

R-2010-216/575

It is beyond me why person Citizens,
like me, were told a cost of living increase
was not necessary. are they kidding? I
now hear PECO also wants more
money! I guess we are not entitled to
a stimulus package either - we don't
need it!!?

Some one has their head up their
butt! Oh, I forgot, my net also wants
more money. and why? tell me again, why
BIA houses are given to wealthy people?

Dear Sir:

Consumer Services
CAC Division

I would like to protest the proposed
rate increase. During the past year,
just about everything has been increased:
Food prices, utilities, car insurance,
price of gas, auto club fees, and seems
like everything has improved somehow
more money for something! My checks
for more money! Charities call!
