P-2011-2273650

Re: Metropolitan Edison Company, Pennsylvania Electric Company, Pennsylvania Power Company and West Penn Power Company Electric Generation Supplier Coordination Tariff Supplements in Compliance with the Company's Default Service Plan PAPUC Order, Docket Nos. P-2011-22273650, P-2011-22273668, P-2011-22273669 & P-2011-22273670

Dear Secretary Chiavetta:

Transmitted herewith for filing with the Pennsylvania Public Utility Commission ("Commission") is an original of Supplement No. 1 to Metropolitan Edison Company's ("Met-Ed" or the "Company") Tariff Electric Pa. P.U.C. No. S-1, Supplement No. 1 to Pennsylvania Electric Company's ("Penelec" or the "Company") Tariff Electric Pa. P.U.C. No. S-1, Supplement No. 1 to Pennsylvania Power's ("Penn Power" or the "Company") Tariff Electric Pa. P.U.C. No. S-1, and Supplement No. 3 to West Penn Power's ("West Penn" or the "Company") Tariff Electric Pa. P.U.C. No. 2S which bear issue dates of September 6, 2012. The tariff supplements are proposed to be effective with service rendered on or after June 1, 2013.

The Tariff Supplements reflect (1) the exclusion of PJM Regional Transmission Expansion Plan Charges ("RTEPs") and Expansion Cost recovery as EGS responsibility beginning June 1, 2013, and (2) extend Met-Ed, Penelec and Penn Power provided solar photovoltaic alternative energy credits through May 31, 2015. These rate changes are consistent with the Commission's Order approving the Companies Default Service Programs entered August 16 at Docket Nos. P-2011-22273650, P-2011-22273668, P-2011-22273669 & P-2011-22273670.

Issued: September 6, 2012

Effective: June 1, 2013

Charles E. Jones, Jr., President

NOTICE

Supplement No. 1 makes changes to existing Rules and Regulations

LIST OF MODIFICATIONS

Rules and Regulations

Modified Section 7.1 to exclude PJM Regional Transmission Expansion Plan charges (“RTEPs”) and Expansion Cost Recovery as EGS responsibility beginning June 1, 2013. (See First Revised Page No. 25)

Modified Section 9.1 to extend the Company provided solar photovoltaic alternative energy credits until May 31, 2015. (See First Revised Page No. 28)

The Company will revise these line loss factors if PJM imposes or changes any separate charges on its transmission Customers for the level of line losses that is included in these factors. Any such revision will be filed with the FERC and the Commission, provided to EGSs via Internet electronic mail and posting on the Company's website, and become effective thirty (30) days after filing unless otherwise ordered by the Commission or the FERC (or concurrently with any change in or imposition of separate PJM line loss charges, whichever is later). The Company will make a good faith effort to advise EGSs of any change in these loss factors more than thirty (30) days in advance of a change when warranted.

6.4 Adequacy of Load Profiles. An EGS's remedies for any deficiency in the Company's load profiles for monthly metered Customers shall be limited to either:

- (a) arranging, at its own expense, for the installation pursuant to PaPUC rules and procedures of Hourly or Sub-Hourly Metering Equipment at the Customer's premises in order to permit the Customer to be forecasted, billed and reconciled as an hourly metered Customer; or
- (b) entering, at its own expense, into a joint load study with the Company to develop new load profiles.

Nothing in this Tariff precludes an EGS from using its own load profiles at anytime although the Company will use its own load profiles to determine the energy imbalances at the end of each billing month.

7. ENERGY SCHEDULES and USE OF SCHEDULING COORDINATORS

7.1 Energy Schedules. The EGS, or its designated Scheduling Coordinator(s), shall be responsible for scheduling energy and purchasing all transmission and ancillary services as defined by the PJM Tariff necessary to get energy to the Customer's point of delivery pursuant to the service agreement for Network Integration Transmission Service under the PJM Tariff.

EGSs will no longer be responsible for PJM Regional Transmission Expansion Plan charges ("RTEPs") (PJM Tariff Schedule 12) and PJM Expansion Cost Recover charges (PJM Tariff Schedule 13) billed for service rendered by PJM beginning June 1, 2013.

(C) Change

8.5.1 Customer PLS and NPLS. The customer specific PLS and NPLS developed in support of the PLS and NPLS submitted to the PJM eRPM tool (or its successor) by the Company, will be provided to each EGS for the EGS's customers of record no later than 10 days following such data being uploaded into the Company's SAP system. Beginning in 2012, the Eligible Customer List ("ECL") and supplier specific "Sync Lists" will contain the new PLS and NPLS values in the first scheduled update of the ECL and Sync Lists after the calculations are uploaded into the SAP system.

9. ALTERNATIVE ENERGY PORTFOLIO STANDARDS

9.1 Requirements. EGSs supplying retail load in the Company's service territory shall cooperate with the Company to ensure compliance with applicable requirements under the AEPS Act and related regulations. An EGS is required to meet AEPS Act requirements for its metered retail load as measured at the delivery point for each EGS Customer, provided, however, that the Company shall provide solar photovoltaic alternative energy credits to satisfy EGS AEPS solar photovoltaic requirements during the period January 1, 2011 to May 31, 2015. An EGS shall grant the Company permission to transfer solar photovoltaic alternative energy credits into the EGS's GATS account.
