PUC Docket: M-2023-

3038060

PUC

PA PUBLIC UTILITY COMMISSION

SECRETARY'S BUREAU

On January 20, 2022 I signed a contract with Ppl, Sunnova, & Trinity Solar to install solar panels on our home. Panels are to produce 13,803 kwh thereby completely offsetting our Annual Usage of 13,732 kwh.

In 2022, our Annual Usage ranged from 12,882 → to 5,906 kwh. In 2023, we used between 9,193 → 13,104 kwh. Despite our usage being below the system's estimated production, we continued to get very high electric/ utility bills. When I asked about the high bills, Trinity Solar blamed Ppl & me. "Were you using the clothes dryer when it's dark outside?" one agent asked me. I was also told that the panels would need a solid year to perform correctly. Well, the panels had all of 2023 to charge & my current utility bill for February 2024 is \$ 608.64. Trinity Solar's Assistant District Manager, Keith Townsend, could never be reached & the reasons why were pathetic & laughable, they could never find him. When I became suspicious, I notified the friend who referred me to solar, Nea Griffin.

To date, Trinity continues to blame me for the huge surges in electric bills, however I have been using the same electric heaters since 2020/2021. I should not be getting these huge bills. I cannot afford them, nor can I afford a lawyer. Please help me!

Sincerely,

Colette J Corby

Down payment	Upfront Payment (if applicable)	Rate per kWh – Year one (Includes ACH discount)	Monthly payment – Year one (Includes ACH discount)	Agreement term
--------------	---------------------------------	---	--	----------------

Trinity Solar and Sunnova will install a **13.600-kW** solar system on your home.

Your system is estimated to produce **13,803 kilowatt hours** in the first year of service. **(Schedule A)**

Your agreement includes your down payment of **\$0.00**.

Your monthly payment will never increase by more than approximately **2.9 %** per year. **(Schedule A)**

Trinity Solar will complete the design and engineering drawings for your system, and Sunnova will review the final design to ensure it meets our high-quality standards. **(Sec. 5(b))**

Your system activation may experience delays as a result of the process for obtaining the necessary building permits and utility approval for net metering and interconnection of your system. Once your system is installed, it must still pass utility inspection before you can turn it on.

You will receive a **10% discount** each month when you set up automatic payments from your checking or savings account (pricing above already reflects discount). **(Sec. 4(e))**

You may renew this agreement for up to two successive five-year terms at the end of the original **25-year** term. **(Sec. 10)**

If you sell your house, you may transfer the agreement and warranties to the new homeowner, provided that the new homeowner meets Sunnova's credit requirements. **(Sec. 11)**

If you choose not to renew the agreement at the end of your **25-year term**, Sunnova will remove the system at no cost to you. Conditions apply. **(Sec. 17)**

This agreement requires the parties to resolve their disputes by arbitration rather than by lawsuits in court; jury trials and class actions are not permitted **(Sec. 19)**

Your agreement gives you a **7-day** cancellation period without incurring any fees.

Any savings estimate is dependent on the energy usage information you provided us and may change as your usage and utility rates change over time.

Your solar system is covered by the **Limited Warranty** for the term of the agreement. **(Exhibit 2)**

Once your system is turned on and operating, you will receive two monthly electricity bills: one from **PPL Electric Utilities - PA** and one from Sunnova.

When the electric grid goes down, your solar power system will not work.

I have reviewed, understand and agree with the above agreement terms and process.

The pricing provided in this Easy Plan™ Power Purchase Agreement (PPA) is valid until **February 18, 2022**

Understanding Your Bill

Customer Charge - The basic service charge to partially cover costs for billing, meter reading, equipment and service line maintenance. If you select a new service, all the name, address and telephone number for both your distribution and service company will appear on your bill.

Kilowatt-hour (kWh) - The basic unit of electric energy for which most customers are charged in cents per kilowatt-hour. A kilowatt-hour is the equivalent of using ten 100-watt light bulbs for one hour.

kWh Delivered - The amount of electricity we delivered to you for your use.

kWh Received - The amount of electricity you returned to the grid.

Sory

~~We burned coal in the house because we couldn't afford to use electricity. Still true today~~

JAN 22, 2023 AT 9:53 PM

~~Keith the electric bill really took up off guard. Sorry about the weekends being out of texts (and his auto correct, plans or noid became stunts growth). Any...y, I will... quality for the County Assistance LIHFAI~~

FEB 1, 2023 AT 11:27 AM

Good morning Colette I understand the frustration. I asked the monitoring team to confirm system production and they did confirm All is functioning correctly.

Did you see the new story about PPL incorrectly estimating their customer bills and sending out huge bills compared to usual? That's what is happening here.

Are you able to send a picture of your most recent bill along so I can verify that?

FEB 1, 2023 AT 12:32 PM

Colette:

Your solar panel system is not working out. Ppl received 50 kWh from the solar panels this month. There isn't any banked balance to last the rest of the winter. So, my bill is all electric and will stay that way until the summer sun recharges the panels. They said the panels don't work at night or during the winter. I will run into this problem every year !! Besides going on welfare for heat, do you have any solutions? (Back up generator to work at night, or more panels, etc?) Please get back to me ASAP. I don't want to take further actions on this matter, but I will if I have to.

Can I watch the game in your yard with you guys?

We are not doing it this week. Louie has work so we couldn't set it up. Sorry. If you go on skook news on fb they will have it live streamed.

Ahh bummer!
Skook streaming (yeah I know.. but that means listening to Fred talk thru the whole game 😞) (sigh)

DEC 30, 2021 AT 8:18 PM

Colette:

Can you please refer me to your solar panel representative. The internet has me going in circles.

JAN 3, 2022 AT 4:46 PM

look what i found ... <https://photo.2wik.com/wf85hpvjw>

I NOTIFIED MY Referral FRIEND

JAN 26, 2023 AT 3:49 PM

Colette:

Did you ever get the referral money for us going solar? We have not received any money from our referrals? This week I wrote Keith several times about the problems we are having with the solar panels. Keith is not reading my texts, nor responding to me in Messenger. Did u run into issues with Keith?

JAN 26, 2023 AT 4:23 PM

Contact Brooke at [732-203-5403](tel:732-203-5403).

What kind of problems are you having?

Thanks, I'll try that number. Our ppl bill went from \$80 some dollars to over \$ 660 in one month. We didn't plug anything new in.

Have you received referral money?

JAN 26, 2023 AT 4:58 PM

I did get 2 checks. Not sure who they were from

ok

MAY 3, 2023 AT 8:54 PM

They have since changed agents. I have not received any checks from the referrals I had.

Exciting!
