SECTION 3 - SERVICE OFFERINGS, CONT'D.

3.7 Toll Presubscription

- A. Toll Presubscription is a procedure whereby a customer designates to the Company the IntraLATA and InterLATA Toll Providers, i.e., Interexchange Carriers (IXCs) which the customer wishes to be the carriers of choice for toll calls. Such calls are automatically directed to the designated carrier(s) without the need to use carrier access codes or additional dialing to direct the calls to the designated carrier. Toll presubscription does not prevent a customer, who has presubscribed to a toll carrier, from using carrier access codes or additional dialing to direct calls to an alternative toll carrier on a per call basis.

Each carrier will have one or more access codes assigned to it for various types of service. When an end user selects a carrier as its preferred IXC, only one access code of that carrier may be incorporated into the switching system of the Company permitting access to that carrier by the end user without dialing an access code. Should the same end user wish to use other services of the same carrier, it will be necessary for the end user to dial the necessary access code(s) to reach that carrier's other service(s).

An IXC must use Feature Group D (FGD) Switched Access Service to qualify as a presubscription toll provider unless prior arrangements have been made with or by the Company. IXCs must submit an Access Service Request (ASR) to the Company.

Selection of toll presubscription provider by an end user is subject to the terms and conditions following.

- B. At the option of the IXCs, the nonrecurring charge for a change in toll presubscription, as provided herein, may be billed to the IXCs, instead of the end user. This may involve charges resulting from end-user initial free choice Preferred Interexchange Carrier (PIC), as specified in C.1 following.

SECTION 3 - SERVICE OFFERINGS, CONT'D.

3.7 Toll Presubscription, Cont'd.

C. Presubscription Charge Application

1. End user choices for toll presubscription:
 - a. Designating an intraLATA and interLATA IXC(s) as primary carrier(s) thereby requiring no access code to access those IXCs' service. End users are not required to choose the same IXC for intraLATA and interLATA toll presubscription. Other nonpresubscribed IXCs are accessed by dialing 10XXX, 101XXXX, or other required codes.
 - b. Choosing no carrier as a primary carrier thus requiring 10XXX or 101XXXX code dialing to access all IXCs.
2. If a new customer cannot decide upon presubscription IXCs, the Company may extend a 30-day period following completion of the initial service request to make a choice without charge. In the interim, the customer will be assigned as a 'No-PIC' and must dial an access code to make toll calls.
3. If an IXC elects to discontinue Feature Group, the IXC is obligated to contact, in writing, all end users who have selected the canceling IXC as their preferred toll provider. The IXC must inform the end users that it is canceling its Feature Group D Service, request that the end user select a new IXC, and state that the canceling IXC will pay the PIC change charge as provided herein. The IXC must provide written notification to the Company that this activity has taken place.

Following the IXC's discontinuance of service, the Company will bill the canceling IXC the change charge for each end user that is currently designated to the IXC at the time of discontinuance.

4. An unauthorized PIC change is a change in the presubscribed IXC that the end user denies authorizing. PIC disputes for end users are resolved through an investigative process.

If an unauthorized change in toll presubscription occurs, the IXC making the unauthorized change will be assessed a charge for unauthorized change in presubscription as provided at the end of this section. In addition, the IXC will be assessed the applicable charge for returning the end user to the preferred IXC.

SECTION 3 - SERVICE OFFERINGS, CONT'D.

3.7 Toll Presubscription, Cont'd.

D. End User Charge Discrepancy

1. When a discrepancy is determined regarding an end user's designation of a presubscription IXC, the following applies depending upon the situation described:
 - a. A signed letter of authorization takes precedence over any order other than subsequent, direct customer contact with the Telephone Company.
 - b. When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date/time determines customer choice.
 - c. If an end user denies requesting a change in toll presubscription as submitted by an IXC, and the IXC is unable to produce a letter of authorization, signed by the end user, the IXC will be assessed all applicable change charges. The nonrecurring change charges are provided herein. The IXC will also be assessed the presubscription change charge as specified herein, which was previously billed to the end user.
2. Verification of Orders for Telemarketing

Neither the IXC or the Company shall submit a PIC change order generated by outbound telemarketing unless and until the order has first been confirmed in accordance with the F.C.C.'s current anti-slamming practices and procedures.

SECTION 3 - SERVICE OFFERINGS, CONT'D.

3.7 Toll Presubscription, Cont'd.

E. PIC Switchback Option-Business/Residence

PIC Switchback is an option under which no investigation activities are performed by the Company when an end user denies requesting a change in primary toll carrier submitted by the IXCs. The IXC participating in PIC Switchback will be billed the PIC Switchback Charge, and the presubscription change charge, as specified herein, to switch the end user to the end user's previous carrier.

