

NEXTGEN COMMUNICATIONS, INC.  
COMPETITIVE LOCAL EXCHANGE CARRIER  
Regulations and Schedule of Charges

---

NextGen Communications, Inc. (Company) will mirror the exchange area boundaries as stated in the tariffs of Verizon Pennsylvania Inc. Telephone Pa. P.U.C. Nos. 180A, 182, 182A, 185B and 185C; Verizon North Inc. Telephone Pa P.U.C. Nos. 1, 3, 5, and 6; The United Telephone Company of Pennsylvania LLC d/b/a CenturyLink P.U.C. No. 27; and the remaining tariffs listed on Page 2 of this tariff.

The Company's tariff is in concurrence with all applicable State and Federal Laws (including, but not limited to, 52 Pa. Code, 66 Pa. C.S. and the Telecommunications Act of 1934, as amended, and with the Commission's applicable Rules and Regulations and Orders. Any provisions contained in this Tariff that are inconsistent with the foregoing mentioned will be deemed inoperative and superseded.

### **TARIFF FORMAT AND EXPLANATION OF SYMBOLS**

Page Numbering: Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially. From time to time new pages may be added to the Tariff. When a new page is added between existing pages a decimal is added to the preceding page number. For example, a new page added between Pages 3 and 4 would be numbered 3.1.

Explanation of Symbols: When changes are made in any Tariff page, a revised page will be issued replacing the affected Tariff page. Changes will be identified on the revised page(s) in the right hand margin on each line changed through the use of the following symbols:

- (C) To signify a change
- (I) To signify rate or charge increase
- (D) To signify a decreased rate or charge

### **APPLICATION OF TARIFF**

This tariff sets forth the service offerings, rates, terms, and conditions applicable to the furnishing of intrastate telecommunications services by NextGen Communications, Inc., hereinafter referred to as the Company, to customers within the State of Pennsylvania.

## SECTION 1. - DEFINITIONS

### Automatic Location Identification (ALI) Database

See Location Database. Traditionally, the ALI Database maintained the name and address associated with the calling party's telephone number (identified by ANI Feature). In the future, ALI data may only be a portion of the location data available in the Location database.

### Automatic Number Identification (ANI)

A feature by which the calling party's ANI telephone number is forwarded to the E9-1-1 Control Office and to the PSAPs Display and Transfer Units.

### Business Customer

A Customer who subscribes to the Company's Service(s) and whose primary use of the Service is of a business, professional, institutional, or otherwise occupational nature.

### Call Routing Device

An intelligent network device that, based on the identified number of the calling party (and potentially other factors), routes an E9-1-1 call from a central office to the designated primary PSAP. (See "Selective Routing")

### Company

Used throughout this tariff to refer to NextGen Communications, Inc., a Maryland corporation, unless otherwise clearly indicated by the context.

### Customer

A current or potential buyer or user of the services identified in this tariff. This is typically through purchasing the services; however, the term also includes by extension anyone who uses or experiences the services of another.

## SECTION 1. – DEFINITIONS, CONTINUED

### Database Management System (DBMS)

A system software package that helps the use of integrated collection of data records and files (collections known as databases). In the Company's application, the database would be the ALI database.

### Default Routing (DR)

A feature activated when an incoming E9-1-1 call cannot be selectively routed due to an ANI failure, garbled digits, or other causes. Such incoming calls are routed from the E9-1-1 Control Office to a default PSAP. Each incoming E9-1-1 facility group to the E9-1-1 Control Office is assigned to a designated default PSAP. This is a standard feature of E9-1-1 Service.

### Display and Transfer Unit

A console and associated common equipment for displaying ANI numbers at the PSAP attendant position and used by the attendant to activate Fixed and/or selective transfer functions.

### E9-1-1 Call or E9-1-1 Service

A telecommunications service that uses ANI, ALI (including non-listed and non-published numbers and addresses), Selective Routing, and the three-digit number "9-1-1," for a caller wishing to report police, fire, medical, or other emergency situations (as examples) to a PSAP for referral to a public safety agency. As used in this tariff, E9-1-1 does not include discretionary equipment purchased, or contracted for that is not essential to the provision of E9-1-1 service.

### Emergency Service Number (ESN)

Unique numbers provided by the Company to be associated by the customer with street address ranges or other mutually agreed upon routing criteria for selective routing of calls to unique combinations of police, fire, ambulance and any other appropriate agencies responsible for providing emergency service in the E9-1-1 serving area.

### End Office

The central office(s) which receive originating E9-1-1 calls.

## SECTION 1. – DEFINITIONS, CONTINUED

### Individual Case Basis (ICB)

A service arrangement where the regulations, rates, and charges are developed based on the specific circumstances of the Customer's situation and set out in a separate agreement with the Customer. An ICB may incorporate this or other applicable tariffs by reference.

### Internet Protocol (IP)

The Internet Protocol (IP) is a method used for communicating data across a packet-switched digital network. Sometimes also referred to as TCP/IP.

### IXC or Interexchange Carrier

A long distance telecommunications services provider.

### LATA

Local Access and Transport Area

### Location Database

An ALI, Location Information Server, or other database that stores location information for emergency services use.

## **SECTION 1. – DEFINITIONS, CONTINUED**

### Master Location Validation System

A system that acts as the master source for valid locations in a given area. Traditionally, a DBMS is used to create and maintain an MSAG. In NextGen's 9-1-1 system, the Master Location Validation System will be a graphical interface system (GIS) system that allows users to communicate with the system using a web-style computer interface.

### Master Street Address Guide (MSAG)

The document or computer file that lists the standard street names, address ranges, political community designations, and routing codes (ESNs).

