has widened EXC's discount (net of lower earnings for the prospective IL ROE and capex hits), we do not see any convincing upside cases, particularly as, 1) IL's MYP structure locks in ComEd's rates for the next four years, 2) any ultimate appeal could span 2024+, and 3) ComEd's rate base growth now merits caution, as uncertainty looms over potential distribution capex revisions in the grid plan refiling. Lastly, EXC's relatively low FFO/debt serves as yet another headwind to valuation upside, now exacerbated by these IL changes.

Valuation

We lower our Dec 2024 price target to $41/share from $46/share based on an SOTP valuation using our 2024 estimates. We use an average 15.6x P/E multiple for the regulated utility and corporate business segments, in line with peers. Our lower price target stems from reduced ComEd earnings estimates and a new offset to the multiple introduced to reflect IL regulatory risk.

Risks to Rating and Price Target

- Regulated electric and gas utilities are subject to strict federal and state regulation, including determinations of allowed revenues. Any change to regulations may cause future earning power to differ materially from current expectations.
- Legacy ComEd issues bring up the potential for negative headline risk if new information comes to light.
- The company possesses attractive leverage to growing electrification trends. However, if these investments develop slower or faster than we anticipate, it could lead to a weaker / stronger earnings outlook than we currently forecast.

The chart(s) show J.P. Morgan's continuing coverage of the stocks; the current analysts may or may not have covered it over the entire period.
J.P. Morgan ratings or designations: OW = Overweight, N= Neutral, UW = Underweight, NR = Not Rated

Explanation of Equity Research Ratings, Designations and Analyst(s) Coverage Universe:
J.P. Morgan uses the following rating system: Overweight [Over the next six to twelve months, we expect this stock will outperform the average total return of the stocks in the analyst's (or the analyst's team's) coverage universe.] Neutral [Over the next six to twelve months, we expect this stock will perform in line with the average total return of the stocks in the analyst's (or the analyst's team's) coverage universe.] Underweight [Over the next six to twelve months, we expect this stock will underperform the average total return of the stocks in the analyst's (or the analyst's team's) coverage universe.] Not Rated (NR): J.P. Morgan has removed the rating and, if applicable, the price target, for this stock because of either a lack of a sufficient fundamental basis or for legal, regulatory or policy reasons. The previous rating and, if applicable, the

Jeremy Tonet, CFA AC
(1-212) 622-4915
jeremy.b.tonet@jpmorgan.com

price target, no longer should be relied upon. An NR designation is not a recommendation or a rating. In our Asia (ex-Australia and ex-India) and U.K. small- and mid-cap equity research, each stock's expected total return is compared to the expected total return of a benchmark country market index, not to those analysts' coverage universe. If it does not appear in the Important Disclosures section of this report, the certifying analyst's coverage universe can be found on J.P. Morgan's research website, https://www.jpmorganmarkets.com.

Coverage Universe: Tonet, Jeremy: AltaGas Ltd (ALA.TO), Ameren Corporation (AEE), American Electric Power (AEP), Antero Midstream Corp (AM), Aris Water Solutions, Inc (ARIS), CMS Energy Corporation (CMS), CenterPoint Energy, Inc. J.P. Morgan Equity Research Ratings Distribution, as of October 07, 2023

	Overweight (buy)	Neutral (hold)	Underweight (sell)
J.P. Morgan Global Equity Research Coverage*	47%	39%	14%
IB clients**	47%	45%	33%
JPMS Equity Research Coverage*	46%	41%	13%
IB clients**	65%	64%	51%

***Please note that the percentages may not add to 100% because of rounding.**
****Percentage of subject companies within each of the "buy," "hold" and "sell" categories for which J.P. Morgan has provided investment banking services within the previous 12 months.**
For purposes of FINRA ratings distribution rules only, our Overweight rating falls into a buy rating category; our Neutral rating falls into a hold rating category; and our Underweight rating falls into a sell rating category. Please note that stocks with an NR designation are not included in the table above. This information is current as of the end of the most recent calendar quarter.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at http://www.jpmorganmarkets.com, contact the primary analyst or your J.P. Morgan representative, or email research.disclosure.inquiries@jpmorgan.com. For material information about the proprietary models used, please see the Summary of Financials in company-specific research reports and the Company Tearsheets, which are available to download on the company pages of our client website, http://www.jpmorganmarkets.com. This report also sets out within it the material underlying assumptions used.

A history of J.P. Morgan investment recommendations disseminated during the preceding 12 months can be accessed on the Research & Commentary page of http://www.jpmorganmarkets.com where you can also search by analyst name, sector or financial instrument.

Analysts' Compensation: The research analysts responsible for the preparation of this report receive compensation based upon various factors, including the quality and accuracy of research, client feedback, competitive factors, and overall firm revenues.

Other Disclosures

J.P. Morgan is a marketing name for investment banking businesses of JPMorgan Chase & Co. and its subsidiaries and affiliates worldwide.

UK MIFID FICC research unbundling exemption: UK clients should refer to UK MIFID Research Unbundling exemption for details of JPMorgan's implementation of the FICC research exemption and guidance on relevant FICC research categorisation.

All research material made available to clients are simultaneously available on our client website, J.P. Morgan Markets, unless specifically permitted by relevant laws. Not all research content is redistributed, e-mailed or made available to third-party aggregators. For all research material available on a particular stock, please contact your sales representative.

Any long form nomenclature for references to China; Hong Kong; Taiwan; and Macau within this research material are Mainland China; Hong Kong SAR (China); Taiwan (China); and Macau SAR (China).

J.P. Morgan Research may, from time to time, write on issuers or securities targeted by economic or financial sanctions imposed or administered by the governmental authorities of the U.S., EU, UK or other relevant jurisdictions (Sanctioned Securities). Nothing in this report is intended to be read or construed as encouraging, facilitating, promoting or otherwise approving investment or dealing in such Sanctioned Securities. Clients should be aware of their own legal and compliance obligations when making investment decisions.

Alert

December 18, 2023

Energy: Electric Utilities

Heads Up — The Week Ahead in Utilities: AEE, POR, SO, DTE, D, ETR, FE, EXC, WEC, XEL, CEG, DUK, AEP, CNP, SRE

Sophie Karp / (917) 368-2361 / sophie.karp@key.com
Michael Pelletier / (917) 368-2306 / michael.pelletier@key.com
Madison Lehan / (917) 368-2293 / madison.lehan@key.com

ICYMI, the ICC issued a final order in AEE and EXC's multi-year rate cases. This week, we are tracking proceedings in POR's electric rate case, FERC's Open Meeting, SO's Vogtle cost recovery docket, CMS' electric rate case, D's IRP in VA, ETR's SERI proceedings, and FE's WV electric rate case. In other news, the IL ICC issues a final order in EXC's multi-year rate case; the MD PSC issues a final decision in BGE's electric and gas rate cases; the IL ICC denies WEX's motion for clarification regarding its 2024 safety modernization program; the AR PSC issues a final order in ETR's FRP proceedings; the CO PUC verbally approves an alternative portfolio for XEL; a Russian state-owned uranium company warns U.S. utilities of a potential ban; TX PUC Commissioner Adams resigns; and DUK issues an RFP for 5 GW of resources.