When the Company is contacted by an end user who denies requesting a change in primary toll carrier, the end user will be credited the charge assessed for the disputed change in carrier, and will be switched back to the previous IXC at no charge. If this service is made available by the Company, IXCs may subscribe to or cancel PIC Switchback Service on 30 days notice to the Company by submitting a written request. A letter of authorization from the IXC will not be requested or accepted at a later date in the event of dispute of the charges assessed under the PIC Switchback option.

This option in no way relieves an IXC of the F.C.C. requirements for verifying all PIC orders obtained by outbound telemarketing prior to submitting those orders, or instituting steps to obtain verification of orders submitted to the Telephone Company.

In addition, the end user has the option of initiating a complaint to the F.C.C. or the Pennsylvania Public Utility Commission's Bureau of Consumer Services concerning unauthorized changes in toll presubscription.

SECTION 3 – SERVICE OFFERINGS, CONT'D.

3.9 Telephone Relay Service (TRS) Provisions.

3.9.1. General.

The Pennsylvania Telecommunications Relay Service (PA TRS) is a relay telecommunication service for the deaf, hard of hearing, hearing and/or speech disabled population of the Commonwealth. The PA TRS is mandated by the Americans with Disabilities Act of 1990 to provide functionally equivalent telephone services that are available to other U.S. citizens, at no additional cost. The PA TRS includes both traditional relay (devices such as Teletypewriters (TTY) and Telecommunication Devices for the Deaf (TDD)) and captioned-telephone voice-carry-over relay services (captioned telephone). These relay services permit telephone communications between individuals with hearing and/or speech disabilities, who must use a TTY, TDD or captioned telephone, with individuals having normal hearing and speech. Additionally, 711 abbreviated dialing is available to access the PA TRS. The Company's switching equipment is arranged to translate the "711" calls to the assigned toll-free number, (888) 895-1197, in order to route calls to the Telecommunications Relay Service Provider, in accordance with Commission's Order entered on February 4, 2000 at Docket No. M-00900239.

3.9.2. Surcharge.

In addition to the charges provided in this tariff, a surcharge will apply to all residence and business access lines served by this Company. (Access lines are those lines extending from the telephone company's central office to the end-user's premises.) This surcharge applies regardless of whether or not the access line uses the PA TRS.

The surcharge serves as the funding vehicle for the operation of the PA TRS, Telecommunications Device Distribution Program and the Print Media Access Service Program and shall be calculated by the Pennsylvania Public Utility Commission (the Commission). The Commission shall compute the PA TRS surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve-month period commencing with July 1 of each year.

The Commission may revise the surcharge more frequently than annually at its discretion.

Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company.

This section of the tariff is applicable upon the PA PUC's approval of the Company's request to be an eligible telecommunications carrier.

4.3.1 Lifeline Service is a Residence offering for low-income customers who qualify for this service in accordance with the following Regulations. Lifeline Service means a non-transferable retail service offering:

4.7 Rates By Individual Contract Basis (ICB)

In lieu of the rates otherwise set forth in this tariff, rates and charges, including minimum usage, installation, special construction and recurring charges for the Company's services may be established at negotiated rates on an individual contract basis (ICB), taking into account the nature of the facilities and services, the costs of construction and operation, the volume of traffic, the length of service commitment by the Customer, and use of facilities by other customers. Such arrangements shall be considered Special Pricing Arrangements, the terms of which will be set forth in individual Customer contracts. However, unless otherwise specified, the terms, conditions, obligation and regulation set forth in this tariff shall be incorporated into, and become a part of, said contract, and shall be binding on the Company and the Customer. Specialized rates or charges will be made available to similarly situated customers on a non-discriminatory basis.

In addition to any rate or charge established by the Carrier, the Customer will also be responsible for any recurring or non-recurring charges imposed by local exchange telephone companies incurred by or on behalf of the Customer in establishing and maintaining service. Such charges may be billed by the Carrier or directly by the local exchange company, at the Carrier's option.

Upon completion of any contractual arrangements entered into under this section, the Company will file additional tariff sheets as an amendment to this tariff summarizing the services, rates, terms, conditions, and duration of the contract, and will make the contract itself available to the Pa. PUC upon the Pa. PUC's request. The Company reserves the right to protection from public disclosure of proprietary information contained in such contracts as allowed under law.

The Company, from time to time, may make promotional offerings of its services, which may include waiving or reducing the applicable charges for the promoted service. Promotions will be filed as separate tariff sheets under this section 4.8.

