Re: Doc. No. L-2018-3002672 Establishment of the Pole Attachment Working Group

Dear Secretary Chiavetta,

MAW Communications is in receipt of the Commission's April 16th, 2020 Order regarding the Pole Attachment Working Group. Admittedly, we inadvertently missed the March 9th deadline to request admission to the Working Group. As the broadband provider for Pennsylvania's first Community Broadband deployment, we believe we would be able to add insight and expertise to the working group regarding pole attachments as well as the financial and deployment issues that attachers face in today's pole attachment climate. MAW and several of our customers also were contributing commenters and reply commenters during the PUC's reverse preemption public comment period. Additionally, our comments are mentioned in the final order. MAW Communications would greatly appreciate the opportunity to be admitted as a member of the PUC's Pole Attachment Working Group. Therefore if possible, we kindly request that we be added to the roster for the Working Group.

Per the PUC's Notice regarding the Working Group, I have sent Colin Scott an e-mail copy of this letter. Please feel free to contact me if you have any questions or if there is any necessary steps we must take to be admitted into the Working Group. Thank you for your consideration and time in our request.

Respectfully,

Melinda Wiczowski, Vice President
