RE: Sunoco Pipeline L.P., Petition for Exemption, Docket Nos. P-2014-2411941, et al.

Dear Chairman Powelson:

I am writing to you to express our support for Sunoco Pipeline L.P.'s application before the Pennsylvania Public Utilities Commission for exemption for pump stations and valve sites.

I am familiar with Sunoco Logistics and their Mariner East project. The propane and ethane that the Mariner East project will ship across Pennsylvania are the kind of raw materials necessary to rebuild the region's manufacturing capacity with quality construction and permanent jobs.

The Claymont Renaissance Development Corporation's (a nonprofit organization) mission is to ensure the economic and community revitalization of Claymont, Delaware. We are located on the Delaware - Pennsylvania state line and share the Sunoco facility with Marcus Hook, Pennsylvania. When the Sunoco refinery closed, the devastation for local working families knew no state boundaries.

The potential for economic rebirth of this section of southeastern Pennsylvania and northeastern Delaware is great. We believe that job creation from Sunoco Logistics and the other future petrochemical manufacturing on the site will help restore financial stability to many in this area.

According to Sunoco Logistics, the pump stations and valve sites are essential to maximizing the safety of the pipeline, allowing greater control and monitoring.

Please consider economic impact of this important project as you consider Sunoco Logistics' petition. Please place this letter in the public record for the above referenced dockets.

Sincerely,

Brett Saddler,  
Executive Director
