**Q. SDR-TAX-2** Please indicate whether FTY taxes include any assessments or refunds related to prior period taxes. Indicate the amount, the dates covered by the assessment or refund and the period in which the related income or expense was included, and the date the assessment or refund was reflected on the Company's books.

Explain whether reserves had been established prior to being billed for any assessment or any account receivable had been recorded prior to the Company's receiving a refund.

**A. SDR-TAX-2** The future test year (FTY) tax claims do not include any assessments or refunds related to prior period taxes.

Reserves and accounts receivable have been established and recorded on PECO Energy Company's financial statements according to Generally Accepted Accounting Principles (GAAP). The reserves and accounts receivables are not reflected in future test year taxes.

- Q. SDR-TAX-3 Has the Company applied for or is it attempting to negotiate refunds from federal, local, or state taxing authorities? If so, please provide a full explanation and quantify the possible refund or abatement in question. Provide similar information if additional assessments are anticipated.
- A. SDR-TAX-3 Refer to Attachment SDR-TAX-3 for an excerpt from the Company's 2009 Form 10-K, Footnote 10, regarding the Company's refund claims with respect to competitive transition charges.

**ATTACHMENT  
SDR-TAX-3**

***Competitive Transition Charges (Exelon, ComEd and PECO)***

Exelon contends that the Illinois Act and the Competition Act resulted in the taking of certain of ComEd's and PECO's assets used in their respective businesses of providing electricity services in their defined service areas. Exelon has filed refund claims with the IRS taking the position that CTCs collected during ComEd's and PECO's transition periods represent compensation for that taking and, accordingly, are excludible from taxable income as proceeds from an involuntary conversion. If Exelon is successful in its claims, it will be required to reduce the tax basis of property acquired with the funds provided by the CTCs such that the benefits of the position are temporary in nature. The IRS has disallowed the refund claims for the 1999-2001 tax years. Exelon has protested the disallowance and is currently discussing the refund claims with IRS Appeals. The years 2002-2006 are currently under IRS audit and Exelon expects the claims for those years to be disallowed.

Under the Illinois Act, ComEd was required to allow competitors the use of its distribution system resulting in the taking of ComEd's assets and lost asset value (stranded costs). As compensation for the taking, ComEd was permitted to collect a portion of the stranded costs through the collection of CTCs from those customers electing to purchase electricity from providers other than ComEd. ComEd collected approximately \$1.2 billion in CTCs for the years 1999-2006.

Similarly, under the Competition Act, PECO was required to allow others the use of its distribution system resulting in the taking of PECO's assets and the stranded costs. Pennsylvania permitted PECO to collect CTCs as compensation for its stranded costs. The PAPUC determined the total amount of stranded costs that PECO was permitted to collect through the CTCs to be \$5.3 billion. PECO has collected approximately \$4.4 billion in CTCs for the period 2000 through December 31, 2009. PECO will continue billing CTCs through 2010.

ComEd and PECO have recognized tax benefits associated with the CTC refund claims and have accrued interest on this tax position. Exelon's, ComEd's and PECO's management believe that the issue has been appropriately recognized; however, the ultimate outcome of this matter could result in unfavorable or favorable impacts to the results of operations and financial positions as well as potential favorable impacts to cash flows, and such impacts could be material. Management has considered the progress of this matter before IRS Appeals and determined that there are no new developments that lead to a remeasurement of the amounts recorded. Based on management's expectations as to the length of the appeal, it is reasonably possible that the unrecognized tax benefits related to this issue may significantly increase or decrease within the next 12 months. It is not possible at this time to predict the amount, if any, of such a change.

- Q. SDR-TAX-4 Please provide workpapers and supporting documentation showing the derivation of the future test year level of each tax other than income taxes reflected in the Company's filing.
- A. SDR-TAX-4 Refer to Exhibit RLO-1, Schedule D-18, Pages 1-3.

- Q. SDR-TAX-5 Please provide a breakdown by source or timing difference of the deferred income tax balances which have not been included in rate base.
- A. SDR-TAX-5 Refer to Attachment SDR-TAX-5 for the breakdown.
