8. APPLICANT'S PRESENT OPERATIONS:

9. APPLICANT'S PROPOSED OPERATIONS: The Applicant proposes to operate as a:

Competitive Local Exchange Carrier, e.g., providing local exchange service as a facilities based carrier or as a reseller and an Interexchange Toll Reseller, InterLATA and/or IntraLATA, (e.g., MTS, 1+, Toll Free, Calling Cards).

10. PROPOSED SERVICES: Describe the services which the Applicant proposes to offer.

The following description of Applicant's proposed services encompasses all services Applicant intends to provide.

Applicant seeks to provide all forms of intraexchange and interexchange services, both facilities based and resold throughout the service territories of GTE, Bell Atlantic, and any other incumbent local exchange carrier in whose territory competition is (now or subsequently) permitted.

Applicant seeks authority to provide these services utilizing a combination of its own facilities, and (where necessary) resold facilities of other carriers.

Specifically, Applicant will provide the following services throughout the State of Pennsylvania:

Local Exchange Services: Switched services providing local telephone service, including local dial tone service, to business, residential and government customers or to carriers and other valued-added resellers.

Long Distance Services: Switching and transport, billed on a minutes-of-use basis, of interexchange traffic, including voice and data.

Switched Access Services: Switched services, offered to IXC, billed on a minutes-of-use basis.

Special Access and Private Line Service: Non-switched dedicated connections, including high capacity interconnections between (a) the POPs of an IXC, (b) the POPs of different IXCs, (c) the POPs of an IXC and LEC end offices, (d) large customers and their selected IXC POPs, and (e) different locations of particular customers. These services are billed at flat, non-usage sensitive, monthly rates.

Integration Services: Provision and customized configuration of customer premise equipment (CPE), provision of network equipment and related support, application design support, and other consulting services.

In addition to the above-listed services, the Applicant, through its interconnection arrangements with other carriers, will offer 911 Emergency Services, directory assistance and operator assisted calling, and toll-free calling.

10. PROPOSED SERVICES: Describe the services which the Applicant proposes to offer. (Cont'd)

Where economies of scale permit, Applicant will employ a combination of Applicant owned and third party equipment and facilities in providing the proposed facilities based services. Where economically feasible, Applicant will own and operate an end-office switch with SS7 capabilities; however, the SS7 capabilities will be provided by a third party vendor. Tandem transport and tandem switching will be purchased from the incumbent LEC. Applicant anticipates that interoffice T-1 transport will be purchased from the incumbent LEC and/or an interexchange carrier(s). Applicant's future plans include construction of an Applicant owned local loop network, however, applicant will initially utilize the unbundled network element platform (UNE-P) arrangement available from the incumbent LEC to provide local telecommunications services at discounted rates.

11. SERVICE AREA: Describe the geographic service area in which the Applicant proposes to offer service.

Initially, Applicant proposes to offer Competitive Local Exchange Services in the service territory of Bell Atlantic, GTE and any other incumbent local exchange carrier in whose territory competition is (now or subsequently) permitted. Applicant seeks authority to serve the entire Commonwealth of Pennsylvania. Pursuant to the Commission's May 23, 1996 Order in Docket No. M-0096-799 (at 15-17), Applicant does not seek to provide service in the service area of small or rural LECs which the Commission has deemed to qualify as rural telephone companies under the 1996 Act. Additionally, the Applicant asserts that it will not claim designation as a rural telephone company.

Applicant seeks authority to serve the entire Commonwealth of Pennsylvania for the provision of Interexchange Toll Resale, InterLATA and/or IntraLATA and will provide service by reselling the services of Qwest Communications International, Inc. (NYSE: Q).

12. MARKET: Describe the customer base to which the Applicant proposes to market its services.

Applicant will be providing service to both residential and business customers throughout its service area for both its Competitive Local Exchange Services and its Interexchange Toll Resale Services.

13. PROPOSED TARIFFS:

Attached hereto as **EXHIBIT 4** is the Applicant's Initial Tariffs setting forth the rates, rules, and regulations of the Applicant's Competitive Local Exchange Services and its Interexchange Toll Resale Services.

14. FINANCIAL: Provide a general description of the Applicant's capitalization and, if applicable, its corporate stock structure.

