**MOTION OF PPL ELECTRIC UTILITIES CORPORATION
FOR A PROTECTIVE ORDER**

**TO ADMINISTRATIVE LAW JUDGE
DAVID A. SALAPA:**

PPL Electric Utilities Corporation (“PPL Electric”), by its counsel, hereby requests that the attached Protective Order be entered in this proceeding pursuant to the provisions of 52 Pa. Code § 5.423(a). In support thereof, PPL Electric represents as follows:

1. On December 28, 2012, PPL Electric filed the above-captioned Siting Application with the Pennsylvania Public Utility Commission (“Commission”) to construct the Northeast-Pocono Reliability Project. This filing was consolidated with the associated proceedings set forth in the caption above.

2. Proprietary Information within the definition of 52 Pa. Code § 5.423 may be presented or requested during the course of this proceeding, which justifies the issuance of a Protective Order. For example, parties may seek information that is customarily treated as sensitive or proprietary or that may involve Critical Energy Infrastructure Information, as defined in 18 C.F.R. § 388.113(c)(1).¹ Therefore, treatment of such information as set forth in the attached proposed Protective Order is justified because unrestricted disclosure of such information may not be in the public interest. These considerations constitute cause for restrictions specified in 52 Pa.

¹ 18 C.F.R. §388.113(c)(1) defines “Critical Energy Infrastructure Information” as specific engineering, vulnerability, or detailed design information about proposed or existing critical infrastructure that: (i) Relates details about the production, generation, transportation, transmission, or distribution of energy; (ii) Could be useful to a person in planning an attack on critical infrastructure; (iii) Is exempt from mandatory disclosure under the Freedom of Information Act, 5 U.S.C. 552; and (iv) Does not simply give the general location of the critical infrastructure. Moreover, 18 C.F.R. § 388.113(c)(2) defines “Critical Infrastructure” as existing and proposed systems and assets, whether physical or virtual, the incapacity or destruction of which would negatively affect security, economic security, public health or safety, or any combination of those matters.

Code § 5.423 and in Administrative Law Judge or Commission Orders granting relief pursuant to said regulation.

3. Under 52 Pa. Code §§ 5.362(a)(7) and 5.423, the Office of Administrative Law Judge or the Commission may issue a Protective Order to limit or prohibit disclosure of confidential commercial information where the potential harm to a participant would be substantial and outweighs the public's interest in having access to the confidential information. In applying this standard, relevant factors to be considered include the extent to which disclosure would cause unfair economic or competitive damage; the extent to which the information may already be known by others; and the potential value of such information to the participant and the participant's competitors and trade partners. 52 Pa. Code §§ 5.423(a)(1) – (3).

4. The attached Protective Order meets these standards. In paragraph 3, it defines only two categories of protected information. The first is “confidential” information -- defined as materials “which are not available to the public, and which, if disclosed freely, would subject that party or its clients to risk of competitive disadvantage or other business injury.” The second is “Critical Energy Infrastructure Information” -- defined by the Federal Energy Regulatory Commission as information which “could be useful to a person in planning an attack on critical infrastructure.” Clearly, in the first instance, protecting this type of information from disclosure is appropriate. Paragraph 17 of the attached Protective Order protects against overly broad designations of protected information by giving all parties the right to “question or challenge the confidential or proprietary nature of the Proprietary Information.”

5. Limitation on the disclosure of proprietary information will not prejudice the rights of the participants, nor will such limitation frustrate the prompt and fair resolution of this proceeding. The proposed Protective Order balances the interests of the parties, the public, and the Commission.

6. The attached proposed Protective Order will protect the confidential information while allowing the parties to use such information for purposes of the instant litigation.

WHEREFORE, for all the foregoing reasons, PPL Electric Utilities Corporation requests that Administrative Law Judge David A. Salapa grant this Motion and issue the attached Protective Order.

7. Critical Energy Infrastructure Information may be made available to a Reviewing Representative for inspection and review but not copied, except as specified herein. The Party producing the materials shall permit other parties' counsel to take custody of Critical Energy Infrastructure Information; the information shall not be copied except that independent consultants, who are not a Restricted Person, and who are assisting counsel with the preparation or presentation of the party's case in these proceedings may make copies. All such copies shall also be deemed to be Critical Energy Infrastructure Information.

8. For purposes of this Protective Order, a Reviewing Representative may not be a "Restricted Person." A "Restricted Person" shall mean: (a) an officer, director, stockholder, partner, or owner of any competitor of the parties or an employee of such an entity if the employee's duties involve marketing or pricing of the competitor's products or services; (b) an officer, director, stockholder, partner, or owner of any affiliate of a competitor of the parties (including any association of competitors of the parties) or an employee of such an entity if the employee's duties involve marketing or pricing of the competitor's products or services; (c) an officer, director, stockholder, owner or employee of a competitor of a customer of the parties if the Proprietary Information concerns a specific, identifiable customer of the parties; and (d) an officer, director, stockholder, owner or employee of an affiliate of a competitor of a customer of the parties

if the Proprietary Information concerns a specific, identifiable customer of the parties; provided, however, that no expert shall be disqualified on account of being a stockholder, partner, or owner unless that expert's interest in the business would provide a significant motive for violation of the limitations of permissible use of the Proprietary Information. For purposes of this Protective Order, stocks, partnership or other ownership interests valued at more than \$10,000 or constituting more than a 1% interest in a business establishes a significant motive for violation.

