Reference: Proposed PAWC Sewer Rate Increase.

Our concerns, related to the PAWC Sewer Rate increase:

The Water and Wastewater treatment plants that was built to support the "Blue Mountain Lake" development and was able to handle the Water and Waste Water without an expansion of the treatment plants.

Now, that other subdivisions are using the Blue Mountain Lake Water and Wastewater treatment systems, and the Water and Waste Water processing needs to be expanded to properly process the Water and Wastewater.

Question: Why does the Property owners in Blue Mountain Lake subdivision, have to pay for the expansion program to support the other subdivisions using the Water and Wastewater Plant?

The other subdivisions should have to support the expansion cost, to support their needs, not Blue Mountain Lake subdivision.

Please, respond to my question, so I can understand the Major increase costs to my Water/Wastewater processing monthly bill. The Blue Mountain Lake property owners paid for their part of the cost of the Water/Wastewater treatment plants, when they purchased their property.