All promotions will be limited in duration, and will identify a definite, reasonable time period during which the promotion will be in effect. A promotional offering cannot exceed six (6) months in a rolling twelve (12) month period and must be filed as a tariff supplement. A promotion may also be limited as to the locations where the offerings are made. A promotion may also, if so designated, provide for its conclusion upon the occurrence of a promotion-related event that is reasonably certain to occur, although the timing may not be certain.

All promotions shall be made available to other carriers for resale, and shall be priced, in conjunction with the entire service offering as a whole, above the Company's total service long run incremental cost.

TARIFF FORMAT

Page Numbering - page numbers appear in the upper right corner of the page. Pages are numbered sequentially and from time to time new pages may be added to the tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between pages 3 and 4 would be numbered 3.1.

Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.(1).
- 2.1.1.A.(1).(a).
- 2.1.1.A.(1).(a).I.
- 2.1.1.A.(1).(a).I.(i).
- 2.1.1.A.(1).(a).I.(i).(1).

Check Sheets - When a Tariff filing is made with the Commission, an updated Check Sheet accompanies the Tariff filing. The Check Sheet lists the pages contained in the Tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it. Users should refer to the latest Check Sheet to determine if a particular page is the most current on file with the Commission.

(2). In the case of an applicant for service or present Customer who does not have two (2) months of service with the Company, the Company may use the average monthly bill for that type of service to determine the correct amount for the deposit.

B. A deposit may be required in addition to an advance payment.

C. When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account, and any credit balance remaining will be refunded. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account. If the amount of the deposit is insufficient to cover the balance due on the Customer's account, the Company retains the right to collect any amounts owing after the deposit has been applied plus any costs related to the collection of any remaining balance.

When billing is based upon Customer usage, usage charges will be billed monthly for the preceding billing period.

C. When service does not begin on the first day of the month or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have thirty (30) days.

D. Billing of the Customer by the Company will begin on the Service Commencement Date, which is the day on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in this Tariff or the Service Request. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.

E. In the event Customer has agreed to a service commitment period, any cancellation prior to the expiration of the service commitment period shall not relieve Customer of the obligation to pay cancellation charges as specified in this Tariff.

2. RULES AND REGULATIONS (cont'd)

2.7. Customer Deposits And Advance Payments (cont'd)

2.7.3. Billing and Collection of Charges (cont'd)

F. If the Company receives any portion of the payment after the date due, or if any portion of the payment is received by the Company in funds that are not immediately available upon presentment, then a late payment penalty shall be due to the Company. The late payment penalty shall be the portion of the payment not received by the date due, multiplied by a late factor. The late factor shall be the lesser of:

- a. a rate of one and one-quarter percent (1.25%) per month; or

I. When service has been disconnected for nonpayment and payment has not been received, or satisfactory payment arrangements have not been made, for a period of ten (10) calendar days, the Company may consider the service terminated and the equipment owned by the Company may be removed. Reconnection may be considered as a new installation as provided in the Company Tariffs.

In the event the Company incurs fees or expenses, including attorneys' fees, in collecting or attempting to collect any charges owed the Company, the Customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

2.8. Cancellation For Cause By The Company

2.8.1. Upon nonpayment of any amounts owing to the Company, the Company may, by giving prior oral or written notice to the Customer, discontinue or suspend service without incurring any liability. 2.8.5. The discontinuance of service(s) by the Company pursuant to this Section does not relieve the Customer of any obligations to pay the Company for charges due and owing for service(s) furnished up to the time of discontinuance. The remedies set forth herein shall not be exclusive and the Company shall at all times be entitled to all rights available to it under either law or equity.

2.8.6. Service may be discontinued by Company to the Customer, by blocking traffic to or from certain NXX exchanges, or by blocking calls using certain codes. The Company will restore service as soon as it can be provided without undue financial risk.

2.9. Allowances For Interruption Of Service

2.9.1. Credit for Interruptions

A. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff. An interruption period begins when the Customer reports a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired but not interrupted.

B. For calculating credit allowances, every month is considered to have thirty (30) days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

C. When main service is interrupted for a period of at least 24 hours, credit to customers, at the following rate shall apply: 1) one-thirtieth of monthly rate for each of the first three full 24-hour periods. 2) Two-thirtieth of monthly rates for each full 24-hour period beyond the first three 24-hour periods in accordance with 52 Pa. §64.52.

When service is interrupted for a period of at least 24 hours due to storms, fires, floods or other conditions beyond the control of the company, an allowance of 1/30 of the tariff monthly rate for all services and facilities furnished by the company rendered inoperative or substantially impaired will apply for each full 24 hours during which the interruption continues after notice by the customer to the company.

The allowances described in this section are not applicable when service is interrupted by the negligence or willful act of the customer to service or where the company, under the terms of the contract for service, suspends or terminates service for nonpayment of charges, or for unlawful or improper use of the facilities or service, or for another reason provided for this tariff.