ICYMI

AEE — The ICC issued its decisions in AEE's (as well as EXC's) multiyear rate cases, which came in with ROEs below national averages and stakeholders' recommendations, wholesale rejection of grid investments over the forecast period, and was punctuated by hostility toward IL utilities. While IL represents a smaller portion of AEE's business, our preliminary calculation suggests that the impacts of the IL order are nonetheless materially negative to AEE's growth rate in the near and medium term. Read more here.

What to Watch Before Year End

We anticipate several regulatory filings and material announcements that can occur and move shares before the year-end. Those include:

DUK — Final order in DEC rate case: As a reminder, DUK has reached several partial settlements agreeing to a $19.5B rate base, the treatment of nuclear PTCs, a three-year grid investment plan, and smaller items. The ROE, capital structure, and COVID deferrals are some of the more notable items outstanding and will be left up to the commission for a final decision. We expect the final outcome to align with the DEP rate case, which authorized a 9.8% ROE and 53% equity.

PNW — ALJ to file a ROO might come in late 2023/early 2024: We expect the ALJ to issue a Recommended Opinion and Order in the near term (late-2023/early-2024). APS updated its request to a $376M net revenue increase in initial briefs, down from $460M in its original request, while maintaining the 10.25% ROE and 51.93% equity layer. In reply briefs, Staff supported the system reliability benefit (SRB) mechanism as modified in PNW's initial briefs, as long as Staff is involved earlier in the process and can review all projects during future rate case proceedings. PNW addressed several concerns in the SRB in its initial brief filing after spending more time discussing the idea with intervenors and stakeholders. The SRB proposes to track capital and derisk some projects that need to reliably serve load while reducing the number of rate cases PNW files and the regulatory lag. Staff also supported the continuation of the fixed-cost recovery mechanism and maintained its 9.68% ROE recommendation. As a reminder, new rates are expected to go into effect the first of the month following an ACC order, likely at some point in 1Q24.

AEP — Expect a deal announcement for the sale of NM JV: The Company indicated earlier this fall that it was close to signing a contract for its New Mexico Renewable Development JV, with a deal expected by year-end. The deal is a part of the broader effort to sell non-core assets, and in total AEP embedded ~$700M of sale proceeds int the 2024 cash flow assumptions.

ES — Expect a deal announcement for Revolution and Sunrise offshore wind projects: The Company indicated earlier this fall that the deal to sell these two projects may come before year-end.

CMS — Gas GRC to be filed by end of December: In its last gas rate case, CMS reached a settlement for a $95M revenue increase, premised on a 9.9% ROE and 50.75% equity. CMS was also authorized a $214M allowance for the enhanced infrastructure replacement program (EIRP) to replace a minimum of 110.8 miles of installed main replacements by the end of September 2024. CMS implemented an OPEB volatility mechanism to smooth out the impact on earnings by creating a regulatory asset/liability for future recovery or credit to customers compared to the amounts included in rates. New rates will go into effect on October 1, 2023.

For analyst certification and important disclosures, please refer to the Disclosure Appendix.
KeyBanc Capital Markets Inc. | Member FINRA/SIPC

PEG — GRC to be filed by the end of December: The process in NJ takes 9-12 months and the Company does not expect that the filing will show any significant rate increase request. ~45% of PEG's rate base has various tracker/rider-related recovery mechanisms, which is trued up annually under formula rates. The balance will be covered by the rate case. Debt service costs aggregated over the past five years should imply no major change in the upcoming rate case and the Company has managed O&M effectively as well through AMI implementation, etc., so that should not be a substantial change either. Cost recovery for Hurricane Sandy will roll off, but will be replaced by COVID-related spending. Much of the capital to be presented in the rate case has received prudency approvals from the BPU and will simply be rolled into rates. The rate case will also present customer bill relief as the ZEC payments end in 2025. Also included in the rate filing will be a request for smoothing the impact from market-related volatility on pensions.

AGR, PNM — Waiting for the Court ruling? The Companies are waiting on the NM Supreme Court decision on their appeal to turn the PNM merger decision back to the commission, which, if granted, would turn the case back to the NM Commission. There's no definitive timeline for the decision, but it is worth watching at the end of the year.

Regulatory Calendar

POR — Final order in POR's electric rate case is due on December 18: POR, OR PUC Staff, the OR CUB, and others reached a sixth and final settlement, resolving all outstanding issues in the electric rate case. The settlement agrees to a $391M (net $208M) revenue increase, premised on 9.5% ROE, 50% equity, and a $6.2B rate base. The authorized revenue increase includes $183M of power costs and reflects POR's updated load forecast. Parties also agreed to adjust the Power Cost Adjustment Mechanism (PCAM) to allow POR to recover 80% of reliability contingency event (RCE) costs that are above POR's forecast in its annual tariff, with the remaining 20% of RCE costs flowing through the existing PCAM. While POR requested that 100% of the expenses during RCE be recoverable, the updated mechanism mitigates some volatility associated with power costs during periods of region-wide capacity constraints. The settlement also includes a vegetation management tracker that POR requested. New rates are expected to go into effect on January 1, 2024.

FERC — FERC's Open Meeting is scheduled for December 19: A copy of the Sunshine Notice is included here.

SO — GA PSC set to vote on Vogtle cost recovery on December 19: Parties reached a settlement that GP's forecasted total construction and capital cost for the project stands at $10,188M and that any additional project construction capital cost above $7,562M is the Company's responsibility and not the ratepayers'. If approved by the GA PSC, this agreement will resolve all prudency review issues with respect to Vogtle. Once Unit 4 is in commercial operation, GP will include the remaining $5,462M of project construction costs in rate base. The stipulation specifies the depreciation rate and other relevant matters. GP will continue to file the semiannual VCM reports until Unit 4 reaches commerciality but no testimony or hearings related to them will be required. Unit 4 is expected to enter commercial operations in March 2024.

DTE — A proposed decision in CMS's MI electric rate case is due on December 21: CMS seeks a $169M revenue increase on a forward test year with an ROE of 10.25% and a 51.5% equity ratio. Aside from the regular items, the request includes an Investment Recovery Mechanism (IRM) tracker with the intent of ring-fencing certain investments, including those for reliability and resiliency, to make it easier to track the performance of these investments. The Company has a similar regulatory mechanism in place at the gas utility, which has grown over time. Once set in place, the mechanism could allow more timely recovery of storm costs (targeting a starting allowance of ~$100M). CMS included ~$107M in Service Restoration costs in the test year and proposed a Symmetric Performance Incentive Mechanism that would return the unspent balance to ratepayers and accrue excesses as deferrals. Also included is a request for approval of a pension/OPEB volatility mechanics, to smooth out the impact of pension expenses over time. As expected, the filing includes a request for an undergrounding pilot to convert 10.3 miles of overhead lines to underground. An ALJ PD is expected on December 21.