### Pseudo Automatic Number Identification

A feature in which a number, assigned to the area served by a wireless communications provider's tower or a sector of the area served by a tower, is forwarded to the E9-1-1 Call Routing Device and to the PSAPs Display and Transfer Units.

**SECTION 1. – DEFINITIONS, CONTINUED**

Public Safety Answering Point (PSAP)

An answering location for 9-1-1 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAPs respond first; Secondary PSAPs receive calls on a transfer basis only and generally serve as a centralized answering location for a particular type of emergency call. PSAPs are staffed by employees of service agencies such as police, fire, or emergency medical or by employees of a common bureau serving a group of such entities.

Selective Routing (SR)

A form of call routing that may or may not be applicable to the Company's E9-1-1 that routes an E9-1-1 call from a central office to the designated primary PSAP based upon the identified number of the calling party (other factors may be used to determine the call routing in addition to the calling party's number). (See "Call Routing Device")

## SECTION 2. RULES AND REGULATIONS

### A. Company Liability and Indemnification

#### 1. Limitations on Company Liability

- a. Except as otherwise stated in this section, or as limited by 52 Pa. Code §69.87 and the Commission's Order regarding limited liability in Docket No. M-0098129, the liability of the Company for damages arising out of either: (1) the furnishing of its services, including but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representations, or use of these services or (2) the failure to furnish its service, whether caused by acts or omission, shall be limited to the extension of allowances to the Customer for interruptions in service as set forth in Section 4.E.
- b. Except for the extension of allowances to the Customer for interruptions in service as set forth in Section 4.E., the Company, its affiliates, directors, officers, employees, assignees and/or successors, shall not be liable to a Customer or third party for any loss in excess of an amount in liquidated damages of \$100.00 for any direct, indirect, special, incidental, reliance, consequential, exemplary or punitive damages, including, but not limited to, loss of revenue or profits, for any reason whatsoever, including, but not limited to, any act or omission, failure to perform, delay, interruption, failure to provide any service or any failure in or breakdown of facilities associated with the service, unless such loss is caused by the willful and/or wanton misconduct of the Company. Company's 9-1-1 service is offered solely to assist Customer in providing 9-1-1 emergency service in conjunction with applicable fire, police, and other public safety agencies. By obligation, direct or indirect, to any third party other than Company, Company shall not be liable for civil damages, whether in contract, tort or otherwise, to any person, corporation, or other entity for any loss or damage caused by any Company act or omission in the design, development, maintenance, or provision of 9-1-1 service other than an act or omission constituting gross negligence or wanton or willful misconduct.
- c. Failure by the Company to assert its rights pursuant to one provision of this tariff does not preclude the Company from asserting its rights under other provisions.

#### 2. THE COMPANY MAKES NO WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED EITHER IN FACT OR BY OPERATION OF LAW, STATUTORY OR OTHERWISE, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE, EXCEPT THOSE EXPRESSLY SET FORTH HEREIN.

### B. General Terms and Conditions

#### 1. Term of Service; Termination.

The Company and each customer may enter into a separate agreement specifying the term during which the Company shall provide Services.

#### 2. Payments; Late Fees

Payment for Services provided by the Company shall be due in accordance with the terms and conditions of this tariff. Customer agrees to pay a late fee in accordance with 52 Pa. Code §64.16, which gives a late fee of 1.25% which will not be applied to any accrued late payment charges.

## SECTION 2. RULES AND REGULATIONS, CONTINUED

### C. Notices and Communications

1. The Customer shall designate the address to which the Company shall mail or deliver all notices and other communications, except that the Customer may also designate a separate address to which Company bills for service shall be mailed. The Company shall designate an address to which the Customer shall mail or deliver all notices and other communications, except that Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.
2. Except as otherwise stated in this tariff, or an ICB, all notices or other communications required to be given pursuant to this tariff, or an ICB, or the Agreement for Services will be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following placement of the notice, communication or bill with the U.S. Mail or a private delivery service, prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs first.
3. The Company or the Customer shall advise the other party of any changes to the addresses designated for notices, other communications or billing, by following the procedures for giving notice set forth herein, or as may be required in an ICB.

### SECTION 3. SERVICE OFFERINGS AND FEATURES

#### A. Description of Services

##### 1. Enhanced Universal Emergency Number Service (E9-1-1 Service)

- a. Enhanced Emergency Number Service, also referred to as E9-1-1, is a telephone communication service whereby one or more Public Safety Answering Points (PSAP) designated by the local 9-1-1 authority may receive telephone calls dialed to the telephone number 9-1-1. Traditional E9-1-1 Service has typically included lines and equipment within one telephone company exchange and/or area served by a Mobile Telephone Switching Office, which could be connected to lines and equipment in another telephone company exchange to permit answering, transferring and dispatching of public emergency telephone 9-1-1 calls originated by persons within the same serving area.

However, E9-1-1 Service may become more decentralized insofar that no single company may provide all of the E9-1-1 hardware, software, or features. The use of twisted pair telephone “lines” is becoming obsolete, replaced by broadband IP connectivity via cable or DSL or other dedicated IP networks. The Company anticipates that different companies shall provide the IP E9-1-1 infrastructure, while other companies provide the E9-1-1 content, features, and functions. This tariff identifies the rules, regulations, and prices that shall govern the Company’s offering of the E9-1-1 features and functions.

- b. Enhanced 9-1-1 Service is offered subject to availability of IP broadband facilities.

- c. The E9-1-1 customer may be:

- (1) A municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone areas arranged for 9-1-1 calling.
- (2) A private telecommunications provider of LEC, CLEC, wireless, or VoIP service with an obligation to route emergency 9-1-1 calls to the appropriate PSAP.
- (3) A private enterprise with a PBX telephone system with a desire and appropriate state and/or federal authority to route emergency calls to the appropriate PSAP.

### SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED

#### 2. Private Switch/Automatic Location Identification Service

The Private Branch Exchange (PBX) switch located on a customer's premises sends Automatic Number Identification information to an Enhanced 9-1-1 (E9-1-1) Control Office or the Company's E9-1-1 Call Routing Device from individual PBX stations for the purpose of providing site or station location information on an E9-1-1 call, or for selectively routing that call to the appropriate Public Safety Answering Point (PSAP). A PS/Location Database also is available to Centrex/CENTRON or VoIP enterprise customers who wish to provide the E9-1-1 system with more specific location and routing information. These are the only intended uses for this service.

#### 3. E9-1-1 Call Routing Device Service

The E9-1-1 Call Routing Device service will connect local telecommunications or VoIP switches via IP and will route the calls to one or more PSAPs via IP or circuit switched technology as required by the PSAP.

#### 4. Location Database Service

The Company Location Database will provide the 9-1-1 caller's name, address, phone number, and location (if available) to the PSAP via IP simultaneously with the voice call as it is routed via the IP Call Routing Device. As other content becomes available, the Company will provide such content. For legacy PSAPs with traditional ALI requirements, the Company will provide appropriate connectivity to the Company Location Database. The Company will provide access for authorized users to update Location Database data.

#### 5. Terms and Conditions

- a. These services are limited to the use of the central office, VoIP, or mobile telephone switching office telephone number, 9-1-1, as the universal emergency telephone number. The Company does not provide the telephone number or dial tone. These services will be provided by the telecommunications carrier.
- b. The 9-1-1 emergency telephone number is not intended as a replacement for the telephone service of the various public safety agencies which participate in the use of this number. The public safety agencies will subscribe to other telephone services as provided in other tariffs/price lists of other providers.
- c. E9-1-1 Service is furnished to the customer only for the purpose of receiving reports from the public of emergencies or similar events appropriate for action by a PSAP.
- d. E9-1-1 Service provides a one-way incoming service to the appropriate PSAP. Outgoing calls can only be made on a transfer basis or to reconnect a disconnected incoming 9-1-1 call.

**SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED**

- e. E9-1-1 Service is provided solely for the benefit of the customer operating the PSAP, or for the carrier providing telecommunications or data communications service to individuals. The provision of the E9-1-1 Service by the Company shall not be interpreted, construed, or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the customer(s). The Company does undertake to provide E9-1-1 services using facilities obtained by the PSAP to enable the PSAPs personnel to respond to emergency calls on the PSAPs premises. The PSAP is responsible for the provision and maintenance of cable and wire facilities on the PSAPs side of the Demarcation Point.
- f. Temporary suspension of service at reduced rate is not provided for any part of the E9-1-1 Service.
- g. E9-1-1 information consisting of the names, addresses, and telephone numbers of telephone customers of carriers using Company service is confidential. This information will be provided via Location Database data on a call-by-call basis only for the purpose of responding to emergency calls.
- h. The E9-1-1 calling party forfeits the privacy afforded by non-listed and non-published service to the extent that the telephone number, address, and name associated with the originating station location are furnished to the PSAP.
- i. Default Routing will be provided in lieu of Selective Routing and ANI/ALI Display for E9-1-1 systems served from central offices or mobile telephone switching offices not equipped to transmit ANI.
- j. The rates charged for E9-1-1 Service do not contemplate the inspection or 100 percent constant monitoring of facilities to discover errors, defects, and malfunctions in the service, nor does the Company undertake such responsibility. The customer shall make such operational tests as, in the judgment of the customer(s), are required to determine whether the system is functioning properly for its use. The customer(s) shall notify the Company promptly in the event the system is not functioning properly.
- k. It is the obligation of the E9-1-1 authority to make arrangements to handle all E9-1-1 calls that originate from telephones served by central offices in the local service area, whether or not the calling telephone is situated on property within the geographical boundaries of the E9-1-1 authority's public safety jurisdiction.

### SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED

- l. Applications for E9-1-1 Service must be executed in writing by each PSAP or 9-1-1 authority. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer.
- m. The PSAP or 9-1-1 authority is required to furnish the Company its agreement to the following terms and conditions. The PSAP or 9-1-1 authority will subscribe to or provide telephone equipment with a capacity adequate to handle the number of incoming E9-1-1 calls recommended by the Company. The PSAP or 9-1-1 authority is to insure that PSAP premises equipment selected to operate E9-1-1 system features is compatible with the service furnished by the Company. The PSAP or 9-1-1 authority is responsible for the provision and maintenance of cable and wire facilities on the 9-1-1 authority's side of the Demarcation Point.
- n. When the Selective Routing (or comparable) feature is provided, PSAP is responsible for identifying primary and secondary PSAP locations and the unique combinations of police, fire and ambulance or any other appropriate agencies responsible for providing emergency service. The PSAP is responsible for identifying the E9-1-1 serving area and for associating the Company-provided Emergency Service Numbers with the street address ranges or other criteria for selective routing of calls. Legacy ESNs may be used. ESNs will be carried in the Data Management System (DMS) or equivalent to permit routing of 9-1-1 calls to the primary and secondary PSAPs responsible for handling of calls from each telephone in the E9-1-1 serving area. The following terms define the 9-1-1 authority's responsibility in providing this information.
  - (1) Initial and subsequent ESN assignments by street name, address range and area or other mutually agreed upon routing criteria shall be furnished by the 9-1-1 authority to the Company prior to the effective date of service. If the PSAP has legacy ESNs assigned by previous E9-1-1 service providers, these ESNs may be retained if the PSAP prefers.
  - (2) After establishment of service, it is the PSAP's responsibility to continue to verify the accuracy of routing information contained in the address file and to advise the Company of any changes in street names, establishment of new streets, changes in address numbers used on existing streets, closing and abandonment of streets, changes in police, fire, ambulance or other appropriate agencies, jurisdiction over any address, annexations and other changes in municipal and county boundaries, incorporation of new cities or any other matter that will affect the routing of E9-1-1 calls to the proper PSAP.
  - (3) The Company will provide; with reasonable frequency to the 9-1-1 authority, upon request a complete electronic copy of the address file previously supplied to the Company by the 9-1-1 authority to permit the 9-1-1 authority to verify accuracy of the police, fire, and ambulance PSAP routing designation.