2. RULES AND REGULATIONS (cont'd)

2.9. Allowances For Interruptions Of Service (cont'd)

2.9.2. Restrictions on Allowance

- a. interruptions due to the negligence of, or noncompliance with, the provisions of this Tariff by the Customer or other common carrier providing service connected to the service of Company;
- b. interruptions due to the negligence of any person other than the Company including, but not limited to, the Customer or other common carriers connected to the Company's facilities;
- c. interruptions due to the failure or malfunction of non-Company equipment;
- d. interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions;
- e. interruptions of service during a period in which the Customer continues to use the service on an impaired basis;
- f. interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements; and/or
- g. interruption of service due to circumstances or causes beyond the control of the Company.

2.9.3. Use of Alternative Service Provided by the Company

Should the Customer elect to use an alternative service provided by the Company during the period that a service is interrupted, the Customer must pay the tariffed rates and charges for the alternative service.

2. RULES AND REGULATIONS (cont'd)

2.10. Assignment

2.10.1. The obligations set forth in this Tariff shall be binding upon and inure to the benefit of the parties hereto and their respective successors or assigns, provided, however, the Customer shall not assign or transfer its rights or obligations without the prior written consent of the Company.

2.11. Application Of Rates

2.11.1. Ordering, Rating and Billing of Access Service Where More Than One Exchange Telephone Company is Involved

Meet point billing applies when more than one (1) Exchange Telephone Company is involved in the provision of Access Service. All recurring and nonrecurring charges for services provided by each Exchange Telephone Company are billed under each Company's applicable rates as set forth in Section 2.12.1.A., following.

The Company accepts and adheres to the Ordering and Billing Forum Guidelines, Multiple Exchange Carrier Access Billing (MECAB) and Multiple Exchange Carrier Ordering and Design (MECOD).

The Company will handle ordering, rating and billing of Access Services under this Tariff where more than one (1) Exchange Telephone Company is involved in the provision of Access Service as follows:

A. For Feature Group D Switched Access Service, when the Customer's Serving Wire Center (SWC) is not directly connected to the Company's End Office, the Customer must supply a copy of the service request to the Exchange Telephone Company in whose territory the Customer SWC is located, and any other Exchange Telephone Company(ies) involved in providing the service.

Each Exchange Telephone Company will provide the portion of Switched Transport to an Interconnection Point (IP) with another Exchange Telephone Company, and will bill the charges in accordance with its Access Service Tariff. The rate for the transport element will be determined as set forth in Section 2.12.1.B., following. All other appropriate charges in each Exchange Telephone Company tariff are applicable.

2. RULES AND REGULATIONS (cont'd)

2.11. Application Of Rates (cont'd)

2.11.1. Ordering, Rating and Billing of Access Service Where More Than One Exchange Telephone Company is Involved (cont'd)

B. The charge for the Switched Transport rate element for services provided as set forth in Section 2.11.1.A., preceding, are determined as follows:

(1). For Feature Group D Switched Access Service, the Switched Transport charges are determined by using the steps set forth in Subsection (a)., following, for the total Switched Transport-Common Switched Transport charges.

(a). Multiply: The number of access minutes by the Company's appropriate Switched Transport per minute rate. The resulting amount is the Company's total Switched Transport charge.

C. The interconnection points will be determined by the Exchange Telephone Company(ies) involved. The billing percentage (BP) factor for the Company for the service between the involved offices will be listed in NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF FCC NO. 4, except as noted in Section 2.12.1.(D)., below.

2. RULES AND REGULATIONS (cont'd)

2.11. Application Of Rates (cont'd)

2.11.2. Charges Based on Duration of Use

Originating calls will be measured at the Company end office to determine the basis for computing chargeable access minutes. Terminating calls will be measured at the access tandem or at the end office, when direct trunking is provided.

For originating calls over Feature Group D, usage measurement begins when the originating Feature Group D switch receives the first wink supervisory signal forwarded from the Customer's point of termination.

The measurement of originating call usage ends when the originating Feature Group D switch receives disconnect supervision from either the originating end user's end office, indicating the originating end user has disconnected, or the Customer's point of termination, whichever is recognized first by the switch.

For terminating calls over Feature Group D, the measurement of access minutes begins when the terminating Feature Group D switch receives answer supervision from the terminating end user's end office, indicating the terminating end user has answered.

The measurement of terminating call usage over Feature Group D ends when the terminating Feature Group D switch receives disconnect supervision from either the terminating end user's end office, indicating the terminating end user has disconnected, or the Customer's point of termination, whichever is recognized first by the switch.

Access minute or fractions thereof are accumulated over the billing period for each end office and are then rounded up to the nearest access minute for each end office.

