Docket No. D-2019-3013109

STATEMENT OF CHAIRMAN GLADYS BROWN DUTRIEUILLE

Today the Commission releases its Annual Report detailing the results of its management audits and management efficiency investigations (MEIs) over the 12-month period ending June 30, 2019 (18/19 Fiscal Year). As I have stated before, the Bureau of Audits (Bureau) represents the Commission's frontline in economic regulation, assuring that utilities' operations are compliant with Commission directives while also evaluating operations for increased efficiencies. The Annual Report released today exhibits this hard work. In summary, during the 18/19 Fiscal Year the Bureau completed MEIs for six utilities. These MEIs resulted in the development of 98 recommendations which are projected to manifest annual savings and benefits valued at \$2.6 million. I would like to take the time to commend the Bureau for the work it has done over the course of the 18/19 Fiscal Year.
