Sample Disclosure Statement Format

This is an agreement for electric generation service, between (*EGS name*) and (*customer's name and address*).

Background

We at (*EGS name*) are licensed by the Pennsylvania Public Utility Commission to offer and supply electric generation services in Pennsylvania.

Our PA PUC license number is A-XXXX-XXXXXXX.

We set the generation prices and charges that you pay. The Public Utility Commission regulates distribution prices and services. The Federal Energy Regulatory Commission regulates transmission prices and services.

Include one of the two following billing options:

You will receive a single bill from (*billing agent name*) that will contain (*Electric Distribution Company name*) charges and (*EGS name*) charges.

You will receive a separate bill from (*EGS name*) for generation charges and a separate bill from (*Electric Distribution Company name*) for its charges.

Right of Rescission - You may cancel this agreement at any time before midnight of the third business day after receiving this disclosure. You can contact us by phone, in writing or electronically (if available) to cancel this agreement. See Section 11 for how to contact us.

Definitions

(Use the terms in accordance with the glossary posted at www.papowerswitch.com.)

Generation Charge - The charge for producing electricity.

Transmission Charge - Charge for moving high voltage electricity from a generation facility to the distribution lines of an electric distribution company.

Non-basic Charges - Define each non-basic service being offered.

Terms of Service

1. (a) Basic Service Prices - *Itemize Basic Services you are billing for and their prices.*

FIXED PRICE:

You will pay a fixed price of (*EGS price*) per kWh for electric generation service.

VARIABLE PRICE:

You will pay a variable price that can change (*monthly, quarterly, etc.*). The price for the first billing period will be (*EGS price*).

If the price can change each billing period, this needs to be disclosed in a larger type size.

The supplier shall disclose the factors the supplier will rely upon to establish the variable price.

Describe when and how the customer will be notified of price changes. If the customer will not know the price until the time of billing, this must be disclosed in a larger type size.

Suppliers are to include any variable pricing conditions and limits. If there are no limits, the EGS shall clearly and conspicuously state that there is no limit on how much the price may change from one billing cycle to the next. Information on the limits of price variability, or the lack of limits, must appear in a larger type size.

More information about this variable price product, including what this price has been for the past 24 months, can be found at (www.companywebsite.com) or you can call ((XXX) XXX-XXXX). However, please remember that past prices do not indicate present or future prices. (*If a price history is not available and the offer is materially different from other offers made by the supplier, the supplier shall disclose this fact*).

INTRODUCTORY PRICE:

You will pay a fixed price of (*EGS price*) per kWh for electric generation service for the first (number) billing periods. You will then pay a fixed price of (*EGS price*) per kWh for electric generation service for the remaining billing periods.

NON-kWh PRICE:

If a customer is not to be billed under a price per kilowatt-hour structure, clearly explain the pricing structure and what the customer’s price for generation charges will be for given period of time.

TIME-OF-USE PRICE:

Clearly explain the pricing structure and what the customer’s price for generation charges will be for specific time periods. This information should be presented in a table-format.

Example:

Time	8:00 am – 5:00 pm	5:00 pm to 9:00 pm	9:00 pm to 8:00 am
Price Per kWh	X.XX cents	X.XX cents	X.XX cents

For all products: Explain what is included in this price. The EGS’s basic service price should include everything that is included in the EDC’s Price-to-Compare. Suggested language: “This price includes Transmission Charges (if applicable) and estimated Total State Taxes, including the Gross Receipts Tax, but excludes applicable state and local Sales Tax.” Contact the electric distribution utility to determine if transmission charges are included in their price-to-compare.

If the product:

- Changes price depending upon customer usage (such as a declining or inclining block rate structure), or;
- Includes add-on fees, or;
- Is a fixed monthly price (flat unlimited price) that does not change based customer usage; the following table displaying the resulting per-kWh price at three usage levels must be included:

Generation Price at Various Usage Levels	Usage:	500 kWh	1,000 kWh	2,000 kWh
		XX.X	XX.X	XX.X

(b) Non-basic Service Prices - Itemize Non-basic Services you are offering and their prices.