D — Briefs in D's VA IRP are due on December 21: The ALJ recommended the SCC find that D's IRP was not reasonable given its short-term action plan calling for 970 MW of natural gas by 2028, and does not fully consider all in-state and regional resources as alternatives. The ALJ does not believe D should be required to file a new IRP but recommended the Company hire a third party to conduct a load-forecast analysis and verify D's projected forecasted load growth prior to its next IRP filing. D should also include a scenario analysis that models D's participation and exit of the RGGI. An SCC order is expected in the near term. As a reminder, D filed rebuttal testimony noting that it incorporated PJM's load forecast into its data center forecast and defended the credibility of its forecasts since they incorporate EE and DR programs and use county-by-county load forecasts based on customer commitments. The 2023 IRP covers the 15-year period starting in 2024-2038 using 2023 as the base year. The 25-year planning period extends to 2048. The plan considers PJM-projected annual peak and energy load growth of 5% and 7% over the next decade, respectively, driven by data centers and less so by electrification trends. D is projecting the addition of ~20 GW of resources in the 15-year period and ~32 GW (net of retirements) in the 25-year period. We wrote on D's initial IRP filing here.

ETR — Intervenor testimony in SERI proceedings is due on December 22: The SERI proceedings are about two-thirds resolved following AR's settlement, on terms that were similar to those achieved with the MS commission. SERI is trying to capitalize on the momentum to reach settlements with the outstanding jurisdictions. Specifically, ETR believes New Orleans is more incentivized to

Sophie Karp (917) 368-2361 / sophie.karp@key.com

agree to a settlement, which could help with progress in the discussions with LA, as the only remaining party after NOLA. If LA does not agree to a settlement, the proceedings could be protracted but much of the overhang would already be removed. Hearings for Track III are set to begin January 13, 2025, and an initial decision is due July 28.

FE — Rebuttal testimony in FE's WV electric rate case is due on December 22: Staff recommended a revenue increase of $81M (net $55M), including a $104M revenue increase for Mon Power and a $24M revenue decrease for PE. The recommendation is premised on equity layers for Mon Power and PE of 44.32% and 47.9684%, respectively, while using a 9.44% ROE for both. Staff also recommended including the roll-in of $25M for the vegetation management surcharge, resulting in a net $55M increase. Staff did not support the Infrastructure Investment Program but suggested the Company file a separate proceeding for the program, which seeks to invest ~$90M from 2024-2026. Overall, Staff's recommendation compares to FE's combined request for a $207M revenue increase ($222M for Mon Power, -$15M for PE), premised on a 10.85% ROE and 49.18% equity. Staff's update to depreciation expenses to reflect plant balances as of June 30, 2022, is the primary driver of the delta, which aligns with the settlement in a separate case related to the depreciation accrual rates (Docket: 23-0030-E-D). FE initially calculated the depreciation expenses using a 13-month average. Additionally, the lower equity layers and ROE contributed to the delta. A WV PSC final decision is expected in 1Q24.

Recent Developments for Companies Under Our Coverage

From our midweek: CNP files an electric rate case in IN; EXC files the settlement details in its DE electric rate case; VA ALJ recommends the SCC deny D's VA IRP; PJM awards $5B of transmission projects as part of its RTEP W3 process; Cardinal-Hickory Creek transmission line owners announce the energization of the eastern portion of the line; SO announces Chris Womack as the executive chairman of the board; AGR begins rolling out smart meters for NY State customers; and EIA releases its December Short-Term Energy Outlook.

EXC — ICC issues a final order in EXC's multi-year rate case: The ICC issued a final order authorizing a $506M revenue increase for 2024-2027, premised on an 8.9% ROE and 50% equity. The order is similar to the final order in AEE's case (read more about our AEE downgrade and the IL regulatory climate here), where the ICC rejected the entirety of the grid plan and kept the rate base flat from the last authorized level, or $13.8B in EXC's case. EXC will have three months to refile its grid plan. The final order compares to the ALJ's PD recommending a $1,175M revenue increase, premised on a 9.28% ROE. In briefs, EXC updated its request to a $1,499M revenue increase over the 2024-2027 period while proposing to defer ~$339M for future recovery. EXC's request was premised on gradual increases in its ROE (10.5-10.65%) and equity layers (50.58-51.19%) through the four years. New rates are expected to go into effect January 1, 2024.

EXC — MD PSC issues final decision in BGE electric and gas multi-year plans: The MD PSC issued a final order authorizing electric and gas revenue increases of $179M and $228M, respectively, premised on ROEs of 9.5% and 9.45% for the electric and gas operations, respectively. The PSC denied BGE's request for performance incentive mechanisms, citing the design and costs as outweighing the customer benefits. BGE filed the request seeking a net $314M electric and a $290M gas rate increase over 2024-2026 based on a 10.4% ROE and 52% equity. The lower ROEs were the primary driver of the delta, while lower authorized rate bases and a difference in depreciation related to the electric assets contributed. The multi-year rate plans were the second such filings for BGE in MD, but the PSC will investigate where it makes sense to continue the process. The OPC recommended a single-year rate case in its testimony. New rates are expected to go into effect January 1, 2024, with step ups in 2025 and 2026.

WEC — ICC denies WEC's motion for clarification on 2024 safety modernization program: The ICC issued an order denying WEC's motion for clarification related to the disallowance of the 2024 Safety Modernization Program (SMP). WEC filed the emergency motion following the ICC's final order that disallowed $265M related to spending for the SMP for the 2024 test year and paused the program (read more about the final order here). WEC requested permission to continue ~$134M of work in 2024 for the interest of public safety and system reliability. Specifically, ~$29M is related to emergency work with $47M and $31M related to uncompleted and system improvement work, respectively. As part of its final order in Peoples Gas's rate case, the ICC placed the SMP on hold until a separate proceeding determines the method and capital investment required to replace high-risk pipe. The proceeding will be initiated by February 1, 2024. PGL is in the process of replacing ~2K miles of Chicago's aging natural gas pipeline infrastructure through the SMP and was authorized to recover the costs through the QIP rider. The QIP is set to expire at the end of 2023, and PGL was not seeking an extension to the rider and would seek cost recovery through future rate cases. PGL's projected average annual investment through 2025 is between $280M and $300M. While the ICC's decision on WEC's gas utilities was relatively restrictive, we expect WEC to redirect capital to WI, until such time that IL figures out its priorities with respect to gas system safety investment (which might be in 2025 or beyond).

ETR — The AR PSC issues final order approving settlement in ETR's FRP: The AR PSC issued a final order adopting the settlement in ETR AR's 2023 formula rate plan. ETR is authorized an $87.7M revenue increase, comprised of a $49.8M deficiency for the 2022 historical test year and a $129.0M deficiency for the 2024 forecast year, although state law only allows a 4% maximum revenue increase. Settling parties included ETR, the AR PSC Staff, the Office of the AR Attorney General, and others. ETR AR submitted the FRP application seeking approval of an $89M electric revenue requirement, including $50M for the 2022 historical test year and $81M for the 2024 forecast year, limiting ETR to the $89M request given the 4% revenue constraint. New rates will go into effect on January 2, 2024.

Sophie Karp (917) 368-2361 / sophie.karp@key.com

XEL — CO PUC verbally approves XEL's resource portfolio plan: The CO PUC verbally approved an alternative portfolio for XEL that includes 5,835 MW of resources. The portfolio comprises renewable resources and only proposes 669 MW of natural gas. XEL would own 3,133 MW of resources and acquire the remaining 2,702 MW through PPAs. Based on the plan, XEL expects to invest $4.8B. The approved alternative portfolio compares to the Preferred Plan XEL filed with the PUC in October, which proposed 7,192 MW of total resources and 4,787 MW of XEL-owned resources. XEL's preferred plan offered the potential for $10.8B of investments for generation resources and transmission capacity upgrades. If accepted entirely, XEL's preferred plan would have been $7.6B of incremental capital opportunity to XEL's $34B 2024-2028 plan. The Just Transition Plan filing provides the potential for incremental resources and capital investments. XEL plans to make that filing by June 1, 2024.