### **SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED**

- (4) Changes, deletions, and additions which the PSAP desires to have made in the address file should be submitted on an "as occurred" basis.
- (5) The Company will furnish an electronic copy to the 9-1-1 authority for verifications showing each change, deletion, and addition to the address file.

#### **B. Private Switch/Location Database Service**

##### 1. Terms and Conditions

###### a. Private Switch/ Automatic Location Identification

- (1) In a Private Switch/Location Database service application, the Private Branch Exchange (PBX) owner/operator (or Centrex/similar service customer) must meet the following requirements: Application for Private Switch/Location Database Service must be executed in writing by each PBX customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer.
- (2) The customer will coordinate with the E9-1-1 Public Jurisdiction to ensure that area boundaries are identified and that any required additions or modifications to the Master Location Validation System are provided to the Company.
- (3) The customer will provide full local Automatic Number Identification (ANI) for every station within the PBX. The information must be approved by the Company prior to implementation to ensure that no conflict exists between the PBX's numbering plan and the numbering plans of other PBXs or telecommunications carriers.
- (4) ANI multi-frequency signaling must conform to the specifications established by the Company.
- (5) The customer must create, maintain and forward to the Company, current telephone number and address data in the format and time intervals negotiated between the Company and the customer.
- (6) The PBX must be connected to the E9-1-1 Call Routing Device office via IP circuits. The PBX must route 9-1-1 calls to the IP 9-1-1 facilities without overflowing to any other access facility. The Company recommends the enterprise customer order or maintains diverse IP connectivity to provide redundancy to the system.

### **SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED**

- (7) The enterprise customer must develop and implement procedures to prevent the unauthorized or illegal use of Private Switch/Location Database trunks. These dedicated trunks may not be used for any purpose other than 9-1-1.
- (8) The customer must use personal computer hardware and software (or PC equivalent hardware and software) for ongoing customer record update programs and processes that conform to specifications established by the Company.

#### **b. Diversification and Redundancy**

Customers can request diversification and redundancy of any or all IP facility routes. These IP facilities shall be provided by the appropriate ISP selected by the customer(s). Additional charges for such service utilizing the facilities, or the construction and provisioning thereof, will be the responsibility of the customer and will be assessed by the ISP.

#### **C. E9-1-1 Trunks**

1. E9-1-1 Trunks are high speed broadband IP or equivalent data-only circuits which:
  - a. Originate from the Company Call Routing Device and terminate at PSAP premises demarcation; or
  - b. Originate from the local exchange carrier end office (LEC or CLEC) and terminate at the Company E9-1-1 Call Routing Device; or
  - c. Originate from the mobile telephone switching office and terminate at the Company E9-1-1 Call Routing Device; or
  - d. Originate from any VoIP Service Provider softswitch and terminate at the Company E9-1-1 Call Routing Device; or
  - e. Originate from any enterprise VoIP PBX softswitch and terminate at the Company E9-1-1 Call Routing Device; or
  - f. Originate from any Emergency Services Gateway and terminate at the Company E9-1-1 Call Routing Device
2. The E9-1-1 Trunks are provided for the purpose of transporting only E9-1-1 traffic information.
3. E9-1-1 traffic from various enterprises, LECs, CLECs, mobile switching centers, and/or ESGWs may be combined on a single IP circuit.

### **SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED**

#### **D. E9-1-1 Call Routing Device**

The E9-1-1 Call Routing Device will be able to provide two services:

1. Aggregation

The Call Routing Device can aggregate E9-1-1 calls originating from multiple sources in multiple 9-1-1 jurisdictions into IP circuits that terminate at the appropriate PSAPs demarcation point. The PSAP does not need to designate or arrange for the connectivity between the local telecommunications carrier(s) to the Call Routing Device, or from the Call Routing Device to the customer premises demarcation point. The PSAP or 9-1-1 authority is obligated to acquire connectivity to the IP network.

2. Alternate Routing

It is the customer's responsibility to designate the alternate location if traffic is to be routed to a secondary PSAP.

#### **E. Automatic Number Identification (ANI)**

Automatic Number Identification (ANI) is the feature by which the telephone number or other related routing (pANI) number associated with an inbound 9 -1-1 caller is received by the Company and passed on to the proper PSAP. The ANI is also used to determine the proper PSAP to receive the inbound call.

#### **F. ALI Management Service**

1. MSAG Management

The Company provides a data management and administration tool that automates the viewing and communication of updates, insertions, and deletions to the MSAG database.

2. MSAG Build Services

The Company acts as the facilitator with the addressing authority in the creation and maintenance of the MSAG utilizing recognized National Emergency Number Association (NENA) standards.

3. Subscriber Record Management

Subscriber Record Management is the collection of service order records from Telephone Service Providers (TSPs), validation of those records against the MSAG, and storage of the records for the generation of the ALI database.

### SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED

#### 4. ALI Database Updates

After processing and validating subscriber record updates, the Company posts ALI records for call routing and for retrieval and display by the PSAP during 9-1-1 calls.

