(I) Indicates Increase (D) Indicates Decrease (C) Indicates Change

## 27. Distribution System Improvement Charge (DSIC)

**Customer Notice:** Customers shall be notified of changes in the DSIC by including appropriate information on the first bill they receive following any change. An explanatory bill insert shall also be included with the first billing.

**Residual E-Factor Recovery Upon Reset to Zero:** The utility shall file with the Commission interim rate revisions to resolve the residual over/under collection or E-factor amount after the DSIC rate has been reset to zero. The utility can collect or credit the residual over/under collection balance when the DSIC rate is reset to zero. The utility shall refund any over-collection to customers and is entitled to recover any under-collections as set forth in the Audit/Reconciliation Section. Once the utility determines the specific amount of the residual over or under collection amount after the DSIC rate is reset to zero, the utility shall file a tariff supplement with supporting data to address that residual amount. The tariff supplement shall be served upon the Commission's Bureau of Investigation and Enforcement, the Bureau of Audits, the Office of Consumer Advocate, and the Office of Small Business Advocate at least ten (10) days prior to the effective date of the supplement.

**Public Fire Protection:** The DSIC will not apply to public fire protection customers.

27.1 In addition to the charges provided in this tariff, a distribution system improvement charge of 0% will apply to all charges for service, except public fire protection on or after the effective date of this tariff shown below. (D)

(I) Indicates Increase (D) Indicates Decrease (C) Indicates Change
