Re: Metropolitan Edison Company Final Annual Report to the Pennsylvania  
Public Utility Commission and Act 129 Statewide Evaluator  
M-2009-2092222

Dear Secretary Chiavetta:

Pursuant to Staff's request, enclosed please find an original and copy of amended pages 15-16 of the Final Annual Report to the Pennsylvania Public Utility Commission and Act 129 Statewide Evaluator for the period June 2012 through May 2013, Program Year 4.

Please date stamp the copy and return to me in the enclosed, postage-prepaid envelope. Should you have any questions regarding this matter, please do not hesitate to contact me.

Sincerely,

Carrie M. Dunn

SECRETARY'S BUREAU

*Low Income Sector*

Act 129 mandates that the number of measures offered to the low-income sector be proportionate to the low-income sector's share of total energy usage.<sup>11</sup> There are 7 measures available to the low-income sector and 41 measures available in total across all customer sectors<sup>12</sup>. The measures offered to the low-income sector therefore comprise 17 percent of the total measures offered. This exceeds the fraction of the estimated electric consumption of the utility's low-income households divided by the total electricity consumption in the Met-Ed territory (7.8 percent). These values are shown in Table 1-2.

**Table 1-2: Low-Income Sector Compliance Metrics**

	Low-Income Sector	All Sectors	% Low-Income
# of Measures Offered	7	41	17.1%
Electric Consumption (MWh/yr)	1,117,172	14,240,733	7.8%

The CPITD reported gross energy savings for low-income sector programs (excluding low-income participation in non-low-income programs) is 5,998 MWh/yr; this is 1.1 percent of the CPITD total portfolio reported gross energy savings.

Including low-income customer participation in non-low-income programs, the CPITD reported gross energy savings achieved is 42,560 MWh/yr; this is 8.0 percent of the CPITD total portfolio reported gross energy savings.

The CPITD verified gross energy savings achieved for low-income programs (excluding low-income participation in non-low-income programs) is 5,728 MWh/yr; this is 1.2 percent of the CPITD total portfolio verified gross energy savings.<sup>13</sup>

---

<sup>11</sup> Act 129 includes a provision requiring electric distribution companies to offer a number of energy conservation measures to low-income households that are "proportionate to those households' share of the total energy usage in the service territory." 66 Pa.C.S. §2806.1(b)(i)(G). The legislation contains no provisions regarding targets for participation, or energy or demand savings.

<sup>12</sup> To keep calculations tractable, measures are grouped into homogeneous categories. For example, the "WARM Plus" low-income program offers more than 100 distinct measures, but it is counted as one of the seven broad measures available solely to low-income customers. Likewise, there may be scores of variants of linear fluorescent lamps rebated by the Efficient Equipment programs, but they are also categorized in the same group.

<sup>13</sup> See the "Report Definitions" section for an explanation of how CPITD verified gross savings are calculated.

Including low-income customer participation in non-low-income programs, the CPITD reported verified energy savings achieved is 40,195 MWh/yr; this is 7.6 percent of the CPITD total portfolio reported gross energy savings.<sup>14 15</sup>

---

<sup>14</sup> The Energy Savings achieved in the low-income sector starting with the PY4Q2 report are calculated according to the procedure in the PY3 Annual report (page 14). This is a shift from the previous calculation procedure that was used for the PY4Q1 report, and the new methodology results in smaller claimed impacts, thus the adjustment from the PY4Q1 report.

<sup>15</sup> The estimated cost of low-income savings from non-low-income programs is \$4,321,132.

**After printing this label:**

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

**Warning:** Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on [fedex.com](http://fedex.com). FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.
