Chairman of the Board
and Chief Executive Officer

435 Sixth Avenue
Pittsburgh, Pa. 15219

NOTICE

THIS TARIFF MAKES CHANGES IN EXISTING RATES—See Page Two.

RULES AND REGULATIONS — (Continued)

INSTALLATION OF SERVICE

6. INSTALLATION RULES. Service installations shall be made in accordance with the Company's "Electric Service Installation Rules," copies of which may be obtained at the Company's offices.

7. OVERHEAD DISTRIBUTION LINES. The Company will construct, own and maintain extensions of overhead distribution lines, used or usable as part of its general supply system and operating at potentials of 23,000 volts or less, without revenue guarantees other than those set forth in the applicable rate, provided the applicant will furnish the necessary rights-of-way, easements, and tree-trimming rights on private property without expense to the Company.

Extensions other than those described above will be made in accordance with Rule 8.

8. CONNECTION CHARGES. When in its judgment the cost of the necessary facilities is not justified by the revenue to be obtained, the Company reserves the right to make a reasonable charge for (a) extensions of supply lines other than those described in Rule 7, (b) service connections, and (c) equipment installed for the exclusive use of a customer. In lieu of the advance payment of such charge, the customer may elect to protect the Company by a guarantee of sufficient revenue, the deposit of security, the term of the service contract, or such combination thereof as may be agreed upon.

9. UNDERGROUND DISTRIBUTION. Where the Company is required to change from overhead to underground distribution, the customer shall provide at his own expense the necessary facilities for receiving such underground service.

9.1 DISTRIBUTION WITHIN A BUILDING. Where a single building will contain two (C) or more customers who will receive service directly from the Company, the Company will furnish, install, own, operate and maintain new facilities for delivery of service to the load side of the meters supplying such customers if (a) in the Company's judgment the cost of so doing is justified by the revenues to be obtained, and (b) the Company is furnished easements on private property under terms satisfactory to the Company.

10. ONE SERVICE OF A KIND. Only one service of each type as to voltage and phase will be supplied to a customer under one contract; provided, however, that when, in the judgment of the Company, compliance with Rule 17, Fluctuations and Unbalances, may be most economically effected by establishing a separate service connection for a portion of the customer's load, such separate service connection may, at the option of the customer, be combined, notwithstanding similarity as to voltage and phase, with other service connections under a single contract for the customer's entire electric service requirements at the affected location. Services at different points shall be metered and billed under separate contracts.

11. METER SUPPORTS. The customer shall provide on the premises, at a location satisfactory to the Company, proper space, supports, and enclosures for metering equipment.

12. TRANSFORMERS AND CONTROL EQUIPMENT. Where, in the judgment of the Company, it is necessary to install transformers and other control or protective equipment on the customer's premises, the customer shall provide a suitable place, foundation and housing for such installation, in accordance with the Company's "Electric Service Installation Rules."

13. CUSTOMER'S FACILITIES. The installation and maintenance of the customer's wiring and equipment shall be in accordance with the Company's "Electric Service Installation Rules" and shall be subject to the approval of the proper authorities. The Company is not required to deliver service thereto unless so approved, but does not assume any responsibility for securing such approval. The Company shall not be liable for damages or injuries resulting from any defects in the customer's wiring or equipment.

(C) Indicates change.

RULES AND REGULATIONS—(Continued)

**DISCONTINUANCE, CURTAILMENT, OR INTERRUPTION
OF ELECTRIC SERVICE—(Continued)**

29. **UNDERGROUND SERVICE.** The Company reserves the right to shut off the supply of electric service and remove its equipment from the premises upon reasonable notice when the customer refuses or neglects to provide at his own expense the necessary facilities for receiving underground service, as provided under Rule 9.
30. **HAZARDOUS AND IMPROPER CONDITIONS.** The Company may shut off the supply of electric service and remove its equipment from the premises upon reasonable notice if in the judgment of the Company the customer's installation has become dangerous or defective, or if the Company has received a notice from the proper authorities that the customer's equipment is dangerous or defective, or if the customer's equipment or use thereof injuriously affects the equipment of the Company or the Company's service to other customers.
31. **MISREPRESENTATIONS.** The Company reserves the right to shut off the supply of electric service and remove its equipment from the premises upon reasonable notice in case the customer has made misrepresentations to the Company with respect to the use of the electric service.
32. **REDISTRIBUTION.** The Company reserves the right to shut off the supply of electric service and remove its equipment from the premises upon reasonable notice in case the customer redistributes the electric service contrary to the provisions set forth in this tariff. (C)
33. **INACCESSIBILITY.** The Company may shut off the supply of electric service and remove its equipment from the premises upon reasonable notice in case meter readers or other authorized representatives of the Company cannot gain admittance or are refused admittance to the premises for the purpose of reading meters, making repairs, making inspections, or removing Company property, or in case the customer interferes with Company representatives in the performance of their duties.
34. **TAMPERING.** The Company may shut off the supply of electric service and remove its equipment from the premises upon reasonable notice in case the Company's property on the premises has been interfered with, or in case evidence is found that the service wires, meters, switch-box or other appurtenances on the premises have been tampered with.
35. **REPAIRS AND LOSSES.** The Company may shut off the supply of electric service and remove its equipment from the premises upon reasonable notice in case the customer shall neglect or refuse to reimburse the Company for repairs to or loss of the Company's property on the premises when such repairs are necessitated, or loss occasioned, by negligence on the part of the customer.
36. **WRITS AND LEVIES.** The Company reserves the right to shut off the supply of electric service and remove its equipment from the premises upon reasonable notice in case a Writ of Execution is issued against the customer, or in case the premises at which service is supplied is levied upon, or in case of assignment or act of bankruptcy on the part of the customer.
37. **INTERRUPTIONS FOR REPAIRS.** The Company reserves the right to curtail or temporarily interrupt customer's service upon reasonable notice when it shall become necessary so to do in order that the Company may make repairs, replacements, or changes in its equipment on or off the premises of the customer.
38. **GOVERNMENTAL AUTHORITY.** The Company reserves the right to curtail, interrupt, or discontinue the supply of electric service without notice in case it becomes necessary for the Company so to do in compliance with any order or request of any governmental authority.

(C) Indicates change.
