Objections:

PA American Water has meters installed to verify individual customers usage. Why then do they bill me for an average^{monthly} usage of 3,630 gallons, when in the past 2 years my average^{monthly} usage has never exceeded 1,800 gallons? They have the capability of determining actual usage and they should bill accordingly.

It's somewhat akin to paying for 30 gallons of gasoline when you've only pumped 15 gallons into your vehicle; don't you think?
