To whom it may concern;

We are writing in regards to the letter we received concerning
The Penn American Water, Claysville Wastewater rates.
That much of a increase would hurt a lot of customers, I know we
Can not afford that much more in prices along with the water rates.
We would probably be having shut off notices all the time, and never be caught
Up.

This much of a rate increase is high way robbery ! We were
Told we all this started that we had to get the waste water hooked
Up, Water hook up was not mandatory if you lived with a well, we had a well but lost our
water when they put the water lines past our house, so we had no
Choice then, to get water also. When Penn American Water
Bought the Claysville company we all were hoping for a break in
High rates it did for what maybe 1 year? This just is not fair.

Yes I know the treatment plant needs work, I live by that plant and some days
It is very smelly.....you can not be outside. BUT we can not afford these
Rate increases.

Please concenter other options at this time.

Thank you for hearing us out.

Sincerely

May 13-2010
