Dear Chairman Brown Dutrieuille,

As we head into this winter heating season, we recognize the effects of the COVID-19 pandemic which has put many households in a financial crisis. Citizens' Electric Company will assist those low-income customers, as well as other customers who are struggling to pay their winter electric bills by taking the following actions:

- **Urging income-qualified consumers to apply for assistance from programs designed to help make energy bills more affordable, including Customer Assistance Programs, Low-Income Usage Reduction Programs (LIURPs) and budget billing.** *Although Citizens' does not have a CAP program, Citizens' Customer Service Representatives ("CSRs") provide information about the benefits of budget billing and third-party notification. This information is also distributed through Company newsletters and bill inserts as well as the Company's website.*
- **Reminding households that they may be eligible for enhanced assistance this year under the federal Low-Income Energy Assistance Program (LIHEAP) and the Emergency Rental Assistance Program (ERAP).** *Citizens' CSRs provide information about the availability of Dollar Energy, our hardship fund for customers that are struggling to pay their electric bill, and about LIHEAP. Our CSRs also give information regarding our community-based organizations ("CBOs") which can provide assistance to our low-income customers, as well as information about the ERAP program. We also post frequent advisories to social media regarding the availability of assistance.*
- **Exercising flexibility when establishing payment arrangement plans for all consumers, including consideration for circumstances such as lost or reduced income, extended illness of a household member, or increased household size and accompanying expenses.** *Citizens' does exercise leniency with all customers when providing payment arrangements. We consider changes in circumstances such as lost or reduced income, extended illness of the ratepayer or a household member, or increased household size and accompanying expenses when we are setting up those arrangements. CSRs use good judgement to establish reasonable payment arrangements for customers struggling to pay their electric bills. Adjustments can be made to this agreement as circumstances change. We give our low-income customers every opportunity to make a reasonable payment arrangement to avoid termination.*

- **Educating consumers about conservation and ways to reduce energy usage.** *Citizens' CSRs provide information regarding energy conservation and weatherization programs. CSRs refer to SEDA-COG's Home Weatherization Program. This information is also routinely provided in Company newsletters. There are energy efficiency and weatherization booklets and brochures available in the Company office which are mailed to customers upon request. The Company's website also has a great deal of useful energy conservation information including energy use calculators to help customers determine the relative magnitude of various energy users in their home, including heat sources, TVs, lighting and appliances. These online tools also offer tips on actions our customers can take to reduce their bills through improved efficiency.*
- **Increasing corporate donations to and fundraising for utility Hardship Funds and other local programs that assist consumers who need help paying their utility bills.** *The Company increased its donations in 2020 and continued that level of contributions in 2021 to certain local agencies that aid our customers in paying their bills. We provide information about donating to the Dollar Energy fund using bill messages, inserts, social media posts, our website, and customer newsletters and we match customer contributions up to \$5,000.*

If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,
