Public Notice

Transmission Line Construction

PPL Electric Utilities Corporation ("PPL Electric") plans to construct a new 138/69 kilovolt (kV) Transmission Line to reinforce its existing bulk power system currently serving central Dauphin County. This new Transmission Line will be built within existing and recently-acquired right of way of PPL Electric. This new line is located in South Hanover and Lower Paxton Townships, Dauphin County.

The company will construct this transmission line with a power line capable of carrying 138 kilovolts (kV) in the future as demand grows. Initially, it will operate at 69 kV. The new line will extend from PPL Electric's new Copperstone Substation to an existing transmission line of PPL Electric located along Copperstone Road, a distance of 0.53 miles.

For more information about this project, please contact James Nulton at 717-257-5608.

On March 18, 2010, PPL Electric Utilities filed a "Letter of Notification" with the Pennsylvania Public Utility Commission (PUC), which must approve the transmission line before work can begin. A copy of this "Letter of Notification" is available for public inspection on weekdays during business hours at the following locations:

South Hanover Township Building
111 West Third Street
Hershey, Pa 17033-2498

Lower Paxton Township Building
425 Prince Street
Harrisburg, Pa 17109

If you wish to participate in the process before the PUC, you should contact within 15 days:

James J. McNulty, Esquire
Secretary
Pennsylvania Public Utility Commission
P.O. Box 3265
Harrisburg, PA 17105-3265

As a reference aid, be sure to include the project's "docket number," which is A-2010-2164657.