Applicant is financially qualified to provide facilities based and resold intraexchange and interexchange services in Pennsylvania. In particular, Applicant will rely upon financial resources such as bank financing, private investment, retained earnings, and resources of its parent corporation to provide initial capital investment and to fund operating losses during the start-up phase. Applicant believes utilizing the Unbundled Network Element Platform methodology to initially launch service will minimize start-up cost. Attached hereto as **EXHIBIT 5** are un-audited financials and as **EXHIBIT 6** are the pro forma financial statements of the Applicant.

The name, title, telephone number, and FAX number of the Applicant's custodian for its accounting records and supporting documentation are:

Furthermore it does not constitute a waiver or modification of the regulations of the Company providing for the discontinuance of Service for nonpayment of any sums due the Company for Service rendered.
- 2.5.A.5 Upon termination of Service, and assuming deposits of the Customer are not applied as indicated in Section 2.5.A.2, the deposit will be credited to the Customer's account and any credit balance will be refunded after all amounts due the Company have been paid.

2. RULES AND REGULATIONS2.5 Charges and Payments for Service or Facilities (Cont'd)2.5.H Service Interruption Measurement2.5.H.1 Credit Allowance

In the event of an interruption of Service that exceeds the minimum requirements set forth in this paragraph, the Company shall make a credit allowance at the Customer's request for a pro rata adjustment of all Service charges billed by the Company for those Services rendered inoperative by the interruption. The credit allowance will be computed by dividing the duration of the service interruption measured in twenty-four (24) hour days, from the time the interruption is reported to the Company, by a standard thirty (30) day month, and then multiplying the result by the Company's fixed monthly charges for each interrupted Service.

The credit allowance formula is as follows:

$$\frac{A}{720} \times B = \text{Credit Allowance}$$

A= Duration of service interruption measured in hours.

B= Company's fixed monthly charges for each interrupted service.

A period of time less than six (6) hours shall not be credited. In no case shall the credit exceed the total monthly charges. No adjustments will be made for periods of noncontinuous interruptions, and no other liability shall attach to the Company in consideration of such interruption to Service.

2.5.H.2 Customer Interruptions

A credit allowance will not be given for interruptions caused by the negligence or willful act of the Customer, or interruptions caused by failure of equipment or service not provided by the Company.

2.7.A General

For the purpose of this Tariff, Special Services are deemed to be any Service requested by the Customer and provided by the Company for which there is no prescribed rate in this Tariff. Such contract or ICB rates will be filed with the Commission for its approval if required by applicable rules and regulations.

2.7.B When Applicable

Special Services rates apply in the following circumstances:

2.7.C Cancellation

If a Customer orders Service requiring special facilities dedicated to the Customer's use and then cancels its order prior to the Service start date, before completion of any minimum Service periods associated with such special facilities ordered by the Company or before completion of some other period mutually agreed upon by the Customer and the Company, a charge will be made to the Customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of the Customer by the Company and not fully reimbursed by installation and monthly charges. If, based on such an order, any construction has either begun or been completed, but no such Service provided, the nonrecoverable cost of such construction shall be borne by the Customer.

2.8 Special Pricing Arrangements

Customized Service packages and competitive pricing arrangements at negotiated rates may be furnished on a case-by-case basis in response to Customer request for such proposals or for competitive bids. Special Pricing Arrangements offered under this Tariff will be provided to the Customer pursuant to contract. Unless otherwise specified, the regulations for such arrangements are in addition to the applicable regulations and prices in other sections of the Tariff. Specialized rates or charges will be made available to similarly situated Customers on a non-discriminatory basis. Such contracts will be filed with the Commission for approval if required by applicable rule or regulation.

2.9 Special Construction

All rates and charges quoted in this Tariff provide for the furnishing of a Service when suitable facilities are available or where the construction of the necessary facilities does not involve unusual costs. When the revenue to be derived from the Service does not warrant the Company assuming the unusual costs of providing the necessary construction, the Customer may be required to pay all or a portion of such costs and to contract for the Service for a sufficient period to warrant the construction, depending upon the circumstances in each case. The Company's charges for such special construction shall follow the same guidelines for establishing charges for Special Services as described in Section 2.8 of this Tariff.