CEG, D, DUK — Tenex warns U.S. customers of potential uranium export bans: According to reports, Tenex warned U.S. utilities of a potential ban on exporting nuclear fuel to the U.S. Tenex is a Russian state-owned uranium company. According to the reports, if Congress were to pass legislation prohibiting imports of nuclear fuel from Russia beginning in 2028, Russia would preemptively implement a ban on exports to the U.S. Russia was the number one foreign supplier to the U.S. in 2022, providing almost ~25% of enriched uranium. The U.S. operates 93 nuclear plants. See our report on the Nuclear Renaissance, where we offer a detailed breakdown of the uranium supply chain.

AEP, CNP, ETR, SRE, XEL — PUCT Adams resigns from position: Commissioner Adams announced his anticipated resignation from the TX PUC. Mr. Adams departure will leave two vacancies on the five-member commission. As a reminder, Chair Lake resigned from his role in August. Adams and Lake both joined the PUC in April 2021 following the shake-up of the PUC in the aftermath of the February 2021 winter storm. Recall that the TX legislature voted to expand the number of commissioners at the PUCT from three to five as part of the regulatory overhaul following the response to Winter Storm Uri (Governor Abbott signed SB 2154 into law in June 2021). Under the new law, PUCT commissioners must be TX residents, registered voters, and well-informed in public utilities and utility regulations. In TX, we are actively following XEL's TX electric rate case.

DUK — DUK issues RFP for 5 GW of resources in IN: DUK issued an RFP seeking 2,500 MW of intermittent resources and 2,500 MW of non-intermittent resources. The intermittent generation can include renewable generation plus battery storage, while DUK is seeking natural gas generation and stand-alone battery storage for the non-intermittent resources. DUK is flexible on the locations of the projects, but prefer projects that are deliverable to MISO Zone 6. The resources should all be on-line no later than the end of 2032. RFP bids for the intermittent resources are due February 9 and the non-intermittent resources are due February 23.

Other Disclosures

KeyBanc Capital Markets is a trade name under which corporate and investment banking products and services of KeyCorp and its subsidiaries, KeyBanc Capital Markets Inc., Member FINRA/SIPC ("KBCMI"), and KeyBank National Association ("KeyBank N.A."), are marketed.

KeyBanc Capital Markets Inc. ("KBCMI") does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This report has been prepared by KBCMI. The material contained herein is based on data from sources considered to be reliable; however, KBCMI does not guarantee or warrant the accuracy or completeness of the information. It is published for informational purposes only and should not be used as the primary basis of investment decisions. Neither the information nor any opinion expressed constitutes an offer, or the solicitation of an offer, to buy or sell any security. The opinions and estimates expressed reflect the current judgment of KBCMI and are subject to change without notice. This report may contain forward-looking statements, which involve risk and uncertainty. Actual results may differ significantly from the forward-looking statements. This report is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the specific needs of any person or entity.

No portion of an analyst's compensation is based on a specific banking transaction; however, part of his/her compensation may be based upon overall firm revenue and profitability, of which investment banking is a component. Individuals associated with KBCMI (other than the research analyst(s) listed on page 1 of this research report) may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(A), financial interest, if any, by any research analysts listed on page 1 of this report will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosure Appendix. KBCMI itself may have a position (long or short) in the securities covered in this research report and may make purchases and/or sales of those securities in the open market or otherwise without notice. As required by FINRA Rule 2241(C)(4)(F), if KBCMI, or its affiliates, beneficially own 1% or more of any class of common equity securities in the subject company(ies) in this research report, it will be disclosed in Important Disclosures, Company-specific regulatory disclosures located above in the Disclosures Appendix. This communication is intended solely for use by KBCMI clients. The recipient agrees not to forward or copy the information to any other person without the express written consent of KBCMI.

KBCM Research LLC ("KeyBanc Capital Markets Research"), an SEC registered investment advisor, is a wholly owned subsidiary of KeyBanc Capital Markets Inc. KeyBanc Capital Markets Research provides objective and sophisticated **Research Services**, primarily in the form of published Research Reports, to an institutional client base in exchange for a cash fee. KBCM Research does not provide particularized investment advice with regard to any specific institutional client, on the basis of specific sector or company requests from a client. Our advisory relationship with our clients is strictly limited to the provision of **Research Services**, which are not to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. Additional information about KBCM Research LLC also is available on the SEC's Investment Adviser Public Disclosure (IAPD) website.

WATTS COOKING? Weekly

Topics: Ute strength/EXC/SO/CMS; NERC; WEC

Our view: Weekly developments that we found to be of interest.

WATTS on Your Mind

This past week, investors continued to focus on a lowering interest rate environment that may be favorable to utilities.Most investors still call for a soft landing. As we wrote in last week's WATTS Cooking, generalists have been doing work on utilities and were rewarded for it when the Fed Chairman Powell called for moderation of the Fed Fund. Unfortunately, Illinois spoiled the party with a rate case decision of **EXC** and **AEE** (Not Rated) that every investor viewed as nonsensical. It is a stark reminder for many investors that not every utility is the same and a constructive regulatory environment is preferred. Hence, many of the conversations focused on **SO**, **CMS**, **WEC**, and even **NEE** (given how supportive Florida is).

WATTS on Our Mind

Wednesday, the North American Electric Reliability Corporation (NERC) released its Long-Term Reliability Assessment report. It flagged many elevated or high-risk regions projected to face risks due to accelerated electrification, decarbonization efforts, and generation retirements, leading to capacity shortfalls, low reserve margins, and increased usage distribution generation. MISO and the SERC-Central regions were labeled as high-risk areas facing a near-term capacity shortfall. The report highlights the dependence on natural gas fuel supplies, which can fall short during periods of subfreezing temperatures. NERC's recommendation called for the increased usage of reliable generation sources and accelerating additions to transmission capacity. **Our view: To support reliability, we do not foresee a shift in coal retirement timelines, although some units may see slightly extended timelines. Rather, we expect a further push for weatherization for gas plants and an acceleration of battery storage deployment. From a transmission perspective, we anticipate a push for inter-regional connectivity.**

On the back of EXC's and AEE's adverse decisions by the Illinois Commission (ICC), we would note that WEC's Peoples Gas' request to reverse a portion of its November decision, including the pipeline Safety Modernization Program (SMP), was rejected. WEC requested authorization for a $134M spending program in 2024 to wrap up pipeline projects underway. Last month, the commission ordered a spending pause on the SMP in addition to disallowing $236M of investment costs and authorized a ROE of 9.38%, materially below the ALJ recommendation of 9.83%. **Our view: We expect the company to clarify the magnitude of a charge after the outcome of the rehearing request, which is expected by January 4th. Last month, the commission ordered The ICC Staff to initiate a process to determine the pipe replacement method and investment amount by February 1st, with a decision within 12 months.**

Required disclosures

Conflicts disclosures

This product constitutes a compendium report (covers six or more subject companies). As such, RBC Capital Markets chooses to provide specific disclosures for the subject companies by reference. To access conflict of interest and other disclosures for the subject companies, clients should refer to https://www.rbccm.com/GLDisclosure/PublicWeb/DisclosureLookup.aspx?entityId=1. These disclosures are also available by sending a written request to RBC Capital Markets Research Publishing, P.O. Box 50, 200 Bay Street, Royal Bank Plaza, 29th Floor, South Tower, Toronto, Ontario M5J 2W7 or an email to rbcinsight@rbccm.com.

