| Re: Allan Shuman v. PECO Energy Co. PUC Docket # C-2010-2214182 | | |
| Dear Ms. Chiavetta: | | |
| Please note that this is a response denying & correcting the enclosed New Matter. I am also sending a copy to Ms. Williams at PECO Energy Co. | | |
| I am not very good with technical legal matters but all I am trying to say is that - | | |
| i- The wires leading out from that apt. were for that tenants use. ie - | | |
| a- the wires that went out to the landing was for her landing & consisted of 2 tiny Flame type 30 watt bulbs. | | |
| b- the wires to the garage were for her use & serviced 2- 40 watt Florescent bulbs that were only on when she & she alone used them. | | |
| c- the wires to the basement went to one 100 watt bulb that was below her garage & to my knowledge was never used but could only be used by that tenant (& of course I had a key but didn't use the garage or basement). | | |

Re: Allan Shuman v. PECO Energy Co.
PUC Docket #C-2010-2214182

2- They all serviced her needs & couldn't have totaled more than a few dollars per month.

3- I never recieved notification that an investigation was going on or being decided on. I only found this out after the tenant had moved & didn't pay 3 months of bills. I have no idea where she is now. I could have pointed all this out if PECO had asked

4- This was very unfair & arbitrary on PECO's part, & I feel they should take responsibility for it. I have never in 71 years had a complaint with the PUC. I have always paid my bills but this is just not right.

Thank you for your consideration.

Sincerely,

Allan Shuman
