Re: Sunoco Pipeline L.P., Petition for Exemption, Docket Nos. P-2014-2411941, et al.

Dear Chairman Powelson:

I am writing to you, on behalf of my membership, to express our support for Sunoco Pipeline L.P.'s application before the Pennsylvania Public Utilities Commission for exemption for pump stations and valve sites.

We are familiar with Sunoco Logistics and their Mariner East project. Sunoco Logistics is an experienced pipeline company and has worked well with the local community for many years. The Mariner East project, by shipping raw materials such as propane and ethane across Pennsylvania, will help to rebuild the region's manufacturing capacity with quality construction and permanent jobs.

In addition to stimulating shale gas development in Western and Central Pennsylvania, these natural resources, which otherwise are shipped down to the Gulf Coast, offer the following economic benefits through the Mariner East project:

- Serve as the foundation for development of the petrochemical manufacturing sector in the Commonwealth.
- Include investment of more than \$600 million in the Mariner East and separate Mariner West project, which also originates in Western Pennsylvania, with most of that money spent in the Commonwealth.

PA P.U.C.
SECRETARY'S BUREAU

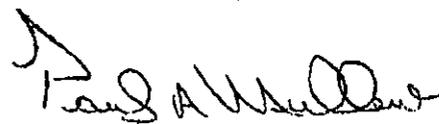

- Revitalize the former Marcus Hook refinery as a world-class processing, storage and transport hub for substances such as propane, butane and ethane.
- Stimulate demand for Shale Gas development and local vendors in Western and Central Pennsylvania.
- Create hundreds of construction jobs to develop the Marcus Hook Industrial Complex to a natural gas liquids hub;
- Restore quality permanent jobs lost when the Marcus Hook refining operations were idled in 2011;
- Add additional jobs throughout Pennsylvania as Sunoco Logistics continues to grow as one of the most successful and dynamic companies on the Commonwealth.

According to Sunoco Logistics, the pump stations and valve sites are essential to maximizing the safety of the pipeline, allowing greater control and monitoring.

We ask that you consider the need for this critical infrastructure - from both a safety standpoint and the regional economic impact of this important project - as you consider Sunoco Logistics' petition. Also, I ask that you place this letter in the public record for the above referenced dockets.

Sincerely,

Local Union No. 654, I.B.E.W.