The analyst(s) responsible for preparing this research report received compensation that is based upon various factors, including total revenues of the member companies of RBC Capital Markets and its affiliates, a portion of which are or have been generated by investment banking activities of the member companies of RBC Capital Markets and its affiliates.
With regard to the MAR investment recommendation requirements in relation to relevant securities, a member company of Royal Bank of Canada, together with its affiliates, may have a net long or short financial interest in excess of 0.5% of the total issued share capital of the entities mentioned in the investment recommendation. Information relating to this is available upon request from your RBC investment advisor or institutional salesperson.

Explanation of RBC Capital Markets Equity rating system

An analyst's 'sector' is the universe of companies for which the analyst provides research coverage. Accordingly, the rating assigned to a particular stock represents solely the analyst's view of how that stock will perform over the next 12 months relative to the analyst's sector average.
Ratings
Outperform (O): Expected to materially outperform sector average over 12 months.
Sector Perform (SP): Returns expected to be in line with sector average over 12 months.
Underperform (U): Returns expected to be materially below sector average over 12 months.
Restricted (R): RBC policy precludes certain types of communications, including an investment recommendation, when RBC is acting as an advisor in certain merger or other strategic transactions and in certain other circumstances.
Not Rated (NR): The rating, price targets and estimates have been removed due to applicable legal, regulatory or policy constraints which may include when RBC Capital Markets is acting in an advisory capacity involving the company.
Risk Rating
The **Speculative** risk rating reflects a security's lower level of financial or operating predictability, illiquid share trading volumes, high balance sheet leverage, or limited operating history that result in a higher expectation of financial and/or stock price volatility.

Capital Markets

Distribution of ratings

For the purpose of ratings distributions, regulatory rules require member firms to assign ratings to one of three rating categories - Buy, Hold/Neutral, or Sell - regardless of a firm's own rating categories. Although RBC Capital Markets' ratings of Outperform (O), Sector Perform (SP), and Underperform (U) most closely correspond to Buy, Hold/Neutral and Sell, respectively, the meanings are not the same because our ratings are determined on a relative basis.

Distribution of ratings
RBC Capital Markets, Equity Research
As of 30-Sep-2023

			Investment Banking Serv./Past 12 Mos.	
Rating	Count	Percent	Count	Percent
BUY [Outperform]	820	55.97	250	30.49
HOLD [Sector Perform]	590	40.27	148	25.08
SELL [Underperform]	55	3.75	5	9.09

Conflicts policy

RBC Capital Markets Policy for Managing Conflicts of Interest in Relation to Investment Research is available from us on request. To access our current policy, clients should refer to

EIX/PCG/SRE – CA intervenors file petition for modification on cost of capital decision

PCG – CPUC conditionally approves Diablo Canyon extension

CNP – CNP MN Gas receives interim rate approval

NY/Gas – NYPSC declines to approve Long Term Gas Plan

EXC/MD – BGE receives final order in MYPs

CEG – CEG lifts buybacks by $1B

Power/NERC – NERC releases annual reliability assessment

PPL – KY utilities reach labor agreement with IBEW

EIX/PCG/SRE – CA intervenors file petition for modification on cost of capital decision

- A ratepayer stakeholder coalition filed a petition for modification of the prior cost of capital decision alleging that the CCM doesn't work and should be eliminated.
- Previously, EIX, PCG and SRE CA investor-owned utilities (SCE, PG&E, SDG&E and SCG) filed responses to the protest of advice letters for the cost of capital mechanism (CCM) trigger resulting in ~70bp of proposed ROE increases.
- The CPUC Energy Division also issued an Advice Letter suspension notice which gives up to 120 days for the CPUC to decide on the advice letter implementation.
- Pursuant to the CCM, IOUs requested (AL numbers: 6207-G, 4300-E / 3239-G, 4813-G/7046-E, 5120-E):
  - SCE's authorized ROE of 10.05%increases by 70 basis points, resulting in an authorized ROE of 10.75% for 2024.
  - PG&E's authorized ROE of 10.00% percent increases by 70 basis points, resulting in an authorized ROE of 10.70% for 2024.
  - SDG&E's authorized ROE of 9.95% percent increases by 70 basis points, resulting in an authorized ROE of 10.65% for 2024.
  - SCG's authorized ROE of 9.8% percent increases by 70 basis points, resulting in an authorized ROE of 10.50% for 2024.
- Docket: A2204008 et al

Guggenheim takeaway:*The petition for modification is a bold attempt to change regulatory precedent on cost of capital in California. The filing references misalignment between the CCM and actual cost of capital for utilities dating back to 2008, despite the commission having litigated cost of capital multiple times and most recently the commission allowing a downward cost of capital adjustment. During Covid, intervenors argued for keeping the CCM without exception for extraordinary circumstance when the outcome was favorable, but the petition for modification seemingly reverses course.*

PCG – CPUC conditionally approves Diablo Canyon extension

- CPUC voted to approve the Diablo Canyon operations extension on condition of NRC

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 10-Jan-2024 07:35 PM.

approval.

- Additionally the CPUC conditioned the extension on the $1.4B in federal loan guarantees and futher option to review the prudency of costs.
- PG&E previously filed a License Renewal Application with the Nuclear Regulatory Commission (NRC) seeking to extend operations at Diablo Canyon Power Plant (DCPP).
- The license renewal comes after a prior application (pre-retirement decision) was rejected, but the plant received the necessary approvals to operate during the new application period.
- Once the NRC determines whether the application is sufficient for its review, a multi-year evaluation process will begin, which includes ample opportunities for public feedback and involvement. Under federal regulation, DCPP will continue to operate until the NRC has taken final action on PG&E's application.
- CPUC docket: R2301007.

