Note (1) Renewable Fuel Codes: BLQ=Black Liquor, CMG=Coal Mine Methane Gas, HPS=Hydro Pump Storage, LFG=Landfill Gas, MSW=Municipal Solid Waste, OBG=Other Biomass Gases, OBG=Other Biomass Liquids, SLW=Sludge Waste, SUN=Solar, TDF=Tire Derived Fuel, WAT=Conventional Hydro, WC=Waste/Other Coal, WDL=Wood Waste Liquids, WDS=Wood/Wood Waste Solids, WND=Wind

Note (2) Non-Renewable Fuel Codes: BFG=Blast Furnace Gas, BIT=Bituminous Coal, DFO=Distillate Fuel Oil, OG=Other Gas, NG=Natural Gas, PC=Petroleum Coke, RFO=Residual Fuel Oil, WO=Waste/Other Oil

Note (3) A State Certification Number is to be provided by each state for which the facility qualifies as a RPS-eligible resource. The suggested format is SS-NNNN-FFF-TT-AC where:

SS = State for which the resource is RPS-eligible
NNNN = a five digit identifier for the facility (unique within the state)
FFF = Fuel Type Code
TT = the RPS Tier or Class for that facility (e.g., I, II, or S for solar).
AC = optional suffix to indicate if annual certification is required (blank if not required).
For example, NJ-12345-MSW-II-AC
