

Pennsylvania Public Utility Commission
Rate Comparison Report
April 15, 2016

Prepared By:
The Bureau of Technical Utility Services

Pennsylvania Public Utility Commission
Rate Comparison Report
April 15, 2016

Prepared by:
The Bureau of Technical Utility Services

The Honorable Tom Wolf
Governor of Pennsylvania

The Honorable Michael Stack
Lieutenant Governor of Pennsylvania

Members of the General Assembly,

I am pleased to submit for your review the Commission's Rate Comparison Report for 2016.

Act 201, signed into law on Nov. 30, 2004, added Section 308.1(b) to the Public Utility Code, 66 Pa. C.S. §308. Section 308.1(b) requires the Public Utility Commission (PUC) to file an annual Rate Comparison Report (Report) with the Governor and the General Assembly on April 15 every year. The Report compares all categories of ratepayers for all electric and gas public utilities so that a reasonably accurate comparison of rates can be made between similar ratepayers receiving services in different service areas of the Commonwealth.

The first section of the Report provides information on electric service. The second section provides information on natural gas service. Each section contains a comparison table of all regulated companies followed by individual company information.

Sincerely,

A handwritten signature in black ink, appearing to read "Gladys M. Brown". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Gladys M. Brown
Chairman, Pennsylvania Public Utility Commission

Introduction

To achieve an accurate comparison, the Commission established ratepayer categories and monthly usage parameters. These usage parameters include a demand component where applicable. The Commission also established that the rates used would be as of Jan. 31, 2016, and would be based on the default service price. All prices are for ratepayers not currently purchasing their gas or electric generation from competitive suppliers (non-shoppers) and reflect a monthly bill at the given usage parameters. The ratepayer classifications and usage assumptions are detailed below.

<u>Ratepayer Classification</u>	<u>Electric Usage</u>	<u>Gas Usage</u>
1. Residential	500 kWh	2 Mcf/month
2. Residential Heating	2,000 kWh	15 Mcf/month
3. Small Commercial	5 KW demand 1,000 kWh	150 Mcf/year
4. Medium Commercial	25 KW demand 10,000 kWh	500 Mcf/year
5. Large Commercial	500 KW demand 200,000 kWh	9,000 Mcf/year
6. Industrial	1,000 KW demand 400,000 kWh	>9,000 Mcf/year
7. Public Street Lighting (sodium vapor)	250 watts	N/A

kWh = Kilowatt hour, a standard measure of electricity usage calculated by multiplying total wattage by hours of use divided by 1,000, e.g. one 100-watt bulb will use 24 kWh in one month (30 days) if used eight hours a day [(100*240)/1,000 = 24 kWh].

KW = Kilowatt (1000 watts), used as a demand measure for larger users of electricity. Essentially, it is a measure of the electrical capacity required by the customer at any instantaneous moment.

Mcf = 1,000 cubic feet of gas, a standard measure of gas usage. It is the measure of the flow of cubic feet of gas through the meter.

Street lighting is determined as the cost of running one 250-watt sodium vapor light for a month.

The Commission reached out to every regulated electric and gas utility seeking the information necessary to complete this report. The Commission is grateful for the timely response of the utility companies.

The following sections present the rate tables for each utility, so an accurate comparison between utilities can be made. Section 1 begins with a comparison table that includes all of the electric utilities. After the comparison table, Section 1 presents each of the electric utilities, in alphabetical order, with their individual rate tables and a brief description of the utility, the applicable tariff number and any unique company-specific information that is relevant to the rate information provided. It also includes a summary of competitive supplier activity in each of the utility territories.

Section 2 contains the same information, in the same format, for the gas utilities. The only exception is the beginning comparison tables, which are divided between the 1307(f)¹ and Gas Cost Rate (GCR)² gas utilities. The comparison tables in the beginning of each section show the total charges for each rate classification between all of the electric and gas utilities. The individual company rate tables detail the separate pieces that make up the total charges for each rate classification. The tables for the 1307(f) companies include a summary of competitive supplier activity in each of those territories.

While the beginning tables of each section present the easiest measure of comparison for rates, the Commission encourages readers of this report to examine the full contents of Sections 1 and 2 to understand the components that make up the rate for any company and any unique situations that may affect the company's rates.

The Electric (and Natural Gas) Choice and Competition Acts, of 1997 and 1999 respectively, provided a framework that allowed retail customers to have direct access to competitive suppliers of electricity and gas. The laws allow customers to purchase energy from competitive suppliers, while still having their electricity or gas delivered by their regulated distribution utility. For detailed information about competitive supplier offerings, visit www.PAPowerSwitch.com (electric) and www.PAGasSwitch.com.

¹ Gas utilities with more than \$40 million in revenues and subject to rate filings under Section 1307(f) of the Public Utility Code, 66 Pa. C.S. § 1307(f).

² Gas utilities with revenues less than \$40 million that file annual GCR adjustments in accordance with 66 Pa. C.S. § 1307(e) and 52 Pa. Code § 53.66.

Section 1: Electric Utilities

Abbreviations Used in the Tables

- kWh – Kilowatt Hours
- KW – Kilowatt
- CTC – Competitive Transition Charge
- ITC – Intangible Transition Charge
- STAS – State Tax Adjustment Surcharge
- DSIC – Distribution System Improvement Charge
- EE&C – Energy Efficiency & Conservation

Citizens' Electric Co.