Guggenheim takeaway: *FYI. The CPUC process is constructive to get alignment with policy. The NRC process previously kicked off for Diablo Canyon license extensions. The NRC involvement continues to be thorough and well supported by state agencies. From an earnings perspective there could be a tailwind for PCG from the extension, but impacts would remain in the prior range of EPS / rate base guidance outcomes (more thoughts in our SB846 note* **here***). Overall, we believe PG&E actions on extending Diablo Canyon operations provide support to the state policy objectives, provides benefits to customers from carbon free generation at reduced costs and secures good will.*

CNP – CNP MN Gas receives interim rate approval

- MN PUC approved interim rates for the CNP MN Gas general rate case in 2024.
- MN PUC approved a 5.3% interim rate increase, subject to refund, vs. a 6.5% request for 2024.
- The proposed rate increase is $84,630,373 or a 6.5% increase over test year revenues (2024), and an additional $51,781,868 or a 3.7% increase over plan year gross revenues (2025).
- CenterPoint Energy requests an interim rate increase of $68.7 million for 2024, or approximately 14.0% more than the current rate without the cost of gas, or 5.3% more than the current rate with the cost of gas.
- For the 2025 Plan Year the interim rate increase is an additional $33.2 million, or $101.9 million total increase, which represents an increase of 20.6% over current rates without the cost of gas, or 7.8% with the cost of gas.
- CNP request is based on a 10.3% ROE and 52.5% equity ratio.
- CNP interim rate request is based on a 9.39% ROE
- The request is based on 2024-2025 rate base of $2.18B and $2.35B respectively.
- Docket: 23-173 (search)

Guggenheim takeaway:*FYI. CNP moving through proceeding to reconcile revenues and recovery of investment and costs.*

NY/Gas – NYPSC declines to approve Long Term Gas Plan

- NYPSC rejected the first long term gas planning study under the new LT gas planning framework alleging insufficient action to curb reliance on natural gas.
- The process framework was adopted as part of the CLCPA law and requires utilities to reduce greenhouse gas emissions 40% by 2030, 85% by 2050, and net-zero emissions by 2050
- Intervenors noted that the LT plans must show a path to halt natural gas expansion.

Guggenheim takeaway:*FYI. While this is the first litigated LT planning process, ED will likewise be scrutinized along the same framework. The process overall highlights the policy push against natural gas in NY state.*

EXC/MD – BGE receives final order in MYPs

- “Originally BGE requested an increase of $602 million through 2026, the Commission authorizes BGE to increase electric and gas rates by $408 million through 2026.” - PSC
- The PSC has order 9.5% ROE (vs. Staff recc 9.45%, 9+.5% prior) for electric and 9.45% for gas (vs. prior 9.65%)
- “The Commission, in light of recent laws and policies that are ushering in a reduction in the

Provided for the exclusive use of Daniel Whitehead at Exelon Corp on 10-Jan-2024 07:35 PM.

use of gas and an increase of electrification, prefers a higher ROE for electric distribution as a reflection of the policy shift. The slightly lower gas ROE should incentivize BGE, a dual fuel utility, to invest in its electric distribution system rather than gas distribution" – PSC

- "The Commission approves BGE's proposed capital structure except for the proposed cost of debt. The long-standing precedent in Maryland is that a utility's actual test-year-ending capital structure should be used when determining its authorized rate of return in a base rate proceeding, absent evidence that the actual capital structure would impose an undue burden on ratepayers." - PSC
- More HERE

Guggenheim takeaway: *Heads up on the FO, which we continue to parse in light of the dual MYP orders yesterday.*

CEG ─ CEG lifts buybacks by $1B

- "On December 12, 2023, the Board of Directors of Constellation Energy Corporation (the "Company") approved an increase to the Company's previously announced $1 billion share repurchase program, authorizing the repurchase of up to an additional $1 billion of the Company's outstanding common stock. The timing and amount of any share repurchases under the Company's authorization will be determined by management based on market conditions, applicable legal requirements and other factors, and such repurchases may be executed in the open market, in privately negotiated transactions or otherwise in compliance with Rule 10b-18 and Rule 10b5-1 under the Securities Exchange Act of 1934. The program may be may be limited, suspended, or discontinued at any time at the Company's discretion and without prior notice" - CEG
- More HERE

Guggenheim takeaway: *We had previously expected (HERE) some degree of buyback increase on the 3Q call in light of the ongoing outperformance on the year and the pending addition of STP, both of which were incremental to the prior 23-24 FCF guide of $1.0-1.4B of CAFA (previously updated after the STP deal HERE). In our view buybacks remain a logical avenue of capital allocation in the NT as management continues to recalibrate growth options (e.g., hydrogen may be challenging) and looks ahead to the next roll in February.*

Power/NERC ─ NERC releases annual reliability assessment

- The annual assessment found MISO and SERC Central as 'high risk"
- More HERE, HERE

Guggenheim takeaway: *Interesting read as we continue to monitor the reliability backdrop heading into winter.*

PPL ─ KY utilities reach labor agreement with IBEW

- "Louisville Gas and Electric Company, a subsidiary of PPL Corporation (NYSE: PPL), has announced it reached a new three-year contract agreement with International Brotherhood of Electrical Workers Local 2100, which currently represents more than 600 employees… The agreement, which is currently in effect through Oct. 1, 2026, includes 3% annual wage increases in each year of the contract for all employees represented by IBEW 2100." - release
- More HERE

Guggenheim takeaway: *Minor FYI as we continue to monitor the backdrop for potential case timing in KY, as first laid out at EEI (more HERE).*

A Discussion on the Hydrogen PTC Guidance

Please join Shar Pourreza and Joe Osha for a quick and timely discussion on the current backdrop for the pending Hydrogen PTC guidance with Van Ness Feldman's Senior Tax Counsel Michael Platner. Michael has an extensive background lobbying Treasury on tax matters over his 30-year career, including intimate involvement in the hydrogen PTC process to date.

Key Topics

- Expectations for the draft following recent media reports on 'leaked' versions
- Potential pathways forward for compromises on additionality, matching, and deliverability
- Timing thoughts and procedural data points in the process
- Broader thoughts on IRA pushback and potential political change
- *And other items related to this topic to be discussed…*

Date & Time

Friday, December 15, 2023
12:00PM ET

Speaker Bio

Michael Platner is Senior Tax Counsel at Van Ness Feldman. Michael's practice focuses on government affairs and legal issues pertaining to tax, energy, customs, and international trade legislative and regulatory issues. Michael has extensive experience developing and implementing successful government relations programs. He has a refined understanding of the political landscape, supported by substantial technical skills and a wealth of experience drafting issue papers, advising on tax matters, and building winning strategies for participants in energy and related markets.

Participating Guggenheim Participants

Shar Pourreza, *Senior Managing Director, Equity Research Analyst – Power & Utilities*
Joseph Osha, *Managing Director, Equity Research Analyst – Energy Technology and Industrial Technology*

DISCLAIMER

Important Notices and Disclosures Please forward the language below to your Compliance team: Guggenheim Securities, LLC is providing notice to you and your firm's Compliance department that we have invited personnel from your firm to attend the above-referenced event. Attendees are advised that any information or materials discussed at the event or provided in connection therewith (the "materials") are provided for informational and educational purposes only and should not be considered a recommendation of any particular security, strategy or investment product, as investing advice of any kind, or as offering or providing any investment product or service, or as an offer or solicitation with respect to the purchase or sale of any investment by Guggenheim Securities, LLC or any of its affiliates ("Guggenheim"). The materials are not provided in an advisory or fiduciary capacity and may not be relied upon for or in connection with the making of investment decisions. The views expressed during the event and/or in the materials are solely those of the authors, participants, investment bankers and other presenters (collectively, the "Presenters") and may differ from the views of other officers, directors, employees or other representatives (as to any person or entity, its "Representatives") of Guggenheim or any other Presenter. The Presenters' opinions are subject to change without notice. Neither Guggenheim nor any other Presenter undertakes any obligation to provide additional information or any update to or correction of the information discussed or provided at the event or otherwise in connection therewith. Sources for the information discussed or contained in any materials are believed to be reliable, but the information is not guaranteed as to, and neither Guggenheim nor any other Presenter nor any of their respective Representatives make any representation or warranty regarding, accuracy or completeness of any information contained therein or otherwise. Neither Guggenheim nor any other Presenter nor any of their respective Representatives shall be liable to any person in any way whatsoever for any losses, costs or claims for reliance on the materials. Guggenheim and/or any other Presenter may have a business relationship with certain attendees and/or issuers mentioned during the event or in any materials provided, or may otherwise underwrite, hold a position, buy or sell as principal in the securities of any issuer mentioned. Guggenheim may have in the past provided, may currently be providing and may in the future seek to provide investment banking, financial advisory and other services to, and have other material relationships with, attendees and/or issuers of securities, loans and other financial instruments discussed during the event or referred to in any materials. With respect to any position Guggenheim or any Presenter may hold, Guggenheim or such Presenter may have interests different from or adverse to your interests. None of the materials provided may be reproduced or redistributed, in whole or in part, to any other person or published in whole or in part for any purpose absent the written consent of Guggenheim. By registering for and/or attending the event and/or accepting delivery of the materials, you will be deemed to acknowledge and agree to the matters set forth above. Copyright © 2023 by Guggenheim Securities, LLC, a FINRA registered broker-dealer. All rights reserved. Invitation is non-transferable.

