Re: Application of Rasier-PA LLC, a Wholly Owned Subsidiary of Uber Technologies, Inc., for Emergency Temporary Authority to Operate an Experimental Ride-Sharing Network Service Between Points in Allegheny County, PA  
Docket No. A-2014-2429993

Dear Secretary Chiavetta:

On behalf of Rasier-PA LLC, a wholly owned subsidiary of Uber Technologies, Inc., I have enclosed for filing Exhibit C to supplement the Application for Emergency Temporary Authority to Operate an Experimental Ride-Sharing Network Service filed on July 2, 2014 in the above-captioned matter. Exhibit C consists of 7 Supporting Statements dated July 3, 2014 which include full names and email addresses, and have been electronically signed using Adobe's software known as EchoSign.

If you have any questions, please feel free to contact me.

Sincerely,

Karen O. Moury

# Exhibit C

STATEMENT OF NEED FOR UBER IN PITTSBURGH

I have very poor vision (legally blind) and use Uber to help get around Pittsburgh quickly and effectively. What used to take me hours by bus or cab now no never takes over 15 minutes. Having Uber around is crucial to helping me do my job and live my life more easily. Please reconsider the cease and desist order.

Sincerely,  
Alex

## STATEMENT OF NEED FOR UBER IN PITTSBURGH

We need uber in pittsburgh because I use it as a major form of transportation. Cabs have always been too expensive and unreliable. When I get an uber I always feel safe, it's always reasonably priced, and the uber drivers are nice people just looking for some extra cash to pay for school or help out their families. I use it to go to the bars and to get around town in general. I would be devastated if you took uber away. I use it all the time I NEED uber I'm not sure what I'll do without it. Please let uber stay. If uber goes you are getting rid of jobs for innocent working class people forcing us to use cabs if we stay out past the time when public transportation stops running.

## STATEMENT OF NEED FOR UBER IN PITTSBURGH

I have lived the city of Pittsburgh for a number of years and do not own a vehicle, but I honestly would not drive to work even if I could since parking is such a nightmare in the city. I work in the service industry, and since most of my jobs require late nights, I rely on public transportation quite frequently. I have always had trouble with the Yellow Cab system (as well as Classy Cab) - drivers not showing up when I'm told they've arrived at my location (a FEW times in one night), waiting for over an hour for anyone to even pick up my request, etc. I have had such bad experiences that I've been forced to wait overnight until the buses start running again until I could get home.

Since the arrival of the Uber System in the city, my life has been SO MUCH easier. I use the app almost daily, and most certainly weekly for everything from shopping to going to the doctors, and especially to and from work (I was injured a few months ago and not having to walk and wait on a number of buses or to try to wait for an unreliable Yellow Cab to get places has been incredibly helpful). I also greatly enjoy the features of the app - pics and car types of the drivers, being able to rate them, being able to track how far away they are, being able to contact them if there are any issues, as well as not having to worry about having cash for payment (even though Yellow Cab has credit card swipers, the frequency of which they work is very low). I LOVE Uber and cannot imagine going back to not having the option of using the system. PLEASE !!!

## STATEMENT OF NEED FOR UBER IN PITTSBURGH

In the end of October 2013, I injured my knee badly playing soccer. I needed surgery, which meant many hospital visits and more than 6 months of physical therapy. I have missed so many doctor's appointment, PT appointments, and got stuck in the hospital for hours because of cabs not showing up. I was also forced multiple times to walk back home from PT when it was snowing and I was wearing a brace and using crutches because I could not get a cab. I was so relieved when Uber launched in Pittsburgh because all these issues were solved and I have not called a cab ever since.

## STATEMENT OF NEED FOR UBER IN PITTSBURGH

Uber is one of the most reliable services I have used. The Yellow Cab experience has been horrible I have been up to two hours late to work having no way to get there. I would like to keep Uber available to people like me and others who need a reliable service to get around town and far places. I need Uber!

## STATEMENT OF NEED FOR UBER IN PITTSBURGH

Bad weather, lack of punctuality of the Port Authority bus system and Yellow Cabs showing up only when the destination was the Airport, was something we were all used to. This made Pittsburgh a boring place for all of us who didn't have a car. We could not go anywhere for dinner, drinks or anything fun, if the place wasn't within a 2 mile radius. Uber changed that. Please don't make life in Pittsburgh boring again.

## STATEMENT OF NEED FOR UBER IN PITTSBURGH

I do not own a car, and because I have short windows sometimes to get to and from my job in Oakland and other neighborhoods, I have come to rely on Uber and use the service almost everyday. It's impossible to do this with the other taxi services, as they are unreliable and certainly less affordable. I can say absolutely that not having this great service will affect my life in a very negative way.
