PPL acct #

I am writing to let you know that I was grossly overcharged in Dec 2022, Jan 2023, Feb 2023, & even March. You can clearly tell if you look at my usage for those bills and then compare it to those months for the years before. Dec was literally double ☹ Please help those of us that this happened to. I am always one to pay my bills and did so despite being ripped off. Thank you for any help you can provide. My address & phone number are on the back of this letter if you need to contact me with any further questions.

Thank You,

Jillian