This is a message from Guggenheim Securities, LLC to provide notice to you and your firm's compliance department that personnel from your firm are scheduled to attend the above-referenced meeting. The discussion will be general in nature and any mention of individual companies would only occur in the context of illustrating a trend or historical reference point. Our policies provide that specific companies, material non-public information and/or confidential information may not be discussed. The experts and/or speakers for this event may have material non-public information, but have agreed not to discuss such information. Further, all experts are required to review, understand our Expert Training Deck and agree to comply with its Terms and Conditions. Personnel from your firm must not seek Investor confidential information and/or material non-public information from Guggenheim Securities, LLC. Additionally, at your discretion, you may also choose not to attend the meeting.

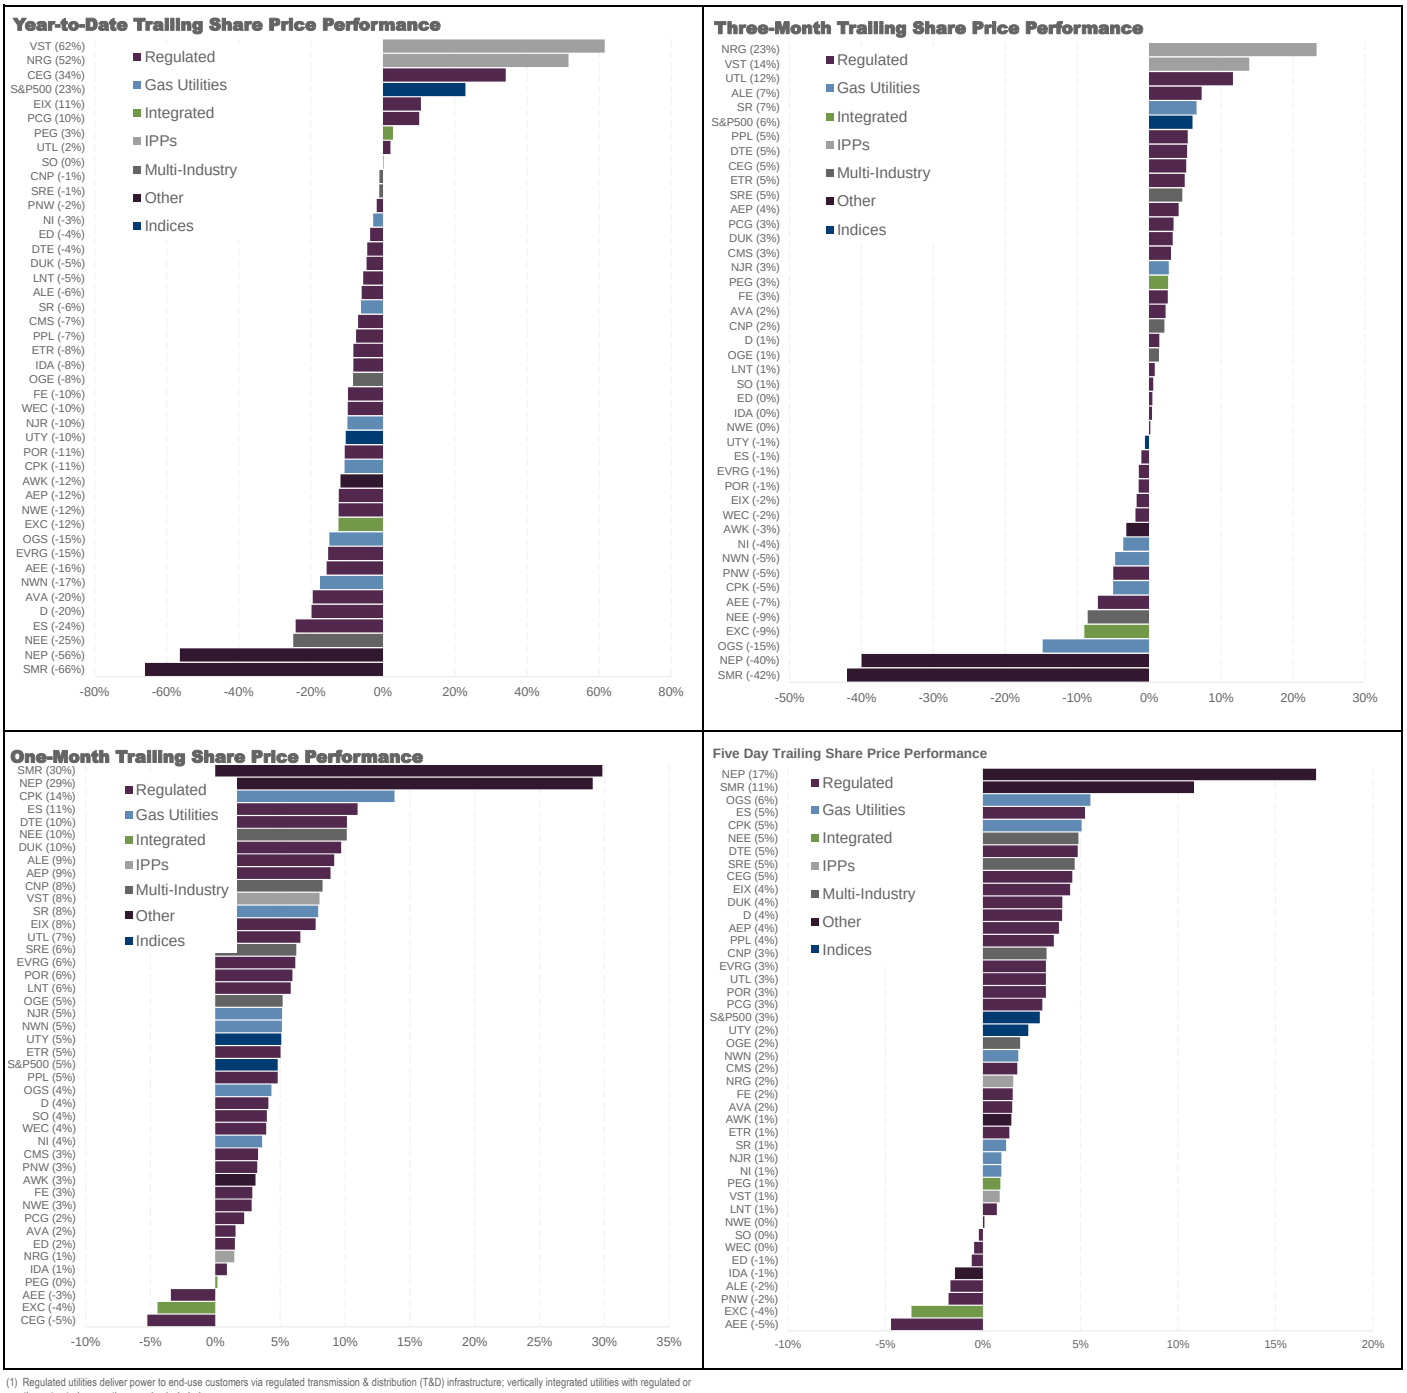
Share Price Performance (Year-to-Date, Three-Month, One-Month, & Five-Day Trailing)



