PA P.U.C.
SECRETARY'S BUREAU

Dear Sir,

Reference "New area code needed in 717 area code by end of 2018"

P-2015-2510230

No sane person wants to deal with the work involved to change their area code information. Please consider how many entities would need to be contacted. Examples being, all credit card companies, banks, investment institutions, insurance companies, friends, relatives, business, air – car – hotel travel programs, on and on and on.

Plus: I am an Elected Supervisor in Conewago Twp. York County. Needing to change area code info would cost the Twp. a lot of time. So once again a no funded mandate.

I believe in "if you want to complain, offer a solution". My solution is to create the new area code number but overlap it with the current 717 area. Any new numbers requested beyond a certain date gets the new area code. All existing 717 area code customer's need not do anything.

Please don't allow the phone companies to make you believe this cannot be done. It can and has been. The phone companies are enjoying the profits, we the public should not pay for their issue with our time and resources. Also note that additional infrastructure (costly to phone company) can push the 2018 date out.

Thanks for your time,

Daryl E Hull