#### 5. ANI/ALI Discrepancy Resolution

An ANI/ALI discrepancy occurs when an ALI record delivered to a PSAP does not match the information of the caller. The Company will investigate ANI/ALI discrepancy reports and refer each discrepancy to the respective telephone service provider for resolution.

### G. Toll Presubscription

1. Toll Presubscription is a procedure whereby a customer designates to the Company the IntraLATA and InterLATA Toll Providers, i.e., Interexchange Carriers (IXCs), which the Customer wishes to be the carriers of choice for toll calls. Such calls are automatically directed to the designated carrier(s) without the need to use carrier access codes or additional dialing to direct the calls to the designated carrier. Toll presubscription does not prevent a customer, who has presubscribed to a toll carrier, from using carrier access codes or additional dialing to direct calls to an alternative toll carrier on a per call basis.

Each carrier will have one or more access codes assigned to it for various types of service. When an end user selects a carrier as its preferred IXC, only one access code of that carrier may be incorporated into the switching system of the Company permitting access to that carrier by the end user without dialing an access code. Should the same end user wish to use other services of the same carrier, it will be necessary for the end user to dial the necessary access code(s) to reach that carrier's other service(s).

An IXC must use Feature Group D (FGD) Switched Access Service to qualify as a presubscription toll provider unless prior arrangements have been made with or by the Telephone Company. IXCs must submit an Access Service Request (ASR) to the Telephone Company.

**Selection of toll presubscription provider by an end user is subject to the terms and conditions following.**

2. At the option of the IXCs, the nonrecurring charge for a change in toll presubscription, as provided herein, may be billed to the IXCs, instead of the end user (NRC PIC). This may involve charges resulting from end-user initial free choice Preferred Interexchange Carrier (PIC), specified as follows.

3. Presubscription Charge Application

- a. End user choices for toll presubscription:

- (1) Designating an intraLATA and interLATA IXC(s) as primary carrier(s) thereby requiring no access code to access those IXCs' service. End users are not required to choose the same IXC for intraLATA and interLATA toll presubscription. Other nonpresubscribed IXCs are accessed by dialing 10XXX, 101XXXX, or other required codes.

### SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED

(2) Choosing no carrier as a primary carrier thus requiring 10XXX or 101XXXX code dialing to access all IXC's.

- b. If a new customer cannot decide upon presubscription IXC's, the Company may extend a 30 calendar day period following completion of the initial service request to make a choice without charge. In the interim, the customer will be assigned as a 'No-PIC' and must dial an access code to make toll calls.
4. If an IXC elects to discontinue Feature Group, the IXC is obligated to contact, in writing, all end users who have selected the canceling IXC as their preferred toll provider. The IXC must inform the end users that it is canceling its Feature Group D Service, request that the end user select a new IXC, and state that the canceling IXC will pay the PIC change charge as provided herein (PIC Change). The IXC must provide written notification to the Telephone Company that this activity has taken place.

Following the IXC's discontinuance of service, the Company will bill the canceling IXC the change charge for each end user that is currently designated to the IXC at the time of discontinuance (PIC Change).

5. An unauthorized PIC change is a change in the presubscribed IXC that the end user denies authorizing. PIC disputes for end users are resolved through an investigative process.

If an unauthorized change in toll presubscription occurs, the IXC making the unauthorized change will be assessed a charge for unauthorized change in presubscription as provided at the end of this section (PIC Change). In addition, the IXC will be assessed the applicable charge for returning the end user to the preferred IXC (PIC Change).

#### H. End User Charge Discrepancy

1. When a discrepancy is determined regarding an end user's designation of a presubscription IXC, the following applies depending upon the situation described:
  - a. A signed letter of authorization takes precedence over any order other than subsequent, direct customer contact with the Company.
  - b. When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date/time determines customer choice.
  - c. If an end user denies requesting a change in toll presubscription as submitted by an IXC, and the IXC is unable to produce a letter of authorization, signed by the end user, the IXC will be assessed all applicable change charges. The nonrecurring change charges are provided herein. The IXC will also be assessed the presubscription change charge as specified herein, which was previously billed to the end user (PIC Change).

### **SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED**

#### **2. Verification of Orders for Telemarketing**

Neither the IXC or the Company shall submit a PIC change order generated by outbound telemarketing unless and until the order has first been confirmed in accordance with the F.C.C.'s current anti-slamming practices and procedures.

#### **I. PIC Switchback Option-Business/Residence**

1. PIC Switchback is an option under which no investigation activities are performed by the Company when an end user denies requesting a change in primary toll carrier submitted by the IXCs. The IXC participating in PIC Switchback will be billed the PIC Switchback Charge, and the presubscription change charge, as specified herein, to switch the end user to the end user's previous carrier (PIC Switchback).
2. When the Company is contacted by an end user who denies requesting a change in primary toll carrier, the end user will be credited the charge assessed for the disputed change in carrier, and will be switched back to the previous IXC at no charge. If this service is made available by the Company, IXCs may subscribe to or cancel PIC Switchback Service on 30 calendar days notice to the Company by submitting a written request. A letter of authorization from the IXC will not be requested or accepted at a later date in the event of dispute of the charges assessed under the PIC Switchback option.
3. This option in no way relieves an IXC of the F.C.C. requirements for verifying all PIC orders obtained by outbound telemarketing prior to submitting those orders, or instituting steps to obtain verification of orders submitted to the Company.
4. In addition, the end user has the option of initiating a complaint to the F.C.C. or the Pennsylvania Public Utility Commission's Bureau of Consumer Services concerning unauthorized changes in toll presubscription.

#### **J. 9-1-1 Service For End User Customers**

1. The Service Access Code 9-1-1 allows the customer to reach the appropriate emergency services including police, fire and medical services. Enhanced 9-1-1 has the ability to selectively route an emergency call to the primary 9-1-1 provider so that it reaches the correct emergency service located closest to the caller. In addition, the Customer's address and telephone information will be displayed to the primary 9-1-1 provider for display at the Public Answering Point (PSAP).

### SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED

2. Pursuant to the Public Safety Emergency Telephone Act (Act 78 of 1990, as amended), the Company collects a fee from its end user customers on behalf of the counties in its operating area to support the 9-1-1 system. Counties of the first through second class may impose a monthly contribution rate in an amount not to exceed \$1 per line on each local exchange access line. Counties of the third through fifth class may impose a monthly contribution rate in an amount not to exceed \$1.25 per line on each local exchange access line. Counties of the sixth through the eighth class may impose a monthly contribution rate not to exceed \$1.50 per line on each local exchange access line. The contribution rate may be used by counties for the expenses of implementing, expanding, or upgrading a 9-1-1 system.
3. Parties dialing 9-1-1 waive the privacy afforded by non-listed and non-published service to the extent that the telephone number, names, and address associated with the originating station location are furnished to the PSAP.
4. Regulations for 9-1-1
  - a. The Company, whether supplying service through its own facilities or the use of an underlying carrier, will comply with the Protocols as set forth in, and in the form of Service Provider E-9-1-1 Protocols, Service Provider E-9-1-1 Questionnaire and Testing Procedures in accordance with the Petition of Bell Atlantic-Pennsylvania, Inc. for a Declaratory Order Relating to the Provision of Master Street Address Guides; Docket No. P-0097 1203; Settlement Agreement of all Parties and Joint Petition entered August 7, 1998 *MSAG Order*.
  - b. The Company is indemnified under the Public Safety Emergency Telephone Act, Act 78 of 1990, and other applicable laws and regulations.
  - c. The Company's liability and insurance provisions are fully stated in this tariff, above.
  - d. Cases of Service interruptions affecting public health and safety shall receive priority attention under any and all conditions, particularly in time of disaster. Every appropriate resource will be utilized. The Company will make reasonable best efforts to have its system fully functional as soon as possible, unless conditions beyond the Company's control prevent service restoration.
  - e. The Company will not use the county's/municipality's MSAG for any purpose that is not directly related to and required for the provision of 9-1-1 service, except as authorized by the county/municipality.
  - f. The Company will install the county's/municipality's MSAG in 'read/write' format and will not modify the content of the MSAG unless requested or permitted to do so by the county/municipality. A request to modify content by the Company shall be responded to by the county/municipality within (10) business days or the request is deemed to be approved. The request shall be in writing and shall set forth in reasonable detail the proposed modification and all reasons in support. The request shall be granted provided the modification is necessary for the Company's provision, maintenance, or upgrading of the 9-1-1 service.

### SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED

- g. The Company shall not otherwise modify the content of the MSAG, but may make formatting changes approved by the county/municipality necessary to enable the MSAG to conform to the telephone company's information system(s). The request shall be in writing and shall set forth in reasonable detail the formatting changes and all reasons in support. The county/municipality shall respond to the request in ten (10) business days or the request is deemed to be approved. The request shall be granted provided the formatting change does not impair the integrity and accuracy of the MSAG database. For the purposes of this regulation, a content or formatting change does not include the use of the MSAG content in telephone companies' operational support systems to validate customer information for input to the ALI database.
- h. The Company will not sell, lease, rent, loan or provide, or transfer the county's/municipality's MSAG to any other person(s) or entity(ies) without the express written authorization of the county's/municipality's 9-1-1 coordinator, or his or her designee.
- i. The Company will not, without the written consent of the county/municipality, modify or create any derivative of the county's/municipality's MSAG, except as follows: one (1) mirror image copy of the MSAG may be made in electronic form for archival purposes (the copy may be made in read/write format by the host telephone company, but shall be made solely in read-only format by all other telephone companies), and the telephone company may make a mirror image copy, solely in read-only format and only for database reconciliation, address verification for new connections of service, and other functions that are necessary to ensure that the name and address information provided by the service provider to the county/municipality is accurate and conforms to the county's/municipality's MSAG format.

#### K. Pennsylvania Telephone Relay Service

##### 1. General

The Pennsylvania Telecommunications Relay Service (PA TRS) is a relay telecommunication service for the deaf, hard of hearing, hearing and/or speech disabled population of the Commonwealth. The PA TRS is mandated by the Americans with Disabilities Act of 1990 to provide functionally equivalent telephone services that are available to other U.S. citizens, at no additional cost. The PA TRS includes both traditional relay (devices such as Teletypewriters (TTY) and Telecommunication Devices for the Deaf (TDD)) and captioned- telephone voice-carry-over relay services (captioned telephone). These relay services permit telephone communications between individuals with hearing and/or speech disabilities, who must use a TTY, TDD, or captioned telephone, with individuals having normal hearing and speech. Additionally, 711 abbreviated dialing is available to access the PA TRS. The Company's switching equipment is arranged to translate the "711" calls to the assigned toll- free number, (888) 895-1197, in order to route calls to the Telecommunications Relay Service Provider, in accordance with Commission's Order entered on February 4, 2000 at Docket No. M-00900239.

##### 2. Surcharge

In addition to the charges provided in this tariff, a surcharge will apply to all residence and business access lines served by this Company (Access lines are those lines extending from the telephone company's central office to the end-user's premises). This surcharge applies regardless of whether or not the access line uses the PA TRS.

---

Issued: November 30, 2010

Effective: December 30, 2010

Issued by: Bruce A. White, Secretary  
NextGen Communications, Inc.  
275 West Street – Suite 400 Annapolis, MD 21401

**SECTION 3. SERVICE OFFERINGS AND FEATURES, CONTINUED**

The surcharge serves as the funding vehicle for the operation of the PA TRS, Telecommunications Device Distribution Program, and the Print Media Access Service Program and shall be calculated by the Pennsylvania Public Utility Commission (Commission). The Commission shall compute the PA TRS surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve-month period commencing with July 1 of each year.