(1) Regulated utilities deliver power to end-use customers via regulated transmission & distribution (T&D) infrastructure; vertically integrated utilities with regulated or mostly contracted generation are also included.

(2) Local Gas Distribution Companies (LDCs), as well as diversified utilities with a business mix largely comprised of gas infrastructure and related activities (i.e., LDC franchises, interstate pipelines, and/or other gas midstream activities).

(3) Integrated utilities own and operate regulated T&D franchises, as well as un-regulated power generation with commodity exposure.

(4) IPPs operate merchant (i.e., un-regulated, non-utility) power plants that compete to sell power in wholesale markets or through retail marketing businesses.

ANALYST CERTIFICATION

By issuing this research report, each Guggenheim Securities, LLC ("Guggenheim Securities") research analyst whose name appears in this report hereby certifies that (i) all of the views expressed in this report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers discussed herein and (ii) no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the research analyst.

IMPORTANT DISCLOSURES

The research analyst(s) whose name(s) appear(s) in this report have received compensation based upon various factors, including quality of research, investor client feedback, and Guggenheim Securities, LLC's overall revenue, which includes investment banking revenue.

Please refer to this website for company-specific disclosures referenced in this report: https://guggenheimsecurities.bluematrix.com/sellside/Disclosures.action. Disclosure information is also available from Compliance, 330 Madison Avenue, New York, NY 10017.

RATINGS EXPLANATION AND GUIDELINES

BUY (B) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of 10% or more within a 12-month period.

NEUTRAL (N) - Describes stocks that we expect to provide a total return (price appreciation plus yield) of between plus 10% and minus 10% within a 12-month period.

SELL (S) - Describes stocks that we expect to provide a total negative return (price appreciation plus yield) of 10% or more within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Guggenheim Securities, LLC policies.

CS - Coverage Suspended. Guggenheim Securities, LLC has suspended coverage of this company.

NC - Not covered. Guggenheim Securities, LLC does not cover this company.

Monitor - Describes stocks whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Under Review (UR) - Following the release of significant news from this company, the rating has been temporarily placed under review until sufficient information has been obtained and assessed by the analyst.

Guggenheim Securities, LLC methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Price targets are assigned for Buy- and Sell-rated stocks. Price targets for Neutral-rated stocks are provided at the discretion of the analyst.

Equity Valuation and Risks: For valuation methodology and risks associated with covered companies or price targets for covered companies, please see the most recent company-specific research report at https://guggenheimlibrary.bluematrix.com/client/library.jsp, contact the primary analyst or your Guggenheim Securities, LLC representative, or email GSResearchDisclosures@guggenheimpartners.com.

The Wolfe Byte

EXC's IL and MD multi-year rate orders issued: IL was poor with very low ROE and a punt on incremental rate base until next yr, sending the stock down 8%. MD was post-close and solid. We still see EXC tracking to low end of 6-8% EPS CAGR assuming capital redirected from IL.

Stock falls on disappointing IL order; MD is better. On 12/14, the ICC set an ROE of 8.9% in ComEd's 2024-27 electric distribution case and rejected its grid plan. The order reduced the already low ALJ-proposed ROE by 40bp and kept 2024-27 rate base flat to 2022 until approval next year of a revised grid plan. The stock trailed the UTY by 620bp. The order appears to likely put EXC on the low end of its 6-8% EPS growth target, but more 2024-27 RB will likely be added. The MD order hit after close and was decent. IL has cemented itself as one of the worst regulatory states and may dominate near-term attention. Fortunately, its only ~28% of EXC RB and we see EXC's other jurisdictions much better. Given the overhang and low ROEs, we expect the company to redirect investment from IL into their other states. We now target an avg multiple vs prior premium and cut PT by $6 on P/E of 15x vs 17x prior.

IL sends bad signal; flat RB growth to 2022 or 2023? Under formula rates, IL ROEs were low due to the 30Y UST yields, but now 2024-27 ROEs will stay at 8.9% regardless of rates. The EPS hit from lower ROE is manageable, but RB is uncertain until a grid plan is approved. And the ICC ordered 2024-27 flat to the last authorized RB, which was YE22. Next year, YE23 RB will be set under formula rates and presumably be higher than YE22. Whether that will result in a higher 2024-27 RB than those in the 12/14 order is unclear. See p. 3 for a scenario that keeps 2024-26 RB flat with 2022. It is unlikely but informative.

Decent BGE order; excl FERC RB, MD is close to IL's size. The BGE MYP order was in line w/ PSC Staff recs, which we viewed as reasonable. The 9.5% ROE for the larger electric RB is unchanged, while 9.45% for gas is 20bp lower than last allowed. The cumulative rate increase of $408M is in line w/ Staff's $425M. And the order approved most of EXC's requested 2021-22 reconciliations; important for future certainty. We note EXC's MD RB is ~22% of total, while IL distrn is ~28%.

ESTIMATES				DECEMBER FYE
($)	2023E	2024E	2025E	2026E
EPS FY	2.37 E	2.51 E	2.76 E	2.86 E
Cons.	2.36 E	2.50 E	2.71 E	2.89 E
P/E	16.0x	15.1x	13.7x	13.2x

Investment Conclusion

We believe EXC is a low-risk utility stock. It is a mostly electric T&D utility with no coal, in line or above regulation in most of its jurisdictions outside of IL, flexible B/S, and LT EPS growth target of 6-8%. We liked the messaging and conviction on its LT outlook over the past year. The focus has been on a first multiyear rate case in IL, as well as a second multiyear filing in MD and reconciliations of the first MD/BGE multiyear case. IL was disappointing and the case will carryover into 2024, whereas MD was decent. The stock likely trades at a discount to low-risk, high-quality utilities, given IL overhang.

Valuation

Our $41PT is based on our utility group P/E of 15x 2025E.

Please help us protect your advantage...

WOLFE RESEARCH

December 15, 2023

Scenario: Keep 2024-26 ComEd rate base flattish to 2022

Below is a scenario that we view as unlikely but wanted to show as investors look at 2024-27 earnings power while IL regulators set placeholder rate base flat to YE22 until approval sometime next year of a new grid plan, which is to be filed within 90 days.
