Re: Petition of PPL Electric Utilities Corporation for Approval of its Act 129 Phase III Energy Efficiency and Conservation Plan - Docket No. M-2015-2515642

Dear Secretary Chiavetta:

Enclosed for filing is an Errata to PPL Electric Utilities Corporation's ("PPL Electric" or the "Company") revised Phase III Energy Efficiency and Conservation Plan ("Revised Phase III EE&C Plan") that was filed on April 22, 2016 in compliance with the Pennsylvania Public Utility Commission's ("Commission") Order entered March 17, 2016, in the above-captioned proceeding.

PPL Electric is filing the enclosed Errata to correct the measure life assumption for home energy reports in the Revised Phase III EE&C Plan's Home Energy Education Program. It came to PPL Electric's attention that the Company incorrectly used a five-year measure life assumption for the home energy reports rather than a one-year measure life assumption.

The Errata contains redline and clean versions of all the tables in the Revised Phase III EE&C Plan affected by correcting the measure life assumption. Any textual references in the Revised Phase III EE&C Plan affected by these changes will be corrected in the Company's next EE&C Plan change filing. The change in the measure life assumption reduces the cost-effectiveness (benefit-cost ratio) of the Home Energy Education Program but does not impact the implementation cost of the program or the energy savings for compliance. The Home Energy Education Program and the portfolio of all energy efficiency programs remain cost-effective after the measure life correction. The changes to these tables do not affect any other aspect of the Revised Phase III EE&C Plan or the conclusions made therein.