The Commission may revise the surcharge more frequently than annually at its discretion.

Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company.

The following surcharge rates apply to all customer bills issued on or after July 1, 2008.

Monthly Charge

Per residence access line:	\$0.08
Per business access line:	\$0.08

Centrex lines will be assessed on an equivalency basis as determined by the Commission.

\*\*\* REMAINDER OF PAGE INTENTIONALLY LEFT BLANK \*\*\*

**SECTION 4. RATES, CHARGES, AND CONDITIONS OF SERVICE**

**A. Rates In Tariff**

Feature / Charge	Tariff Price	
	Non-Recurring Fee Per End User (EU) (10,000 EU Minimum)	Recurring Fee Per End User (EU) Per Month (2,500 EU Minimum)
Call Routing	\$1.00	\$1.00
Location Database	\$1.00	\$0.50
Additional data content in addition to ALI	\$1.00	\$0.10
Master Location Validation System Management	\$1.00	\$0.10
Master Location Validation System Management requests	\$5.00	\$1.00
Location Database Initial load and updates provided by another data provider	\$1.00	\$0.05
Administer Pseudo ANI (per record)	\$0.75	\$0.15
Nonrecurring PIC (NRC PIC)	\$5.00	N/A
PIC Change Charge	\$5.00	N/A
PIC Switchback Charge	\$5.00	N/A

**B. Individual Case Basis (ICB)**

In lieu of the rates and charges otherwise set forth in this tariff, including but not limited to, minimum usage, installation, and recurring charges for the Company’s services may be established at negotiated rates and terms on an individual case basis (ICB), taking into account the nature of the facilities and services, the costs of construction and operation, the volume of traffic, the length of service commitment by the Customer, and use of facilities by other customers. Arrangements will be developed on a case-by-case basis in response to a bona fide request from a customer or prospective customer to develop a competitive bid for a service not generally offered under this tariff. ICB rates will be offered to the customer in writing and on a non-discriminatory basis. ICB arrangements shall be submitted to the Commission upon request, and the Company reserves the right to protect from public disclosure proprietary information contained in such contracts as allowed under law or Commission rule.

In addition to the charges specifically for the customer’s services, there may be additional surcharges as mandated by the Pennsylvania Public Utility Commission, other Pennsylvania authorities, and / or the Federal Communications Commission. The customer is hereby notified that these fees, as applicable, will be added to the customer’s bill and that the rates may change periodically. No prior notice of any change will be provided to the customer. The then-current surcharge rate will be applied to the customer’s bill even if this tariff has not been updated.

## SECTION 4. RATES, CHARGES, AND CONDITIONS OF SERVICE, CONTINUED

### C. Application for Service

#### 1. Requests for this service:

- a. can only be initiated by a 9-1-1 customer, a PSAP, or authorized state agency;
- b. must be provided to the Company in writing; and
- c. must identify service locations and arrangements.

#### 2. Customer Obligations

- a. The Customer is responsible for making proper application for service; placing any necessary order, complying with tariff regulations; and payment of charges for services provided.
- b. Specific Customer responsibilities include, but are not limited to the following:
  - (1) the payment of all applicable charges pursuant to this tariff or an ICB;
  - (2) damage to or loss of Company facilities or equipment caused by the acts or omissions of the Customer; or the noncompliance by the Customer, with these regulations; or by fire or theft or other casualty on the Customer Premises, unless caused by the negligence or willful misconduct of the employees or agents of the Company;
  - (3) providing at no charge, as specified from time to time by the Company, any needed personnel, equipment space and power to operate Company facilities and equipment installed on the premises of the Customer, and the level of heating and air conditioning necessary to maintain the proper operating environment on such premises;
  - (4) obtaining, maintaining, and otherwise having full responsibility for all rights-of-way and conduits necessary for installation of communications cable and associated equipment used to provide services to the Customer from the cable building entrance or property line to the location of the equipment space described herein;
  - (5) any and all costs associated with obtaining and maintaining the rights-of-way described herein, including the costs of altering the structure to permit installation of the Company-provided facilities, shall be borne entirely by, or may be charged by the Company to, the Customer (the Company may require the Customer to demonstrate its compliance with this section prior to accepting an order for service);
  - (6) providing a safe place to work and complying with all laws and regulations regarding the working conditions on the premises at which Company employees and agents shall be installing or maintaining Company facilities and equipment. The Customer may be required to install and maintain Company facilities and equipment within a hazardous area if, in the Company opinion, injury or damage to Company employees or property might result from installation or maintenance by the Company. The Customer shall be

**SECTION 4. RATES, CHARGES, AND CONDITIONS OF SERVICE, CONTINUED**

responsible for identifying, monitoring, removing and disposing of any hazardous material (e.g. asbestos) prior to any construction or installation work;

(7) complying with all laws and regulations applicable to, and obtaining all consents, approvals, licenses and permits as may be required with respect to, the location of Company facilities and equipment in any Customer premises or the rights-of-way for which Customer is responsible under this tariff, and granting or obtaining permission for Company agents or employees to enter the premises of the Customer at any time for the purpose of installing, inspecting, maintaining, repairing, or upon termination of service as stated herein, removing the facilities or equipment of the Company; and

(8) not creating, or allowing to be placed, any liens or other encumbrances on Company equipment or facilities.

