BEFORE THE PENNSYLVANIA PUBLIC UTILITY COMMISSION

Petition of PPL Electric Utilities :

Corporation for Approval of a Smart : Docket No. M-2009-2123945

Meter Technology Procurement and

Installation Plan :

PETITION TO INTERVENE OF THE COMMONWEALTH OF PENNSYLVANIA, DEPARTMENT OF ENVIRONMENTAL PROTECTION

The Commonwealth of Pennsylvania, Department of Environmental Protection (the "Department") files this Petition to Intervene in the above referenced matter pursuant to 52 Pa. Code §§ 5.71 and 5.72. In support of its Petition to Intervene in the Petition of PPL Electric Utilities Corporation ("PPL") for Approval of a Smart Meter Technology Procurement and Installation Plan ("Smart Meter Plan") the Department avers as follows:

- 1. Pursuant to Act 129 of 2008 and the Pennsylvania Public Utility Commission's ("Commission") Smart Meter Procurement and Installation Order ("Implementation Order") at Docket No. M-2009-2092655, on August 14, 2009, PPL filed its Petition for Approval of its Smart Meter Plan with the Commission.
- 2. PPL asserts that its currently deployed smart meters meet the "minimum capabilities" and many of the "additional capabilities" for smart meters specified in the Commission's Implementation Order. Petition at 5, 7.
- 3. PPL intends to use the 30 month grace period established by the Commission's Implementation Order to conduct pilot programs "so that customers are better able to use the system to conserve energy and enhance system reliability." Petition at 7.

- 4. The Department is an agency of the Commonwealth and is entitled to intervene as of right under 52 Pa. Code § 5.72(b).
- 5. The Department administers several energy and environmental protection programs established by state law that provide the Department with a right or interests of such nature that participation of the Department is in the public interest. 52 P.S. § 52.72(a)(1),(3).
- 6. The Department is the primary agency under the Governor's jurisdiction charged with managing energy matters. The Department performs and administers the functions of the Pennsylvania Energy Office. 71 P.S. § 1340.504(d). The Department also has the powers and duties previously vested in the Governor's Energy Council by the Building Energy Conservation Act, 35 P.S. §§ 7201.101 *et seq.*, and the Energy Conservation and Assistance Act, 62 P.S. §§ 3011 *et seq.* 71 P.S. § 1340.504(a)-(b).
- 7. As indicated in PPL's Smart Meter Petition at 7, an effective smart meter plan and the time sensitive pricing programs smart meters are required to support can result in significant savings for consumers, reduce grid congestion, and promote grid reliability. These beneficial aspects of effective smart meter plans directly affect the Department's interests as administrator of the Pennsylvania Energy Office.
- 8. The Department administers several provisions of the Alternative Energy Investment Act ("AEPS") Act and is to work cooperatively with the Commission to monitor the performance of all aspects of AEPS. 73 P.S. § 1648.7(c). Smart meters and the time sensitive pricing plans they promote encourage the use of demand-side management technologies and practices as defined by section 1 of AEPS. See, 73 P.S. § 1648.1. These demand-side management technologies and practices have the potential to create Tier II alternative energy credits and affect the Department's duties under AEPS.

9. The Department administers the Air Pollution Control Act (35 P.S. § 4001 et seq.) and the Clean Streams Law (35 P.S. § 691.1 et seq.). The purpose of these statutes is to protect and restore Pennsylvania's air and water resources. A properly designed and implemented smart meter plan and the time sensitive pricing plans they promote can reduce fossil fuel consumption, improve air quality, reduce greenhouse gas emissions and improve water quality.

10. Individually and collectively, the Department's statutory duties create an interest that will be directly affected by this proceeding but are not adequately represented by existing participants and are of such a nature that participation of the Department is in the public interest. Thus, Department has a right to intervene under 52 P.S. § 5.72(a)(3).

WHEREFORE, the Commonwealth of Pennsylvania, Department of Environmental Protection respectfully requests that the Commission grant its Petition to Intervene.

Respectfully submitted,

/s/ Scott Perry
