Dear Sir,

R-2010-2155613

Please do not allow the increase in the gas prices. We have all been affected by the horrible economy and an increase for natural gas will just add to the problem. I know that there is no shortage of natural gas, especially in Western Pa! The only reason for raising the prices would be greed.

Please, as the Pa. Utilities Commission you have the opportunity to let the common peoples voice be heard.

I write this to you with others in mind for I do not use natural gas, though I do own rental properties where natural gas is the only option. I do my part to keep rent low enough so that people can afford utilities I only wish that you do your part and lower the prices!!!

I pray to god that you do the right things!

god bless you.
