Implementation of the Alternative Energy  
Portfolio Standards Act of 2004

Docket No. M-00051865

**Re: Interim Process for Qualification of Alternative Energy Systems**

On January 26, 2006, the Commission issued a Secretarial Letter at this docket regarding the qualification of alternative energy systems. An attached spreadsheet identified certain facilities that had been qualified for alternative energy system status. Attached to this Secretarial Letter is a revised spreadsheet that includes some additional facilities that have been qualified as alternative energy systems. This revised spreadsheet was also distributed via electronic mail on January 26, 2006, to this docket's service list.

Sincerely,

James J. McNulty  
Secretary

Note (1) Renewable Fuel Codes: BLQ=Black Liquor, CMG=Coal Mine Methane Gas, HPS=Hydro Pump Storage, LFG=Landfill Gas, MSW=Municipal Solid-Waste, OBG=Other Biomass Gases, OBG=Other Biomass Liquids, SUN=Solar, TDW=Tire Derived Fuel, WAT=Conventional Hydro, WC=Waste/Other Coal, WDS=Wood/Wood Waste Solids, WND=Wind

Note (2) Non-Renewable Fuel Codes: BIT=Bituminous Coal, DFO=Distillate Fuel Oil, NG=Natural Gas, PC=Petroleum Coke, RFO=Residual Fuel Oil

Note (3) A State Certification Number is to be provided by each state for which the facility qualifies as a RPS-eligible resource. The suggested format is SS-NNNN-FFF-TT-AC, where:  
 SS = State for which the resource is RPS-eligible  
 NNNNN = a five digit identifier for the facility (unique within the state)  
 FFF = Fuel Type Code  
 TT = the RPS Tier or Class for that facility (e.g., I, II, or S for solar).  
 AC = optional suffix to indicate if annual certification is required (blank if not required).  
 For example, NJ-12345-MSW-II-AC