2. RULES AND REGULATIONS (cont'd)

2.12. Determination of Jurisdiction of Mixed Interstate and Intrastate Dedicated Transport Service

2.12.1. Jurisdictional Reports

A. For Feature Group D Switched Access Service, the Company, where jurisdiction can be determined from the call detail, will determine the interstate percentage as follows. For originating access minutes, the interstate percentage will be developed on a quarterly basis by end office trunk group dividing the measured interstate originating access minutes (the access minutes where the calling number is in one state and the called number is in another state) by the total originating access minutes. For terminating access minutes, there are three options: (1) Customer may provide Company with a projected PIU factor; (2) the PIU for originating access may be used; or (3) Company may use a default PIU which will be an even split of 100% interstate.

When a Customer orders Feature Group D Switched Access Service, the Customer shall supply a projected interstate percentage of use for each end office trunk group involved. This percentage shall be used by the Company as the projected interstate percentage for such call detail.

B. These whole number percentages will be used by the Company to apportion the use, rates, and/or nonrecurring charges between interstate and intrastate until a revised report is received.

C. The projected interstate percentage of use will be used to determine the charges as follows:

The number of access minutes for a trunk group will be multiplied by the projected interstate percentage of use to determine the interstate access minutes (i.e., number of access minutes x projected interstate percentage of use = interstate access minutes). The number of interstate access minutes so determined will be subtracted from the total number of access minutes (i.e., number of access minutes - interstate access minutes = intrastate access minutes). The intrastate access minutes for the group will be billed as set forth in Section 3, following.

2. RULES AND REGULATIONS (cont'd)

2.12. Determination of Jurisdiction of Mixed Interstate and Intrastate Dedicated Transport Service
(cont'd)

2.12.1. Jurisdictional Reports (cont'd)

D. Effective on the first day of January, April, July, and October of each year, the Customer may update the jurisdictional reports that require a projected interstate percentage. The Customer shall forward to the Company, to be received no later than twenty (20) calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three (3) months ending the last day of December, March, June, and September, respectively, for each service arranged for interstate and intrastate use. The revised report will serve as the basis for the next three (3) months' billing and will be effective on the bill date in the following month (i.e., February, May, August, and November) for that service. No prorating or back billing will be done based on the report. If the Customer does not supply the report, the Company will assume the percentage to be the same as that provided in the last quarterly report. For those cases in which a quarterly report has never been received from the Customer, the Company will assume the percentage to be the same as that provided in the order for service as set forth in Section 2.12.1(A), preceding.

E. The Customer shall keep sufficient detail from which the percentage of interstate use can be ascertained and upon request of the Company make the records available for inspection. The Company will initiate such request no more than once per year. The Customer shall supply the data within thirty (30) calendar days of the Company request.

F. The Customer may provide an additional percentage of interstate use for Entrance Facility and Direct Trunked Transport subject to the reporting requirements previously listed in this section. The percentage of interstate use may be provided per individual facility or at the billing account level. Should the Customer not provide a percentage of interstate use, the Company will use the reported Feature Group D aggregated percentage of interstate use.

2. RULES AND REGULATIONS (cont'd)

2.12. Determination of Jurisdiction of Mixed Interstate and Intrastate Dedicated Transport Service
(cont'd)

2.12.2. When Mixed Interstate and Intrastate Service is Provided Over a Dedicated Facility, the Jurisdiction will be Determined as Follows

A. If the Customer's estimate of the interstate traffic on the service equals ten percent (10%) or less of the total traffic on that service, the service will be provided according to the applicable rules and regulations of this Tariff.

B. If the Customer's estimate of the interstate traffic on the service is more than ten percent (10%) of the total traffic on that service, the service will be provided according to the applicable rules and regulations of the appropriate interstate tariff.

C. If the percentage of interstate traffic on the service changes to the extent that it alters the jurisdiction of the service, the Customer must notify the Company of any required change in status. The affected service will revert to the appropriate jurisdictional tariff within the next full billing cycle.

2.12.3. Rounding

In the event the total charge for a call includes a fraction of a cent, the cost shall be rounded up to the next highest cent.

2.13. Special Customer Arrangements

2.13.1. In cases where a Customer requests a special or unique arrangement which may include engineering, conditioning, installation, construction, facilities, assembly, purchase or lease of facilities, and/or other special Services not offered under this Tariff, the Company, at its option, may provide the requested Services. Appropriate recurring charges and/or Nonrecurring Charges and other terms and conditions will be developed for the Customer for the provisioning of such arrangements.

