Ms. Chiavetta,

I am writing to request a rate change for Susquehanna Valley Taxi Service, Inc.

After a conversation with Mr. Bingaman and Ms. Yohe in the compliance office, I was told that to add software metering, we need to request a rate increase to add the new Act 85 flexible rates with software, to our tariff.

Attached is a copy of the new tariff, with meter rates and software rates. You will notice the software is programed with the same rates as the meter, all though the software using GPS is programed per mile but equals the 1/7 mile increments programed in the meter. Our request is not to actually increase our rates, but to provide our customers the ability to choose, either software or credit, or meter and cash. It will also allow us to compete with TNC's using technology that are regularly popping up in our area.

Information required under 23.63. data required for filing proposed rate changes are:

Gross annual intrastate revenue for the recent fiscal year is \$0.00 as we have only been open for 3 weeks.

Dollar amount of the annual revenue for the rate increase is expected to be \$0.00 as we do not expect a difference with the meter or software because they are programmed with the same rates.

Total projected revenue goal is \$50,000 the first year.

Total projected operating expenses may exceed \$50,000 due to a startup business, running extended hours and competing with TNC's.

Respectfully Submitted,
Chris A. Peifer