Citizens' Electric Co. (Citizens'), a subsidiary of C&T Enterprises Inc., serves about 5,700 residential, 1,100 commercial and 40 industrial customers. Its service territory consists of Lewisburg Borough and the townships of East Buffalo, Buffalo and Kelly in Union County, as well as West Chillisquaque in Northumberland County. Citizens' operates under the terms of Electric Tariff Pa. P.U.C. No. 14. With a service area of 55 square miles, Citizens' is one of the smallest electric companies, both in area and in number of customers, included in this rate comparison. C&T Enterprises Inc. is a holding company owned by the Claverack and Tri-County Rural Electric Cooperatives for their for-profit enterprises. C&T also owns the Pennsylvania utilities of Valley Energy Inc. (gas) and Wellsboro Electric Co.

Utility: **Citizens' Electric Co.**

Public Street (Sodium Vapor Service) at 250 Watts		\$13.13	\$4.38	\$0.13						\$17.64

Notes: *All Duquesne customers with a peak demand greater than 300 KW are enrolled in an hourly price plan for the generation component of their bill. The generation rate used for this report was a calculated average based on historic hourly price service data throughout the past year.

Shopping Update: As of March 24, 2016, 90 EGS offers were being made to Duquesne's customers. Furthermore, 195,042 customers (33.2 percent of customers; 71.9 percent of the load) were using a competitive supplier. Information, including Duquesne's price to compare and competitive offers, is available at www.PAPowerSwitch.com.

Metropolitan Edison Co.

Metropolitan Edison Co. (Met-Ed), a subsidiary of FirstEnergy Corp., serves about 491,000 residential, 65,200 commercial and 870 industrial customers. With a total service area of about 3,300 square miles, Met-Ed's service territory consists of parts of the Easton, Lebanon and Reading areas in Eastern Pennsylvania and the York Area in South Central Pennsylvania. Met-Ed operates under the terms of Electric Tariff Pa. P.U.C. No. 51. FirstEnergy, headquartered in Akron, Ohio, is one of the country's largest investor-owned electric systems, serving approximately 6 million customers through its 10 electric utility operating companies in Pennsylvania, Ohio, Maryland, West Virginia and New Jersey. Other FirstEnergy electric utility operating companies in Pennsylvania are the Pennsylvania Electric Co., Pennsylvania Power Co. and West Penn Power Co. On April 9, 2015, the Commission approved a settlement allowing for a \$90 million (6.8 percent) base rate increase for Met-Ed.

Utility: **Metropolitan Edison Co.**

Notes: The Large Commercial and Industrial rates are billed generation based on hourly pricing. The generation cost per kWh used to calculate the generation portion was based on the calendar year 2015 average hourly rate.
*Default Service Support Rider

Shopping Update: As of March 24, 2016, 96 EGS offers were being made to Met-Ed's customers. Furthermore, 193,594 customers (34.4 percent of customers; 64.6 percent of the load) were using a competitive supplier. Information, including Met-Ed's current price to compare and competitive offers, is available at www.PAPowerSwitch.com.

PECO Energy Co.

PECO Energy Co. (PECO), a subsidiary of the Exelon Corp. (Exelon), serves approximately 1.43 million residential, 149,100 small commercial and industrial, and 3,100 large commercial and industrial customers within parts of the following counties in Southeastern Pennsylvania: Bucks, Chester, Delaware, Montgomery, Philadelphia and York. PECO operates under the terms of Electric Tariff Pa. P.U.C. No. 4. PECO also provides gas service to more than 500,000 customers in the Philadelphia area. Exelon, headquartered in Chicago, is one of the nation's largest power producers, which, through its utility operating companies, provides electric and natural gas service to more than eight million customers in Illinois, Maryland and Pennsylvania. On Dec. 17, 2015, the Commission approved a settlement allowing for a \$127 million base rate increase for PECO.

Utility: **PECO Energy Co.**

***Non-bypassable Transmission Charge

Shopping Update: As of March 24, 2016, 130 EGS offers were being made to PECO's customers. Furthermore, 572,212 customers (35 percent of customers; 64 percent of the load) were using a competitive supplier. Information, including PECO's price to compare and competitive offers, is available at www.PAPowerSwitch.com.

Pennsylvania Electric Co.

Pennsylvania Electric Co. (Penelec), a subsidiary of the FirstEnergy Corp., serves approximately 503,000 residential, 83,500 commercial and 850 industrial customers. Penelec's service territory consists of 17,600 square miles spanning more than 30 counties throughout mostly rural areas of Northern and Central Pennsylvania. Penelec operates under the terms of Electric Tariff Pa. P.U.C. No. 80. FirstEnergy, headquartered in Akron, Ohio, is one of the country's largest investor-owned electric systems, serving approximately 6 million customers through its 10 electric utility operating companies in Pennsylvania, Ohio, Maryland, West Virginia and New Jersey. Other FirstEnergy electric utility operating companies in Pennsylvania are the Metropolitan Edison Co., Pennsylvania Power Co. and West Penn Power Co. On April 9, 2015, the Commission approved a settlement allowing for a \$91.3 million (6.6 percent) base rate increase for Penelec.

Notes: *Consistent with UGI's Restructuring Filing at R-00994786 in accord with the Natural Gas Choice and Competition Act, UGI does not maintain an obligation to provide default service for customers having annual use of 4,000 Mcf or greater. Service to new customers under, or transfers of existing customers or customer loads to, default (Rate N) retail service provided by UGI where annual use is projected to be 4,000 Mcf or greater, is permitted only as determined by the Company, subject to reasonable limitations. Accordingly, as availability is determined on a case-by-case basis, UGI has not provided bill information for default service where usage exceeds 4,000 Mcf annually.

Shopping Update: As of March 24, 2016, 19 NGS offers were being made to UGI's customers. Furthermore, 61,132 customers (16.1 percent of customers; 74.9 percent of load) were using a competitive supplier. Information, including UGI's price to compare and competitive offers, is available at www.PAGasSwitch.com