3. SERVICE DESCRIPTIONS

3.1. Access Services

A. Switched Access

Interexchange Switched Access Service provides an interexchange carrier (IXC) the ability to utilize the Company's local exchange network for the purpose of originating or terminating an interLATA call. The service provides the physical connection between a Customer's point of presence (POP) and an end user's premises, utilizing the Company's switched network. Switched Access provides for the ability to originate calls from an end user's premises to a Customer's POP and to terminate calls from a Customer's POP to an end user's premises in the LATA in which the customer desires to originate and terminate calls.

Interexchange Switched Access Service is provided as a trunk side connection, Feature Group D type, to Company end office switches with an associated uniform 101XXXX access code for the Customer's use in originating and terminating communications.

End Users may originate calls to a selected FGD customer by dialing 101XXXX + 1 + NPA + NXX + XXXX. Calls in the terminating direction will be completed for all IXCs whose CIC code has been opened at the tandem switch.

Interexchange calls placed by end users to 1-800-NXX-XXXXs will be completed, subject to the terms and conditions in Section 3.1.B. Interexchange calls placed by end users utilizing 500, 700, and 900/976 prefixes will be blocked.

The rates and charges for Switched Access Service depends on whether the Switched Transport is switched through an access tandem or direct routed to the Company's end office. Rates and charges for Switched Access Service are set forth in Section 4, following. The application of rates for Switched Access Service is described in Section 3.1.2., following.

3. SERVICE DESCRIPTIONS (cont'd)

3.1. Access Services (cont'd)

B. 800 Data Base Access Service

800 Data Base Access Service is a service offering utilizing originating trunk side Switched Access Service. The service provides for the forwarding of end user dialed 800 calls to a Company Service Switching Point which will initiate a query to the data base to perform the Customer identification and delivery function. The call is forwarded to the appropriate Customer based on the dialed 800 number.

For 800 Data Base Access Service, the Customer shall order the service in accordance with the preceding provisions set forth for Feature Group D.

3. SERVICE DESCRIPTIONS (cont'd)

3.1. Access Services (cont'd)

3.1.1. Access Service Request

The Access Service Request (ASR) shall state the date on which Service shall begin and the points between which Service is to be provided, the type of facilities required, and any special arrangements related thereto.

An ASR must be submitted by the Customer to provide Switched Access Service. When placing an order for Access Service, the Customer shall provide, at a minimum, the following information:

For Feature Group D Switched Access Service, the Customer shall specify the number of busy hour minutes of capacity (BHMC) from the Customer's POP to the end office by traffic type. This information is used to determine the number of transmission paths. The Customer shall also specify the Switched Transport and Local Switching options.

When Feature Group D ordered by specifying the number of trunks and end office and routing via an access tandem operated by another Exchange Telephone Company is desired, the Customer shall specify:

- a. the access tandem;
- b. the Switched Transport and Local Switching options desired; and
- c. an estimate of the amount of traffic to be generated to and/or from each Company end office subtending another Exchange Telephone Company's access tandem.

In addition, for Feature Group D with the SS7 signaling option, the Customer shall specify the switching point codes and trunk circuit identification codes for trunks with the SS7 signaling option, and the STP codes, signaling link codes and link type for each Common Channel Signaling Access (CCSA) connection ordered.

When a Customer orders Feature Group D, the Customer is responsible for assuring that sufficient access facilities have been ordered to handle its traffic.

49-96 Trunks	15 business days
97+ Trunks	Negotiated

B. Access Order Modifications

The Customer may request a modification of its Access Order at any time prior to notification by the Company that service is available for the Customer's use or prior to the service date, whichever is later.

Any increase in the number of Switched Access Service lines, trunks, or busy hour minutes of capacity or CCSA signaling connections will be treated as a new Access Order (for the increased amount only).

3. SERVICE DESCRIPTIONS (cont'd)

3.1. Access Services (cont'd)

3.1.1. Access Service Request (cont'd)

B. Access Order Modifications (cont'd)

(1). Service Date Change Charge

Access Order service dates for the installation of new services or rearrangements of existing services but the new service date may not exceed the original service date by more than thirty (30) calendar days. When, for any reason, the Customer indicates that commencement of service must be delayed for a period not to exceed thirty (30) calendar days, and the Company accordingly delays the start of service, a Service Change Charge will apply. If the Customer requested service date is more than thirty (30) calendar days after the original service date, the order will be canceled by the Company and reissued with the appropriate cancellation charges applied.

A Service Date Change Charge will apply, on a per order per occurrence basis, for each service date changed. The applicable charge is found in Section 4.1.3.

(2). Design Change Charge

The Customer may request a design change to the service ordered. A design change is any change to an Access Order which requires engineering review. Design changes do not include a change of customer premises, end user premises, end office switch. Changes of this nature will require the issuance of a new order and the cancellation of the original order with appropriate cancellation charges applied.

