

Q. The effects of the proposed rates on monthly billing conditions should be provided as follows:

1. Residential Bill Comparisons

For each rate applicable to residential service, provide a chart or tabulation which shows the dollar and percentage effect of the proposed rate base rate on monthly bills ranging from the use of zero KWH to 5,000 KWH at appropriate intervals.

2. General Bill Comparisons

For each rate that requires both a billing demand (KW) and KWHs as the billing determinants, provide a tabulation or graphical comparison showing the percentage effect of the proposed rate base on monthly bills using several representative demand (KW) levels, the monthly KWH for each demand selected to be in load factor increments of 10% starting at 0% and ending at 100% (730H), or by hours use increment that covers approximately 95% of the bills.

A. 1. Attachment IV-D provides a graphical comparison of PPL Electric's residential rates followed by a tabulation which shows the dollar and percentage effect of the proposed distribution rate increase on monthly bills.

2. Attachment IV-D also provides a graphical comparison of PPL Electric's general service rates followed by a tabulation which shows the dollar and percentage effect of the proposed distribution rate increase.
