EXHIBIT F35

AGREEMENT, DATED MAY 1, 1973, BY AND AMONG  
GLENOLDEN BOROUGH, DARBY CREEK JOINT  
AUTHORITY AND DELCORA

---

5/7/73

A G R E E M E N T

THIS AGREEMENT is made as of the first day of May, 1973 between Glenolden, a Borough of the Commonwealth of Pennsylvania ("Municipality"), Muckinipates Authority ("MA"), a Pennsylvania municipality authority, and Delaware County Regional Water Quality Control Authority ("DELCORA"), also a Pennsylvania municipality authority.

RECITALS

A. MA was organized by various Townships and Boroughs in Delaware County, and certain other municipalities have subsequently become members of it. Municipality is now a member.

B. Pursuant to various agreements between MA and its members, including especially an Agreement dated August 5, 1952 (the "Existing Members' Agreement"), MA has constructed and now operates for its members a system of interceptor sewers and pumping stations (collectively the "Existing Conveyance System") and a sewage treatment plant (the "Existing Plant").

C. By orders of the State Department of Environmental Resources dated May 5, 1972 various municipal authorities and industries in Delaware County, including MA, have been ordered to negotiate with DELCORA for the future treatment of sewage in regional facilities, specifically in the case of Darby Creek Joint Authority, Central Delaware County Authority and MA (collectively,

the "Eastern Authorities") at the Southwest Treatment Plant of the City of Philadelphia. Pursuant to said orders and various engineering studies and regulatory approvals, DELCORA has entered into separate but similar Service Agreements with each of the Eastern Authorities, including one dated as of May 1, 1973 between DELCORA and MA (the "Service Agreement") a copy of which has been delivered to Municipality.

D. DELCORA is also about to enter into an agreement with the City of Philadelphia (the "Philadelphia Agreement") for treatment by said City of sewage from the Eastern Delaware County Service Area of DELCORA (as defined in the Service Agreement), which includes the area served by the Eastern Authorities. Said Agreement will be approved by MA prior to its execution by DELCORA.

E. The Service Agreement between DELCORA and MA continues for a term of forty-nine years, with subsequent renewal rights, but the corporate existence of MA terminates prior thereto.

F. DELCORA intends to issue shortly its sewer revenue bonds to finance construction of the initial part of the new conveyance system required to transport sewage to the City of Philadelphia, and the term of said bond issue will exceed the present remaining life of MA. Although said bond issue will be indirectly secured in part by the County of Delaware, in order to obtain the best possible rate of interest on said bonds for the benefit of all parties being served by the facilities so financed,

it has been determined to enter this Agreement and similar agreements with other members of MA and the members of the other Eastern Authorities.

G. It is not intended by this Agreement to alter the present ownership of the Existing Conveyance System or the Existing Plant (except for a small tract to be conveyed for a pumping station) or the operation of the Existing Conveyance System.

H. The abovementioned orders and the Service Agreement both require that operation of the Existing Plant be terminated as soon as sufficient capacity becomes available in the regional facilities pursuant to the Philadelphia Agreement.

NOW, THEREFORE, the parties hereto, intending to be legally bound, hereby agree as follows:

1. Municipality hereby approves execution of the Service Agreement by MA, and recognizes DELCORA as the sole treatment agency for sewage emanating from that portion of Municipality's area served by the Existing Conveyance System.

2. DELCORA agrees to accept all sewage delivered to it from Municipality through the Existing Conveyance System and transport it to the City of Philadelphia for treatment, all pursuant to the Service Agreement and the Philadelphia Agreement.

3. Municipality agrees to pay to MA at least quarterly for prompt repayment to DELCORA, upon receipt of bills from MA, Municipality's proportionate share of the amounts payable by MA under the Service Agreement, said proportion to be based upon the

same formula and procedures specified in Article II of the Existing Members' Agreement. For purposes of said Agreement, the aforementioned payments will be deemed to be payments toward the cost of operation of the Existing Plant, but until termination of operation thereof will be in addition to the payments for said Plant, under the Existing Members' Agreement.

4. Pending the negotiation and execution of subsequent agreements concerning the Existing Conveyance System and related matters, Municipality hereby approves an extension of the terms of the Existing Members' Agreement, all other agreements between Municipality and MA relating to the Existing Conveyance System and the corporate existence of MA, to December 31, 2013, and will promptly enact an Ordinance authorizing an appropriate amendment of MA's Articles of Incorporation to carry out such extension of corporate existence. Upon the execution of such subsequent agreements in form satisfactory to Municipality, then the terms of existence of MA and of the Existing Members' Agreement may be terminated.

5. Amounts payable by Municipality hereunder will be payable solely from the current revenues of Municipality derived from the imposition of sewer rents and charges and other revenues from operation of the existing sewage collection system of Municipality, as it may be enlarged from time to time. Municipality agrees to continue operating said system and impose and collect rents and charges for the use thereof, which together with all other revenues from operation of said system will be sufficient to provide in each year at least 110% of the cost of operating said system, providing for any debt service and making the payments due under this Agree-

ment and any other agreements relating to sewage service. To the extent that sewer revenues of Municipality are insufficient in any year to comply with the foregoing requirement, Municipality will promptly increase its sewer rentals and charges by an amount sufficient to provide in the immediately following year for the deficiency and future compliance with such requirement.

6. Municipality hereby consents to the transfer by MA to DELCORA, for a nominal consideration, of land for a pumping station adjacent to the Existing Plant not exceeding two acres plus necessary easements.

7. Except as provided in the prior sections hereof, this Agreement shall not modify or affect any of the existing obligations between Municipality and MA, which will continue to own and operate all of its existing properties, except as specified above.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement by their duly authorized officers as of the date set forth above.