- c. Customer will comply with all applicable provisions of this tariff and/or an ICB.
- d. The PSAP must develop and implement procedures to prevent the unauthorized or illegal use of Company Next Gen 9-1-1 services. These dedicated facilities may not be used for any purpose other than for 9-1-1 service.
- e. The PSAP must use computer hardware and software for ongoing Private Switch End User (PSEU) record update programs and processes that conform to the specifications outlined by the Company.
- f. PS/ALI Service information consisting of the name, address, and telephone number of PSEUs is confidential. The 9-1-1 customer agrees to use such information only for the purpose of responding to emergency calls.
- g. The PSEU forfeits the privacy afforded by non-listed and non-published service to the extent that the telephone number, the address, and name associated with the originating station location are furnished to the PSAP and to the Company. The PSEU (published and non-published) consents to the storage and retention of PSEU name, telephone number, and address in the data base and also consents to access to this information by the PSAP for the sole purpose of responding to an emergency call.
- h. Cancellation of the service in whole or in part by the 9-1-1 customer prior to establishment thereof, will require payment to the Company of an amount equal to the cost of engineering, manufacturers' billings resulting from equipment orders, installation, assembly, labor, cost of removal and any other costs incurred by the Company up to the time of cancellation resulting from the 9-1-1 customer's order for service. This requirement may be superseded by an explicit Cancellation Clause in the ICB contract with the customer.
- i. Temporary suspension of service at the request of the customer, either partial or complete, is not applicable.

## **SECTION 4. RATES, CHARGES, AND CONDITIONS OF SERVICE, CONTINUED**

### **D. Deposits, Advanced Payments, Due Date, and Late Payment Charge**

1. Due to the special and limited nature of the services offered by the Company, the Company does not require a deposit by the Customer.
2. To safeguard its interests, the Company may require a Customer to make an advance payment before services and facilities are furnished. The advance payment will not exceed an amount equal to the non-recurring charge(s) and one (1) month's charges for the service or facility and additional (1) month advance payment for each subsequent month. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges (if any) for a period to be set between the Company and the Customer. The initial advance payment will be credited to the Customer's initial bill. Subsequent advance payments will be credited on the appropriate monthly bill. Advance payments do not accrue interest.
3. The due date for payment of a bill is 30 calendar days from the postmarked date on the bill.
4. A late payment charge on an overdue bill may be charged on the unpaid balance of the bill at a monthly rate not to exceed 1.25%; however this charge will not apply to any previously applied late charges.

### **E. Service Interruptions - Credit**

When the Customer's main service is interrupted for a period of at least 24 hours, credit to customers, after due notice by the customer, at the following rate shall apply (except as provided for in paragraph 3):

1. One-thirtieth of the tariff monthly rate of services and facilities furnished by the Company rendered inoperative, useless, or impaired for each of the first three full 24-hour periods during which the interruption continues after notice by the customer to the public utility conditioned that the out-of-service extends beyond a minimum of 24 hours.
2. Two-thirtieths of each full 24-hour period beyond the first three 24-hour periods. However, in no instance may the allowance for the out-of-service period exceed the total charges in a billing period for the service and facilities furnished by the public utility rendered useless or impaired.
3. When service is interrupted for a period of at least 24 hours due to such factors as storms, fires, floods or other conditions beyond the control of the Company, an allowance of 1/30 of the tariff monthly rate for all services and facilities furnished under tariff by the Company rendered inoperative or substantially impaired to the extent of being useless shall apply for each full 24 hours during which the interruption continues after notice by the customer to the Company.
4. The allowances set forth in paragraphs (1.)—(3.) may not be applicable where service is interrupted by the negligence or willful act of the customer to service or where the Company, pursuant to the terms of the contract for service, suspends or terminates service for nonpayment of charges or for unlawful or improper use of the facilities or service or for any other reason provided for in this tariff.

## **SECTION 4. RATES, CHARGES, AND CONDITIONS OF SERVICE, CONTINUED**

### **F. Information on Services and Promotional Offerings**

Due to the special and limited nature of the services offered by the Company, the requirement that the customer be a carrier or a governmental agency, the Company does not anticipate that it will offer any promotional offerings.

### **G. Disputed Bills**

Disputes can be brought to the attention of the Company orally or in writing by the Customer before actual suspension or termination of service. Suspension or termination will not occur until the resolution of the dispute. The Customer remains liable for all charges as determined by the dispute resolution.

### **H. Discontinuance of Service**

A Customer who wishes to have service discontinued must give at least 5 days oral or written notice to the Company for discontinuation of service.

### **I. Suspension and Termination of Service**

The Company shall mail or deliver written notice to the customer at least 7 calendar days before the date of proposed suspension **regardless of the grounds** upon which suspension is sought. When at least 10 calendar days have passed since suspension of service, the Company may terminate service for failure to pay a reconnection fee and to remedy the original grounds for suspension. The only exception for suspension without prior notice is when the suspension is based on an occurrence, which endangers the safety of a person or appears likely to prove physically harmful to the service delivery system. At the time of suspension the Company shall mail a notice of suspension to the customer's billing address.

### **J. Billing Standards**

The Company complies with the requirements of Chapter 64 in 52 Pa. Code regarding billing standards and practices for residential customers. In instances where sections of this tariff may conflict with Chapter 64, regulations, the regulations in Chapter 64 will prevail.

\*\*\* THE REMAINDER OF THIS PAGE IS INTENTIONALLY BLANK \*\*\*

**SECTION 5. SERVICE AREAS**

**A. Service Areas**

Due to the actual or potential mobility of our Customers’ end users, the Company proposes to serve the entire State of Pennsylvania. As such, the Company has only one price for each service element and the rate is not differentiated by the end user’s location within an exchange. For clarity and accuracy, the calling areas are listed by local operating company and incorporate by reference the calling areas as described by the respective local operating companies in the future. The Company’s service area(s) maps are identical to those on file, if any, for the local exchange companies listed below.
