To Whom It May Concern:

Consumer Services
CAC Division

I am writing to protest the proposed wastewater rate changes requested by Pennsylvania American Water filed on April 23, 2010.

The requested rate changes would result in a nearly 230% increase in wastewater billing for a typical residential customer. The economy in 2010 has not yet recovered from the severe downturn of the last year. Real estate especially continues to struggle, with mortgage foreclosures still at an all-time high. Imposing such a rate increase at this time will only add to the hardships already being felt by many homeowners, and will make it that much more difficult for homeowners to remain in their homes and make ends meet.

I urge the commission to reject this rate increase.

Thank you for your consideration.

Sincerely,

Michael Williamson
Homeowner
