I would like to express my disagreement to the proposed rate increases requested by PA American Water on April 23<sup>rd</sup>, 2010.

The increase proposed is higher than any local surrounding areas for waste water.

When PA American Water purchased the company from Donigal, it was proclaimed that customers would see an average of 30% decrease in rates. In fact, I pay 25% → 30% more in Claysville than I did in Washington (10 miles away). My bill has not decreased + the proposed increase of over 142% is simply outrageous.

Please consider the working families & retirees on a fixed income when making this decision.

Respectfully,  
Katrina L. Lee  
240 Wayne St  
Claysville, PA 15323
