Dear Sir,

I am a customer of PECO electric services and would like to present my objection to the May 30, 2010 rate increase that PECO is requesting with the PUC.

I have just received my April bill which included a notice of the proposed electric rate changes. Also in that billing was a brochure describing the price increases that are scheduled to take place on January 1, 2011, another 10% rate increase. Pennsylvania consumers are looking at an over 20% increase in their monthly electric bills. In the current economy, with consumers losing jobs, having hours or pay rates cut and increased property taxes, this type of increase is deplorable and another way for a large corporation to pad its profits.

I am requesting that the PUC help the consumers during these trying economic times and deny the proposed increase for PECO.

Thank you for your time and consideration on this matter.