The Design Change Charge will apply on a per order per occurrence basis, for each order requiring a design change. The applicable charge is found in Section 4.1.3.

If a change of service date is also required, the Service Date Change Charge will also apply. In the event that Company is required to perform a Circuit redesign due to inaccurate information provided by the Customer, the Design Change Charge will apply.

(3). Expedited Order Charge

When placing an Access Order for service(s), a Customer may request a service date that is prior to the Standard Interval service date. A Customer may also request an earlier service date on a pending Order. If the Company agrees to provide service on an expedited basis, an Expedited Order Charge will apply.

If the Company receives a request for an expedited service date at the time a Standard Interval Access Order is placed, the Expedited Order Charge is calculated by summing all the nonrecurring charges associated with the order and then dividing this total by the number of days in the Standard Interval. The charge is then applied on a per day of improvement basis, per order.

3. SERVICE DESCRIPTIONS (cont'd)

(a). When the Customer cancels an Access Order, a charge equal to the non-recoverable costs of construction and any other expenditures incurred for the service shall apply.

(b). If the Company misses a service date for an Access Order by more than thirty (30) days, due to circumstances referred to in Section 2.5.2., the Customer may cancel the Access Order without incurring cancellation charges.

(3). The following changes will be treated as a discontinuance of the existing service and an installation of a new service. All associated nonrecurring charges will apply for the new service. Additionally, a new minimum period will be established.

- a. A move to a different building;
- b. A change in the type of service;
- c. A change in Switched Access Interface Group;
- d. A change in STP Access Link;
- e. A change in STP Port; and/or

For Switched Services ordered on a busy hour minutes of capacity basis, the charge is also applied on a per-trunk basis, but the charge applies only when the capacity ordered requires the installation of an additional trunk(s). In addition, nonrecurring charges apply when an out of band signaling connection is installed for use with FGD, and an administrative charge shall apply any time a Customer initiates an order for service.

(3). Service Rearrangement Charge

Service Rearrangement Charges apply to moves that change the physical location of the point of termination and are described below.

3.1.2. Standard Rate Categories

The following rate categories apply to all forms of Switched Access Service, Switched Transport, End Office, and Switched Transport Multiplexing.

A. Switched Transport

The Switched Transport rate category provides for transmission facilities between the Customer's POP and the Company's end office switch(es) where the Customer's traffic is switched to originate or terminate its communications.

Except as stated in the following paragraph, Switched Transport service is provided in conjunction with SBC. Charges for Switched Transport service are computed in accordance with Section 2.12. (Ordering, Rating, and Billing of Access Services Where More Than One Exchange Telephone Company is Involved).

Upon request, the Company will provide dedicated Direct Transport in place of Tandem Switched Transport between a Customer's POP and the Company's end office switch. If Direct Transport facilities are provisioned entirely by the Company, Entrance Facility Termination charges as described will apply.

At the Customer's option, the Entrance Facility and Direct Transport may be provided by the Company, by the Customer, or by another carrier.

The following paragraphs describe the Switched Transport rate elements.

Switched Transport - Entrance Facility, Tandem-Switched Transport, and Direct Transport

The Entrance Facility rate category is a monthly fixed rate applied per point of termination. An Entrance Facility is required whether the Customer's POP and the SWC are located in the same or different buildings.

(2). Tandem-Switched Transport

Tandem-Switched Transport provides Switched Transport that is switched through a tandem switch, between the Customer's POP and the end offices subtending the tandem.

Tandem-Switched Transport is composed of the following usage-sensitive rate elements.

- (a). The Tandem-Switched Termination element includes the non-distance sensitive portion of Switched Transport, and is assessed on a per access minute of use basis.
- (b). The Tandem-Switched Facility element includes the distance sensitive portion of Switched Transport and is assessed on a per access minute of use per mile.

The End Office rate category provides the local end office switching and end user termination functions necessary to complete the transmission of Switched Access communications to and from the end users served by the Company's end office. The End Office rate category consists of the Local Switching rate element, which is applied on a per MOU basis.

3.2.1. Presubscription

A. Presubscription is an arrangement whereby an end user may select and designate to the Company an Interexchange Carrier (IXC) to access, without an access code, for intraLATA and interLATA calls subject to the Company's FCC Access Tariff. This IXC is referred to as the end user's Primary Interexchange Carrier (PIC).

Prior to a request for presubscription, all end user Customers will be PIC'd to the Company long distance service.

B. Presubscription will be offered to any IXC, upon a written bona fide request, within one hundred eighty (180) days of receipt of the bona fide request.

Interexchange carriers must execute the Company-provided Participation Questionnaire and Non-Disclosure Agreement to request presubscription.

