Re: Application of Transource Pennsylvania, LLC

Filed Pursuant to 52 Pa. Code Chapter 57, Subchapter G,

For Approval of the Siting and Construction of the 230 kV Transmission Line

Associated with the Independence Energy Connection – West Project

In Portions of Franklin County, Pennsylvania

Docket Number: A-2017-2640200

Dear Secretary Chiavetta:

I am writing in protest to the Transource Energy Project that is proposing to run through part of Quincy Township in Franklin County, Pennsylvania where I reside. According to the map, the towers are set to be erected within 1 mile of my home. By doing so, this will lower the overall value of my home and neighborhood that so many of us call home. I am also concerned about the health effects a high powered tower will cause. I don't think anyone can definitively say that there is no danger to our overall health. Lastly, there is no benefit to any party except Transource. It will not create jobs for the area hosting the project. This is a highly specialized field and therefore, out of state workers will be brought in to build this project.

In closing, I ask you, Secretary Chiavetta, would you want this project running through or near your family?

Respectfully,

Jennifer Bumbaugh
