

BEFORE THE PENNSYLVANIA PUBLIC UTILITY COMMISSION

Petition of Duquesne Light Company for :
Approval of a Default Service Program for the : Docket No. P-2020-3019522
Period of June 1, 2021 through May 31, 2025 :

JOINT STIPULATION OF

**THE COALITION FOR AFFORDABLE UTILITY SERVICES AND ENERGY
EFFICIENCY IN PENNSYLVANIA (CAUSE-PA)**

AND

DUQUESNE LIGHT COMPANY

The Coalition for Affordable Utility Services and Energy Efficiency in Pennsylvania (CAUSE-PA) and Duquesne Light Company (Duquesne) (together, Stipulating Parties) by their respective counsel, hereby enter into a Joint Stipulation with regard to the captioned proceeding as follows:

1. The Stipulating Parties respectfully request that the following interrogatory responses of Duquesne to CAUSE-PA, attached hereto as Appendix A, be admitted into the evidentiary record in the above-captioned proceeding, and stipulate to the accuracy and truthfulness of the facts and data contained therein:
 - a. CAUSE-PA to Duquesne Light IV-1 (with attachments a-h)
 - b. CAUSE-PA to Duquesne Light IV-2 (with attachments a-g)

WHEREFORE, the Stipulating Parties, by their respective counsel, respectfully request that the Honorable Deputy Chief Administrative Law Mark A. Hoyer admit the foregoing interrogatory responses into the record in this proceeding.

Respectfully Submitted,

Counsel for CAUSE-PA

Elizabeth R. Marx, Esq.

Set IV

Witness: Katherine M. Scholl

CAUSE-PA Set IV-1

1. Please update the data provided in response to CAUSE-PA to DLC I-1(a)-(h) for the months of June, July, and August, 2020.

Response:

I understand that, based on conversations between counsel for CAUSE-PA and the Company, the scope of this request has been shortened to June and July, 2020.

Please see attachment CAUSE-PA Set IV-1a.

[1] Residential customer counts reflect the number of bills that were generated each month. Based on the number of bill cycles in a given month, the number of generated bills could fluctuate month over month. The number of bills generated also reflect a slight inflation for customers that switched mid-month.

[2] Residential customers who received dual bills in a given month have been excluded from this response. Dual billing permits an EGS that does not wish to operate in either a rate ready or bill ready environment to render its own bill.

[1] Residential shopping transmission and generation charges reflect both rate ready and bill ready EGSs. Rate ready is a form of consolidated billing where the Company calculates the charges to be presented on the supplier portion of the bill based upon the rates supplied by the EGS. Bill ready is also a form of consolidated billing where the Company provides a customer's usage to its EGS, and the EGS then calculates the customer's charges and sends the line item(s) back to the Company to be presented on the supplier portion of the bill. The Company does not have visibility in the EGS bill ready charges, which could include prior period adjustments, non-basic service charges, etc.

[2] Residential customers who received dual bills in a given month have been excluded from this response. Dual billing permits an EGS that does not wish to operate in either a rate ready or bill ready environment to render its own bill.

[1] Residential customer counts reflect the number of bills that were generated each month. Based on the number of bill cycles in a given month, the number of generated bills could fluctuate month over month. The number of bills generated also reflect a slight inflation for customers that switched mid-month.

[2] Residential customers who received dual bills in a given month have been excluded from this response. EGSs that participate in dual billing render a separate bill, to which the Company does not have access, for electric supply.

[1] Residential customer counts reflect the number of bills that were generated each month. Based on the number of bill cycles in a given month, the number of generated bills could fluctuate month over month. The number of bills generated also reflect a slight inflation for customers that switched mid-month.

[2] Residential customers who received dual bills in a given month have been excluded from this response. EGSs that participate in dual billing render a separate bill, to which the Company does not have access, for electric supply.

[1] Residential shopping transmission and generation charges reflect both rate ready and bill ready EGSs. Rate ready is a form of consolidated billing where the Company calculates the charges to be presented on the supplier portion of the bill based upon the rates supplied by the EGS. Bill ready is also a form of consolidated billing where the Company provides a customer's usage to its EGS, and the EGS then calculates the customer's charges and sends the line item(s) back to the Company to be presented on the supplier portion of the bill. The Company does not have visibility in the EGS bill ready charges, which could include prior period adjustments, non-basic service charges, etc.

[2] Residential customers who received dual bills in a given month have been excluded from this response. EGSs that participate in dual billing render a separate bill, to which the Company does not have access, for electric supply.
