10. **PROPOSED SERVICES:** Describe in detail the services which the Applicant proposes to offer. If proposing to provide more than one category in Item #9, clearly and separately delineate the services within each proposed operation. If proposing to operate as a facilities-based Competitive Local Exchange Carrier, provide a brief description of the Company's facilities.

**IntelPeer will provide fully managed, hosted, on-demand peering infrastructure to directly exchange voice traffic over IP or legacy TDM networks between any application and any telephony device. Specifically, IntelPeer seeks authority to provide facilities-based and resold local exchange and interexchange telecommunications services in Pennsylvania. IntelPeer will offer basic local exchange services, custom calling features, and interexchange toll services, including toll free services, to business and enterprise customers.**

**While IntelPeer will not initially offer prepaid local exchange and interexchange services, IntelPeer may offer such services in the future. IntelPeer may also provide access services to payphone service providers. IntelPeer will offer basic local exchange services, custom calling features, and interexchange toll services, including toll free services, to business and enterprise customers. Facilities-based local exchange service will be provided via (1) commercial wholesale agreement with incumbents, (2) IntelPeer's own facilities, or (3) a combination thereof. Initially, toll services will be provided via IntelPeer's underlying long distance carrier. IntelPeer, however, seeks the full range of resold and facilities-based local exchange and interexchange authority so that it can have the flexibility in provisioning services in the future.**

**IntelPeer seeks to offer service throughout the service territories of Verizon-North, Inc., Verizon Pennsylvania, Inc., and United Telephone Company of PA d/b/a Embarq within Pennsylvania. Specific services are described in the Company's attached tariffs; as services are added or changed, the Company will make appropriate revisions to its tariffs, as required by law and Commission rules.**

**Grant of this application will promote the public interest by increasing telecommunications service competition in Pennsylvania. IntelPeer will provide customers with high quality, cost effective telecommunications services, with an emphasis on customer service. In addition to driving prices closer to costs, thereby ensuring just and reasonable rates, competition also promotes efficiency in the delivery of services and in development of new services. These benefits work to maximize the public interest by providing continuing incentives for carriers to reduce costs while, simultaneously, promoting the availability of potentially desirable services.**

11. **SERVICE AREA:** Describe the geographic service area in which the Applicant proposes to offer services. Clearly and separately delineate the service territory for each category listed in Item #9. For Competitive Local Exchange Carrier operations, you must name and serve the Incumbent Local Exchange Carriers in whose territory you request authority.

***IntelePeer proposes to offer service throughout the service territory of Verizon-North, Inc., Verizon Pennsylvania, Inc., and United Telephone Company of PA d/b/a Embarq within Pennsylvania.***
