SECRETARY'S BUREAU

Dear PUC Secretary:

Although the period for formal written comments has expired, I understand the PUC will allow letters to be included as a part of this filing as noted above.

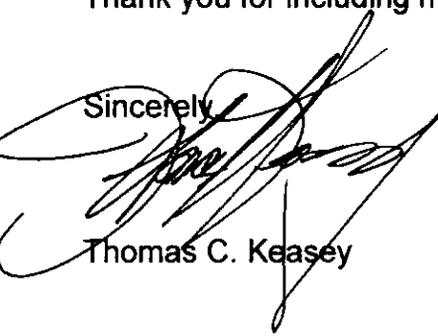

Thus, I am writing to offer my comments concerning the request by Neustar Inc., the North American Numbering Plan Administrator to make needed alterations to the 717 Area Code. I would support creating an "overlay" within the current 717 Area Code which would only involve new numbers that are created. The numbers of current customers would remain intact. The dialing of the 3-numbers of an Area Code for local calls might be seen as an inconvenience at first, but in time it will become just as common as dialing a toll-free number.

Creating a new Area Code would create larger problems for both the individual and business customers who would be shifted to the new Area Code.

No matter which option is selected, some inconvenience is to be expected.

Thank you for including my comments in the above noted proceedings

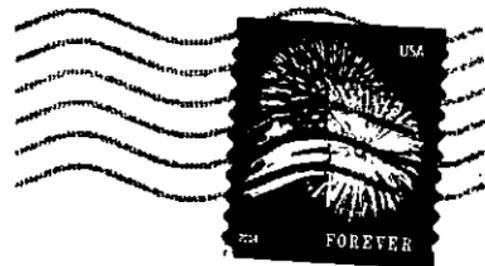

Sincerely,

  
Thomas C. Keasey