9. If an expert for a party, another member of the expert's firm or the expert's firm generally also serves as an expert for, or as a consultant or advisor to, a Restricted Person, said expert must: (1) identify for the parties each Restricted Person and each expert or consultant; (2) make reasonable attempts to segregate those personnel assisting in the expert's participation in this proceeding from those personnel working on behalf of a Restricted Person; and (3) if segregation of such personnel is impractical the expert shall give to the producing party written assurances that the lack of segregation will in no way jeopardize the interests of the parties or their customers. The parties retain the right to challenge the adequacy of the written assurances that the parties' or their customers' interests will not be jeopardized. No other persons may have access to the Proprietary Information except as authorized by order of the Commission.

10. Proprietary Information shall be treated by the parties and by the Reviewing Representative in accordance with the certificate executed pursuant to Paragraph 12(a). Information deemed Proprietary Information shall not be used except as necessary for the conduct of this proceeding, nor shall it be disclosed in any manner to any person except a Reviewing Representative who is engaged in the conduct of this proceeding and who needs to know the information in order to carry out that person's responsibilities in this proceeding.

11. Reviewing Representatives may not use information contained in any Proprietary Information obtained through this proceeding to give any party or any competitor of any party a

commercial advantage. In the event that a Party wishes to designate as a Reviewing Representative a person not described in paragraph 5(i) through (iv) or paragraph 6(i) through (iii) above, the party shall seek agreement from the party providing the Proprietary Information. If an agreement is reached, that person shall be a Reviewing Representative with respect to those materials. If no agreement is reached, the party shall submit the disputed designation to the presiding Administrative Law Judge for resolution.

12. (a) A Reviewing Representative shall not be permitted to inspect, participate in discussions regarding, or otherwise be permitted access to Proprietary Information pursuant to this Protective Order unless that Reviewing Representative has first executed a Non-Disclosure Certificate provided that if an attorney qualified as a Reviewing Representative has executed such a certificate, the paralegals, secretarial and clerical personnel under the attorney's instruction, supervision or control need not do so. A copy of each Non-Disclosure Certificate and/or Non-Disclosure Agreement shall be provided to counsel for the party asserting confidentiality prior to disclosure of any Proprietary Information to that Reviewing Representative.

(b) Attorneys and outside experts qualified as Reviewing Representatives are responsible for ensuring that persons under their supervision or control comply with the Protective Order.

13. The parties shall designate data or documents as constituting or containing Proprietary Information by stamping the documents "CONFIDENTIAL" or "Contains Critical Energy Infrastructure Information – Do Not Release". Where only part of data compilations or multi-page documents constitutes or contains Proprietary Information, the parties, insofar as reasonably practicable within discovery and other time constraints imposed in this proceeding, shall designate only the specific data or pages of documents which constitute or contain Proprietary Information. The Proprietary Information shall be served upon the parties hereto only in an

envelope separate from the nonproprietary materials, and the envelope shall be conspicuously marked "CONFIDENTIAL" or "Contains Critical Energy Infrastructure Information – Do Not Release".

14. The party will consider and treat the Proprietary Information as within the exemptions from disclosure provided in the Pennsylvania Right to Know Law, Act of February 14, 2008, P.L. 6, 65 P.S. §§ 67.101-67.3104, until such time as the information is found to be non-proprietary or non- Critical Energy Infrastructure Information.

15. Any public reference to Proprietary Information by a party or its Reviewing Representatives shall be to the title or exhibit reference in sufficient detail to permit persons with access to the Proprietary Information to understand fully the reference and not more. The Proprietary Information shall remain a part of the record, to the extent admitted, for all purposes of administrative or judicial review.

16. Part of any record of this proceeding containing Proprietary Information, including but not limited to all exhibits, writings, testimony, cross examination, argument, and responses to discovery, and including reference thereto as mentioned in paragraph 15 above, shall be sealed for all purposes, including administrative and judicial review, unless such Proprietary Information is released from the restrictions of this Protective Order, either through the agreement of the parties to this proceeding or pursuant to an order of the Commission.

17. The parties shall retain the right to question or challenge the confidential or proprietary nature of Proprietary Information and to question or challenge the admissibility of Proprietary Information. If a party challenges the designation of a document or information as proprietary, the party providing the information retains the burden of demonstrating that the designation is appropriate.

18. The parties shall retain the right to question or challenge the admissibility of Proprietary Information; to object to the production of Proprietary Information on any proper ground; and to refuse to produce Proprietary Information pending the adjudication of the objection.

19. Within 30 days after a Commission final order is entered in the above-captioned proceeding, or in the event of appeals, within thirty days after appeals are finally decided, all parties, upon request, shall either destroy or return to the producing party all copies of all documents and other materials not entered into the record, including notes, which contain any Proprietary Information. In the event that a party elects to destroy all copies of documents and other materials containing Proprietary Information instead of returning the copies of documents and other materials containing Proprietary Information to the producing party, that party shall certify in writing to the producing party that the Proprietary Information has been destroyed.