2. Duration of Agreement

Fixed Duration Agreement – You will buy your electricity generation service for the above address from (EGS) beginning on the date set by your electric distribution company (EDC) and will continue for (XX) months (or billing cycles).

Month-to-Month Agreement – You will buy your electricity generation service for the above street address from (EGS) beginning on the date set by your electric distribution company (EDC) and will continue on a month to month basis.

3. Special Terms and Conditions - List and explain all that apply.

- Sign-up bonuses
- Add-ons
- Limited time offers
- Other Sales Promotions
- Exclusions

4. Special Services - Provide explanation of price, terms and conditions.

5. Penalties, Fees and Exceptions - List any that apply including a late payment charge.

Penalties/Fees assessed on a customer for early termination of the agreement should be in plain language and easy for the customer to understand. The penalty/fee should be listed as a dollar amount or explained so that the customer can easily determine the amount of the penalty. The explanation must include a statement advising the customer that the customer will not be subject to a penalty of fee if the customer terminates the contract at any time between the date the options notice is issued and the expiration of the contract. The print size for this section must be larger than the print in the rest of the disclosure, but not less than 12-points.

6. Cancellation Provisions - *This category may consist of both customer-initiated cancellation provisions and supplier-initiated cancellation provisions.*

Examples:

Company-Initiated Cancellation – If we cancel this agreement for any reason other than for customer non-payment, we will follow applicable rules in providing notice to you. See Section 7 for an explanation of the notices you will receive prior to cancellation.

Customer-Initiated Cancellation – If you cancel this agreement before the end of the initial term, you will owe us for amounts unpaid up to the date of cancellation and we will charge the early cancellation fee mentioned above.

Customer Move – If the customer moves from the address listed above to another utility service territory, this agreement is cancelled.

7. Renewal Provision/Agreement Expiration/Change in Terms

Fixed-duration contracts - include the following notification:

If you have a fixed duration contract that will be ending, or whenever (EGS name) wants to change the contract, you will receive two separate notices before the contract ends or the changes happen. You will receive the first notice 45-60 days before, and the second notice 30 days before the expiration date or the date the change becomes effective. These notices will explain your options.

8. Contract Assignment

If the contract is assignable, the EGS shall inform the customer of this and explain that prior to any contract assignment, the EGS will provide notice to the customer with the name of the new EGS, the contact information for the new EGS, the estimated month and year that the assignment is expected to occur, and language informing the customer that contract terms and conditions will remain unchanged.

9. Consent to Obtain Customer Information

If the EGS intends on obtaining customer account information from the EDC, the EGS shall disclose to the customer of the specific type of information that may be obtained, such as usage data, the purpose for obtaining this information and that the customer is consenting to the EDC releasing this information by entering into this contract. The EGS shall also inform the customer that the EGS will maintain the confidentiality of a customer's personal information including the customer's name, address, telephone number, electric usage and historic payment information, as required by applicable Commission regulations and Federal and State laws.

Electronic Data Interchange and Internet Requirements

Prior to doing business in an EDC service territory, all EGS suppliers, and any broker/marketers that wish to use the Electronic Data Interchange (EDI), must meet the EDI certification requirements of the EDC. Certification is a testing process using the Commission approved Internet protocol. To initiate this process, the EGS is encouraged to contact the EDC as early as possible after filing an application for a license with the Commission, since certification may require as many as four months to complete and customer service contract dates may not commence prior to certification. EDC requirements of new suppliers may be found on the respective EDC home web page. Pennsylvania's industry stakeholder group the Electronic Data Exchange Working Group (EDEWG) develops and maintains the EDI transactions and related business practices, which are found on the Pa. PUC website at http://www.puc.pa.gov/filing_resources/issues_laws_regulations/electronic_data_exchange.aspx. The EDEWG meets telephonically the first Thursday of each month at 2:00pm ET to discuss EDI change control requests and other issues.

To keep current with Pennsylvania EDI practices and policies, a newly licensed EGS is strongly encouraged to participate in the EDEWG by contacting the following:
