AGENDA NO. 3064961-TUS
DOCKET NO. M-2026-3064961

NAME AND SUBJECT: **ELECTRIC DISTRIBUTION COMPANY INTERIM RESOURCE ADEQUACY SERVICE PRE EMERGENCY AND EMERGENCY RESPONSE PROVISIONS**
On 10/1/26, the Commission entered a Tentative Order seeking comments on a proposed requirement that all electric distribution companies update their pre-emergency and emergency load control procedures to incorporate Interim Resource Adequacy Service (IRAS) and to ensure that data centers are not classified as critical load exempt from curtailment during these events. In addition, the Commission sought comments on the implementation of a PJM Interconnection, L.L.C. (PJM) Tariff filing with the Federal Energy Regulatory Commission (FERC) regarding its proposed IRAS to address the rapid energy demand growth imposed by new large load data centers. On 10/9/26, FERC issued its order on PJM's large load filing which accepted PJM's 50 MW Large Load definition and its new Large Load Registry, but rejected its IRAS, Bring Your Own New Capacity, and the related capacity market design changes as filed. The Tentative Order and accompanying Appendix were published in the Pennsylvania Bulletin on Saturday, 10/17/26. Interested stakeholder were instructed to submit comments to the Tentative Order no later than thirty days from the date of publication with replies due no later than 45 days from the date of its publication.

RECOMMENDATION: That the Commission adopt the proposed Clarification Order.
