Re: Possible Changes in the 717 Area Code

Dear Secretary:

I wanted to write with concerns regarding the possible changes to the 717 area code. Our business success hinges greatly on the ability of others reaching us by phone. Currently we have two Hershey exchange phone numbers ported to our new location in Harrisburg; that is how important keeping the same phone and fax numbers are to our business success.

I am extremely concerned about our phone numbers not being able to remain the same. I wanted to reach out regarding this change because we are a small business in a sea of other small businesses and many large businesses.

Please consider the impact that changing the area code would have on our business as well as others.

The economy has not been good this year and trucking has taken a hit. Our freight volume and therefore our revenue for this year has been greatly reduced from the last several years. Losing the ability for customers to reach out to us once freight picks up would be devastating. There are too many companies to try to change our phone number with and honestly, people in this business will just move on down the line to the next company that they can reach on the phone.

This is HUGE for us and I felt I needed to make my concerns known so hopefully we are not impacted by any changes.

Thank you for your consideration.

Sincerely,

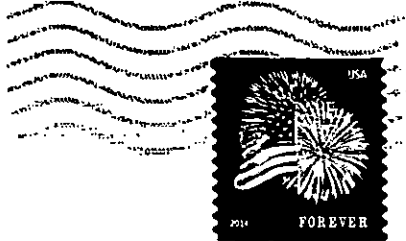

Susan T. Johns, President
Professional Freight Services, Inc.
