 Transmission Line Construction**

PPL Electric Utilities Corp. (PPL Electric) plans to construct an approximate 160-foot 115 kV single-circuit transmission tap line to serve a new 115-12 kV substation. The proposed tap line will connect an existing Met-Ed transmission line with the substation. The project is located along Gun Club Road in Lower Windsor Township, York County.

This project is required to meet the increasing demand for electricity and improve service reliability to PPL Electric customers in central eastern York County.

If you would like more information about this project, please contact John M. Levitski at 717-560-2533.

On April 27, 2010, PPL Electric filed a Letter of Notification with the Pennsylvania Public Utility Commission (PUC), which must approve the transmission line before construction of the line can begin. A copy of this Letter of Notification is available for public inspection on weekdays during business hours at:

Lower Windsor Township Municipal Building
 2425 Craley Road
 Wrightsville, PA 17368

If you wish to participate in the process before the PUC, you should contact within 15 days:
