PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

PETITION TO INTERVENE

Before the Pennsylvania Public Utility Commission (Commission), pursuant to 52 Pa. Code Sections 5.71 through 5.74, [*Print Name of Petitioner*] Suzan L Zuchowsky hereby files this Petition to Intervene in the above-captioned Application(s). In support thereof, [*Print Name of Petitioner*] Suzan L. Zuchowsky, states as follows:

1. Name and contact information of **the Petitioner.** [*Provide name and address of Petitioner.*]

Suzan L. Zuchowsky

100 Sroka Lane, Smithfield, Pa 15478

2. **Name and contact information of Petitioner's attorney.** [*Provide names and addresses of Petitioner's attorneys. If none, clearly state "No attorney representation."*]

Not yet acquired

3. **Set out clearly and concisely the facts from which the alleged intervention right or interest of the Petitioner can be determined. 52 Pa. Code § 5.73(a)(1).**

[*Explain why the utility's proposals affect you and/or your interests. For example, you may have an interest in this proceeding as a utility ratepayer, a landowner, a resident near the facilities, and/or a business owner.*] Land owner already over powered by a power line and water tanks for public use. - already lost a large portion of property. Electric rates already too high for retirees on fixed income. Very concerned over health risks. Husband already tx. for Bladder CA. Mother died here from cancer and every neighbor around existing power line has died from cancer.!!

4. **State the grounds of the proposed intervention. 52 Pa. Code § 5.73(a)(2).**

[*Explain why you are filing this Petition to Intervene. For example, you may be concerned with how the Company's proposals will impact utility rates, your property interests, your health and safety, and/or business interests.*] This does not benefit Pennsylvanians - VA should get their own power - if they don't have it - Stop A-1's in their area - they already have over 200!! PA has 11, there is no need for this line to PA. My property is generational with grape harbours & fruit trees, timber and natural springs. this power line will kill off our mushroom crop & disrupt Indian burial grounds

5. **State Petitioner's position on the issues in the proceeding. 52 Pa. Code § 5.73(a)(3).**

[*Explain Petitioner's position on the issues in the proceeding. In this regard, the PUC must make the following findings relating to the transmission facilities in order to approve the Siting Application: (1) that there is a need for it; (2) that it will not create an unreasonable risk of danger to the health and safety of the public; (3) That it is in compliance with applicable statutes and regulations providing for the protection of the natural resources of this Commonwealth; and (4) That it will have minimum adverse environmental impact, considering the electric power needs of the public, the state of available technology and the available alternatives. 52 Pa. Code Section 57.76(a)*] Attached are artifacts from Indian occupation of my property. We also have fresh water springs & wells that could lose water if land is disturbed. - How many public utilities can cross one property??? We have already lost a large portion of use of land and timber. the health risks are emmense!! I am a RN. I know better. Our area has suffered enough!! there is no need for Pennsylvania's for this transmission line. These companies need to get organized. Instead of criss-crossing our state - find the most practical way to supply power. This isn't it! VA. can refurbish their own power plants. They are using up our natural resources - who is going to give us power when it is gone? There is no need here. VA. should foot the bill for what they want & pay us!!

They Have Not properly notified Residents - They Hid the maps - No Area Residents were directly notified We were NOT given enough time to Respond. or No one goes to Pt Marion Library Smithfield Library

6. **Service on Petitioner**

How would you Feel if it was going over your Home?

For the purposes of receiving communications from the Commission and from the parties to this proceeding regarding the intervention, if the intervention is granted, [*Print Name of Petitioner*] SUZAN L. Zuchowsky agrees to (*check one*): W. VA Had one year To Respond - we Had Less than 60 Days - we still have property owners who don't Know if they are Affected.

[ ] Open and use a Commission eFiling account and receive eService

[ ] Receive all documents by email at: [email]_____

** Petitioner acknowledges documents cannot be filed via email.

[X] Receive all documents by First Class Mail at the above-listed address

7. **Verification and Signature**

Pursuant to 52 Pa. Code Section 1.36, I, [*Print Name of Petitioner*] SUZAN L. Zuchowsky _____ hereby state that the facts above set forth are true and correct to the best of my knowledge, information, and belief, and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa. C.S. §4904 (relating to unsworn falsification to authorities).

8. **Relief Requested**

[*Print Name of Petitioner*] SUZAN L. Zuchowsky requests that the Commission grant this Petition to Intervene in the Applications and respectfully requests that the Public Utility Commission to [*Identify the relief that you want. For example, you may want the Commission to not approve the Applications and/or you may want the Commission to investigate and hold full hearings regarding the filings, or both.*] PLEASE! PLEASE! Do NOT APPROVE their Request!!! I KNOW There ARE other LAND OWNERS who Don't Know if They ARE AFFECTED The MAPS ARE Difficult to READ And not placed in convient places for People to Access. OUR County Commissioner Just Responded 2 days ago. OUR RESIDENTS HAVE NOT Had A Voice!!

9. **Signature and Date**

Respectfully submitted,

[*Signature of Petitioner*]

SUZAN L ZURKOWSKY

[*Print Name of Petitioner*]

[*Print Name of Petitioner*]

This is the ROAD TO ~~my~~ house that SOON WILL BE LINED with TOWERS IF NOT stopped. WE ARE LOCATED Below LAUREL CAVERNS which WAS JUST NAMED A state PARK - They have A view of US

WE USED TO Ride OUR PONIES to LAUREL CAVERNS TO SWIM IN their POND AS Kids OURS IS A generational FARM.

This is the Drive way to my house. the proposed power line will follow the tree line along my property to just Behind my house where the line will Tower ABOVE the Trees that you See

These are the powerlines and water towers on top of my hill

the windmills are very close

How much ground do we have to sacrifice for Virginia?

→ Nothing

Benefits Pennsylvanians

It is only for the good of Business men not the people

These are the fresh water springs directly behind my house. Trenches were dug to turn the water away from the house, there is an old reservior above the house which was damaged from age & lost good water supply when the last set of power lines & and then 2 water tower tanks took away acreage and ground cover. I only have a well to supply my home with water and I am very concerned that cutting my timber & removing ground cover will disturb the water supply not to mention destroying the scenic views. I hope everyone in power takes the time to google Electromatic waves from power lines. Every household around the current power line has lost family members due to cancer. They documented danger to cattle sperm count but not humans!! Imagine that!

Imagine 190 FT of this up against you

These Artifacts
were found on my Hill By Family & Neighbors
of the Indians that occupied my property.
As Childrens we found Burial mounds that
was rumored to be where the Indians
Buried their Dead

John Hayden was paid by the government to drive out the Indians - Hence the name, Hayden town.

This property was supposed to go to my children NOT NEXTERA

The transmission jumped behind the towers to a wooded area but then they did a 90° turn to go over my Daughter's New Home

there is no obvious reason for this move because if they follow the current line it all falls into a wooded area until it crosses the road onto the next neighbors farm
