RE: Proposed PPL High Voltage Power Line Route
Docket #A-2012-2340872

Dear Ms. Chiavetta:

Pennsylvania Power and Light has proposed a high voltage power line through parts of Buck Township in addition to neighboring communities. The purpose of my letter is to request a public input hearing in Thornhurst, PA before a decision on the matter is made.

Periodically, we have been holding community meeting at the Thornhurst Fire Hall, and the facilities can be utilized for a hearing.

When we purchased our property to build our home, one of the construction restrictions was the only trees we were allowed to cut down were those where our home was to be placed. This was a very positive restriction for us. We did not want to live in a community where there was a mass destruction of the forest. PPL propose to clear cut one hundred and fifty feet wide, or more, for miles. Also, they will use herbicides. This is a concern for us, since, we require well water usage.

Please seriously consider this request for a public input hearing. I look forward to hearing from you in the near future.

Sincerely,

Charles Morehead