C. At the request of a new or existing end user served by a Feature Group D end office where presubscription has been implemented, the Company will provide a list of IXCs the end user may select as its PIC. At no charge for the initial selection, the Customer may choose either of the following options.

- (1). Designate an IXC as a PIC and dial 101XXXX to reach other IXCs.
- (2). Designate that they do not want to be presubscribed to any IXC and choose to dial 101XXXX for all calls to all IXCs.

New end users subscribing to the Company's Exchange Access Service which do not specify a PIC will default to the Company as their initial PIC selection. Subsequent to the installation of Exchange Access Service, and after the end user's initial selection of a PIC, for any additional change in selection, a nonrecurring charge applies. This charge is billed to the end user.

3.2.2. Billing Name and Address Service

Billing Name and Address (BNA) Service is the provision of the complete billing name, street address, city or town, state and zip code for a telephone number assigned by the Company.

BNA Service is provided for the sole purpose of permitting the Customer to bill its telephone communications service to its end users and may not be resold or used for any other purpose, including market activity such as market surveys or direct marketing by mail or telephone.

The Customer may not use BNA information to bill for merchandise, gift certificates, catalogs or other services or products.

BNA Service is provided on a manual basis. The requested information will be provided by fax or by mail as is appropriate.

BNA information is furnished for originating calls dialed with a 101XXXX access code, sent-paid, collect, and bill to third number.

A request for BNA should be mailed or faxed to the Company. The Company will provide the response by fax or by first class U.S. Mail within ten (10) business days.

The BNA information will be provided for the calling number furnished to the extent a billing name and address exists in the Company's records, including non-published and non-listed numbers. If the billing name and address information for a specific calling number is confidential due to legal, national security, end user or regulatory imposed requirements, the Company will provide an indicator on the confidential records.

The Company will provide the most current BNA information resident in its database. Due to normal end user account activity, there may be instances where the BNA information provided is not the BNA that was applicable at the time the message was originated.

3.2.2. Billing Name and Address Service (cont'd)

A. Obligations of the Customer

(1). With each order for BNA Service, the Customer shall identify the authorized individual and address to receive the BNA information.

(2). The Customer shall institute adequate internal procedures to insure that BNA information, including that related to non-published and non-listed telephone numbers, is used only for the purpose set forth in this Tariff and that BNA information is available only to those Customer personnel or agents with a need to know the information. The Customer must handle all billing name and address information designated as confidential by the Company in accordance with the Company's procedures concerning confidential information. The Company will provide to the Customer a statement of its procedures concerning confidential information.

(3). The Customer shall not publicize or represent to others that the Company jointly participates with the Customer in the development of the Customer's end user records, accounts, data bases, or market data, records, files and data bases or other systems it assembles through the use of BNA Service.

(4). When the Customer orders BNA Service for both interstate and intrastate messages and where the recorded message detail is not sufficient to determine the jurisdiction, the projected percentage of interstate use must be provided in a whole number to the Company. The Company will designate the number obtained by subtracting the projected interstate percentage from 100 (100 - projected interstate percentage = intrastate percentage) as the projected intrastate percentage.

This whole number percentage will be used by the Company to apportion the rates and nonrecurring charges between interstate and intrastate in those circumstances where the recorded message detail is not sufficient to permit the Company to determine the appropriate jurisdiction. This percentage will remain in effect until a revised report is received as set forth following.

3.2.2. Billing Name and Address Service (cont'd)

A. Obligations of the Customer (cont'd)

(4). Effective on the first of January, April, July and October of each year, the Customer may update the jurisdictional report. The Customer shall forward to the Company, to be received no later than twenty (20) calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three (3) months ending the last day of December, March, June and September, respectively. Except where jurisdiction can be determined from the recorded message detail, the revised report will serve as the basis for the next three (3) months= billing and will be effective on the bill date in the following month (e.g., February, May, August and November). No prorating or back billing will be done based on the report. If the Customer does not supply the report, the Company will assume the percentages to be the same as those provided in the last quarterly report. For those cases in which a quarterly report has never been received from the Customer, the Company will assume the percentages to be an even 50/50 split.

(5). The Company shall use reasonable efforts to provide accurate and complete lists. The Company makes no warranties, expressed or implied, as to the accuracy or completeness of these lists.

B. Rate Regulations

(1). Service Establishment Charges apply for the initial establishment of BNA Service on a manual basis, and for establishment of a Master List for a Customer.

(2). A charge applies for each request for BNA information for a telephone number provided on a manual basis.

The Company will keep a count of the requests and of the messages processed. The Company will bill the Customer in accordance with these counts whether or not the Company was able to provide BNA information for all requests and messages.

(3). When a Customer cancels an order for BNA Service after the order date, the Service Establishment Charge applies.
