

What the Pennsylvania Public Utility Commission Regulates

The PUC has jurisdiction over about 20 natural gas utilities. Bottled propane gas, as well as most utilities owned and operated by cities, boroughs or townships, do not fall under the PUC.

The PUC has jurisdiction over intrastate, local, toll and access telephone services and providers. Additionally, the Commission regulates availability and speed of internet service offered by traditional local telephone companies, per Chapter 30 of the Public Utility Code.

The PUC has jurisdiction over 11 electric distribution companies. Rural electric cooperatives and most utilities owned and operated by cities, boroughs or townships are not regulated by the Commission.

The PUC has jurisdiction over more than 120 water and wastewater utilities, including a number of municipal water and wastewater utilities. However, the Commission does not have jurisdiction over utilities owned and operated by municipalities, cities, boroughs or townships, except for rates and service to customers outside municipal boundaries.

The PUC conducts regular inspections of railroad track; motive power & equipment; operating practices; hazardous materials; and signal & train control, working in conjunction with the Federal Railroad Administration. Additionally, the PUC oversees highway-railroad crossings throughout Pennsylvania.

The PUC regulates motor carriers that transport property, passengers and household goods such as taxis, moving companies and limousines, and Transportation Network Companies such as Uber and Lyft. It also conducts inspections on the vehicles used for these services.

The PUC conducts inspections on pipelines operated by public utilities that fall under PUC jurisdiction and enforces federal and Commission pipeline safety regulations as they apply to public utilities providing natural gas distribution and intrastate transmission service, and public utilities providing intrastate transmission of hazardous liquids.
