Dear Sir or Madam:

Re: Docket No. <sup>A5</sup>2018-3004933

I recently received a notice that sewer rates for Pennsylvania American Water customers may increase substantially at the beginning of next year. They requested an average increase for residential customers of around 60%.

The large increase would be a significant burden for seniors on a fixed income. I urge the PUC to reject the 60% increase and instead allow a more modest increase of less than 10% per year until the full rate adjustment is realized.

Thank you for your consideration in this matter.

Very truly yours,

Roland Zabrecchi

cc. Honorable Andrew M. Calvetti
